Chapter VI—Solid Fuels Administration
for War

PART 602—GENERAL ORDERS AND DIRECTIVES

STATEMENT CONCERNING LIMITED AVAILABILITY OF BITUMINOUS COAL FOR BUNKERING OF VESSELS AT TIDEWATER

The rapidly diminishing supplies of bituminous coal make it necessary to limit to minimum quantities the distribution of bituminous coal for bunkering use at tidewater. Accordingly, it is the policy of the Solid Fuels Administration for War in releasing any such coal for such purpose that the vessel be engaged in the movement of coal or other relief materials abroad or in similar coastwise traffic. In addition, the amount of coal made available to vessels engaged in foreign trade is limited to that necessary to enable the vessel to reach the first foreign bunkering station which is practicable. Generally speaking, bunkering for round trip movements abroad will not be permitted.

Issued this 3d day of May 1946.

DAN H. WHEELER,
Deputy Solid Fuels
Administrator for War.

PART 602—GENERAL ORDERS AND DIRECTIVES

STATEMENT CONCERNING LIMITED AVAILABILITY OF BITUMINOUS COAL FOR BUNKERING OF VESSELS ON GREAT LAKES

The rapidly diminishing supply of bituminous coal makes it necessary to limit to minimum quantities the distribution of bituminous coal for bunker use on the Great Lakes. Accordingly, it is the policy of the Solid Fuels Administration for War in releasing any such coal for such purpose that the vessel be engaged in the movement of coal or grain. It is therefore important that requests for release of coal for vessel fuel use on the Lakes should contain a clear statement of the activities in which the vessel is engaged.

Issued this 3d day of May 1946.

Deputy Solid Fuels
Administrator for War.

PART 602—GENERAL ORDERS AND DIRECTIVES

DIRECTION CONCERNING DELIVERIES OF BITUMINOUS COAL BY RETAIL DEALERS, AND COMMERCIAL DOCK OPERATORS AT LAKE AND TIDEWATER

In order to conserve further the diminishing supply of bituminous coal for the most essential uses, the revised notice of direction concerning deliveries of bituminous coal by retail dealers, lake and tidewater dock operators, issued April 5, 1946, is hereby revoked and superseded by this direction.

1. Retail dealers and lake and tidewater dock operators engaged in the commercial distribution of bituminous

coal are hereby prohibited from delivering such coal except to:

(a) The following consumers provided they certify in writing to the retail dealer, lake or tidewater dock operator that they have less than a 10-days' supply: public utilities which render public service by supplying electricity, water, gas, sewage disposal service or street railway transportation to any community, railroads, laundries, hospitals, food processing plants (including milk plants, dairies and commercial bakeries) and refrigeration plants;

(b) Steamships or tugboats for bunker or galley fuel: *Provided, however,* That the steamship or tugboat, if operating on the Great Lakes, is engaged in the transportation of grain or coal or the movement of another boat so engaged: *And provided,* That, if operating at tidewater, the steamship or tugboat is engaged in the movement of coal or other relief material abroad or in similar coastwise traffic, or the movement of another boat so engaged;

(c) Domestic consumers for use in a dwelling, apartment or hotel: *Provided,* The consumer has less than 5 days' supply based on his actual needs for the next succeeding 5 days;

(d) Retail dealers for delivery to an eligible consumer described in subparagraphs (a), (b) or (c) hereof: *Provided,* That the dealer certifies in writing that he needs the coal in order to supply such eligible consumer and that if the consumer is eligible under subparagraph (a) hereof the dealer has in his possession the written certificate of the consumer, that he has less than a 10-days' supply; and

(e) Any person upon written direction or authorization of the appropriate SFAW Area Distribution Manager or Regional Representative.

2. Retail dealers, and lake and tidewater dock operators making deliveries of bituminous coal to an eligible consumer in accordance with paragraph 1 are prohibited from delivering an amount of bituminous coal which exceeds the consumer's minimum requirements for a period of five days: *Provided, however,* (a) That this restriction shall not apply to deliveries to steamships or tugboats, and (b) That the amount delivered to eligible domestic consumers may be a minimum truck or wagon load.

3. All persons are prohibited from receiving any bituminous coal which a retail dealer, lake or tidewater dock operator is not permitted to deliver to him pursuant to paragraphs 1 and 2 above.

4. SFAW Area Distribution Managers and Regional Representatives are authorized to modify the limitations imposed by this direction within the area of their jurisdiction. Such modifications will be strictly limited (a) to cases in which the failure to supply coal will endanger the health or safety of the community and (b) to permit the non-wasteful and orderly close-down of any industrial plant that has goods in the process of manufacture that would be lost if coal were not supplied, including such continuous operation plants as glass plants, rayon plants, brick kilns, tanneries and breweries: *Provided,* That such plant did not have a sufficient coal

supply on May 1, 1946, to close down in an orderly manner.

