T E S T I M O N I A L

Date: 27 May 1947.

Name of Company: Tokushu Sangyo K.K. Itami Plant.

Location: Konoike, Nagao-mura, Kawabe-gun, Hyogo-ken.

The above company is the oldest maker of Liquid CO2 Fire Extinguishers and Arrangements in Japan, having many years' experiences, excellent technique and installations.

Heretofore, these Extinguishers and Arrangements were under almost sole control of the Navy, little known to the public in general. Accordingly, they are not provided in general fire-service equipment at the present stage, and therefore, to our belief, much is to be expected of this company hereafter for their long experiences, special technique and installations.

We certify as mentioned above.

	0	0
	267	790
	267	127
	0	

Plant was originally established for the purpose of manufacturing high pressure pneumatic pumps and accessories for hydraulic pumps to be used for aircrafts.

Plant is currently in limited operation and is not considered essential. Valves for CO_2 gas extinguishers can be manufactured by equivalent non-reparation facilities. Removal of machinery and equipment for reparations will not seriously jeopardize regional economy.

Economic Section

RE: Conversion Permit for Reparation Plant

1. Scap issued (21 June 48) above permit to Biseibutsu Kagaku, authorizing Tokushu Sangyo (13-48) to produce at their Nagao-mura Plant some quantity of petone and meat extract.

2. Facts of the case:

   a. Biseibutsu Kagaku is a newly formed outfit; does not need to have a reconversion permit.

   b. This outfit wants to lease a portion of plant building and land for its new operation.

   c. Tokushu Sangyo is a restricted concern; as such, necessary to have approval from A/c for leasing.

   d. Finance Ministry approved the Tokushu Sangyo's application re (c) above on 15 October 1948.

3. Probable cause of confusion:

   a. Bisebutsu Kayaku applied for permit to convert a reparation plant.

   b. Medical Bureau, Welfare Ministry, endorsed the application without noticing irregularities.

TRANSLATION OF A PERMIT

Ri-hi No.3636. 15 Oct. 1948.

TO: Tokushu Sangyo K. K.

This is to inform you that your application for permission for lease of installation, dated 22 Sept. 1948 (building located in Kanabe-gun, Hyogo-ken) in pursuant to Art. 11 of Imperial Edict No.657 of 20th year of Showa, is granted on the below-stated conditions:

1. It is to be arranged that the lease can be cancelled of lessor's free will.

2. The rent is to be deposited at your bank.

We may add that the SCAP's understanding memo is 3006/11 Oct. '48, ESS/AC.

Chief of the Financial Bureau,
The Ministry of Finance (Seal)

(300.6 (11 Oct 48) ESS/AC

+ Biseibutsu Kagaku)

Note :—

Mr Suzuki of Tokushu Sangyo dropped in on 17 Nov. 48 & report that Tokushu had obtained a permit & lease the bldg & Biseibutsu, from Finance Ministry, dated 15 Oct 48

"Sei" No. 2585

December 5, 1947

TO : Chief, Reparations Dept., Central Liaison Office.

FROM : Chief, Medical Affairs Bureau, Welfare Ministry.

SUBJECT : Re Application for Conversion of Reparation-Designated Plant.

Having received an application for the conversion of a reparation-designated plant, as per the annexed paper, from Yo Matsuzaki, representative of the promotors of Kabushiki Kaisha Itami Biseibutsu Kagaku Kenkyusho (The Itami Microbe Chemical Laboratory, Ltd.), we have conducted investigations and since the result is such as mentioned below, we would request you to make arrangements with parties concerned for granting the application.

AZUMA Ryotaro
Directer of Medical Affairs
Bureau, Welfare Ministry

1. Is the production essentially required for the reconstruction of Japan's economy or for the production of the Occupation Forces' demands?

Reptone and Meat Extract are the most important materials for the production of vaccine, serum and other bacterial stuffs indispensable for the accomplishment of the prevention of epidemics in this country which is strongly demanded by PHWS, GHQ. The present position of their production in the country is such as mentioned in the annexed paper and on account of the inadequate supply of materials, only one-fifth or so of the requirements is met. The present company is going to make use of powdered fish-meal or the chrysalis as material and the accomplishment of the planned production being considered rather easy, the proposed enterprise is deemed positively needed to make up for the insufficient supply of Peptone and Meat Extract at present.

