The Compatriots Relief and regeneration enterprise association was formerly known as the Kanagawa Kenjin Gojo kai(Kanagawa Pref. People's Mutual-Aid Association). This former association was startedd by Mr. Misu on April,10,1947. On JUly 8,1948 it became the New Association known as the"Dobo Engo Kosei Jigyo Kyokai." This Association provides Medical supplies that are not controlled and also tea for the repatriates and war sufferers as well as others suffering livelihood hardship so that the sufferers can sell these items and make some profit for themselves. All persons that can provide a certificate stating that the are repatriates or war sufferers can join the assomiation and receive the supplies thru the office of this asso. The repatriates or war sufferers need not pay for the supplies upon receiving it but after the supplies are sold they will pay the cost of the supplies to the association.

This association gets its medical supplies from the Kuroda Medical Company, Tokyo. The association gets these supplies at a discount price for the company and thus the difference between the cost and the discount price is the profit of the association. There are three managers that take charge of the affairs and 3 others on the staff. The managers are Mr. Misu, Mr. Yamada, Mr. Fukui . There are 30 families in the association that are receiving such supplies, also at present there are about 50 - 60 students participating in the selling of these supplies. On an average there are about 15 families and 50 students per day selling these items. These peddlers make house to house calls and make their sales.

It was also stated that these supplies are at present being sold at a price lower than the regular market prices. Example: a bottle of liniment which sell at 25.00 yen on the market was being sold by the members of the association at 23.00 yen.

Address: Dobo Engo Kosei Jigyo Kyokai (Compatriots Relief and Regeneration Enterprise Association)
394, 5 chome, Sengen-cho, Nishi-ku, Yokohama city.

Note: This association has notified the Welfare Sect. of the Prefecture the fact that they would like to be recognized as a welfare organization. A more complete report will be sent to the prefecture when it is completed by the association. The asso. has not been able to make this report due to the short time since they have changed their name to this new association.

SUBJECT: Dissolution of Sanitary Associations and Other Similar Organizations.

1. Cabinet Order No. 15 of 1947 "Concerning the dissolution, exclusion or prohibition against organizations, offices, and other matters relating to Chonaikai, Burakukai or Federation thereof and others, in accordance with the Imperial Ordinance No. 542 of the 20th year of Showa concerning the Orders to be issued in consequence of Acceptance of the Potsdam Declaration", contains the following provisions:

a. Art. 6. "All organizations similar to the former Chonaikai, Burakukai or Federation thereof, and Tonarigumi which have been formed in succession to the dissolution of the form Chonaikai, Burakukai or Federation thereof and Tonarigumi shall be dissolved not later than May 31, 1947".

b. Art. 9. "All functions, duties, or actions formerly performed by Chonaikai, Burakukai or Federation thereof and Tonarigumi shall be distributed on a functional basis to the proper sections of the offices of a Municipality, Ward, Town, Village and the Government. Liaison office or any other which is not a section of said offices and performs above mentioned functions shall be dissolved not later than May 31,1947, and no successive office or organization thereto shall be established unless authorized especially by the National Diet."

c. Art. 4. "A person who was a chief of Chonaikai, Burakukai or Federation thereof and Tonarigumi who was in said office during the period from or prior to September 1, 1945 till September 1, 1946 consecutively, shall not issue any instruction to the constituting members of the neighborhood association or inhabitants of any district which were formerly under his supervision unless such instructions are incidental

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

to the duties and responsibilities of position in a public service for which he has been screened by Cabinet Ordinance No. 1, 1947 and to which he has been duly appointed or selected."

d. Art. 8. "A person who has violated the provision prescribed in the Art. 4, par. 1, or the preceding Article shall be punished with penal servitude or imprisonment not exceeding one year or a fine of 15,000 yen."

"A person punished by the preceding paragraph shall be removed from any public office he may hold and shall be excluded from all government service for ten years."

2. According to reliable information, Sanitary Associations are exercising those governmental functions which they exercised in the past within the framework of neighborhood associations, in violation of the Cabinet Order provisions quoted in Par. 1 a and 1 b above.

3. All so-called Sanitary Associations or Public Health Associations, and any other similar organizations in other fields of governmental activity, whatever their name may be, which are organized on the basis of local areas (such as a block, neighborhood, Municipality, Ward, Town or Village) to assist health centers and other local authorities in carrying out governmental health programs (e.g. programs of immunization, parasite control, mass examination of tuberculosis, procurement or distribution of controlled sanitation supplies and equipment including DDT and chlorine products, etc.) and other governmental functions, whether such assistance is alleged to be voluntary or not, are considered to fall under the prohibition of the aforesaid Cabinet Order, and they must be dissolved, and any successor or similar organizations prohibited.