5. No person shall be held liable for damages or penalties under any contract for any default which shall result directly or indirectly from compliance with the provisions of this direction.

6. This notice of direction supersedes previous notices of direction and orders, or revisions or modifications thereof, to the extent inconsistent herewith.

7. This direction shall take effect immediately and remain in effect until further notice.

Pursuant to Executive Order No. 9332 and SFAW Regulation No. 1, all persons, including railroads, are prohibited from receiving or confiscating any coal now held on track or not authorized to be shipped pursuant to the Notices of Direction issued March 28, 1946 (11 F.R. 3354) and April 30, 1946 (11 F.R. 4857), without having first obtained the written permission of the Solid Fuels Administration for War.

United States Code, Title 31, Section 492: Duty of disbursing officers. Except as otherwise provided by law it shall be the duty of every disbursing officer having any public money intrusted to him for disbursement, to deposit the same with the Treasurer or with one of the depositories of the United States mentioned in section 476 of this title, and to draw for the same only as it may be required for payments to be made by him in pursuance of law and draw for the same only in favor of the persons to whom payment is made; and all transfers from the Treasurer of the United States to a disbursing officer shall be by draft or warrant on the Treasury. In places, however, where there is no treasurer or depository, the Secretary of the Treasury may, when he deems it essential to the public interest, specially authorize in writing the deposit of such public money in any other public depository, or, in writing, authorize the same to be kept in any other manner, and under such rules and regulations as he may deem most safe and effectual to facilitate the payments to public creditors. (Mar. 4, 1909, ch. 321, Sec. 87, 35 Stat. 1105; May 29, 1920, ch. 214, Sec. 1, 41 Stat. 654.)

§ 208.1 *Advances of funds.* All funds advanced to Government disbursing officers for disbursement will be placed to their credit, subject to their official check, with the Treasurer of the United States in Washington (checks of certain accounts may be designated as payable only through a specified Federal Reserve Bank), except in cases where the Secretary of the Treasury specifically authorizes depository banks located outside the forty-eight states and the District of Columbia to accept and carry official accounts of disbursing officers or such funds as the Secretary of the Treasury specially authorizes disbursing officers to keep at their own personal risk.

§ 208.2 *Cash held by a disbursing officer at his personal risk.* A disbursing officer may obtain cash in a specific amount to be held at his personal risk under the following conditions:

In the case of disbursing officers not attached to the Treasury Department, applications for such special authority shall be made by the head of the department or establishment to which the officer is attached, except as provided in paragraphs (b) and (c) of this section, and must state the reasons why the authority is necessary.

(b) Any disbursing officer of the War Department, specially authorized by the Secretary of War, who himself is stationed at a place remote from depositories of public moneys, or who has an agent officer, duly authorized pursuant to statute, so stationed, may keep at his personal risk such money as may be intrusted to him for disbursement.

(c) Any disbursing officer of the Navy Department, or Marine Corps, specially authorized by the Secretary of the Navy, who is serving afloat or who is assigned to duty at a place remote from depositories of public moneys, or who has an agent officer, duly authorized pursuant to statute, so stationed, may keep at his personal risk such money as may be intrusted to him for disbursement.

(d) Quarterly reports shall be made to the Secretary of the Treasury, Bureau of Accounts, Division of Bookkeeping and Warrants, by the heads of departments or establishments to which disbursing officers authorized to keep cash at their personal risk are attached, showing their names and stations, the amounts authorized and the balances on hand. The balances reported shall include all bank balances, United States and foreign currency and coin, checks, drafts, bills of exchange, and other instruments representing official funds which are available for expenditure and are kept at the risk of the disbursing officer. If foreign currencies are included in the balances reported, a separate analysis should be furnished showing the amount of each class of foreign currency and its dollar equivalent.

§ 208.3 *Advances of funds in excess of penalties of official bonds.* The application, approval, or recommendation

from or by authority of the head of the department or establishment or office for which the disbursing officer is acting, for advances in excess of the penalty of his bond, will be regarded by the Secretary of the Treasury as a certificate to the effect that advances of funds up to the amount named may with safety be made and placed to the official credit of the officer named, having regard to the conditions under which he acts, the needs of the public business, and other circumstances bearing upon the security of public funds intrusted to his hands.

§ 208.4 *Checks drawn to obtain cash for pay rolls and for other purposes.* Any check drawn by a disbursing officer upon moneys deposited to his official credit must be in favor of the party, by name, to whom the payment is to be made, and payable to "order", with the following exceptions:

(a) To make payments at a distance from the depository.