2. Is it impossible or not to use other facilities involving no reparation object?

The present applicant for conversion has made efforts to get hold of a plant around Osaka for one year since he first planned the enterprise and, unable to acquire

an appropriate one, has filed the present application for permission for the use of a part of the structures in a reparation-designated plant.

It is designed not to use any reparation equipment at all.

3. Is there any prospect or not to carry out the present production through the installation or expansion of facilities?

In the light of the prevailing state of affairs, it is considered difficult in its management for the present production enterprise to spend a large sum of money in the construction or purchase of a plant and it is deemed inappropriate.

THE PRODUCTION AND DEMAND AND SUPPLY OF PEPTON AND MEAT EXTRACT

1) List of Pepton and Meat extract manufacturer and production capacity of them and the main raw material.

a) Pepton

Name of Plant	Location	Monthly maximum capacity kg	Actual capacity kg	Main raw material
Daigo Eiyo Co. Ltd.	Osaka-city	1,500	1,500	Casein
Mikuni Kagaku Sangyo Co. Ltd.	Tokyo-to	1,500	266	"
Matsumoto Seiyaku Cogyo Co. Ltd.	Chiba-pref.	3,000	1,333	"
Funai Sieyaku Goshi K.	Kyoto-pref.	2,500	400	"
Suisan Seiyaku Co. Ltd.	Tokyo-to	500	-	"
Kyokuto Seiyaku Sho	"	3,000	1,333	"
Shiseido Chem. Kogyo Sho.	Shizuoka	2,000	-	"
Iwaki Sieyaku Sho	Tokyo	Unknown	400	"
Uehara Kagaku Kogyo Sho	Nagano-pref.	2,000	166	"
Zoki Eiyo Kenkyu Sho	Kobe-city	1,000	333	Fish meal
Tanapakushitsu Kenkyu Sho	Matsumoto-city	4,000	1,000	Pupa
Total		21,000	6,731	
Itami Microbe Chemical Laboratory Ltd.		(1,500)		Fish or Pupa

Remark: Actual capacity: The numbers in this column show actually planned production quantity per month for 3rd quarter (Oct.-Dec. 1947)

b) Meat extract

Name of Plant	Location	Monthly capacity kg
Shiseido Kagaku Kogyo	Shizuoka-pref.	1,500
Daigo Eiyo Co. Ltd.	Osaka	600
Mikuni Kagaku Sangyo Co. Ltd.	Tokyo-to	2,500
Matsumoto Seiyaku Kogyo	"	1,000
Hunai Seiyaku Goshi K.	Kyoto pref.	3,000
Suisan Seiyaku K.K.	Tokyo-to	300
Kyokuto Seiyaku Sho	"	3,000
Zoki Eiyo KenkyuSho	Kobe-city	500
Total		12,500

Reference:

1) Pepton: Concerning production of Casein pepton, it is impossible to produce in large quantity judging from the present state of production of main raw material, Milk caseine.

As to the production of pupa pepton and fish meal pepton, it is possible to produce in large quantity from the point of view of raw material and some factory have planned to produce pepton by using these materials.

2) Demand and supply of pepton and meal extract

a) Pepton

Estimated production Apr. 1947- Mar. 1948	Actually produced quantity Sept. 1946- Aug. 1947	Demanded quantity per year	Use	
58,600 kg	21,629 kg	100,000 kg	Penicillin	96,000 kg
			Triple typhoid Vaccine	1,500
			Typhoid Vacc.	200
			Cholera Vacc.	50
			Diphtheria Lotoxoid	900
			Whooping Cough Vaccine	250
			Siphtheria m Antitexin	100
			Antitetamin serum	20
			Strepto Cocus Vac.	20
			The others	960
			Total	100,000

b) Meat Extract

The demand and supply for penicillin and other biologicals is not clear at present.

Judging from the actual results of some manufacturer, the produced quantity is considered to be very little for demand.

APPLICATION TO CONVERT
A DESIGNATED REPARATIONS PLANT

TO: Medical Affairs Bureau,
Welfare Ministry.

