Sarcoxie Nurseries

WILD BROS. NURSERY CO.

Successors to J. B. WILD & BROS.

SARCOXIE, (JASPER CO.) MISSOURI.

BEST COOL STORAGE AND PACKING HOUSE EXTANT.

32d ANNUAL WHOLESALE AND RETAIL PRICE LIST.

Issued August 25, 1907.

WESTERN GROWN NURSERY STOCK.

Extensive Growers of Ornamental Trees for City or Private Parks.

Our Exhibit was Awarded Goid Medal at World's Fair, St. Louis, Mo.

Our Nurseries are advantageously located on the line of the St. Louis & San Francisco R. R. (Frisco System) between diverging points. Five passenger trains (Wells Fargo Express) daily each way. It is but 15 minutes walk from depot to our grounds. Shipping and business facilities unsurpassed. Connected by Home Mineral Belt and Local Telephone Companies, Missouri, Kansas & Texas (Bell) Long Distance phone in our office.

COPY OF CERTIFICATE.

ARGICULTURAL COLLEGE OF MISSOURI EXPERIMENT STATION, DEPARTMENT OF ENTOMOLOGY.—CERTIFICATE OF INSPECTION OF NURSERY STOCK.

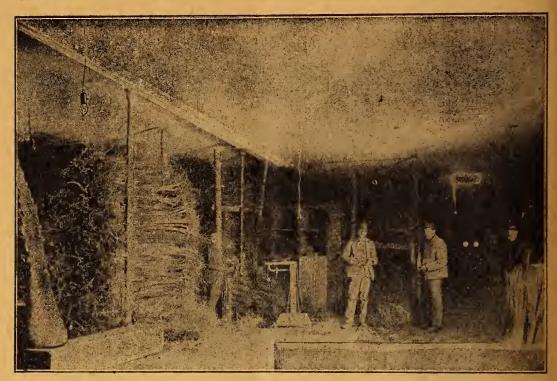

To Whom It May Concern:

Columbia, Mo., July 31, 1907.

This is to certify that on the 29th day of July, 1907, the Nursery Stock of the Sarcoxie Nurseries, Wild Bros. Nursery Co., Proprietors, grown in their Nurseries at and in the vicinity of Sarcoxie, Jasper county, Missouri, was examined and no indication found of the presence of San Jose Scale, Peach Yellows, Rosette, or other DANGEROUS insects or plant diseases liable to be transferred on nursery stock from the nursery to the orchard.

This certificate is good for one year from date of inspection. J. M. STEDMAN, Entomologist.

LEONARD HASEMAN, Deputy Inspector. NOTE.—Copy of certificate showing examination for fall, 1907 and spring, 1908, will appear on invoice.

INTERIOR OF OUR COOL STORAGE BUILDING.

The above cut shows the interior of our frost-proof brick packing and cool storage rooms, 60 feet by 120 feet. A system of waterworks is maintained for use at all times.

"The Wild Bros. are pioneers in the process of storing trees without packing them in moss, excelsior or shingle tow. This process consists of regulating the temperature in the storage building to a certain point where the evaporation is lessened as much as possible, and the possibility of mould and mildew is thereby decreased."

SPECIAL MENTION—COOL STORAGE WINTER SHIPMENTS.

The past years have demonstrated the necessity of winter storing of young nursery stock and plants, and we now have with our COOL STORAGE PROCESS the best method of keeping and wintering trees and plants for shipment at any time, likewise extending planting and shipping into the mouth of May.

FOR WINTER AND SPRING ORDERS our storage room (see above cut), having a capacity of over twenty carloads will be supplied with an assortment of leading Fruit Trees.

capacity of over twenty carloads will be supplied with an assortment of leading Fruit Trees, Forest Tree Seedlings, Grape Vines, etc., which will enable us to ship to our Texas Pacific or Western and other distant customers as early as they may desire.

or Western and other distant customers as early as they may desire.

All orders requiring storing for early winter or late spring shipment must be sent in by December 10th. Customers can order any time between October and April 15th, and shipments can be made without danger to any point south of the fortieth parallel in winter (except January) from our storage house of such stock as we have in storage.

A list of stock in storage will be sent to applicants after December 20th of each year.

