VOL. 40.

## NEW PRESIDENT WILL TOUR SYSTEM

### E. J. CHAMBERLIN TELLS OF PROGRESS ON G. T. P.

#### Line Between Fort William and Prince Rupert Will Be Completed Next Year

Montreal, June 20.—E. J. Chamberlin, president of the Grand Trunk Pacific and Grand Trunk railway, will start on Sunday or Monday next on an official tour of the system, going to Chicago and on to Winnipeg. The president will then proceed over the Grand Trunk railway as far as the end of the track, leaving the inspection of the Pacific coast section to a later date.

In an interview yesterday, Mr. Chamberlin made the following announcement: "Unless labor difficulties prevent it, the Grand Trunk Pacific rails will be laid from Fort William to Prince Rupert by the end of next year. One year later, a friendly company will have completed the Vancouver branch from Fort George down the Fraser to British Columbia's present chief seaport, while J. D. McArthur, at the head of another friendly company, will have reached the Peace River country 350 miles from Edmonton."

"One year after Montreal and Prince Rupert are united by the G. T. P. company's rails, as soon as condition for carrying through freight are perfected, the G. T. P. steamship service will be established between Prince Rupert and a port in the Orient."

President Chamberlin says that ship masters assure him that by sailing from Prince Rupert about two days will be saved over the Vancouver route.

Mr. Chamberlin made an estimate of the amount of grain the G. T. P. would probably haul out of the prairie country this year. Against \$500,000,000 brought out last year, he believed that the figures this year would be near \$2,000,000,000.

Speaking of the crop, Mr. Chamberlin said, that although he had not received late intelligence, he was convinced that with good weather conditions, the crop for 1912 should reach at least \$50,000,000 bushels.

He said he had been following the cement controversy, and he claimed that the blame could not be laid on the back of the railways. The trouble was the lack of vessel accommodation on the lakes. The president is of the opinion that the G. T. P. has been exceedingly fortunate in securing the services of Mr. Donaldson as vice-president and general manager west of the Great Lakes.

"He does not make much noise," said the president, "but he is a very able man, and I think he will make a record among the big railway men who have been operating in the west."

Later on, said Mr. Chamberlin, as the railway grows, a general manager will be appointed down here as well as for the Atlantic division, but at present he would look after matters here himself.

## BOY DROWNED.

Sherbrooke, Que., June 20.—A drowning accident occurred above the Paton Mill dam yesterday in which a young lad named Newman lost his life. Together with his older brother, he was playing in a rowboat when it upset. The younger boy, who was about 8 years old, was unable to reach shore and was drowned. His body was recovered. The older boy was saved.

## EXECUTION AT LETHBRIDGE.

Lethbridge, Alta., June 20.—Fred Carlson was hanged yesterday for the murder of Norman Merritt, a year ago. He was accompanied to the gallows by two Salvation Army women, whom he had requested to remain with him to the end. Carlson never faltered.

## MEXICAN FEDERAL FORCE ADVANCING

### Leader of Government Cavalry Reports Rout of Rebels in Outpost Fighting

At General Huerta's Federal Headquarters, Santa Rosalia, Mex., June 20.—The order to move north on the Mexican rebel stronghold at Bachimba was given today by General Huerta, the federal commander. The victorious 1,800 cavalry, under General Rabago, is expected to be in the first skirmishes with the enemy. The entire division, commanded by General Huerta, probably will be encamped at La Cruz or Concho at nightfall.

The outpost fighting has resulted in a loss of seven federal dead, sixteen wounded and fifty horses killed. The rebel losses are estimated at much greater figures because the government outposts claim to have occupied advantageous positions in the hills twenty miles north of here. General

## TRouble IN RANKS OF DEMOCRATS

### FIGHT LIKELY OVER TEMPORARY CHAIRMAN

#### Bryan Prepared to Take Floor in Opposition to Judge Parker

Baltimore, Md., June 20.—Opposition developed unexpectedly last night to the naming of Judge Alton B. Parker, of New York, for temporary chairman of the Democratic national convention. While a majority of the arrangement committee that will today select the temporary officer of the convention were favorable to the selection of Judge Parker, it became known last night that friends of William J. Bryan had come out against Judge Parker's selection, and that a new choice might have to be made.

The statement was made by those opposed to Judge Parker's selection by the arrangement committee, and that as this was a conservative, and that as this was a progressive campaign a progressive chairman should be named for temporary chairman to make the keynote speech.

Leaders of the movement to nominate Speaker Clark for president planned to hold a meeting in Washington to determine whether they would present to the arrangement committee a candidate for temporary chairman. The Wilson leaders were uncertain whether they would urge the selection of a temporary chairman known to look with favor upon Wilson for president.

Clark Howell, national committee man from Georgia, believes Oscar Underwood is the logical candidate for president.

"If Oscar Underwood came from any state north of the Ohio river," said Mr. Howell, "he would be nominated unanimously."

It was generally reported last night that W. J. Bryan would be chairman of the committee on resolutions. The news of Mr. Bryan's nomination last night that a member of the arrangement committee had talked with Col. Bryan at Chicago over the telephone, and after Bryan had been made acquainted with the purpose of the committee to name Judge Parker as temporary chairman, Bryan was quoted by a committee man as replying that the Democratic party was four-fifths progressive—that a progressive man should be named and that Judge Parker selected as temporary chairman he would be prepared to oppose him on the floor of the convention.

Admirer of Speaker Clark and Gov. Wilson said they had no candidate for temporary chairman, and hoped the committee would settle the question without recognizing any issue on the floor of the convention.

Friends of Speaker Clark and Gov. Wilson admitted that if Bryan took the floor to oppose Parker, it might mean that Bryan would become a candidate for the presidency.

Admirer of Speaker Clark and Gov. Wilson said they had no candidate for temporary chairman, and hoped the committee would settle the question without recognizing any issue on the floor of the convention.

## FOUR FOUND DEAD.

### Mother Takes Three Children into Room and Turns on Gas.

Springfield, Mass., June 20.—During the absence of her husband yesterday, Mrs. Clara B. Cross took three of her children into a darkened room and turned on the gas. When her husband returned all were dead. In a note the woman said she knew she was insane and so had decided to get what comfort she could in death.

## FRENCH SEAMEN STRIKE.

### Several Liners Unable to Sail—Gov. ernment Will Fill Places of Strikers.

Marseilles, June 20.—The strike of seamen, declared Tuesday, has tied up the port and several liners have cancelled their sailings. The government is sending bluejackets to replace the strikers, and is holding reserves to convey the mails if necessary.

## GUN NOT TAKEN AT BUNKER HILL

### HAS ALWAYS BEEN PROPERTY OF ENGLISH

#### Styled as Captured Cannon to Please American Visitors to Quebec

Quebec, June 20.—An interesting letter in connection with "the Bunker Hill gun" has been written to a local paper by Col. Neilson, president of the Quebec Literary and Historical Society. It clears away a good deal of the confusion and adds color to the theory that the inscription to the captured Bunker Hill gun was placed on it by a subaltern.

