LITTLE NORIO WAS RESCUED JUST BEFORE HIS DEATH - STEPMOTHER LEFT HIM OUTSIDE WITHOUT GIVING HIM ANY FOOD - KAHOKU SHIMPO - 8 Dec.

A terrible case of cruelty at the hands of a stepmother was found in Sendai City— a stepmother has been treating her step-son cruelly for two years, without giving him enough food, causing malnutrition. She also gave ~~her~~ a step-baby to some one else, acting as if she was the baby's real mother. On 7th Dec. -- the fourth day of the Human Rights Campaign Week -- North Sendai Police began investigating the case. Minoru Oikawa (31), company employee, who lives at 34 Kawauchi-Sanjunin-machi and his wife Mitsuko (22) were summoned on the suspicion of deserting their child and violation of Juvenile Welfare Law.

According to the investigation of the police and what concerned people say, Oikawa's first wife Kiyomi (31) left his house by divorce in February 1947 leaving four children: Masayoshi (11), Moriyoshi (9), Norio (4) and Tomiko (2). Oikawa married present wife Mitsuko a week after the divorce. Mitsuko treated her step children cruelly -- especially to Norio who was then only 2 years old who needed more care than the others. Even milk was not sufficiently given to him. She treated her stepchildren and two children of her own who were born later with discrimination. After her husband left home for his office, she used to go to her parents' house taking her own children. Norio was often heard crying all day long in the house. The boy's body was always filled with sores. In the afternoon

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

of the 3rd this month, she scolded the boy and made him stand outside the house in the cold and windy day for two hours, all naked. The neighbors took pity on him and told her to take him inside. The people say she spanked him after she took him in the house. Norio was rescued by the hand of the North Police who investigated the facts. For above reasons, he was smaller even than his younger brother who was born a year after him. His limbs were thin and had swollen ~~so~~ feet and very thin hair — just a step before the death from malnutrition — the police says.

Oikawa deceived Wakuri Kumagai (30) midwife residing in Kubo, Nenoshiroishi-mura, Miyagi-gun saying that his last child Tomiko was the daughter of his sub-lieutenent brother who died in the war, and gave Tomiko to the midwife on the 5th of December last year. It was further investigated that Kumagai was urging him to send Tomiko's ration certificate and a copy of census register.

from Sendai Police Headquarters

50 - 1152 Date: 17 October 1950

Re the special tendency of the day nursery operated by the Miyaginohara Free Labor Union.

As the welfare facility for women labors who have a child or children, Miyaginohara Free Labor Union opened the day nursery in a store house -- in the vicinity of the working place and next to the Union's office -- which they have rented from the Prefectural Government and, at the same time, negotiated with the Prefectural Government and obtained some blankets, futons and other things. Furthermore, they collect fee ¥10 a day per child accommodated for care.

The following 4 persons are engaged in the operation of the day nursery and taking care of 14 or 15 children daily.

Kazuko Abe (Communist) 245 Tsuchitoi, Sendai.
Reiko Hashimoto (Communist) 19 Shintenmacho, Sendai.
Emiko Sasaki(Communist) 118 Shimeimae Haranomachi, Sendai.
Mitsuko Sasaki(Communist) 92 Kitanibancho, Sendai.

But recently Ryokichi Kamiya, former professor of Japan University, born on 9 August 1910 and resides at 35 Higashisan-bancho Sendai, seemed to have acquainted himself with a certain Major in charge of Social Welfare Affaires of TCAR and asked the favor of the Major in preparing the ground in advance for getting an approval from the Prefectural Government for the day nursery; subsequently the Director of Labor Dep't of the Prefectural Government was said to have been told by the Major "to give convenience regarding Kamiya's operation of the day nursery".

Kamiya's wife is the younger sister of communist Kazuko Abe and, as for his connection with the communist party or whether or not he has any plan, the inquiry is being made of his antecedents and trend of idea at his permanent domicil. So far what is known about him is as follows:

1. Permanent address : 459 Hirafukumachi, Sada-gun, Hyogo-ken.
2. History :

March 1929	Graduated from Science Course of Konan High School.
April 1929	Entered Science Dep't of Kyoto University.
March 1932	Graduated from Physics Course of Science Dept of Kyoto Univ./

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

April 1932	Became the assistant of Science Dep't of Kyoto University.
Sept 1937	Became the teacher of Otani Girls' High School in Osaka.
April 1939	Became the professor of Science Dep't of Japan University in Tokyo.
April 1940	Became the chief of Production & Technique of Nakajima Airplance Co.
Aug. 1945	Discharged from the Co. due to the termination of the War.
Oct. 1946	Hirafuku Factory Manager of Japan Heating Disposition Industrial Co.
1948	Became to work in Sendai Branch of Industrial Rehabilitation Corporation.

