TERMS OF ADMISSION.

All candidates for admission must produce satisfactory evidence of good moral standing; and those from other Institutions are required to exhibit certificates of regular and honorable dismission.

Candidates for admission to the Freshman Class will be examined upon the advanced studies of the Preparatory Department, real equivalents being received in place of the prescribed course of Text-Books. (See page 21.)

Candidates for advanced standing will be examined in the previous studies of the class which they propose to enter. They will also be required to sustain a rigid, special examination on the English Language and Ancient and Modern Geography, (including Physical).*

Proficiency in English studies will be insisted on with no less strictness than in Ancient Languages and Mathematics. Correct spelling and expression will be taken into account at examinations.

No candidate is admitted into the College but by vote of the Faculty taken after his examination.

^{*}This requirement is rendered necessary by the frequent neglect of these studies by those who are otherwise qualified for admission into the higher classes. Unless the examination be sustained, such applicants, if admitted, are required to pursue these studies in a lower class.

THE CLASSICAL COURSE.

The graduate in this course receives the Degree of Bachelor of Arts.

FRESHMAN CLASS.

First Term.

Latin Grammar (Bingham).
Virgil.
Latin Prose Composition (Allen).
Greek Grammar (Goodwin).
Zenophon's Anabasis.
Greek Prose Composition (Arnold).

French begun.*
Algebra (Olney).
Universal History (Anderson).
English Grammar (Fowler).
Exercises in English—Orthography,
Orthoepy.

Second Term.

Latin and Greek Grammar.
Cicero's Orations.
Herodotus.
Latin and Greek Prose Composition.
French.

Universal History (Anderson).
Geometry (Wentworth).
Rhetoric (Hart).
Etymology.
Physiology and Hygiene—Lectures.

Declamation and Composition during the Session.

SOPHOMORE CLASS.

First Term.

Latin Grammar (Allen & Greenough).
Horace's Odes.
Livy (Lincoln).
Greek Grammar (Goodwin).
Homer's Iliad.
Latin and Greek Prose (Arnold).

French continued. Algebra Completed (Olney). Ancient Literature (Quackenbos). Rhetoric (Blair). Natural Theology (Paley).

Second Term.

Latin Grammar.
Cicero de Oratore.
Greek Moods and Tenses.
Demosthenes de Corona.
Latin and Greek Prose.

French.
Trigonometry and Surveying (Ray).
Constitution and Constitutional History of the United States.
Mental Philosophy (Haven).

Declamation and Composition during the Session.

^{*} For the Degree of Bachelor of Arts, the student may elect between French and German.

JUNIOR CLASS.

First Term.

Latin Grammar. Horace's Sermones et Epistolæ. Greek Moods and Tenses. Plato's Gorgias (Woolsey).
Latin and Greek Prose (Allen and Greenough.) | Chemistry (Roscoe's).
English Literature (Shaw).

German begun. Analytical Geometry (Loomis). Mental Philosophy (Haven).

Second Term.

Tacitus's Germania et Agricola. Cicero de Officiis. Euripides's Alcestis (Woolsey). Latin and Greek Prose. German.

Natural Philosophy (Suell's Olmsted). Logic (Jevons). Botany (Wood's Class-Book). (Optional). International Law.

Declamation and Composition during the Session.

SENIOR CLASS.

First Term.

Cicero de Senectute et Amicitia. Plautus's Capteivei. Æschylus's Prometheus (Woolsey). German continued. Evidences of Christianity (McIlvaine).

Rational Psychology (Hickok). Astronomy (Ray).
Political Economy (Bowen). Geology (Le Conte).

Second Term.

Latin continued. Greek continued. German. Mechanics.

Butler's Analogy. Moral Philosophy (Hickok). Rational Psychology (Hickok). History of Philosophy—Lectures.

Partial Review of the Course.

THE SCIENTIFIC COURSE.

The Scientific Course differs from the Classical Course in omitting Greek entirely and Latin after the Junior year, and in giving more extended instruction in the Modern Languages, Mathematics and Natural Sciences. In this Course, both Modern Languages are required for graduation. The additions in Mathematics and Natural Science include Differential and Integral Calculus, Field Work in Surveying and Leveling, Natural History, Botany and Mineralogy. Such additions will be made to the Scientific Course in future Sessions as the Faculty may deem expedient. The graduate in this Course receives the Degree of Bachelor of Science.

PARTIAL COURSE.

Persons who are unable to pursue the course required for the degree of Bachelor of Arts, or Bachelor of Science, are admitted to the privileges of the Institution, and are permitted to carry forward such studies as they may select with the approval of the Faculty. No option is allowed with respect to English and Mathematics, all students being required to pursue these studies, unless excused by reason of marked proficiency in them. Students taking the partial course receive instruction in the regular College Classes. Arrangements have been made by which efficient instruction will be given in Penmanship and Book-Keeping. Apart from the regular course, every effort is made to afford young men a good business education.