In his letter, Col. Neilson says: "The so-called Bunker Hill gun has engaged the attention of the press and the public for some weeks. The real story of this cannon appears to be unknown. I know its history and therefore feel justified in making a statement concerning it."

Col. Neilson then goes on to say that the gun has always belonged to the English and was only styled as the one captured at Bunker Hill to make it interesting to American visitors.

## FUNERAL OF VICTIMS OF AUTO ACCIDENT

### Remains of Mrs. Harvey and Son Interred at Vancouver

Vancouver, June 20.—Lying in pain on a cot at the Vancouver General hospital, Mrs. Harvey was able yesterday to get out the first personal statement regarding the automobile accident on Sunday, when his wife and year-old child were instantly killed, and he himself painfully injured. Mr. Harvey was not able to attend the funeral of the two victims.

"I was coming up the hill at a moderate speed, my wife sitting beside me," said Mr. Harvey. "We were not travelling along the dangerous side of the road, but were on the inside, nearest the high bank. Suddenly striking dry sand, the wheels swerved, and the machine went over the bank head foremost."

"The road from the bottom of the hill is comparatively hard and firm until the scene of the accident, where it is loose, dry sand. It was on entering this that the front wheel turned toward the edge, and before they could be straightened, carried the automobile down the bank."

This was all that Mr. Harvey could tell of the accident. When the machine plunged fifty feet down the steep bank it struck a small clump of trees and hurled the occupants from the car. Mrs. Harvey and the year-old child were pinned beneath the footboard and smothered in the light sand. Two other children, who had been sitting in the rear seat, were miraculously saved from all injury. Mr. Harvey was able to walk up to the top of the hill, but is still suffering from painful injuries to his back.

The accident occurred last Sunday about 4 o'clock on the Ladner road, four miles out of New Westminster. The victims of the accident, Mrs. Lilian Harvey, who was thirty-four years of age, and Reginald, the tiny son, were chosen as his successor.

H. G. Wasagon, a Flynn man, has been chosen as his successor. "Adjourn the credentials committee hearing for fifteen minutes."

The motion was overwhelmingly defeated and under Chairman Devine's orders, the sergeant-at-arms invited Mr. Halbert to take his seat.

Withdraws From Convention.  
The California delegation met this morning and prepared a resolution announcing its withdrawal from the convention. The delegates said they would

## ROOSEVELT FORCES LIKELY TO BOLT

### DEMAND UNSEATING OF CONTESTED DELEGATES

#### Will Not Recognize Convention Unless Hadley's Motion is Adopted

Chicago, June 20.—The Roosevelt supporters held a long conference this morning at the Roosevelt headquarters in the Congress hotel, and when the conference broke up a group of excited, irritable leaders broke from the doorway of the colonel's suite.

Wm. Flynn, of Pennsylvania, the first to come out, dashed down a back stairway.

"There is nothing to say; nothing is decided," he flung over his shoulder. "The convention will adjourn to give us time to form plans."

Senator Clapp waved all inquirers away with an impatient exclamation. All of the other men in the conference hurried away, elbowing their way through the big crowd that had congregated before the door and that had necessitated the calling of a squad of police.

Later there came a declaration from the Roosevelt headquarters to the effect: "That the Republican voters of the country already have nominated Theodore Roosevelt for the presidency of the United States and that Roosevelt is the national Republican convention as regular unless the Hadley motion to oust the 72 contested delegates be adopted."

This statement was said to be authoritative and to be direct from Col. Roosevelt himself, and his campaign manager, Senator Dixon.

Conflicting reports came from the Roosevelt headquarters that Colonel Roosevelt had released his delegates from all obligations to vote for him. At 11:20 a. m. the colonel issued a statement which was variously interpreted. It said:

"The time has come when I feel that I must make certain statements, not only to the honestly-elected members of the Republican national convention, but to the rank and file of the Republican party and the honest people of the entire nation. I want to state in plain and certain great principles. At the moment I can only serve these principles by continuing to bear the personal responsibility which their advocacy has brought me."

Former Governor Regis H. Post, of Porto Rico, earlier had announced that Col. Roosevelt had released his delegates, but would remain in the race. This statement was accepted by a number of the Roosevelt leaders. The colonel's own statement was so interpreted.

O. K. Davis, of the Roosevelt headquarters, however, said he was authorized by the colonel to say the statement as to the release of delegates was absolutely false.

After being in conference with Col. Roosevelt for thirty minutes, Governor Hadley, the Roosevelt floor leader, said: "I will continue in the fight on the same lines as I have been following in the convention."

Asked about a report of a disagreement between himself and Col. Roosevelt, he denied there was any foundation for it.

The Credentials Committee.  
Roosevelt members of the credentials committee, acting under the suggestion of Colonel Roosevelt, returned to the meeting of that committee today. Their statement last night that they "had left the committee for good" was followed by decision to go back and participate in the hearing of contested cases.

Under the revised rules, the Roosevelt men claimed they had won their chief points, namely—to secure the introduction of new evidence and to secure greater time for debate.

More than an hour and a quarter was occupied by the Roosevelt attorneys in presenting the Roosevelt side of the first case called, that of the Ninth Alabama district.

Members of the committee expressed doubt as to the possibility of concluding the seventy-two contested hearings in time to make a report to the national convention this afternoon.

Flynn's Action.  
William Flynn, now national committee man from Pennsylvania and one of Colonel Roosevelt's chief lieutenants in the nomination fight, confirmed early today a report that he had left the regular Republican organization after the all-night conference with Roosevelt leaders.

"I am not a member of that committee," he said. "That's all there is to it."

H. G. Wasagon, a Flynn man, has been chosen as his successor. "Adjourn the credentials committee hearing for fifteen minutes."

The motion was overwhelmingly defeated and under Chairman Devine's orders, the sergeant-at-arms invited Mr. Halbert to take his seat.

## REGINA RATES CASE CONCLUDED

### RAILWAY BOARD RESERVES DECISION

#### Counsel for the Complainants Declares Discrimination Still Exists

Ottawa, June 20.—After three additional hours of argument, the Regina freight case which was taken up by the railway board on Tuesday, was concluded yesterday, but no pronouncement was made in regard to the matter by the commission.

M. K. Cowan, K. C., who has been instructed by the attorney-generals of Saskatchewan and Alberta to represent all cities and towns in the two provinces affected, stated in the course of his argument that the facts of the matter are that the railroads have failed to comply with the order of the board of 1910, and the discrimination in rates which existed in Winnipeg, Brandon and Portage la Prairie jobs and other more westerly situated business men must be removed.

Mr. Cowan contended that the reduction in the maximum rates put into effect by the railways as a result of the order, had amounted to 21 per cent. to Winnipeg, while the reductions to Regina had amounted to only 15 per cent. As a consequence, discrimination in favor of the Winnipeg man exists to-day just as it existed before the order was issued.

W. B. Lanigan, freight traffic manager of the C. P. R., west of Fort William, testified that the rates between Fort William and Winnipeg had been based upon an assured mileage. Commenting on this statement, Mr. Cowan said that in basing the rates between Fort William and Winnipeg on an assured mileage, Mr. Lanigan had done something which had not been done before.