(b) To make payments of fixed salaries due at a certain date.

(c) To obtain funds necessary to make current cash payments authorized by law not included in paragraphs (a) and (b) of this section.

In cases falling within any of these three classes, the disbursing officer may draw his check in favor of himself or "order" for such amount as may be necessary for the payment. The checks drawn under paragraph (a) of this section may be cashed at such time as will enable the disbursing officer to make prompt payment for the purpose for which the check was drawn. The checks drawn under paragraph (b) of this section may be cashed in advance of the salary payment date only when such action is necessary to enable the disbursing officer to make prompt salary payments, and ordinarily a period of not to exceed four work days prior to the salary payment date will be deemed sufficient for that purpose. The checks drawn under paragraph (c) of this section must not be cashed more than three work days in advance of the date when such payments are due in cases where the disbursing officer is located at a point convenient to banking facilities, and not more than seven work days in advance of the date when payment is due when the disbursing officer is so located that it requires more than one-half day's time to reach available banking facilities and return to his station. In each of the above cases cash obtained must not be in excess of the amount estimated to cover the payments specified. In cases where the funds are to be procured by an assistant disbursing officer or a deputy disbursing officer, the check shall be drawn by the assistant or deputy to his order.

If the cash is to be obtained by an agent-cashier of the Chief Disbursing Officer, Treasury Department, or by an agent officer of a disbursing officer of the War Department or Navy Department, the check shall be drawn by the disbursing officer to the order of the agent-cashier, or the agent officer, and shall show under object for which drawn, the legend "Advance of Funds."

§ 208.5 *Disposition of excess cash withdrawn for pay rolls and for other*

purposes. The Chief Disbursing Officer, Treasury Department, or disbursing officers of the War Department or Navy Department or other establishments who obtain cash for the purpose of paying the proper persons or employees in cash, in order to avoid carrying unnecessary balances of cash, are directed to deposit promptly, but not in any case later than ten days from and after the designated pay date, to their official credit, subject to their official check, on the books of the Treasurer of the United States or an authorized depository, any and all balances of cash drawn to meet pay rolls and remaining in their hands: *Provided*, That when such excess is needed to meet other current cash disbursements such amount may be held at personal risk for disbursement to the extent that such excess together with other amounts being held at personal risk does not exceed the total amount authorized to be so carried.

§ 208.6 *Checks shall show object for which drawn.* And disbursing officer drawing checks against a balance to his official credit shall state on the face of each check the object or purpose for which drawn or shall give the voucher number for which the check is issued in payment. Such statement may be made in brief form, but shall clearly indicate the object of the expenditure, as, for instance, "pay," "subsistence," "supplies," "advance of funds," or, as above stated, shall give the number of the voucher (in his disbursing account) for which the particular check was issued in payment. Checks issued by disbursing officers to obtain cash to be held at their personal risk shall show under object for which drawn the legend "exchange for cash."

§ 208.7 *Payee of check in certain cases.* Checks issued by disbursing officers in exchange for cash may be drawn to the order of the person from whom the cash is received. Checks drawn on the Treasurer of the United States for credit of another disbursing officer should be drawn in the following form: Treasurer of the United States for credit of John Doe, symbol 62,103; checks drawn for credit to an appropriation should be drawn to the order of "Treasurer of the United States." Checks shall not be drawn to the order of "cash" or in any other form which renders them payable to bearer.

§ 208.8 *Disbursing officer's advice of credit.* A disbursing officer is not authorized to draw checks until he has received a signed certificate of deposit issued by the Treasurer of the United States, a Federal Reserve Bank, Federal Reserve Branch Bank, or a General Depository Bank, or has received appropriate advice from any such depository, showing that credit has been entered in the Treasurer's account for credit in the disbursing officer's checking account.

§ 208.9 *Disposition of checks paid by drawee.* Ordinarily checks will not be returned to the drawer after their payment. Checks paid by the Treasurer of the United States will be forwarded by him to the General Accounting Office. Checks drawn on and paid by depository banks will be forwarded, when not prohibited by law of the country in which

the depository is located, to the Secretary of the Treasury, Bureau of Accounts, Division of Deposits, for transmittal to the General Accounting Office: *Provided, however*, That checks drawn against deposits of court funds with depository banks by United States Courts and their officers, shall, at the intervals fixed by the applicable banking regulations or custom in the jurisdiction, be returned with a statement of the account, by the depository, to the issuing officer.

§ 208.10 *Statement of checking account.* The Treasurer of the United States, or other depository, as the case may be, will furnish each disbursing officer with a monthly statement of his account, supported by a list of credits therein and by a detailed list or lists of checks paid.

