Guide to Record Retention Requirements

[Revised as of January 1, 1971]

This useful reference tool is designed to keep businessmen and the general public informed concerning the many published requirements in Federal laws and regulations relating to record retention.

The 90-page "Guide" contains over 1,000 digests which tell the user (1) what type records must be kept, (2) who must keep them, and (3) how long

they must be kept. Each digest carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index, numbering over 2,200 items, lists for ready reference the categories of persons, companies, and products affected by Federal record retention requirements.

Title 3—The President

PROCLAMATION 4081

Leif Erikson Day, 1971

By the President of the United States of America

A Proclamation

Nearly a thousand years ago Leif Erikson, a bold and intrepid Norseman, left familiar waters with a small band of men to face the dangers of the North Atlantic and sail to the shores of this continent. The exploits of Leif Erikson are still in large part shrouded in the mists of history, and only now are we beginning to appreciate fully the magnitude of those explorations.

If the details of Leif Erikson's adventures are still hidden from our view, his courage is not. He and his shipmates are worthy guides to us today, and our journey into the unknown still draws inspiration from them. It is therefore most appropriate that we give national recognition to Leif Erikson, and I am most happy to meet the request of the Congress of the United States, in a joint resolution approved September 2, 1964 (78 Stat. 849), that the President proclaim October 9 in each year as Leif Erikson Day.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate Saturday, October 9, 1971, as Leif Erikson Day; and I direct the appropriate Government officials to display the flag of the United States on all Government buildings that day.

I also invite the people of the United States to honor the memory of Leif Erikson on that day by holding appropriate exercises and ceremonies.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-first day of September, in the year of our Lord nineteen hundred seventy-one, and of the Independence of the United States of America the one hundred ninety-sixth.

Chapter I—Consumer and Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—U.S. Standards for Grades of Canned Grapefruit¹

DRAINED WEIGHT

Notice of a proposal to amend the U.S. Standards for Grades of Canned Grapefruit (7 CFR 52.1141–52.1154) was published in the FEDERAL REGISTER of August 5, 1971 (36 F.R. 14389). Interested persons were allowed until September 7, 1971, in which to submit written comments concerning the proposed amendment.

These grade standards are issued under the authority of the Agricultural Marketing Act of 1946 (sec. 205, 60 Stat. 1090, as amended, 7 U.S.C. 1624) which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use by producers, buyers, and consumers. Official grading services are also provided under this Act upon request and upon payment of a fee to cover the cost of such services.

Statement of consideration leading to the amendment to the standards. The sole purpose of this amendment is to correct a technical inequity in the standards. A change in one score point in the grading procedure is made to prevent an occasional lot from being degraded to substandard because of a low individual drained weight when a more appropriate grade would be Grade A or Grade B depending on the actual variation of the drained weights.

No objections were received concerning the amendment. One letter, from the Florida Cannery Association gives full support for the amendment as published in the FEDERAL REGISTER of August 5, 1971. Therefore, the amendment to the U.S. Standards for Grades of Canned Grapefruit as proposed on August 5, 1971, is hereby adopted without change and is set forth below.

It is hereby found that good cause exists for not postponing the effective date of this amendment beyond the date of

¹ Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

publication in the FEDERAL REGISTER, in that:

(1) The processing of grapefruit is getting underway and any delay might cause an improper assignment of grade to one or more lots of product:

(2) The amendment is of a technical nature of concern principally to processors; and

(3) No changes are required in production in order to comply with the amendment.

To become effective upon publication in the FEDERAL REGISTER (9–23–71).

Dated: September 17, 1971.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

The amendment is as follows:
Section 52.1147 *Drained weight*, paragraph (b) is revised to read as follows:

§ 52.1147 *Drained weight.*

(b) (A) *Classification.* Canned grapefruit that has a drained weight of not less than 56.25 percent of the capacity of the container may be given a score of 18 to 20 points as indicated in Table I. Whenever more than one container of the product is being graded and the average drained weight of the containers indicates a score in this classification, the score point indicated by such average drained weight is assigned to each container; except that, if the drained weight of any individual container indicates a score of less than 15 points each container will be assigned the score for its own drained weight.

(Sec. 205, 60 Stat. 1090, as amended, 7 U.S.C. 1624)

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Valencia Orange Reg. 367]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.667 Valencia Orange Regulation 367.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908, 35 F.R. 16625), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement

Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 21, 1971.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period September 24, through September 30, 1971, are hereby fixed as follows:

- (i) District 1: 111,000 cartons;
- (ii) District 2: 539,000 cartons;
- (iii) District 3: Unlimited.

(2) As used in this section, "handler", "District 1", "District 2", "District 3", and "carton" have the same meaning as

when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: September 22, 1971.

[Lemon Reg. 497, Amdt. 2]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

(b) *Order, as amended.* The provision in paragraph (b) (1) of § 910.797 (Lemon Regulation 497, 36 F.R. 18299) during the period September 12, 1971, through September 18, 1971, is hereby amended to read as follows:

PART 929—CRANBERRIES GROWN IN STATES OF MASSACHUSETTS, RHODE ISLAND, CONNECTICUT, NEW JERSEY, WISCONSIN, MICHIGAN, MINNESOTA, OREGON, WASHINGTON, AND LONG ISLAND IN THE STATE OF NEW YORK

Subpart—Rules and Regulations

MINIMUM EXEMPTION

Notice was published in the FEDERAL REGISTER, issue on September 4, 1971 (36 F.R. 17875), that the Department was giving consideration to a proposed amendment of § 929.101 *Minimum exemption* (Subpart—Rules and Regulations 7 CFR 929.100 et seq.), pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 929, as amended (7 CFR Part 929), regulating the handling of cranberries grown in the States of Massachusetts, Rhode Island, Connecticut, New Jersey, Wisconsin, Michigan, Minnesota, Oregon, Washington, and Long Island in the State of New York, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The notice afforded 10 days for interested persons to submit written data, views, or arguments in connection with said proposal. None were received.

After consideration of all relevant matters presented, including that in the notice, and other available information, it is hereby found that the amendment, as hereinafter set forth, is in accordance with said amended marketing agreement and order and will tend to effectuate the declared policy of the act and of this part.

The recommendation by the committee reflects the fact that handlers handling cranberries in amounts of 75 barrels or less during a fiscal period are comparatively few in number and the cost involved to insure that such small amounts of cranberries are handled as provided under the assessment and withholding requirements of the order has proved to be excessive. Accordingly § 929.101 is amended to read as follows:

§ 929.101 Minimum exemption.

The requirements of § 929.41 *Assessments* and § 929.54 *Withholding* shall not apply to any handler in a fiscal year during which he handles not more than a total of 75 barrels of cranberries.

It is hereby found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) volume shipments of the current crop of cranberries will begin soon and to be of a maximum benefit the provisions of this amendment should become effective as soon as possible to contribute to more effective operations under the amended marketing agreement and order, (2) the effective date

hereof will not require of handlers any preparation that cannot be completed prior thereto, (3) this amendment was unanimously recommended by members of the Cranberry Marketing Committee in an open meeting at which all interested persons were afforded an opportunity to submit their views, and (4) this amendment relieves restrictions on the handling of cranberries grown in specified States.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated, September 20, 1971, to become effective upon publication in the FEDERAL REGISTER (9-23-71).

Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

PART 946—IRISH POTATOES GROWN IN WASHINGTON

Expenses and Rate of Assessment

Notice of rule making regarding the proposed expenses and rate of assessment to be effective under Marketing Agreement No. 113 and Order No. 946 (7 CFR Part 946), was published in the September 4, 1971, issue of the FEDERAL REGISTER (36 F.R. 17875). This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

The notice afforded interested persons an opportunity to file written data, views, or arguments pertaining thereto not later than the 15th day after publication in the FEDERAL REGISTER. None was filed.

After consideration of all relevant matters, including the proposals set forth in the aforesaid notice which were recommended by the State of Washington Potato Committee, established pursuant to the said marketing agreement and order, it is hereby found and determined that:

§ 946.224 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal year ending May 31, 1972, by the State of Washington Potato Committee for its maintenance and functioning and for such other purposes as the Secretary may determine to be appropriate will amount to \$9,350.

(b) The rate of assessment to be paid by each handler in accordance with the said marketing agreement and this part shall be one-tenth cent (\$.001) per hundredweight, or equivalent quantity, of potatoes handled by him as the first handler thereof during said fiscal period: *Provided*, That potatoes for canning, freezing, and "other processing" as defined in the recent amendment to the act (Public Law 91-196) shall be exempt.

(c) Unexpended income in excess of expenses for the fiscal year ending May 31, 1972, may be carried over as a reserve.

(d) Terms used in this section have the same meaning as when used in the said marketing agreement and this part.

It is hereby found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provisions of said marketing agreement and this part require that the rate of assessment fixed for a particular fiscal period shall be applicable to all assessable potatoes from the beginning of such period, and (2) the current fiscal period began June 1, 1971, and the rate of assessment herein will automatically apply to all assessable potatoes beginning with such date.

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

Expenses of Prune Administrative Committee and Rate of Assessment for 1971-72 Crop Year

Notice was published in the September 2, 1971, issue of the FEDERAL REGISTER (36 F.R. 17579) regarding proposed expenses of the Prune Administrative Committee for the 1971-72 crop year and rate of assessment for that crop year, pursuant to §§ 993.80 and 993.81 of the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the proposal. None were submitted within the prescribed time.

After consideration of all relevant matter presented, including that in the notice, the information and recommendations submitted by the Prune Administrative Committee, and other available information, it is found that the expenses of the Prune Administrative Committee and the rate of assessment for the crop year beginning August 1, 1971, shall be as follows:

§ 993.322 Expenses of the Prune Administrative Committee and rate of assessment for the 1971-72 crop year.

(a) *Expenses.* Expenses in the amount of \$141,700 are reasonable and likely to be incurred by the Prune Administrative Committee during the crop year beginning August 1, 1971, for its maintenance and functioning and for such other purposes as the Secretary may, pursuant to the applicable provisions of the market-

ing agreement, as amended, and this part, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for such crop year which each handler is required, pursuant to § 993.81, to pay to the Prune Administrative Committee as his pro rata share of the said expenses is fixed at \$1.30 per ton of salable prunes handled by him as the first handler thereof.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provisions of said marketing agreement and this part require that the rate of assessment fixed for a particular crop year shall be applicable to all salable prunes handled by handlers as the first handlers thereof; and (2) the current crop year began on August 1, 1971, and the rate of assessment herein fixed will automatically apply to all such prunes beginning with that date.

Chapter X—Consumer and Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Docket No. AO 178-A27; Milk Order 68]

PART 1068—MILK IN THE MINNEAPOLIS-ST. PAUL, MINN., MARKETING AREA

Order Amending Order

Findings and determinations. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Minneapolis-St. Paul marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than October 1, 1971. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of this order are known to handlers. A public hearing was held August 17-18, 1971, to consider proposed amendments to the order pursuant to a notice issued by the Deputy Administrator, Regulatory Programs, on August 2, 1971. One of the issues considered at the hearing was a proposal to take evidence on the matter of emergency marketing conditions that might warrant omission of the recommended decision. At the close of the hearing, the Presiding Officer set August 27 as the closing date for the filing by interested parties of briefs and proposed findings and conclusions. No opposition to this emergency procedure was expressed by interested parties, either at the hearing or in posthearing briefs which were filed. The decision of the Assistant Secretary containing all amendment provisions of this order was issued September 10, 1971.

The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective October 1, 1971, and that it would be contrary to the public interest to delay the effective date of the amendment for 30 days after its publication in the FEDERAL REGISTER. (Sec. 553(d), Administrative Procedure Act, 5 U.S.C. 551-559.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the

Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Minneapolis-St. Paul marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

In § 1068.9, paragraph (b) is revised to read:

§ 1068.9 Pool plant.

(b) Any plant from which during any month 30 percent or more of such plant's total receipts for such month from farms of skim milk or butterfat eligible for sale in fluid form as Grade A milk within the marketing area is delivered to (1) a plant(s) which has qualified pursuant to paragraph (a) of this section, (2) any other plants located within the marketing area from which Class I milk is disposed of within the marketing area on a route(s), or (3) a governmentally owned and operated institution which disposes of Class I milk solely for use on its own premises or to its own facilities: *Provided,* That if during each of the months of September, October, and November 30 percent or more of such plant's receipts of skim milk or butterfat for such month as described above is delivered as provided in this paragraph, it shall be a pool plant through the following August: *And provided further,* That any deliveries of milk by a cooperative association during the months of September, October, and November directly from a farm(s) of its producer member(s) to a plant(s) described in paragraph (a) of this section may be considered, for purposes of this paragraph, as having been received first at a plant of such cooperative association.

(Secs. 1-19, 48 Stat. 31, as amended, 7 U.S.C. 601-674)

Effective date: October 1, 1971.

[Milk Order 133]

PART 1133—MILK IN THE INLAND EMPIRE MARKETING AREA

Order Suspending Certain Provisions

This suspension order is issued pursuant to the provisions of the Agricul-

tural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Inland Empire marketing area.

Notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 17588) concerning a proposed suspension of certain provisions of the order. Interested persons were afforded opportunity to file written data, views, and arguments thereon.

After consideration of all relevant material, including the proposal set forth in the aforesaid notice, data, views, and arguments filed thereon, and other available information, it is hereby found and determined that for the month of September 1971, the following provisions of the order do not tend to effectuate the declared policy of the Act:

1. In § 1133.12(c) (1), "and 20 percent in the months of September through November," and

2. In § 1133.12(c) (5), "Producers eligible for diversion in the months of September, October, or November must in addition have their milk received at a pool plant on at least 6 days (3 days in the case of every-other-day delivery) during the current month; and".

STATEMENT OF CONSIDERATION

This suspension removes for September 1971 the requirement that a producer deliver at least 6 days' production to a pool plant to qualify his milk for diversion to nonpool plants during the month and the provision limiting the total quantity of milk that may be diverted by a cooperative to 20 percent of the total producer milk marketed by its members during the month.

A cooperative representing a substantial number of producers on the market requested the suspension. Because of current conditions in the market, the cooperative is required to handle a disproportionate share of an increasing quantity of reserve supplies of milk for the market. Without the suspension, the cooperative would be forced to move milk uneconomically to qualify it for pooling during September 1971.

It is hereby found and determined that 30 days' notice of the effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area;

(b) This suspension order does not require of persons affected, substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rule making was given interested parties and they were afforded opportunity to file written data, views, or arguments concerning this suspension.

Therefore, good cause exists for making this order effective upon publication in the FEDERAL REGISTER.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the month of September 1971.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: Upon publication in the FEDERAL REGISTER (9-23-71).

Signed at Washington, D.C., on September 17, 1971.

RICHARD E. LYG,
Assistant Secretary.

Chapter XVIII—Farmers Home Administration, Department of Agriculture

SUBCHAPTER A—GENERAL REGULATIONS

[FHA Instruction 422.2]

PART 1809—APPRAISALS

Subpart B—Appraisal of Real Estate Security for Rental, Cooperative and Labor Housing Loans

Sec.	
1809.11	General.
1809.12	Definition of appraisal terms.
1809.13	Considerations influencing value.
1809.14	Steps preliminary to making the appraisal.
1809.15	Description and evaluation of building for insurance purposes.
1809.16	Preparation of the appraisal form.

AUTHORITY: The provisions of this Subpart B issued under sec. 510, 63 Stat. 437, 42 U.S.C. 1480; Orders of the Secretary of Agriculture, 29 F.R. 16210, 32 F.R. 6650.

§ 1809.11 General.

This subpart prescribes the policies and procedures for the appraisal of real property serving as security for Rural Rental Housing (RRH), Rural Cooperative Housing (RCH), and Farm Labor Housing (LH) loans involving more than two living units. LH loans to an individual farmer, or an LH loan to an organization, or an RRH loan involving one or two living units will be appraised on the same basis as security for a section 502 Rural Housing (RH) loan. Real Estate securing RRH, RCH, and LH loans other than an LH loan to an individual farmer will be appraised for its present market value. Capitalization, replacement, and comparable sales values will be considered in arriving at the present market value.

(a) *Employee authorized to appraise the property.* The employee designated by the State Director as appraiser-trainer for the State will be authorized to make this type of appraisal. This responsibility may be redelegated to qualified State staff members after they have received appropriate training in appraising multiunit housing. County and Assistant County Supervisors, in Grades GS-9 or above, may also be redelegated authority to appraise multiunit housing properties with six or less units provided they are properly trained and demonstrate full competence to perform this type of appraisal.

(b) *Appraisal form.* Form FHA 422-7, "Appraisal Report for Multiunit Housing," will be used to make RRH and LH appraisals involving more than two living units.

(c) *Assumed operation.* The appraiser will assume that the property will be used for the purpose proposed.

§ 1809.12 Definitions of appraisal terms.

(a) *Capitalization value.* This is the value that a prudent investor likely would pay for the property based on its estimated future earnings. It is determined by dividing the net income by an appropriate capitalization rate.

(b) *Replacement value.* This value is the summation of the costs of the property including land, fees, and services that would be required to replace or duplicate the property as improved, giving proper consideration to allowances for obsolescence and depreciation.

(c) *Comparable sales value.* This value is a measure of the market value of a property estimated by comparison with similar properties recently sold in the open market or constructed in the same vicinity.

(d) *Present market value.* The present market value is the amount a typical purchaser would be willing to pay and justified in paying for the property as improved. It is assumed that the property would sell for this amount with a reasonable sales effort, and that the purchaser would be a willing but not anxious buyer and the seller would be a willing but not forced seller.

(e) *Depreciation.* Depreciation is loss in value of the building compared with replacement cost. Depreciation is caused by natural forces and use.

(f) *Obsolescence.* Obsolescence refers to those changes in the life of a structure which cause it to become less attractive, less desirable, or less useful. Obsolescence does not necessarily affect the physical life of a building; however, it operates to terminate economic life. Functional obsolescence is caused by unserviceable or unattractive features, and environmental obsolescence is caused by unattractive or nuisance-creating surroundings.

§ 1809.13 Considerations influencing value.

(a) *General*—(1) *Location.* The location of the housing development with respect to availability of essential goods and services, transportation, churches, recreation, employment, schools, community, setting, and potential alternative uses are important considerations in appraising multiunit housing.

(i) The appraiser should recognize any significant unfavorable location factors and reflect them in his recommended present market value. This is one of the most important variables in determining the value of the property.

(ii) Housing located so that the occupants will have ready access to their daily needs and be close to medical and hospital facilities generally will have a higher present market value than similar property located so that the essential services are not readily available.

(iii) Consideration should be given to the population trend of the local community in the case of an RRH loan and farming trends in the case of an LH loan to determine the likelihood that there will be a demand for the housing in the foreseeable future.

(iv) Potential alternative uses of the property in its location should be noted and must be considered in arriving at the present market value. Flexibility and future utility of the property are important. There may be some disadvantages which will limit the use and value of the property for other purposes. There may be some expenditures which were necessary for special-purpose housing that would have little or no application for other uses. In evaluating the future utility of the property, community trends and future requirements in the community are important.

(2) *Types of structures*—(i) *New structure.* New structures in a good location in an area where a continuing demand exists and which are appropriately designed to meet the needs of senior citizens or farm laborers generally will have a present market value approximating the cost of development plus the value of the site. Special note should be made of functional features since improper design or faulty construction requires an immediate depreciation charge.

(ii) *Remodeled structures.* Older structures being remodeled to house senior citizens or farm laborers present complex appraisal problems. Depreciation and obsolescence may have almost terminated the property's economic life. The design of the remodeled structure may be less satisfactory than new construction. The property, however, will have value although possibly not improved for its highest and best use provided it will produce a net return that would justify improving the property. In this type of situation, improvements to the old structures plus the mechanical equipment and accessories which are to be installed as part of the security must be given value to the extent that they enhance total property value. The cost of these features which are usually subject to rapid deterioration and obsolescence is one of the primary reasons why the cost of renovating old properties is often uneconomical in relation to the probable net returns. The present market value of this type of property will not exceed the value of the site plus the depreciated replacement value of the buildings.

(3) *Economic life of housing.* The economic life of a building can never be greater than its physical life, but frequently is less. A structure may be sound and in good physical condition with a number of years of physical life remaining and yet have reached the end of its economic life. The end of economic life is reached when a structure fails to return sufficient income to cover the cost of operation and maintenance, plus adequate returns for the use of the site. This important consideration in the appraisal of security for SCH and LH loans requires a careful evaluation of the housing itself and the economic environment in which it is located.

(4) *Design.* Specially designed housing primarily suited for only one type of use and located to accommodate a special need generally has limited resale possi-

bilities. Such properties ordinarily carry a high risk factor, and net earnings are capitalized at a high rate to attract investors. Extremes in design are likely to have limited market appeal from either a resale or rental standpoint. Only those design features that have general appeal can be considered as adding value if resale depends on buyers from the open market.

(5) *Environmental changes.* Since the amortization period for SCH and LH loans usually will be over a long period of time, it is necessary to consider environmental changes that are likely to affect the value of the property. Industrial encroachment, shifts in economic levels of the people, technological improvements in housing, shifts in agricultural production, and introduction of labor-saving machinery, likely will affect value over the period of the loan. Each of these shifts may bring a different type of potential buyer into the picture, or may sharply reduce or eliminate the demand for special purpose housing at the location.

(b) *Special consideration for SCH loans.* Housing for senior citizens will likely consist of new apartments, duplex units, cottage-type arrangements, and housing created by remodeling existing structures. The following are some of the special factors to be considered by the appraiser which affect present market value of senior citizens rental housing:

(1) The distances to shopping centers, neighborhood stores, and civic, religious, social, medical, and recreational facilities are important considerations in SCH appraising. Since it is usually difficult to find all of these facilities close at hand; the availability of transportation is an important consideration. Its availability and quality are significant factors in evaluating the location of rental housing units for senior citizens.

(2) Adequacy of police, fire, municipal services, and hospital facilities are important.

(3) The site should lend itself physically to a good site plan, permitting the economical and convenient installation of housing improvements and related facilities for use by tenants such as parking and recreational areas.

(c) *Special considerations for LH loans.* Housing for domestic farm laborers may consist of separate housing, apartments, rooms, or dormitory facilities and related facilities such as dining halls, central sanitary facilities, and group kitchens. The following are some of the special factors the appraiser will need to consider in determining the present market value of the property:

(1) Frequently, labor housing will be so located and the type of construction will be such that it can only be used for housing domestic farm laborers; therefore, it will have little or no secondary value as far as other uses are concerned. Because of this fact, the appraiser will be concerned with two possibilities:

(i) If the facility is being appraised in an area where a community survey shows that a strong demand for labor housing exists, and is likely to continue in the

foreseeable future, it may be assumed that future use of this property will likely be for housing domestic farm laborers. The appraiser will assume that the economic life of the development will equal or approximate the amortization period of the loan. The present market value will then likely approach the construction cost if permanent-type buildings are suitably designed and constructed.

