France and Belgium, it appears, already have practically agreed as to their position and the fact that the Cabinet meeting which was to have been held Thursday was advanced two days to hear M. Poincare's report on the situation was taken in political scircles as indicating that the Premier's reply was ready and that it was negative on some of the important points in the British proposals.

Premier Poincare, it is learned from an authoritative source, regards the French position on the occupation of the Ruhr and on the reparations question generally as unattackable legally and morally and from the economic point of view, and the optimism that appears to reign about the Foreign Office is attributed to the confidence entertained there that the British Cabinet will in the end realize the strength of the French position and come to a compromise that will be acceptable.

Brussels, July 24.—The exchanges of views between Paris and Brussels have developed the fact that Premier Poincare and Premier Theunys are in perfect agreement on the fundamental questions raised in the British memorandum and the project for an identic reply to Germany's reparation proposals, according to authoritative information.

The negotiations will continue re-

The negotiations will continue regarding some details, and it is thought here a meeting between the French and Belgian Premiers may be required before the final drafting of the replies to the Brillsh Government, which will be made separately by France and Belgium.

At War Twelve Years.

Turkey has been at war for twelve consecutive years and conclusion of the Lausanne negotiations gives her sorely-needed opportunity for a period of national reconstruction and development.

Turkey, although vanquished in the Great War as an ally of Germany came to the council table at Lausanne as a victorious nation. Turkey's reconstructed armies completely routed the Greek forces.

The Turco-Greek war produced a great soldier, Ismet Pasha, who in the negotiations here has shown himself to be one of the great statesmen of Europe.

Straits Convention.

Annexed to the Treaty of Lausanne is the special "Straits Convention," whereby the waterways linking the Mediterranean and Black Seas henceforth are thrown open to both the warships and merchantmen of all nations. Soviet Russia's last minute decision to adhere to this agreement stands out as the most significant single feature of the Lausanne Conference. Bolshevik Russia probably has committed Russia for all time to opening the straits to men of war.

WINTER DISEASES, LIKE FLU, LARGELY DUE TO SUMMER HABITS

LARGELY DUE TO SUMMER HABITS

Everybody remembers the dread flu following the war. Few recall the absence of flu and most diseases during the war, or know that neither before, during, nor after the war, were flu, pneumonia, etc., prevalent among races net following civilization's food habits. Why was this?

Blood must be kept alkaline by eating alkaline foods, yet civilized races refine out of their most important foods—the grains—the alkaline salts, just to make flour white, cereals dainty. The result is acid blood. Acids leave the blood by the skin, Jinings of nose, throat, lungs, etc., irritating these surfaces and lowering body vitality, enabling disease germs to attack the body.

During the war acid forming white flour, refined cereals, meats, sweets were controlled. Alkaline whole grains, milk, nuts, beans, vegetables and fruit were increased. There was no flu. After the war people glutted themselves upon acid-forming white flour, refined cereals, fats, etc., resulting in millions of deaths through flu. Flu will continue its ravages while stupid food habits prevail.

Roman Meal is richly alkaline, 400 "Events of the metropolis."

Roman Meal is richly alkaline, 400 parts in each 1.000 "Excess Alkali." It corrects the acids of white flour, other cereals, meats, fats and sweets, keeping the blood alkaline, Nature's own immunizer against disease, which protects the savage who lives upon natural foocs. Use Roman Meal some way every day. It relieves constipation, prevents indigestion, alkalinizes the blood, keeps you well. "Business men of Victoria are talking to-day of prairie grain crops and speculating on the increased purchasing power of the country if the yield is high and the harvest can be marketed at good prices. Montreal financial houses, transportation heads and representatives of other interests are similarly concerned. Agriculture has immense bearing on every other phase of activity.

The Senate.

Senator R. E. Green in speaking on Attorney-General Manson's efforts to abolish liquor export houses, entered into a defence of the Senate, stating that he believed the Senate was a body of men of sound judgment, of mature years, and that in their hands questions of privilege and rights were safer than anywhere else. Regarding their action on the Temperance Act, the Senate, he asserted, prevented the Government from doing something that would be detrimental to the country. "Mr. Manson has demonstrated to a finality that he wants to get control of the liquor warehouses for reasons that are apparent to everybody," he said.

Moved by Dr. Spurr.

Moved by Dr. Spurr.

The resolution was moved by Rev. Dr. Frederick Spurr, of Birmingham. England, pastor of the Hamstead Road Baptist Church of that city and president of the National Council of the Evangelical Free Churches. Incorporated, of Great Britain, and was as follows:

World Congress, meeting in Stockholm, deplore the many signs of the confinuance of the war spirit. The results are disastrous to the commerce of the world, to the progress of liberty, to recovery from the exhaustion of the late world war, to the advancement of the brotherhood of man, and to the extension of the Kingdom of Christ in the world.

man, and to the extension of the Kingdom of Christ in the world.