§ 208.11 *Deposits of public moneys.* Deposits to the credit of the Treasurer of the United States on account of repayment of disbursing officers' unexpended balances or deposits for credit in disbursing officers' checking accounts shall be made in accordance with the provisions of Part 202 of this subchapter appearing also as Treasury Department Circular No. 176, Revised December 21, 1945. No allowance shall be made hereunder to any disbursing officer for expenses charged for collection of checks, drafts, et cetera.

§ 208.12 *Disbursing officer ceases to disburse.* Whenever any disbursing officer of the United States shall cease to act in that capacity he shall at once so inform the Treasurer of the United States. The disbursing officer shall deposit his unexpended balances, for personal credit, to the credit of the Treasurer of the United States, or transfer them to another disbursing officer of the same department if such action is authorized by the regulations of that department.

§ 208.13 *Supply of blank checks and use of symbol numbers.* All disbursing officers will, upon request, be supplied by the Treasury Department with blank checks under the provisions of Treasury Department Circular No. 8, as from time to time amended and supplemented, to which reference should be made in connection with the care and custody of blank checks. Any officer not receiving a supply of such checks may use the checks of another disbursing officer by canceling the symbol appearing thereon and inserting his own number unless the symbol number has been previously changed. The absence of a proper symbol number on a check in connection with the signature of a disbursing officer will be sufficient reason for refusing payment of a check drawn on the Treasurer of the United States.

§ 208.14 *Official signatures.* Each disbursing officer when opening his first account, before issuing any checks, shall furnish the Treasurer of the United States or other authorized depository (drawee) with his official signature, duly verified, in the form to be used when signing checks.

§ 208.15 *Exceptions to part.* This part does not apply to postal funds nor to court funds deposited under the provisions of sections 995 and 996 of the

Revised Statutes of the United States, U. S. C., title 28, secs. 851 and 852, except as otherwise herein provided.

§ 208.16 *Transactions by disbursing officer under act approved December 23, 1944 (Public Law No. 554, 78th Congress).* Transactions of disbursing officers effected under rules and regulations authorized by the act approved December 23, 1944 (Public Law No. 554, 78th Congress) are not covered by this part.

§ 208.17 *Withdrawal or amendment of part.* The Secretary of the Treasury may waive, withdraw or amend at any time or from time to time any or all of the provisions of this part.

Acting Secretary of the Treasury.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 10]

USE OF HH RATINGS FOR BUILDING BOARD IN THE VETERANS' EMERGENCY HOUSING PROGRAM

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of building materials and building supplies for defense, for private account and for export; and the following direction is deemed necessary and appropriate in the

public interest and to promote the national defense:

(a) *Purpose of this direction.* Priorities Regulation 33 and Direction 8 to Priorities Regulation 33 provide for assignment of HH ratings to secure materials, listed on Schedule A to PR 33 and on List 1 to Direction 8 to PR 33, which are required for use in the Veterans' Emergency Housing Program. Among these is building board. This direction explains the use of the HH rating and also what the restrictions are in connection with the sale of building board by producers and dealers.

(b) *Definitions.* For the purpose of this direction:

(1) "Building Board" means board made from wood pulp, vegetable fibres, pressed paper stock, or multiple plies of fibred stock, produced for use in building construction and commonly referred to in the building trade as structural insulation board, sheathing, lath, tile board, plank, thin board, roof insulation, laminated fibre wall board, and laminated fibre tile board. The term does not include the product known as hardboard.

(2) "Producer" means a person owning or operating facilities in which building board is manufactured.

(3) "Dealer" means a person who buys building board from a producer or other person for resale as such.

(c) *Handling of HH rated orders by producers.* Producers must accept and fill rated orders (AAA, MM, CC and HH) for building board, including HH rated orders from manufacturers of prefabricated houses, in accordance with the provisions of Priorities Regulation 1, except that no producer is required to accept HH rated orders for more than 15% of all building board (calculated on a combined square footage basis) sold or delivered by him since May 10, 1946. A producer may not reject an HH rated order which he is not required to fill under the above rule, but must promptly notify his customer approximately when he expects to fill the order out of later production.

(d) *HH ratings are not extendible.* A dealer who receives an HH rated order for building board shall not extend the rating.

(e) *Maximum amounts dealers need to sell on HH-rated orders.* Dealers must accept and fill rated orders (AAA, MM, CC and HH) for building board in accordance with the provisions of Priorities Regulation 1, except that no dealer is required to accept HH-rated orders for more than 50% of all building board (calculated on a combined square footage basis) sold or delivered by him since May 10, 1946. Direct shipments from a producer to a user for a dealer's account shall be considered as deliveries by the dealer. Sales or deliveries by dealers to other dealers shall not be considered as sales or deliveries for the purpose of this paragraph. A dealer may not reject an HH-rated order which he is not required to fill under the above rule, but must promptly notify his customer approximately when he expects to fill the order out of later shipments.