We clip the following from the editorial correspondence in the Prairie Farmer (Orange Western 1886, relative to the reports on exhibit to the eleventh

we clip the following from the editorial correspondence in the Prairie Farmer (Orange Judd, editor), Chicago, June 26th, 1886, relative to the reports on exhibits at the eleventh annual meeting of the Nurserymen, Seedmen and Florists, held at Washington, D. C., June 16th to 20th, 1886: "J. B. Wild & Bro., Sarcoxie, Mo., exhibited a lot of trees and plants kept in cool storage up to June 10th, having been placed there November last, without moss, sand or soil, and trees being corded up in fine condition, the plan making it possible to extend the shipping season much longer than usual."

THE VARIOUS HABITS AND GROWTH OF TREES.

Upon this we feel necessitated to give some information, especially since there is frequently dissatisfaction expressed by purchasers upon receiving trees when they are not all of equal size and beauty. The unsightly, crooked and small trees are looked upon as being inferior, and the nurseryman is charged with fradulent motives for having sent out such trees, while at the same time he may have acted for the benefit of the purchaser and have given him the most costly as well as the most valuable trees—for there might be a large number of handsome, rapid growing varieties, collected for cultivation, which would be the most profitable for nurserymen to cultivate, but would they do for the purchaser? From the fact that such can be grown fit for sale in two or three years and upon clearing off the nursery grounds no refuse trees will be found, while among the crooked growers many will have to be left in the digging on account of being too extremely crooked to send out. And there will be still more among the feeble growers, for many of them are not large enough at even three or four years. The loss of these often reaches 25 per cent left on the grounds to be cleaned up and burned.

The question may here be asked: Why do not nurserymen cultivate only the nice, thrifty growers? Because those planting trees are desirous of getting good fruit, and we must raise those recommended by our leading horticulturists and fruit growers, also such as our own markets and palates say are good. These recommend certain varieties, of which the crooked and feeble growers are recommended as well as the handsome, irrespective of the

own markets and palates say are good. These recommend certain varieties, of which the crooked and feeble growers are recommended as well as the handsome, irrespective of the habit and growth of the tree, from which the nurseryman is induced to cultivate it, not because he takes delight in sending out inferior trees, as they are generally called, to receive the abuse of the people, but as a candid, reflecting man, conscious of his responsibility to the community at large for the dissemination of good fruit, his utmost endeavor—first, to cultivate good fruit, and, second, as nice trees as those fruits can be made to grow—not only such as will dazzle the eye in size and beauty, but such as have all the good qualities of which the leading characteristics are flavor and productiveness—in short, most profitable—which, as he well knows, not only benefits his fellowman, but greatly involves his own personal welfare in after time, as it requires more than mere raising of showy trees to preserve or establish a nurseryman's reputation. However, the free and rapid growing of a variety (when accompanied with good fruit) is an important consideration in favor of its extensive cultivation. extensive cultivation.

ADVERTISEMENT.

Our Nurseries are situated on the western slope of the Ozark mountain range, at an elevation of over 1150 feet above the sea (about 800 feet above St. Louis), adjoining open prairie lands. These conditions, together with the character of soil, will at once convey the superior advantages we hold for growing Nursery Stock of the best quality, and maturing same in advance of the more northern and southern states.

Having handled some of the products of a number of the leading nurseries east, north and south the past few seasons, we are convinced that we have better matured stock here by October 10th than many nurseries can claim for same time. The conditions confronting us have brought about the necessity of growing a more complete line of stock, and which we now claim to have, thus assuring our patrons of as good quality, well matured and as complete in assortment as can be found in any one nursery.

TO OUR FRIENDS AND PATRONS.

We sincerely thank all our customers and friends who have so generously patronized us in this and former years, for your kind favors. We appreciate them, and assure you, and shall always strive to make your dealings with us both pleasant and profitable.

We hope to hear from all our old customers and friends during the coming season, and from as many new ones as we can make it an object through OUR PRICES AND MANNER OF DEALING DIRECT WITH THEM, to kindly favor us with their orders.

We give our attention wholly to the Nursery business—no other interests conflicting. Aided with thirty years' experience in the most approved methods of growing and handling nursery products, customers can rely on receiving the benefit of our large experience. We confidently ask the attention of our patrons to our stock, and trust when possible they will look through it and see what we have. Our grounds are open and free to ali visitors, except Sunday. Sunday

THE GREATEST CARE being taken not to send out anything that is not true to name, holding ourselves ready to replace or refund upon proof, equal to the amount of first cost of trees, etc., that prove untrue, but to no greater amount or extent.

