MEMORANDUM:

TO : Each Individual on May-June Dependent Housing Seniority List

1. In compliance with par 2c of General Headquarters, AFPAC letter AG 624 (18 April 46)GD Subject: "Assignment of Abodes for Dependent Housing in the Tokyo Area", the following procedure will be used in order to expedite the inspection, selection and assignment of the individual abodes.

2. The lack of housing in the Tokyo area requires maximum use of space. It is hoped, therefore, that the number of dependents of an individual will be given great weight in his selection of an abode. Consideration of this aspect of the problem will prevent individuals with a large number of dependents from being forced to choose cramped quarters.

3. It is desirable and encouraged that officers, civilians, and enlisted personnel eligible for assignment of an abode as listed in inclosure number 2 (Seniority List No. 1) of the above reference, individually inspect and classify abodes in order of desirability.

a. Tours with guides for the inspection and selection of an abode for all personnel eligible as stated in Seniority List No. 1, will be conducted daily from the new motor pool across from the Finance Building starting 25 April 1946 and ending 5 May 1946. Appointments may be made for making any of these tours by calling the Billeting Office, Phone No. 22-663, between the hours of 0800 and 1700, daily. Schedules for all tours and the list of abodes by Card and U.S. Numbers are inclosed for your convenience in selecting abodes.

4. All personnel listed on Seniority List No. 1 will be present at a meeting to be held at 1900 hours, 6 May 1946, in the Auditorium, 4th floor, Finance Building. Assignments of abodes will be made at that time. Personnel who are unable to attend the meeting, will have a representative present who will be empowered to select and sign for the desired abode. Personnel will not move into the abode until notified by the Headquarters Commandant that the abode is completed and ready for occupancy. The individual then will be required to occupy it in order to relieve the present crowded condition in billets and to protect the furnishings and fixtures in the assigned abode.

5. Individuals who are assigned abodes will not give any instructions to the military personnel or contractor in charge of renovation and rehabilitation of the abode, or in anyway interfere with the work in progress. Persons are requested not to contact the Headquarters Commandant or his representative as to individual desires prior to occupancy. After occupancy, the individual to whom the abode was assigned may submit a request to the Headquarters Commandant (attention Service Battalion) for additional repairs or changes which he feels are necessary to make the abode more habitable. If the request submitted is determined necessary, it will be completed as soon as practicable and consistent with job priorities.

MEMORANDUM:

TO : All Staff Sections

SUBJECT : Processing Action Papers

1. Every effort must be made to expedite the flow of coordinated Staff work through this Headquarters. To this end, methods and procedures must be determined on the basis of the problem presented by each individual action, and never utilized simply as a matter of form.

2. No inflexible method of handling actions can or will be prescribed however, the following points should be considered in determining the method by which an action will be completed.

a. The greatest possible use should be made of informal contacts between staff officers by telephone or personal visit.

b. Actions involving more complex factors which require an exchange of views or a resolution of differences can, in many instances, be settled by a conference. In order to be successful, a conference must be attended by representatives who have been previously informed of the subject to be considered, are supplied with the necessary information, and have been definitely informed of the scope of their authority in speaking for their sections. In some cases, it is more practicable to furnish the subject matter at a first conference and take final action at a second conference, with a suitable interval between the two meetings to allow intra-staff coordination.

c. Papers requiring formal concurrences must of necessity be forwarded through the sections concerned, but such action should be based on previous informal concurrences or conference results. Where practicable formal concurrences should be personally carried through various offices.

d. In the extreme case where information in writing is required from a number of sections, the basic communication should be dispatched simultaneously to those sections by means of multiple check notes.

3. The inclosed papers illustrate the extreme delay that resulted from a combination of routing a basic paper consecutively through a number of staff sections on a single check sheet and of forwarding a basic paper which will obviously require information from a number of staff sections to one section at a time. Attention is invited to the following chronological record of the case in question. It is a prime example of

PROBLEM: Interpretation of memorandum to the Imperial Japanese Government AG 091.112 (12 Dec 45) CI subject: "Restriction o. Nationals of Countries with which United Nations have been at War" as requested by the Japanese Government in letter C.L.O. No. 1333 (5.1) 24 Dec 45.

