> MICHIGAN JURYMEN THREATEN TO STRIKE TO GET MORE WORK

Detroit, Mich., Nov. 14 .-Circuit court jurors here are talking of a strike. Their grievance is lack of work, rather than overwork or inadequate pay.

Last week the court calendars were crowded and the twenty men on the panel were engaged every day, but this week the docket assumed normal proportions, and the jurors were place on a two-day-aweek basis at \$2.50 a day. Some of the leaders of the movement said a suit might be filed to test the right of the jurors to work five days a

Moscow, Nov. 14 .- "We went too 'ast," said Nikolai Lenine in his policy and Russia's departure from the first Communist decrees. His tone was quiet and his style free from "purpic patches," or cheap appeals of any kind. It was the sort of statement the president of a great undertaking might make at an anrual meeting of the shareholders. Russla, he said, had adopted state capitalism because the small bourgeoisie was predominant in numbers. State capitalism was most serviceable for Russlan economic conditions and through state capitalism they buld work their way to socialism. Easy to Make Program.

### OFFICIALS SEIZE COAL FROM MORGAN ESTATE; SELL IT TO VILLAGERS

Newburgh, N. Y., Nov. 14.— William R. Perkins, Orange county fuel administrator, today began distribution among residents of Highland Falls of 353 tons of coal which, he said, was seized on the estate of J Pierpont Morgan in that village. Investigation of complaints that only eighty-five tons of coal had been received in Highland Falls in three months, Mr. Perkins said, disclosed that 438 tons had been delivered to the Morgan estate. This was removed.

### ASKS STATE TO CONDUCT PROBE

### Water Supply Controversy to Be Settled; Council Takes Action.

The state board of health was requested by the council yesterday to act as a tribunal to investigate the charges of Hugh Steele, Duluth contractor, that the intake pipe at the Lakewood pumping station is "rushed for 348 feet and that the city water is coming from a point near the shore

The council upon the resolution of Commissioner P. G. Phillips, made the request. The re-olution asked that the heard of health employ a diver at the expense of the water and light department to investigate the charge

Two-Year Controversy. The controversy goes back two year, who Mr Steele, who installed the intake pipe, said that, in his estimation, the pipe was broken and the water was coming from a trench in the bettom of the like about fifteen feet from the surface. At that time Capt. Herace Thompson was employed by the city to make on in portion. He report deciared that the pipe was bent but not

To get the most out of life, you must enjoy it.

The rules are simple The reward is priceless

THE whole scheme of progress is based on I the desire for enjoyment. But without health, you cannot enjoy life.

If your nerves are irritated and weakened by the effects of coffee or tea drinking, you cannot have good health. If you can't sleep nights, and you suffer from headaches, and are generally depressed, stop coffee and tea. Drink delicious Postum instead, and see if you don't feel better.

Postum is a pure cereal drink that satisfies the most exacting taste for a refreshing hot beverage.

Order Postum from your grocer today. Give this delicious beverage a fair trial, and like thousands of others you will never go back to coffee or tea again.

Postum is sold by your grocer in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages, for those who prefer to make the drink while the meal is being prepared) made by boiling fully twenty minutes.

This is without question one of the greatest dance records ever recorded. This number has been telephoned and radiophoned but it remained for Brunswick to have it saxophoned, later on trumpeted by the basses, punctuated with staccato banjo bits and the final verse as played by the violin makes your homesickness pleasing.

The Great Drama of Man and His Maker Retold by the Famous Author of "The Story of Mankind"

HENDRIK VAN LOON

"HE STORY OF THE BIBLE," the masterwork of Hendrik van Loon, is being published in McCall's Magazine beginning with the December number. Dr. van Loon retells the Bible for the first time in history from the viewpoint of being the greatest story ever written—the unsurpassable story of the adventures of the soul of Man since he first

appeared in the Garden of Eden. Dr. van Loon started writing "The Story of the Bible" for his own two boys because he wanted them to know and to love the Holy Volume, which most people seem to be frightened at the idea of reading. "You never can be thoroughly educated," he said to his boys, "without knowing these ancient stories."

## The Evidence Better Understanding

HE last four years have marked the growth of a better understanding between the Standard Oil Company (Indiana) and the public it serves. This better understanding is evidenced by the fact that four years ago there were but 4628 stockholders on the books, whereas today the number has increased to 26,560.

Misunderstanding necessarily disappears when people are frank. In the last four years the Standard Oil Company (Indiana) has published in a frank and open manner a vast amount of important news concerning its methods of refining and distributing petroleum products. It has explained the factors upon which prices are based; it has given figures which explain why the demand for its products, and especially for gasoline, is continually increasing; and by its frankness the Company has prospered.

The efficient and economical refining and distribution of petroleum products is a highly specialized business requiring years to develop. The very permanency of the Standard Oil Company (Indiana) is a dominant factor in the high quality of its service. Because of this permanency the management of the Company has been able to mature and carry out plans for service which required long periods of time and great sums of money to accomplish.