To Pray for Peace.

"The Congress first urges the members of the churches throughout the world to pray for peace, to counterwork everything likely to provoke war, to foster kind feelings, to cleanse all the text books of all the nations of all racial and national antagonisms, to queench the worship of military heroes and to kindle admiration for all who serve the world in positive ways.

"The Congress electomes the formation of a League of Nations and the establishment of an international tribunal for the settlement of disputes between nations, it urges the churches to support the League and to complete it by bringing all nations into it in order to avoid war and to meet the desire of the people for universal peace.

Their First Aim.

"The Congress, representing very many millions of citizens, belonging to many Governments, appeals to the Governments of the world to make the mulntenance of peace their first aim, for the sake of each nation's people and for the sake of the happiness and well-being of all mankind."

Principles Declared.

In a statement of Baptist prin-

tion's people and for the sake of the happiness and well-being of all mankind."

Principles Declared.

In a statement of Baptist principles and purposes to all Christians and peoples of the world considered by the Alliance last night, an emphatic declaration in favor of all the fundamental principles of evangelical religion were espoused, the New Testament was reaffirmed as the only authoritative guide or creed, and the appeal to all Christian people in the interest of unity issued by the Bishops of the Anglican Communion assembled at the Lambeth Conference of 129 was declined.

On the question of Christian unity the statement declared in part:

"We hold all who have communion with God in our Lord Jesus Christ as our Christian brethren in the work of the Lord and heirs with us of life eternal. We love their fellowship, and maintain that the spiritual union of all believers is now and ever will be a blessed reality. This spiritual union does not depend on organizations, forms or ritual. It is deeper, higher, broader and more stable than any or all externals. All who truly are joined to Christ are our brethren in the common salvation, whether they be in the Catholic communion, or in any other communion, or in no communion. With all evagelical Christians we rejoice in the common basic beliefs: the incarnation, the sinless life, the supernatural works, the deity, the vicarious atonement, and resurrection of Jesus Christ from the dead, his present reign and his coming kingdom, with its eternal awards to the rightous and unrighteous."

THE TREATY OF LAUSANNE.

To-day's treaty signing ceremony at Lausanne writes finis to the deliberations of a peace conference that consumed a great deal more time and produced many more thrills and crises than the memorable sessions which culminated in the Treaty of Versailles. Peace has now been formally and officially established between the European powers and Turkey after a period of interna-tional suspense that dates back to last September.

The pact just signed will be cold comfort to "bag and baggage" advocates. It restores Turkey because of her part in the great war. She returns to the European fold with added prestige and such satisfaction as she may get out of her successful bargaining at Lausanne. She regains Constantinople and Eastern Thrace and joins the League of Nations on the footing of equality. The Treaty similarly compels the exchange of population—Greeks in Turkey will have to return to Greece and Turks in Greece must return to Turkey. The Armenian problem is no nearer solution as a result of the Lausanne Conference. It is true that the document reduces the size of Turkey because it recognizes detached mandated states like Syria, Mesonizes d Lausanne Conference. figure in European politics. Ismet Pasha has conducted the case for the Angora Government with consummate skill and has established a reputation for himself that may not be gainsaid. It may be that his influence and that of Mustapha Cemal Pasha will be exercised to advantage in the period of development and reconstruction that should follow to-day's ceremony. Should duplicity form part of Turkey's future policy; should there be any attempt to pursue blackmail tactics—and there has been a tinge of this demeanor on her part at Lausanne-she may expeet joint action that will give effect to a threat that pre-war diplomacy always hesitated to employ in practice.

Whether the Treaty of Lausanne is a victory for peace in Europe or merely what will have to be regarded as a diplomatic and political triumph for Turkey remains to be seen. For the time being the agreement into which the contracting parties have entered removes the danger of developments that were always to be feared as long as the conferees were unable to discover com-mon ground upon which a settlement could be

the forces headed by the Rt. Hon. Arthur

We wonder where the Doctor got his formation. Not, surely, in the House of Commons where the forces from the Canadian West led by the Rt. Hon. Arthur Meighen number a meagre eight out of a full western representation of fifty-seven. Nor could it have been from the Government of any of the western provinces, not a solitary one of which is Tory, or is likely to be there is a mistake which I think is calculated to mislead

sons of fiscal policy, but they are a great deal closer to the Liberals than they ever are likely to be to the Tories with their high-flying tariff policy. Obviously, then, there must be something wrong with Dr. Tolmie's discovery on a number of counts, as wrong as his discovery just before the last general election that Mr. Meighen's prospects of victory were very layorable. peets of victory were very tavorable.