C. H. Phippen, for the C. N. R., said: "The progress of Canada is, after all, dependent on railway extension, and railway extension in turn is dependent largely on outside capital. If any changes in the rates are made whereby the railways may not be able to meet their obligations, we may wake up some morning to find that the capital has flown over night. It may take a decade to readjust condition again, and it would be a decade of disaster."

He deprecated any hasty action by the board in regard to the cases it was considering, urging that the railways in making the rates complained of were influenced by conditions they could not afford to neglect.

"We do not intend to hold up any company," said Commissioner McLean, reassuringly.

Mr. Phippen repeated his statement of the previous day, that the order of the board had been complied with.

Mr. Lanigan said that, in carrying out the orders of the board he had done his best to make a proper rate, based on the fixed rate between Fort William and Regina. The order of the board in regard to the reduction of the rates on implements, he said, had been faithfully carried out, and there had been a considerable reduction in all points in Saskatchewan and Alberta.

Mr. Cowan then proceeded with his argument. After touching briefly on the history of the case, he said that no one engaged in the business of making tariffs for the railways had anything to do with it. In trying to conform to the orders of the board, the men who revised the tariffs thought they were dealing with constructed mileage, whereas the fixed rates between Fort William and Winnipeg were based upon assured mileage.

SOUTHAMPTON STRIKE OVER.  
London, June 20.—The dock strike at Southampton has collapsed and the men resumed work unconditionally. The London strike is still on.

## PICKED UP BODIES OF TITANIC VICTIMS

### Remains of Three Stewards Found 370 Miles From Scene of Disaster

New York, June 20.—The captain of the steamer Hford, which has just reached Hamburg from Galveston, reports having found the bodies of three Titanic victims 370 miles from the spot where the liner sank.

Papers were found on the bodies showing that they were three stewards whose homes were on the Isle of Wight. The bodies were buried at sea.

## MONTREAL TUBE RAILWAY.

Montreal, June 20.—Engineers representing the Metropolitan Railway Company of Montreal have begun work on a system of tubes which are to be laid in the city. The company expects to spend \$1,000,000 in its system, which, it is claimed, will resemble that of New York when completed.

### CONVICT SCALDED TO DEATH.

Was Trying to Escape Through Sewer When Boiling Water Descended Upon Him.

Atlanta, Ga., June 20.—In attempting to escape, hindered by double shackles, John Wallace, a convict serving a term at the city-stockade, was scalded to death in a sewer. Wallace was working with the road gang when he approached a manhole. Seeing an opportunity to get away he waited until the guard's back was turned and then dropped into the hole, and in a minute was out of sight in its windings. Ten minutes after he entered, and while the guards were standing over all manholes waiting, gun in hand, for him to attempt to get out, ten thousand gallons of boiling water were let loose in

a raging torrent by the factory of the Fulton, Bag and Cotton Mills. Hoping to rescue the convict Guard Manders, from whom he made his escape, volunteered to enter the sewer, but the superintendent of works told him that it was useless, and refused to allow the sacrifice. The convict was only a short distance in the sewer when the flood of boiling water struck him, and it is believed by the officers that he was literally cooked alive.

### MAY DIE FROM INJURIES.

Montreal, June 19.—Struck in his leg by a train while trying to drive across the railway tracks here Alphonse Dandurand, an ex-member of the Nelson B. C. Hockey Club, was terribly injured yesterday and is not expected to live.

### SKELETON OF MISSING HOMESTEADER FOUND

Disappeared Eight Years Ago While on Way to Homestead in Saskatchewan

Humboldt, Sask., June 20.—The skeleton of a man who disappeared eight years ago has been brought to town by Sergeant Gray, of the R. N. W. M. P. It appears that in August, 1904, a man named Ferdinand Spath, from Highlandtown, Baltimore, fled upon a homestead in the Lake Lenore district, north of here. The district where the homestead is situated is densely covered with wood.

Spath proceeded for his homestead on foot, but mysteriously disappeared. The district at that time was very sparsely populated, the nearest settler then being two miles from where the skeleton was found. When the man was missed in 1904 a search party was organized, but no trace of the unfortunate man could be discovered. It was known when he left Humboldt that he had with him a handbag and some fish hooks, and it was through this means that identification was made possible. For amongst the remains was found the iron top of a handbag and some fish hooks.

The remains found were the skull, thigh bones and parts of the ribs, the top of a handbag, fish hooks, German prayer book, sole of a boot and some pieces of clothing. The skull is an excellent state of preservation, one tooth remaining intact in the upper jaw and three in the lower. The prayer book was also in very good condition, considering the length of time which it has been exposed.

M. Foster, a homesteader, who fled upon the place this year, was the discoverer. Foster was clearing the bush to be ready for breaking, when he came across a skull, and on making search found the other remains. He immediately made the police acquainted with the discovery.

### CHICAGO POISONING CASE.

Five Mysterious Deaths Will Be Investigated by Authorities.

Chicago, June 20.—Arsenic in large quantities has been found in the liver of Arthur Lindelf, whose mother, Mrs. Louise Lindelf, is under arrest in connection with his death, according to a report by Prof. Walter S. Haines, submitted to Coroner Hoffman yesterday. After receiving the report of the chemical analysis, Coroner Hoffman obtained an order for the exhumation of the bodies of William Lindelf and Alma Lindelf, husband and daughter respectively of the accused woman.

Mrs. Lindelf's arrest followed the sudden death of her son, June 13. Five deaths that have occurred in her family in the last three years are to be investigated.

The Grand Trunk railway reports that it has under construction 2000 box cars by the Canada-Car and Foundry Company at Montreal; 250 refrigerator cars at Amherst, N. C.; 200 box cars by the Western Steel Car and Foundry Company at Hegewisch, Ills.; 1000 coal cars by the Pressed Steel Car and Foundry Company at McKees Rocks, Pa.; 250 motor cars by the Western Steel Car and Foundry Company; 250 motor cars by the American Car and Foundry Company at Detroit; 250 refrigerator cars by the same company at its Chicago works, besides 10 passenger engines at its Montreal shops.

The Canadian Northern reports that it has under construction 1911 box cars, 132 flat cars and 61 locomotives, all being built in Canadian shops. This road also reports a large number of new round houses and other improvements in the west now under construction.

Most of this new equipment is intended to be used in coping with the great freight congestion expected to re-appear again after the harvesting of this year's crops in the west. Traffic experts, the members of the grain commission and other government officials have little hope of avoiding another great grain blockade this year.

The National Transcontinental line, which is the name given to the eastern end of the Grand Trunk Pacific and which is being built by the government, will not be connected up with the Grand Trunk Pacific this year, and in consequence there will be as heretofore only the Canadian Pacific "spout" through which to empty the great granary of the west to the east of Fort William after the close of navigation.

### The Secret Of Money Making

The rich men of today make money by having money. They are able to take advantage of the best money-making opportunities.

To get their start years ago they had to SAVE.

You can do the same by steadily depositing with our Savings Department which pays 4% interest.