No sale by us carries a warranty of quality, expressed or implied, and for any error we shall not be liable for more than the purchase price. Every purchase from us is made on these terms.

REFERENCES.—That we are in actual and permanent business, we deem it only fair to place the information regarding the responsibility of the firm with whom you entrust your

orders and commands:

REFER TO Messrs. Theo. Sabert, Cashier State Bank, Sarcoxie; H. B. Boyd, Cashier First National Bank; Reynolds & Son, S. P. Burris, Red Front Mercantile Co., or any business house in Sarcoxie.

TO CORRESPONDENTS.

If you have sent us an order with remittance and do not hear from us in a reasonable time write again. We invariably acknowledge all orders received by postal card or letter and give an ORDER NUMBER for reference, which you will please preserve.

We answer all correspondence relative to our line of business that is not or cannot be answered in our printed list; but anything about growing or planting, where a reply is wanted, must be so written as to allow us to insert answers.

RECEIPTS.—The receipt of every remittance is promptly acknowledged by us. Each order received is duly numbered, and as the receipts given mention said number, customers preserving their receipts can readily refer to any order sent us by simply giving the number and we can instantly refer to the original order, which we preserve for a number of years for future reference. We hope each purchaser will save their receipts and when making inquiries concerning any order always give its number, for without it requires time and patience to look it up. patience to look it up.

WHAT TO ORDER.

While leaving every one to make his own choice, we advise you not to order too many varieties, whether intended for domestic use or marketing. Select sparingly such varieties as have been favorites in the localities from which you come, especially if you are remote from there, but rather select such varieties as are suited to the locality you intend to plant in. In doing this you may have to give up some favorite sort, but it will be an easy matter when you see how unprofitable and out of season your favorites generally become.

We desire also to call your attention to those so-called Fruit Unions—that agree to plant orchards for you and claim to know better what you want, and are willing to select for you:

orchards for you and claim to know better what you want, and are willing to select for you; your successful neighboring fruit-grower is better able to tell you what to plant than any nurseryman or fruit-grower remote from where you desire to plant.

EXECUTION OF ORDERS.

We endeavor to execute all orders promptly and as nearly as possible in rotation as re-We endeavor to execute all orders promptly and as nearly as possible in rotation as received, giving each order the most scrupulous care and attention to insure reasonable satisfaction. Spring shipping brings with it an unusual amount of items to be looked after, and notwithstanding we have a largely increased force of men, orders are liable to be delayed some days. Then, again, the mails are sometimes missent, or delays occur on the road that we are not responsible for. Occasionally errors occur in the hundreds and even thousands of details incident to our business, but we are always ready to rectify them on proper proof, but cannot do so unless informed just what the trouble is within the limited time printed on the invoice sheet. When the bill and goods are received check it up at once; if correct, give proper credit without delay; if not correct, advise us of the fact then and there. See Article 11, Terms and Conditions of Sale.

Adjustments are easy while the details are fresh in mind, but we cannot be blamed for

Adjustments are easy while the details are fresh in mind, but we cannot be blamed for looking with suspicion upon complaints made weeks afterwards or in refusing to consider

them.

SECURE YOUR SELECTION BY SENDING ORDERS EARLY.

If your friends on receiving this catalogue will make a list of trees and plants they want and send their orders at once, we can then reserve, until proper shipping season, such stock that may be on hand at time order is received. Orders will be booked by complying with terms and conditions of sale.

PACKING AND DELIVERING SEASON.

Which generally commences about October 10, in the fall; for spring, from open ground, about February 10 (often earlier). For California and the South we pack and ship in mild weather from Storage House all winter, and it gives ample time for long shipments. Past experience has demonstrated the fact that nursery stock arrives in best condition, when long time is required in transit, if shipped when stock is in most dormant condition—being during the months from November to February.

CARE OF TREES ON ARRIVAL.

As soon as you unpack, having your trenches previously dug to receive them, set in a slanting position, then fill in around the roots, treading the soil sufficiently to make it firm, and avoid having bunches set side by side without soil between them. This is a serious drawback attending the growth of trees, as much damage results from having trees 'heeled in' with openings, allowing drying or freezing before planting, and the nurseryman is charged with having sent poor steck; when the fault is in mishandling after arrival.

Should trees arrive in a shriveled condition, after a long delay in shipment, take out all shriveled trees, and bury tops and all for about ten days, to restore them. Should trees arrive in a frozen condition, place in the cellar, to allow gradual thawing, or bury in soil until thawed out. Do not expose stock to hasten thawing. It is most essential to let frozen stock thaw out gradually in a dark, cool place; therefore avoid exposure to sunlight or heat when transferring to a cool place.