NORMAL INSTRUCTION.

All students will be permitted, without extra charge, to attend a Course of Lectures on the Science and Art of Teaching, by Hon-Wm. H. Ruffner, LL. D., for twelve years State Superintendent of Public Instruction in Virginia. This course of instruction is designed especially for students in preparation for the profession of teaching.

MODERN LANGUAGES.

The course of instruction in the Modern Languages extends through two years.

In this department two objects are kept steadily in view. First, it is sought to give the student a good reading and speaking knowledge of these languages. French and German are spoken almost exclusively in the Class-room. Secondly, these languages are made the basis of a general literary culture through criticism, studies in Comparative Philology, and lectures upon French and German literature. In the case of students who pursue a partial course, the attempt is made to supply, in some measure, through these media, that general philological and literary training usually acquired through classical studies.

The text-books in this department are:

GERMAN.

FIRST YEAR.—Otto's German Grammar, Oral and Written Exercises, and Ahn's First German Reader.

SECOND YEAR.—Otto's German Grammar, Gurcke's Deutsche Schulgrammatik, Oral and Written Exercises. This session the Senior Class read: Bilderbuch ohne Bilder (Andersen), Einer Muss heirathen (Wilhelmi), Eigensinn (Benedix), Immensee (Storm), and Die Einsamen (Heyse).

FRENCH.

FIRST YEAR.—Otto's French Grammar, Oral and Written Exercises, and Macmillan's French Reader.

SECOND YEAR.—Otto's French Grammar, Brachet's Nouvelle Grammaire Française, Oral and Written Exercises. This session the Class read: Voyage Autour de ma Chambre (Xavier de Maistre), Athalie (Racine), and La Littérature Française (Pylodet).

ENGLISH LANGUAGE AND LITERATURE.

The Faculty are profoundly impressed with the pre-eminent importance of a thorough English education. It is borne in mind that for practical purposes the English language is superior to any other; that the youth of our country must find their principal and noblest literary studies in the great works of their own tongue; and that a mastery of that tongue is the highest literary attainment.

The course of instruction in this department, determined by the foregoing views, includes not only the simple laws of syntax, and the principles of orthography and orthoepy, but also a thorough training in the refinements of Grammar, the idioms of the language, Rhetoric, Comparative Philology, and History of English Literature.

An accurate knowledge of English is deemed indispensable to advanced class standing.

In all written examinations, errors in English will be taken into account in making out the average standing of students, no matter upon what study the examination may have been given.

COMPOSITION AND DECLAMATION.

All classes in the College have weekly recitations in Composition and Declamation. These are heard by the different Professors, who offer criticisms on the exercises presented, and thus render them highly improving to the students.

The more advanced classes have themes assigned them for composition, and are required to discuss questions illustrative of prominent points in the studies pursued at the time.

The Seniors read Essays in turn once a week, in the College Chapel, before the whole body of students. The Faculty assign the subjects and criticise the Essays after they have been read.

GENERAL LECTURES.

Besides the regular class-room lectures, the President and other members of the Faculty deliver lectures upon subjects relating to methods of study, elements of success, and other practical life-topics to the body of students in the College Chapel.

PREPARATORY DEPARTMENT.

JOHN T. CRABTREE, A. M., Principal.

The Preparatory Department is under the immediate supervision of the Faculty, who take every precaution to afford the very best advantages to those preparing to enter the Freshman Class.

Young men entering this department have the same privileges and are under the same regulations as those in the College Classes.

Boys from a distance, entering this department, can be accommodated with board and lodging in the families of the Professors.

The Faculty insist upon the advantage of thus commencing study in a school preparatory to the class in which the student will continue his collegiate course, with the same instructors, and under the same regulations. Experience has shown that this can be done as cheaply and profitably at this institution, as at the High Schools of the country. The following is the prescribed

COURSE OF STUDY.

FIRST YEAR.

First Term.

English Grammar (Hart).

Modern Geography (Maury).

Arithmetic (Ray's, Part Third).

United States History (Ridpath).

Latin Grammar (Bingham).

Etymology.

Second Term.

English Grammar and Analysis.

Modern Geography, completed.

Arithmetic (Part Third), completed. | United States History (Ridpath).

Natural Philosophy (Steele).

Latin Grammar & Reader (Bingham).

Special exercises in Orthography, Dictation, Composition, and Elocution, during the year.

SECOND YEAR.

First Term.

English Grammar and Analysis.
Physical Geography.
Arithmetic (Ray's Higher).
Latin Grammar and Cæsar.

Greek Grammar (Goodwin), White's Exercises.
Algebra begun (Davies).

Second Term.

English Grammar and Analysis.
Lessons in Composition (Hart).
Chemistry (Steele).
Arithmetic (Ray's Higher), completed.

Special exercises in Orthography, Dictation, Composition, and Elocution, during the year.