(i) When housing facilities being appraised are in an area where a community survey indicates a strong demand for farm labor does not exist or the demand is likely to decline significantly in the future to a level where the housing may no longer be needed, the present market value ordinarily would be considerably less than the cost of the facility.

(2) It is important that labor housing be situated within reasonable distance of the place of employment. Preferably the housing should be on a hard-surfaced public road. Any roads and rights-of-way from and to public roads must be adequate and unrestricted. The surroundings and site must be carefully selected to avoid health problems and physical hazards, provide privacy, and be home-like and comfortable.

(i) Availability of schools, service centers, and stores must be considered the same as for farm families. Transportation for schoolchildren in the case of family housing should be available when located beyond walking distance.

(ii) The domestic water supply for labor housing is an important consideration. It should meet public health requirements and be conveniently accessible.

(iii) Construction and material should be durable since labor housing is usually treated more severely than housing for more permanent tenants. Construction that will require high maintenance costs will have a lower value than similar housing designed for low maintenance.

(iv) Housing should be suited to the type of laborers being employed. Generally, the housing should be for family units, or be readily convertible to accommodate families.

§ 1809.14 Steps preliminary to making the appraisal.

The appraisal will be made when the applicant has been found to be eligible, and sufficient information has been developed to enable the appraiser to properly evaluate the property. Plans and specifications for the building and site improvements, and cost estimates will be furnished the appraiser in sufficient detail to enable him to determine the size and type of structure to be built or improved, the materials to be used, and the improvements to be made to the site. The applicant will be required to furnish photographs of the front, rear, and side exposures in situations involving repair or remodeling of existing housing. Current tax information, the best legal description available, and a plot plan should be available. The applicant's tentative operating plan and budget also will be furnished the appraiser.

(a) *Inspection of property.* The appraiser should first identify the property. Boundary lines should be checked for accuracy against the plot plan and legal description furnished by the applicant. His impression of the proposed housing should be based on a careful inspection of the site and information previously gathered in the community, and his own general observations. If the loan involves remodeling existing buildings, the appraiser will make a careful examination of the property to satisfy himself that the plans and description furnished are accurate and adequate to carry out the proposed remodeling job. If the appraiser has any reservations as to whether the plans or sketches furnished fully comply with all local ordinances which control the erection of the type of housing under consideration, he should require the applicant to obtain approval of the appropriate authorities before completing his appraisal report.

(b) *Obtaining background information.* An overall analysis of the community and the area immediately surrounding the property should be made by the appraiser before proceeding to evaluate the property. It may be necessary to make a study of the potential needs for senior citizens or farm labor housing before inspecting the property. The value of the property for such specific use will be influenced by the strength of the demand for such housing.

(1) *Study of community.* The appraiser should study the community to determine the trends of the area. He should note whether the community is progressing or declining, estimate its stability, and note the age, composition, and income levels of the people. Information submitted by the applicant to indicate the need for the housing should be made available to the appraiser. If the information furnished by the applicant is inadequate, the appraiser will be expected to make a suitable survey as a basis for his evaluation of the property. The appraiser must be sure that he has complete and adequate information from reliable sources. Some of the information will be available from census reports, chambers of commerce, farm organizations, and facts gathered from other organizations such as church groups and welfare agencies, which may have useful knowledge about the housing needs and income levels of senior citizens or farm laborers in the community. Careful consideration should be given to income levels of families in the area and the likelihood that those who may want to occupy the housing will be able to pay the rentals that will be needed for a sound loan. The appraiser should record on the appraisal report his conclusions regarding the demand for the proposed housing.

(2) *Consideration of immediate neighborhood.* The appraiser should observe the development in the area immediately surrounding the property under consideration, note undesirable properties in the area, and determine whether there are any activities such as junkyards, industrial developments, or similar nuis-

ance elements which would adversely affect the comfort of the housing occupants or the attractiveness of the neighborhood. Possible extension of noticeable trends should be projected in attempting to picture the future development surrounding the property under consideration. Natural barriers against blight or undesirable use of neighboring properties should be noted. Boulevards, parks, rivers, layout of streets, and other natural barriers may offer protection against possible infiltration of undesirable influences.

(3) *Location of the property.* The appraiser should include with his report a sketch of the area in which the property is located showing the approximate distances to desirable and undesirable features of the community such as shopping areas, parks, highways, railroads, and industrial areas.

§ 1809.15 Description and evaluation of building for insurance purposes.

The appraiser will be responsible for recording his evaluation of buildings for insurance purposes on Form FHA 426-1, "Valuation of Buildings." The value of the buildings will be determined by careful examination of each building with appropriate consideration to replacement cost and the amount the buildings have depreciated in value.

§ 1809.16 Preparation of the appraisal form.

(a) *General information.* The appraiser should complete all applicable items. When statements are required they should be sufficiently complete to accurately reflect the appraiser's observations. If more space is needed to discuss any items, more detailed information should be included under "Comments" on page 4 of the appraisal form. Any violation of health or zoning ordinances, and significant desirable or undesirable features about the property also should be explained in detail in the "Comments" section. If additional space is needed, a supplementary sheet should be attached to the appraisal form.

(b) *Determination of values—section III.* The appraiser will determine the replacement and capitalization values in each case and the comparative sales or development value whenever such information is available.

(1) *Replacement value—(i) Item III A 1.* Enter the cost of all new buildings to be constructed on the property.

(ii) *Item III A 2.* Replacement cost is the amount required to replace the buildings. The replacement costs of the buildings are figured on current labor cost and the current cost of materials of like kind and quality used in the buildings. The depreciated value of existing buildings is determined by subtracting the amount of depreciation from the replacement cost of the buildings. Substantially constructed buildings requiring minimum maintenance can ordinarily be depreciated at about 2 percent per year. A higher rate of depreciation should be used when buildings are poorly constructed or constructed of materials subject to a more rapid rate of depreciation.

(iii) *Item III A 3.* Enter the present market value of the site on an "as is" basis. This value is obtained by using comparable sales information. Enter the cost of site improvements.

(2) *Capitalization—(1) Item III B 1—Income section.* The appraiser will assume the property will be used for the purpose proposed. Under "Type of Unit" show whether one- or two-bedroom apartments, or rooms in the case of farm labor, and so forth. "Annual Income" in the last column may be changed to "Season Income" in situations such as labor housing when the facility may not be used all year. Allow 10 percent for income loss due to vacancies and nonpayment of rents.

(a) Applicants for insured SCH loans who are profit motivated usually will present a budget showing a reasonable profit. This budget may be used by the appraiser in computing net income in connection with determining capitalization value if the applicant's budget reflects competitive rents for comparable properties in the area and is otherwise realistic. If, in the judgment of the appraiser, the estimated income in the applicant's budget is not realistic the appraiser will make appropriate adjustments on the appraisal report.

(b) For SCH and LH properties to be financed on a nonprofit basis, the appraisal report should reflect competitive rentals for comparable properties in the area. In some cases this may be higher, and in others lower than the rental levels proposed by the applicant. The appraisal also should reflect any adjustments he considers appropriate in the operating expenses proposed by the applicant.

(ii) *Item III B 2—Annual operating expenses.* The operating budget prepared by the appraiser should be checked against the operating statement furnished by the applicant. If the information furnished appears to be incomplete, unrealistic, or inaccurate, the appraiser should call this to the attention of the county supervisor, and make appropriate adjustments in the expenses used on the appraisal report.

(iii) *Item III B 3.* The two primary considerations involved in selecting the appropriate capitalization rate are the physical features of the property; and, the acceptable rate of return on the investment.

(a) *Physical factors.* Some of the factors that favor a low rate are:

- (1) Good condition of the building.
- (2) Desirable and stable location.
- (3) Slow rate of obsolescence.
- (4) Convertibility to other uses.
- (5) Assured increased value in the future.

(6) Property attractive to many buyers.

(7) Comparable developments in the area that have proved to be successful.

(8) Favorable community trends.

(b) *Other physical factors.* Some of the factors that favor a high rate are:

- (1) Property subject to rapid obsolescence or depreciation.
- (2) Special purpose and nonconvertibility to other uses.
- (3) Uncertainty as to the future demand.

- (4) Property in a rundown condition.
- (5) Attractive to few buyers.
- (6) Undesirable location.
- (7) Transitional neighborhood in the direction of making it undesirable as a place to live.
- (8) Declining community.

(c) *Acceptable rate of return on investment.* The rate of return necessary to attract capital is influenced by the following factors:

(1) Recognized acceptable interest rate in the area.

(2) Security. Adequate security lowers the rate; inadequate or questionable security raises the rate.

(3) Management burden. The greater the expenses required for management, the higher the necessary interest rate.

(4) Marketability. Property having a limited appeal to buyers carries a higher interest rate because of increased rate.

(5) Assurance of continued income.

(d) Final selection of the capitalization rate will depend on the judgment of the appraiser as to type of property and amount of risk involved.

(e) "Capitalized value of property" is determined by dividing the "annual net income" by the capitalization rate selected by the appraiser.

(3) *Comparable sales price or development costs of multiunit properties—(1) Item III C.* The comparable sales price or development costs of multiunit properties serves as another checkpoint in firming up the appraiser's judgment for present market value.

(a) If comparable sales can be located or development costs of similar properties can be obtained, the information should be entered on the appraisal form in section III C. The appraiser should recognize that the information serves two purposes. It indicates the lowest price at which property currently can be purchased. Second, it indicates the price at which similar property currently can be sold. Knowing these characteristics, the appraiser can use this in determining the recommended present market value of the property. Comparable construction costs can often be obtained on motels, schools, apartment houses, and office buildings, when the quality and general design are similar. Square foot costs can often be used.

(b) The appraiser must be thoroughly familiar with comparable sales or development cost information used in the report. If comparisons are valid they offer a widely accepted method of property appraisal; however, if the property being used as a comparison is not actually similar, the type of information is less reliable. Use only the comparisons in the report that have been investigated, compared, and analyzed. It is essential to see the property from which recent sales information is to be used in order to judge whether it is similar to the property being appraised.

(c) There are several essential points of similarity that should be carefully checked in comparing sales or production costs of similar properties: Location; size; number and size of rooms; equipment; architectural appeal; age and degree of maintenance; porches and

garages; lot size; and, utilities. This is a direct approach in estimating present market value. The market data approach is concerned with the principle of substitution in that typical buyers will not purchase a property at a price higher than the prices of similar properties having comparable locations, characteristics, and future earning capabilities. This is the only approach that reflects supply and demand in actual trading. Due to this characteristic it is the most widely accepted appraisal method.

(c) *Summary and recommended value—section IV—(1) Item IV A—Summary.* The rating of the property by the appraiser should be checked opposite each of the factors and under the appropriate classification of "good," "fair," and "poor." The replacement value, capitalization value, and comparable value will be brought forward from Items III, A, B, and C, and entered on these lines of the "Summary and Recommended Value."

(2) *Item IV B—Recommended present market value.* Present market value represents the final judgment of the appraiser after thoroughly considering the replacement, capitalization, and comparable sales values, as well as the other information from the appraisal report, the loan docket, and any other sources affecting the value of the property. Present market value is not an average of the replacement capitalization and comparable sales values and in no case should it exceed the replacement value of the property. The recommended present market value will be the appraiser's judgment conclusion using the three values reflected above.

(d) *Replacement value for LH loans—section V.* This item, which does not include the cost or value of the land, will be completed for each LH loan. In making this determination the appraiser will consider the replacement values of the appropriate buildings as shown on Form FHA 426-1 and the cost of improvements to be made to the site.

(e) *Comments—section VI.* The appraiser will use this section to elaborate on the unusual features noted and reflect his general observations on the property. He should also report any favorable factors and show deficiencies noted about the property that would have a bearing on loan approval. Where the SCH loan funds will be used to purchase a housing site or when a site for an SCH or LH loan will be purchased by the applicant from a member of the organization or a firm in which a member has an interest, the appraiser will include in his comments his opinion as to the present market value of the site on an "as is" basis. Whenever sales data for comparable properties are available this information, together with a comparison of these sites with the site being appraised, will be included in the "Comments" section.

Chapter I—Agricultural Research Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS AND POULTRY

[Docket No. 71-593]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2, in paragraph (e)(4) relating to the State of Texas, a new subdivision (i) relating to Lubbock County is added to read:

(4) *Texas.* (i) That portion of Lubbock County bounded by a line beginning at the junction of U.S. Highway 87 and the Lubbock-Hale County line; thence, following the Lubbock-Hale County line in an easterly direction to the junction of the Hale-Floyd-Lubbock-Crosby County lines; thence, following the Lubbock-Crosby County line in a southerly direction to the North Fork Double Mountain Fork of the Brazos River; thence, following the north bank of the North Fork Double Mountain Fork of the Brazos River in a northwesterly direction to the Buffalo Springs Lake; thence, following the north bank of the Buffalo Springs Lake in a generally southwesterly direction to Yellow House Draw; thence, following the north bank of the Yellow House Draw in a northwesterly direction to Blackwater Draw; thence, following the east bank of Blackwater Draw in a northwesterly direction to U.S. Highway 87; thence, following U.S. Highway 87 in a northerly direction to its junction with the Lubbock-Hale County line.

(Secs. 4-7, 23 Stat. 32, as amended, secs. 1 and 2, 32 Stat. 791-792, as amended, secs. 1-4, 33 Stat. 1264, 1265, as amended, sec. 1, 75 Stat. 481, secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f; 29 F.R. 16210, as amended)

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment quarantines a portion of Lubbock County, Tex., because of the existence of hog cholera. This action is deemed necessary to prevent further

spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined portion of such county.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of hog cholera and must be made effective immediately to accomplish its purpose in the public interest. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 20th day of September 1971.

F. J. MULHERN,
Acting Administrator,
Agricultural Research Service.

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

[Rev. 4, Amdt. 7]

PART 107—SMALL BUSINESS INVESTMENT COMPANIES

Minority Enterprise Small Business Investment Companies

On July 2, 1971, the Small Business Administration published in the FEDERAL REGISTER (36 F.R. 12630) proposed amendments to §§ 107.101, 107.301, 107.501, 107.1001, and 107.1002, Part 107 of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations, revised as of January 1, 1971, which would (a) amend § 107.101 to abolish for MESBIC's the diversification requirement of paragraph (c) thereof, except as to real estate (Major Group 65 of the Standard Industrial Classification Code); (b) amend § 107.301 by reducing the minimum period for which investments, in disadvantaged small concerns only, may be made, with a corresponding adjustment of the maximum amortization permissible, and allowing a licensee, whether or not a MESBIC, to maintain up to 50 percent of its portfolio in such shorter term investments; (c) further amend § 107.301 to permit MESBIC's to invest up to 30 percent of their private capital in a single small business concern; (d) amend § 107.501 to make all lenders to MESBIC portfolio concerns eligible for loan guarantees; (e) amend § 107.1001 (g) to increase from less than 50 to less than 75 percent the amount of MESBIC funds which a portfolio con-

cern could use to purchase goods and services from suppliers associated with the MESBIC; and (f) amend § 107.1002 to exempt MESBIC's from the requirement of maintaining an unimpaired private capital.

Interested persons were invited to submit written comments and suggestions for consideration within 30 days after publication of the notice of proposed rule making in the FEDERAL REGISTER. After consideration of the comments received and other factors involved, it has been decided to adopt the proposed amendments without modification. The text of the amendments set out below is identical with that of the proposed amendments published July 2, 1971.

Accordingly, pursuant to authority contained in section 308 of the Small Business Investment Act of 1958, Public Law 85-699, 72 Stat. 694, as amended, Part 107 of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations, revised as of January 1, 1971, is hereby amended as follows:

1. Section 107.101 is amended to read as follows:

§ 107.101 Operational requirements.

(c) *Diversified investment policy.* * * *

(1) *General rule.* * * * *Provided, however,* That (except with respect to Major Group 65) this subparagraph shall not apply in the case of a MESBIC.

(2) *Licensees other than real estate specialists.* * * * *Provided, however,* That (subject to subparagraph (1) of this paragraph) this subparagraph shall not apply in the case of a MESBIC.

(3) *Real estate specialists.* * * * *Provided, however,* That the limitation of this subparagraph shall not apply in the case of a MESBIC.

2. Section 107.301 is amended by deleting the second sentence of paragraph (a) and adding the following in lieu thereof, and by adding new paragraph (c) (4) to read as follows:

§ 107.301 General.

(a) *Minimum period of financing and maximum amortization.* * * * *Provided, however,* That financings which will contribute to a well-balanced national economy by facilitating ownership of small business concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages may be made by a licensee for a minimum period of 30 months, the aggregate outstanding amount of such financings under this proviso not to exceed 50 percent of such licensee's portfolio at the end of any full fiscal year. Prepayments of outstanding financings or similar events beyond the control of the licensee, occurring within the fiscal year, shall be disregarded for purposes of determining whether the licensee meets the foregoing 50-percent requirement. Amortization during the first 5 years (or during the first 30 months in the case of a financing authorized for a minimum period of 30 months) shall not be required

at a rate exceeding an accumulated average based on the straight-line method of amortization.

(c) *Twenty percent (20%) limitation.*

(4) In the case of a MESBIC the limitation of this subsection, referred to also in paragraph (d) of this section as well as in §§ 107.501, 107.504, and 107.505, shall be thirty percent (30%).

3. Section 107.501 is amended to read as follows:

§ 107.501 *SBIC guarantee of loans.*

*** In the case of a MESBIC, the term "lending institutions" as used in this section shall be deemed to mean all lenders, incorporated and unincorporated, other than Associates of the MESBIC.

4. Section 107.1001 is amended to read as follows:

§ 107.1001 *Prohibited uses of funds.*

(g) *Licensee associated supplier.* *** Provided, however, That in the case of a MESBIC such limit shall be 75 percent.

5. Section 107.1002 is amended to read as follows:

§ 107.1002 *Capital impairment.*

(d) In the case of a MESBIC an impairment of capital shall be deemed to exist when the retained earnings deficit equals or exceeds private paid-in capital and paid-in surplus. Except with prior SBA written approval, no debtor MESBIC shall pledge, assign, hypothecate, or otherwise encumber any of its portfolio securities or other assets, or create or allow to be created any mortgage, lien, or other encumbrance thereon, while it has a retained earnings deficit of fifty percent (50%) or more of its private paid-in capital and paid-in surplus. A debtor MESBIC with a retained earnings deficit of fifty percent (50%) of its private paid-in capital and paid-in surplus shall immediately notify SBA and shall be deemed to have authorized SBA to take such measures as may be appropriate to perfect a security interest in favor of SBA in its assets. SBA may direct the MESBIC to take such actions as SBA considers necessary to perfect such a security interest.

Effective date. In view of the determination made that it is in the public interest that these amendments be applied promptly to the Small Business Investment Company program, they shall become effective on the date of their publication in the FEDERAL REGISTER (9-23-71).

Dated: September 16, 1971.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 71-EA-113, Amdt. 39-1262]

PART 39—AIRWORTHINESS DIRECTIVES

Pratt & Whitney Aircraft Engines

On page 15109 of the FEDERAL REGISTER for August 13, 1971, the Federal Aviation Administration published AD 71-17-6 applicable to JT12A-6, JT12A-6A, JT12A-8 and J60P-5B turbojet engines. Through inadvertence, the dual criteria for removal of the referenced parts were restricted to whichever came first. It was intended to allow whichever came later. Therefore AD 71-17-6 is being amended to correct the error.

Since the amendment is less restrictive in nature, notice and public procedure hereon are unnecessary and it may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 F.R. 13697) § 39.13 of Part 39 of the Federal Aviation Regulations is amended so as to delete in AD 71-17-6 the phrase "whichever comes first" and insert in lieu thereof "whichever comes later".

This amendment is effective upon publication in the FEDERAL REGISTER (9-23-71).

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421 and 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on September 15, 1971.

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 71-243]

PART 12—SPECIAL CLASSES OF MERCHANDISE

Switchblade Knives

On October 24, 1970, notice was published in the FEDERAL REGISTER (35 F.R. 16594) of a proposal to prescribe regulations to govern the importation of articles subject to the so-called Switchblade Knife Act, sections 1-4, 72 Stat. 562 (15 U.S.C. 1241-1244).

Importers or other interested persons were given the opportunity to participate in the rule making through submission of relevant comments, suggestions, or objections. No comments were received from importers or other persons.

However, certain procedural matters incidental to importations, entry processes, and lawful dispositions of knives dealt with in the proposal are included in the regulations as adopted.

Additions which reflect those matters are as follows:

1. Definition of the term "insignificant preliminary preparation" appears in § 12.95(b) of the adopted regulations.

2. Provisions appear in § 12.99 of the adopted regulations to detail the terms, content, and manner of execution of declarations required for permitted importations pursuant to Armed Forces contract, by an Armed Forces Branch, member, or employee, or by one-armed persons, and to authorize a means of Customs verification of declared statements and other details of declarations.

3. The exception from criminal liability extended in the Act to certain common or contract carriage of switchblade knives appears in § 12.100(b) of the adopted regulations.

Editorial corrections and rearrangement, minor changes in language in certain provisions, and adoption of eight numerical sections in place of one are reflected in the adopted regulations.

The regulations are hereby adopted as set forth below.

Effective date. These regulations shall become effective 30 days after date of publication in the FEDERAL REGISTER.

[SEAL] EDWIN F. RAINS,
Acting Commissioner of Customs.

Approved: September 13, 1971.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

Part 12 is amended to add a new centerhead and §§ 12.95 through 12.103, reading:

SWITCHBLADE KNIVES

§ 12.95 Definitions.

Terms as used in §§ 12.96 through 12.103 of this part are defined as follows:

(a) *Switchblade knife.* "Switchblade knife" means any imported knife which has—

(1) A blade which opens automatically by hand pressure applied to a button or device in the handle of the knife, or any knife with a blade which opens automatically by operation of inertia, gravity, or both; or

(2) A stiletto or other blade style which is designed for purposes that include a primary use as a weapon when, by insignificant preliminary preparation, as described in paragraph (b) of this section such stiletto or other weapon can be altered or converted so as to open automatically by operation of inertia, gravity, or both under the principle of the decision in the case of *Precise Imports Corp. and Others v. Joseph P. Kelly, Collector of Customs, and Others* (378 F. 2d 1014).

(b) *Insignificant preliminary preparation.* "Insignificant preliminary preparation" means preparation with the use of

ordinarily available tools, instruments, devices, and materials by one having no special manual training or skill for the purpose of modifying blade heels, relieving binding parts, altering spring restraints, or making similar minor alterations which can be accomplished in a relatively short period of time.

(c) *Utilitarian use.* "Utilitarian use" includes but is not necessarily limited to use—

- (1) For a customary household purpose;
- (2) For usual personal convenience, including grooming;
- (3) In the practice of a profession, trade, or commercial or employment activity;
- (4) In the performance of a craft or hobby;
- (5) In the course of such outdoor pursuits as hunting and fishing; and
- (6) In scouting activities.