### FIREFMEN HAMPERED BY LACK OF WATER

Have Hard Fight to Prevent Spread of Flames at South Vancouver

South Vancouver, June 20.—More than \$8,000 damage was done by a fire which destroyed the entire building occupied by the Imperial Sales Bldg. on Fraser avenue Tuesday. It was with the greatest difficulty that the department succeeded in preventing the spread of flames to adjacent buildings.

There were fifty-six horses in the building when the flames broke out, and only the coolness of the employees prevented damage which would have run into the twenty thousand figure. The horses were rushed out of the building at the first alarm.

Poor water pressure was the worst enemy which the fire department had to fight and a host of volunteers came to the aid of fire chief Wand and his men, who worked like Trojans. It was found necessary to call for assistance from the city, but the chemicals which arrived were too late to be of much aid in checking the fire in the stable. The chemicals, however, proved valuable when it came to preventing further disaster to other buildings and it was owing to their efforts that the damage was confined to one building.

It was practically impossible for the local firemen to get sufficient water power, and they were seriously handicapped in the fight.

Less than a block from the scene of the conflagration is the Mackenzie school, in which five hundred pupils were at work. The alarm was sounded, and the pupils were formed in line and marched out in a most orderly manner. A row of buildings on First street at Forty-seventh avenue caught on fire early, but the flames were quickly extinguished.

### BIG CEMENT PLANT.

Canadian Cement Company May Begin Operations at Medicine Hat.

Montreal, June 20.—A million-dollar cement plant at Medicine Hat is under consideration by the Canada Cement Company as a step toward meeting the demand for this commodity in the great west. Nelson Spencer, mayor of Medicine Hat, was in town a few days ago. He stated that he made the trip east to confer with F. P. Jones, general manager of the Canadian Cement Company, in regard to the proposed enterprise, and said his visit had been so successful that as a result, Mr. Jones would be in Medicine Hat about Hamilton-day to get things started.

### BRITISH COLUMBIA APPEALS.

Privy Council Gives Judgment in Three Cases From This Province.

London, June 20.—Judgment was given by the privy council in the following cases Tuesday:

Kurtz vs. the Crow's Nest Coal Co., Ltd., claim under the workmen's act, 1902, right of an alien to sue under the act. Appeal allowed.

Kirby vs. Cowdery (British Columbia), action for redemption of certain land alleged to have been conveyed by way of mortgage and not absolutely. Appeal allowed.

Swift and others vs. David (British Columbia), action for breach of an agreement for sale of shares in lumber company. Appeal dismissed.

### CO-OPERATIVE MARKETING.

Minneapolis, Minn., June 20.—Plans to extend the movement for co-operative marketing of farm produce are to be exclusively discussed by the National Association of Managers of Farmers' Elevator Companies, which met in this city yesterday for a three-days' convention. One hundred and fifty thousand members of the Farmers' Co-operative organizations in Wisconsin, Illinois, Iowa, Minnesota, Nebraska, North and South Dakota, and

Montana are represented at the meeting, which is the largest and most representative of its kind ever held in the Northwest. Western Canada also has sent delegates to the convention. According to the reports to the convention the farmers' elevators are now handling 65 per cent of the grain shipped from the Northwest. Numerous other commodities are also handled by the co-operative organizations.

### FREIGHT HANDLERS ARE ON STRIKE

Three Hundred C. P. R. Employees Demand Twenty-Five Cents an Hour

Toronto, June 20.—General Superintendent Arundel went to Port Nicoll yesterday being called there by the local C. P. R. officials who have lost control of the strikers. About 300 shed and steamboat freight handlers are out on strike for an increase of wages.

The men have, it is understood, received 20 and 22 cents an hour, but refused to work any longer unless they are paid 25 cents an hour. The strikers promise to make things lively if they do not get an increase.

FALLS TO HIS DEATH.

Tacoma, Wash., June 20.—Losing his balance, it is believed, as he opened his bedroom window because of the heat, Charles C. Emery, 50 years of age, a veteran railroad employee, plunged head first through the casement and dropped seven storeys to his death in the Kentucky hotel yesterday morning. He crashed through a skylight of a saloon on the first floor and was found dead there.

### The Symbol of Quality in Talking Machines

Is the Victor trademark, "His Master's Voice." Wherever, in the civilized world, people have intelligence to appreciate good music beautifully reproduced, interesting conversation faithfully repeated, this trademark is known and followed as indicative of the standard in construction and tone quality for all talking machines.

Here is Another Strong Feature.

The prices of the Victor machines are uniform. If you were in Montreal or Toronto you would pay just as much for any given machine as you would pay at our store opposite the Post Office, here in Victoria.

All Victor Machines May Be Equipped

with the Condon automatic stop—which saves exertion on the part of the operator and insures Caruso's wonderful notes against ending in a buzz-saw—at a nominal cost of \$3.50 extra.

VICTORIA PRICES START AT \$20 AND RUN THE LADDER, \$32.50, \$52, \$65, \$100, \$130, \$200 TO \$250.

BONUSING CHILDREN.

Paris, June 20.—In view of the alarming decrease in population, M. Messimy, former war minister for France, has laid a draft law on the table of the House proposing a bonus of \$20 to mothers for every child after the third. This sum can either be taken as a whole, or half left to form an annuity, or else the whole left for this purpose. The annuity will be paid according to the rules of the national administration, varying according to the number of children born, the age of the mother at the time of bearing, and the instance, a woman who between the ages of 20 and 31 had borne eight children could enjoy an annuity of a little over \$100 from the age of 60.

HALIFAX CATHEDRAL FUND.

London, June 20.—Considerable interest is being taken in the Bishop of Nova Scotia's endeavors, to raise the Halifax cathedral fund. The Bishop of London, at a meeting, said that he knew how delightfully loyal Canada was by the manner in which "God Save the King" was sung. "Canada was magnificent," he declared.

PORTLAND TRAGEDY.

Portland, Ore., June 20.—A man who registered as W. Tanner, of Albany, Oregon, in a lodging house on Alder street near Fifteenth two weeks ago last Sunday, was found murdered in his room yesterday. He had been struck over the head with a "black-jack" and must have died instantly. The man was accompanied by an attractive young woman, whom he represented as his wife. The woman is missing. Two theories are advanced, one that the woman killed him, the other that Tanner was the victim of the jealousy of another man.

HAS CASH IN BANK.

Nelson, June 20.—The much-talked-of million and a half over-draft of the Consolidated Mining & Smelting Company of Canada has been wiped out and the company has cash in the bank. Matte in transit and ore is on hand to the value of \$600,000, according to official report of Company's position at the end of the fiscal year just closing. The company has a smelter at Trail and mines at many points in the Kootenay.

WOMEN ATTACK BRITISH CHANCELLOR

Detectives Hold Suffragettes Until Lloyd George Makes His Escape

London, June 20.—A savage attack on David Lloyd George, chancellor of the exchequer, was made yesterday by some suffragettes outside of Clayton hall, but beyond knocking off the chancellor's silk hat they did no damage. Detectives seized and held them while Lloyd George jumped into a taxi cab and drove off. The women were released.

LAWYER WINS LIBEL SUIT.

Editor of the Prince Rupert Empire Ordered to Pay \$1,500.