EXAMINATIONS.

The examinations in the different departments are conducted by the respective professors and instructors, assisted by other members of the Faculty, and by the Committee of Examination appointed by the Board of Trustees. The examinations, both oral and written, are made sufficiently rigid to test the student's critical acquaintance with the studies pursued.

All examinations and recitations are graded on a scale of which 100 is the maximum.

An average grade of 75 is required for class advancement in each study.

The results of examinations, combined with general class standing, attendance, and deportment, decide the average grade or standing of each student. This average standing is made the basis of class advancement.

Absence from an examination, except for reasons of absolute necessity, is considered a serious delinquency. Such absence, unless excused by a vote of the Faculty, will debar the delinquent from class advancement.

A fee may be charged for extra examinations.

ENTRANCE EXAMINATIONS.

Students of the College who receive the required grade at the Final Examination of their classes, are promoted to the next higher class without further examination.

The regular examination of candidates for admission to the Freshman Class will commence on the first day of each session, at which time all applicants will present themselves prepared to sustain an examination in the studies prescribed.

An applicant prepared to enter the Freshman or a higher class, except in one or two studies, may be enrolled in said class subject to the requirement that within a reasonable time he make up the deficiency.

Every applicant is considered on probation for a time in any class he may enter; and if it shall appear that he cannot sustain himself in that class, he may be required to pursue studies in a lower class.

Candidates for admission to the higher College Classes will also be required to be present for examination at the opening of the session.

No applicant will be permitted to enter any of the College Classes at any time, without previous examination.

INTERMEDIATE EXAMINATIONS.

During the last week of the first term of five months, all classes (except the Senior) are examined in the studies pursued during the term.

Students found very deficient in any study, at this examination, will not be permitted to continue such study in the same class.

Deficiency at the Intermediate Examination will not, however, bar from class advancement at the Final Examination, provided such delinquency shall have been removed by diligent application during the second term.

FINAL EXAMINATIONS.

The Final Examination of the Freshman, Sophomore, and Junior Classes begins this year on the last Wednesday of May, and continues eight days. This examination embraces all the studies pursued by the respective classes during the session.

The Faculty meets on Friday preceding Commencement to pass upon examinations.

Students receiving the required grade are promoted to the next higher class.

Students found deficient in particular studies are notified of the same, and conditioned for re-examination at the opening of the next session. Those found generally deficient will not be permitted to enter a higher class.

No student will be permitted to enter a higher class without submitting to an examination.

EXAMINATIONS FOR GRADUATION.

BACHELOR'S DEGREE.

The examination of candidates for the Degrees of Bachelor of Arts and Bachelor of Science, begins annually on the Sixth Wednesday before Commencement.

The examination is conducted by the Faculty and the Examining Committee. It embraces such parts of the four years' course as may be prescribed by the Faculty.

By a resolution of the Board of Trustees, a grade of seventy-five in each Department is required for the Degrees of Bachelor of Arts and Bachelor of Science.

The Valedictory Oration is the first, the Greek Oration the second, and the Latin Salutatory the third honor of the Graduating Class. These honors are awarded according to scholarship.

In awarding the Honors and Distinctions, as well as in recommending for graduation, regard is always had to the moral character and standing of the candidates.

MASTER'S DEGREE.

The Degree of Master of Arts, by action of the Board of Trustees, will not be conferred, in course, as heretofore.

RULES OF EXAMINATION.

- 1. No book or paper shall be brought into the examination room.
- 2. No student shall hold any communication, either oral or written, with another, while under examination.
- 3. Each student is required to write his papers in a fair and legible hand, and sign his name thereto.
- 4. No student is permitted to leave the room until the completion of his papers, unless by special permission of the examining officer.
 - 5. Each student may retire when he has finished his exercises.

PRIZES AND HONORS.

TRUSTEES' MEDAL IN MATHEMATICS.

The Trustees of the College have established a gold medal (value of twenty dollars) to be annually awarded, by a committee selected for that purpose, to the student who shall sustain the best examination on the course of Mathematics taught in the College.

FACULTY MEDAL IN GREEK.

The Faculty offers a Gold Medal (value of twenty dollars) to the student who shall stand highest at a competitive examination of the Junior Class on the Greek Language.

MEDAL IN ORATORY.

The Literary Societies jointly have received from the Sigma Chi Fraternity, which formerly awarded it, the privilege of giving a Gold Medal for Superiority in Oratory. This Medal is awarded by a committee to the successful competitor, at a public contest in the Town Hall, on Monday evening of the Commencement Week.

By action of the Board of Trustees, the above three Medals are the only ones sanctioned. Others can be instituted only by special permission of the Board.

CONDITIONS.

Only those students who pursue the Regular College Course are permitted to contest for these Medals, except that in Oratory, which is open to all members of the Literary Societies, with certain restrictions as to the number of contestants.