FLOGGING A DEAD HORSE.

As the date of the Irish Free State elections approaches we shall hear more of Eamonn de Valera than we have heard since the publication of two "captured documents" and the order definitely given to the Republican Army to "cease fire and damp arms." During the last two or three days he has resumed his practice of issuing manifestoes and appeals. He has announced that "it is not the Republican or army intention to renew warfare in the Autumn or after the election. So far as we are concerned the war is finished. We intend to devale our selves to social reform and education and to developing the economic and material strength of the nation." Meanwhile he has appealed to the American Association for the Recognition of the Irish Republic for \$100,000 with which to defray the Republican election campaign and to demonstrate that "the people of Ireland are overwhelmingly Republican at heart" and that

the Anglo-Irish Treaty was "forced on them by threats of war from Great Britain."

The Republican leader is entitled to think what he likes about the Anglo-Irish treaty and he is at liberty to ask his friends in the United States for election funds. The people who are "Republican at heart" will deal with the oponents of the Government and the pact wh brought the Free State into existence in a few weeks' time. He will discover that an electorate which has been given practically everything for which it has been craving for centuries will not be so foolish as to dissipate tangible concessions for the promise of a political status that has lost much of its appeal for all save those who still eling to the standard that he waves in vain. And it will be very surprising if many of our neigh bors fall over, their feet in a hurry to send their good dollars to help to buttress a lost cause. The most faithful friend of the Republican rank and file requires no education in elementary economics.

NOTE AND COMMENT

The truth about Mr. Meighen is that he is not big enough to stage a come-back to the Premier-ship of Canada, and nobody knows this better "hag and baggage" advocates. It restores Tur-than Dr. Tolmie. More than that, he is not big

Wait for Government Action; Keep Pledge, Woodward Urges

With several aldermen de anding that the city's promise to pay a \$1,000 reward to anyone discovering the murderer of the late E. Responsibility With Council.

"I for one don't think we ought to pay the reward," said Alderman E. B. Andros. "I don't see how we can pay it." he added, warning the aldermen against making themselves personally liable for the money. If the money was to be paid, he said, the Council itself and not the Police Commission should decide who should get it.

Mr. Pringle refused to say definitely whether the Council could legally pay the reward or not. He said he would like to look into the whole question, but off-hand he was inclined to believe with Alderman Andros that the money could not be paid.

Alderman W. J. Sargent opposed paying the money. If the Council paid the reward, he said, it would be like a man paying a reward for the return of a lost horse that came back to its stable of its own accord. The murderers, he pointed out, had confessed before the Council had finally decided, to offer a reward.

President Harding's visit to British Columbia seems likely to break up completely the first vacation Reginald Hayward has had since he became Mayor off Victoria. Thursday the Mayor will leave his Summer home at Shawfigan Lake and go over to Vancouver to greet the President. Two days later he will go on to Seattle to hear Mr. Harding's address there. Official invitation to the Mayor to meet the President in Seattle was sent to the City Hall here by Mayor Brown asked the Victoria Mayor to sit with him on the platform when the President speaks.

understanding that other employees than those who are on their vacations will take upon themselves, in turn, at least a part of the duties of the others and thus save expense.

J. Vaughan Roberts was reappointed to the hospital board as the representative of the Oak Bay Municipality.

Permission was granted the Liberal-Conservative Association to picnic on the Oak Bay grounds, with the strict provision that everything be left tidy and clean after the departure of the holiday-seekers.

Owing to the fact that some complaints have reached the municipal authorities in connection with some street lights which are not functioning properly or which are not doing their intended work at all, the Council resolved that these would be put in good working order before the Winter. This gives the Council sufficient time to consider the situation carefully and it may, if it find its necessary, make other changes in the street lighting system which may prove more beneficial to the community than is the present state of angales. Some of the streets in Oak Bay, it is stated, are very poorly illiminated.

All outside empioyees of the Oak Bay Municipality will be granted two weeks' holiday this year, the Council decided at its meeting last night. This decision was made with the understanding that other employees than those who are on their vacations will take upon themselves, in turn.

"The curfew shall not ring to night"—or any other night so far as Victoria is concerned for curfews were definitely relegated to oblivior by the City Council last evening. Not content with refusing point blank to enforce the Curfew By-Law, as sug-gested by the Police Commission tt. Council also decided to scrap the by-

un-British and bad for trade.

"It's all very well for these aldermen enjoying comfort and leisure to take this attitude." Alderman E. S. Woodward replied. "But why shouldn't merchants also have an afternoon once a week for their enjoyment." Obviously referring to Aldermen Todd and Gillespie, Alderman Woodward said they had plenty of time for golf and cricket and asked why others should not have the same opportunity.

Alderman Todd explained that he favored allowing merchants to close as they wished, giving their employees necessary holldays.