DISCUSSION: 1. The questions posed by the Japanese Government in their letter C.L.O. No. 1333 (5.1) were circulated through G-2, Public Health, POLAD, ESS and Government Section for their commend and recommendation. (See enclosed check sheet.

2. The recommendations of Government Section embody a change of policy and consequently require the publication of the proposed directive.

3. In essence the changes in policy are as follows:

a. To relieve from the provisions of the directive the representatives of Finland and of the Italian-Badoglio Government since these governments are now considered frienaly to the United Nations.

b. To exclude from consideration a. diplomatic representatives, those individuals who represented puppet governments as those governments were truly collaborationist and were never recognized by the United Nations as the official government of the country.

4. The remainder of the provisions of the proposed directive are interpretations of the reference memorandum and are based upon the recommendations of the sections concerned. (See enclosed check sheet.)

SUBJECT: Restrictions of Nationals of Countries with which United Nations have been at War.

C.L.O. No. 1333 (5.1)

24 December 1945

With reference to your Memorandum AG 091.112 (12 Dec 45) CI, subject: "Restrictions of Nationals of Countries with which United Nations Have Been at War", the Imperial Japanese Government wishes to request the General Headquarters of the Supreme Commander for the Allied Powers to be good enough to make clear the following points:

(A) With regard to the Paragraph a of your Memorandum mentioned above:

(1) Is it correct to understand that those who are treated under the regulations of the Paragraph a of your Memorandum mentioned above are as follow?

(a) Ex-German Embassy
(b) Ex-Fasist Italian Embassy
(c) Ex-Roumanian Legation
(d) Ex-Hungarian Legation
(e) Ex-Chinese Embassy of the Nanking Government
(f) Ex-Philippine Embassy
(g) Ex-Burmese Embassy
(h) Ex-Manchukuo Embassy

(2) Is it correct to understand that the restrictions set forth in the Paragraph a of the afore-mentioned Memorandum of yours are also applicable to the families of these diplomats?

(3) Is it correct to understand that the retinue of the career diplomats are also covered by the above-mentioned Paragraph a ? The Foreign Office is furnishing them rations on certain standard as members of Embassies and Legations although they are not regarded as diplomats in the strict meaning of the word.

(4) While these diplomats and other members of the Embassies and Legations are living in houses or

hotels renting them on a contractual basis, is it meant by (1) of the Paragraph a of your Memorandum that the places are to be selected anew for them or the Japanese Government is to establish and maintain them at its own expense, although the Foreign Office deems it suitable to let them stay where they are now on the contractual basis as mentioned above?

(5) Though the German and Italian diplomats who are living at Kawaguchi and Hakone are instructed by the local Counter Intelligence Corps Detachments not to travel without permission, it seems that those who are living in Tokyo and Karuizawa have not yet been given such an instruction by the local Counter Intelligence Corps Detachments. It is, therefore, requested that the Counter-Intelligence Corps Detachments concerned should take necessary steps to notify them duly about this matter, meanwhile the Japanese Government will notify them in the same line.

(6) With regard to the future travelling restrictions of these diplomats, the Foreign Office would like to notify them by a circular that they are permitted to travel after notifying the Foreign Office in Tokyo or the local offices of the Foreign Office at Karuizawa, Kawaguchi and Hakone respectively, upon authorization by the local Counter Intelligence Corps Detachments. As the war-time travelling restrictions of foreigners have been abolished, it is hardly possible to cheque foreigners who are travelling by automobile or train. It is, therefore, impossible for the police to fully regulate the travelling of these diplomats, but the Japanese Government expects that self-restraint on the part of these diplomats will bring about favorable result.

(7) With regard to (2) of Paragraph a of your Memorandum to "supply them with food and daily necessities on the standard ration system":

(a) Is it correct to understand that they are supplied on the purchase basis as have been done up to date (The Japanese Government is not only in no way to be charged of living expenses of these diplomats, but also it is considered against the international usage in regard to diplomatic personnel.)

(b) Is it correct to understand that by "Standard Ration System" it is meant that diplomatic ration, that is, that which was reported in our note C.L.O. No.180, is to be continued?

COPY
3.

(c) It has been reported that some of the diplomats of ex-Axis countries have had their stock of foodstuffs frozen or confiscated (the case occured at Gora Hotel on 15 December). Is it expected that such measures are going to be taken generally, though the Japanese Government has not yet been informed of the reason for such measures?