PRESENTATION OF MEDALS.

The Medals in Greek and Mathematics are presented on Commencement Day, by gentlemen selected by the Faculty.

The Medal in Oratory is presented on the evening of the public contest.

ROLL OF HONOR FOR 1881.

HONORS OF GRADUATING CLASS.

First Honor—Valedictory.

M. G. G. SCHERER, OF NORTH CAROLINA.

Second Honor—Greek Oration.
FREDERICK METCALFE, of Mississippi.

Third Honor—Latin Salutatory.

D. P. T. CRICKENBERGER, of VIRGINIA.

Distinction—German Oration.

MOSES GREENWOOD, of LOUISIANA.

AWARD OF MEDALS.

Greek.

W. D. BOYLE, OF KENTUCKY.

Mathematics.

J. T. LUPTON, OF VIRGINIA.

Oratory.
N. B. AINSWORTH, OF INDIAN TERRITORY.

XXVIIIth COMMENCEMENT.

As a matter of interest to the friends of the College at a distance, and, also, as a convenient means of preserving a record of the events, it is deemed advisable to give a brief outline of the exercises of last Commencement.

The Baccalaureate Sermon was preached by Rev. Thos. L. Preston, D. D., of Richmond, Va. Text: "Earnestly Contend for the Faith once delivered to the Saints." Jude, 3rd verse.

The Address before the Young Men's Christian Association was delivered by Rev. F. P. Mullally, D. D., of Lexington, Va. Subject: "The Philosophy of the Human Element in Revelation."

The Address before the Alumni Association was delivered by Chas. A. Bower, Esq., of Liberty, Va. Subject: "The Nineteenth Century."

The Triennial Reunion was addressed by Hon. John Paul, of Virginia. Subject: "Resolution as an Element of Success." Also by A. D. Sayre, Esq., of Alabama. Subject: "Adaptation of Education to Individual Peculiarity."

The Address before the Literary Societies was delivered by Hon-Daniel Agnew, LL. D., ex-Chief Justice of the Supreme Court of Pennsylvania. Subject: "Dangers of the Republican Government of the United States."

GENERAL REGULATIONS.

SESSION AND TERMS.

The Annual Session begins on the Wednesday nearest the middle of September, and closes on the Wednesday after the second Monday in June.

The Session is divided into two Terms of five months each. The first Term begins with the Session and continues till the last of January. The second Term begins on the first of February and closes with the Session.

By action of the Board of Trustees, the Christmas recess cannot exceed three days.

ROUTINE OF COLLEGE DUTIES.

The College Bell is rung at each hour from $8\frac{1}{2}$ A. M. to 5 P. M.; and again at 7 P. M. "Recreation hours" are from 6 to $8\frac{1}{2}$ A. M.; 12 to 2 P. M.; and 5 to 7 P. M. The other hours of the day and those from 7 P. M. to the hour of retiring, are known as "study hours." One hour is given to each recitation.

The exercises of each recitation day are commenced with roll-call, music, and prayer, in the College Chapel.

On Wednesday, at $8\frac{1}{2}$ A. M., a Lecture is delivered to the students in the Chapel by the President or some other member of the Faculty.

At the same hour the members of the Senior Class read Essays in the Chapel.

On Saturday, at 8 A. M., the College Library is opened for the accommodation of the students. There are no recitations on Saturday.

On Sunday, at $2\frac{1}{2}$ P. M., a Biblical Lecture is delivered in the Chapel. Students are expected to attend church on Sunday morning. They have choice among five denominations.

GOVERNMENT AND DISCIPLINE.

The Faculty, by the Charter, is vested with the power of enforcing the By-Laws and Regulations of the Institution. While insisting on a strict observance of these, it is their earnest aim to inculcate the principle of acting from a high sense of duty rather than from the mere obligations of authority. By thus combining kind admonitions with firmness, in the enforcement of the rules of the College, the discipline of the Institution is maintained in the manner most conducive to the interests of the students generally, and not unfrequently to the reformation of those inclined to idleness and dissipation. The Faculty recognize the importance of preserving a wholesome moral atmosphere in the College community; and to this end they will, by letter to his parent or guardian, request the withdrawal of any student whose influence is known to be pernicious.

MATRICULATION.

Students applying for admission into the Institution will be furnished with a copy of the By-Laws and Regulations of the College; and upon presenting satisfactory evidence of good moral character and of compliance with the terms of admission, will be formally matriculated.

REQUIREMENTS AND PROHIBITIONS.

Each student is required to be punctual and regular in attendance on recitations and lectures, Chapel exercises, and prayers; and to yield a strict obedience to all By-Laws and Regulations of the College.

Students are required to be in their rooms during study hours, except when attending recitations.

Each student is required to attend at least fifteen recitations per week.

After his class shall have been assigned, no student will be permitted to discontinue or change studies, unless by permission of the Faculty.