[Conservation Order M-217, Suspended]

SUSPENSION OF ORDER M-217 CONTROLLING
FOOTWEAR

(a) Conservation Order M-217 and all authorizations and other instruments addressed to named persons under that

order are hereby suspended. This suspension is possible because of the increased production of footwear. If a change in the situation should occur, it may be necessary to reinstate the order in whole or in part.

(b) This suspension does not affect any liabilities incurred for violation of Order M-217 or of actions taken by the War Production Board or the Civilian Production Administration under the order.

PART 4700—VETERANS' EMERGENCY
HOUSING PROGRAM

[Veterans' Housing Program Order 1, Interpretation 3]

PORTABLE AND PREFABRICATED STRUCTURES

The following interpretation is issued with respect to Veterans' Housing Program Order 1:

(a) The erection of a "portable" or prefabricated building or other structure is construction and is restricted by Veterans' Housing Program Order 1, if the structure is placed on a foundation constructed on the site, or if the structure is connected to the ground by plumbing, wiring or other utility connection, or if the structure is placed on the ground on a spot where it is intended to remain for an undetermined time.

(b) Erection of a "portable" or prefabricated structure is not construction and is not covered by VHP-1 only if the structure is placed on a temporary site for the purpose of moving it from time to time, without any foundation or other connection with the ground. For example, the erection of a shelter to be moved around frequently for use on different parts of a farm from time to time is not construction, while the erection of a prefabricated or "portable" structure for use as a garage on a house lot is construction, and is restricted by VHP-1.

(c) If the erection of a "portable" or prefabricated building constitutes construction, as indicated above, the cost of the job must be computed in accordance with paragraph

(d) (2) of VHP-1. The cost of the building (unless it has been used previously), the cost of new materials and new fixtures and mechanical equipment installed, and the cost of paid labor and contractor's fees involved must all be counted. If the cost of the job, computed in this way, exceeds the applicable allowance under paragraph (d) (1) of VHP-1, authorization for the job must be obtained before the job is started.

[Directive 108]

PART 4003—SUBSIDIES: SUPPORT PRICES ABSORPTION OF OCEAN FREIGHT COSTS AND HANDLING CHARGES IN CONNECTION WITH PURCHASE OF 1945-46 CROP OF RAW CANE SUGAR FROM PUERTO RICO AND FROM THE VIRGIN ISLANDS

The Secretary of Agriculture has submitted certain information and recommendations to me with respect to the purchase of the 1945-46 crop of raw cane sugar from Puerto Rico and the Virgin

Islands. It appears that, in order to sell the sugar purchased to United States refiners at existing ceiling prices, Commodity Credit Corporation will be obliged to absorb ocean freight costs above the present charges and certain handling charges, at a loss to the Corporation of approximately \$3,000,000.

After careful consideration, I hereby find that the proposed program is necessary to insure the maximum necessary distribution of sugar during the coming months.

Accordingly, pursuant to the authority vested in me by the Stabilization Act of 1942, as amended, and by Executive Order 9250 of October 3, 1942 (7 F.R. 7871), Executive Order 9328 of April 8, 1943 (8 F.R. 4681), Executive Order 9599 of August 18, 1945 (10 F.R. 10155), Executive Order 9651 of October 30, 1945 (10 F.R. 13487), Executive Order 9697 of February 14, 1946 (11 F.R. 1691), and Executive Order 9699 of February 21, 1946 (11 F.R. 1929), *It is hereby ordered:*

The Department of Agriculture is authorized and directed to carry out through the Commodity Credit Corporation the program as described in the Secretary of Agriculture's letter and the memorandum enclosed therewith.

This directive is in addition to, and not in substitution of, the directives of July 30, 1945 and July 31, 1945 with respect to grower and processor payments.

Issued and effective this 2d day of May 1946.

[MPR 188, Amtd. 2 to Order 4890]

HOUSEHOLD FURNITURE

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and

filed with the Division of the Federal Register, and pursuant to § 1499.159b of Maximum Price Regulation No. 188, *It is ordered:*

Order No. 4800 under Maximum Price Regulation No. 188 is amended in the following respects:

1. The first sentence of section 2 (a) is amended to read as follows: "This order covers articles of wood household furniture, including upholstered furniture, and any other article listed in Appendix A, or belonging in categories listed in Appendix B or C, with the exception of any article whose maximum price was established under Order No. 4332 or Revised Order No. 4332, under Maximum Price Regulation No. 188 and certain articles listed in paragraph (b) of this section."