Alderman Woodward said that the that the Curfew By-Law be amended so that it could be enforced, several aldermen said a number of unkind

aldermen said a number of unkind things about people who wanted a curfew law here.

"Some well-meaning people seem to have a habit of inflicting an annual dose of nonsense on the Police-Commission and the Council." Alderman Todd declared. "We can very well do without it."

Alderman Gillespie suggested it in the curfew law be made to apply to people up to fifty years of age. This, he said, would be in line with the ideas of some people.

Alderman Woodward said that the half-holiday question was outside the jurisdiction of the Council, and asked that discussion of it be stopped.

The Council had before it a by-law which would force peddiers to observe the same business hours as retail stores. Action on this was postponed. URGES DRASTIC LAWS That the city pass new regulations that would make sanitary laws effective in connection with the operation of Chinese fish wharves here was the suggestion made to the City Council last night by Harbormaster Clark. He urged that anyone connected in any way with illegal live fish crates be liable to punishment. The Council's proposal that the fish wharves be moved out of the harbor would only move the rafts further away from control and would raise fish prices, the Harbormaster declared.

Mr. Clark's suggestions were referred to city officials for report.

Esquimalt Council Decider Full License Fee at Gorge Too Much

By a straight vote in the Esquimalt Council meeting last night that body elected to remit six months of the twelve month's license fees now asked of concession holders at the Gorge entertainment Park, Six months was about the period these licensees operated, held the council, and the motion carried. Road improvements to the extent of over \$1,500 were passed, as recommended by Engineer H. F. Bourne. Councillor Pomeroy gave notice of motion that he would urge the council to rescind the vote which dispensed with the service of Mr. Bennett, a truck driver for the municipality.

received and filed.

A prolonged discussion over a request from J. D. Mitchell for help in obtaining sewer connection resulting in the councif acceding to a request of the Reeve that its former motion to grant that aid be reachined. Councillor Pomeroy asked that his vote be recorded in the contrary.

The council had no power to help the applicant further advised the municipal solicitor. The whole matter was a trivial one and approval of the request would be set, ting a dangerous precedent, held the Reeve.

The sower loan fund would cover the grant urged declared Councillor Pomeroy but falled to secure support.

By Miss Bowron at Enjoyable Picnic Meeting Last Night

Members of the Kumtuks Club held one of their enjoyable Summer picnic meetings last evening on the beach adjacent to Miss Lottle Bow-ron's home on Constance Avenue, Esquimalt. Following the alfrescone repast the gathering listened with absorbing interest to an illuminating report of the recent convention of the National Federation of Business and Professional Women's Clubs, held in Portland, at which Miss Bow-ron represented the Kumtuks Club, held in Portland, at which Miss Bow-ron represented the Kumtuks Club, and the attractive souvenirs presented to delegates at the convention evoked much admiration. At the close Miss Bowron was warmly thanked for so ably representing the local club at the international gathering.

Other business effected at the meeting included the election of two new members, Miss Phyllis Knowles and Miss Pogson. The next evening meeting will be held on Monday, August 6, at Mrs. A. de B. Shaw's Summer camp at Macaulay Point. The club has also accepted Mrs. Tyrrell Godman's invitation to meet some time in August at her home at Albert Head.

Miss Alexander and Miss Smart, two former members now residing out of town, were welcomed at last night's meeting. Members of the Kumtuks Club

These changes, of course, are in addition to the sweeping alterations ordered by the Court of Revision at its session early in the year. While the assessment roll will be complete by August 15 the total assessment figures will not be known until later than this, it was stated at the Assessor's department this afternoon. Officials of the department, it was explained, are too busy adjusting individual assessments to worry about the total yet. Meanwhile City Treasurer E. C. Smith is rushing the work of preparing annual tax notices which will be in the hands of property owners about the middle of August. Ratepayers will know then the exact effect of the 1922 tax rate, which is considerably higher than the 1922 rate, but collected on a lower assessment. FOR THE CHILDREN

TOYO KISEN LINE PAYS FIRST FINE TO UNITED STATES

San Francisco, July 23.—John Nagle, Commissioner of Immigration here, to-day demanded that the Toye Kisen Kaisha post a certified cheque for \$20,000 as a fine and guarantee of passage money for the return to the Orient of 58 Russians brought here by the company before the company's liner Shinyo Maru would be permitted to sail. The Shinyo Maru is due to sail at noon to-morrow. The company announced it had posted the cheque but would appeal to Washington. This is said to be the first time a trans-Pacific ship company has been fined for bringing aliens here who were barred from entering the country because the immigration quota had been filled.