(8) Many of these diplomats have lost their sources of income, on account of restrictions set forth in your Memorandum AG 091.4 (2 Oct 45) ESS, i.e. not exceeding 1,500 yen per month per head of family and 500 yen per each member of family for the living expenses, and, especially in the case of the German and Italian diplomats, owing to the fact that their cash has been frozen and the payment of salary has been suspended. They are paying the rent and foodstuffs out of their own fund on the individual contract or purchase basis and in the face of present condtitions of high prices it is quite difficult for them to keep the proper standard of living as diplomats with the monthly allowance of 1,500 yen, etc. In particular in case of those who live in hotels, each member of the family is charged as much as the head of the family, which makes the matter still more difficult. On the other hand, the Japanese Government deems itself in no way to be responsible for their living expenses. It is, therefore, requested that the frozen fund of Germany be released so that adequate amount of fund may be secured for the living expenses of the German diplomats. In case the General Headquarters is negative in this respect it might become necessary to move them to hotels or houses with cheaper rent, which, it is feared, might bring about a result at variance with the international usage in regard to diplomatic personnel. It is also requested that it be made clear that with regard to this moving the same policy will be followed as was mentioned in your Memorandum AG 091.112 (6 Nov 45) CIS referring to our Memorandum C.L.O. No.481 dated 6 November 1945.

(B) With regard to Paragraph b of your Memorandum:

(1) Is it correct to understand that this paragraph is applied to the nationals of such countries as Germany, Bulgaria, Hungary and Roumania (not including Italian, Finnish and Siamese nationals; (refer to your Memorandum AG 312.4 (31 Oct 45) GS)?

(2) With regard to the restrictions imposed upon these nationals, a new imperial ordinance will be issued.

It is requested that the General Headquarters

would kindly authorize the Japanese Government to set forth under-mentioned provisions in the Imperial ordinance in order to insure its effective enforcement.

(a) They shall get permission of the local Japanese police authorities as well as that of the local Counter Intelligence Corps Detachment for the movement out of the prefecture where they are living.

(b) Penalty be set forth for those who violate the provisions of the Imperial Ordinance.

(C) With regard to Paragraph c of your Memorandum:

Is it meant by this paragraph that your Memorandum AG 601 (16 Oct 45) GD is supplemented by this Memorandum and continues to be valid and that your Memorandum AG 091 (29 Oct 45) GD also continues to be valid?

FOR THE PRESIDENT:

OFFICE OF THE UNITED STATES POLITICAL ADVISER

Tokyo, Japan, January 12, 1946.

MEMORANDUM FOR: Office of Chief Civil Intelligence Officer.

Reference is made to OCCIO's memorandum January 4, 1946, with which there was forwarded copy of a memorandum from the Japanese Government (C.L.O. No. 1333 (5.1) dated December 24, 1945). Comment by this Office on the questions raised by the Japanese Government was requested.

The following numbering conforms to that used in the Japanese Government's memorandum under reference:

(A) (1) The list of former embassies is believed to be generally correct. However, some question might be raised in regard to the treatment to be accorded to the members of the former "Philippine Embassy".

(2) It is believed that the restrictions should apply to the families as well as to the diplomatic officers themselves.

(3) It is believed that all nationals connected with any particular mission, such as clerical personnel and other subordinate employees, should be included.

(4) It is believed that they might stay where they are at present.

(5) We have no particular comment in this connection.

(6) No comment.

(7) (a) Supplies should continue to be furnished on a "purchase basis".

(b) We have not received copy of C.L.O. No. 180 and are therefore unable to comment on this question.

(c) We lack the background to comment in this connection.

COPY
7.

(8) It is recommended that, if necessary, more funds should be released to the Axis nationals.

(B) (1) No comment.

(2) (a) It is suggested that the former diplomats be required to get the permission of the local Japanese police authorities as well as that of the CIC detachment.

(b) It is not believed any penalty should be imposed by the Japanese. SCAP might restrict to quarters violators of SCAP regulations.

5 | FROM: Govt Sect TO: OCCIO DATE: 26 Feb 46

Government section's comments below correspond in numbering to CLO 1333 (5.1) under reference and to POLAD's memorandum:

(A.) (1) Paragraph a of Memorandum to the Japanese Government AG 091.112 (12 Dec 45) CI under reference should be interpreted to include diplomatic and consular representatives (and staffs), rather than Embassy and Legation staffs alone.