2. The last paragraph of section 2 (b) is amended to read as follows:

The word "you", as used in this order, means a manufacturer who makes a sale or delivery of an article covered by this order to a purchaser for resale or to another manufacturer. No adjustment of maximum prices on sales by a manufacturer to consumers is authorized.

3. Section 4 (a) is amended by adding a sentence at the end thereof to read as follows: "If you customarily sell your articles to other manufacturers, and do not have any customary or established uniform differentials to use in finding the appropriate cut-off point for sales to other manufacturers, your cut-off point to that class of purchasers is 13% less than the cut-off point listed in Appendix A."

4. The first sentence of section 4 (c) is amended by inserting the parenthetical phrase "(at least 60" in length)" after the word "buffet."

5. The last two sentences of section 5 (c) are amended to read as follows: "For this purpose 'maximum price' means the maximum price properly determined under Maximum Price Regulation No. 188 after all trade, quantity and other discounts (except cash discounts) have been deducted. If you have a customary or established dollar-and-cent differential for the same article in different finishes (not species of wood), hardwares, sizes or packing, or in the case of chairs in different types of seats (for example, all wood seats, slip seats, etc.), the 'maximum price' to which you apply the percentage permitted by this paragraph is your maximum price for the article in its lowest priced condition. Your customary or established differentials may then be added to the maximum price so adjusted. However, if you continue to adjust all of your maximum prices by no more than the 5 percent previously authorized by Order No. 1052 under Maximum Price Regulation No. 188, you may continue to compute your adjusted maximum prices in the manner provided by that order prior to its revocation, without regard to any contrary provisions contained in this section."

"In figuring the amount by which you may increase your maximum price, fractions may be rounded to the nearest cent."

6. A new section 5 (d) is added to read as follows:

(d) *How to find the adjusted maximum prices for certain sets or suites.* You will use the rule in this paragraph to find your adjusted maximum price for a set or suite only if your maximum price for the particular set or suite is different from the total of the maximum prices of the individual pieces in the set or suite. To find your adjusted maximum price for such a set or suite, you use the following steps:

Step 1. Find the adjusted maximum prices under paragraph (c) above for the individual pieces in the set or suite, and the total of those prices.

Step 2. Find the total of the properly established maximum prices, exclusive of all permitted increases, for the individual pieces in the set or suite.

Step 3. Find the percentage amount by which the total obtained in Step 1 exceeds the total obtained in Step 2. The resulting figure is the percentage amount of adjustment which you may apply to your properly established maximum price (exclusive of all permitted increases) for the set or suite.

7. The last sentence of "Step 2" in section 6 (a) (2) is amended to read as follows: "Your 'category fabric grade' is that last counted fabric grade or that grade of fabric in your line representing a cost bracket which includes \$1.00 per yard of 54" fabric, whichever is higher."

8. The last two sentences of section 6 (c) are amended to read as follows: "For this purpose 'maximum price' means the maximum price properly determined under Maximum Price Regulation No. 188 after all trade, quantity, and other discounts (except cash discounts) have been deducted. If you have a customary or established dollar-and-cent differential for the same article in different upholstery constructions, filling materials, or tailoring extras (such as edgings, decorative nails, etc.), the 'maximum price' to which you apply the percentage permitted by this paragraph is your maximum price for the article in its lowest priced condition. Your customary or established differentials may then be added to the maximum price so adjusted. However, if you continue to adjust all of your maximum prices by no more than the 5 percent previously authorized by Order No. 1052 under Maximum Price Regulation No. 188, you may continue to compute your adjusted maximum prices in the manner provided by that order prior to its revocation, without regard to any contrary provision contained in this section."

In figuring the amount by which you may increase your maximum price, fractions may be rounded to the nearest cent.

9. A new section 6 (d) is added to read as follows:

(d) *How to find the adjusted maximum prices for certain sets or suites.* You will use the rule in this paragraph to find your adjusted maximum price for a set or suite only if your maximum price for the particular set or suite is different from the total of the maximum prices of the individual pieces in the set or suite. To find your adjusted maximum price for such a set or suite, you use the following steps:

Step 1. Find the adjusted maximum prices under paragraph (c) above for the individual pieces in the set or suite, and the total of those prices.

Step 2. Find the total of the properly established maximum prices, exclusive of all permitted increases, for the individual pieces in the set or suite.

Step 3. Find the percentage amount by which the total obtained in Step 1 exceeds the total obtained in Step 2. The resulting figure is the percentage amount of adjustment which you may apply to your properly established maximum price (exclusive of all permitted increases) for the set or suite.