Prince Rupert, June 20.—A case of extreme local interest was decided in the Supreme court yesterday, before Mr. Justice Morrison and a jury. It was a libel suit which was brought by Alex. Manson, a lawyer, against Mayor Newton, for an attack made by the latter in the Empire upon him. Mayor Newton some months ago, as the result of attacks upon himself by the Daily News, in which Manson is a shareholder, made a strong attack upon Manson. The latter denied any connection with the editorial policy of the News and brought action. This was pressed by S. S. Taylor, of Vancouver, while Mayor Newton was defended by Fred Peters. Judgment was given for \$1,500 with costs against Newton, who is restrained from further attacks.

PATROLMAN KILLED

IN STRIKE RIOT

Track Workers and Squad of Policemen Clash in Cleveland

Cleveland, O., June 20.—Edward Parker, a patrolman, was killed and William Garlich, an express wagon driver was badly wounded during a demonstration of 100 striking track workers employed on the Pennsylvania Railroad at St. Clair avenue and East 26th street here. Garlich is expected to recover.

The track workers struck Tuesday night and endeavored yesterday to make a demonstration when the railroad company put twenty men to work in their places. A riot call was sent in and a squad of patrolmen answered. The police were greeted by a shower of missiles. They opened fire, several of the strikers replying. Parker fell immediately. A stray bullet struck Garlich as he was driving past.

BRAVE STEWARD.

Saves Three From Drowning in Montreal Harbor.

Montreal, June 20.—What would have proved a triple drowning was prevented by the pluck of Albert Marsh, a steward of the Allan liner Victoria. While walking along by the river-front at Dominion park, he, with several others, noticed that a small motor boat had capsized some distance from the shore and two men were hanging to it. A man ran to the pier, jumped in and started to swim towards them. But before he was half way he collapsed and began to sink. Marsh, seeing this, went to the water and swam out to him, bringing him back. Taking to the water again, Marsh went to the capsized boat, took one of the men off and brought him ashore. By this time the other man had become exhausted and dropped off the boat so Marsh again went to his assistance and brought him ashore.

Marsh has already received three medals from the Royal Humane society in England. He has now saved a total of nine lives in one way or another.

GRAIN CONGESTION.

Elevators at Montreal are Already Filled—No Relief in Sight.

Montreal, June 20.—Present indications are that the same conditions will prevail in Montreal harbor as regards the grain congestion as last year. Although it is as yet very early in the season a report comes from one of Montreal's largest transportation companies that grain elevators are loaded up with grain and the prospects are none too bright. It was supposed that the new elevator would overcome all the difficulties. It now seems, however, that this new elevator will not be in a position to handle grain until well on in the season.

The Montreal Transportation company, which does an immense business in the handling of grain at the present time, have eleven boats carrying half a million bushels of grain waiting to be relieved.

BOYCOTT BUTCHER SHOPS.

Philadelphia, Pa., June 20.—Four women were arrested yesterday in the southern part of this city after a demonstration before butcher shops which recently increased the price of meats. Women at a mass meeting Tuesday night, decided to boycott the butcher shops in an attempt to force down prices, and the demonstration yesterday spread over all the southern part of the city. The women entered the shops and sprinkled kerosene over the meats.

DYSPEPSIA MADE HIM MISERABLE

Suffered Agony Until "Fruit-a-tives" Cured Him

Hundreds of people gladly testify to the wonderful curative powers of the famous fruit medicine, "Fruit-a-tives." To those now suffering with indigestion, Dyspepsia or other Stomach Troubles, this letter of Mr. Stirling, the well known real estate operator of Western Ontario, shows the way to a speed and certain cure. "Glencoe, Ont., Aug. 15, 1911. "Fruit-a-tives" were so beneficial to me when I suffered with distressing Dyspepsia, that I wish to inform you of their satisfactory results. "Although I have, in past, suffered agony with Dyspepsia, I am now in perfect health. "Fruit-a-tives" accomplished the desired result. "N. C. STIRLING." "Fruit-a-tives" will cure every trace of Indigestion, Dyspepsia, Sour Stomach, Bloating, Pain After Eating, Biliousness and Constipation. "Fruit-a-tives" is the only remedy in the world made of fruit juices and valuable tonics. 50c. a box, 4 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives, Limited, Ottawa.

CHARGE AGAINST

FORMER TRUSTEE

Case of Spencer Robinson Before Court at South Vancouver

South Vancouver, June 20.—The preliminary hearing in the case of Spencer Robinson, former member of the school board, was taken up yesterday before Magistrate Thomas and Reeve Kerr, acting as a court. There are five charges against the councillor, and the one taken up this morning had to do with a certain cheque of \$400 dated June 15 of last year and made out in favor of Broome & Pattinson, who had a contract for the clearing of certain school grounds. It is charged that this cheque was issued as a result of false pretence on the part of Robinson, who is alleged to have forged the endorsement on its reverse side, and to have returned the signature to the warrant forged to Secretary Kirkland, of the school board.

The chief witness this morning was Mr. Pattinson, of the firm just mentioned, who followed Councillor Robinson on the stand. He identified a cheque of \$400 which he had received on May 29 and deposited in the Bank of Vancouver on June 1. Half of this amount was for clearing and half for wood.

Mr. Ladner, for the defence, objected that this had nothing whatever to do with the case, but the magistrates decided that they wanted the fullest inquiry possible, at the same time being fair to everyone concerned.

Pattinson was then shown the cheque for the same amount dated June 18. He denied having received that, and said he had got no cheque at that time. The writing of his name on the back was not his own signature. He did not ask Robinson for any money on this cheque, nor did he receive any.

NEW TRIAL ORDERED.

Toronto, June 20.—The court of appeals Tuesday gave judgment, declaring that there must be a new trial in the case of Michael Fraser, the octogenarian farmer, of Midland, whose relatives objected when he married a young woman recently. They claimed that he was insane. Three times has the case been before the courts and a considerable drain has been made on the old man's \$80,000 fortune.

ALBERTA FEDERATION OF LABOR.

Lethbridge, Alta., June 20.—Representatives of labor unions of Alberta met here and organized the Alberta Federation of Labor, electing the following officers: President, John Jones of Fertile; Vice-presidents, W. J. Troglitus and George Howell of Calgary; Donald McNab of Lethbridge; James Thompson of Medicine Hat; J. Quince of Barrons, and W. Hughes of Edmonton. The convention next year will be held at Medicine Hat in July. It is expected to have a membership of 15,000 by that time.

SENT TO PENITENTIARY.

Tacoma, Wash., June 20.—Harry A. Bruengolf, a former city treasury office employee who stole approximately \$15,000 in less than two years, yesterday was sentenced to from six to fifteen years' imprisonment at hard labor in the penitentiary by Superior Judge W. O. Chapman, an old friend of his family.