He has quit from his last job and is now working in the office of Welfare Association of communist Saka at 52 Akahama, Shiogama city. Furthermore, it was learned that he has submitted the Prefectural Welfare Department a request for the approval of the day nu sery. In this connection, the Prefectural Welfare Department stated that "they are trying to get the approval from the Prefectural Government in order to get a subsidy with which to operate the day nursery, but we are at the loss as to what to do with the request for approval because we see there is a fear that they might use the day nursery as one facility to expand and systematize the communistic education to children."

Also, the office of purgee Shojiro Kasuga, 18 Kitamachi Nagamachi, Sendai is the house of Tomiko Mishina, wife of Kasuga, But taking an adva tage of her absence after she went to Tokyo, Masao Motojima, ex-lieutenant of the medical corps who repatriated from Russia and who is the chief of Kamisugivama Clinic located in the house of Shichiro Takeuchi at 25 Kitasanbancho, Sendai and who had been making medical service activities as one of the means of expanding the organization of the communist party, moved his office into Tomiko Mishina's house mentioned above and set up Juridical Person Welfare Association in an effort to further expand the organization of the party. And this Association is said to have been operating the Miyaginohara Day Nursery.

It is also learned that this Association and the Welfare Association located at 52 Akahama Shiogama City are the systematic work of Japan Communist Party and their activities are something in common and worthy of attention as legal red activity.

To : Chief of Welfare Section, Tohoku Civil Affairs Region

From : Chief of Child Welfare Section, Miyagi Prefecture

Subject : Present Status of Miyaginohara Day Nursery

1. Provisional Day Nursery:

The Miyaginohara Day Nursery was a provisional one housed on a temporary basis in the resting place for the day-laborers engaged in the construction of the prefecture-operated Miyaginohara Overall Grounds. Having been of temporary nature, the nursery was treated as "seasonal" nursery.

2. Failure to Comply with Child Wel. Agency Minimum Standard:

The Act Governing Child Welfare Agency Minimum Standard was promulgated on December 29, 1948. It was flexible enough to grant postponement to those in existance as of 29 December 1948 with those to be established thereafter involving approval under the Minimum Standard Act. As long as the equipment and staff qualifications were concerned, however, the institution in question did not meet the minimum standard.

3. Conflicting "Approval" Policy on the Part of Welfare Ministry:

On 27 July, 1950, the child section chief conferred with the Ministry of Welfare over approval of the said day nursery. The ministry on its part failed to find any unanimous opinion. In the long run, however, the ministry was led to consider the issue with the bulk of conferees favoring the idea to leave the matter up to the prefectural discretion. Although the ministry was reportedly studying approval for such nurseries, we have received no report whatsoever to that effect.

The adoption of the "shift" system for the day laborers instituted on 1 August and the consequent decrease in the number of inmate-children made it hardly possible for the nursery to continue its functions as such, namely, as a standing one. For these reasons, the nursery - as far as its character was concerned - was more temporary than standing. As a result it was treated as "seasonal" nursery.

4. Future Policy:

In view of possible prolongation of the grounds construction as well as potential improvement of nursery equipment up to the minimum standard, approval is now under contemplation for a certain period subject to staff qualifications.

There were some requests made for whole skim-milk ration. No scrutiny will be made, however, pending next ration. For the kitchen equipment of the agency in question leaves something to be desired and no skim-milk is available right now for the purpose.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

6. Child Welfare Facilities Minimum Standard:

To : Chief of Welfare Department, Miyagi Prefecture 14 July 1949

From : Chief of Nursing Section, Child Bureau, Welfare Ministry

,With those day nurseries which existed at the time of enforcement of this ministerial ordinance in accordance with the provisions of Article 111, Child Welfare Agency Minimum Standard Act and which find it difficult to be approved under the standard of Items 2, 3 and 6 ; the parties concerned are supposed to report to the competent governor on the circumstances involved. The governor in tern shall refer to the local child welfare council, and if he deems the representation as having a good enough reason, shall recommend to the Welfare Ministry together with his opinion.

The majority of existing day nurseries are considered to be coming under this category. I recommend, therefore, that you take necessary procedures immediately after referring to the child welfare agency minimum standard act released by the Welfare Ministry on 29 December 1948.

It is to be born in mind that the stipulations of Item 2, Article 110, Child Welfare Agency Minimum Standard, apply exclusively to those agencies expected to reach - as far as equipment and staff strength are concerned - to the standard by the end of December 1949; and that those with no prospect to meet the standard by the above date require recommendation provided for in Item 2, Article 111.