4. In case any organization described in the preceding paragraph shall not have been dissolved within fifteen days from the date of this Memorandum, the governors of each prefecture shall immediately order such dissolution pursuant to paragraph 2 of Article 6 of the Cabinet Order, quoted in par. 1 a above.

5. Any person who was a Chief of Chonaikai, Burakukai or Federation thereof, or of a Tonarigumi, who was in said office during the period from or prior to September 1, 1945 till September 1, 1946 consecutively, who has issued any instruction of a compulsory nature (unless authorized by this Headquarters), or who shall

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

hereafter have issued any instruction whatsoever, to neighborhood association members, or inhabitants of any districts which were formerly under his supervision, incidental to or in connection with the activities of any so-called Sanitary Association of Public Health Association, or any other organization described in paragraph 3 of this Memorandum, is believed to have violated the provisions of paragraph 1 of Article 4 of the Cabinet Order, quoted in par. 1 c above, and should be prosecuted immediately, pursuant to par. 1 of Article 6 of the Cabinet Order, quoted in par. 1 d above.

6. The rules issued by the Supreme Court, pursuant to the Potsdam Declaration, for expediting the trial of criminal cases involving violations of the Imperial Ordinances relating to the exclusion, removal, etc., from public office and public services and the Order relating to the abolition of certain political parties, associations, societies and other organizations, shall be made applicable to prosecutions brought pursuant to the preceding paragraph of this Memorandum.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

formerly War Sufferers Alliance

THE CHARACTER OF THE ASSOCIATION

The Welfare Foundation of Japan is a social work group. It is a group of people who intend to help in reconstructing each other's life and to build the peaceful Japan, being based upon the effort of independent organic unity, and besides, it helps dependents of war victims and the ususal needy peopie, standing on the spirit of loving conpatriots. Thus, this is a welfare work which is a flush character.

Of course, it is not a political group. We are not like the former social workers who have aimed dependent works on others, raised subscriptions among rich people ~~or~~ worked the Government for help but it is quite a new group that settles questions positively by the influence of the cooperative organization which has the same purpose and will, that has never existed before. Therefore, its object is not temporizing the unhealthy side but, footing on the root of life, it deals with the advance of human beings as an entire organic body. We obtain the freedom of our own life through service of assertive labor, and, at the same time, contribute to a new situation of human civilization. We are eager to advnce to the productive and consuming sides throughout Japan. The main workers, being at an early age, have no social position and are not famous as yet, but they know that the beauty of New Japan is not the external decoration of the cities, but it is in the happy faces of the citizens; and they devote themselves to this troublesome work and are employing strenvours exertion. These young men - these youngspirits - are the symbols of the new Japan.

THE WORKS OF THE ASSOCIATION

This association is conducting the following kinds of works and expecting to be a foundation to build the civilization of New Japan, helping each other's life and welfare of the members, and intending sacrificial service towards assertive reconstruction of war victims:

1. Distribution of indispensable substances for living (life).
   We are obtaining cheap and good substances (Article) and making a just distribution to the members, by cooperative purchasing of indispeansable articles of daily life and by producting and working on articles.
2. Management of the cookshop.
   We are managing a cookshop for the members to provide the cost of meals and tea-room the public's convenience.
3. Building dwelling houses.
   We are building cheap houses for homeless massers by a new organization of builders.
4. Management of apartments.
   We have borrowed the vacant institutions, munition

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

factories and dormitories, and are managing apartments for the members.

5. Health program.
   We are siding the health program of the society by opening hospital consultation room, and bath rooms, for members and the public.
6. Civilization Movement.
   We are establishing a library for the development and enlightment of the members for the new age and are holding concerts, theatre-parties and debats at various times.
7. Managment of institutions for war victims, orphans and vagrants.
   We are accommodating them, bringing them up, guiding and helping with their employment.
8. Managment of a work house and guidance of employment.
   We are attempting guidance in domestic employment, such as tailoring, dress-making and repair work, in order that the poor and war victims may become independent.
9. Managment of factories.
   We have established factories to produce indispensable articles at cheap prices, besides we give employment to war victims.
10. Others.
    We are accepting offers for the housing and feeding of sufferers and repatriots.
    Already these works have been started by the "War Victims Federation", but now we are intending to enlarge all parts of our program.

PROSPECTUS

In the history of human progress, the lives of the deformed and disabled move our hearts most bitterly.