SUMMER SKIN TROUBLES

Sunburn, blistering and irritation are the commonest form of summer skin troubles, and Zam-Buk ends these very quickly. It works in two ways. As soon as applied, its antiseptic power sets to work and kill all the poison in a wound, a sting or a sore. This generally ends the smarting and the pain. Then Zam-Buk begins the healing process, and fresh healthy tissue is built up. For sore, blistered feet, sore hands, heat rashes, baby's heat spots, sore places due to perspiration, etc., you can't equal Zam-Buk. It also cures cuts, ulcers, abscesses, piles, and all inflamed and diseased conditions of skin and subjacent tissue. Drug stores and stores everywhere sell Zam-Buk, 50c. box. Use Zam-Buk Soap also, 25c. per tablet. All stores, or Zam-Buk Co., Toronto.

Phone 121 for an up-to-date list of car. Open all hours.

VICTIM OF TITANIC.

Montreal, June 20.—Curious mistakes and points of law were cited yesterday concerning Thomas Francis McCaffrey, one of the victims of the Titanic disaster. Mr. McCaffrey was a resident of Vancouver, but when his body was recovered near the scene of the wreck it was conveyed to Montreal and interred there. However, it appears that his name was entered as "Thomas McCaffrey" for the purpose of burial, and that his age was registered as 59 years in the cemetery records. His heirs have now come forward, and state that the name was not spelled McCaffrey, but McCaffrey, and that, moreover, his name was not Thomas McCaffrey, but Thomas Francis McCaffrey. They also claimed that his age was not 59, but 46. They wanted these various mistakes corrected, so that no legal difficulties regarding the matter would be encountered in the future. Mr. Justice Laurendeau gave an order allowing the various mistakes to be corrected.

Judge Orders Corrections in Record of Interment.

The Board of Trade blue book containing a summary of accidents and casualties on the railways in the United Kingdom, shows that during the three months ended December 31, 1911, the number of persons killed and injured in the courses of public traffic was 285 and 5,361 respectively, as compared with 291 and 2,379 in the corresponding period of 1910.

THE DAILY TIMES

Published daily (excepting Sunday) by THE TIMES PRINTING & PUBLISHING COMPANY, LIMITED

UNPARDONABLE DELAY.

The hesitancy exhibited by Premier McBride in making announcement of the manner in which he intends finally to dispose of the Songhees Reserve is causing not a little anxiety among his political friends in the city of Victoria while the public spirited citizens generally regard the delay as unpardonable.

Of course Sir Richard McBride's organs announce from time to time that when the settlement is finally made known it will prove satisfactory to Victorians. The unconscionable delay is very far from satisfactory.

"If the people of Victoria are to meet another shock, why not let them have it at once and give them an opportunity to recover from its paralyzing effects? The delay in making the announcement has so weakened the confidence of the Victoria public in Sir Richard that, if the suspension continues much longer they will not be able to recover from the shock when it finally comes.

WHEN IGNORANCE INJURES.

The complaints of British Columbia newspapers with regard to the futility of applying to government officials in the provincial offices for information about land available for settlement have awakened echoes in other provinces. It appears that—just as the Times predicted would be the case—the disappointment and loss occasioned by the prevalent lack of reliable information in the British Columbia government agencies regarding pre-emptions, homesteads and purchasable land is far-reaching in its effects.

While the Vancouver and Victoria papers confined themselves to a criticism of the indifference and incompetency exhibited in the office at Victoria, the Witness cites the office at New Westminster as among the chief offenders. Its recital of facts but adds volume to the increasing number of complaints which are now a common grievance.

"The government of British Columbia, if its land office at New Westminster is any authority, simply does not know what land it has sold and what land it has not sold. The government maps are useless to the man searching for land in British Columbia. It is, however, possible to buy blue prints made by private firms to whom

the government agents will refer the applicant. These companies sell large blue prints made up to date from the government drawings. These are little better than the maps. A settler showing the coast from Vancouver to Seattle, purchased 1860 years ago, showed block after block of land, dozens of them as being still in the possession of the government, though it had sold some of them as much as twenty years previously.

"This refers, of course, only to the pictured representation of the provincial land transactions. To the intending settler this is, however, the important thing. If he cannot get maps that can be relied on as showing what land has been disposed of, it is impossible for him to locate except by going to the impossible expense of making half a dozen locations and returning, perhaps a few hundred miles, to see if the accounts of the office show anything against any of them. In a certain instance the office accounts were said by the agent to show nothing against every one of a half-dozen sites so located. The worst, however, has not yet been said. When the settler comes to the office, say, at Westminster, with his location, he may be told immediately that the land has already been taken, or he may be told that it is not taken. If he has the latter luck he will be told to go to the expense of advertising it for a fortnight, after which the land office will make a more thorough search through its various books. Then the purchaser can have it surveyed and make a first payment, and the government will sell him a title to the land that is only good if the land has not already been sold by it to someone else. It is necessary to point out, that in this searching and re-searching of office records there is every chance for the locator to be defrauded if his staking should be such as to seem attractive to any of those making the search.

"Apart from this extraordinary laxity in the keeping of records that makes the taking up of the land all but impossible except to the speculator with money and time, there is another phase that would stand probing. Not so long ago some men searching for land to settle on (these men being bona-fide farmers both by practice and intention) found that there was a considerable prairie in the interior of one of the larger islands not far north of Rivers Inlet. About half a dozen of them staked out quarter sections and wrote about it to the department at Victoria. They were officially informed that the land was not open for settlement, as the government was anxious to part with the island as a whole. Further correspondence brought no better result. Is this encouraging settlement? Is it indeed not in direct contravention of the provincial laws? If any of the prairie provinces tried to carry on the administration of their lands at British Columbia does the government would not last through a session, and the stream of settlers would be diverted from its borders even though it contained the most tempting land."

We have reproduced the article at length because, so far as conditions in British Columbia are recorded, the sting is in its tail. The growing injustice of inciting would-be settlers to come to British Columbia, as is done at great expense by the government, only to find nothing definite in the way of information when they arrive, must react to the detriment of the province in an extreme measure. The government is taking no known steps to remedy these conditions and the government organs excuse the indifference of the administration by emphasizing and exaggerating the "difficulties" in the way of mastering the problem. The ultimate result of these conditions must be, as the Witness says, that immigrants and desirable settlers will give this province a wide berth and go to other provinces where the governments exhibit some degree of capacity for administration of their natural resources. There is a sinister significance in the suggestion that no complaints are heard from speculators.

BRYAN'S SPECULATIONS.

Mr. William J. Bryan, erstwhile Democratic candidate for the presidency of the United States, has issued a review of the political situation which is wholly uncompromising to Theodore Roosevelt and not entirely complimentary to President Taft. After speculating on what is likely to take place at the nominating convention—the delegates to which have now been seceded—he peers a little farther into the future and speculates on what may happen afterward. Mr. Bryan's forecast of the possibilities is entirely free from political passion and is in strong contrast with the spirit of both the Republican candidates. He apparently has sufficient faith in the American people to believe that even if Mr. Roosevelt should capture the convention, there is hope of a popular revolt when it comes to the final appeal to the electorate. Mr. Bryan speculates on this wise:

"Suppose Mr. Roosevelt is nominated either by the regular convention or by a convention of his own, will the Republicans who oppose a third term bolt? Is their attachment to the traditions of the fathers strong enough to lead an organized protest against Mr. Roosevelt?"

