A. WOLL.

The war appears to have fairly set in. A despetch dated Camp Selado, 20th Sept., mentions that Col. Caldwell, with a force of 350 mes had an engagement with Gen. Woll, in which the Texians came of view.

The Mexicans left 100 killed on the field a pattle, besides 200 wounded. We regret to say the company of 59 men, called the Fayatta volunteers attrospting to join the camp of Col. Caldwell, we cut off, and took position in a thicket, from which the defended themselves against an infinitely superior force until completely cut to pieces; 33 of the number were found dead on the field, and the remainder su

were found dead on the nead, and the remainder sup-posed to have been made prigoners of war.

The latest accounts from the seat of war, mention that Gen. Woll had been compelled to evacuate Bex-ar, and had fallen back 24 miles to the Medinas. A fexican prisoner of war reports that Gen. W. was daily expecting a reinforcement of 1500 men und-

Gen. Ampudaa.
Col. Caldwell, with 600 men, is between the Ri Grande and the main body of the Mexican army. Some spice report that a party of the prisoners are at Bexar, had been inhumanly murdered. A report reached Houston that Gonzales had bee taken by a party of 700 Mexicans, but was subm quently contradicted.

From all that we can learn, the Texians are in er cellent sprints, and there is no doubt that they will shortly drive the invaders from their soil. At Galveston they were daily looking for accounts of a decisive battle battered the two contending forces.

The report of the burning of the city of Austin is contradical.

In this state of things, the sphore must wait and complain of the law's delay. Another consequence is, that the objects which the Legislature sought to attain by the creation of a justice Judge, and the provision of the law which requires the City Court to be held drift, are defeated.

Lexington speech. I am deing injustice to Mr. Chy by even noticing there items in his speech without accompanying them with a maire extended comment upon the manner in which he saforred them. He closed his speech with an absortation of some fifteen minutes' duration, which surpassed in eloquence, noble bearing, and lofty patriotism, anything I have a way before heteroet to. I will endeaver to give you a better account of it at another time. MARYLAND ELECTIONS.

The Baltimore American of the 8th inet., contains the latest returns from Maryland. They are highly favorable and nearly settle the question of the rest invorable and nearly settle the question of the result. The Sentate consists of 31 members—seven were to be elected this year. Fourteen held over, of which 9 were whig and 5 locoface, of these elected four are whig and three loces. That body will cannequently stand 13 whige and 6 locos.

To the House the locofoces have shooted 41 details.

20 tee group to the white 25 or 26—the four counties of St. Mary, Somerest, Dorchester, and Wercester which send 15 members—all of whem were whig last year, and will probably be so this year—remain to be beard from. The whise will, therefore, have THERE or perhaps rive majority on joint ballot. Their me jority would have been more than double, but for the jorny would have seen more than course, but for the dissentions of their own party in the strong whig country of Montgomery.

MASSACHURETTS.—The locoliness accuse the whigh

of having errymandered Massachusetts in the recent apportionment bit. To show the falsity we subjoin the majorities in 1839, when Marcus Morton (see was elected by one vote—and the vote throughout t state being so nearly equal, it will be seen that the lo co's had mojorities in five congressional districts:—

| Whig majorities | Loco majorities | Loco majorities | Loco majorities | 14 district | 1204 | 4th district | 277 | 5th do. | 169 | 5th do. | 160 | 3d | do. | 188 | 6th do. | 130 | 7th do. | 19th | 4th |

Connecticut.—The returns from the town elec tions still continue favorable to the whige. Of sixty-five towns heard from thirty-seven are whige stad twenty eight locofice. The whig strength has greatly increased in almost every town, and in sweps; there is an antim change, while the forms that have been deviced by the invelocing have given greatly distinish

chroted by the terefactor, have given greatly distalled ed majorities.

Source Canolista.—The election lasts title days in this state. The votes of Charleston adjacented to \$2,186—a this tota. There were several tickets for representatives, all, we believe, of the icoofogo true ret.