The execu-Burr, on of the spectacular figures in early American history. The executive offices of the company occupy the space once included in the upper floors of his home. It was here right around the corner from Bowling Green that Aaron Burr lived in his heyday. Burr served with distinction in the Canadian expedition in 1775 and at Monmouth in 1778. He was United States Senator from New York during 1791-97 and vice-president of the United States from 1801 to 1805. He killed Alexander Hamilton in a duel at Weehawken in 1804 and this event destroyed his political prospects. About 1805 he conceived the idea of conquering Texas, perhaps Mexico, and establishing a republic in the South, with New Orleans as the capital and himself as the president. In this scheme he was aided by Blennerhasset. As he was about to start on his tour of conquest, he was arrested in Mississippi in 1807, charged with treason, but was later acquitted after a sensational trial at Richmond, Va. He died in Port Richmond, Staten Island in 1836.

ANACORTES FERRY HAS NEW VESSE

Mount Vernon Will Operate in Victoria Anacortes Service Next Week

Indication that tourist travel further being diverted from e Mainland to Vancouver the Victoria-Anacortes Ferry Company will next week place an additional ferry box service.

Up to the present tourists have been taxing the "City of Port been taxing the "City of Port Angeles," which is operated in the Anacortes- Victoria service, to its capacity. Hundreds of cars have been coming to Vancouver Island during the past few weeks, as is evisdent by the large number of American cars that may be seen on the streets of Victoria now.

To facilitate the service and make accommodation for the ever-growing tourist travel the ferry company is going to place the Mount Vernon on the run next week. This will mean that two trips will be made each way in one day in place of the present one-trip service.

The present schedule states that

Leaving Seattle at 11 o'clock to morrow the Jefferson will dock at Pier A of the Ogden Point docks at 3.30 o'clock to take on passengers and mail. She will leave an hour learn for the Far East.

Altogether there will be only 60 passengers accommodated in the first and second saloons. The small list is placed down to the rainy season commencing on the other side of the Pacific and offsetting the travel to the Far East.

Soundings

A. M. Dollar has taken a party of Vancouver shipping men on a ten days' cruise of inland channel points on board the yacht Rio Bonita.

According to the latest reports there is some new construction work in sight for the Pacific coast shippards. There are no less than eight combined passenger and freight ships which will be ordered within a short time. The lines that are ready to ask for bids from shipbuilders are the Clyde Line, which wants two freight and passenger vessels for the New York-Jackson-ville service; the Los Angeles sels for the New York-Jackson-ville service; the Los Angeles Steamship Company, which is to have built two vessels of the same class; another two freight and passager vessels for the Morgan Line for operation in the New York-New Orleans service, and the Oceanic Steamship Co, which has already plans for two vessels to operate in its San Francisco-Australia service.

In order to compete with the United States Shipping Board and C.P.S.S. MRS. JENNIE CROCKER ASKS FOR MASTER'S SAILING SHIP PAPERS

Boston, July 24.—Mrs. Jennie Crocker, has applied for a license as master of sailing vessels, any size and any ocean.

She is the wife of Captain Nelson A. Crocker, skipper of the schooner Ruth Martin, now being overhauled here for the lumber trade between Boston and Florida ports. Mr. and Mrs. Crocker were married in Bangory Maine, twenty years ago and since she has sailed in his vessels in the Seven Seas. Once, when he was ill, she navigated his four-masted schooner, bound from the West Coast of Africa, taking her regular trick at the wheel and nursing him as well for twenty days. When the Ruth Martin, to be renamed the Jennie Crocker, sails on her next cruise there will be two licensed masters on board, Captain Nelson Crocker says.

ALBERTA TO SHIP

Experimental Freight Rate of \$7 a Ton Fixed

Edmonton, July 24.—A freight rate of \$7 per ton has ben fixed, it is stated by Premier Greenfield, as an experiment with shipments of Alberta coal to Ontario over the Canadian National lines. Agreement to this effect has been reached between the Government and the railway authorities and arrangements will be made at once for the first shipments. The coal will be sent from Drumheller, Brazeau, Saunders and other mines on the C. N. R. lines and will be billed through to various points in Ontario. It is expected that between 4,000 and 6,000 tons will be shipped on thisbasis.

Under this arrangement the opera be sold in Toronto and other cities in Ontario at \$12 or thereabouts.

Sweetser, Back In Form, Leads **Golfing Field**

Champion Has a 68 in Opening Day's Play for Western **Amateur Title**

Cleveland, Ohio, July 24.—Over the difficult links of the Mayfield Country Club fast golf was played yesterday in the first qualifying round of the Western Amateur championship and it fell to Jesse Sweetser, of New York, national amateur champion, not only to lead the field by three strokes, but to establish officially his course record of 68, first scored Sunday in

Chick Evans, defending champion for the seventh time, was seven strokes behind Sweetser, who defeated him at Boston last year in the national event. The nearest competitor Sweetser had in his better than par run was Captain E. F. Carter, of Chicago, formerly Irish champion, who scored 35-36-71. There were 34 scores of 78 or better yesterday indicating that it would require 156 to qualify for match play as the score should continue as low to-day in the second 18 holes of qualifying play.