"The ex-president accuses Mr. Taft of being the candidate of the bosses. The bosses would be unable to put up a fight in defence of bossism, but Mr. Roosevelt has studiously ignored the third term issue. When men have suggested that he wants to be president for life—with a remainder over to his son—he calls them hard names, but this kind of evasion cannot last through a campaign. He will have to define his position and let the public know how many terms he considers proper or allowable."

"If Mr. Roosevelt will add together the votes he has received at the primaries and compare the total with the total vote in those states, he will find that he is woefully short of a major-

ity even in Republican states, and he must remember, too, that some who voted for him did so, not because they loved him more, but because they loved Taft less, and he must also take into account the fact that many who voted for him—and a still larger number who did not vote at all—have been disgusted by the manner in which he and the president have conducted their campaign.

"He must, in addition, take into account the fact that many who admired him when he went out of office have turned against him because they feel that he has done injustice to the president and destroyed the party's chance for success."

"There is abundant evidence of an enormous protest at the polls, even if no ticket is put in the field by the anti-Roosevelt Republicans."

Mr. Bryan is a good constitutional lawyer and at the same time quite as much in touch with popular American sentiment as either of the Republican candidates and the end of the conflict is not yet in sight. Mr. Asquith has not forgotten his franchise bill. It is to come down soon. This will make the three capital measures which were promised for the present session of parliament. He is obviously only waiting for Irish Home Rule and Welsh Disestablishment to get a little start, before introducing the third. The Montreal Star concludes that the Irish Home Rule will weaken his chances at the next elections by reducing the number of Nationalists in the Commons; but his franchise bill will increase the relative power of the poor voter by doing away with the rich man's double or quadruple franchise and removing practically all restrictions on the suffrage. It is not likely that the bill which is to strengthen him will be left behind, while the bill which is to weaken him passes.

Stealing the clothes of the other party is one of the privileges of a Government, though the theft is usually accompanied by verbal disclaimers intended to distract or confuse public attention says the Manitoba Free Press. In Ontario, however, Mr. Howell has been given official notice that, if he popularizes his "Banish the bar" policy the Whitney Government will steal it. "Though his abolitionist campaign," says the Mail and Empire, "will not serve his political ambition, his labor in that behalf will not be lost. Should he succeed in demanding that the bar be abolished, Sir James Whitney's Government, always keeping pace with public opinion and always responsive to it, will effect the reform."

Report has it there has been a big rummaging among the title books at the Provincial Library, just to find out if "Sir" should be used throughout the conversation or merely at the start off so to speak.

THE KING AND METHODISM.

From the Canadian Courier. King George will be interested to learn that there is one preacher in Canada who does not fear to stand his trial for lese majeste. That His Majesty is not sufficiently careful of his conduct to be a member in good standing of the Methodist church is the statement with which Rev. J. C. Speer surprised his congregation in High Park Avenue Methodist church, Toronto, in a recent sermon. "The King God Bless Him," was the pastor's subject, but he found it impossible to forgive the King for his attendance at race meets, his frequent appearance at the theatre, and other similar sins, according to Methodist ideals. But Mr. Speer gave the King a grain of consolation. He remarked in closing that these were Methodists no better than His Majesty, for they made the same mistakes.

TRULY REMARKABLE CHILD.

From the Cleveland Plain-Dealer. "You called at the Browns' last evening?" "Yes. Had a delightful time. Their little daughter is a charming child, and they are justly proud of her." "All parents are proud of their only child. What's remarkable about the Brown brat?" "Don't speak of her in that way, I beg you. She is really wonderful." "Huh! What form of horselessness does her precocity take?" "She is almost six years old, and she can't play the piano at all."

WHAT HIS WIFE THOUGHT.

From Satire. "My wife still thinks I'm a treasure." "I wish mine did, she thinks I'm a treasury."

Tastes Like More

That's it exactly. Refreshing, sparkling; it goes right to the spot. Get the flavor, all the rich, nourishing elements of the purest ingredients and the celebrated Esquimalt water.

"IT'S THE WATER"

Friday's June Sale News--An Important Sale of Women's Skirts, Blouses and Children's Coats

An Opportunity to Save From \$2 to \$7 on Stylish Skirts Comes on Friday

VALUES THAT SHOULD SELL FROM \$7.50 TO \$12 ARE MARKED AT \$5.75

CAN you wish to have a better value? We think not, at least we don't expect to have another sale that will bring such excellent values. There are many different styles to choose from in this assortment, and every garment is a new model. Voiles, Panamas, tweeds, fine serges, diagonal serges, tweeds and many other materials are represented, while the colors include some very smart striped effects, mixtures, and plain cloths in black, blues, browns, greys, greens, and neat black and white checks.

A CHOICE VARIETY OF WOMEN'S WAISTS AT 75c, \$1.50 and \$3.75

JUNE SALE VALUES THAT ARE WORTH MUCH MORE

At these three prices there are so many different styles to choose from that there are few women who will fail to find a style that will please them, and a size that will fit them. The values are remarkably good and in many cases the garments are worth nearly twice as much as we are asking for them. You have only to see them and you'll recognize the savings that the June sale is offering to you. Now, here's a specially fine opportunity to effect an unusual saving. Good blouses and good skirts are always recognized as a complete dress, and in order to co-operate with the wonderful sale of skirts that is to take place on Friday morning in the Mantle department, we are offering some specially good lines of waists. We invite your inspection.

CLOTHING VALUES THAT WILL PLEASE YOUNG MEN

WITH such excellent values as these we should have the store full of young men on Friday morning. See the showing in the View street windows and you'll be perfectly satisfied that the quality of material, the style, and workmanship cannot be equalled at these prices, go where you will.

TWO AND THREE-PIECE SUITS—We are offering you a choice from some very smart effects in fancy worsteds, flannels, homespuns and tweed effects in both double and single-breasted styles, at prices that mean a considerable saving to you. The trousers are the semi-peg-top style, finished with cuff bottoms, and all sizes are here. Ask to see them in the department, notice the fine stitching, the beautiful lines of the coat, the quality of the linings and trimmings, and all other points that you usually judge a suit. You are the judge, and we are confident that the quality of the goods will more than satisfy you. Prices start at \$8.75 and range up to \$18.00

WASH VESTS—Here's all the newest lines that have appeared this season. They come in plaques and worsted effects in colors fawn and white, beautifully finished and trimmed. Just the styles you'll enjoy during the hot weather. Yes, they will wash fine, and look as good as new when they come from the laundry. All sizes at prices from \$1.25 up to \$2.50

MEN'S BOATER STRAW HATS, made from a good split straw, and a quality that we sell regularly at 75c. Your choice on Friday at \$5.00

MORE EXCELLENT VALUES FROM THE Carpet Dept. FOR FRIDAY

PORTIERE CURTAINS, made of a heavy tapestry and finished with a heavily knotted fringe at the top and bottom. They are three yards long and about 46 in. wide. Many handsome patterns are here to choose from and the colors are chiefly two toned reds and greens, also solid greens. Per yard \$2.50

ENGLISH TAPESTRY CARPETS

This is, by far, the best line of tapestry carpets that we have yet offered. There isn't a carpet in the lot that we cannot thoroughly recommend. They are 9x12 feet, and come in colors greens, reds and fawns. Floral, conventional and Oriental designs are to be had and all have beautiful interwoven borders. Will stand lots of hard wear. A very special value at \$19.75

CHEAM MADRAS MUSLINS

They are 45 in wide and will make up into effective curtains and draperies. Per yard 35c

WINDOW SHADES

These are made of strong opaque cloth and are mounted on Hartborn rollers. All complete with brackets. Size 6 ft. long and 37 in. wide. Each 40c

We shall be pleased to furnish you with an estimate for the furnishing of your home with special window shades, and are confident that we can save you a great expense.