Despair was once an inevitable lot for them. The cries of the blind, the agonies of the deaf, and the loneliness of the dumb were never consoled and healed.

Only the strong and energetic were blessed in the world of the survival of the fittest.

Lately, however, science with its rich resources has given the wings of flight to these phisically handicapped and has guided them to noble perfection.

At the same time, a helping hand by the society has been extended to these miserable people.

The above is the gist of one of the speeches made by Miss Hellen Keller, famous American blind and deaf lecturer-authoress.

Now, by the words "the deformed and disabled" we mean all the people who are handicapped in the present society through deformity and disability, mental or physical, natural or accidental.

Indeed, as Miss Hellen Keller pointed out, the lot of almost all the deformed and disabled is miserable; many of them are on the verge of despair and destruction. Most of them are void of a ray of hope, resignning themselves to their doomed fate.

It is a thousand pities that the national government, local governments, and the public at large should attach little importance to the urgent necessity of assisting them. The mere feeling of pity is expressed towards them and nothing more.

It is true that there are a few relief organizations for them even at present, but, sorry to say, most of them are either the work of some cliques or those which are specially attached to some definite classes of society.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

In short, the doors of most of the organizations are not open to all the deformed and disabled who are badly in need of help.

The utter loss of battle and unconditional surrender in the Pacific War has awakened us Japanese to the various facts and ideals of which we were totally ignorant.

We have turned a new leaf and are now transforming ourselves from a militaristic nation into a democratic and cultural one.

At this juncture of transition, we aspire to materialize spirit of the New Constitution in our daily life.

Behold! Tens of thousands of the deformed and disabled are being denied to enjoy the benefits, facilities and comforts of the modern and advanced society - a fact which cannot be connived at.

Miss Hellen Keller is in Japan for the second time - this time in a war-torn, devastated land.

She is tenderly consoling and earnestly encouraging us to set up an earthly paradice here.

Impressed by her sympathetic and humanitarian advice, we have determined to organize and ideal welfare association for the physically handicapped.

We believe in the progress of science and moreover believe in the progress of a peaceful and cultural community.

Thus the Japan Welfare Association for the Deformed and Disabled has been established at last.

We pray that you will thoroughly understand the true spirit of the Association and kindly support us both spiritually and materially.

THE DESCRIPTION OF THE NIPPON SUIJO SCHOOL

(The Social Work)

Sept. , 1946.

Our school is a private social agency based upon Christianity for the relief and education of the children of boatmen. Almost all children in our country have opportunities to attend schools under the compulsory education law, but some of those who live on the river cannot attend any schools because of their life circumstances.

The boatmen live in a "hashike bune" (a kind of boat called a lighter) which belongs to their employers as their homes and workshops floating on the river. They are always going back and forth carrying cargo from the steamers to other points. Because they don't possess their own houses on the land, they cannot keep a home life like us, but must experience various kinds of inconvenience and unfavorable conditions. Their children are born and brought up there, and when they grow up, they must go to a school, but it is difficult and hardly possible to attend any definite school from their hashike boat, because they must always be going somewhere with their father's cargo. For example, if . . they left heir homes at Yokohama in the morning to go to school, sometimes their boats -- homes would no longer be

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

there when they came back in the afternoon. Then the children would have to stay in the cloakroom of stations or under hedges, shivering in the cold all the night, and next morning go to school with an empty stomach.

The number of such children amounts to 4,200 in the Kanto District and recently since war orphans must be included, the number has increased greatly. Our school, having facilities of a nursery home as well as the curricula of the national school, was founded four years ago to accomodate them. Thus not only has the difficulty of attending school been solved, but they are also protected and brought up here with a great care by their teachers and nurses instead of their mothers.

By the way, we must express our hearty gratitude to the SCAP for releasing many foodstuffs to our school children under the present food situation. By virtue of it, we can continue our work and enjoy our lives with the children. Also their parents can be glad and assumed of their childrens' education and devote themselves to their own works.

As half of the school buildings were destroyed, we feel rather inconvenience now, but when we think of our great mission of aiding the poor children, we wish to work in earnest for its reconstruction and improvement as soon as possible.

Nippon Suijo School.

No.: 23/Welfare Ministry's Ordinance No. 1.

Date: Jan. 23. 1948

From: Premior Welfare Minister

In consideration of the Inperial Ordinance No. 542 of 1940, the matters in connection with the dissolution of the Kyojo-kai stipulated as follows.

