Livingston County

Defamation of character

13 May 2022

### I'M A VICTIM!!!!

Judge Jenifer Noto destroyed my client's life, my client made a few bad decisions. Not even 15 yet and she had my client put away twice for self defense. And Mr. John Lockhart (County Attorney) called my client a menace to society. The things they made my client go through is something I don't wish upon anyone. They took my client's childhood from him.

#### Backstory

On April 20th, 2020, Judge Noto had sent my client away for the first time because my client defended himself in an altercation with another minor at his school. My client did not come home till May 6th of 2020, and afterwards they had put an ankle monitor on my client from May 6th, 2020 until August 10th, 2020. My client was the only one who got in trouble. The other youth who started the altercation just got a slap on the wrist.

On April 4th, 2022, My client was once again back in front of Judge noto. It was due to another altercation. She had said during court that My client is a danger to the community and to everyone around him.

What we're trying to say is that charges are being filed against Jennifer Noto an John Lochart for not only defamation of character but also false imprisonment. Yes, you heard that correct FALSE IMPRISONMENT... If we take a look at my client's first charge, he was arrested

and sent to juvenile detention for a violation of probation. BUT!!!! The violation was never filed. Because of that the state of New York is taking this case over.