4. Future Policy:

In view of possible prolongation of the Miyaginohara Overall Grounds construction as well as potential improvement of nursery equipment up to the minimum standard, approval is now under contemplation for a certain period subject to staff qualifications.

There were some requests made for whole skim-milk ration. No scrutiny will be made, however, pending next ration. For the kitchen equipment of the agency in question leaves something to be desired and no skim-milk is available right now for the purpose.

6. Child Welfare Facilities Minimum Standard:

To : Chief of Child Welfare Section, Miyagi Prefecture

From : Chief of Nursing Section, Child Bureau, Welfare Ministry

With those day nurseries which existed at the time of enforcement of this ministerial rodinance in accordance with the provisions of Article 111, Child Welfare Agency Minimum Standard Act and which find it difficult to be approved under the standard of Items 2, 3 and 6; the parties concerned are supposed to report to the competent governor on the circumstances involved. The governor in tern shall refer to the local child welfare council, and if he deems the representation as having a good enough reason shall recommend to the Welfare Ministry together with his opinion.

The majority of existing day nurseries are considered to be coming under this category. I recommend, therefore, that you take necessary procedures immediately after referring to the Child Welfare Agency Minimum Standard Act released by the welfare ministry on 29 December 1948.

It is to be born in mind that the stipulations of Item 2, Article 110, Child Welfare Agency Minimum Standard, apply exclusively to those agencies expected to reach - as far as equipment and staff strength are concerned - to the standard by the end of December 1949; and that those with no prospect to meet the standard by the above date require recommendation provided for in Item 2, Article 111.

As the result of mothers' negotiation with a Chief of Public Employment Stabilization Office, "Don't send us with children to a far away working place", the following matter was settled: 9 mothers who hold infant in their arms will be able to work at Miyaginohara from 26 January. Up to now they found it was a great trouble to go to the Public Employment Stabilization Office early in the morning and to go back to the nursery to feed their children from working place. As long as they complained each other it was hopeless, but when they spoke personally to the parties concerned without hesitation, they found it easy to have their complaint settled.

The Poor! Be Cooperative

Miyagi Chemical Industrial Company Employees calls:

The Miyagi Chemical Industrial Company employed the people on the very low wages, and during the New year's days Employees didn't get enough money to keep their living. So Employees, who have been negotiating with the company for 80 days, went to the City Office to ask for aid with the Shinko-Rubber Company Employees; they said "Our Company doesn't pay enough to us and we cannot live under such conditions. We have the right to be applied the Daily Life Security Law." Then they went to the taxation Office and had their tax deducted. They call to the people that all the poor have to request the authority for application of the Daily Life Security Law and the tac exemption. On the one hand, yamato Seikan Company employees are struggling for Anti-Discharge since 20 days ago. Nursing Teachers and Mothes from Nursery of Rehabilitation Section, Nishikoen came to see us on 17 January. I heard that after they read Miyagino paper they wanted to negotiate with the city authority for improvement of their institution.

My Poor Child

I was keeping the Rubber-boots in my home for the member of our association. And then my poor child for my low-salary was very delighted to see those boots. He thought of those to be for him. I was discouraged to lamentable myself who couldn't buy the boots for a child.

We must try to bring about settlement of our needy circumstances by cooperation of the poor.

Many theaters have been built in the city, in addition aeropfield and high road for the preparation of the war have been made rapidly. But on the contrary we have no ceiling in nursing room of only 5 tsubo. So although Mr. Sugahara of our association tried to negotiate with the office in order to have ceiling made, he was refused. However, as the result of all mothers' negotiation, the permission was given on 13 January. Works will be started by Kumagaya Constracting Company.

Measles has come into popular

When you have measles, at first you will be suffered from coughs, sneeze, nasal mucus and fever. Perhaps you will think that it was a plain cold, but you will find the white spot inside your month and your eyes will be redden. The temperature will become lower in four or five days. But after a few days it will rise again, and at the same time pink-specks will break out in the skin around ears and it will spread to whole body. As the measles is infectous disease, I hope that you would stop to come to nursery if you suffered from measles. It's better for you to stay in bed and to be given the blood from those who have caught the measles.

My husband and children:

When the war approached to the end, my husband and two children were killed by machine-gun by American Soldier. At that time I was in bed for delivery of baby, and could not do anything though I had seen the actual scene from the begining to the end. Every time I recall it I am sunk into sadness. I have had only one son who survived, who is 20 years of age and working in the Railway Company. I am afraid that my son would be forced to go to the battle field when the war breaks out again.

ねつは、四、五日で一どさがるが、またでてきます。それと同時に、耳のうしろあたりから、赤いブツブツがではじめて、だんだんからだぜんたいにひろがつていくのです。ハシカのよぼうには、一どかかつたらすぐに保育所をやすんでもらわねばなりません。