§ 12.96 Imports unrestricted under the Act.

(a) *Common and special purpose knives.* Imported knives with a blade style designed for a primary utilitarian use, as defined in § 12.95(c), shall be admitted to unrestricted entry provided that in condition as entered the imported knife is not a switchblade knife as defined in § 12.95(a)(1). Among admissible common and special purpose knives are jackknives and similar standard pocketknives, special purpose knives, scout knives, and other knives equipped with one or more blades of such single edge nonweapon styles as clip, skinner, pruner, sheep foot, spey, coping, razor, pen, and cuticle.

(b) *Weapons with fixed blades.* Importations of certain articles having a fixed unexposed or exposed blade are not within the prohibition of the Act of August 12, 1958 (15 U.S.C. 1241-1244). However, upon release by Customs, possession of these admissible articles which include such weapons as sword canes, camel whips, swords, sheath knives, machetes and similar devices that may be capable of use as weapons may be in violation of State or municipal laws.

§ 12.97 Importations contrary to law.

The importation of switchblade knives, except as permitted by section 4 of the Act of August 12, 1958 (15 U.S.C. 1244), are importations contrary to law and subject to forfeiture under 18 U.S.C. 545.

§ 12.98 Importations permitted by statutory exceptions.

The importation of switchblade knives is permitted by section 4 of the Act of August 12, 1958 (15 U.S.C. 1244), when—

- (a) Imported pursuant to contract with a branch of the Armed Forces of the United States;
- (b) Imported by a branch of the Armed Forces of the United States or any member or employee thereof acting in the performance of his duty; or
- (c) A switchblade knife having a blade not exceeding 3 inches in length is in the possession of and is being transported on

the person of an individual who has only one arm.

§ 12.99 Procedures for permitted entry.

(a) *Declaration required.* The entry of switchblade knives, the importation of which is permitted under § 12.98 shall be accompanied by a declaration, in duplicate, of the importer or consignee stating the facts of the import transaction as follows:

(1) *Importation pursuant to Armed Forces contract.* (i) The names of the contracting Armed Forces branch and its supplier;

(ii) The specific contract relied upon identified by its date, number, or other contract designation; and

(iii) A description of the kind or type of knife imported, the quantity entered, and the aggregate entered value of the importation.

(2) *Importation by a branch, member, or employee of the Armed Forces.* (i) The name of the Armed Forces branch by or for the account of which entry is made or the branch of the importing member or employee acting in performance of duty; and

(ii) The description, quantity, and aggregate entered value of the importation.

(3) *Importation by a one-armed person.* A statement that the knife has a blade not exceeding 3 inches in length and is possessed by and transported on the declarant's person solely for his necessary personal convenience, accommodation, and use as a one-armed individual.

(b) *Attachments to declaration.* Details for purposes of a declaration required under paragraph (a) of this section may be furnished by reference in the declaration to attachment of the original or copy of the contract or other documentation which contains the information.

(c) *Execution of declaration.* Declarations required by paragraph (a) of this section shall be executed as follows:

(1) *Contract supplier; Armed Forces branch; member or employee.* Declarations made under paragraph (a) or (b) of § 12.98 shall affirm that facts and data furnished are declared on knowledge, information, or belief of a signing officer, partner, or authorized representative of an importing contract supplier or of a commissioned officer, contracting officer, or employee authorized to represent an Armed Forces importing branch. The signature to a declaration shall appear over the declarant's printed or typewritten name, his title or rank, and the identity of the contract supplier or Armed Forces branch he represents or in which he has membership or employment.

(2) *One-armed person.* Declarations made under paragraph (c) of § 12.98, signed by the eligible person, shall be presented upon his arrival directly to an inspector or other Customs officer who shall visually confirm the facts declared.

An eligible knife shall be released only to the declarant.

(d) *Verification of declared information.* The importer, consignee, or declarant of knives permitted entry under § 12.98 upon request shall furnish Customs additional documentary evidence from an Armed Forces branch or other relevant source as Customs officers may require in order to—

- (1) Verify declared statements;
- (2) Resolve differences pertaining to quantity, description, value, or other discrepancy disclosed by the importation, entry, or related documentation;
- (3) Establish the declarant's authority to act; or
- (4) Authenticate a signature.

§ 12.100 Importations in good faith; common or contract carriage.

(a) *Exportation in lieu of seizure.* Upon a claim that the importer acted in good faith without knowledge of applicable laws and regulations, Customs officers may authorize detained inadmissible knives to be exported otherwise than in the mails, at no expense to the Government, under the procedures of §§ 18.25-18.27 of this chapter.

(b) *Common or contract carriers.* In accordance with section 4 of the Act of August 12, 1958 (15 U.S.C. 1244(1)), excepted from the penalties of the Act are the shipping, transporting, or delivering for shipment in interstate commerce, in the ordinary course of business of common or contract carriage, of any switchblade knife. However, imported switchblade knives as defined in § 12.95(a) so shipped or transported to a port of entry or place of Customs examination are prohibited importations subject to §§ 12.95-12.103 and disposition as therein required, authorized, or permitted.

§ 12.101 Seizure of prohibited switchblade knives.

(a) *Importations contrary to law.* Inadmissible importations which are not exported in accordance with § 12.100(a) shall be seized under section 545, title 18, United States Code.

(b) *Notice of seizure.* Notice of Customs seizure shall be sent or given to the importer or consignee, which shall inform him of his right to file a petition under section 618, Tariff Act of 1930, as amended (19 U.S.C. 1618), for remission of the forfeiture and permission to export the seized switchblade knives. (See Part 171 of this chapter.)

§ 12.102 Forfeiture.

If the importer or consignee fails to submit, within 60 days after being notified of his right to do so, a petition under section 618, Tariff Act of 1930, as amended (19 U.S.C. 1618), for remission of the forfeiture and permission to export the seized importation, the seized prohibited knives shall be forfeited in accordance with applicable provisions of sections 602-611, Tariff Act of 1930, as amended (19 U.S.C. 1602-1611), and the procedures of §§ 23.11-23.22 of this chapter.

§ 12.103 Report to the U.S. Attorney.

Should circumstances and facts of the import transaction show evidence of deliberate violation of the act of August 12, 1958 (15 U.S.C. 1241-1244), so as to present a question of criminal liability, the evidence, accompanied by reports of investigative disclosures, findings, and recommendation, shall be transmitted to the U.S. Attorney for consideration of criminal prosecution. The district director of Customs or Customs investigating agent shall hold the seized switchblade knives intact pending disposition of the case.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

SUBCHAPTER J—BRIDGES

[CGFR 71-66a]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Hoquiam River, Wash.

This amendment revises the regulations for the Riverdale Avenue (Sixth Street) Bridge across the Hoquiam River, Hoquiam, Wash., to require an opening signal of two long blasts followed by two short blasts. This is the same opening signal used to request openings of the Eighth Street Bridge located two blocks upstream of this bridge. This amendment was circulated as a public notice dated July 20, 1971, by the Commander, 13th Coast Guard District and was published in the FEDERAL REGISTER as a notice of proposed rule making (CGFR 71-66) on July 10, 1971 (36 F.R. 12989). One comment was received but offered no objection.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by adding a new § 117.775(b) (2-a) to read as follows:

§ 117.775 Grays Harbor and tributaries, Washington; bridges.

(b) * * *

(2-a) Riverside Avenue (Sixth Street) Bridge across Hoquiam River, Hoquiam; two long blasts of whistle followed quickly by two short blasts.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g) (2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g) (2); 49 CFR 1.46(c) (5), 33 CFR 1.05-1(c) (4) (35 F.R. 15922))

Effective date. This revision shall become effective on October 7, 1971.

Dated: September 2, 1971.

Chapter 5A—Federal Supply Service, General Services Administration

PART 5A-1—GENERAL

Required Price Certification

The table of contents of Part 5A-1 is amended to add the following new entries.

Sec.	
5A-1.321	Stabilization of prices, rents, wages, and salaries.
5A-1.321-1	Solicitations (IFB/RFP).
5A-1.321-2	Notification of contractors.

5A-1.321-4	Violations.
5A-1.321-5	Payments.
5A-1.321-6	Imprest funds.
5A-1.321-7	Execution of certification.
5A-1.321-70	Reporting.

Subpart 5A-1.3—General Policies

Sections 5A-1.321 through 5A-1.321-7 and 5A-1.321-70 are added as follows:

§ 5A-1.321 Stabilization of prices, rents, wages, and salaries.

(a) Executive Order 11615, dated August 15, 1971, provides for the stabilization of prices, rents, wages, and salaries, in order to stabilize the economy, reduce inflation, and minimize unemployment. Pursuant to the order, prices charged for commodities and services shall be stabilized for a period of 90 days from the date of the order at levels not greater than the highest of those pertaining to a substantial volume of actual transactions of each individual, business, firm, or other entity of any kind during the 30-day base period (July 16, 1971, through August 14, 1971) in which transactions did occur. This order also established a Cost of Living Council with overall responsibility for the general administration of the wage-price freeze; however, the continuing responsibility for planning, implementation, and the monitoring to insure compliance will be carried out by the Office of Emergency Preparedness.

(b) This section prescribes procedures for carrying out the purpose of the Executive order and shall apply to all procurements of the Federal Supply Service.

§ 5A-1.321-1 Solicitations (IFB/RFP).

(a) The following price certification shall be included in all solicitations (invitations for bids and requests for proposals) and resulting contracts, excluding small purchases under \$2,500 (see 5A-1.321-1(b)).

PRICE CERTIFICATION

(a) By submission of this bid (offer) bidder (offeror) certifies that he is in compliance and will continue to comply with the requirements of Executive Order 11615, August 15, 1971, and for the duration thereof, and further certifies that the prices bid (offered) herein either conform to the requirements of Executive Order 11615 or shall be reduced accordingly at the time of any billings that are made during the effective period of the Executive Order.

(b) Prior to the payment of invoices under this contract, the Contractor shall place on, or attach to, each invoice submitted the following certification:

I hereby certify that amounts invoiced herein do not exceed the lower of (1) the contract price, or (2) maximum levels established in accordance with Executive Order 11615, dated August 15, 1971.

(c) The Contractor agrees to insert the substance of this clause, including this paragraph (c), in all subcontracts for supplies or services issued under this contract.

(b) The following price certification shall be included in all solicitations involving small purchases under \$2,500 and in all purchase orders issued pursuant to small purchase procedures (§ 5A-3.6). When the solicitation is made by telephone, the offeror shall be advised of the above mandatory requirements to be included in any resulting contract or purchase order and that failure to accept will result in rejection of the offer (for purchases made with imprest funds see § 5A-1.321-6).

PRICE CERTIFICATION (SMALL PURCHASES)

(a) By submission of this offer, offeror certifies that he is in compliance and will continue to comply with the requirements of

Executive Order 11615, August 15, 1971, for the duration thereof, and further certifies that the prices offered herein conform to the requirements of Executive Order 11615.

(b) Prior to payment of invoices under this contract, contractor must place on, or attach to, each invoice submitted the following certification:

I hereby certify that amounts invoiced herein do not exceed the lower of (i) the contract price, or (ii) maximum levels established in accordance with Executive Order 11615, August 15, 1971.

(c) Payments will not be made on invoices unless certification, as prescribed above, has been completed.

§ 5A-1.321-2 Notification of contractors.

Contracting Officers shall notify all contractors with existing contracts of the change in certification requirements as set forth in § 5A-1.321-1.

§ 5A-1.321-3 Absence of certification in solicitations.

(a) In formally advertised procurements, invitations for bids which do not include the certification shall be amended to include the certification where there is sufficient time to amend the invitation prior to the time (including permissible time extensions) set for the opening of bids.

(b) In negotiated procurements where awards have not been made, requests for proposals shall be amended to include the certification.

(c) Where invitations for bids or requests for proposals include the certification requirement and bidders and offerors decline to comply with the certification, their bids and offers shall be deemed to be nonresponsive.

(d) In formally advertised procurements, where the invitation for bids did not include the certification requirement and the requirement was not included by an amendment of the invitation, awards shall be made in accordance with established procedures. Prior to award, however, such bidders shall be notified that they will be subject to the procedures of the applicable price certification prescribed in § 5A-1.321-1.

§ 5A-1.321-4 Violations.

Reported and suspected violations of Executive Order 11615, which are brought to the attention of contracting personnel, shall be reported through channels to the Commissioner, FSS.

§ 5A-1.321-5 Payments.

Contractor invoices which do not contain the certification prescribed by this section will not be paid by GSA payment offices.

§ 5A-1.321-6 Imprest funds.

Individuals authorized to place imprest fund orders shall not place such orders with concerns which are in known violation of Executive Order 11615. Further, such individuals shall report violations in accordance with § 5A-1.321-4.

§ 5A-1.321-7 Execution of certification.

Invoices need not be signed by contractors executing the certification in order to satisfy the certification requirements of § 5A-1.321-1.

§ 5A-1.321-70 Reporting.

Procurement Offices shall report weekly all nonresponsive bids (offers), by reason of failure to provide the certification required, to the Assistant Commissioner for Procurement, FSS.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5-1.101(c))

Effective date. This regulation is effective on the date shown below.

Title 49—TRANSPORTATION

Chapter III—Federal Highway Administration, Department of Transportation

SUBCHAPTER B—MOTOR CARRIER SAFETY REGULATIONS

[Docket No. MC-12; Notice No. 71-28]

PART 392—DRIVING OF MOTOR VEHICLES

PART 393—PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

Safe Loading of Motor Vehicles

On September 22, 1969, the Federal Highway Administrator announced that he was considering revisions of §§ 392.9 and 393.85 of the Motor Carrier Safety Regulations (34 F.R. 15255). Those sections deal with safe loading of motor vehicles and protection against shifting or falling cargo, respectively. The Administrator proposed the revisions in order to protect against the self-evident hazards resulting from improper loading of cargo and the risk that it may shift on vehicles in transit or fall off those vehicles. As noted in the preamble to the notice of proposed rule making, the problems are particularly critical in the case of vehicles transporting metals and articles fabricated from metals.

Although the rules have been changed in several respects from the published proposals, in the main they reflect a continued conviction that major revisions of the existing regulations are warranted at this time. After studying the available data, including comments on the proposed revisions, the Director has concluded that the public interest in motor vehicle safety requires the issuance of improved requirements relating to safe loading and protection against shifting or falling cargo.

Comments on the proposal reflected general acceptance of the proposed revision of § 392.9 (safe loading). However, several persons suggested that the responsibility of the driver to check the manner in which his vehicle is loaded and to assure that the loading has been done properly should be set forth more explicitly and in a manner which makes it clear that those duties cannot be passed off to others. The suggestion has been accepted. At the same time, the Director

has determined that there are circumstances in which a driver cannot practically ascertain whether his vehicle is properly loaded (as is the case when he is assigned to operate a sealed truck). In those circumstances, the driver is relieved from responsibility for determining that the vehicle is safely loaded, and the obligation to do so has been imposed on the shipper or motor carrier, whichever undertakes to load the vehicle. Finally, the rule relating to the driver's duty to examine the vehicle's cargo while in transit and to take appropriate measures to assure that the load remains properly secured has been modified. Under the modified rule, the driver must check and, if necessary, adjust his load when he makes a change of duty status or after each 3 hours or 150 miles of driving, whichever is the earliest.

A large number of adverse comments on the proposed revision of § 393.85 stemmed from misinterpretation of its language rather than dissent from its substance. For example, paragraph (b) of the proposed § 393.85 specified that cargo must be restrained by the sides, sideboards, or stakes and the rear end-gate, endboard, or stakes of the vehicle, by tiedown devices, or by similar means of protecting against shifting cargo. Many interested persons drew the unwarranted conclusion that all, rather than only one, of these techniques were mandatory. The Bureau was asked, for instance, how a cattle hauler was to tie down his loads. He was not required to do so, of course; but neither was he free to transport them on a completely open vehicle. The paragraph has been revised in an effort to avoid any chance of ambiguity and to make it clear that carriers may choose any one of the three specified methods of preventing shifting or falling of cargo in transit.

Several substantive changes have been made in § 393.85(c), which specifies general requirements for devices used to secure loads. Under the proposal, every fastening device would have had to meet the strength requirements for type 1001 or type 2001 chain, having withstood a minimum test load of 16,200 pounds. In response to comments on this feature of the proposal, the Director has revised the requirements to allow use of tiedown assemblies having, either individually or in the aggregate, a minimum breaking strength at least equal to 1½ times the weight of the articles they secure. At the same time, chain components of tiedown assemblies are required to meet the National Association of Chain Manufacturers' specification for welded chain, and steel strapping must conform to the applicable General Services Administration's Federal Specification. The purpose of these changes is to allow for flexibility and innovation in fitting tiedown techniques and materials to the nature and risks of the particular type of cargo being transported, while, at the same time, insuring that those techniques and materials will conform to minimum standards for the protection of the public on the highways.

The requirement for tiedown devices to be adjustable by a driver while the

vehicle is in transit has been retained. The only exception to this rule deals with steel strapping which, by its nature, can neither be tightened nor loosened once it has been installed. In all other cases, the Director sees nothing impracticable or incongruous in requiring carriers to make it possible for drivers to fulfill the obligation to tighten loose tiedowns imposed on them by § 392.9 (b).

Under the proposal, blocking and bracing, when required, and bulkheads protecting drivers and other cab occupants from shifting loads had to be capable of preventing forward movement or penetration of cargo when the vehicle is subjected to a 1 g. deceleration. In response to comments, the Director has again analysed the validity and usefulness of these requirements. He has concluded that, except as noted below, the interests of safety require some sort of shielding between the driver and the cargo, and that both the shield (now denominated a "front-end structure") and mandatory blocking and bracing should be capable of withstanding loadings fairly representative of the forces that may act upon them during emergency application of the brakes. Accordingly, those items are required to withstand the forces imposed by the vehicle's cargo when the vehicle decelerates at a rate of 20 feet per second per second.

The exemptions to the requirements for front-end structures have been expanded, principally by excluding a larger class of towed vehicles in circumstances where the structure of the towing vehicle, or cargo carried on that vehicle, provides sufficient protection for the driver and other cab occupants.

There were few adverse comments on paragraph (f) of the proposed revision of § 393.85. Several persons said that tiedown assemblies used to secure metal articles should not be restricted to chains or cables. The Director agrees, and he has used the generic term "tiedown assembly" in places where chain or cable was referred to in the proposed § 393.85 (f). The extension of the special rules for coiled metals to include rolls has been deleted. This was done in response to comments pointing out that the term "roll" has a trade usage in the metals industry that is different from the meaning intended when the proposal was drafted. One comment suggested that the definition of the term "nominal," used in referring to timber sizes, should be amended to allow a one-half inch bevel on one edge of the timber. The bevel is made so that a timber used for bracing will perform that job better. Under its present wording, the rule is construed to permit use of timbers that have been beveled in that manner. Hence, no change in the definition is deemed necessary.

In consideration of the foregoing, §§ 392.9 and 393.85 of the Motor Carrier Safety Regulations (Subchapter B of Chapter III in Title 49, CFR) are revised to read as set forth below.

Effective dates. The revision of § 392.9 is effective on July 1, 1972. The revision of § 393.85 is effective on

January 1, 1973, except for paragraph (e) of § 393.85, which is effective on the dates specified in § 393.85(e)(7)(ii).

(Sec. 204, Interstate Commerce Act, as amended, 49 U.S.C. 304; sec. 6, Department of Transportation Act, 49 U.S.C. 1655; and delegations of authority by the Secretary of Transportation and Federal Highway Administrator, 49 CFR 1.48 and 49 CFR 389.4)

Issued on September 13, 1971.

ROBERT A. KAYE,
Director,

Bureau of Motor Carrier Safety.

I. Section 392.9 of the Motor Carrier Safety Regulations (49 CFR 392.9) is revised to read as follows:

§ 392.9 Safe loading.

(a) *General.* No person shall drive a motor vehicle and a motor carrier shall not require or permit a person to drive a motor vehicle unless—

(1) The vehicle's cargo is properly distributed and adequately secured as specified in § 393.85 of this subchapter;

(2) The vehicle's tailgate, tailboard, doors, tarpaulins, its spare tire and other equipment used in its operation, and the means of fastening the vehicle's cargo are secured; and

(3) The vehicle's cargo or any other object does not obscure the driver's view ahead or to the right or left sides, interfere with the free movement of his arms or legs, prevent his free and ready access to accessories required for emergencies, or prevent the free and ready exit of any person from the vehicle's cab or driver's compartment.

(b) *Drivers of trucks and truck tractors.* Except as provided in subparagraph (4) of this paragraph, the driver of a truck or truck tractor must—

(1) Assure himself that the provisions of paragraph (a) of this section have been complied with before he drives that vehicle;

(2) Examine the vehicle's cargo and its load-securing devices within the first 25 miles after beginning a trip and cause any adjustments to be made to the cargo or load-securing devices (other than steel strapping) as may be necessary to maintain the security of the vehicle's load; and

(3) Reexamine the vehicle's cargo and its load-securing devices periodically during the course of transportation and cause any adjustments to be made to the cargo or load-securing devices (other than steel strapping) as may be necessary to maintain the security of the vehicle's load. A periodic reexamination and any necessary adjustments must be made—

(i) When the driver makes a change of his duty status; or

(ii) After the vehicle has been driven for 3 hours; or

(iii) After the vehicle has been driven for 150 miles, whichever occurs first.

(4) The rules in this paragraph do not apply to the driver of a sealed vehicle who has been ordered not to open it to inspect its cargo or to the driver of a vehicle that has been loaded in a manner that makes inspection of its cargo

impracticable, if the shipper of the cargo or the motor carrier has given the driver a written receipt stating that the vehicle has been loaded in compliance with § 393.85 of this subchapter. The person who gives the driver such a receipt is responsible for the loading of the vehicle in compliance with § 393.85 of this subchapter. The driver must retain the receipt during the course of transportation.

(c) *Buses.* No person shall drive a bus and a motor carrier shall not require or permit a person to drive a bus unless—

(1) All standees on the bus are rearward of the standee line or other means prescribed in § 393.90 of this subchapter;

(2) All aisle seats in the bus conform to the requirements of § 393.91 of this subchapter; and

(3) Baggage, freight, or express on the bus is stowed and secured in a manner which assures—

(i) Unrestricted freedom of movement to the driver and his proper operation of the bus;

(ii) Unobstructed access to all exits by any occupant of the bus; and

(iii) Protection of occupants of the bus against injury resulting from the falling or displacement of articles transported in the bus.

II. Section 393.85 of the Motor Carrier Safety Regulations (49 CFR 393.85) is revised to read as follows:

§ 393.85 Protection against shifting or falling cargo.

(a) *General.* Except as provided in paragraph (g) of this section, each truck, truck tractor, semitrailer, full trailer, or pole trailer shall, when transporting cargo, be loaded and equipped to prevent the shifting or falling of the cargo in the manner prescribed by the rules in this section.