FALL PLANTING.

The spring planting season is often of such short duration that much intended work is necessarily omitted or postponed. In the fall there is an abundance of time to plan and plant, and the work therefore can frequently be done as satisfactorily as in the spring.

The once prevalent notion that fall planting is not advantageous has proven to be erroneous, and, with the exception of a few varieties of evergreens, almost everything called hardy can be planted successfully in the autumn, except in some regions where the winters are extremely severe, or in exposed situations, in which case spring planting is absolutely

Plant as early after the first killing frosts as the trees become thoroughly dormant, thereby avoiding delay until the spring months. In a climate like this, where the severe cold is often broken, trees planted in November or December will before spring have formed new roots sufficient to give it a firm start in the ground, and will grow off more rapidly when spring growth begins. Trees can be planted up till April, but the success is rendered less certain than if planting is done in fall or early winter.

NO AGENTS, NO TRADE MARKS.

We are often asked if we employ agents to sell our trees and plants. In order to avoid much correspondence we here state that we have not since we began business employed any agents.

agents.

Our efforts are directed toward the growing of FRUIT TREES, Forest and Evergreen Trees, and Plants, which shall be the best that can be produced. Hence we look to the growing as of first importance, and offer our stock to the Wholesale and Retail Trade through our price list direct, our only authorized agent.

We desire the patronage of all fruit-loving people, of men who know the value of fruit trees and plants when bought. We want the patronage of careful men who will take care of fruit trees when bought. We want to sell to men who sell again and keep themselves familiar with the best varieties and needs of a planter.

If you desire to sell stock, there is nothing to prevent you from soliciting orders on your own account, and you can sell at prices that will remunerate you, according to your zeal and energy.

Should you purchase trees at wholesale to sell again, we have no objection to your saying that your trees (as much as are purchased of us) are from our Nurseries, but in no case can other stock be represented as our growing. Our trees and plants are guaranteed true to name to the purchaser only, after which our control ceases; hence our responsibility also.

TRADE MARKS.

Organic articles, as trees and plants are not considered subject to trade mark. The U.S. Circuit Court of Appeals has decided this. See Hoyt vs. J. T. Lovett Co., 71 Fed. 173.

READ CAREFULLY BEFORE ORDERING THE TERMS AND CONDITIONS OF SALE.

1. TERMS.—The prices in this list are under the following conditions, and for CASH WITH ORDER. Sales, however, to know, responsible, prompt-paying customers, we will book before shipping season, and forward orders during shipping season to be paid for promptly on receipt of invoice, no countermands accepted. Parties unknown, or with whom we have had no business transactions will please send cash or satisfactory security with their orders. Stock ordered booked in advance of shipping season, to be reserved, must be accompanied with remittance of AT LEAST ONE-THIRD OF THE LIST PRICE; balance to be paid when shipping season arrives. Orders so booked we will name list of stock reserved, and such will be held subject to agreement, unavoidable accidents excepted. When any accidents have occurred notice will be given, stating nature of loss or damage. Orders given for future shipment, without earnest money accompanying same, will only be entered subject to stock ordered being on hand when shipping time arrives.

2. TELEGRAPH ORDERS, to receive prompt attention, when from unknown parties, must place sufficient deposit subject to our order with bank or express agent, and note same in message.

in message.

3. GOODS SENT C. O. D. when half the amount is sent us or deposited with bank or express agent. When deposited it must be certified and certificate sent with order.

4. REMITTANCE AT OUR RISK, if made by Postal Money Order on Sarçoxie, Mo., or money by express prepaid or draft on New York, St. Louis or Chicago. Drafts or checks on other points must be drawn with exchange; otherwise we cannot accept them at par. Drafts and money orders should be made payable to WILD BROS. NURSERY CO.