Direction makes the course fairly easy if shots are well placed and direction was personified in Sweeter yesterday. He was straight as an arrow from the tee in almost every instance. He did not cut his irons as crisply as possible, but they always held the carpet and he putted steadily but not spectacularly.

James Manion, of St. Louis, had a flowerg exit from the group of eight who scored 76. He drove his second shot on the 18th hole into a bed of blossoms at the end of a seventy-foot tressel covered with a bed of red roses. He dropped out to save the flowers, figuring that ground under cultivation was under repair, but the officials ruled against him and he took a penalty stroke for a 77.

The 32 having the lowest scores at the end of to-day's 18 holes of medar play will enter match play on Wednesday.

By WILLIAM T. TILDEN
Tennis Champion.

Many a great champion has never been discovered because the opportunity passed him by. There are as big fish in the sporting sea as have ever been landed, only nobody has yet sunk a hook into them to prove it. During my recent trip to Buffalo one young lad who might never have had a chance to prove himself had his opening and is now to be given the chance to make good because he entered the Great Lakes' boys' championship, unheralded and unklown. This little lad was a Polish youngster rejoicing in the last name of Marynowski. His first name I never dared sak. It took me too long to learn to pronounce his last one. He was eligible for the boys' tournament by three days. He is a big, rangy boy for fifteen, and a natural, home-made, untaught tennis player, with a good eye, grim determination and no strokes. Typically a public park product is Marynowski. This boy arrived at the courts and proceeded to walk through to the finals of the boys' singles, defeating on the way Donald Strachan, tenth ranking boy of America, by the decisive score of 6-2, 6-3. He lost to Sandy Wiener 7-5, 4-6, 6-3, but only after a bitter struggle, in which his sportsmanship would have done credit to an old, experienced tournament player.

Now let me show what this one tournament did for this Polish lad.

tournament did for this Polish lad. The tennis committeemen of the Park Club, none of whom knew him at all, were at the final match. They were impressed, not only by the boy's natural tennis, but by his sportsmanship and personality, with the result that Marynowski is to be given a special membership at the Park Club.

CRIQUI WILL HAVE HARD BATTLE WITH **DUNDEE THURSDAY**

New York, July 24.—Fisticians here to-day began focusing their attention upon the second world's championship ring contest of the week, the match Thursday night at the Polo Grounds between Eugene Criqui, French holder of the featherweight title, and Johnny Dundee. New York Italian. Criqui will risk against Dundee the orown he has worn less than two months. The Frenchman knocked out the veteran Johnny Kilbane for the title at the Polo Grounds on June 2.

Against Dundee, a fast, clever boxer, Criqui will be given a more severe test, experts believe, than when he fought Kilbane.

The lesson of Marynowski is two-fold. Can Do With More Stars.

Second, every club should hold junior tournaments and keep an eye on the boys for they may not only find a boy worth helping, but by so desing may gain a useful member in future years. We cannot have too many great players. Every city has room for a few more.

If in future years Marynowski becomes a national tennis figure, he owes his position to his courage in entering the boys tournament and to the interest and generosity of the little group of men who made his chance for him, once he proved his promise.

The uniform league constitution principle was adopted and the matter referred back to the committee for a revision of the suggested constitution. As soon as this is completed copies will be mailed to all affiliated league for ratification or correction. The association also decided to check up on loose methods of transfer of players and registration. Indefinite suspension will follow if these instructions are not obeyed.

TO COMPETE IN BIG

Audrey Griffin and C. Rieveley will represent the Vancouver Island Athletic Association at the Pacific Northwest indoor championship gala which is being held at the Crystal Pool, Seattle, on Thursday evening.

Audrey will compete in all of the races for women, while Rieveley will compete in the fancy diving from the ten-foot board.

Tendler Proves Very Soft Mark For Benny NANAIMO FOOTBALL

Lightweight Champion Flailed and Battered Challenger In Fifteen-Round Bout: Lew Was All But Out on Several Occasions But Came Back Strong and Managed to Weather the Full Route;

Record Set For Attendance; Leonard After Walker

New York, July 24.—Benny Leonard, one of the most skilful ringmen of all time, holds the lightweight crown to-day without a real challenger in sight. The champion removed the most dangerous menace to his throne last night when he flailed and bat gerous menace to his throne last ingit when he had and bar-tered Lew Tendler, Philadelphia southpaw, into overwhelming defeat in a fifteen-round bout at the Yankee Stadium. There was no question of his superiority at any stage of the fight. More than 65,000 fans contributed a record lightweight "gate" of \$500,000, according to estimates of promoters.

be met with another withering attack.