Art. 1. The foundational Juridical person Kyojo-kai is the organization who has succeeeded the property of the former Foundational Juridical person Japan Wounded Soldiers Association (This Association, if not dissolved voluntary, shall be caused to dissolved by Art. No. 101 of the Imperial Ordinance of 1946) and the one fourth (1/4) of whose members are occupied by the members of the former Japan wounded Soldiers Association. The object and nature of this Association is somewhat different from that of the latter, so it was decided to dissolve the Kyojo-kai not by the Ordinance No. 101 but by this Ordinance.

Art. 2. The Welfare Minister, with his responsibility, shall succeed the assistant work of the Japan Wounded Soldiers Association so that there may not arise any inconvenience to the good beneficiaries of the Kyojo-kai. The matters needed for the succession in connection with the foregoing, shall be decided by the Welfare Minister.

Art. 3. The part or whole of the property either managed or possessed by the Kyojo-kai directly or indirectly shall not be transacted. The foregoing property shall be procured by the government. (Including Books, Documents and Records)

Art. 4. The Welfare Minister shall either use the property for the work mentioned under Art. No. 2 (except the Funds, Securities, Books, Documents and Records) or for the sake of the other public benefit or have the prefectural governor use accordingly by themselves.

Art. 5. With respect to the concerning parties of the Kyojo-kai, the government has a right either let them submit a report on the property in accordance with the paragraph 2 of Art. 3, or let officials investigate books and the like stepping into the necessary place.

No.: 23/Welfare Ministry Ordinance No. 5.

Date: Jan. 31, 1948

From: Welfare Minister

In connection with the enforcement of the Welfare Ministry's Ordinance No. 5. (The dissolution of the Kyojo-kai basing on the Inperial Ordinance No. 22-542, the ordinance issued upon the acceptance of podzdam Declaration) we hereby stipulate the following matters.

Art. 1. The Welfare Minister shall procure the assistant works formerly carried out by the Kyojo-kai which was dissolved by the Welfare Ministry's Ordinance No.1.

The Welfare Minister may be able to have the respective governor of Tokyo Metropolice, Hokkaido or Prefectures carry on the above mentioned works.

Art. 2. The Welfare Minister or the Governor of Tokyo metropolice, Hokkaido or Pr fecture shall use, those former officials who are regarded necessary and who are actually enaged in the work of Kyojo-kai at the time of its dissolution. However, those persons who fall under each one of the following items.

1. Those persons who were assigned as corresponded to the stipulation of the Imperial Ordinance No.1 of 1947.
2. Those persons who were the director of the former Japan Wounded Soldiers Association.

Art. 3. In making the procurement of the work of the Kyojo-kai, the Welfare Minister shall make an investigation to insure the need of future protection and shall take immediate steps for closing of assistance for those persons to whom the further protection regarded unnecessary. In determining the need of further protection, no preferential treatment whatever shall be made with the reason why the people had been engaged in the former military service.

Art. 4. Any form of retiring allowances shall not be granted to the former directors or officials of the Kyojo-kai with the reason for the sake of Organization.

Additional Regulation:

This ordinance shall come into force from Feb. 1, 1949.

Art. 6. It is strictly prohabiled to organize any successive organization which has the nature and charactor of the Kyojo-kai.
Any organization over one fourth of whose members are the former members of the Japan Wounded Soldiers Association or the Kyojo-kai shall be regarded as the organization mentioned in the preceeding paragraph.
The organization specified by the premier to correspond the stipulation of paragraph 1 shall be dissolved. (Including actually existing organization at the time of enforcement of this ordinance).

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Art. 7. Any person who fall under each one of the following categories shall be put penal servitude of less than three years or be fined less than five thousand yen.

Additional Regulation.

This ordinance shall come into force on and after Feb. 1, 1948.

Disolution of Foundational Juridical Person

Kyojo-kai

It is decided that the dissolution of the Foundational Juridical person Kyojo-kai shall be stipulated on 31, Jan. 1948, through administrative and Welfare Ordinance No. 1, and you are requested to notify this effect to the concerning sources and at the same time to take necessary steps in the procurement of assets and making out the name roll of officials and members, observing the following remarks.

With repect to the procurement business of the Kyojo-kai, it is to be disposed of as per Welfare Ministry's Ordinance No. 5 on the enforcement of the disolution of the Kyojo-kai and the special contact between the Social Section and the Welfare Section is desirous to be made in this connection.

I. Reason of dissolution

As mentioned in Art. 1, the Kyojo-kai, being regarded the successive organization from the Japan Wounded Soldiers Association, is decided to be dissolved. This Association was established on 2, Dec. 1936 with the aim to deeper the mutual friendship among wounded soldiers and to endeavour for the sake of their cultivation and drilling so that they can be served for the country until to the last. The chief committees of Association were military and naval officers and although the association continued until for some time after the surrender but it dissolved on Feb. 20 voluntary, following the memorandum issued on Jan 4, 1946.