FROM: Kabushiki Kaisha Itami
Biseibutsu Kagaku Kenkyusho
(The Itami Microbe Chemical
Laboratory, Ltd.)

Konoike Nagao-mura, Kawabe-
gun, Hyogo Prefecture.

DATE: 30, November, 1947.

1. Name of plant:

Tokushu Sangyo Kabushiki Kaisha (The Special Industry Co., Ltd.)

2. Location of plant:

Konoike, Nagao-mura, Kawabe-gun, Hyogo Prefecture.

3. Name of products planned:

Peptone and Akiyama Meat Extract.

4. Experience of the production planned:

None.

5. 1939 - 1945 production:

Liquid carbonic acid gas fire-extinguisher and fire-extinguishing apparatus.

6. Scale of production planned by months for period of this application:

Peptone	3,000 lbs.
Akiyama Meat Extract	3,000 kg.

7. Period of desired permission:

During the designated reparation period.

8. Plan and Location to continue the production after reparation removal:

For the present enterprise, Kabushiki Kaisha Itami Biseibutsu Kagaku Kenkyusho applies only for permission for the use of vacant structures not in use at present in the plant of Tokushu Sangyo Kabushiki Kaisha, a designated reparations plant, two structures in red lines in the annexed sketch of the plant, and is going to produce Peptone and Meat Extract, without using any of the reparations facilities in the present designated reparations plant, so that it is intended to continue the enterprise using the present plant after the removal of the reparations facilities.

9. Scale of proposed changes in physical facilities:

No change because the reparations facilities will not be used.

10. Intended expense for conversion:

¥ 190,000.

11. Name or location to which products are to be delivered:

Products will be sold in accordance with the Welfare Ministry authorities' directions on the medical products distribution program.

SUBJECT: Application for Reconversion of Tokushu Sangyo Kabushiki Kaisha, formerly Tokushu Kokuheiki Kabushiki Kaisha. No. 1 Minamihata, Konoike, Nagao Mura, Kawabe Gun, Hyogo-ken - Itami Kojo and Amagasaki Kojo.

TO : Commanding General
Hq I Corps
APO 301 (Kyoto)
(Attn: Mil Gov't Economics Sec.)

1. The above subject plant was inspected and surveyed by this headquarters and the following facts ascertained:

a. The plant is now operating at 50% of capacity producing bicycle pumps, pulverizers for grain (rice & wheat) can openers and electric cookers. This plant consists of four machine shops, two warehouses and office buildings.

b. At present, machinery and equipment is not all in operation. Machinery not in operation is well preserved. No machinery in the plant is owned by Imperial Japanese Government. Part of machinery, as listed in the application, is loaned by Mitsubishi Aircraft Co., Nagoya, and Nakajima Aircraft Co., Nagoya. No action has been taken to remove machinery from plant.

c. This company is not in debt at the present time. All increases in capital were accomplished by the sale of stock to previous stockholders.

d. No loans or subsidies have been received from the Japanese Government or from any Zaibatsu banks.

e. A check of the machinery and raw materials showed entries in the application to be correct.

TO; CG, Hq I Corps, APO 301, (Kyoto) Subj: "Application for Reconversion of Tokushu Sangyo K.K., formerly Tokushu Kokuheiki K.K., No. 1 Minamihata, Konoike, Nagao-mura, Kawabe-gun, Hyogo-ken - Itami Kojo and Amagasaki Kojo " dtd 14 Jun 46.

f. The Amagasaki plant is completely destroyed by air-raids and only a few machines remain.

2. This headquarters does not recommend that subject plant be issued a reconversion permit. Subject company is on the list of aircraft plants to be used for reparations and it is the opinion of this office that it is unwise to encourage them to further production at this time. However, it is recommended that the company be allowed to continue in operation under close supervision until such time as the machinery is required for reparations.

1. Funds received from Government. NONE.

j. Outline sketch of plant. On separate sheet.

5. Descriptions:

a) Principal products:

1. War time - High pressure air pumps
Accessories of oil pressure control.

2. At present - Pulverizers for food stuff.
Air pumps for bicycles.
Drying arrangement for food stuff.
Can openers.
Electric cookers (mainly rice)

3. Planned for 1946 - 1947.

Articles mentioned as above, and
Cast iron parts for above articles.
Freezing system salt manufacturing plant and by-products.
Produce and provisions.

b) Capacity (in a month).