(b) *Basic protection components.* Each cargo-carrying vehicle must be equipped with devices providing protection against shifting or falling cargo that meet the requirements of either subparagraph (1), (2), or (3) of this paragraph.

(1) The vehicle must have sides, sideboards, or stakes, and a rear endgate, endboard, or stakes. Those devices must be at least as high as the height of the cargo and strong enough to assure protection against shifting cargo. They must have no aperture large enough to permit cargo in contact with them to pass through it.

(2) The vehicle must have at least one tiedown assembly that meets the requirements of paragraph (c) of this section, for each 10 linear feet of lading or fraction thereof. (However, a pole trailer or an expandable trailer transporting metal articles as described in paragraph (f) of this section is required only to have two or more of such tiedown assemblies at each end of the trailer.) In addition, the vehicle must have as many additional tiedown assemblies meeting the requirements of paragraph (c) of this section as are necessary to secure all cargo being transported either by direct contact between the cargo and the tiedown assemblies or by dunnage

which is in contact with the cargo and is secured by tiedown assemblies.¹

(3) The vehicle must have other means of protecting against shifting cargo which are similar to, and at least as effective as, those specified in subparagraph (1) or (2) of this paragraph.

(c) *Securement systems.* Tiedown assemblies (including chains, cables, steel straps, and fiber webbing), other securement devices, and attachment or fastening devices used in conjunction therewith, which are used to secure cargo under the rules in this section must conform to the following requirements:

(1) *Tiedown assemblies.* The aggregate static breaking strength of the tiedown assemblies used to secure an article against movement in any direction must be at least 1½ times the weight of that article. Each tiedown assembly must be permanently identified with the manufacturer's distinctive mark or symbol at linear intervals of 5 feet or less and must be marked with its maximum breaking strength. If chain is used as a component, of a tiedown assembly, the chain must conform to the requirements for type 1001 or type 2001 chain set forth in the 1969 edition of the National Association of Chain Manufacturers' Welded Chain Specifications.² If steel strapping is used as a component of a tiedown assembly, the steel strapping must conform to Federal Specification No. QQ-S-781 (1969).³ Steel strapping that is 1 inch wide or more must have at least two seals at each end, and each seal must have at least two pairs of crimps.

(2) *Load binders and hardware.* The minimum breaking strength of load binders and hardware that are part of a tiedown assembly must be at least equal to the minimum required breaking strength of the assembly specified in subparagraph (1) of this paragraph. A load binder or item of hardware used in conjunction with a tiedown assembly must be marked with its manufacturer's name or trademark and its minimum breaking strength.

(3) *Attachment to the vehicle.* The hook, bolt, weld, or other connector by which a tiedown assembly is attached to a vehicle, and the mounting place and means of mounting the connector, must be at least as strong as the tiedown assembly when that connector is loaded in any direction in which the tiedown assembly may load it.

(4) *Winches and other fastening devices.* The anchorages of winches or other fastening devices mounted on a

vehicle and used in conjunction with a tiedown assembly must have a combined tensile strength at least twice the minimum breaking strength of the tiedown assembly.

(5) *Adjustability.* A tiedown assembly and its associated connectors and attachment devices must be designed, constructed, and maintained so that the driver of an in-transit vehicle can tighten them. However, the rules in this subparagraph do not apply to a securement system in which the tiedown assembly consists of steel strapping or to a tiedown assembly which is not required by the rules in this section.

(d) *Blocking and bracing.* (1) When a vehicle carries cargo that is not firmly braced against a front-end structure that conforms to the requirements of paragraph (e) of this section, the cargo must be secured so that it will not move forward relative to the vehicle when the vehicle decelerates at a rate of 20 feet per second per second or less.

(2) When a vehicle carries cargo that may shift sideways in transit, the cargo must be either securely blocked or braced against the sides, sideboards, or stakes of the vehicle or secured by devices which conform to the requirements of paragraph (b) (2) or (3) of this section.

(e) *Front-end structure—(1) General.* Except as provided in subparagraph (7) of this paragraph, on and after the effective dates specified in that subparagraph, every cargo-carrying vehicle must have a front-end structure that conforms to the requirements of this paragraph.

(2) *Location.* The front-end structure must be located between the vehicle's cargo and the vehicle's driver.

(3) *Height and width.* The front-end structure must extend either to a height of 4 feet above the floor of the vehicle or to a height at which it blocks forward movement of any item of cargo being carried on the vehicle, whichever is lower. The front-end structure must have a width which is at least equal to the width of the vehicle or which blocks forward movement of any item of cargo being transported on the vehicle, whichever is narrower.

(4) *Strength.* The front-end structure must be capable of withstanding a horizontal forward static load equal to one-half of the weight of the cargo being transported on the vehicle distributed equally over the entire portion of the front-end structure that is within 4 feet above the vehicle's floor or that is at or below a height above the vehicle's floor or that is at or below a height above the vehicle's floor at which it blocks forward movement of any item of the vehicle's cargo, whichever is less.

(5) *Penetration resistance.* The front-end structure must be designed, constructed, and maintained so that it is capable of resisting penetration by any item of cargo that contacts it when the vehicle decelerates at a rate of 20 feet per second. The front-end structure must have no aperture large enough to permit

any item of cargo in contact with the structure to pass through it.

(6) *Substitute devices.* The requirements of this paragraph may be met by the use of devices performing the same functions as front-end structures, if the devices are at least as strong as, and provide protection against shifting cargo at least equal to, front-end structures which conform to those requirements.

(7) *Exemptions, application, and effective dates.* (i) The following motor vehicles are exempt from the rules in this paragraph:

(a) A vehicle which is designed and used exclusively to transport other vehicles, if each vehicle it transports is securely tied down by devices that conform to the requirements of paragraph (c) of this section.

(b) A pole trailer or semitrailer being towed by a truck tractor that is equipped with a front-end structure that conforms to the requirements of this paragraph.

(c) A full trailer being towed by a vehicle that is equipped with a front-end structure that conforms to the requirements of this paragraph.

(d) A fall trailer being towed by a vehicle that is loaded in such a manner that the cargo on the towing vehicle conforms to the requirements of this paragraph for a front-end structure.

(ii) This paragraph applies to cargo-carrying vehicles which are not exempted by subdivision (i) of this subparagraph and which are manufactured on and after July 1, 1973. On and after July 1, 1974, subparagraphs (1), (2), (3), and (6) of this paragraph apply to cargo-carrying vehicles which are not exempted by subparagraph (7)(i) of this paragraph and which were manufactured before July 1, 1973. Subparagraphs (4) and (5) of this paragraph do not apply to vehicles manufactured before July 1, 1973.

(f) *Metal articles—(1) General requirements.* Cargo consisting of metal articles must be secured as specified in this paragraph and in paragraphs (a)–(e) of this section.

(2) *Coils.* Whenever a motor carrier transports one or more coils of metal which, individually or as a combination banded together, weigh 5,000 pounds or more, the coils shall be secured in the following manner:

(i) Coils with eyes vertical: One or more coils which are grouped and loaded side by side in a transverse or longitudinal row must be secured by—

(a) A tiedown assembly against the front of the coil or row of coils, restraining against forward motion;

(b) A tiedown assembly against the rear of the coil or row of coils, restraining against rearward motion; and

(c) A tiedown assembly over the top of each coil or transverse row of coils, restraining against vertical motion.

The same tiedown assembly shall not be used to comply with more than one of the requirements of (a), (b), or (c) of this subdivision.

¹Tiedown assemblies or dunnage in contact with sufficient exterior (including top-most) pieces of the cargo and securely holding each interior or lower piece comply with this requirement.

²Copies of these specifications may be secured by writing to the National Association of Chain Manufacturers, 111 West Washington Street, Chicago, IL 60602.

³Copies of this specification may be secured from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

COILS - EYE VERTICAL

(ii) Coils with eyes crosswise: Each coil or transverse row of coils loaded side by side and having approximately the same outside diameters must be secured by—

(a) A tiedown assembly through the eye of each coil, restricting against forward motion and making an angle of less than 45° with the horizontal when viewed from the side of the vehicle;

(b) A tiedown assembly through the eye of each coil, restricting against rearward motion and making an angle of less than 45° with the horizontal when viewed from the side of the vehicle; and

(c) Timbers, having a nominal cross section of 4 x 4 inches or more and a length which is at least 75 percent of the width of the coil or row of coils, tightly placed against both the front and rear sides of the coil or row of coils and restrained to prevent movement of the coil or coils in the forward and rearward directions.

(d) If coils are loaded to contact each other in the longitudinal direction and relative motion between coils, and between coils and the vehicle, is prevented by chains and timbers—

(1) Only the foremost and rearmost coils must be secured with timbers; and

(2) A single tiedown assembly, restricting against forward motion, may be used to secure any coil except the rearmost one, which must be restrained against rearward motion.

COILS - EYE CROSSWISE

(iii) Coils with eyes lengthwise: A coil or transverse row of coils having approximately equal outside diameters and loaded side by side or a longitudinal row of coils having approximately equal outside diameters and loaded end to end must be secured as follows:

(a) The coil or coils must be restrained against side-by-side and fore-and-aft movement by—

(1) One or more tiedown assemblies over the top of each coil or transverse row; or

(2) Two or more tiedown assemblies through the eye of each coil or longitudinal row; or

(3) One or more tiedown assemblies, crossing from one side of the vehicle to the other, through the eye of each coil or longitudinal row of coils in a transverse row.

(b) Timbers having nominal cross section of 4 x 4 inches or more must be tightly placed against the sides of each coil or against the outboard sides of each transverse row of coils which are loaded side by side so that the timbers restrain against side-to-side movement.

(c) If, in accordance with (a) (1) of this subdivision, only one tiedown assembly over the top of each coil or transverse row of coils is used to restrain against side-to-side movement and fore-and-aft movement, timbers having a nominal cross section of 2 x 4 inches or more and which are firmly secured to longitudinal blocking must be tightly placed against the front and back of each coil, each longitudinal row of coils, and each transverse row of coils in a manner which restricts forward and rearward movement.

COILS - EYE LENGTHWISE

(iv) Timber which is used for blocking must be sound lumber which is free of defects (such as knots or cracks) that materially reduce its strength.

(v) Timbers need not be used on vehicles which have depressions in the floor or are equipped with other restraining devices which perform the functions specified for timbers by the rules in this section.

(vi) As used in this section, the term "nominal," when used to describe timber, means commercially dressed sizes generally designated by the dimensions indicated.

(3) *Miscellaneous metal articles.* Except as provided in subdivision (iv) of this subparagraph, whenever a motor carrier transports metal articles consisting of cut-to-length bars, plates, rods, sheet and tin mill products, billets, blooms, ingots, slabs, structural shapes, or pipe and other tubular products and those articles, either individually or as a combination of articles banded or boxed together and handled as a single unit, weigh more than 2,000 pounds, the articles shall be secured in the following manner:

(1) A single article, a group of articles, or a combination of articles loaded side by side across the width of the vehicle must be secured by at least one tiedown assembly over its top for at least every

8 feet of its length and at least two tiedown assemblies securing each individual article or combination of articles banded or otherwise secured together and handled as a single unit. However, articles which individually have a length of 8 feet or less and which are securely butted against each other in the fore-and-aft direction may be secured by metal angles secured by tiedown assemblies, or they may be secured by a timber having a nominal cross section of 4 x 4 inches or more placed longitudinally over the articles and secured by tiedown assemblies. Tiedown assemblies may not be located beyond the ends of the article which they secure.

(ii) If articles are tiered and each tiered article rests securely on the one beneath it, the tier may be secured in the same manner as a single level of those articles is secured in accordance with the rules in this section.

(iii) Pole trailers must either comply with the requirements of subdivisions (i) and (ii) of this subparagraph or have at least two tiedown assemblies securing the load to the forward bolster and at least two tiedown assemblies securing the load to the rear bolster.

(iv) The rules in this subparagraph do not apply to special loads consisting of machinery or fabricated structural items, such as beams, girders, and trusses, which are fastened by special methods. However, those loads must be securely and adequately fastened to the vehicle.

(g) *Exemption.* The rules in this section do not apply to a vehicle transporting one or more articles which, because of their size, shape, or weight, must be carried on special purpose vehicles or must be fastened by special methods. However, any article carried on that vehicle must be securely and adequately fastened to the vehicle.

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Merritt Island National Wildlife Refuge, Fla.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (9-23-71).

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

FLORIDA

MERRITT ISLAND NATIONAL WILDLIFE REFUGE

Public use on the Merritt Island National Wildlife Refuge, Titusville, Fla., is

permitted only on the areas designated as open to public use. These open areas, comprising 47,481 acres, are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Portions of the area open to public use may be closed from time to time without prior notice due to security requirements deemed necessary by the Director, John F. Kennedy Space Center, Fla. Public use shall be in accordance with all local, State, and Federal laws, ordinances, and regulations except for the following special conditions:

(1) The refuge is open to public use activities only from 1 hour before sunrise until 1 hour after sunset.

(2) Firearms, spears, bows and arrows, and other types of weapons are not permitted on the refuge except when specifically authorized in conjunction with refuge hunting programs.

(3) Air thrust boats are not permitted on the refuge.

(4) Conservation oriented camping is permitted on the refuge only with advance written authorization from the refuge manager.

(5) Fires are permitted only in approved sections of the designated campgrounds.

(6) Picnicking is permitted only in designated areas.

(7) Swimming on the refuge is permitted only from specifically designated portions of the ocean beach.

(8) On the ocean barrier beach area, motor vehicles, including dune buggies and two-wheel vehicles, are not permitted off of the paved road or designated parking areas.

The provisions of this special regulation supplement the regulations which govern public use on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective until revoked.

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Salt Plains National Wildlife Refuge, Okla.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (9-23-71).

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

OKLAHOMA

SALT PLAINS NATIONAL WILDLIFE REFUGE

Retrieving zones of approximately 100 yards in width are established immediately inside the exterior refuge boundary at certain locations as designated by

signs. These retrieving zones are delineated on maps available at refuge headquarters, Jet, Okla., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. A hunter may enter these retrieving zones to retrieve dead or crippled waterfowl which he has legally killed or crippled by hunting outside the refuge boundary but which have fallen inside the exterior boundary of the refuge and within the designated retrieving zones. The use of dogs and the possession of firearms or weapons inside the exterior boundary of the refuge and in the authorized retrieving zones is prohibited.

The provisions of this special regulation supplement the regulations which govern public access, use, and recreation on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through January 8, 1972.

PART 32—HUNTING

Prime Hook National Wildlife Refuge, Del.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (9-23-71).

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

DELAWARE

PRIME HOOK NATIONAL WILDLIFE REFUGE

The public hunting of waterfowl, rails, coots, gallinules, Wilson's snipe, woodcock, and mourning doves on Prime Hook National Wildlife Refuge is permitted within the regularly established 1971-72 Waterfowl Hunting Season of the State of Delaware, but only within the 2,526-acre waterfowl hunting area as delineated on a map available at the refuge headquarters, Rural Delivery No. 1, Box 195, Milton, DE 19968 and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, MA 02109.

Hunting shall be in accordance with all applicable Federal and State regulations covering the hunting of migratory birds subject to the following special conditions:

(1) A Federal permit is required to enter the waterfowl hunting area. Permits may be obtained in person at the combined Federal-State checking station, intersection of Routes 5 and 14, from 2 hours before legal shooting time until 3 p.m., e.s.t., throughout the hunting season, and surrendered at the checking station within 1 hour after the close of legal shooting hours.

(2) Hunting shall be only from blinds at locations designated by refuge personnel. The possession of a loaded gun

or shooting outside of a blind while hunting migratory game birds is prohibited. Three hunters per blind permitted.

(3) Access to the waterfowl hunting area will be at the refuge headquarters, and other designated access points.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1972.

Title 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Emergency Preparedness

[OEP Economic Stabilization Reg. 1, Circular No. 15]

SUPPLEMENTARY GUIDANCE FOR APPLICATION

Economic Stabilization Circular No. 15

This circular is designed for general information only. The statements herein are intended solely as general guides drawn from OEP Economic Stabilization Regulation No. 1 and from specific determinations and policy statements by the Cost of Living Council and do not constitute legal rulings applicable to cases which do not conform to the situations clearly intended to be covered by such guides.

NOTE: Provisions of this and subsequent circulars are subject to clarification, revision, or revocation.

This 15th circular covers determinations and policy statements by the Council through September 20, 1971.

APPENDIX I

ECONOMIC STABILIZATION CIRCULAR NO. 15

100. Purpose. (1) On August 15, 1971, President Nixon issued Executive Order No. 11615, as amended, providing for stabilization of prices, rents, wages, and salaries and establishing the Cost of Living Council, a Federal agency. The order delegated to the Council all of the powers conferred on the President by the Economic Stabilization Act of 1970, as amended. The effective date of the order was 12:01 a.m., August 16, 1971.

(2) By its Order No. 1 the Council delegated to the Director of the Office of Emergency Preparedness authority to administer the program for the stabilization of prices, rents, wages, and salaries as directed by section 1 of Executive Order No. 11615, as amended.

(3) The purpose of this circular, the 15th in a series to be issued, is to furnish further guidance to Federal officials and the public in order to promote the program.

200. Authority. Relevant legal authority for the program includes the following:

- The Constitution.
- Economic Stabilization Act of 1970, Public Law 91-379, 84 Stat. 799; Public Law 92-15, 85 Stat. 38.
- Executive Order No. 11615, as amended, 36 F.R. 15127, August 17, 1971.
- Cost of Living Council Order No. 1, 36 F.R. 16215, August 20, 1971.
- OEP Economic Stabilization Regulation No. 1, as amended, 36 F.R. 16515, August 21, 1971.

300. General guidelines. (1) The guidance provided in this circular is in the nature of additions to or clarifications of previous determinations and policy statements by the Cost of Living Council covered in previous OEP Economic Stabilization Circulars.

(2) The numbering system used in this circular corresponds to that used in OEP Economic Stabilization Circular No. 101.

304. Medicare. (1) All medical fees for individual services, including those covered by Medicare, are frozen.

Medicare is an insurance program. Thus Medicare payments to physicians, hospitals, and others providing medical services are not prices but are, like other insurance settlements, reimbursements not subject to the freeze.

305. Medicaid. (1) Medicaid is a public assistance program and, accordingly, Medicaid payments are not frozen. However, payment schedules established during the base period for medical services provided under the Medicaid program are considered to be prices and are frozen. In effect, then, the Medicaid reimbursements (per unit of service) based on these payment schedules are frozen.

400. Price guidelines.

403. Specific guidelines. (1) Tuition, room and board—additional guidelines: For Cost of Living Council purposes, increases in school tuition and room and board have been treated as complete transactions if payments of any form were received from students after announcement of increased rates. This treatment of the student-school relationship is unique to tuition and room and board transactions and does not apply to any other form of transactions.

Schools generally offer a package of services (tuition, room and board) and where all three are offered as a combined package, and increases in rates were announced prior to August 15 and payments were received prior to August 15 but after the increases were announced, the increase may remain in effect for the school year. The substantial transaction test may be met by one deposit or payment if it represented at least 10 percent of the transactions made during the base period.

However, where tuition, room and board are offered as separate services, the following applies: If increases for each were announced prior to August 15, and deposits received for each after announcement of the increase but prior to August 15, then each of the service rate increases may remain in effect. If only one of the services (say tuition) met this criteria, then only the increased rates for that service can be charged.

RULES AND REGULATIONS

The interpretation for room charges applies only to university-owned or controlled housing operated exclusively for student housing in the manner of dormitories (as evidenced by school-year, semester, or quarter, lump-sum rates covering room). University-owned or operated apartments, houses, trailers or other accommodations in which separate units are leased or rented in the manner of commercially owned rental units (e.g., monthly rental payments, annual leases or month-to-month tenancies) are subject to the regulations on rental housing, and rental rates are determined on an apartment-by-apartment basis according to the rate prevailing in the base period, just as in the case of rental property generally.

The use of prior announcement and payment to show completion of transactions results from the unique arrangement schools have with their enrolled students. Although the level of service performed by schools varies with the school year, certain year-round services are available to enrolled students, i.e., access to research facilities (libraries), administrative support, student guidance activities, etc.

(2) Meat cutters who priced and sold meat on an individual basis during the base period may not price those same types of cuts on a carcass basis during the freeze. The ceiling price for individual cuts can be no higher than that during the base period.

Marketers who priced and sold on a carcass basis during the base period may continue to sell on a carcass basis during the freeze.

Sales may be made at the highest price at which a substantial volume of actual transactions was made during the base period.

Note: This paragraph supersedes paragraph 401(f) in OEP Economic Stabilization Circular No. 14.

404. *Prices on imports.* (1) Fluctuations in international exchange rates: As previously ruled, an import price increase due to a change in the world market price may be passed on so long as the product is neither physically transformed by the seller nor incorporated as a component of another product.

An import price increase due to appreciation in the value of a foreign currency in relation to the dollar is treated in exactly the same way as an increase arising from changes in world market prices.

These provisions apply only to import transactions that took place after August 15. They do not apply to goods in inventory on that date.

Sellers of imported goods who pass on price increases to their customers must maintain adequate records to document the increases and must, on request, provide this information to buyers. Such increases may be passed on only cent for cent, and markups may not be increased.

Note: See paragraph 404(6) of OEP Economic Stabilization Circular No. 101.

Note: Changes in prices arising from appreciation in the value of a foreign currency

in relation to the dollar and changes instituted by foreign suppliers are treated differently from the supplemental duty (the import surcharge) in two respects:

(a) The surcharge may be passed on to the final customer even when the import is transformed or incorporated into another product.

(b) Sellers who pass on the surcharge must show the amount of the surcharge on the sales ticket or invoice, with the exception that retailers may elect to follow an alternate procedure.

(2) Indication of import surcharge passed on to the consumer: As previously stated, sellers who do not absorb the total amount of surcharge on imported goods must show on sales tickets or invoices the exact cent for cent amount that is passed on to the consumer. As an alternative, firms selling at retail to final consumers will be in compliance if all of the following conditions are met:

(a) Mark the price tag, or use a distinctive colored price tag, to indicate that the price of the item includes a portion or all of the import surcharge (Exhibit A).

(b) Post in a prominent place in the store at least one sign (minimum of 30" x 40"), plus a readily visible sign at each cash register explaining the marking procedure and stating that the amount of the duty passed on to the consumer is available on request (Exhibit B).

(c) When the amount of the surcharge included in the price is not immediately available in the store, a form letter should be provided upon request informing the customer of the amount of supplemental duty (Exhibit C).

The import surcharge may be passed through even if the import is transformed or incorporated into another product.

(3) Where there is a fixed price contract between an importer and his purchaser, the importer may add the import surcharge to his price only if the purchaser agrees.

406. Government-regulated industries.
(1) Public utilities that delivered service prior to the freeze under a set established formula can collect for the delivered services under that formula even though delayed billing practices result in bills not being sent out until September. The effective price under which it was shipped during the base period sets the ceiling price. The date of billing is not the controlling factor.

