

WILDERNESS STUDY REPORT FEDERAL LAND MANAGEMENT BUREAU

Tuesday
March 3, 1981

Part II

Department of the Interior

Bureau of Land Management

List of Wilderness Study Areas

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

List of Wilderness Study Areas

AGENCY: Bureau of Land Management, Interior.

ACTION: List of Wilderness Study Areas.

SUMMARY: This notice contains supplemental information on wilderness study areas administered by the Bureau of Land Management (BLM) in the contiguous Western States as of January 1, 1981, and published in the *Federal Register* on January 19. The supplemental information is published to assist the public in locating the wilderness study areas and to make minor corrections in the January 19 publication.

Members of the public who wish to participate in wilderness studies of particular areas listed here are invited to write to the appropriate BLM State Directors listed in Appendix A, and make their interest known. There will be opportunities for public participation in all the studies.

FOR FURTHER INFORMATION CONTACT: Questions about particular wilderness study areas should be directed to the appropriate BLM State Directors, whose addresses appear at the end of this

notice. Questions about the nationwide aspects of the program should be directed to the Division of Wilderness and Environmental Areas (430), Bureau of Land Management, 18th and C Streets NW., Washington, D.C. 20240. Telephone (202) 343-6064.

RESULT OF THE INVENTORY: As a result of all BLM wilderness inventory efforts, as of January 1, 1981, there is a total of some 24 million acres of public land under study as wilderness study areas or instant study areas. Also as a result of the wilderness inventory, some 149 million acres have been determined to lack wilderness characteristics; these will not be considered further in the wilderness review.

Some of the wilderness inventory decisions are subject to change at a later date as a result of decisions on protests and appeals.

The total figures shown in Table I below have changed from those in the Statistical Summary Table (Table I) published in the *Federal Register* on November 14, 1980 (45 FR 75575.). The changes are a result of the following:

1. Corrections have been made to account for acreage according to State political boundaries instead of BLM administrative boundaries.

2. Certain lands in Colorado were identified as wilderness study areas,

contingent upon the status of contiguous Federal lands administered by the U.S. Forest Service as proposed wilderness areas. Congress acted, denying wilderness designation to the contiguous lands, and therefore the BLM-administered lands ceased to be wilderness study areas.

3. Corrections have been made to eliminate double-counting of acreage in some wilderness study areas that overlap State boundaries.

4. The number of Wilderness Study Areas has been corrected to recognize as separate WSA's those areas which may have previously been combined as subunits of a single inventory unit.

5. The acreage figures for Arizona have been corrected to reflect lands for which the inventory is still in progress.

In addition, more precise geographic identification is provided to assist the public in locating each wilderness study area.

The results of the inventory are presented in three tables below:

Table I. Statistical Summary Table
Table II. List of Wilderness Study Areas

Table III. List of Instant Study Areas

Dated: February 25, 1981.

Ed Hasteley,
Acting Director.

Table I.—Statistical Summary Table

[BLM wilderness inventory results¹ as of Jan. 1, 1981]

Contiguous Western States	Public lands subject to wilderness inventory (acres)	Identified as wilderness study areas ²		Determined to lack wilderness characteristics (acres)	Inventory still in progress (acres)
		Number of areas	Acres		
Arizona.....	12,596,000	124	2,994,000	8,780,000	822,000
California.....	16,585,000	230	5,838,000	10,747,000	0
Colorado.....	7,896,000	86	790,000	7,203,000	3,000
Idaho.....	11,949,000	63	1,627,000	10,070,000	252,000
Montana.....	8,140,000	45	466,000	7,628,000	46,000
Nevada.....	49,118,000	121	5,249,000	43,766,000	103,000
New Mexico.....	12,847,000	54	1,053,000	11,785,000	9,000
North Dakota.....	68,000	0	0	68,000	0
Oklahoma.....	7,000	0	0	7,000	0

Washington.....	310,000	3	6,000	304,000	0
Wyoming.....	17,793,000	49	585,000	17,208,000	0
Total.....	173,727,000	³ 967	23,689,000	148,523,000	1,515,000

¹ Figure represents final intensive inventory decisions, some of which are subject to protest and appeal. There may be changes in acreage at a later date as a result of decisions on protests and appeals.

² Includes instant study areas (ISA's) in State total for areas and acres.

³ Excludes Alaska (1 ISA) and double counting interstate units.

Table II.—BLM Wilderness Study Areas (WSA's)

[Excludes instant study areas]

Reference number meaning:

¹ Crosses State political boundaries.

² Crosses BLM resource administrative boundary.

³ Abuts wilderness area or study area on lands administered by Federal agency other than BLM.