In its efforts to provide a perfect service, the Standard Oil Company (Indiana) has developed a constructive and comprehensive Industrial Relations Plan to promote harmonious relations between the management and employe. This program includes adequate retirement annuities, modern safety devices, continually improved working conditions, and a practical plan whereby employes are enabled to accumulate savings and invest them.

This program tends to make all employes better citizens and better workers, vitally interested in serving the public.

The Standard Oil Company (Indiana) believes in fair dealing toward all, the public, its customers, its competitors, and its employes.

### EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Luster With Sage Tea and Sulphur.

When you darken your halr with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is mussy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of ther ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another applicalon or two, your hair becomes beautifully darkened, giossy and luxuriant Gray, faded halr, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.

RUTH WILL SPEND WINTER ON FARM; **NEEDS LONG REST** 

Yankee Slugger Will Not Accept Any Theater Contracts. By MONITOR.

New York, Nov. 14.—Babe Ruth has turned over a new leaf. The Blg Hitter of the Yankees appeared before Col. T. L. Huston In the club offices in West Forty-second street yesterday afternoon on his return from his barnstorming trip through the West and announced the following platform for the winter

No vandeville contracts. No hunting trlps. No automoblie tours. No dallying with the bookmakers at the winter tracks. None of this wine, woman and song stuff. Nix on the bright lights.

Back to the farm is Ruth's motto Today he will leave for the little home he owns at Sudbury, Mass., and will hegin to chon trees. He means to get down to real work, and he means to keep at it ail the winter. "I wasn't satisfied with what I did last season," said the Babe in the course of a conversation while waiting for his conference with the Yankes owners, I believe that if I stick to hard work this winter Instead of takng it easy in the city I will be beter prepared for a hard eampalgn next spring than I was when I go ack into the game on May 20, after I had served out the sentence Commissioner Landis gave me.

## Call, See and Listen

Call at our salesroom where the new Remington No. 12 is being demonstrated. You will recognize the familiar Remington design and the noteworthy Remington features —the Self-Starter, the Natural Touch and the many other betterments which are significant of Remington progress.

See the improvements which have been made to an already tried and proved machine—the spiral, piano-wire anvil, the new platen and bail, the noise-eliminating escapement, the sound-proof side plates.

Listen and you will realize at once why these refinements have been added. You will listen in vain for the usual clicks and taps and hums. They are practically gone.

The price of the new No. 12 is \$110—only \$7.50 more than the price of the Standard Correspondence Remington —a very small premium to pay for office quiet.

Demonstrations are now being held

Dated November 1, 1922. Denomination, \$1,000. Total authorized issue. \$2.500,000. Registerable as to principal only. Principal and semi-annual interest, May 1 and November 1, payable in Minneapolis, Chicago and New

PRINCIPAL AND INTEREST GUARANTEED JOINTLY AND SEVERALLY BY MESSRS. GILBERT M. WALKER AND ARCHIE D. WALKER

From the accompanying letter of Mr. Gilbert M. Walker, Vice President of the Red River Lumber Company, we summarize as follows:

The Red River Lumber Company owns valuable real estate and business properties in Minneapolis and extensive land and timber areas in the West and Northwest. Included in the Company's holdings are over 600,000 acres of timber land in Northern California with a saw mill having a capacity of 175,000,000 feet per year; also Minneapolis business real estate valued in excess of \$2,000,000 over all encumbrances. The Company's plant and equipment at Westwood. California, together with 300,000 acres of standing timber, are entire unencumbered.

Under terms of the Trust Indenture, no mortgage or bond indebtedness can hereafter be placed on the timber holdings of the Company without securing these notes ratably. The proceeds of this issue will be used to retire bank indebtedness, and the Company does not anticipate the need of further

The net earnings of the Company for the past three years available for interest after depreciation, but before income tax, have averaged in excess of four times interest charges on all present indebtedness of the Company. The Company's net assets, as of January 1, 1922, are in excess of \$31,000,000.

The total bond and mortgage indebtedness outstanding against these assets, including contingent liabilities, is approximately \$3,400,000, exclusive of these notes.

FARM LANDS.

AT RIO LINDA

CALIFORNIA

There are 238 families from Mln-

nesota and the surrounding states, among whom are 17 families from Duluth and vicinity. There are

100,000 laying hens producing an average of 4,000 dozen eggs a day

which at present prices (60c per doz. wholesale on Oct. 25) means \$2,400 per day. There are over 7,000 thrifty fruit trees now grow-

ing at Rio Linda which demon-

the abundance of pure soft water for irrigation. There are more than 50 miles of electric power

and light wires. Thirty miles of graded or paved streets. Free mail

delivery. Telephones. Street car service. Our little 10-acre poultry

and fruit farms may be purchased on easy terms at a less figure per acre than you would pay for similarly located land in

the vicinity of any Minnesota town or city. Our 40-page booklet gives pictures of homes and flocks and the names of the