5. ANY REMITTANCE IN EXCESS of invoice will be promptly returned, or held subject to order

5. ANY REMITTANCE IN EXCESS of invoice will be promptly returned, or held subject to order.
6. ORDERS AND CONDITIONS OF SALE.—At prices in this list, not less than 5, 10, 50, 100, 500 or 1000 of a sort and size of a class will be furnished at the respective 5, 10, 50, 100 or 500 rate, except when a class is offered in assortment, then 10 or more of a sort in that class may be selected in making up the 100 or 500 of that class to secure the 100 or 500 rate on same. Less than 10 of a sort will be charged ten cents to the proportion of the 10 rate. For example: When the 10 rate is \$1 for 10, 5 will be furnished for 60 cents or 1 for 20 cents. Further, prices herein quoted are for your selection of sorts at respective prices given, but we reserve the right to fill in a smaller or larger size (or age) than ordered, should we be out of the size or age of sorts wanted, charging therefor at the

respective size or age of sorts used in filling the order. Parties ordering should state preference of a larger or smaller grade, so that we can be governed accordingly. Uniform grades cannot be guaranteed when sorts ordered are to be strictly adhered to. Orders joined with needed specifications not quoted or agreed to in this price list will not be entertained, except by special agreement in writing. When sorts are ordered that we do not offer in this list, we will exercise our judgment and send as nearly similar sorts as we have at command.

7. GRADES.—Size, height—or caliper measurements—are taken from the collar near the root, and are stated for guidance only. Slight variations may sometimes occur. Reasonable customers will understand that it is not calculated to mean measurement of each plant or tree. If any items in sizes, ages or height requested are sold out, then the most available will be observed as filling the desired place, unless prohibited in the order given.

8. SAMPLES, when ordered, will be invoiced at list rates, but subject to a rebate to equal prices given on order placed through same.

9. BOXING, BAILING AND PACKING.—Prices herein do not include same. A moderate charge will be made for such, but no charge for delivering to railroad depot or express office here. We charge for boxes (which includes the packing) as follows:

8. Sinches by 8. ft 8. 755 200220 inches by 8. ft \$1.25 22323 inches by 10. ft \$2.25

8 ft. \$.75 8 ft. .90 20x20 inches by 8 ft. \$1.85 20x20 inches by 9 ft. 2.05 28x28 inches by 10 ft. \$2.95 30x30 inches by 8 ft. 2.80 8x 8 inches by 10x10 inches by 9 ft. 12x12 inches by 12x12 inches by 20x20 inches by 10 ft. 22x22 inches by 8 ft. 30x30 inches by 9 ft. 30x30 inches by 10 ft. 8 ft. $\frac{1.10}{1.20}$ 2.25 9 ft. 9 ft. 22x22 inches by 22x22 inches by 2.00 1.25 2.20 12x12 inches by 10 ft. 32x32 inches by 3.00 22x22 inches by 10 ft. 24x24 inches by 8 ft. 24x24 inches by 9 ft. 14x14 inches by 14x14 inches by 2.35 2.20 32x32 inches by 9 ft. 32x32 inches by 10 ft. 8 ft. 1.40 9 ft. 1.50 3.40 14x14 inches by 10 ft. 1.80 2.45 34x34 inches by 3.20 16x16 inches by 16x16 inches by 8 ft. ·1.60 9 ft. 1.75 24x24 inches by 10 ft. 26x26 inches by 8 ft. 34x34 inches by 9 ft. 34x34 inches by 10 ft. $\frac{2.55}{2.35}$ 2.55 2.75 2.55 26x26 inches by 16x16 inches by 10 ft. 9 ft. 1.95 36x36 inches by 8 ft. 9 ft. 26x26 inches by 10 ft. 28x28 inches by 8 ft. 36x36 inches by 9 ft. 36x36 inches by 10 ft. 18x18 inches by 18x18 inches by 1.75 9 ft. 3.65 1.90 4.00 18x18 inches by 10 ft. 28x28 inches by 9 ft.

And in proportion for larger or smaller boxes. Bales from 10 cents to \$3.00 each. Boxes ordered paper lined, or double lined and filled with sawdust, will be extra cost. Packing of car load lots in bulk with ordinary straw or hay packing, from \$5.00 to \$8.00 per car; where special material, as moss, and extra packing is ordered the same will be at additional cost of material and labor required.

10. TRANSPORTATION.—Our responsibility ceases on the shipment of goods in good order and transmittal of Bill of Lading to consignee; and payment of bill is in no instance to be subject to arrival or non-arrival of goods at destination, though we will at any and all times use our utmost endeavors to trace up any missing goods.

NOTE: In order to secure third-class freight rates under ruling of the "Western Classification" on Nursery stock, boxed (not baled), shipper must release to value of \$5.00 per cwi., and in order that our patrons may have the benefit of the lower freight rates we will release and guarantee freight charges through for them, unless instructed on order not to do so. Freight charges not guaranteed must be prepaid, or forwarders will not accept goods for shipment

for shipment.