In addition to the Finland representatives, paragraph a should also have excepted the Finnish representatives and those Italian representatives who declared allegiance to the King and the Badoglio Government, as Finland and Italy are also considered friendly. The Japanese Government is correct in excluding these representatives from its list.

The question raised by POLAD in regard to the treatment to be accorded to the former Philippine representatives is well taken, but should apply with equal force to the other former puppet representatives, i.e. the personnel of the former Burmese, Nanking Chinese, and the Manchukuoan Embassies and consular offices. These representatives should be restricted in accordance with paragraph a (1) and (3) of the Memorandum under reference, but the Japanese Government should not have been instructed in paragraph a. (4) to "treat them in accordance with international usage of the diplomatic personnel," since they were not diplomatic representatives of countries recognized by the Allies, but were, in fact, representatives of traitorous collaborationist governments. Diplomatic treatment should, however, be accorded to

COPY
11.

(5) continued

the former diplomatic and consular representatives of recognized enemy countries, i.e. the personnel of the former German, Fascist Italian, Hungarian, Roumanian and (if any) Bulgarian Embassies or Legations and consular offices. Although the Italian Fascist Republic was not recognized by the Allies, its former representatives in Japan are included in this category since their original status was that of representatives of the recognized government of Italy.

Paragraph 4 (4) of the Memorandum under reference states that diplomatic treatment shall be accorded enemy and puppet diplomats "pending determination of their official status by this headquarters." Recommend that that status be determined now in accordance with the foregoing and that the Japanese Government be so advised.

(2) Concur with POLAD.

(3) Concur with POLAD.

(4), (5) and (6) These items appear to be largely matters of enforcement to be determined by OCCIO. Relative to (4), in view of the differentiation in treatment recommended in paragraph (4) (1) above, it might be well to quarter the puppet representatives separately from the representatives of enemy countries who are entitled to diplomatic treatment. Relative to (5), recommend that enforcement be uniform.

(7) (a) Concur with POLAD and in par 4 of ESS's comment.

(b) In conformity with par (4) (1) above, recommend that "diplomatic rations" be given only to the former diplomatic and consular representatives of enemy nations entitled to diplomatic treatment, and not to the representatives of the puppet governments, who should be fed on the standard ration system.

(c) Nothing to add to par 3 of PH&W's comment.

(8) Concur in paragraph 2 of ESS's comment.

(B) (1) The Japanese Government's interpretation conforms to this Headquarters' definition of enemy nations as set forth in Memorandum to the Japanese Government AG 312.4 (31 Oct 45), subject: "Definition of United Nations', Neutral Nations', and 'Enemy Nations'". Recommend that the provisions of paragraph b of Memorandum to the Japanese Government AG 091.112 (12 Dec 45) CI under reference be limited to nationals of enemy nations as defined in the aforementioned memorandum rather than apply to nationals of all "countries with which the United Nations were at war", which would include Italian, Finnish, and Siamese nationals, now considered friendly.

(2) (a) With reference to POLAD's comment, the provisions of paragraph b do not apply to diplomats, but to "other nationals" of enemy countries. It is not believed advisable to require such nationals

COPY

(5) continued

to get the permission of the local Japanese police authorities as well as that of the local CIC detachments, as this would put the Japanese in a position to veto permission granted by a CIC detachment. It is recommended, however, that enemy nationals be required to inform the local Japanese police authorities of permission granted by CIC detachments.

(b) Penalties should not be imposed by the Japanese. Recommend that the Japanese police be instructed to report violations to the local CIC detachments and that penalties, where necessary, be imposed by the occupation forces.

(C) No comment.

TO : All Chiefs of Sections, GHQ, SCAP, AFPAC.

1. The elevator service in office buildings is being seriously hampered by the actions of some of the enlisted men of the various staff sections.

2. It is necessary that the elevators be operated by Japanese. In many instances, the enlisted men abuse the operators if the operator will not violate operating instructions when told to do so by the soldier. At times, the soldier will take over the operation of the elevator from the assigned operator. In many instances, also, the posted maximum load limit is not observed.

3. In the Dai Ichi Building the elevators at the front and in the south east corner of the building will not be used by enlisted men when going to and from mess.