(2) Public utility tariff changes which may result in increased charges (e.g., an increase in penalty for unauthorized overruns) will not be allowed to become effective during the period of the freeze. The answer is the same even though the penalty may have been waived in the past.

407. Commodities and services. (1) Dues are a fee for service, and as such are frozen under Executive Order No. 11615 and OEP Economic Stabilization

Regulation No. 1, as amended. Examples are dues for membership in professional associations, trade associations, unions, and country clubs.

(2) Prices charged for advertising (publishing, television, and radio, etc.) and prices of newspapers, books, magazines, etc., are subject to the freeze.

NOTE: The above paragraphs (1) and (2) are the same as paragraphs 401(a) and 401 (b) in OEP Economic Stabilization Circular No. 5 which were inadvertently omitted from OEP Economic Stabilization Circular No. 101.

500. Wage and salary guidelines.

502. Specific guidelines. (1) Wages paid to workers transferred from a plant or office that has been closed to a different geographical location may be paid up to the ceiling that applies to the job at the new location. The freeze applies to the job, not to the worker.

(2) An employee, when returning from a leave of absence should be paid at the rate currently being paid for the job he is to occupy. The employee is in effect being rehired to fill a job for which there is an established rate if it were to be filled by a new employee.

(3) The wages received by a clergyman represent salary paid for the performance of a service. He is a salaried employee of his congregation, and his salary, along with his fringe benefits, are frozen. Contributions freely given to the individual clergyman by members of his congregation or other persons, however, are allowed because they have nothing to do with his basic compensation and are gifts.

504. Fringe benefits—(1) Pension benefits. An employer may increase contributions to a pension fund during the freeze, if that increase is used to fund benefit increases that were effective or declared prior to August 15. This is true regardless of when increased benefits are to go into effect. Employers may not increase pension contributions to finance benefit increases announced during the freeze.

Employers may pay increased benefits scheduled to go into effect during the freeze to all retired employees eligible to receive the increase, including employees who retire during the freeze. However, after August 15, employers may not make new benefits increases to go into effect during the freeze.

600. Rent guidelines.

601. General. (1) Section 2(c) of Economic Stabilization Regulation No. 1 contains the general cover-all statement: "No person shall offer, demand, or receive any rent higher than the maximum rent prevailing for the same or comparable property for a substantial number of transactions during the base period." The section 2(c) "comparable property" test should only be applied to newly constructed housing and to existing property which has never been rented before.

For existing, previously rented property, rents cannot be increased over the level charged for the same property during the base period. Section 3(b) is a detailed statement of the policy for previously rented property: "Rents. The ceiling rent for commercial property, housing accommodations, hotels, motels, rooming houses, farms, and other establishments, together with all privileges, services, furnishings, furniture, equipment, facilities, improvements, and any other privileges connected with the use thereof shall be no greater than the highest rent charged for the same property during the base period. If the property was not rented during the base period, the ceiling price shall be no higher than the highest rent charged during the nearest preceding 30-day period prior to the base period. If the property was never previously rented, the ceiling rent shall be no higher than the ceiling rent charged for similar or comparable property in the locality or area."

1001. Effective date. This circular, unless modified, superseded, or revoked, is effective on the date of publication for a period terminating at midnight of November 13, 1971.

RECORDKEEPING

Use of Microfilm

Notice is hereby given, in accordance with the Administrative Procedure Provisions of 5 U.S.C. section 553, that the Secretary of Agriculture, pursuant to the authority of sections 4, 4g, 4i, 5, and 5a of the Commodity Exchange Act (7 U.S.C. 6, 6g, 6i, 7 and 7a) is considering revising § 1.31 of the general regulations under the Commodity Exchange Act (17 CFR 1.31) to read as follows:

§ 1.31 Books and records; keeping and inspection.

(a) All books and records required to be kept by the Act or by these regulations shall be kept for a period of 5 years from the date thereof and shall be readily accessible during the first 2 years of the 5-year period. All such books and records shall be open to inspection by any representative of the U.S. Department of Agriculture or the U.S. Department of Justice.

(b) Reproductions on microfilm may be substituted for hard copy as follows:

(1) Computer, accounting machine or business machine generated records may be immediately produced or reproduced on microfilm and kept in that form;

(2) For all other books and records, microfilm reproductions thereof may be substituted for the hard copy for the final 3 years of the 5-year period.

(c) If such microfilm substitution for hard copy is made, the person required to keep such records shall:

(1) At all times have available for examination of his records facilities for immediate, easily readable projection of the microfilm and for producing easily readable facsimile enlargements;

(2) Arrange, index and file the films in such a manner as to permit the immediate location of any particular record; and

(3) Be ready at all times to provide, and immediately provide, at the expense of the person required to keep such records, any facsimile enlargement of such records which any representative of the United States Department of Agriculture or United States Department of Justice may request.

The purpose of the proposed revision is to provide conditions under which books and records required to be kept under the Commodity Exchange Act may be maintained and preserved in the form of microfilm in lieu of hard copy paper printout.

It is proposed that this revision be made effective 30 days after publication of a notice of revision in the FEDERAL REGISTER.

Any person who wishes to submit written data, views, or arguments on the proposed revision may do so by filing them with the Administrator, Commodity Exchange Authority, U.S. Department of Agriculture, Washington, DC 20250, within 30 days after publication of this notice in the FEDERAL REGISTER.

All written submissions made pursuant to this notice will be available for public inspection in the Office of the Administrator, Commodity Exchange Authority, U.S. Department of Agriculture, Washington, D.C. 20250, between the hours of 8:30 a.m. and 5 p.m. on any business day.

Proposed Expenses and Rate of Assessment

Consideration is being given to approval of the proposed expenses and rate of assessment, hereinafter set forth, which were recommended by the South Texas Lettuce Committee, established pursuant to Marketing Agreement No. 144 and Marketing Order 971 (7 CFR Part 971). This marketing order program regulates the handling of lettuce grown in the Lower Rio Grande Valley in south Texas and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with these proposals may file the same with the Hearing Clerk, Room 112-A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than the 15th day after publication in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). The proposals are as follows:

§ 971.211 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period August 1, 1971, through July 31,

1972, by the South Texas Lettuce Committee for its maintenance and functioning and for such purposes as the Secretary determines to be appropriate will amount to \$23,500.

(b) The rate of assessment to be paid by each handler in accordance with the marketing agreement and this part shall be one cent (\$.01) per carton of lettuce handled by him as the first handler thereof during said fiscal period.

(c) Unexpended income in excess of expenses for the fiscal period ending July 31, 1972, may be carried over as a reserve.

(d) Terms used in this section have the same meaning as when used in the said marketing agreement and this part.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674).

Dated: September 17, 1971.

EMPLOYMENT OF STUDENT LEARNERS

Work Experience and Career Exploration Programs

Pursuant to authority in section 14 of the Fair Labor Standards Act of 1938 (29 U.S.C. 214), Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp. p. 1004) and Secretary's Orders Nos. 13-71 and 15-71 (36 F.R. 8755-6) I propose to amend Part 520 of Title 29 of the Code of Federal Regulations. These amendments would provide for the inclusion of temporary certificates for the employment of minors between the ages of 14 to 16 years who are enrolled in and employed pursuant to an experimental school administered work experience and career exploration program within the purview of § 1500.35a of this title. The proposed termination date of August 31, 1972 of this amendment would coincide with the expiration date of § 1500.35a. This proposal would become new § 520.12.

The Secretary of Labor has found that the employment of minors between 14 and 16 years of age in approved experimental school supervised and school administered work experience and career exploration programs meeting the requirements of § 1500.35a does not interfere with the schooling of minors or with their health and well-being and is not deemed to be oppressive child labor (29 CFR 1500.35a). It has been urged that authorization of sub-minimum wages (corresponding to those which may be permitted to be paid to older students in vocational education programs) for underage minors employed in such programs is needed in

some cases to prevent the curtailment of opportunities for employment.

Interested persons are invited to submit written data, views or arguments regarding the proposed amendment to the Administrator of the Wage and Hour Division, U.S. Department of Labor, Washington, D.C. 20210, within 15 days after the date of publication of this notice in the FEDERAL REGISTER.

The new § 520.12 would read as follows:

§ 520.12 Work experience and career exploration programs.

(a) Notwithstanding the provisions of § 520.2 and paragraphs (a), (c), (d), and (e) of § 520.5, applications for student-learner certificates may be made and temporary subminimum wage authority provided and certificates issued pursuant to §§ 520.3 and 520.4 and paragraphs (b) and (f) through (1) of § 520.5, for minors who are 14 or 15 years of age who are enrolled in and employed pursuant to an experimental school supervised and school administered work experience and career exploration program which meets the requirements of § 1500.35a of this title.

(b) This section shall terminate and have no force and effect after August 31, 1972.

(Sec. 14, 52 Stat. 1068, as amended; 29 U.S.C. 214)

Signed at Washington, D.C., this 15th day of September 1971.

HORACE E. MENASCO,

USE OF IMPACT-RESISTANT LENSES IN EYEGLASSES AND SUNGLASSES

Testing and Record Requirements

On the basis of a proposal published in the FEDERAL REGISTER of October 2, 1970 (35 F.R. 15402), as amended by a publication of November 6, 1970 (35 F.R. 17116), the Commissioner of Food and Drugs published in the FEDERAL REGISTER of May 15, 1971 (36 F.R. 8939), a statement of general policy (21 CFR 3.84) regarding impact-resistant lenses in eyeglasses and sunglasses. In the light of additional inquiries and comments received from representatives of the ophthalmic community and the consumer community, the Commissioner has concluded that this statement of policy requires certain additions and deletions and proposes to revise § 3.84 as follows:

1. In the interest of accuracy and uniformity, it is proposed that § 3.84(d), which provides important test methodol-

ogy information, be amended to require that the total weight of the base plate and its rigidly attached fixtures be not less than 27 pounds, that an appropriate tube be used for lenses of small minimum diameter, that the neoprene gasket employed be securely bonded to the lens support, and that lens fractures include a laminar layer, where present. Additionally, since raised ledge multifocal lenses are irreparably damaged by the drop ball test, it is proposed that after initial design testing such lenses will not be tested; however, these lenses are subject to this regulation and are required to be impact-resistant. The Commissioner also proposes that provision be made for plastic prescription and non-prescription lenses to be tested at the point of original manufacture.

2. It is proposed that § 3.84(e) be revised to require that certain necessary business records of sale and distribution be kept and maintained for 3 years in lieu of coding which is found to be impracticably complex and is deleted.

3. It is proposed that § 3.84(f) be revised to require that all persons conducting tests in accordance with paragraph (d) keep and maintain test results for 3 years and make these results available to the Food and Drug Administration upon request.

4. It is proposed that § 3.84(g) be revised to assure that importers will make test data available to the Food and Drug Administration upon request.

5. It is proposed, consistent with the language of the November 6, 1970, FEDERAL REGISTER announcement (35 F.R. 17116), that § 3.84(h) be revised to clearly indicate that all lenses manufactured after December 31, 1971, must be impact-resistant except when the physician or optometrist finds that such lenses will not fulfill the visual requirements of a particular patient.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502(j), 701(a), 52 Stat. 1051, 1055; 21 U.S.C. 352(j), 371(a)) and under authority delegated to him (21 CFR 2.120), the Commissioner of Food and Drugs proposes that § 3.84 be amended by revising paragraphs (d), (e), (f), (g), and (h) to read as follows:

§ 3.84 Use of impact-resistant lenses in eyeglasses and sunglasses.

* * * * *

(d) The physician or optometrist shall have the option of ordering heat-treated glass lenses, plastic lenses, laminated glass lenses, or glass lenses made impact resistant by other methods; however, all such lenses must be capable of withstanding an impact test in which a 5/8-inch steel ball weighing approximately 0.56 ounce is dropped from a height of 50 inches upon the horizontal upper surface of the lens. The ball shall strike within a 5/8-inch diameter circle located at the geometric center of the lens. The ball may be guided, but not restricted, in its fall by being dropped through a tube extending to within approximately 4 inches of the lens. In order to pass the test, the lens must not fracture (for the

purpose of this section, a lens will be considered to have fractured if it cracks through its entire thickness, including a laminar layer, if any, and across a complete diameter into two or more separate pieces or if any lens material visible to the naked eye becomes detached from the ocular surface). The test shall be conducted with the lens supported by a tube (1-inch inside diameter, 1¼-inch outside diameter, and approximately 1-inch high) affixed to a rigid iron or steel base plate. The total weight of the base plate and its rigidly attached fixtures shall be not less than 27 pounds. For lenses of small minimum diameter, a tube having an outside diameter of less than 1¼-inches may be used. The tube shall be made of rigid acrylic plastic, steel, or other suitable substance and shall have securely bonded on the top edge a ½-by-½-inch neoprene gasket having a hardness of 40±5, as determined by ASTM Method D 1415; a minimum tensile strength of 1,200 pounds, as determined by ASTM Method D 412; and a minimum ultimate elongation of 400 percent, as determined by ASTM Method D 412. The diameter and/or contour of the lens support may be modified as necessary so that the ½-by-½-inch neoprene gasket supports the lens at its periphery. Each finished impact-resistant glass lens for prescription use shall be subjected to the impact test prescribed by this paragraph. Raised ledge multifocal lenses must be impact-resistant but need not be tested beyond initial design testing. To demonstrate that all other types of impact-resistant lenses (including impact-resistant laminated glass lenses) are capable of withstanding this impact test, the manufacturer of such lenses shall subject to the impact test a statistically significant sampling of lenses from each production batch, and the lenses so tested shall be representative of the finished forms as worn by the wearer (including finished forms that are of minimal lens thickness and have been subjected to any treatment used to impart impact resistance). Plastic prescription and nonprescription lenses, tested on the basis of statistical significance, may be tested in uncut finished or semi-finished form at the point of original manufacture. This statement of policy will be appropriately amended to provide for use of alternate methods of testing the impact resistance of lenses if it can be shown that the alternate method is equal to or superior to the method prescribed in this paragraph.

(e) Copies of invoice(s), shipping document(s), and records of sale or distribution of all impact-resistant lenses (including finished eyeglasses and sunglasses) shall be kept and maintained for a period of 3 years.

(f) In addition, those persons conducting tests in accordance with paragraph (d) of this section, shall keep and maintain the results thereof for a period of 3 years. Such records and results shall be made available upon request at all reasonable hours by any officer or employee of the Food and Drug Administration or by any other officer or em-

ployee acting on behalf of the Secretary of Health, Education, and Welfare and shall permit such officer or employee to inspect and copy such records, to make such inventories of stock as he deems necessary, and otherwise to check the correctness of such inventories.

(g) For the purpose of this section, the term "manufacturer" includes an importer for resale. Such importer may have the tests required by paragraph (d) of this section conducted in the country of origin but must make the results thereof available to the Food and Drug Administration, as soon as practicable, upon request.

(h) The transition to impact-resistant lenses must start immediately and be completed as promptly as possible; however, to provide for the development of an adequate supply of impact-resistant lenses and to facilitate an orderly change over to these lenses, the effective date of this statement of policy will be December 31, 1971. After that date all lenses manufactured must be impact-resistant, except when the physician or optometrist finds that impact-resistant lenses will not fulfill the visual requirements of a particular patient.

Interested persons may, within 15 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments can be seen in the above office during working hours, Monday through Friday.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 71-WA-6]

TERMINAL CONTROL AREA

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the New York, N.Y., Terminal Control Area (TCA) by raising the floor from 800 feet MSL to 1,200 feet MSL in a small area immediately west of the Linden, N.J., airport.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications

should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, NY 11430. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As a result of the Federal Aviation Administration's continuous study of all TCAs, it now appears that the TCA imposed airspace restriction over Linden airport can be relaxed with no diminution of safety and in the interest of more efficient use of the airspace. This proposed action would provide additional airspace for aircraft operating to and from Linden airport and would not adversely affect the operation of aircraft within the TCA.

The airspace action proposed in this docket would alter the New York, N.Y. terminal Control Area as follows:

1. In Area B, "Areas C and D" is deleted and "Areas C, D, and J" is substituted therefor.

2. Area C is amended to read "That airspace extending upward from above 800 feet MSL to and including 7,000 feet MSL within a 6.5-mile radius circle centered at lat. 40°41'30" N., long. 74°10'00" W., and bounded by a line beginning at the point where the 6.5-mile radius circle intersects U.S. Highway No. 1, thence northeast along U.S. Highway No. 1 to its point of intersection with a 4-mile radius circle centered at lat. 40°41'30" N., long. 74°10'00" W., at the Esso Research Center, thence direct to the Public Service power plant, thence direct to the Staten Island Expressway at its point of intersection with the 4-mile radius circle, thence east via the Staten Island Expressway to Richmond Avenue, thence south along Richmond Avenue to the 6.5-mile radius circle, thence clockwise along the 6.5-mile radius circle to the point of beginning."

3. In Area E, "Area F" is deleted and "Areas F and J" is substituted therefor.

4. In Area G, "Area H" is deleted and "Areas H and J" is substituted therefor.

5. Area J is added as follows:

"That airspace extending upward from above 1,200 feet MSL to and including 7,000 feet MSL within a 6.5-mile radius circle at lat. 40°41'30" N., long. 74°10'00" W., and bounded by a line beginning at the intersection of the 6.5-mile radius circle and the tracks of the Central Railroad of New Jersey, thence eastward along the railroad tracks to their point of intersection with the 4-mile radius

circle centered at lat. 40°41'30" N., long. 74°10'00" W., thence counterclockwise along the 4-mile radius circle to U.S. Highway No. 1, thence southwest along U.S. Highway No. 1 to the 6.5-mile radius circle, thence clockwise along the 6.5-mile radius circle to the point of beginning."

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on September 21, 1971.

On August 25, 1971, the Hazardous Materials Regulations Board published Docket No. HM-90; Notice No. 71-24, Specifications for Tank Cars (36 F.R. 16680). In § 179.103 *Special requirements for class 114A * * * tank car tanks*, a new § 179.103-5 *Bottom outlets*, was inadvertently proposed. This section has no meaning as bottom outlets are prohibited on this class of cars by § 179.101-1. This proposal is therefore confusing and may be misleading.

Accordingly, § 179.103-5 is hereby deleted from the subject notice.

U.S. PASSPORTS FOR TRAVEL INTO OR THROUGH CUBA

Restriction on Use

Pursuant to the authority of Executive Order 11295 and in accordance with 22 CFR 51.72(c), use of U.S. passports for travel into or through Cuba is restricted as unrestricted travel into or through Cuba would seriously impair the conduct of U.S. foreign affairs. To permit unrestricted travel would be incompatible with the resolutions adopted at the Ninth Meeting of Consultation of Ministers of Foreign Affairs of the Organization of American States, of which the United States is a member. At this meeting, held in Washington from July 21 to 26, 1964, it was resolved that the governments of the American States not maintain diplomatic, consular, trade or shipping relations with Cuba under its present government. This resolution was reaffirmed in the Twelfth Meeting of Ministers of Foreign Affairs of the OAS held in September 1967, which adopted resolutions calling upon Member States to apply strictly the recommendations pertaining to the movement of funds and arms from Cuba to other American nations. Among other things, this policy of isolating Cuba was intended to minimize the capability of the Castro government to carry out its openly proclaimed programs of subversive activities in the hemisphere.

U.S. passports shall not be valid for travel into or through Cuba unless specifically validated for such travel under the authority of the Secretary of State.

This public notice shall expire at the end of 6 months from the date of publication in the FEDERAL REGISTER unless extended or sooner revoked by public notice.

Effective date. This notice becomes effective on September 16, 1971.

Restriction on Use

Pursuant to the authority of Executive Order 11295 and in accordance with 22 CFR 51.72(c), use of U.S. passports for travel into or through North Korea is

restricted as unrestricted travel into or through North Korea would seriously impair the conduct of U.S. foreign affairs. In view of the expressed virulent hostility of the North Korean regime toward the United States, the provocation by North Korea of incidents along the military demarcation line, and the special position of the Government of the Republic of Korea which is recognized by resolution of the United Nations General Assembly as the only government in Korea, the Department of State believes that wholly unrestricted travel by American citizens to North Korea would seriously impair the conduct of U.S. foreign affairs.

U.S. passports shall not be valid for travel into or through North Korea unless specifically validated for such travel under the authority of the Secretary of State.

LEON AUSTIN

Notice of Granting of Relief

Notice is hereby given that Leon Austin, Route 1, Box 145, Bernice, LA, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on April 10, 1939, in the U.S. District Court, Western Judicial District of Louisiana, Monroe, La., of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Leon Austin because of such conviction, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., appendix), because of such conviction, it would be unlawful for Leon Austin to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Leon Austin's application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code: *It is ordered*, That Leon Austin be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Notice is hereby given that I have considered Alfred George Davis III's application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code:

It is ordered, That Alfred George Davis, III be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 15th day of September 1971.

EDWIN J. DUMSTORFF**Notice of Granting of Relief**

Notice is hereby given that Edwin J. Dumstorff, Rural Route, Minburn, IA, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his convictions on August 16, 1960, by the Kossuth County Court, Algona, Iowa; April 17, 1962, by the Cerro Gordo County Court, Iowa, of crimes punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Edwin J.

Dumstorff because of such convictions, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such convictions, it would be unlawful for Edwin J. Dumstorff to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Edwin J. Dumstorff's application and:

(1) I have found that the convictions were made upon charges which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the convictions and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code and delegated to me by 26 CFR 178.144: *It is ordered*, That Edwin J. Dumstorff be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the convictions hereinabove described.

Signed at Washington, D.C., this 10th day of September 1971.

MARSHALL FALCONER**Notice of Granting of Relief**

Notice is hereby given that Marshall Falconer, 924 Calvert, Detroit, MI, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on August 8, 1967, in the U.S. District Court for the Eastern District of Michigan, Southern Division, of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Marshall Falconer because of such conviction, to ship, transport or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code as a firearms or ammunition importer, manufacturer, dealer or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it

would be unlawful for Marshall Falconer to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Marshall Falconer's application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code: *It is ordered*, That Marshall Falconer be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

NICHOLAS WILLIAM PALAGE

Notice of Granting of Relief

Notice is hereby given that Nicholas William Palage, 5035 Kingston Way, San Jose, CA, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on January 9, 1967, in the U.S. District Court for the Northern District of California, of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Nicholas Palage, because of such conviction, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it would be unlawful for Nicholas Palage to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Nicholas Palage's application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That Nicholas Palage be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 10th day of September 1971.

MICHAEL FRANKLIN POTTER

Notice of Granting of Relief

Notice is hereby given that Michael Franklin Potter, 511½ East Madison Street, Eau Claire, WI 54701, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his convictions on April 3, 1968, and on May 12, 1969, in the Eau Claire County Court, Eau Claire, Wis., of crimes punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Michael Franklin Potter because of such convictions, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such convictions, it would be unlawful for Michael F. Potter to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Michael F. Potter's application and:

(1) I have found that the convictions were made upon charges which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the convictions and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code: *It is ordered*, That Michael F. Potter be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the convictions hereinabove described.