The Kyojo-kai was established on Mar. 27, 1946 succeeding the property of former wounded soldiers association with the aim of carring out the works such as, giving assistance and apportunities for recovery to not only those former wounded soldiers but also to those former soldiers who sustained injuries from engaging general industrial works, increasing friendship and mutual assistance among members and receiving consultations of various personal affairs and etc.

As mentioned above, the Wounded Soldiers Association and the Kyojo-kai are different in their object, character and contrast of assistance but the major propstion of the members of the kyojo-kai occupied by the former members of the Wounded Soldiers Association, especially most of the specific officials of the kyojo-kai were former officials of the former Wounded Soldiers Association.

In consideration of this fact together with the point of the succesion of the property, the Kyojo-kai was regarded as the successive organization of the Wounded Soldiers Association.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Accordingly it was natural that the Wounded Soldiers Association was designated to dissolve in accordance with Art.3 of the Inperial Ordinance No.101 and regarded to fit No.1-b of Art. 4. of the same ordinance. However, if doing so, the Kyojo-kai should be likewise dissolved in accordance with No.2 of Art.4 of the same ordinance. But the Kyojo-kai have more than the thousand members and most of whome are beneficaries in good faith and it does not fall on any items under Art.1 of the Inperial Ordinance No.101. Therefore to apply said ordinance to the dissolution of the Kyojo-kai is not only unreasonable but the consequence of the dissolution may give bad influence to the society. The above are the reason why dissolve the Kyojo-kai under this Ordinance instead of under No.101 of the Inperial Ordinance.

II. Procurement of the assistant work of the Kyojo-kai

Since major part of members of the Kyojo-kai are beneficiaries in good faith, even if the Kyojo-kai dissolved, the assistant work itself is to be procured and succeeded by the responsibility of the Welfare Minister and to be continued equally and non-preperentially. The Inperial Ordinance No.5 stipulates the essential matters for this point.

III. Safe-keeping of Procured Assets

(1) Scope of Procurement.

1. To cover whole organization system of Kyojo-kai
2. Even though the person and the organization may differ from the Kyojo-kai, all the assets to be regarded to have held or controlled by them indirectly, as per Art. No.3 of the Ordinance, shall become the object of procurement without exception. However when it is difficult to make such recognition the matter should be communicated to the ministry together with detailed statement showing the relation between the two parties after effecting the temporary procurement.

(2) Method of making Report of Property.

1. Scope of making report

(a). Unit of City, Twon or those upper than that shall make out reports irrespective of whether there are property or not.
(b). All the other parties except above item (a) needed to make out report onlyiin case where there are properties actually. In this case, however, the procurement shall be made only in connection with the books and documents or records, and if there are no other properties than these it will be regarded as no property.
(c). Those parties which do not come under the preceeding pragraph (a) and (b) can be omitted to make out report of property. However, it is necessary to make full ready so that such report can be submitted at any time on request.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

(d) With respect to the property fit to paragraph 2 under the foregoing heading of "(1) scope of procurement" it is necessary to make clear distinction between the different parties. If possible shall be made out property report separately.

2. In accordance with our directive No. cho-hatsu-433, reports shall be prepared 2 sets Japanese and 5 sets in Engligh.

3. The period of investigation for specimen No.2 shall be from the date of establisnment to the date of procurement and each report of the fiscal year shall be made separately. The disposition of all the properties shall be contained in this list.

4. The reports of properties are to be bound together and on which an index sheet of the following style shall be placed.

Index of report of Property of the Foundational
Juridical person Kyojo-kai

(3) Cash and Deposit procured shall be immediately paid into the account in the name of SCAP with the Nippon Band. Under special circumstances, in case such payment into the Bank account should delay, the reason for the delay and prospect for actual payment are to be informed to the Ministry.

IV. <u>Prohibition of establishment of Successive Organization</u>

The organization that has the nature of successive body of the Kyojo-kai means the organization which was established chiefly by the former members of the Kyojo-kai or Japan.Wounded Soldiers Association, having the same or similar contents of object or works and also means whosever illegally succeeded by the former members of Japan Wounded Soldiers Association or Kyojo-kai shall once be assumed to be the succesive organization of the Kyojo-kai. But this is veing not more than the assumption, and even such organization is not prohibited altogether. Therefore, even such organization, if it could be approved by showing negative proof, be allowed to be formulated and continued.