Vainly the challenger tried to stab with his left, but Leonard was too quick and the round closed with the challenger in full retreat.

Two hard shots to the law had Tendler again in distress in the fourteenth. He weathered this storm only to face another amashing attack in the final round. Leonard trying hard for a knockout, had his opponent, recting and bloody with smashing hooks and uppercuts to the tend, but they lacked the power to bring down Tendler, who fought back gamely, but ineffectively, to the close.

Never Had a Change.

according to estimates of promoters.

Leonard, in round figures, will receive about \$175,000 for his triumph, while Tendier will be enriched to the extent of about \$75,000.

Seeking new workies to conquer, the champion, according to his manager, will now challenge Mickey Walker, the welterweight champion.

Spectacular as was the fight, it lacked the thrill, the suspense and evenness of the memorable battle a year ago at Boyle's Thirty Acres, where Leonard hanging on at one stage, was barely able to gain a margin of victory.

Leonard fought with consummate skill. A master of ring tactics, he had his rugged southpaw challenger baffled by the speed and precision of his attack while at the same time he made futile most of Tendier's attempts on the offensive. The champion landed three blows to one in nearly every round.

Tendler Appeared Slow.

Tendler, on the other hand, seemed slow, lethargic by comparison to the seemed to he added, "but there doesn't seem to be anybody in sight in the light-

ELEVEN IMPRESSES WINNIPEG TO-DAY

Winnipeg, July 24.—The Nanaimo football players, who battle the Winnipeg Fort Rouge team in the semi-finals of the Connaught Cup football series here in a two-game round on Thursday and Saturday, made quite an impression on local soccer critics when they worked out this morning. They are a husky bunch with just enough speed on the attack to make them look like real dangerous scorers.

STALLS AT WILLOWS ARE CROWDED WITH FINE TYPE OF PONY

Another large string of ponies arrived on the morning boat from Vancouver this morning, and practically all the stalls at the Willows are filled. Additional space is being found for the horses still to arrive.

"We have the biggest string of horses at the Willows that we have ever had for a race meet here," said Alderman George Sangster this morning. "The horses are of the best that have ever visited Victoria and I think that the races should be close and exciting and the public given a good run for its money."

The ponies are working out at the track to-day and will be ready to face the barrier on Saturday afternoon.

Gordon, Proctor and Verley Victors in Opening Day's Play in B. C. Tourney

Vancouver, July 24.—Considerable progress was made yesterday with the early rounds in the B. C. Mainland lawn tennis championships which are being held on the courts of the Vancouver club this week. The entry list is large and cosmopolitan. Most of the out-of-town players were engaged yesterday and practically all came through. Irving Weinstein, of San Francisco, who defeated Leon De Turenne, of Seattle, last Sunday in the final for the Washington state championship, disposed of Colonel Goodday, of Victoria, in the men's singles.

Elmer Griffin, also of San Francisco, who partnered Weinstein in the men's doubles in the Washington state championships came along intendities to play here het when he

Gordon Played Well.

The feature match of yesterday's programme was between Gordon, of Victoria, and Westwood, of Vancouver, in the men's singles. The former triumphed in straight sets, 6-4, 6-4. Gordon was very sprightly on the back lines, while he appeared much steadier than the local player. Victorian declare that Gordon is playing better than ever this year.

Mrs. Wilson, of Kelowna, created a little surprise by easily disposing of Mrs. Fawous, a strong Vancouverentry, Seon, another Kelowna entrant, displayed class in the mixed doubles along with Mrs. Wilson, Some of Seon's cross court work was pretty to watch.

Proctor, of Victoria, and Boucher, of Vancouver, advanced to the third round in the men's singles, while Cardinal went one better and advanced to the fourth round. All the rest of the players have yet to play their second round ties.

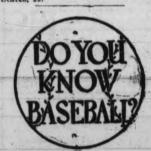

Laizure is the only American entrant so far eliminated. He lost to W. J. Peers in straight sets.

Verley Moves Up.

A former Vancouver resident in Keith Verley, now of Victoria, came back to see how all his friends were and incidentally found time to ad-vance to the second round in the men's singles and also in the mixed doubles.

Questions.

ONE—Is there any way an umpire can hurry dilatory tactics on the part of the pitcher after he once gets on the rubber?

TWO—When can a pitcher who has been announced to start the game be removed from the box?

THREE—Can a base umpire call a balk on the pitcher?

FOUR—If a pitcher while standing on the rubber snaps the ball to the third baseman without any preliminary step in the direction of the base, is it a balk?