Signed at Washington, D.C., this 14th day of September 1971.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Colorado 13276]

COLORADO

Notice of Proposed Withdrawal and Reservation of Lands

SEPTEMBER 15, 1971.

The Bureau of Land Management of the Department of the Interior has filed an application for the withdrawal of the lands described below from all forms of appropriation under the public land laws, including the general mining laws but not the mineral leasing laws subject to valid existing rights.

The applicant desires the land for wildlife and waterfowl habitat sites.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, CO 80202.

The Department's regulations (43 CFR 2451.4(c)) provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved are:

[OR 7963]

OREGON

Notice of Proposed Withdrawal and Reservation of Land

SEPTEMBER 15, 1971.

The Department of Agriculture, on behalf of the National Park Service, has filed application, OR 7963, for the withdrawal of the national forest land described below, from all forms of appropriation under the mining laws (30 U.S.C. ch. 2), but not from leasing under the mineral leasing laws, subject to valid existing rights.

The applicant desires the land for use as an administrative site for residence purposes by National Park Service personnel involved with the administration of the Oregon Caves National Monument.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 729 Northeast Oregon Street, Post Office Box 2965, Portland, OR 97208.

The authorized officer of the Bureau of Land Management will undertake

such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the land for purposes other than the applicant's, to eliminate land needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the land and its resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the land will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The land involved in the application is:

ANIMAL AND PLANT HEALTH
SERVICE**

**Notice of Proposed Transfer of Assign-
ments of Functions and Delegation
of Authority**

In accordance with Reorganization Plan No. 2 of 1953, and in order to afford interested persons and groups an opportunity to place before the Department their views with respect to the proposed action, the Department is giving advance public notice of a proposed transfer of assignment of functions and delegations of authority and the establishment of a new agency.

1. *Purpose.* The U.S. Department of Agriculture in carrying out its responsibilities to protect the animal and plant resources of the Nation:

Makes surveys to detect harmful pests and diseases;

Established programs to control, contain, and eradicate animal and plant health problems;

Operates a port of entry inspection and quarantine program to prevent the introduction of harmful pests and diseases into the United States;

Undertakes emergency programs to control and eradicate emergency outbreaks of animal and plant diseases, insects and nematodes;

Certifies plants and plant products for export;

Administers laws and regulations to protect and insure the welfare and humane care of transported livestock and certain laboratory animals;

Directs efforts to prevent the production and interstate distribution of worthless or harmful veterinary biologics;

Checks the effect of the use of herbicides and pesticides on the environment;

Cooperates closely with State and local agencies and with foreign governments in these programs.

These programs are of extreme importance to insuring a stable and consistent supply of wholesome food and fiber products and to the overall economy of our Nation.

2. *Functions to be transferred.* In a continuing effort to more effectively carry out and to give increased emphasis to these programs, it is proposed to establish a new Agency, the Animal and Plant Health Service.

This new Agency, which shall be headed by an Administrator, will report to the Director of Science and Education.

All those functions, responsibilities and delegations of authorities relating to the regulatory and control programs of the Agricultural Research Service, as previously delegated to the organizational components of the Agricultural Research Service listed below, would be transferred to the Director of Science and Education and may be delegated by him to the Administrator of the new Animal and Plant Health Service:

Office of the Associate Administrator—Regulatory and Control.

Office of the Deputy Administrator for Plant Protection and Quarantine.

Office of the Deputy Administrator for Veterinary Services.

Plant Protection Division.
Agricultural Quarantine and Inspection Division.

Animal Health Division.
Veterinary Biologics Division.

3. *Management support activities.* All finance, budget, personnel, administrative services, information, and other management support activities presently performed by the Agricultural Research Service in the administration of the functions identified in section 2 above, will be transferred to the Animal and Plant Health Service.

In order to be considered, views and comments of the interested persons and groups must be received by the Secretary by October 22, 1971. All written submissions made pursuant to this notice will be made available for public inspection at the office of the hearing clerk during regular business hours (7 CFR 1.27(b)).

Done at Washington, D.C., this 21st day of September 1971.

J. PHIL CAMPBELL,
Acting Secretary.

[Docket No. FDC-D-259; Various NDA's]

NEW-DRUG APPLICATIONS

Notice of Withdrawal of Approval

NOTE: This document which formerly appeared in the issue for Friday, August 6, 1971, is being reissued to correct various typesetting errors.

A notice of opportunity for hearing was published in the FEDERAL REGISTER on January 13, 1971 (36 F.R. 454), extending to each holder of a "deemed approved" new-drug application listed herein, and to any interested person who might be adversely affected, an opportunity for hearing on the proposal of the Commissioner of Food and Drugs to issue an order under the provision of section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of such applications and all approved amendments and supplements thereto.

The objective of this action is to close a large number of new-drug files on drugs that have been discontinued or were never marketed. Withdrawal of approval of these applications is not for the purpose of classifying the products as new drugs or of applying the efficacy provisions of the Act to drugs of the same composition marketed by other firms.

The applicants listed below have either indicated that they will not avail themselves of the opportunity for a hearing or have not filed a written appearance of election within 30 days as provided by said notice for the new-drug applications listed herein. The failure to file such an appearance is construed as an election by such persons not to avail themselves of the opportunity for hearing.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505(e), 52 Stat. 1053, as amended; 21 U.S.C. 355(e)), and under authority delegated to the Commissioner (21 CFR 2.120), approval of the following new-drug applications, including all amendments and supplements thereto, is hereby withdrawn on the grounds that the applicants have repeatedly failed to make reports under section 505(j) of the Act (21 U.S.C. 355(j)) and 130.13 and 130.35 (e) and (f) of the new-drug regulations (21 CFR 130.13 and 130.35).

Office of Pipeline Safety

[Notice 71-4; Docket No. OPS-12]

GAS PIPELINE SAFETY STANDARDS

Petition for Waiver; Notice of Hearing

The United Gas Pipeline Company of Shreveport, La. (United) has petitioned for a waiver from the requirements of § 192.55 of the Federal safety standards for gas pipelines (49 CFR 192.55). Section 192.55 establishes the qualifications for steel pipe used in gas pipeline facilities.

United has 4,778 tons of 20" O.D. API 5LX 60 pipe in storage. This pipe was manufactured in accordance with the 1963 edition of API 5LX, an edition of that specification which is not listed in section I of Appendix B to Part 192. Consequently, in order for this pipe to be used in a gas pipeline facility, it would have to meet the requirements of section II of Appendix B, requirements which United feels are neither applicable, appropriate, nor necessary.

In support of the petition, United makes the following arguments:

Section 192.55 prohibits the use of pipe manufactured to API specifications adopted before the 1967 edition unless the pipe meets the requirements of Paragraphs II-A through II-D of Appendix B unless the pipe is to be a replacement in a line of pipe having the same manufacturing specification or unless it is to contain pressures which result in a hoop stress of less than 6,000 p.s.i.

For most applications, the pipe for which this waiver is requested would be required to meet the requirements of Paragraphs II-A through II-D of Appendix B.

Qualification of the pipe under Appendix B-II is not believed to be appropriate. Paragraph A of Appendix B-II, for example, is obviously not applicable because it would require weld flattening tests as specified in ASTM A-53. ASTM A-53, however, has no flattening tests for double submerged-arc welded pipe.

The ASTM flattening tests are intended to show weld ductility. Weld ductility for double submerged-arc welded pipe is adequately provided for in the approved API 5LX, 1967 edition in section 4.17, Submerged-arc Weld Test. This pipe has met the essentials of these DOT approved submerged-arc weld test requirements because there is no significant difference between the submerged-arc weld test requirements of the approved specification (1967 edition) and API 5LX, 1963 edition, under which this pipe was made. This is evident when section

4.18 of API 5LX, 1963 edition, is compared with section 4.17 of API 5LX, 1967 edition.

Furthermore, qualification of the weldability of this pipe under Paragraph B (Appendix B-II) is not appropriate because weldability of this pipe, as established by chemistry, is the same as that provided for in the approved 1967 edition of API 5LX. The chemistry specification for this pipe shown on the attached purchase order and provided for by API 5LX, 1963 edition, is compared to the chemistry specified for X-60 welded pipe in the approved API 5LX, 1967 edition, in the following table:

	Carbon, percent maximum	Manganese, percent maximum	Phosphate, percent maximum	Sulphur, percent maximum	Columbium, percent minimum
Subject pipe.....	0.26	1.35	0.04	.05	.005
1967 edition 5LX requirements.....	.26	1.35	.04	.06	.005

NOTE.—That the specifications are the same. It would seem improper, therefore, for a weldability test to be required for pipe having the same chemistry as that for which no test is required.

Qualification under Paragraph C would require visual inspection and there is no objection to this.

Paragraph D is not applicable because the strength of this pipe is known.

During and following manufacture, the subject pipe was inspected by Moody Engineering Co. for compliance with API 5LX and other purchase order requirements. After acceptance by Moody, it was shipped from the mill by rail in accordance with specifications of API 5L RP 5L1 as stated in attached letter from Kaiser. Obviously, the pipe was shipped before adoption of API 5L RP 5L1 but practices in some mills apparently predated adoption of the standard.

Circumstances later prevented use of this pipe, and in 1964 it was cleaned by shot-blasting and coated externally with standard coal tar pipeline primer, and was brush cleaned and coated internally with Napko's amine epoxy internal pipeline coating for protection against corrosion during storage. The pipe was racked in accordance with practices to minimize atmospheric corrosion attack which were later formalized in specifications shown on the attached Drawing UF 22242.

Storage maintenance has included supplementary coating of the inside of this pipe with an inhibited oil, repair of the external coating and reracking as required.

United has shown by proper documentation that qualifications of this pipe under Appendix B-II is not appropriate, except for Paragraph C, Inspection.

United believes that comparison of the approved 1967 edition of API 5LX and the non-approved 1963 edition of API 5LX will also show that there is no difference in the two specifications in essential points.

United, therefore, submits that the use of this pipe would not be inconsistent with pipeline safety because it was manufactured in accordance with specifications equivalent to the approved API 5LX specifications, 1967 edition.

In accordance with section 3(e) of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. 1672(e)), notice is hereby given that a hearing on the petition by United will be held at 10 a.m., on October 20, 1971, in Room 107, 400 Sixth Street SW., Washington, DC.

Interested persons are invited to present their views at the hearing or to submit them in writing by October 19, 1971, to the Office of Pipeline Safety, 400 Sixth Street SW., Washington DC 20590.

Issued in Washington, D.C., on September 20, 1971.

DELAWARE RIVER BASIN COMMISSION

COMPREHENSIVE PLAN

Notice of Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Thursday, September 30, 1971. The hearing will take place in Room 1600 of the Municipal Services Building, 15th and Kennedy Boulevard in Philadelphia, beginning at 3 p.m. The hearing will be on the following subjects:

A. A proposed fiscal year 1973 current expense budget in the amount of \$1,600,000 and a capital budget in the amount of \$27,000.

B. Proposals to amend the Comprehensive Plan so as to include the following water resources projects:

1. *Uwchlan Township Municipal Authority.* A sewage collection system to serve an ultimate population of 20,000 persons in Uwchlan Township, Chester County, Pa. Sewage will be conveyed to the Downingtown sewage treatment plant for treatment.

2. *Poconos Sewer Company.* A sewage collection and treatment system to serve "The Hideout" in Salem Township, Wayne County, Pa. About 95 percent of BOD₅ and 98 percent of phosphates will be removed from an average flow of 80,000 gallons per day. Discharge will be to Ariel Creek, a tributary of the Lackawaxen River.

3. *Tredyffrin Township Municipal Authority.* A sewage collection system serving Tredyffrin Township and several adjacent townships and boroughs. Sewage will be conveyed to the Valley Forge treatment plant. Treated effluent will be discharged to the Schuylkill River.

4. *University of Delaware and City of Newark.* A joint well water supply project sponsored by the University of Delaware and the city of Newark, Del. Three new wells will be provided in the vicinity of the university property and distribution will be through the existing Newark system. The three projects will provide a total average withdrawal of about 734,000 gallons per day.

5. *Lumberton Municipal Utilities Authority.* Construction of a sewage pumping and interceptor system to collect and convey sewage from Lumberton Township for treatment in a new regional facility located in Mount Holly Township, Burlington County, N.J. Treated discharge will be to the North Branch of Rancocas Creek.

6. *Greater Pottsville Area Sewer Authority.* (Main Treatment Plant.) A sewage collection and treatment system to serve the eastern portion of the city of Pottsville and several adjacent boroughs in Schuylkill County, Pa. The plant will treat 4.5 million gallons per day and will provide 90 percent removal of BOD₅. Effluent will be discharged to the Schuylkill River.

7. *Greater Pottsville Area Sewer Authority.* (West End Plant.) A sewage treatment plant to serve the western por-

tion of the city of Pottsville, Schuylkill County, Pa. The new facility will treat 500,000 gallons per day and will provide removal of 90 percent of BOD₅. Effluent will be discharged to the West Branch of the Schuylkill River.

8. *Bucks County Commissioners.* A project to collect and treat leachate at the Hidden Valley Landfill, Nockamixon Township, Bucks County, Pa. The facility will provide removal of 94 percent of BOD₅ from an estimated flow of 175,000 gallons per day. Effluent will be discharged into a tributary of Gallows Run.

9. *Malvern Municipal Authority.* Construction of a sewage collection and pumping system to serve the Borough of Malvern, Chester County, Pa. Sewage will be conveyed through adjacent systems and ultimately treated at the Valley Forge treatment plant. The new facility will provide service to approximately 10,000 persons in the Borough of Malvern. Treated effluent from the Valley Forge plant will be discharged to the Schuylkill River.

10. *East Whiteland Municipal Authority.* A sewage collection and pumping system to serve East Whiteland Township, Chester County, Pa. The new facility will also convey sewage from adjacent municipalities to the Valley Forge treatment plant. Service will be provided to an ultimate population of 38,000 persons. Treated effluent will discharge to the Schuylkill River.

11. *Easttown Municipal Authority.* A sewage collection and pumping system to serve Easttown Township, Chester County, Pa. Sewage will be conveyed through an adjacent township system for treatment in the Valley Forge treatment plant. Service will be provided to approximately 8,300 persons. Treated effluent will be discharged to the Schuylkill River.

12. *Evesham Municipal Utilities Authority.* A well water supply project to increase water supplies in the township of Evesham, Burlington County, N.J. A new well, designated as Well No. 4, will be utilized along with three existing wells to provide a maximum subsurface withdrawal of 55.5 million gallons per month.

13. *New Castle County Department of Public Works.* Construction of a temporary sewage treatment plant to eliminate potential overloading of the existing South Christiana interceptor line in New Castle County, Del. The plant will treat 1 million gallons per day and provide 90 percent removal of BOD₅. Treated effluent will discharge to None Such Creek. The facility will be replaced when adequate interceptors are constructed to carry flow to the Wilmington sewage treatment plant.

14. *Skippack Township Municipal Authority.* An extension of the Perkiomen Creek interceptor to serve Skippack Township, Montgomery County, Pa. The facility is designed to ultimately serve about 18,000 persons and will convey sewage to the Montgomery Township Sewer Authority's treatment plant. Treated effluent will be discharged to the Schuylkill River.

15. *Care Free Village.* A sewage collection and treatment project to serve Care Free Village Mobile Home Park and Shopping Center in North Whitehall Township, Lehigh County, Pa. The treatment project will remove 90 percent of BOD₅ from an average flow of 65,000 gallons per day. Treated effluent will be discharged to the Lehigh River.

16. *South Fallsburg Water District.* A well water supply project to increase public water supplies in the South Fallsburg Water District in Sullivan County, N.Y. Capacity of Well No. SF7 will be increased from 400 to 700 gallons per minute. Total diversion from all District wells will be limited to an average of 2.3 million gallons per day.

17. *West Whiteland Township Municipal Authority.* A sewage collection and pumping project to serve West Whiteland Township, Chester County, Pa. The project will also convey sewage from Uwchlan Township for treatment at the Downingtown sewage treatment plant. Service will be provided to 7,000 persons initially in the township. Treated effluent will ultimately be discharged to the East Branch Brandywine Creek.

18. *Washington Township Board of Education.* A well water supply project to provide irrigation water for use by the Washington Township Board of Education in Gloucester County, N.J. Diversion will be limited to a maximum of 3,640,000 gallons per month. The water will be used to irrigate athletic fields.

A summary of the proposed 1973 budget is available from the Commission upon request. Documents relating to the other items on the hearing notice may be examined at the Commission's offices. All persons wishing to testify are requested to register in advance with the Secretary to the Commission.

W. BRINTON WHITALL,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

ETHEPHON

Notice of Establishment of Temporary Tolerance

Amchem Products, Inc., Ambler, Pa. 19002 submitted a petition requesting a temporary tolerance for residues of the plant regulator ethephon ((2-chloroethyl) phosphonic acid) in or on the raw agricultural commodity walnuts.

It has been determined that a temporary tolerance of 0.5 part per million for residues of the plant regulator in or on walnuts is safe and will protect the public health. It is therefore established on condition that the plant regulator be used in accordance with the temporary permit being used concurrently by the Environmental Protection Agency and which provides for distribution under the Amchem Products name.

This temporary tolerance expires September 15, 1972.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs of the Environmental Protection Agency (36 F.R. 9038).

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 2F1184) has been filed by TRW/Hazleton Laboratories, 9200 Leesburg Pike, Vienna, VA 22180 on behalf of Hollywood Termite Control Co., Inc., Post Office Box 469, Alhambra, CA 91802, proposing that § 420.225 *Aluminum phosphide; tolerances for residues* (21 CFR 420.225) be revised to provide for the fumigation of all nonperishable raw agricultural commodities by establishing a tolerance at 0.1 part per million for residues of phosphine from use of aluminum phosphide.

The analytical method proposed in the petition for determining residues of the fumigant is oxidation with bromine water to phosphoric acid, followed by colorimetric determination of phosphate ion.

CLARIFICATION OF ANTENNA PAINTING REQUIREMENTS

SEPTEMBER 16, 1971.

There appears to be a misunderstanding on the part of some licensees and tower erection and maintenance firms with respect to the manner of painting antenna structures.

Section 17.23 of the rules requires that antenna structures which come within the painting and lighting requirements of § 17.21(b) shall be painted alternate bands of aviation surface orange and white with orange bands at both top and bottom of the structure; and that the bands be equal in width and approximately one-seventh the height of the

structure. It provides further that the bands shall not be more than 100 feet nor less than 1½ feet in width.

The meaning of the above rule is that antenna structures up to and including 700 feet in overall height above ground should be painted with seven equal width bands, the width of each band to equal approximately one-seventh the height of the structure. Structures greater than 700 feet will require additional alternate orange and white bands in the ratio of two paint bands for each additional 200 feet, or fraction, of structure. A structure 1,223 feet above ground level, for example, would require 13 bands whereas a structure 1,323 feet high would require 15 bands. In all cases, international orange bands shall be applied at top and bottom of the structure.

Licensees are given until their structure(s) next requires painting to comply with § 17.23 but in no event later than November 1, 1977.

TRANSMISSION OF PROGRAM IDENTIFICATION PATTERNS

Temporary Standards Pending Action on Rule Amendments

SEPTEMBER 17, 1971.

1. On May 25, 1970, the Commission amended its rules governing the operation of television broadcast stations to permit the transmission of "coded patterns for the purpose of electronic identification of television broadcast programs and spot announcements". The pertinent rule (§ 73.682(a)(22)) restricts the transmission of such patterns to the first and last 10 microseconds of lines 21 through 23 and 260 through 262 (on a field basis), and limits the duration of each instance of code use to 1 second. Patterns transmitted in accordance with this standard would appear momentarily as small rectangular markers in the four corners of the transmitted picture, and would normally not be visible to the broadcast audience, because the viewing area of a television receiver, as usually adjusted, does not include the extreme edges of the transmitted picture. However, the transmitted patterns can be intercepted and used by special monitoring equipment.

2. After the effective date of the rule, International Digisonics Corp., which had petitioned for its adoption, undertook to provide a service to advertisers, advertising agencies, and other interested parties whereby those entities might be furnished, at periodic intervals,

¹ Commissioners Burch (Chairman), Bartley, Robert E. Lee, Johnson, H. Rex Lee, Wells and Houser.

lists showing the identity of television stations broadcasting commercial announcements, prepared by them or in their behalf, and the dates and times these announcements were broadcast. This information is obtained by largely automatic monitoring of television transmissions which include previously coded commercial material.

3. During the past year many coded commercials have been broadcast. However, in the implementation of IDC identification system, a serious and continuing problem has been experienced in achieving code transmissions in accordance with the Commission's rules. While these difficulties have been encountered almost entirely in connection with coded commercials on motion picture film, this is the medium used for recording the majority of all commercials.

4. Taking into account the fact that improper code transmissions apparently have not constituted a source of significant degradation of the television broadcast service, the Commission on previous occasions has afforded IDC an opportunity to identify and correct the factors responsible for code transmissions in violation of the rules. In the public notice of October 22, 1970 (FCC 70-1148), a relaxation of the rules was announced for a 3 month period, whereunder coded patterns broadcast by television stations would be permitted to occupy the first and last 10 microseconds of lines 21 through 25, and 258 through 262 of the transmitted picture. By public notice dated January 21, 1971 (FCC 71-72), the period during which the application of the rule was relaxed was extended an additional 3 months at IDC's request. IDC, at that time, reported progress in its efforts to resolve code transmission difficulties, but urged that additional time was necessary in which to effect corrective measures or formulate meaningful recommendations for a permanent solution of the problem. In granting this extension, however, the Commission directed IDC to submit progress reports at monthly intervals, and stated:

By the end of this period we expect IDC to be able to demonstrate conclusively that commercials currently being produced are being consistently and correctly coded and that the codes are regularly transmitted in accordance with the present rule, or would meet the rule if a specific tolerance is applied.

If a tolerance appears necessary, and is of reasonable size, the Commission will accept a petition for rule making looking toward any necessary rule amendment. In such circumstances, a still further extension of the present rule relaxation may be necessary for the duration of the proceeding. With this exception, we contemplate no further extension will be granted.

5. On April 12, 1971, IDC filed with the Commission the final of the reports required by the second public notice, a Petition for Rule Making proposing a specific amendment to § 73.682(a)(22) of the rules, and a request that the relaxation of the identification rule, modified from that prescribed in the aforementioned public notices, be continued until January 1, 1972.

6. The Commission on September 8, 1971, adopted a notice of proposed rule making in response to IDC's petition. Of immediate concern are the conditions applicable to the transmission of identification patterns during the course of the rule making proceeding.

7. However, in determining an appropriate *modus vivendi* for the interim period, it is necessary to consider IDC's proposal therefor in connection with its petition, its final report, and the timely pleadings filed by interested parties in response to the petition.