PETITION

To: Commanding officer of T-KMGD

From: Takashi Hayashida, Representing Committee of the Kanagawa Prefectural Student Mutual Aid Association

At present we, students of Japan are extremely suffering from the problem of housing. The students who are well conscious of responsibility for rehabilitation of a new cultural Japan are burning ardently with investigation of truth and endevouring in search of the way by which they can persue their studies, bearing up bravely every distress of real life.

The greatest obstacle impeding this sincere desire of ours is, however, the very fact that we are not blessed with dwellings from where they can attend their school at case. Without having any facilities of lodgings, some students are compelled to give up their attending school, although they have been enrolled at school. Some who evacuated to remote mural district have to take temporary absence from only owing to the non-existance of their lodgings. Even among those who can go to school with difficulty not a few are living in remote suburbs from where it requires three hours or four for attendance. Even if they have procured their lodgings fortunately, they have to worry themselves about the surprisingly expensive board charge imposing a heavy burden on students. Easily we find several students being squeezed into one narrow four and half mat-room. This current condition is really a matter for concern from sanitary, and moral points of views.

We, members of the Student Mutual Aid Association having a perfect understanding and sympathy with such a plightful state have exerted ourselves to the utmost to help students tide over all difficulties. Previously we could construct the first student home at Oppama and quarter twenty students approximately. And then we were given a dormitory for students at Ofuna. On the completion of its repair work, about thirty students could be housed.

A little while ago, we were, however, ordered by prefectural officials to dismantle the dormitory building in accordance with the order of the eighth army. As we were notified that we ought to evacuate the rooms as soon as possible, all the student residents, not to mention those of the Student Mutual Association, are leading everyday life of anxiety and perplexity.

Such being the circumstances, if you would appreciate our standpoint as student, and stay the decision to break down two houses of the Ofuna Student Dormitory and help us out of the predicament. Our rejoice would be endless.

SHINKO CLUB

The housing of vagrants has been a problem in Yokohama for many years. This situation came to the attention of a group of officials and citizens in 1918. At that time the Kanagawa Prefectural Benevolent Association was founded. This organization erected a three story building called "The Shinko Club" to care for homeless persons. The building was not only a dormitory for vagrants but became the center of social work activity for the entire prefecture. A library of social work literature was established, and reading rooms provided for welfare workers. Many books were contributed by Japanese residents in America. One section of the library is devoted to books printed in Braille.

This building also has for the use of the vagrants, a barber shop, recreational rooms, public baths, dormitories, and a restaurant. These services are all offered at a nominal price.

At the time of the 1923 earthquake this building became the headquarters for relief to the destitute and aid to the injured.

The Benevolent Association was originally financed by public contributions. During the war it was necessary to suppliment the income of the association; and two upper floors were rented to an electrical concern, which still occupies that space.

When the vagrant problem became so acute after the war and the need for dormitories so great, two temporary shelters were built behind the original building. At present about three hundred men live in the dormitories of the association. Some of these men are wanderers passing through the city, but the majority have obtained employment in Yokohama and have become permanent residents of the institution.

Although the building is in need of repairs, the facilities offered there fill a real need of the community.

Mr Sato, the present superintendent of the association, was first appointed executive officer in 1919. He has been active in welfare activities of the city and in this institution since that time. He is making an effort to restore the building and to again establish it as a center of social work activity.

A petition to Captain Crook, Welfare officer and 1st Lt. Kerper, Veterinary officer of Tokyo-Yokohama M.G.D.

The Kanagawa Prefectural Infnt Protection Association, established in Feburary, 1924, has been devoted to welfare work such as the medical treatment and health protection of infants as well as mothers of the destitute class. For this purpose we installed seven clinics, one milk plant and seven milk distributing places in both Kawasaki and Yokohama cities.

For instance, we gave medical advice and treatment to 160,000 infants and distributed 360 koku of milk (one koku is equivalent to 39.7 gallons) to 135,000 children of indigent families in 1943 alone.

Thus we have had much experience in social work backed with a glorious tradition and history of over 20 yeats. However most of our medical establishment were devastated, and six medical centers were reduced to ashes. As a matter of cause the health situation of mothers and infants has been inclined to be neglected. Being confronted with such a delorable situation, we established a counter-plan immedately. While we endevoured to make the best use of the health establishment which had narrowly escaped being burned, we dispatched nurses to thousands of tin-shacks of war-victims so as to take care of the health of children.

In the meantime we had set up a clinic in the repatriation settlement at Kanazawa to improve the miserable condition of repatriated children from overseas, fixing up dormitories for people who had returned home.