1. War time	High pressure air pumps	-	400 sets.
	Accessories of oil pressure control	-	1,000 "
2. At present	Pulverizers	-	1,000 pcs.
	Bicycle pumps	-	10,000 "
	Can openers	-	1,000 "
3. Planned for 1946 - 1947.			
	Pulverizers	-	1,000 pcs.
	Bicycle pumps	-	10,000 "
	Drying arrangements	-	100 sets
	Cast iron parts	-	25 metr. tons.

carried to next page.

Agricultural implements	1,000	pcs.
Can openers	10,000	"
Electric cookers	500	"
Salt & by-products	30	m/tons

4. Number of emploees:

1. War time — Staff members - abt. 160; Workmen - " 630

2. At present — Staff members - 43; Workmen - 124

3. Planned for 1946-1947:

Staff members - 50
Workmen - 410

6. Machinery and equipment in plant:

	Total No.	need repair	rented from Mitubishi	rented from Nakajima	
Lathes	138	-	(38	10	-)
		-	(2 beyond repair		)
Turret lathes	19	-	(17	3	-)
Mono-lathes	3	-	(3	-	-)
Milling machines	18	-	(6	3	6)

Shapers	4	-	(2	2	-)
Planer	1				
Slotter	1				
Hack saw machines	2				
Crank presses	2				
Hand "	3				
Thread miller	1	-	(1	-	-)
Cutter grinders	2				
Hydraulic pumps	3				
Electric furnaces	3				
Transformers	11				
Electric motors	7				
Wood working machines	1 unit				
Cupola (1-ton capacity)	1)				
Sand blender with 2 h.p. motor	1)	-	Purchased in Feb. 1946 to be used for manufacture of civilian commodities.		
Turbo blower with 5 h.p. motor	1)				
Pulverizer with 2 h.p. motor	1	1)			
Drying apparatus with 2 h.p. motor	1	1)	- Purchased in Oct. 1945 to be used for manufacture of civilian commodities.		
Extractor with 1 h.p. motor		1)			

7. Present stocks of raw materials, supplies and unfinished goods (owned by the Company)

Iron and steel	-	30~~444~~ tons
Special steel	-	13 "
Aluminium alloy	-	1.8 "
Copper "	-	35 "
Cast iron	-	44 "

8. Present stocks of finished goods:

Pulverizers	-	500 pcs.
Bicycle pumps		200 "
Food drying arrangement	-	1 set.

9. Present stocks of Fuel: - NONE.

10. Machinery and equipment needed for maximum production at 1946 - 1947:

Lathes	179
Grinding machines	11
Planing "	2
Drilling "	7
Milling "	17
Shapers	6
Hack saw machine	1
Air compressor	1
Electric furnaces	3
Transformers	13
Electric motors	31
Cast iron plant	1 unit
Wood working plant	1 "

11. Raw materials needed (monthly):

a) For present capacity (b2 of item No.5)

Iron and steel	25 tons
Aluminium	0.5 "
Cast iron	20 "

b) For maximum (b3 of item No.5)

Iron and steel	45 tons
Cast iron	185 "
Aluminium	2 "
Copper	1 "

12. Fuel required monthly (exclusive of present stock):

Coke	1 ton
Charcoal	1 "

13. Additional personnel required: NONE.

14. Price (Give current selling prices in Yen of principal products):

Pulverizers	¥400.00
Bicycle air pumps	50.00
Food drying Arrangement -	¥5,000.00

SUBJECT: Reconversion - Special Aviation Arms Co. Ltd., No.24, Sonezaki Shinchi, 2-chome, Kitaku, Osaka.

TO: CO, 31st Mil Govt Hq & Hq Co, APO 660 (Kobe)

1. Subject application submitted to this Headquarters through error. Forwarding for your action.

2. This Headquarters has checked on the Sakai Plant of subject company, but their intentions are not for reconversion at this time.

3. This Headquarters also checked on the Konan Gas Factory of subject company regarding the manufacture of dry ice. This report has also been made and forwarded and therefore it will not be necessary to check any further in this matter.

4. Subject application remains a problem of reconversion only at the present time.