10. Section 9 (a) is amended to read as follows:

(a) If you adjust the maximum prices of all of your articles covered by this order by no more than the 5 percent previously authorized by Order No. 1052 under Maximum Price Regulation No. 188 you need not file any reports for those articles if you notify the Office of Price Administration, Washington, D. C., that you are not adjusting your maximum prices by more than five per cent and with respect to the particular article you had filed the report required by Order No. 1052 under Maximum Price Regulation No. 188 before its revocation. However, if you did not file a report under Order No. 1052 for the particular article, you must report items (1), (2), and (7) below, even though you do not adjust any of your maximum prices by more than 5 per cent. In any case, if you adjust any of your maximum prices by more than 5 per cent, you must comply with the reporting requirements set forth below in this section.

11. Section 10 (c) is amended by adding the following paragraphs at the end thereof:

If, in accordance with section 4 or 7 of Maximum Price Regulation No. 590 a wholesaler elects to sell an article at his "highest price charged during March 1942", instead of at the price found by applying his "category markup" to his "net cost", the "unadjusted maximum price" which must appear on the wholesaler's invoice for that article is the same as his selling price.

If, in accordance with section 3a of Maximum Price Regulation No. 590 a wholesaler adopts as his own the manufacturer's ceiling prices to a particular class of purchaser, the "unadjusted maximum price" which must appear on his invoice for the article is the same as the manufacturer's "unadjusted maximum price" for sales of that article to the same class of purchaser.

12. Section 11 is amended to read as follows:

Sec. 11. *Maximum prices of wholesalers whose sales are covered by the General Maximum Price Regulation; and of persons who resell commercial and institutional articles directly to the user.* A wholesaler who determines his maximum prices under the General Maximum Price Regulation, and any person who resells commercial or institutional furniture covered by this order directly to the user, finds his adjusted and unadjusted maximum price as follows:

(a) *Adjusted maximum prices.* (1) A seller who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable commodity" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall find his adjusted maximum price according to the method and procedure set forth in that section by adding the same markup which he had on that comparable article to the total of:

(i) His supplier's unadjusted maximum price, as it appears on his purchase invoice, and

(ii) 80 percent of the dollar-and-cent difference between his supplier's unadjusted maximum price and the wholesaler's actual invoice cost.

A seller may make sales covered by the General Maximum Price Regulation, at prices at or below his adjusted maximum price computed in this way.

The determination of a maximum resale price in this way need not be reported to the Office of Price Administration. However, each seller must keep complete records showing all the information called for on OPA Form 620-759, with regard to how he determines his maximum resale price. These records shall be kept available for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) If a seller cannot determine his adjusted maximum price under (1), he shall apply to the Office of Price Administration for the establishment of his adjusted maximum price under § 1499.3 (c) of the General Maximum Price Regulation. The application shall, in addition to the information specifically required by that section, also give the following information:

(i) His supplier's unadjusted maximum price as it appears on his purchase invoice.

(ii) His actual invoice cost.

An adjusted maximum price established in this way will be in line with adjusted maximum prices established generally under this order for resellers of the same class.

(b) *Unadjusted maximum prices.* (1) A seller who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable commodity" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall find his "unadjusted maximum price" according to the method and procedure set forth in that section by adding the same markup which he had on that comparable article to his supplier's unadjusted maximum price as it appears on his purchase invoice.

(2) If a seller cannot determine his unadjusted maximum price under (1), he shall, at the time he applies for an adjusted maximum price to the Office of Price Administration under paragraph (a) (2) of this section also apply for the establishment of an unadjusted maximum price. Unless such an unadjusted maximum price is established, he may not make sales of the article even though

his adjusted maximum price is properly established.

13. Section 12 is amended to read as follows:

SEC. 12. Maximum prices of retailers whose sales are covered by Maximum Price Regulation No. 580. This section modifies the pricing provisions of Maximum Price Regulation No. 580 with respect to articles covered by this Order. Unless the context otherwise requires, the definitions in Maximum Price Regulation No. 580 apply to the terms used in this section.

If the retailer determines his maximum price in accordance with Maximum Price Regulation No. 580, his maximum price shall be the price which he computes in accordance with that regulation by using a "net cost" based upon his supplier's unadjusted maximum price, as it appears on his purchase invoice.

14. Section 14 (a) is amended to read as follows:

(a) A manufacturer who adjusts the maximum prices of all of his articles covered by this order by no more than the 5 per cent previously authorized by Order No. 1052 under Maximum Price Regulation No. 188 may continue to furnish invoices in the form required by Order No. 1052 under Maximum Price Regulation No. 188 before its revocation, except that his invoice must contain the notice set forth in paragraph (b) (8) of this section, instead of the notice formerly required by Order No. 1052. Where the manufacturer furnishes such an invoice, the manufacturer's "unadjusted maximum price" which wholesalers and retailers use as a basis for determining their resale prices under sections 10, 11, 12 or 13 is the price appearing on the invoice before the addition of the adjustment charges.