8. The amendment to section 73.682 (a) (22) of the rules proposed in the petition for rule making submitted by IDC reads as follows:

The first and last 10 microseconds of the first six field lines measured from the top of picture (as used in § 73.699, fig. 6) and the last six field lines measured from the bottom of picture (as used in § 73.699, Fig. 7) may contain identification patterns intended for the purpose of electronically identifying television program and commercial material. In order to allow for alignment tolerances, the patterns may occupy an additional three field lines at either the top or bottom of picture. No single transmission of these patterns shall exceed one second in duration. The transmission of these patterns shall not result in significant degradation of broadcast transmission.

9. Under this proposed rule, the identification patterns may occupy portions of as many as 15 field lines (6+6+3) in the transmitted picture, as compared to 6 permitted by the present rule (3+3), and 11 (6+5) pursuant to the relaxed standard applying since October 22, 1970.¹

10. It is essentially the transmission standard contained in their proposed rule amendment which IDC urges be observed during the coming months, but only with respect to commercials produced after April 1, 1971, a date after which IDC believes that a number of the measures it had introduced to insure tighter control of the factors affecting the production and transmission of coded film material will have taken full effect. It requests that no technical standard whatever be enforced in connection with the transmission of commercials produced prior to April 1. Alternatively, should the Commission not wish to differentiate between the transmission of commercials based on date of production, IDC suggests that we suspend the enforcement of any pattern identification transmission standard until January 1, 1972, by which date it expects all coded commercials which cannot be transmitted in accordance with the amended standard which it proposes will have been removed from circulation.

11. IDC would undertake to submit to the Commission at intervals of 60 days

¹ Presumably, the total line occupancy contemplated by the rule usually would not occur. If, for instance, the upper patterns intruded into the picture an additional three lines because of misalignment, only three field lines of the lower patterns would be transmitted.

during this period a status report on the pattern sizes of coded commercials currently being transmitted.

IDC proposes to reduce and finally eliminate commercials containing identification patterns which could not reasonably be expected to be broadcast within the standard of the proposed rule amendment by continued implementation of the improved quality control procedure described in the Third Interim Report and by the circulation among television licensees of a list of all commercials which have not been submitted by an advertiser for inspection by IDC or which have been reported as improperly coded.

12. From the standpoint of those concerned in the production and transmission of coded commercials, an interim relaxation of the nature proposed by IDC, of course, has much to recommend it. Film processors, advertisers, broadcasters, and IDC itself, are "taken off the hook", for a considerable period of time, and the transmission of commercials containing identification patterns may take place without fear of adverse Commission action, regardless of how greatly pattern transmissions deviate from the standard now set in our rules, or from any interim standard.

13. However, our adoption of such an interim relaxation would sanction a degradation of the television picture of greater or lesser degree for a period of many months. How much worse the situation would be than that which now exists, we do not know. It would appear that many broadcasters have been making a conscientious effort to eliminate commercials with patently defective pattern placement. The motivation for continuing this effort would be removed under the IDC proposal, with the likelihood that the number of improper pattern transmissions would increase, at least during a portion of the interim period. While, in the absence of complaints from viewers of picture degradation, this situation might be tolerated if we could look toward early compliance of all transmissions with a reasonable standard, what this standard is remains to be determined. IDC forecasts that by the end of this year pattern transmissions will meet the standard which it proposes in its petition for rule making. As compared to present § 73.682(a) (22), the proposal contemplates that the transmitted identification patterns may occupy at least twice as much raster area as permitted by the present rule. After a year of intensive effort by IDC to control and minimize sources of error, it would appear that its proposed rule specifies the minimum parameters IDC considers necessary to accommodate identification pattern transmissions under its system.

14. Nevertheless, in comments submitted in opposition to the IDC petition, the adequacy of even this standard is seriously questioned by broadcasters, who bear the final responsibility for meeting it, and the film laboratories which produce the coded film the broadcasters must use. These comments are supported

by detailed technical studies.² While it is not our intention to review these comments in detail at this time, we would note that a summary of the position of the Association of Cinema Laboratories (ACL), an organization purporting to represent 63 film processors, includes the following:

The present IDC code form and the present and proposed rule for its placement (i.e., by line number and microseconds) are basically incompatible with each other as applied to filmed material; further, the rules and procedures proposed by IDC are incompatible with present film characteristics as well as with existing practices in the film industry, which practices and characteristics are fully adequate for and consonant with the purposes for which they are intended.³

15. Among the conclusions reached by the National Association of Broadcasters (NAB), is the following:

The commercial firm coding technique is impractical from the viewpoint of meeting the requirements of the new rule, the temporarily relaxed specifications, or even those proposed in the latest IDC petition.

16. NAB urges that not only should the amendment of § 73.682(a) (22) sought by IDC be rejected, but the present rule itself be deleted. The general position of both parties, who presume to speak for the film processor and the broadcaster, is that the proper transmission of identification patterns placed on filmed commercials can be approached only through the exercise, in the production and use of such coded film, of a degree of precision quite beyond that necessary to insure program transmissions of good quality, and which is incompatible with the exigencies of day-to-day operation.

17. IDC replied to NAB, ACL, and other opposing parties in a pleading filed on June 1, 1971, submitting arguments and evidence for the purpose of refuting the positions taken by these parties, and supporting its contention that its system can be practicably effectuated and the deficiencies recounted by the opposing parties are substantially overstated.

18. The resolution of these conflicting views can only be made in the rule making proceeding. In the meantime, it is the responsibility of IDC to attempt to demonstrate conclusively that despite the serious questions raised by opposing parties it is possible to perform the visual program identification function within reasonable standards, with due

² While, in the proceeding which resulted in the adoption of § 73.682(a) (22), (Docket 18877), some parties questioned the technical feasibility of identification transmissions in accordance with the rule which we then proposed, this is the first occasion on which entities having such doubts have undertaken to support their opinions with substantial technical showings.

³ As a technical basis for its conclusions, ACL relies in large part on a study prepared by the Society of Motion Picture and Television Engineers (SMPTE) which was submitted to the Commission on Apr. 21, 1971. This study will be incorporated in the record of the forthcoming rule making proceeding.

regard to the practicalities of film laboratory and television station operation.

19. Pending the conclusion of rule making, we will observe the six line standard proposed by IDC, in which the field lines are measured from the top and bottom of the transmitted picture, but without the three line tolerance which IDC would superimpose. We emphasize that in doing this we are not prejudging the outcome of the rule making proceeding; we are recognizing the practicalities of the existing situation. We do not believe it is in the public interest, or that the resolution of this matter will be advanced if, as IDC suggests, we refrain from the imposition of any standard until January 1, 1972, or for the time required for the conclusion of the rule making proceeding, in effect allowing currently noncomplying commercials no matter how faulty, to be aired for an extended period of time.

20. Accordingly, we will expect pattern transmissions during this period to meet the interim standard set forth above. The broadcaster should take such reasonable precautions as he deems necessary, which may include prescreening of commercials, to insure that identification patterns will be transmitted within the picture areas specified. If he has doubt as to his ability to transmit properly particular commercials, he may choose not to transmit them, or he may adjust his telecine facilities so that the transmitted picture does not include the questionable identification patterns.

21. We are developing equipment for monitoring identification pattern transmissions, and may find it necessary to take appropriate enforcement action with respect to transmissions which depart substantially from the interim standard.

INFORMATIVE

The following guidelines are published to assist carriers in complying with the coordination requirements specified in § 21.100(d) of the Commission's rules which became effective on July 15, 1971, relative to all applications filed in the Point-to-Point Microwave Radio Service and the Local Television Transmission Service.

1. All applications or major amendments filed on or after July 15, 1971, must be coordinated with all carriers and applicants with pending applications (including domestic satellite applications) that could possibly be affected by the proposed change or proposed new facility.

2. Coordination involves two separate elements: Notification and response. Both or either may be oral or in written form.

3. Notification must include all relevant technical details of the proposal. At minimum, this should include, as applicable, the following:

Transmitting station name.

Coordinates of transmitting stations.

Frequencies and polarization to be changed or added.

INFORMATIVE—Continued

Transmitting equipment type, its stability and actual output power.

Receiving station name.

Receiving station coordinates.

Antenna type and model for both transmitting and receiving stations and, where required, a typical pattern.

Transmitting antenna height above mean sea level and ground elevation above mean sea level.

Same data for receiving station.

Path azimuth and distance.

Transmitter emission designator.

4. Response to notification should be made as quickly as possible. Every reasonable effort should be made by all carriers to eliminate all problems and conflicts. If no response to notification is received within 30 days, the applicant will be deemed to have made reasonable efforts to coordinate and may file his applications without a response.

5. To be acceptable for filing, all applications and major amendments must certify that coordination, including response, has been completed. The name of the carriers with which coordination was accomplished must be specified.

6. Each microwave carrier should promptly provide to all other carriers, or known carrier applicants, within his area of operations the name, address, and telephone number of his coordination representative. It is requested that the Commission also be supplied this information so that it may provide assistance, where necessary, in locating the various representatives.

Correction

1052-C1-P-72—Indiana Bell Telephone Co. (KSL97). Correct to read: C.P. to delete frequency 6049.0 MHz and add 5945.2, 6063.8, and 6004.5 MHz toward Kirksville, Ind., and delete frequencies 6019.4 and 10,955 MHz and add 5974.8 and 6093.5 MHz toward West-phalia, Ind., as reported on public notice dated Aug. 30, 1971.

Major Amendment

6982-C1-P-71—Telephone Utilities Service Corp. (New). Change coordinates to read: latitude 30°34'51" N., longitude 97°23'46" W. Station location: Taylor, Tex.

All other terms same as indicated on Public Notice No. 548, dated June 14, 1971.

FEDERAL MARITIME COMMISSION CUSTOMS FORWARDERS, INC., AND J. E. BERNARD AND CO.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, NW, Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hear-

ing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the Federal Register. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed for Approval by:

Belnap, McCarthy, Spencer, Sweeney & Harkaway, 20 North Wacker Drive, Chicago, IL 60606.

Agreement No. FF 71-7 between J. E. Bernard & Co., Inc., Quast & Co., Inc., E. Besler & Co., KSA Illinois, Inc., Nettles & Co., Inc.; William A. McGinty, is intended to secure Federal Maritime Commission approval for the purpose of forming a Illinois corporation to be named Customs Forwarders, Inc. (Customs), in which the signatories will be stockholders.

All stockholders of Customs, except KSA Illinois, Inc., are independent ocean freight forwarders having been duly licensed as such by the Federal Maritime Commission. KSA, Illinois, Inc., is not a licensed independent ocean freight forwarder but its stock is owned by several partners of Karl Schroff & Associates, which is a licensed independent ocean freight forwarder (FMC-71).

The stated purpose of Customs is to engage in the business of international and domestic freight forwarding.

The agreement provides that Customs would enter into an agreement with J. E. Bernard & Co., to purchase the freight forwarding rights of the latter issued pursuant to Part IV of the Interstate Commerce Act.

Customs has not conducted operations nor does it propose to do so unless and until the Interstate Commerce Commission authorize the transfer of the J. E. Bernard & Co., Inc. operation rights.

The parties have agreed as follows:

1. When and if the Interstate Commerce Commission approves purchase of the Bernard rights by Customs, Customs will institute and conduct operations pursuant to such rights as a domestic freight forwarder subject to regulation under Part IV of the Interstate Commerce Act and will operate in the usual manner in which such freight forwarders operate.

2. The operations of Customs will be managed and directed by its duly elected officers and directors.

3. When and if the Interstate Commerce Commission approves the purchase by Customs of the Bernard rights, or at such other time as its board of directors may determine, the board will consider whether, to what extent, and in what manner, Customs shall institute additional operations within the scope of its corporate purposes.

4. Customs will not engage in operations as an independent ocean freight forwarder, or nonvessel-owning common carrier by water, or any other activity subject to regulation by the Federal Maritime Commission, Interstate Commerce Commission, or Civil Aeronautics Board without first having obtained all necessary approvals and authorizations of such agencies.

Dated: September 16, 1971.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed for Approval by:

Morgan, Lewis & Bockius, 1140 Connecticut Avenue NW., Washington, DC 20038.

Agreement No. FF 71-8 is a proposed merger between J. R. Willever, Inc. (Willever) and Barnett/Freeslate International Corp. (Barnett/Freeslate), which are both wholly-owned subsidiaries of Novo Corp. (Novo) and are licensed independent ocean freight forwarders (FMC Nos. 540 and 865).

Under the proposed transaction, Willever will be merged into Barnett/Freeslate, which will be the surviving corporation. The present transaction, involving the merger of Willever into Barnett/Freeslate, is merely a "housekeeping" arrangement by Novo according to the agreement.

After the merger of Willever into Barnett/Freeslate has been accomplished, License No. 540 issued to Willever will be voluntarily relinquished to the Commission for revocation.

Willever and Barnett/Freeslate agree that they will not engage in any operations under the merger until they have received approval and authorization from the Commission.

Dated: September 17, 1971.

By order of the Federal Maritime Commission.

FEDERAL POWER COMMISSION

[Docket No. E-7660]

DETROIT EDISON CO.

Notice of Application

SEPTEMBER 16, 1971.

Take notice that on September 1, 1971, the Detroit Edison Co. (applicant), filed an application seeking an order pursuant to section 204 of the Federal Power Act authorizing the issuance of \$200 million aggregate principal amount of unsecured short-term promissory notes and commercial paper notes.

Applicant is incorporated under the laws of the State of New York and is authorized to do business as a domestic corporation in the State of Michigan with its principal office in Detroit, Mich. The applicant is a public utility engaged primarily in the generation, purchase, transmission, distribution, and sale of electricity in a service area of approximately 7,600 square miles in southeastern Michigan.

The proposed short-term notes and commercial paper will be issued in varying amounts and periods of maturity from time to time prior to December 31, 1972.

Applicant proposes to issue short-term promissory notes to commercial banks and commercial paper dealers, with maturities of not more than 9 months. Interest on the promissory notes to banks will be the prime rate in effect at the time of the borrowing. The discount rate on commercial paper will be at the rate then in effect on such commercial paper of such quality and term.

The proceeds from the issuance of the notes will be used to finance the construction, completion, extension, and improvement of the applicant's facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 6, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with

the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Docket No. CP72-59]

FLORIDA GAS TRANSMISSION CO.

Notice of Application

SEPTEMBER 16, 1971.

Take notice that on September 7, 1971, Florida Gas Transmission Company (applicant), Post Office Box 44, Winter Park, FL 32789, filed in Docket No. CP72-59 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the acquisition and operation of certain natural gas facilities located in Assumption Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, applicant proposes to acquire from Suburban Propane Gas Corp. (Suburban) at an estimated cost of \$3,360, approximately 800 feet of 2½-inch lateral pipeline extending from the Ballard & Cordell No. 1 M. Babin Estate Well in the Napoleonville Field, Assumption Parish, to a terminus at applicant's 12-inch Chacahoula lateral. Applicant states that it will employ these facilities for the receipt of natural gas purchased from Ballard & Cordell.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 5, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this appli-

cation if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

[Docket No. CI72-140]

JACK O. McCALL

Notice of Application

SEPTEMBER 15, 1971.

Take notice that on September 3, 1971, Jack O. McCall (applicant), Post Office Box 931, Midland, TX 79701, filed in Docket No. CI72-140 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Northern Natural Gas Co. (Northern) from the Gomez Field, Pecos County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas to Northern within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that it proposes to continue said sale for 24 months commencing September 28, 1971, at the rate of 28 cents per Mcf at 14.65 p.s.i.a. within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). The contract between applicant and Northern provides that deliveries may be taken by Northern for up to 6 additional months if necessary to allow Northern to take gas for which payment has been made.

Applicant, small producer certificate holder in Docket No. CS67-17, states that it has limited its proposed sale to Northern to 24 months in view of the challenges to the Commission's Order No. 428, issued March 18, 1971 (36 F.R. 5598), which amended the Commission's certificate procedure for small producers. Applicant states further that, if at the end of the term of the proposed sale it appears to applicant that Order No. 428, as amended, has been affirmed and is no longer subject to review or modification and that applicant's status and rights as a small producer have not been adversely affected as of then, applicant has agreed with Northern that it will enter into a long-term contract for a 20-year small producer sale of the same production.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions

to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before September 28, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

[Docket No. CP72-47]

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Application

SEPTEMBER 16, 1971.

Take notice that on August 30, 1971, Natural Gas Pipeline Co. of America (applicant), 122 South Michigan Avenue, Chicago, IL 60603, filed in Docket No. CP72-47 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing applicant to transport and sell 21,730 Mcf of additional natural gas per day for a 2-year period, beginning on such date as authorization is received and delivery can begin, and to construct and operate facilities for the receipt and gasification of the ethane and propane from which the additional volumes are to be secured, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, applicant proposes to purchase from Phillips Petroleum Company (Phillips), at a price of 4.98 cents per gallon for ethane and 6.53 cents per gallon for propane, approximately 3,500

barrels per day of ethane and 3,000 barrels per day of propane which applicant will gasify and inject into its pipeline for transportation and sale to its existing customers. For the months of the 1971-72 and 1972-73 winter heating seasons, applicant proposes to provide increased daily demand quantities of 21,730 Mcf per day to its customers, prorated on the basis of each customer's existing contract demand. Applicant states that during the 1972 and 1973 summer offpeak seasons, the gas provided hereby will augment its total gas supply, and thus the increased volumes resulting from the purchase of these liquids will be used to reduce curtailment.

Applicant states that the estimated cost of the vaporization and receipt facilities to be constructed in Bazoria County, Tex., is \$91,400.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions for leave to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before September 30, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Application

SEPTEMBER 16, 1971.

Take notice that on August 30, 1971, Natural Gas Pipeline Co. of America (applicant), 122 South Michigan Avenue, Chicago, Ill. 60603, filed in Docket No. CP72-48 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing applicant to transport and sell 22,350 Mcf of additional natural gas per day for a 2-year period, beginning on such date as authorization is received and delivery can begin, and to construct and operate for a 2-year period, facilities for the receipt, measurement and injection into applicant's pipeline system of the ethane and propane from which the additional volumes are to be secured, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, applicant proposes to purchase from Warren Petroleum Corp. (Warren) at a price of 4.35 cents per gallon for ethane and 5.69 cents per gallon for propane, approximately 7,000 barrels per day of a liquid hydrocarbon product consisting of approximately 70 percent ethane and 30 percent propane which applicant will measure and cause to be injected into its pipeline for transportation and sale to its existing customers. For the months of the 1971-72 and 1972-73 winter heating seasons, applicant proposes to provide increased daily demand quantities of 22,350 Mcf per day to its customers, prorated on the basis of each customer's existing contract demand. Applicant states that during the 1972 and 1973 summer offpeak seasons, the gas provided hereby will augment its total gas supply, and thus the increased volumes resulting from the purchase of these liquids will be used to reduce curtailment.

Applicant states that the estimated cost of the facilities to be constructed in Harris County, Tex., is \$40,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 30, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

SOUTHERN NATURAL GAS CO.

Notice of Application

SEPTEMBER 16, 1971.

Take notice that on September 7, 1971, Southern Natural Gas Co. (Applicant), Post Office Box 2563, Birmingham, AL 35202, filed in Docket No. CP72-58 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval for the abandonment of certain natural gas facilities located in Jefferson County, Ala., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to abandon its Lone Star-Lehigh Cement Branch Line and the measuring and regulating facilities employed for the sale of natural gas to Lone Star Cement Corp. (Lone Star) for use in the manufacture of cement at Lone Star's plant in Tarrant, Ala. Applicant states that the service to Lone Star was terminated by mutual agreement on August 1, 1971, and that the facilities employed therefor are no longer necessary.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 5, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in

any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

FEDERAL RESERVE SYSTEM CHEMICAL NEW YORK CORP.

Notice of Applications for Approval of Acquisition of Shares of Banks

Notice is hereby given that two separate applications have been made, as listed below, pursuant to section 3(a) (3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a) (3)), by Chemical New York Corp., which is a bank holding company located in New York, N.Y., as follows:

1. Application for prior approval by the Board of Governors of the acquisition by Applicant of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Eastern National Bank, Smithtown, N.Y.

2. Application for prior approval by the Board of Governors of the acquisition by Applicant of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to the Tappan Zee National Bank, Nyack, N.J.

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquisition or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competi-

tion, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application may be inspected at the office of the Board of Governors or the Federal Reserve Bank of New York.

MIDWEST BANCORPORATION (OF OHIO), INC.

Order Approving Action To Become a Bank Holding Company

In the matter of the application of Midwest Bancorporation (of Ohio), Inc., Wilmington, Del., for approval of action to become a bank holding company through the acquisition of 100 percent of the voting shares (less directors' qualifying shares) of (1) the successor by merger to The Midwest Bank & Trust Co., Cleveland, Ohio, and (2) the successor by merger to The Firelands Community Bank, Huron, Ohio.

There has come before the Board of Governors, pursuant to section 3(a) (1) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a) (1)) and § 222.3 (a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by

Midwest Bancorporation (of Ohio), Inc., Wilmington, Del., for the Board's prior approval of action whereby Applicant would become a bank holding company through the acquisition of 100 percent of the voting shares (less directors' qualifying shares) of (1) the successor by merger to The Midwest Bank & Trust Co., Cleveland, Ohio (Midwest Bank), and (2) the successor by merger to The Firelands Community Bank, Huron, Ohio (Firelands Bank).

The banks into which Midwest Bank and Firelands Bank are to be merged have no significance except as a means of acquiring the voting shares of the banks involved. Accordingly, the proposed acquisition of the shares of the successor organizations are treated herein as the proposed acquisitions of the shares of Midwest Bank and Firelands Bank.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Ohio Superintendent of Banks, and requested his views and recommendation. The Superintendent of Banks offered no objection to approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on July 29, 1971 (36 F.R. 14080), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of the Applicant and the banks concerned, and the convenience and needs of the communities to be served, and finds that:

Applicant is a newly organized corporation. Upon consummation of the proposal herein, Applicant would control \$41 million in deposits, representing 0.19 percent of total commercial bank deposits in the State, and would become the eighth largest of the nine multibank holding companies operating in Ohio. (All banking data are as of December 31, 1970, adjusted to reflect holding company formations and acquisitions approved by the Board through August 31, 1971.)

Midwest Bank (\$25.7 million deposits), the only office of which is located in downtown Cleveland, operates in the Cleveland banking market, which is approximated by Cuyahoga, Geauga, Lake, and Lorain Counties, and controls 0.4 percent of the commercial bank deposits in that market. On the basis of deposits, Midwest Bank is the 16th largest of the 27 banks in the market.

Firelands Bank (\$15.3 million deposits), headquartered in Huron with one branch office in Berlin, Ohio, primarily serves the Erie County area. On the basis of deposits, Firelands Bank is the fifth largest of the six banks located in Erie

County, with approximately 9 percent of the commercial bank deposits in that area.