Students shall not attend instructions given outside the College, unless by permission of the Faculty.

Students desiring permission to be absent from College to attend fairs and other public exhibitions, or to make visits of pleasure, must present the written consent of their parents or guardians before such absence will be permitted by the Faculty.

Students are not permitted to board at Hotels or public Boarding Houses. Minors not having parents or relatives in the town or vicinity, will be required to room in the College Dormitories, or in approved private families, convenient to the Institution, and at all times accessible to the members of the Faculty.

Students are not permitted to change rooms or boarding houses during the session without the approval of the Faculty.

Students are prohibited from contracting debts without the knowl edge and consent of parents or guardians.

Students are expected to deport themselves in all respects with proper dignity and decorum.

All violations of these requirements and other College regulations will be demerited; and in case of repeated violations, the student will be suspended or expelled.

Note.—These and other regulations apply as well to students lodging in families as to those rooming in the College Dormitories.

DELINQUENCIES.

A list of each student's delinquencies, absences, and demerits, is kept in the Record Book of the College.

Whenever a student shall have become careless and noticeably delinquent in his duties, he will be cited to appear before the Faculty for admonition. Should he then fail to reform, correspondence with his parent or guardian, probation, or expulsion will be resorted to, at the discretion of the Faculty.

REPORTS.

Reports will be sent to parents and guardians at the end of each Quarter. These Quarterly Reports will give the average grade of the student in each study pursued; his delinquencies in attending recitations, prayers, and lectures; number of demerits received; general deportment; state of health, and any other particulars deemed advisable by the Faculty.

Besides these regular reports, the Faculty will communicate with parents whenever the best interests of the student and Institution render it necessary.

MERIT ROLL.

The Merit Roll is announced in the College Chapel at the close of each Term. It embraces the names of those students who have no unexcused delinquent marks or demerits recorded against them during a Term of five months. The Merit Roll is preserved in the Record Book of the College.

DISMISSION.

Certificates of honorable standing or dismission will not be given to any student who has not complied with the regulations of the College.

No certificates of honorable standing or dismission will be given to any student who has not paid all his College fees.

GENERAL INFORMATION.

LOCATION.

In point of location, Roanoke College challenges comparison with any other Institution in America. The Roanoke Valley lies 1,100 feet above the level of the sea, is surrounded by mountains rising from 800 to 1,200 feet higher, and is deservedly famous for its beautiful scenery and healthful climate. Situated in this delightful region is Salem, in which is located Roanoke College. Salem has a population of more than 2,000, which is rapidly increasing. The town is noted not only for intelligence and refinement, but also for the high moral and religious tone of its population. There are few of those temptations which often lead young men into habits of vice and dissipation; on the contrary, the influence of the College and community is such as to restrain them from improper indulgences and vicious habits. Five religious denominations—Lutheran, Episcopal, Presbyterian, Methodist, and Baptist—have regular Sabbath services in the town.

By vote of the people, the sale of intoxicating drinks is prohibited in Salem and vicinity.

Parents sending their sons to Roanoke College, may do so fully assured that they will not only have the constant care and attention of the Faculty, but that they will, also, be surrounded by the best influences and associations.

Salem is situated on the Norfolk and Western Rail Road, 60 miles west of Lynchburg. It is also on the immediate line of travel through the Valley, and between the Southern counties and mountain watering places. The early completion of the Valley Railroad to Roanoke, five miles east of Salem, will make the College more accessible than formerly from all points in the Valley of Virginia. These advantages, with daily mail, and a telegraph office, leave nothing to be desired in the location.

CLIMATE.

The Valley, so widely known for its beauty and fertility, has a climate distinguished for its equability—its summers being seldom

too warm, and its winters much milder than in the more mountainous sections of Virginia. In this salubrious climate few of the diseases which infect many portions of the South are known. Salem is a favorite resort, by reason of its charming scenery, social advantages, and elegant hotel and summer boarding-house accommodations. A number of families from different sections of the country find here the comforts of an elegant home, while affording their sons the educational advantages of Roanoke College. Southern patrons of the Institution will find Salem a delightful place in which to spend the summer months with their sons. The expenses of spending the summer, or of living in Salem, are very reasonable.

Within a radius of thirty miles are seven noted Mineral Springs, whose respective distances from Salem are as follows: Alleghany Springs, 19 miles; Montgomery White Sulphur, 22 miles; Montgomery Yellow Sulphur, 29 miles; Blue Ridge Springs, 15 miles; Coyner's Springs, 12 miles; Roanoke Red Sulphur, 10 miles; Botetourt Springs, 9 miles. In the immediate vicinity of Salem are both sulphur and chalybeate springs, to which students and citizens constantly resort.

It is a fact of frequent remark that young men from the South improve greatly in physical health, and, consequently, in mental vigor, after a stay of some months in this mountain region.

COLLEGE CHAPEL.