4. It is requested that you assist me in improving the elevator service by requiring that the personnel of your section observe operating regulations and that the officers of your section take an active part in correcting any violations.

OVERSEAS TELEPHONE SERVICE

GENERAL INFORMATION

Some of the most common questions regarding overseas telephone service from Tokyo to the United States are answered below, for your information and guidance:

1. HOW DO I MAKE AN OVERSEAS TELEPHONE CALL?

First, you must obtain approval from a duly authorized officer, such as the Special Services Officer of a Division, Corps, or Army. GHQ, ATIS, FEAF, Signal Operations Group and Navy have designated officers to approve calls for their personnel. (This approval is required because only a limited number of calls can be handled each day and it is desired to give priority to emergency calls.) If the officer to whom you apply approves your call, fill in the blanks on the application form which he gives you. If you are not stationed in Tokyo, he may also be able to help you to select a suitable date and time so that you will not have to wait an unnecessarily long time in Tokyo.

Second, present your approved application at the Overseas Telephone Office in Tokyo Central Telephone Building, about three blocks north of the main Tokyo railroad station. If possible, do this 48 hours or more before you wish to make your call. (The San Francisco operator will then try to locate the called party and ask him or her to be near the telephone at the appointed time. This avoids unnecessary waiting on your part, and enables the operators to handle a much larger number of calls.) A deposit of ¥180 will be collected, and you will be given a receipt showing the date and time for which your call is scheduled.

Return to the telephone office at the scheduled date and time and show your receipt to the receptionist in the waiting room. She will notify you as soon as the party you are calling is on the line.

2. HOW MUCH DOES IT COST?

The charge for three minutes or less, from Tokyo to any place in the United States, is ¥180. For each minute of overtime, or fraction thereof, there is an additional charge of ¥60. There is a report charge of ¥11.25 if the call cannot be completed, for reasons beyond the control of the telephone administrations, after the called telephone has been reached. For example, this charge is made if the calling or called party is not available or refuses to talk.

An adjustment in the charges will be made if you have difficulty because of defective transmission.

Your call must be paid for at this end; collect calls are not accepted.

3. WHAT HAPPENS IF I CANNOT KEEP MY APPOINTMENT?

Apply again as soon as convenient and you will be given a new appointment or a refund.

4. HOW LONG CAN I TALK?

No arbitrary limit will be applied if this can be avoided. If many others are waiting it is hoped that you will limit your call to 5 or 6 minutes.

(over)

5. CAN I CALL A PERSON WHO HAS NO TELEPHONE?

An effort will be made to have the person notified by messenger so that he may come to the nearest telephone.

6. WHAT TIME IS IT IN THE U. S. NOW?

It is 17 hours earlier in California, and 14 hours earlier in New York.

"To the members of the Armed Forces at home and overseas:

On this Christmas Day I send a sincere and heartfelt greeting to you men and women of the United States Armed Forces who have brought us victory. I speak in behalf of a nation grateful for your service, your devotion and your sacrifice. We shall not forget the price you have paid.

There are many of you who must spend this day far from home. To you especially I want to express my hope for an early return to your homes and loved ones. We are doing our utmost to insure that the occupational duties that are so vital to the solidification of the peace may be successfully performed even as we strive to transform your dreams of return into reality.

Christmas Day is celebrated in honor of the Prince of Peace. He brought peace to the souls of men; you have helped bring peace to the nations of the world. Our prayer this day is that our world now may find a true and lasting fellowship of peace.

The following message from the Chief of Staff, United States Army is quoted for the information of all personnel of this headquarters:

"Christmas Message to the troops:

After nearly 4 years of bitter fighting, the American Army comes at last to a Christmas of peace. In battle areas strung across the world, Americans and their allies have battered implacable enemies into unconditional surrender. Because of this magnificent accomplishment, the nation will give thanks for victory in its Christmas prayers.

Our task continues as we make secure the peace, and this Christmas finds many of you far from home -- at lonely bases, at island stations, on occupation duties in the lands of our conquered enemies. Through your continued devotion to duty you are helping to insure that the victory won at such great cost will truly bring God's Peace to a weary world and some solace to the nations bereaved.

I send my warmest greeting both to the men and women still in uniform and to those who have laid aside their arms and returned to well-deserved reunion with their families. My gratitude to all of you is immeasureable. You have preserved the spirit of Christmas for our once more peaceful land.