Giving a further explanation, our association distributed one koku, 39.7 gallons everyday to sick and mal-nourished infants and expectant mothers with the assistance of the prefectural authorities, but as bad luck would have it almost all our pastures were hard hit by the air raids and since then it became impossible to obtain any milk. Consequently the physical constitution of infants showed a marked deterioration and the mortality increased conspicuously. On the other hand, not a few herd of cows were illicitly killed in the rural area, owing to lack of fodder, making it a greater impossibility to raise them and bringing on a greater shortage of milk. In the face of the recent aggravated food circumstances the hardships of mothers without milk is quite beyond description. Everyday a throng of non-milk mothers are shouting before our association building imploring a delivery of milk. With a view of mitigating such pitiful plight, we worked on a plan to operate our own pasture at any cost. With his purpose we have managed the buildings as well as the ground formerlly owned by the Japanese Navy at Nakada-machi, Totsuka-ku, Yokohama, and commenced to carry on a pasture and milk plant, employing homeless repatriates from overseas as relief workers. Our project was such that we expected to make a distribution of milk to mal-nourished and weak infants of the destitute class free of charge or at a cheaperprice. This programs has been partly realized to secure three

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

cows from Toyama prefecture. We have, nevertheless, come to a standstill before a great barrier, where as the acquisition of fodder is under official control. At present it is scheduled that the construction of the cow-sheds will be brought to a completion before long. As soon as the cow-sheds have been completed we expect to get cows into them. Although it has thus been arranged, every effort will come to naught without the distribution of fodder. Under the above circumstances we can't but look to you for assistance. The authority of making an allotment of fodderlies with the veterinary officials of the agricultural section of the prefecture. We have already filed a petition to ask a special delivery of fodder.

But as the existing amount of fodder is limited, it is beyond our capacity to obtain a special allotment. If you can write a recommendation with referance to the distribution of fodder to the veterinary officials, being in favor of the work of the Infant Protection Association, making mention of the distinguished services and tradition with its long history, we should be very grateful to you.

Your respectfully

Mrs. Kurokawa
Director of Kanagawa Prefectural

MEMORANDUM FOR: Mr. Tadakatsu Suzuki,
Chief, Yokohama Liaison Office.

Subject: Relief for Foreign Nationals.

1. The Sisters of the Adoratrices have established a home for working girls in Yokohama, and with the aid of Prefectural officials are establishing another home for 200 girls at Yokosuka.

2. So far, the expenses of these projects have amounted to approximately ¥ 90,000. One of the sisters, known to you as Miss Shinjo, reports to this Headquarters you have promised to assist them in meeting these expenses. Since they report that their treasury at present is nearly exhausted, and since the value of their work in providing homes for orphaned girls is unquestionable, it is desired that any assistance, financial or otherwise, which the Prefecture feels properly falls in its rehabilitation program, be rendered this group.

SUBJECT: Welfare Institutions

1. The Sisters of the Adoratrices propose to establish a home for 200 homeless girls on Japanese government property at Nagai. This is a welfare project of major importance and has received the endorsement of Gov. Uchiyama and other important prefectural officials. Everything possible should be done to encourage it.

2. There are at present two obstacles in the way.

a. The buildings and land, having been former Japanese marine property, are now under control of the Finance Ministry, which proposes to tear down one of the buildings to provide lumber for the construction of Finance Ministry offices in Tokyo.

b. Farmers are now cultivating the land, although with no legal right to do so, and are unwilling to remove themselves from it.

3. It is directed that the Prefectural Government take the following action and report to this headquarters by 10 June 46.

a. Petition the Finance Ministry to leave the building standing which they now propose to tear down for lumber, and supply said ministry with another satisfactory source of lumber for their requirements.

b. Inform the farmers now cultivating the land involved that they will be permitted to reap the July harvest of crops they are now cultivating there, but that after that time they will be expected to vacate the land for use by the orphanage for its partial support..

OBJECTIVES OF "ZAIDAN HOJIN" JAPAN LIBERAL WOMEN'S FEDERATION

The purport of this dederation is to liberate women from feudalistic ideas from which they have long suffered and to elevate their status in society in order that they may more actively contribute to the development of culture. For this purpose full use will be made of libraries, music, motion picture and lectures, so as to build and educate new womanly ideals with the ultimate aim of realizing true freedom and democracy.