11. RECLAMATION.—Claims for deduction from whatever cause MUST BE MADE IMMEDIATELY ON RECEIPT OF GOODS. No shortage claim entertained unless itemized list of all stock as found is promptly submitted to us. Check off goods when you unpack, and then and there note carefully on a memoranda, itemized as to sort, size labeled, with number of bunches and number in each bunch received, thereby giving a detailed report of stock as found. Don't state so and so was short, without stating also what you did get. Remember, we, too, want to know what you base your claims upon, and must have facts, as you may be over on some items, or mistook one sort for another, or you may have intended to order such and such, or more of some, but failed to note same on order as sent in. Further, as of damaged stock and where you have just reason to believe that fault rests with us to order such and such, or more of some, but failed to note same on order as sent in Further, in case of damaged stock and where you have just reason to believe that fault rests with us for its condition, under such conditions we here request that such stock be immediately taken proper cars of, so that no further damage may result, AND AT ONCE NOTIFY US OF THE FACTS, so that we may have opportunity to direct its disposition. Claims WILL NOT BE ENTERTAINED after original bundles or packages are broken and part of said goods used or disposed of, and claim set up afterwards, to seek reductions on same. Your failure to do so must exempt us from further responsibility in the matter. Adjustments are easy while all the details are fresh in mind, but we cannot be blamed for declining claims upon complaints made weeks afterwards. plaints made weeks afterwards.

plaints made weeks afterwards.

12. INSURANCE.—At the prices in this list we do not guarantee stock to live, nor absolutely free from insect pests & disease common to respective line of stock offered; nor will we replace free of cost that which dies or fails to grow; nor can we, in view of the various incidents that it is subject to, as the success or failure depend largely upon climatic conditions, manner of planting, after-care, etc. Having been in the nursery business for thirty years at Sarcoxie, and our business having increased with wonderful rapidity, now covering many hundred acres in a body devoted to the Nursery proper, is sufficient evidence that we are up with the times and have won the confidence of the patronizing public, and number among our patrons the leading nurseries of the United States, Canada and Mexico. When a guarantee is wanted exceptional to these terms then the prices will necessarily be based on guarantee is wanted, exceptional to these terms then the prices will necessarily be based on the nature of the risks to be assumed.

Certificate of Inspection Will Be Furnished With Each Shipment.

13. FUMIGATION OF STOCK.—Same will be done when requested to do so, or where a state to which the stock is to be shipped makes it compulsory to do so. Formula to be used will be such as may be recommended by state or states; but it must be understood that we will assume no RESPONSIBILITY for results when we have carried out such instructions.

14. GUARANTEE.—While we exercise every possible care and diligence to have our trees, plants, etc., true to label; and hold ourselves in readiness, on proper proof, to replace any that may prove untrue to label, without charge, or refund the amount paid for the same it is mutually anderstood and agreed between the purchaser and ourselves that this covers the full extent of our guarantee or responsibility in the premises, and orders are accepted on no other terms

15. POSITIVELY NO DEVIATION from the foregoing terms, unless made by special agreement in writing, setting forth in specific terms, where at variance to the foregoing.

16. The publication of this list abrogates previous quotations.

GIVE PLAIN DIRECTIONS FOR SHIPPING.

Don't forget to write postoffice address plainly, also freight or express, if different from postoffice. Purchasers will confer a favor by stating the manner in which they wish their goods sent—freight or express—also route. When none are designated we forward to the best of our judgment; but in no case do we assume any responsibility after the packages are shipped.

PROMPT SHIPMENTS.—To meet this want we have adapted our packing house to every convenience for the rapid and thorough dispatching of orders.

WEIGHT OF TREES PACKED can only be given approximately; 1,000 trees packed for shipment, ordinary weight: 1 to 2 feet, 150 to 200 lbs.; 2 to 3 feet, 300 to 400 lbs.; 3 to 4 feet, 500 fo 650 lbs.; 4 to 5 feet, 900 to 1,200 lbs.; 5 to 6 feet, 1,500 to 2,000 lbs.; 5 to 7 feet, three-year-old, 2,500 to 3,500 lbs.; 6 to 8 feet, 3,000 to 4,000 lbs. Evergreens weigh more.