The Chapel is comfortably fitted up, and furnished with an excellent organ. Its daily exercises of singing and prayer, and its Wednesday and Sunday Lectures, have made the Chapel an important element in the College discipline.

COLLEGE BUILDINGS.

The College Buildings consist of a spacious main edifice, enlarged by wings, two three-story buildings, situated on the east and west of the main structure, and a library building. All of these are substantially built of brick, and are well adapted to the uses for which they were designed. During last vacation, the buildings were thoroughly renovated, and rendered much more attractive.

COLLEGE GROUNDS.

The College Grounds are more attractive than those of any other institution in Virginia. They are thickly set with a luxuriant growth

of forest and ornamental trees, agreeably interspersed with rare shrubbery, the whole being covered with a beautiful green sward. The Campus is annually visited by a large number of persons, who express their admiration of its beauty.

An addition of five acres, recently purchased, adjoining the Campus on the west, is set apart as a recreation ground.

LIBRARIES.

The College Library, now arranged in the handsome Bittle Memorial Building, erected in 1879, numbers about 16,000 volumes—a considerable number having been added within the past year. It is already one of the most valuable, for its size, in the South; and is being annually increased by donations and purchases. This Library is designed principally as a reference one for the use of the Faculty and College officers, resident Graduates, and the Students of the Institution, subject to rules established by the Faculty. It is well supplied in the Departments of Biography; Civil and Ecclesiastical History: Natural Science; Mathematics; Ancient Classics; Moral, Theological, and Intellectual Science; Commentaries, Encyclopædias, and Lexicons; and Religious and Literary Miscellany.

The Literary Societies have also valuable Libraries, accessible to the members, under regulations established by themselves.

ATHENÆUM.

The College Athenæum, which has heretofore proved to be a most gratifying success, is under the management of the Young Men's Christian Association, and will be further improved in future Sessions. It is the object of the Institution to keep on file a large number of Magazines, Papers, and Periodicals, for the benefit of the students. Special accommodations for this attractive feature of the College have been made in the main building during the present Session.

THE ROANOKE COLLEGIAN.

The "ROANOKE COLLEGIAN" is a twenty-four page monthly paper, published in the interest of the College. It is the organ of the Alumni and Students of the Institution, and is designed to furnish them general College news. It also contains articles of a high Literary character, Historical Sketches of the College, Reminiscences of College Life, Personal Notices of Graduates and former Students, Literary Gossip, Reviews and Anecdotes.

Like all papers of a similar character, it will be published only during the Collegiate year.

Besides the regular Editorial Corps, the "Collegian" has quite a number of interesting contributors in all its departments. The Faculty respectfully request all the friends and former students of the College to take an active part in increasing the subscription list and contributing to its columns.

The "Collegian" is published about the 25th of each month during the Session.

All communications should be addressed to the

ROANOKE COLLEGIAN,

Salem, Và.

APPARATUS AND CABINET.

The Chemical and Philosophical Apparatus is extensive, and of a superior order. Additions are being made to it annually.

The Cabinet of Minerals contains more than 11,000 specimens, very many of which are rare and valuable, having been collected from the most celebrated localities of our own and foreign lands.

For want of a suitable building in which to arrange and display it, the Cabinet has not yet been fully accessible; but arrangements have been made by which its great value as an aid to instruction is felt, and many of its most interesting specimens are now open to the inspection of visitors.

It is hoped that the liberality of friends will enable the Trusiees to erect within a short time a building devoted to general scientific purposes. The need of such a building increases from year to year.

COMMENCEMENT.

The Exercises of Commencement Week begin on Sunday preceding, and close on the First Wednesday after the Second Monday in June.

Sunday, 11 A. M., the Baccalaureate Sermon is delivered in the College Church; and at 8 P. M. the Young Men's Christian Association is addressed in the same place by the Annual Orator.

Monday, 8 P. M., the Contest for the Medal in Oratory takes place in the Town Hall.

Tuesday, 11 A. M., the Annual Address is delivered before the Alumni Association; and at 8 P. M. the Annual Oration is pronounced before the Literary Societies.

Wednesday—Commencement Day—falls, this Session, on the 13th of June. The Exercises of the Graduating Class begin at 10 a. m., and proceed in the following order:—Latin Salutatory, Greek Oration, English Orations, Valedictory. The Degrees conferred are then announced by the President, after which Diplomas are awarded to the Graduating Class and the College Prizes presented to the successful competitors.

ANNIVERSARIES.

The Demosthenean Literary Society holds its Annual Celebration in the Town Hall, on the evening of the 19th of January.

The Ciceronian Literary Society holds its Anniversary Celebration in the same place, on the evening of the 22d of February.

Speakers are chosen by both Societies to represent them on the stage at their respective celebrations.

The Anniversary Address of the Christian Association is delivered on the evening of the 21st of February.

The Geological and Mineralogical Society holds its Annual Celebration on the 23rd of February.

