8. Report on the incentives for delivery

Regarding the incentives for staple food delivery for 1949, there is no change in the report as of April, 1950 relative to the amount of allocation, of receipt and of distribution.

The cause of the fact that there is no change as to the amount of distribution is due to the fact that prices of clothing have seriously fallen nowadays owing to economical circumstances. As to the disposition of the remaining goods, it was decided to return them to the wholesale dealers with the receiving prices in accordance with the Temporary disposition measure concerning expediting of circuration of incentive clothing for staple food delivery, and the disposition of the goods which we had as remaining have been completed recently.

But it seemed that each town or village may have some of remained goods, and we are now inquiring for the amount of the remaining stock. We will return them as soon as the inquiry is completed.