15. Section 14 (b) (3) is amended to read as follows:

(3) The model designation of the article and such other description as may be necessary to identify the article on his pricing records. In the case of upholstered furniture when sold by the manufacturer, the manufacturer shall show on the invoice an identification of the cover fabric, including his cover grade designation and a pattern number or name on the basis of which he can, from his records, identify his supplier and his supplier's pattern number or name for that fabric.

16. The description of the article in the listing of "Dining room furniture (suites)" in Appendix A is amended to read as follows:

Any piece of a dining-room suite or grouping having a buffet not less than 60" in length or a credenza not less than 54" in length for which the table, buffet or china closet and 6 chairs have a combined price below the cut-off point. (See sec. 4 (c)) ----- \$75.00

17. Appendix A is amended by the addition of the following article under "Bedroom furniture (odd pieces)":

Double-deck beds ----- \$23.00

This amendment shall become effective on the 13th day of May 1946.

NOTE: The reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 7th day of May 1946.

This order, issued under Section 1499.159b specifies an interim price increase factor for manufacturers of mechanics' hand service tools and contains the specific pricing provisions which manufacturers and resellers are to follow in calculating their maximum prices for sales of the product.

SEC. 2. What this order covers. As used in this order, the term "mechanics' hand service tools" means the following manually operated tools which are covered by Maximum Price Regulation No. 188; auto mechanics tools, chisels, mechanics' hammers, pliers, punches, screw drivers, metal cutting snips and shears, wrenches and spanners including sockets and drivers, nail sets, metal tool cases and tool kits.

SEC. 3. Manufacturer's maximum prices. A manufacturer's adjusted maximum price for sales of a mechanic's hand service tool is the higher of the following amounts:

(a) His highest price in effect between October 1 and 15, 1941 for sales to each class of purchaser, increased by 5 percent.

(b) His maximum price for sales to each class of purchaser established under §§ 1499.153 through 1499.158 or § 1499.159c of Maximum Price Regulation No. 188 (exclusive of any adjustment charge heretofore granted), increased by 5 percent.

SEC. 4. Interim maximum prices of purchasers for resale. Resellers of an article which the manufacturer has sold at an adjusted maximum price determined under this order shall determine their maximum prices as follows:

(a) A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he paid to, his supplier.

(b) A reseller who did not have a properly established maximum price in ef-

fect before this order was issued, shall first determine such a maximum price (exclusive of any adjustment charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose, the reseller shall add to his invoice cost, less the adjustment charge stated on that invoice, the same percentage mark-up which he has on the "most comparable article" for which he has a properly established maximum price. For this purpose, the "most comparable article" is one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a maximum price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his maximum price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(c) If the maximum resale price cannot be determined under the above methods, the reseller shall apply to the Office of Price Administration for the establishment of a maximum under § 1499.3 (c) of the General Maximum Price Regulation. Maximum prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

SEC. 5. Invoices and price lists. Every manufacturer or reseller making a sale to a purchaser for resale of an article at a maximum price which has been adjusted in accordance with section 3 (a) or 3 (b) of this order in the case of a manufacturer, or in accordance with section 4 (a) or 4 (b) in the case of any other seller, shall:

(a) Furnish an invoice for each sale on which the amount of the adjustment charge authorized by those sections is separately stated, or,

(b) Furnish a price list which separately states both his unadjusted maximum prices and his adjusted maximum prices as authorized by this order.

SEC. 6. Terms of sale. Maximum prices adjusted by this order are subject to each seller's customary terms, discounts, allowances and other price differentials on sales to each class of purchaser.

SEC. 7. Notification. At the time of, or prior to, the first invoice to a purchaser for resale showing a maximum price determined in accordance with the terms of this order, the seller shall notify the

purchaser in writing of the method established in section 4 for determining adjusted maximum prices for resale of mechanics' hand service tools covered by this order. This notice may be given in any convenient form.

SEC. 8. Relationship of this order to Maximum Price Regulation No. 188 and the General Maximum Price Regulation. The provisions of this order supersede the provisions of Maximum Price Regulation No. 188 and the General Maximum Price Regulation only to the extent that they are inconsistent with the provisions of those regulations.

SEC. 9. Revocation or amendment. This order may be revoked or amended by the Price Administrator at any time.

SEC. 10. Effective date. This order shall become effective on the 7th day of May 1946.

NOTE: All reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.