LITERARY SOCIETIES.

The two Literary Societies, Demosthenean and Ciceronian, have spacious halls, handsomely and elegantly furnished. These halls are now among the finest in the country. The Societies meet weekly, on Friday night, to engage in such exercises as give proficiency in parliamentary usages, and contribute to the cultivation of Oratory, Debate, and Composition. The members engage in these various exercises with that generous emulation which contributes so largely to the success of such organizations. In this way, the Societies of Roanoke College become valuable auxiliaries in preparing young men for the activity of professional life.

These societies are controlled wholly by their respective members. It is due them to state that the privileges granted them are never abused.

All Matriculates of the College are admitted to membership in the societies upon such conditions as their respective constitutions prescribe. The societies are addressed on Tuesday of Commencement week by some speaker of distinction and ability.

CHRISTIAN ASSOCIATION.

There is a large Students' Christian Association in connection with the College. It is designed to promote the growth of personal religion among its own members, and in doing this, it is found to exert a salutary influence upon the students in general.

The Association holds weekly meetings for prayer, and monthly meetings for the transaction of business. Besides the Anniversary and Annual Addresses, mentioned elsewhere, there are other addresses delivered at stated times during the session, by speakers invited by the Association.

ALUMNI ASSOCIATION.

This Association is composed of such former students of the College as have received the Degree of Bachelor or Master of Arts from the Institution, and have been elected members at the annual meetings, which are held at the close of the session. Some Alumnus is annually elected by the Society to deliver an oration on the day preceding Commencement Day.

The Association meets annually on Monday and Wednesday of Commencement week for the transaction of business.

OFFICERS OF ALUMNI ASSOCIATION.

President	Rev. W. E. Hubbert, A. M.
Secretary	Rev. F. V. N. PAINTER, A. M.
Treasurer	Prof. R. C. Holland, A. M.

Orator for 1882.

W. E. CRAIG, A. M., Staunton, Va.

GENERAL REUNION ASSOCIATION.

This Association was organized at the Quarto-Centennial in June, 1878, and embraces all the graduates and former students of the College. It resolved to hold Triennial Reunions at the College. The first Triennial Reunion was held during last Commencement, and proved a gratifying success. A large number of Alumni and former students were present. Formal addresses were delivered by Hon. John Paul, of Virginia, and A. D. Sayre, Esq., of Alabama.

OFFICERS OF THE ASSOCIATION.

President	Rev. S. A. Repass, D. D.
Secretary	Rev. R. A. Goodwin.
Treasurer	FRANK CHALMERS.

EXECUTIVE COMMITTEE.

Professor R. C. Holland,

T. J. SHICKEL,	Prof. J. T. CRABTREE
Judge W. Griffin,	Frank Chalmers,
Rev. Dr. Repass,	Col. ROBERT LOGAN.

The next Triennial Reunion will be held in 1884.

MINERALOGICAL SOCIETY OF ROANOKE COLLEGE.

This Society was organized on the 1st of October, 1875. Its object is the collection of specimens of Archæology, Palæontology, Geology, and every Department of Mineralogy.

OFFICERS.

President	J. T. LUPTON.
Vice-President	C. J. Groseclose.
Recording Secretary	
Corresponding Secretary	
Treasurer	

NUMISMATIC SOCIETY—ORGANIZED 1876.

The object of this Society is the collection, study, and preservation of Coins, Stamps, and Papers pertaining to this great collateral branch of Ancient, Mediæval, and Modern History. Quite a collection, including some very valuable Coins, has been made, and numbers of friends abroad are interested in its increase.

OFFICERS.

President	JAMES G MCCHNE
Vice-President	
Recording Secretary	
Corresponding Secretary	
Treasurer	
Canaton of Cabinet	F V N DATAMED

TEACHING.

The Faculty will keep a list of the names of the Graduates and ex-students of the College who wish to make teaching their profession. Many of them are now engaged in the work, and their success is an evidence of the thoroughness of their preparation while at the Institution. The Faculty will be pleased to assist in supplying vacant schools with teachers.

ALUMNI AND FORMER STUDENTS.

The Faculty desire to keep a correct record of the Alumni and former Students of the College, with place of residence, post-office address, etc. They earnestly request all who were ever connected with the Institution to aid them in getting up this record, and also to report any changes of residence.

EXPENSES.

ESTIMATE OF EXPENSES.

Tuition, per term\$28	00
Tuition in Preparatory Department 20	00
Room Rent	50
Incidental Fee	00
Fuel and Lights	00
Washing 4	50

Each student is required, on admission, to pay a Matriculation Fee of \$5.00. This fee is payable only once during his connection with the College.

Regular members of the Senior Class pay thirty dollars tuition for the second term. This includes diploma to those graduating.

At the beginning of the session, each student is required to make a contingent deposit of \$3.00 with the Treasurer. If no charge for damage to College property be entered against the student, the whole of this deposit will be returned at the end of the session.

