1st step: what articles do we need?

WIKIMEDIA
FOUNDATION

**We defined 1.800 topics,
but we are not limited to
that.**

**And a simple idea:
let give them to
University students
so they can improve
or create them as a
classroom
assignment.**

**We have been
with at least
130 classrooms.**

And at least 2.200
students have worked
with us, improving
1.740 articles.

Students have added more than 2 million words.

This is the 5% of Basque Wikipedia words. In one year.
