CHOICE
FLOWER
BULBS

174 SOUTH GROVE ST.

East Orange

NEW JERSEY

THE growers who produce our bulbs on contract, have our explicit instructions to send us only the very best the season affords.

We pay a premium for these specially picked stocks, and we feel confident that no finer bulbs can be purchased anywhere.

Our stocks of GLADIOLUS cover the very finest varieties in commerce today. We go over our lists each year, and with the record of our field observations before us, we eliminate those that have not proven themselves up to our standards of *merit* and *quality*, while new varieties that show improvements on older types are added.

The quality of my bulbs has proven their worth by the many awards in competition at all the leading Flower Exhibitions.

GLADIOLI

In the following lists will be found practically every worth-while *Gladiolus* of the present day, both the latest introductions and the best of the older and better known sorts.

The bulbs are of the highest quality, well-grown, carefully harvested and stored, and are top size that the crop affords, measuring $1\frac{3}{4}$ inches and up, in diameter, according to variety.

Varieties marked thus (*) are especially recommended for forcing.
