# Classified Index.

## JULY—DECEMBER, 1919.

In this Volume the Index has been divided into six sections as follow:—

- (a) BOARD OF TRADE.
- (b) DEPARTMENT OF OVERSEAS TRADE.
- (c) SPECIAL ARTICLES.
- (d) NOTES ON TRADE.
- (e) GEOGRAPHICAL INDEX.
- (f) SUBJECT INDEX.

In the first four divisions will be found all the articles that have appeared respectively under the "Board of Trade," "Department of Overseas Trade," "Special Articles," and "Notes on Trade" Sections of the "Journal."

The "Geographical" and "Subject" classifications embrace the whole "Journal" (including the entries under the first four divisions), arranged respectively by country and subject.

It should be noted that the "United Kingdom" has been omitted from the Geographical Index to avoid unnecessary repetition. To trace an entry which would have appeared under "United Kingdom," readers should therefore consult the Subject Index under the heading of the subject concerned.

**(F)—SUBJECT INDEX.**

In this section of the Index the notices are entered in such a way as to enable all references in the "Journal" to similar goods and similar materials to be readily found. For this purpose most of the notices are grouped under comprehensive headings, and are not entered separately under the heading of the particular article, etc. In some of the more important cases, however, a cross-reference will be found. The following is a list of some of the Sections used, with a rough analysis of their contents:—

Openings for accessories for railway construction, railway material and rolling stock  
 Openings for accessories for tramway construction, tramway material and rolling stock  
 All other notices respecting railway construction, traffic, rates, etc.  
 Openings for port and harbour works and plant and material therefor, dredging, and river improvement works  
 Notices respecting ports, steamship services, canals, and waterways; vessels of all kinds (except dredgers) and construction thereof  
 Mineral deposits and production, mining regulations, unmanufactured metals (except as regards certain of the most important minerals, such as coal, iron, mineral oil)