FIVE—Who has the right to decide whether or not a game will be started when bad weather conditions exist?

ONE—With runners on the bases the umpire can call a balk if he is of the opinion that the game is unnecessarily delayed. Umpires seidom resort to such drastic action if no runners are on it is a balk if patcher fails to deliver same within twenty seconds.

TWO—Pitcher announced must pitch until one batsman is retired or becomes a base runner.

THREE—The base umpire has such a right, but he usually leaves the enforcement of same to plate umpire.

City auditors commenced to-day to examine the City Council's new financial re-organization scheme, under which the duties of the City Comptroller and the City Treasurer are defined. Pending this examination by the auditors, the Council will hold up passage of the re-organization by-law. The by-law has been referred to the auditors at the request of Alderman George Sangster, who announced last night that he would not oppose the scheme if the auditors approved it.

John Dean, well-known advocate of city Hall economy, is reviving his plan under-which city officials would be barred absolutely from paying out money for any service in excess of the current rate prevailing here. Under Mr. Dean's plan, which was outlined at the City Hall to-day, aldermen authorizing the payment of any money over the current rate would be personally liable for the excess amount and also subject to a fine. Mr. Dean thinks that the Council, while re-organizing the city financial department, should bring these regulations into effect.

The Council, it is understood, is not much impressed with the plan proposed by Mr. Dean.

IT TOOK THREE HOURS TO LAND 'EM.—These two monster bass or California Jewfish escaped anglers long enough to attain weights of 240 and 550 pounds respectively. Then I. H. Tuffe (shown with hands on catch), came along, and the poor fish decided life wasn't worth living, after all. It all happened at Santa Monica, Calif.

THE "MAN WITH THE HOE" in Germany is a she is, in many cases, a member of the old aristocracy, whose highborn leaders have been forced by circumstances to earn their own living. It has become a fad for these social belies to turn farmerettes. Among the latest recruits are Baroness Francisca Ham-merstein and Baroness Schrenchnotzing, members of noted German families. They take their changed positions as a joke; but they do their work very seriously. Picture shows them going to work in

The Catastrophe of 1914 The World at Peace

The world in the year after the great war was like a man who has had some vital surgical operation performed, and who is not yet sure whether he can now go on living or whether he has not been so profoundly shocked and injured that he will presently fall down and die. Stephen Dartrey for the first few minutes certainly justified his regulation for taciturnity. He leaned back in a long wicker chair, his head resting upon his hand, his thoughtful eyes fixed upon vacancy. No man in those days could have resembled less a popular leader of the people. In appearance he was a typical aristocrat, and his expression, notwithstanding his fine forehead and thoughtful eyes, was marked with a cortain simplicity which in his younger days had lured many an inexperienced debater on to ridicule and extinction. IT IS YOURS

Five-sixths of the timbered area in B. C. belongs to the People.

Each year, it is increasing in value as the more accessible timber is cut.

In 1922 there was received from the sale of such timber the sum of \$620,000.

This helped to keep your taxes down, and to build up the Province.

Green Timber is British Columbia's assurance of Perpetual Prosperity.

WHY BURN IT?

(By Burdick Bros., Ltd.)

New York, July 24.—The market was reactionary to-day and lost ground in most departments. Some of the railroad shares were inclined to be sluggish. The low prices for wheat foster the thought that agitation for lower freight rates may become more pronounced and the purchasing power of the agricultural districts in the Northwest will become impaired as a consequence of the lower quotation level for wheat. Weakness in the oils had a depressing effect on the balance of the list and caused selling by professionals bearishly inclined and at the same time caused a little scattering liquidation by recent buyers. Some important developments in the foreign situation are expected to be disclosed during the week, in the event of which there may be a determining effect on the immediate security price movement. This reaction in the market is not an entirely unexpected one because prices have recovered to a fair extent, and in some instances rather sharply in a rather short space of time.

(By Burdier Bros. Ltd.)

Chicago, July 24.—Pessimistic reports on the conditions of European political and economic affairs given by leading bankers had a depressing effect on the general wheat market oddsy and there was also selling because of the incliferent export buying demand, the weakness in stocks and generally favorable weather conditions. Buying of futures was active at time, especially around 98c for September early, but all of the rallies met with free selling, and outside support was feeble. Routine news was not much of a factor. Cables were 1d to 1½d off. Reports that farmers are preparing to hold a liberal percentage of their crop had little effect and what appears to be most needed at the moment is evidence that foreigners are buying a fair proportion of their needs.

The shipping demand for corn was fair. Sales were 190,000 bushels. Country offerings were reported light. July appears light but there appears to be most needed at the moment is evidence. The shipping demand slow and a car of new oats in from lowa. The present indications are that in the long run oats will be in ample supply in which case this market will follow other grains.