Before a student can be enrolled or examined for admission to any class, he must present to the Chairman of the Faculty the Treasurer's receipt for the payment of the College fees. Upon the presentation of this receipt, the student will receive a certificate entitling him to enrollment and examination.

There will be no abatement of fees except in cases of protracted sickness.

By loitering about town and delaying to enroll and enter classes, young men will forfeit the privilege of becoming members of the College.

Money intended for the payment of Tuition and other College Fees, should be sent to Prof. J. T. Crabtree, the Treasurer of the Faculty. Unless this be done, the Faculty will not be responsible for the same.

BOARDING.

PRIVATE HOUSES.

Board can be obtained in the families of the professors, or in other families convenient to the College.

Board, per month\$10.00.

When rooms, furniture, fuel, and lights are furnished, the charge is \$15.00 per month.

BOARDING CLUBS.

For several years past a considerable number of students have formed themselves into clubs, for the purpose of economy. Through a commissary of its own election, each club orders its own supplies, and has its meals served, at a small expense, in families near the College. The cost of living is thus reduced to a minimum.

Board, per month......\$6.00 to \$7.00.

SUMMARY OF EXPENSES.

The expense of Attending Roanoke College for a session of nine months will be seen from the following summary, in which are included all College fees, washing at \$1.00 per month, and fuel and lights at \$10.00 per session.

The abundance of the Roanoke Valley renders the price of good board lower at Salem than in many sections of the State. Thus, the College is enabled to educate young men at moderate rates.

FURNITURE—In the above estimate of the expenses of the students rooming in the College Dormitories, no account is taken of furniture. This can, however, be obtained at a trifling expense from former occupants.

The Faculty will, when desired, furnish rooms with the following articles: bedstead and mattress, table, wash-stand, and two chairs. The additional charge for furnished rooms is \$5.00 per session, for each occupant.

Students intending to room in the Dormitories, should bring with them necessary bedding and other articles. These can also be procured at reasonable rates in Salem.

SUGGESTIONS TO PATRONS.

THE REGULAR COURSES.

Long experience has convinced the Faculty that the regular courses of study have superior advantages over any partial or select course. The studies of the College Curriculum are so arranged as to develop symmetrically the various faculties of the mind. This development is more rapidly secured by pursuing the Languages, Mathematics, Natural Sciences, and Metaphysics together, than by neglecting one department to give the greater attention to another. The Faculty would therefore advise that students be entered in a regular College Class, even when they do not expect to graduate. Should they afterward conclude to finish the course, they will not have to regret, like many partial-course students, that some study required for graduation has been entirely neglected. Besides, it must be remembered, that partial course students often spend time and money enough to have made them graduates, had they taken the regular course on entering College.

TIME OF ENTERING.

Students should, by all means, be present on the first day of the session. A week or two lost before entering is frequently the cause of embarrassment through the whole year. The Faculty cannot too earnestly urge this important fact upon the attention of parents and guardians.

Students should remain at the College during the whole session. The Faculty, after an experience of many years, have decided to discontinue the practice of giving a protracted recess at Christmas, as, in their opinion, such a vacation has been a source of evil to the College and to the students. They earnestly advise, therefore, that the students be kept at the institution during the usual Christmas Holidays.

MONEY.

Students need very little spending money. A too liberal allowance is often a strong temptation to dissipation. In nearly all cases, it is best to make a deposit with the Treasurer of the Faculty, with instructions as to its disbursement. In this way an account may be kept, which will present a satisfactory statement of the student's expenses. The Treasurer makes no charge for such services. The Faculty advise that funds be deposited with him, to pay student's College fees and current expenses.

BEQUESTS TO THE COLLEGE.

Two bequests in Roanoke county have been left to the College, but are not yet available.

Form of Bequest.

A form of bequest is appended, in the hope that the friends of the College will remember its increasing wants, and aid the Trustees and Faculty in their earnest efforts to enlarge and perpetuate its influence. A constant outlay of funds is necessary to develop the usefulness of any prosperous institution. The increasing wants of ROANOKE COLLEGE make an urgent appeal to its friends to enlarge its facilities for accommodation and instruction. This object can be attained only by means of an endowment fund. It is hoped, therefore, that the friends of Roanoke College will do no less for it than is being done for many other institutions.

I devise and bequeath unto the Trustees of Roanoke College, at

Salem, Virginia
Dollars, for the maintenance and
support of said College.
OR
I devise and bequeath unto the Trustees of Roanoke College, at
Salem, Virginia
ofin said College.
or
I devise and bequeath unto the Trustees of Roanoke College, at
Salem, Virginia
(or Apparatus) of said College.

Note.—Any person may establish a perpetual Prize Scholarship in the College by the payment of \$1,000, or a Prize Medal by the pay-

ment of \$500.