Midwest Bank and Firelands Bank do not compete with each other to any meaningful extent, and the development of such competition in the foreseeable future appears unlikely. The nearest offices of the two banks are separated by a distance of more than 50 miles, with numerous banks intervening, and Ohio law prevents either bank from branching into the county in which the other is located. On the basis of the record before it, the Board concludes that consummation of the proposal would have no adverse effect on competition in any relevant area.

The financial condition of each proposed subsidiary bank appears satisfactory; both are regarded as having competent managements and favorable prospects. It appears that Applicant would begin operations in satisfactory condition and with competent management; Applicant's prospects, which are largely dependent upon those of its two proposed subsidiaries, also appear favorable. There is no evidence that the existing banking needs of the communities involved are not being met. Affiliation of the two banks, however, would increase the lending capabilities of each bank by means of participation arrangements, and would enable the Firelands Bank to offer trust services. These considerations relative to the convenience and needs of the communities to be served lend some weight toward approval. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

It is hereby ordered, On the basis of the record, that said application be and hereby is approved for the reasons summarized above, provided that the action so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors,¹

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made, pursuant to section 3(a) (1) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(1)), by National Bancshares Corporation of Texas,

¹ Voting for this action: Vice Chairman Robertson and Governors Mitchell, Malsel, and Brimmer. Absent and not voting: Chairman Burns and Governors Daane and Sherrill.

San Antonio, Tex., for prior approval by the Board of Governors of action whereby Applicant would become a bank holding company through the acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to National Bank of Commerce of San Antonio, San Antonio, Tex., and 51 percent or more of the voting shares of Randolph Field National Bank, Universal City, Tex.

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquisition or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

PEOPLES MID-ILLINOIS CORP.

Order Approving Action To Become a Bank Holding Company

In the matter of the application of Peoples Mid-Illinois Corp., Bloomington, Ill., for approval of action to become a bank holding company through the acquisition of 80 percent or more of the voting shares of the Peoples Bank of Bloomington, Bloomington, Ill.

There has come before the Board of Governors, pursuant to section 3(a)(1) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(1)) and § 222.3(a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by Peoples Mid-Illinois Corp., Bloomington, Ill., for the Board's prior approval of action whereby applicant would become a

bank holding company through the acquisition of 80 percent or more of the voting shares of Peoples Bank of Bloomington, Bloomington, Ill.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Commissioner of Banks and Trust Companies of the State of Illinois, and requested his views and recommendation. The Commissioner recommended approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on July 30, 1971 (36 F.R. 14152), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of the applicant and the banks concerned, and the convenience and needs of the communities to be served, and finds that:

Applicant is a nonoperating corporation formed for the purpose of acquiring Bank as a subsidiary. Upon consummation of the proposal, applicant will control .1 percent of the total commercial bank deposits in the State.

Peoples Bank (\$40.5 million in deposits), located in Bloomington approximately 130 miles southwest of Chicago, is the largest of 20 banks in the Bloomington area, and controls 19.5 percent of deposits in that area. (Banking data are as of December 31, 1970; and reflect holding company formations and acquisitions approved through August 31, 1971.) As applicant has no present operations or subsidiaries, consummation of this proposal would eliminate neither existing nor potential competition nor does it appear that there would be any adverse effects on any bank in the market.

Applicant was recently organized for the purpose of consummating the present proposal and has not engaged in any business activities. Applicant's management has been drawn from directors and officers of Bank. Applicant's financial condition and future prospects are dependent on those of Bank. The financial and managerial resources and future prospects of Bank are satisfactory and consistent with approval of this application. Although consummation of the proposal would not have any immediate effects on the convenience and needs of the community considerations related to these factors are consistent with approval. It is the Board's judgment that consummation of the proposal would be in the public interest and that the application should be approved.

It is hereby ordered. On the basis of the record, that said application be and hereby is approved for the reasons summarized above: *Provided*, That the action

so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

SOUTHEAST BANKING CORP.

Order Approving Acquisition of Bank Stock by Bank Holding Company

In the matter of the application of Southeast Banking Corp., Miami, Fla., for approval of the acquisition of 80 percent or more of the voting shares of First National Beach Bank, Jacksonville Beach, Jacksonville Beach, Fla.

There has come before the Board of Governors, pursuant to section 3(a) (3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a) (3)) and § 222.3 (a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by Southeast Banking Corp. (Applicant), Miami, Fla., a registered bank holding company, for the Board's prior approval of the acquisition of 80 percent or more of the voting shares of First National Beach Bank, Jacksonville Beach (Bank), Jacksonville Beach, Fla.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Comptroller of the Currency, and requested his views and recommendation. The Comptroller recommended approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on July 10, 1971 (36 F.R. 13004), providing an opportunity for interested persons to submit comments and views with respect to the proposed transaction. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. The time for filing comments and views has expired and all those received have been considered by the Board.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of Applicant and the banks concerned, and the convenience and needs of the communities to be served and finds that:

Applicant presently controls 13 banks with aggregate deposits of \$1,050 million, representing 7.5 percent of total commercial bank deposits held by Florida's banks, and is the State's second largest banking organization. (All banking data

¹ Voting for this action: Vice Chairman Robertson and Governors Mitchell, Maisel, and Brimmer. Absent and not voting: Chairman Burns and Governors Daane and Sherrill.

are as of December 31, 1970, and reflect holding company formations and acquisitions approved by the Board through July 31, 1971.) Applicant's acquisition of Bank, with deposits of approximately \$22 million, would not represent a significant increase in Applicant's share of total deposits in the State.

Bank is located at Jacksonville Beach, a coastal community in Duval County, approximately 20 miles east of Jacksonville. On the basis of deposits, Bank is the seventh largest of 16 banking organizations in the Jacksonville banking market, which is approximated by Duval County, and holds 1.7 percent of the commercial bank deposits in this market. Acquisition of Bank by Applicant would result in Applicant's control of 3.2 percent of the Jacksonville market as the sixth largest banking organization operating therein. No significant competition appears to exist between any of Applicant's subsidiary banks and Bank. The closest of Applicant's subsidiaries to Bank is located in downtown Jacksonville, approximately 17 miles west of Bank; and, on the basis of the facts of record, notably, Florida's restrictive branching laws and the fact that the 17-mile intervening area contains a number of banks, an intracoastal waterway and a 10-mile undeveloped area, it appears that meaningful future competition between Applicant's subsidiaries and Bank is not likely to develop.

Based upon the record, the Board concludes that consummation of the proposed acquisition would have no significant adverse effect on competition in any relevant area. The financial conditions and managerial resources of Applicant and its subsidiary banks are regarded as generally satisfactory, and the prospects for each appear favorable. Bank's financial condition appears generally satisfactory; and Applicant has stated that it will provide capital and personnel to Bank as needed. The major banking needs of the Jacksonville Beach community apparently are being served adequately by the existing banking institutions. However, there appears to be a growing need for trust services in the immediate area Bank serves, which are not conveniently available to the Jacksonville Beach community. Applicant proposes to assist Bank in establishing a trust department. Considerations under the convenience and needs aspects of this proposal are consistent with approval of the application. It is the Board's judgment that consummation of the proposed acquisition would be in the public interest and that the application should be approved.

It is hereby ordered. On the basis of the Board's findings and reasons summarized above, that said application be and hereby is approved, provided that the acquisition so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such time be extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,¹

GULF POWER CO.

Notice of Proposed Issue and Sale of First Mortgage Bonds at Competitive Bidding

SEPTEMBER 17, 1971.

Notice is hereby given that Gulf Power Co. (Gulf), 7 North Pace Boulevard, Pensacola, FL 32502, an electric utility subsidiary company of the Southern Co. (Southern), a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a) and 7 of the Act and rule 50 promulgated thereunder as applicable to the proposed

transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Gulf proposes to issue and sell, subject to the competitive bidding requirements of rule 50 under the Act, \$21 million principal amount of First Mortgage Bonds, --- percent Series due ----- The proposed series of bonds will bear a single maturity date within the range of 5 to 30 years, such maturity date to be determined not less than 72 hours prior to the opening of the bids. The interest rate (which will be a multiple of one-eighth of 1 percent and the price, exclusive of accrued interest, to be paid to Gulf (which will be not less than 99 percent nor more than 102¾ percent of the principal amount thereof) will be determined by the competitive bidding. The bonds will be issued under the provisions of the indenture dated as of September 1, 1941, between Gulf and the Chase Manhattan Bank (National Association) and the Citizens & Peoples National Bank of Pensacola, as trustees, as heretofore supplemented and as to be further supplemented by a supplemental indenture to be dated as of October 1, 1971. It is provided that the bonds will not be refunded prior to October 1, 1976, directly or indirectly, with funds borrowed at a lower interest cost.

The net proceeds received from the issue and sale of the bonds and \$8 million in equity funds from Southern, together with any excess cash on hand, will be used by Gulf (1) to finance, in part, its 1971 construction program estimated at \$36,375,000; (2) to pay outstanding short-term notes incurred for construction purposes; and (3) for other corporate purposes. Gulf estimates that it will not be necessary to sell any additional securities in 1971 for construction purposes except for short-term notes estimated to be outstanding in the amount of \$5,650,000 on December 31, 1971.

The Florida Public Service Commission has authorized the proposed issue and sale of the bonds. It is stated that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction. The fees and expenses to be incurred in connection with the proposed transaction will be supplied by amendment.

Notice is further given that any interested person may, not later than October 4, 1971, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate).

should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. INVESTORS SYNDICATE OF AMERICA, INC., ET AL.

Notice of Filing of Application Exempting Certain Transactions

SEPTEMBER 17, 1971.

Notice is hereby given that Investors Syndicate of America (Syndicate), Investors Building, Eighth and Marquette, Minneapolis, MN 55402, a Minnesota corporation registered under the Investment Company Act of 1940 (Act) as a face-amount certificate company; IDS Mortgage Corporation (Mortgage Corporation), which engages in the origination, purchase, sale, and servicing of mortgages; Investors Syndicate Title and Guaranty Co. (Title), a mortgage participation company which is wholly owned by Syndicate; and Investors Syndicate Development Corp. (Development), and collectively, Applicants), a wholly owned subsidiary of Syndicate involved in real estate ventures have filed an application for an order exempting the transactions described below from the provisions of sections 17(a), 17(d), and 17(3) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

Applicants state that they are all affiliated persons and that they are all under the common control of Investors Diversified Services, Inc. (Investors). Applicants request an exemption from the above provisions of section 17 of the Act to permit Mortgage Corporation to sell mortgages to Syndicate and Title, and to permit the payment of appropriate fees to Mortgage Corporation of mortgages sold to Syndicate and Title, and for origination and other services performed by Mortgage Corporation for Development.

Applicants state that prior to 1966 the activities of Investors included mortgage brokerage, and that Investors originated mortgages, sold them as required to Syndicate and Title and handled servicing pursuant to various exemptive orders is-

sued by the Commission. Investors transferred its mortgage brokerage facilities to Mortgage Corporation in 1966 but Mortgage Corporation, rather than selling mortgages directly to Syndicate or Title, continued a practice adopted by Investors sometime prior to 1966 of finding potential borrowers, tendering the potential loans to correspondents, and subsequently servicing the mortgages in the hands of Syndicate or Title after they were acquired from the correspondents. Applicants state that in connection with mortgages originated by Mortgage Corporation and subsequently acquired by Syndicate and Title, Mortgage received origination fees in the maximum amount of 1 percent of the purchase price pursuant to section 17(e) (2) (c).

Applicants state that Syndicate and Title wish to acquire commercial mortgages for construction and permanent financing to be originated by Mortgage Corporation. Applicants state that for a variety of reasons, including the establishment of a stronger lien position, it would be best to incorporate such financing in one mortgage to be held by Mortgage Corporation during the construction period and assigned to the ultimate purchaser upon completion of the improvements. Applicants also assert that if one set of documents could be used, Mortgage Corporation, either Syndicate or Title, and the borrower could execute a "Buy-Sell Agreement" under which the three parties would have a firm understanding as to the interim and permanent financing. This agreement would be subject to specific performance by Syndicate or Title. Applicants also state that while such an agreement would not provide an absolute guarantee of performance by the borrower, it would put Syndicate or Title in a much stronger position to obtain the mortgages for which they issued commitments, and would thus avoid the necessity of locating other investments under less advantageous conditions.

Applicants state that neither Syndicate nor Title possess the staff or facilities for mortgage origination or for servicing and managing a mortgage portfolio. Consequently, Applicants state various services are currently being performed by Mortgage Corporation for Syndicate and Title pursuant to origination and servicing agreements entered into on January 2, 1967. Applicants state that although they believe fees for servicing functions are not prohibited by section 17 of the Act under ordinary conditions, such section may apply to servicing fees charged on mortgages sold by Mortgage Corporation to Syndicate and Title. Applicants state that the servicing fees charged on mortgages sold by Mortgage Corporation to Syndicate and Title, which charges will be the same as under the agreements entered into on January 2, 1967, are comparable to servicing fees charged to other mortgage holders under servicing agreements with Mortgage Corporation, and with servicing fees charged generally in the industry.

Applicants state that Development, which will enter into joint ventures and other real estate investment projects will

require services and fees different than those involved in the origination and servicing of conventional mortgages. Thus, Development will advance all or a substantial part of the equity funds required by the venture and enter into partnership with a contractor and others, become a part owner of the property, with their cash advance being repaid from the cash flow of the project. Applicants state that such a joint venture, as opposed to a conventional mortgage, requires, among other things market studies, negotiations, and financial projections.

Applicants state that Mortgage Corporation's fee for such services would not exceed 5 percent of the equity of the venture and would normally, but not necessarily, be paid by the contractor with the amount subject to negotiation between the parties. Applicants state that Mortgage Corporation contemplates an additional maximum commission of 1 percent, paid by the mortgagor, in the venture proposal, as well as construction loan fees at the going market rate.

Applicants state that with regard to joint ventures, Mortgage Corporation may be required, among other things, to follow scheduling and construction, to supervise maintenance and management, to review financial records, and to recommend business decisions. Applicants state that the payment of an annual management fee not to exceed 2 percent of the equity value, to be paid by Development to the extent of its interest in the venture, is fair and reasonable.

Applicants state that the terms of the proposed transactions including any consideration to be paid or received are reasonable and fair and do not involve overreaching on the part of any person concerned. Applicants claim that the considerations conform to general practices in the industry and have been arrived at on the basis of experience, arms-length bargaining, and full understanding of the costs and considerations involved. Applicants also state that each of them conducts business on a "profit-center concept" and each is desirous of achieving a profitable operation.

Section 17(a) of the Act, as here pertinent, prohibits any affiliated person of a registered investment company from selling to or buying from such company any security or other property. Section 17(d) and rule 17d-1 thereunder, taken together, provide, as here pertinent, that it shall be unlawful for an affiliated person of a registered investment company or an affiliated person of such a person, acting as principal, to participate in, or effect any transaction in which such registered company or a company controlled by such registered company, is a joint or joint and several participants unless, prior thereto, an application regarding such arrangement has been filed with and granted by the Commission. Section 17(e) (1) prohibits an affiliated person of a registered investment company, acting as agent, from accepting from any source any compensation for the purchase or sale of any property to or for such company or its controlled companies.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally exempt any person, security or transaction from any provision or provisions of the Act, or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants consent to the following conditions:

(1) No mortgage sold to or obtained for Syndicate or Title by Mortgage Corporation shall involve a fee of more than 1 percent of the principal amount paid by the seller or mortgagor, provided that new construction financing by Mortgage Corporation in connection with any such mortgages may involve such fee as may be negotiated between Mortgage Corporation and mortgagor.

(2) No mortgage shall be sold to Syndicate or Title at a price in excess of the price committed by Syndicate or Title at the time of origination by Mortgage Corporation.

(3) No mortgage shall be sold by Mortgage Corporation to or purchased by Syndicate or Title from Mortgage Corporation if such mortgage results from the sale of real estate owned by an affiliated person of the Applicants herein or if the mortgagor is an affiliated person of Applicants, except as herein otherwise provided with respect to enterprise entered into by Development.

(4) Fees payable to Mortgage Corporation by Syndicate and Title for mortgage servicing and management shall be as follows:

(a) Monthly management fees applicable to outstanding principal loan balances:

1. Residential Loans and Properties	Management Fee
All	$\frac{1}{12}$ of $\frac{1}{8}$ %
2. Commercial Loans and Properties	
Up to \$50,000.....	$\frac{1}{12}$ of $\frac{1}{8}$ %
\$50,000 to \$200,000.....	$\frac{1}{12}$ of $\frac{1}{4}$ %
\$200,000 and over.....	$\frac{1}{12}$ of $\frac{1}{24}$ %

(b) Acquisition-setup fees applicable to the original loan balances of new loans (single charge):

1. Residential Loans	Acquisition Fee
All	$\frac{1}{4}$ %
2. Commercial Loans	
Up to \$50,000.....	$\frac{1}{4}$ %
\$50,000 to \$200,000.....	$\frac{3}{16}$ %
\$200,000 and over.....	$\frac{1}{8}$ %

(c) Monthly servicing fees applicable to outstanding principal loan balances:

1. Residential Loans	Servicing Fee
All	$\frac{1}{12}$ of $\frac{3}{8}$ %
2. Commercial Loans	
Up to \$50,000.....	$\frac{1}{12}$ of $\frac{3}{8}$ %
\$50,000 to \$200,000.....	$\frac{1}{12}$ of $\frac{1}{4}$ %
\$200,000 and over.....	$\frac{1}{12}$ of $\frac{1}{8}$ %

5. Fees accepted by Mortgage Corporation in connection with a joint venture or real estate investment project involving Development shall not exceed single charges of 5 percent on equity and 1 per-

cent on mortgage investment, and a 2 percent annual charge on equity value for management and servicing functions performed, and construction financing fees at the going market rate where such financing is undertaken by Mortgage Corporation.

6. All fees in connection with joint venture or other real estate investment projects shall be negotiated between Development and Mortgage Corporation on the basis of factors involved in each individual venture or project and shall be determined by management of Development to be fair and reasonable.

7. All transactions referred to herein shall be carried out in accordance with the representations made by applicants in the application for this order.

8. Applicants will file with the Commission reports with respect to all fees paid to Mortgage Corporation in connection with any joint venture or real estate investment project involving Development, such reports to be filed within 30 days of such payment.

9. Applicants agree that an order issued pursuant to their application shall be limited in duration to 1 year, at which time Applicants may seek to have the order renewed.

Notice is further given that any interested person may, not later than October 7, 1971, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted or he may request he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date as provided by rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GREATER WATTS INVESTMENT CO. Notice of Application for License as Minority Enterprise Small Business Investment Company

An application for a license to operate as a minority enterprise small business investment company (MESBIC) under the provisions of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), has been filed by Greater Watts Investment Co. (applicant) with the Small Business Administration (SBA) pursuant to § 107.102 of the SBA rules and regulations governing small business investment companies (13 CFR 107.102 (1971)).

The officers and directors of the applicant are as follows:

Ted Watkins, 1138 East 88th Place, Los Angeles, CA 90002, President, Director.
Steven A. Lande, 433 South McCadden Place, Los Angeles, CA 90020, Vice President, Secretary, Director.
James L. Shellberger, 24239 Ocean Avenue, Torrance, CA 90505, Treasurer, Director.

The applicant, a California corporation with its principal place of business located at 11401 South Central Avenue, Los Angeles, CA 90059, will begin operations with \$150,000 of paid-in capital, consisting of 150 shares of common stock. All of the issued and outstanding stock will be owned by the Watts Labor Community Action Committee, a non-profit corporation, with a place of business located at 11401 South Central Avenue, Los Angeles, CA 90059.

Applicant will not concentrate its investments in any particular industry. According to the company's stated investment policy, its investments will be made solely in small business concerns which will contribute to a well-balanced national economy by facilitating the acquisition, ownership, or maintenance of ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owner and management, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA rules and regulations.

Any interested person may, not later than 15 days from the date of publication of this notice, submit to SBA, in writing, relevant comments on the proposed MESBIC. Any such communication should be addressed to the Associate Administrator for Operations and Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

A copy of this notice shall be published in a newspaper of general circulation in Los Angeles, Calif.

REX TANNING CORP.

Petition for Determination of Eligibility to Apply for Adjustment Assistance; Notice of Investigation

Investigation instituted. Upon petition under section 301(a)(2) of the Trade Expansion Act of 1962, filed by Rex Tanning Corp., Peabody, Mass., the U.S. Tariff Commission, on September 20, 1971, instituted an investigation under section 301(c)(1) of the said act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with the tanning bovine leather produced by the aforementioned firm, are being imported into the United States in such increased quantities as to cause, or threaten to cause, serious injury to such firm.

The petitioner has not requested a public hearing. A hearing will be held on request of any other party showing a proper interest in the subject matter of the investigation, provided such request is filed within 10 days after the notice is published in the FEDERAL REGISTER.

Inspection of petition. The petition filed in this case is available for inspection at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, DC and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

SEPTEMBER 17, 1971.

The following applications are governed by special rule 1100.247¹ of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER, issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER, issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record.

The publications hereinafter set forth

Applicant presently is authorized to serve points within a 15-mile radius of Atlanta, Ga., but seeks no duplication of authority in this application. Applicant intends to tack the authority embraced in this application with its authorized regular route operations to and from Atlanta, Ga., and intends to use this requested authority in connection with traffic moving throughout its system. If a hearing is deemed necessary, applicant requests it be held at Detroit and Lansing, Mich., or Washington, D.C.

No. MC 44605 (Sub-No. 38) (Correction), filed July 6, 1971, published in the FEDERAL REGISTER issue of August 12, 1971, and republished in part, as corrected, this issue. Applicant: MILNE TRUCK LINES, INC., 2200 South Third West, Salt Lake City, UT 84115. Applicant's representative: Stuart L. Poelman, 7th Floor Continental Bank Bldg., Salt Lake City, UT 84101. **NOTE:** The sole purpose of this partial republication is to reflect that *regular route* authority is being sought, inadvertently shown as irregular routes in the previous publication. The rest of the application remains as previously published on August 12, 1971.

No. MC 44639 (Sub-No. 43), filed August 11, 1971. Applicant: L. & M. EXPRESS CO., INC., 220 Ridge Road, Lyndhurst, NJ 07071. Applicant's representative: Herman B. J. Weckstein, 60 Park Place, Newark, NJ 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel and materials and supplies*, used in the manufacture of wearing apparel (except commodities in bulk), between Crewe, Va., on the one hand, and, on the other, Louisa, Va. **NOTE:** Applicant states it desires to tack the requested authority at Crewe, Va., with its operations in MC 44639, wherein it is authorized to serve points in New Jersey, New York, Maryland, and Virginia. If a hearing is

deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 47791 (Sub-No. 3), filed August 12, 1971. Applicant: HAMILTON TRUCKING COMPANY, INC., 106 Carpenter Street, Blossburg, PA 16912. Applicant's representative: Kenneth R.