Moreover, as part of the federation's social welfare activities, it is our aim to give aid to war sufferers who are without food, clothing or houses, give work to those without employment, extend the hand of kindness to war orphans and to educate them so that they may become useful citizens in future and thus contribute their share to society.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

ORGANIZATION OF THE "JAPANESE WOMEN'S WELFARE SOCIETY"

The devastating effects of the war resulting in the destruction of homes together with the severe shortage of food have brought about innumerable and varied social problems. Foremost among these is the question of delinquent girls.

With the advent of the Occupation Forces, these Japanese girls, moved by material greed and curiosity, have lost all sense of morality and social ethics and have been conducting themselves in such a way as to attract the unfavorable attention and criticism of the entire community. The solution of this rapidly-spreading social evil, which although beset with difficulties, has become imperative and it is with deep regret that the behavior of these girls has become the focus of public censure and worry of both the American and Japanese leaders.

Reflecting quietly on this problem which is gradually exerting its harmful influence on public morals, it can be said that the reasons for the emergence of this social issue are: (1) the inadequate moral and cultural education of the Japanese girls, (2) their lack of knowledge and understanding of the nature, customs and habits of the American people.

In order to prevent and remedy this social problem and to preserve the good traits and virtues of the Japanese women, it is necessary to know and study the habits and mores of the American and other foreign people.

For this purpose, women interested in the construction of a new and better Japan both socially and culturally, have gotten together and organized the "Japanese Women's Welfare Society". Through the medium of lectures, and informal discussions between members who have long-lived abroad and those who have resided in Japan, the study, comparison, and exchange of both the American and Japanese customs, the weeding out of the bad and the adoption of the better traits and habits of other countries to spread among the Japanese community, will be undertaken to bring about not only their cultural advancement but also the betterment of their daily living conditions.

It is the object of the Society to hold regular courses in English Conversation, social etiquette, sewing, household sanitation, and health measures, and to contribute its whole-hearted support and aid to other social and welfare agencies engaged in the rehabilitation and relief of war orphans, widows, and the aged.

The members of the Society would welcome any advice and would appreciate whatever aid given to further the above purpose.

MEMORANDUM FOR: Mr. Tadakatsu Suzuki
Chief, Yokohama Liaison Office.

Subject: Request for Material.

The attached request has been investigated, and the materials are on hand in warehouses at Saye formerly used by the Japanese Air Force. The material is now in charge of the Transfer of Materials Section, Kanagawa Prefectural Government. It is probable that the Prefectural Welfare Section can obtain these materials free of charge for the Young Peoples' Protective Association, a worthy charity. A report will be made to this Headquarters concerning the matter by 1 May 1946.

23th, April, 1946.

Subject : Concerning permission of getting the buliding material.

Through : Yokohama Liaison Office.

To : The Welfare and Material Transfer Section.

By the air raid undergone on the 29th of May, one of the buildings which we, the Youngmens' Protective Association, use as a Home for youth was reduced to ashes.
Consequently we have been thinking of its reconstruction, but on account of the recent rise in cost of building materials and difficulties of procuring them we are confronted with great obstacles. Since the close of the war the conditions in Japan have urged the expansion and intensification of social work. Especially if we consider the actual fact that a great many boys and loafer are wondering in the streets day and night. Being in this situation, the rehabilitation of our school building becomes most essential. So we have made a petition to ask permission to acqure the following building materials free of charge.

YOUNG PEOPLES' PROTECTIVE ASSOCIATION

Director: Sumihiko Arima

Formerly had three establishments:

1. Home Training School (for 50 wayward girls)
2. Home for 200 repatriates in Kanazawa
3. Home for 40 juvenile delinquents in Isogo-ku

The Isogo-ku establishment was burned out, as was the dormitory of the training school in Hodagaya-ku, so now there is only 11 girls there. The Kanazawa work still goes on.

Assistants are the director's mother-in-law, Mrs Muraoka, widow of Baptist minister, his wife, and his son, Shiro, 21, former Jap army officer stationedin China. They have managed to continue the work, and hope to expand it. A Miss Hayashi also assists. They all speak English, and spent several years in America.

On 23 Apr 46 former Jap airfield materials (Saye) were requested from the Ken-cho

Report on investigation concerning the food situation of Keiyu Hospital from Mr. Tanaka of the Welfare Section of the prefectural office.

At present Keiyu Hospital has about 40 inpatients, and 15 convalescents besides many outpatients. And forty five nurses usually work in this hospital. Owing to the delayed distribution of foodstuffs of late, they have got into difficulties. As it was turned out to be dear that they had filed an application of special distribution of food, we asked the section of provisions to take an exceptional consideration. The food situation not only to Keiyu Hospital, but also to all the cityzens. Under this circumstances it would be impossible apprarently to make a exceptional distribution to that hospital..