A CAR LOAD WILL HOLD, when packed in bulk in box cars, from ten to twelve thousand 5 to 6 foot trees; from fourteen to sixteen thousand 4 to 5 foot trees, and from six to eight thousand 5 to 8 foot trees, and from one-fourth to one-third more when boxed.

Coal or flat cars boxed up will hold about double the quantity of ordinary cars. Cost

Coal or flat cars boxed up will note about doubted to the state of boxing up a coal car is about \$30 per car.

To arrive at the approximate cost for boxing or baling we submit the following:
On 6 to 8 foot trees.......\$9.00 to \$12.00 per 1000 \$2.50 to \$3.00 per 100 50c to 60c
On 5 to 6 foot trees....... 7.00 to 9.00 per 1000 1.50 to 2.00 per 100 30c to 40c

Rules for Ascertaining the Number of Plants Required for One Acre of Ground, Which Contains 43,560 Square Feet.

Multiply the distance in feet between the rows by the distance the plants are apart in the row, and their product will be the number of square feet for each plant or hill, which divided into the number of feet in an acre will show how many plants or hills the acre will

Blackberries	8 1	ft. by	3	ft 24	43,560	1,815	plants
Raspberries					43,560	2,074	plants
Strawberries (for field culture)					43,560	5,445	plants
Strawberries (hill culture)						10,890	plants
Dwarf Pears					43,560	435	trees
Peaches					43,560	134	trees
Standard Pears and Cherries					43,560	108	trees
Apples					43,560	48	trees

500,000 Apple Trees in Assortment.

At prices on this and the following page not less than 10 of a sort and grade will be furnished at the 10 rate; but by the 50, 100, 500 and 1000 you are permitted to select in lots of 10 or more of a sort in a respective grade selected, to make up the number that will entitle you to 50, 100, 500 or 1000 rate. When less than 10 of a sort and grade is selected then one will be charged up at the single rate and each additional at the 10 rate until the 10 rate is reached. See table of rates, page 31 of this catalogue.

NOTE: Caliper measurements average about one-eighth of an inch per given foot in height.

A copy of Certificate of Inspection will be furnished with each shipment.

Before making out your order read Article 6, Terms and Conditions of Sale.

Boxing or baling and packing charged at cost. See Article 9, on page 8.

THOMAS' AMERICAN FRUIT CULTURIST

Containing practical directions for the propagation and culture of fruits adapted to the United States. Twenty-first edition thoroughly revised, greatly enlarged, up-to-date. A very handsome volume of over 800 pages, profusely illustrated with over 800 figures and engravings. Bound in English muslin.

Price, by mail, postage free to all parts of United States, \$2.50.

All figures of fruits are drawn to a scale, so as to give a correct idea of size.

NOTE.—Orders for Thomas' American Fruit Culturist will be sent to publishers to be filled, as we do not keep the books in stock.

STRAWBERRIES

This is the most popular of small fruits. No fruit is so free from objectionable features as the strawberry. No thorns, no briars, easy of culture, strawberry. No thorns, no briars, easy of culture, easy to 'gather, and the most refreshing of all fruits, coming in before any other. Set plants in rows four feet apart and one foot apart in the rows. Cultivate well, and by fall the plants will have matted the ground well over. Mulch lightly in winter to prevent plants from heaving.

We endeavor to handle our plants in the very best mauner. They are carefully cleaned, the roots straightened and neatly tied in bunches of fifty each, labeled and packed in paper and mossed.

Order strawberry plants early in spring by all

Order strawberry plants early in spring by all means; as early as possible if to be shipped as freight; (inall lots or late in season must be sent by express. Have us book your orders early.

All varieties marked "p" are pistilate, (flow-

ers without stamens), imperfect in blossom, and need at least every fourth row to be planted with some perfect or staminate sort, which find marked "s" to select from.

We can supply strawberry plants in the fall after October 20th, during November and in the spring at 10, 100 and 1,000 rates. No plants furnished at 1,000 rate in the fall until after October 20th. The prices herein named are layer plants not pot plants.

