NOTICE: Most failures with seeds are due to unfavorable weather or soil conditions, too deep or too shallow planting, or other causes entirely beyond our control, which make it impossible for us to guarantee success. We take all possible care to supply seeds that will under proper conditions produce satisfactory results; seeds that will grow and prove true to name and description.

STOCKS: We are prepared to furnish every item in this catalogue until stocks have been sold out. All prices are subject to change without notice; some may advance, others may be reduced, which is governed by the market.

MAIL ORDERS: Particular attention is given to orders received by mail. In the Spring of each Season our orders for seeds by mail increase to such an extent that in some instances we are forced to delay orders a short time. It is advisable to send in your orders early.

“CYCLONE”

ALL SEASON

FOUNTAIN

Here's a fountain with which you will be more than pleased. It's heavy insulation—1/3 thicker than most other fountains—assures of even temperature of water in coldest weather. The comparatively large opening into inner cylinder assures of quick easy filling in Pocket Filled type and does not allow dirt to remain in cylinder. If you have used other thermic fountains you will appreciate this feature. All cylinder joints are double seamed. Best grade of solder used in the construction.

The smooth cone top prevents rusting and assures for cleanliness. The big smooth handle provided doesn't squeeze or cut the hand.

Hon. Charles J. Esterly, Ex-Congressman Berks-Lehigh District, of Sally Ann Farms, Berks County, Pa., said: "I keep a copy of your Seed Catalogue regularly in my automobile. It is of great importance to me as a reference book."

In addition to the building you see on the front cover we also have a large three-story warehouse, located within a square. We handle carloads of Seeds contracted for each season that come to us direct from first hands. We are prepared to supply you with Good Seeds in any quantity.

You will notice by looking over the catalogue that we have a very large and complete line of both Garden and Field Seeds. We handle the best in Seeds, not only the same old kinds with merely a new name, but Standard Varieties, which we know are good.