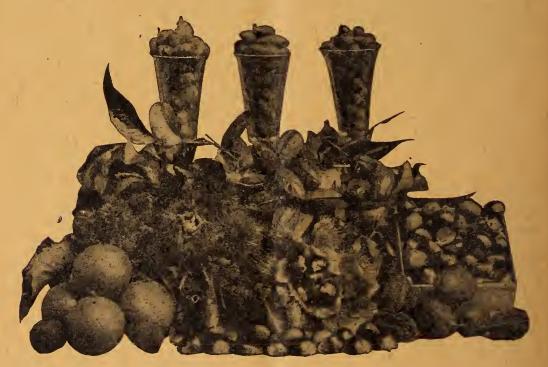

For number of plants required to set one acre for field culture, see rules, page 7. Twelve Strawberry Plants will be mailed for 10 cents additional to 10 rate of respective variety; at the 100 rate, add 25 cents per 100 to cover postage, packing, etc.
Send for special prices for large quantities of Strawberry Plants.
(For delivery after October 20th only).

NOTE .- Varieties marked (p) are pistilate; varieties marked (s) are staminate. EVERGREENS FOR THE LAWN

NOTE. All Evergreens offered are of our own growing, from seeds and cuttings. Do not compare our rates with ''forest pulled seedlings'' nor with Northern Nursery grown, so-called, but note that those we offer can be had long before you can get them from the North. Aside from this, ours are acclimated to the West and South, which gives them a decided advantage over others for timber plantations, windbreaks and ornamental planting.

ALL HERE LISTED ARE TRANSPLANTED AND ROOT-PRUNED. For rooted cuttings see pages 29 and 30.

Selected specimens are 25 per cent higher; extra selected specimens 50 per cent higher than the list price. Each Per 5 Per 10 Per 50 Per 100

Arborvitae, American. A tree of upright growth, especially beautiful when young. Foliage bright green, bronze tints in winter.	2½ feet\$ 1½ to 2 feet					
Arborvitae, Chinese Golden, (Biota aurea conspicua). Foliage intense gold, suffused with green. Erect.	12 inch	.60				
Arborvitae, Chinese Golden Dwarf, (Biota aurea nana). Very dwarf compact habit. Excellent for small gardens. Especially good for cem- etry work. Hardiest of its class.	12 inch	.60	2.60	5.00		
Arborvitae, Douglas Golden. Golden tipped foliage, and of free growth.	3 to 4 feet 2 to 3 feet		$\frac{1.85}{1.60}$	3.50 3.00	$15.00 \\ 12.50$	22.00
Arborvitae, Hovey's Golden. A distinct compact hardy American seedling. Light golden green foliage, dense and conical.	3 to 4 feet	.45 .35 .30 .25 .22	1.85 1.35 1.10 .85 .70	3.50 2.50 2.00 1.50 1.20	11.00 8.00 6.00	20.00 15.00 10.00 8.00

HERBACEOUS PEONIES

(P. Chinensis)

This most popular but long neglected section of hardy herbaceous flowering plants is now being brought into very prominent notice through the great improvement in form and color of the more recently introduced varieties.

They are suitable for nearly all positions—in the garden, along walks, borders, terraces, drives, and for bedding purposes.

Useful in decorating and possessing the symmetry and fragrance of the rose. Valuable as cut flowers, shipping admirably.

Plant preferably in the fall, as early as September, or October and November. They may also be planted in early spring.

Prices are for divided plants of 2 to 5 eyes.

DAHLIA

The Dahlia has always been a favorite for autumn flowering. The flowers are so symmetrical and perfect, and the range of colors so large and varied that they will always be popular where display is wanted. The roots are tender and easily injured by frost. They should be set out three feet apart after all danger of frost is over, and during winter placed in a cool cellar and not allowed to freeze. The plants should be pinched back at first to avoid tying to stakes. Our collection of named Dahlias is of the best, comprising all the leading colors. the leading colors.

GLADIOLUS

No flower has gained more rapidly in public favor, for in addition to the intrinsic merit of the flower it is easy of cultivation and blooms freely. The culture is very simple. They thrive in almost any good soil. Plant the roots six to nine inches apart, the large ones four inches and the small ones three inches deep. Make several plantings of the smalles roots first as soon as the ground is sufficiently dry and warm. Then continue to plant at intervals of two weeks during the spring and early summer. In this way a succession of bloom may be had from mid-summer until frost. In autumn, before freezing, they should be dug and dried. Separate the new bulbs from the old the earth and old roots removed, and then store in a cool, dry place, secure from frost until spring. For boquets the flowers are admirable. As soon as the two lower flowers open the spike may be cut and placed in water, and it will last for days, all the flowers opening as well as if growing in the garden.

MIXED GLADIOLI, From Cowee's World's Fair Strain.

These mixtures must not be confounded with the common mixed sorts.