Another Important Sale of Children's Coats on Friday at \$3.75 and \$5.75

EVERY COAT IS MARKED AT LESS THAN HALF ITS REGULAR PRICE

THE balance of our stock has been divided into two groups, regardless of their former prices, and marked at \$3.75 or \$5.75 for a rapid sale on Friday. Last week nearly 200 women purchased coats for their girls, and judging by their remarks, every one of them were delighted with their purchase. Why not buy a coat for your girl while the opportunity presents itself to make a very substantial saving? We are showing them in the View street windows and invite you to inspect their quality. AT \$5.75 there are some very smart coats in shepherd checks. They are all double-breasted styles and are trimmed with fancy buttons. The collars and turn-back cuffs are inlaid with black silk piped with blue, or are finished with inlays of corded material, in red.

Other fine styles are to be had in plain cream serge with sailor collars and hairline striped serge with neat collars and reverses in contrasting materials. Plain cloths and serges in blue and reds are well represented, also a few neat greys and pongee coats. AT \$3.75 blue and red serge coats in the sailor style, or finished with roll collars and reverses predominate, but there are a few in other styles. They come in sizes for girls from about 5 to 14 years old, and we don't expect such bargains to last very long, so shop early and avoid disappointment.

A Traveller's Trunk or Grip is His Home

Now is the best time to pick out your traveling trunk, grip or suit case. The holiday season is right with us, and if you are not already well supplied we can save you money. There's a tremendous assortment of styles and sizes to choose from, so you are sure of getting something that will fit your purpose. Here are just a few of the lines.

JAPANESE MATTING SUIT CASES—These are strongly built, but they are light and convenient. The corners are protected with leather, have leather handles, strong brass locks and side clasps. Size 24 in. Prices \$2.75, \$2.50 and \$1.75

SEA GRASS SUIT CASES are here in a variety of styles and range in price from \$3.50 down to \$2.50. They are just the thing for a woman when making short trips.

STRONG IMITATION LEATHER SUIT CASES are here in sizes 18, 18 and 20 inches. You'll have a hard job to find a better value than these, especially if you want a suit case that will stand rough and tumble handling. Price, each, \$2.50, \$2.25

DURABLE TRAVELING TRUNKS—We are safe in recommending this line. It is made on a strong wood frame covered with canvas and painted. It is well braced with hardwood battens and best brass fittings. The inside is conveniently fitted up. The sizes range from 32 in. up and our prices start as low as \$3 each, but we have better qualities that range as high as \$20.00

There's an Interesting Sale of Fashionable Women's Boots For Friday

\$5.00 VALUES ARE TO BE SOLD AT \$3.45

HERE'S a choice from two very stylish lines that should make this department as busy as a beehive on Friday morning. In point of style they are right up-to-date, and the quality of the workmanship and the stock will stand the closest examination. In short, they are a grade that we are confident will please, and strongly recommend them.

BUTTON BOOTS in tan Russia calf. There are 120 pairs in this line and not a single pair is worth less than \$5. They have the new stub toes and Cuban heels. Your comfort is assured by the fact that they have Goodyear welted soles, so flexible that they give to every little movement of the foot. A graceful and comfort-giving shoe that will be sold at \$3.45

PATENT LEATHER WITH CLOTH TOPS—This is an entirely new line that has just come to hand and we have marked it at a close profit to introduce it. They are the famous "Boston Favorite" brand, a brand that we have never known to fail to please. They are attractive, well finished and remarkably comfortable. To see them is to be pleased with them. Per pair, on Friday \$3.45

PERFECT DAY, written by Carry Jacobs Bond. To be had in 2 keys. Per copy 25c. Sheet music department, first floor, View street.

David Spencer, Ltd.

We will supply you with 100 Visiting Cards, printed with your name and address for \$1. Let us have your order. Stationery department.

## BRIEF NEWS OF THE CITY

**Bath House at Gorge.**—The bathing house at the Gorge, which was opened last week, is proving a boon to the campers and visitors up the arm.

**Contractors, Look!**—CHOICE TIMBER, WINDOWS, GLASS, etc., in stock. R. A. Green & Co. Phone R1938. Shop on Fisgard near Cook. Estimates free.

**Smith's Hill Reservoir.**—There was 27 inches of water in the eastern half of Smith's Hill reservoir this morning, the rain last evening having saved the demand on the supply for irrigation purposes, and given an opportunity for the water to collect in the tank.

**Teaming.**—G. F. Dzwanger, dealer in coal and teaming. Phone F2932.

**Fire Wardens Meeting.**—At the meeting of the fire wardens yesterday the chief submitted a list of rules for the regulation of the department in accordance with the request made to him. The tenders for the Oak Bay hall close on Monday, in time to be opened by the council on Monday evening.

**S. P. C. A.—Cases of cruelty.** phone, Inspector Russell, 1921; secretary, L1733.

**Stadille in Hospital.**—Tony Stadille, the fleet left fielder for the Bees, this morning was taken to the hospital at Vancouver. Tony became ill early in the week with tonsillitis and now his case is very serious. It would be unfortunate if he is prevented from getting back into the game soon, as he is the leading left fielder in the league, besides being the best lead-off man.

**Auto and Taxi—Cab stand, good cars, good service, all hours.** Corner Fort and Douglas Streets. Phone 2319.

**Building By-law Ready.**—The finishing touches have been given to the building by-law, which will be ready as amended for submission to the city council on Monday. The Underwriters have stood out for wiring all glass in window frames when only twenty feet away from adjacent buildings, and the request of the architects' association have been met.

**Ladies' Tailor.**—Wm. Stewart, men's and ladies' tailor, room 5, Haynes Bldg. Fort street.

**Musical Successes.**—At the recent examination held in Victoria by Percy Miles on behalf of the Associated Board of Royal Academy and Royal College of Music, London, England, the following pupils of Miss Archbutt, at the Poplars School for Girls, succeeded in obtaining the requisite number of marks to pass in their respective grades: Primary—Aldersey Hallam, Allison Chrow; elementary—Christina Temple, Mona Miller, Eva Faddy, Jessie Wootton, Lillian Woodward; lower division—Hettie Blankenbach; higher division—Hilda Fleming.

**Hanna & Thomson, Pandora Ave.**—Leading funeral furnishing house. Connections, Vancouver, New Westminster and Winnipeg.

**Grace Lutheran Strawberry Social.**—The ladies of Grace Lutheran church met at the home of Mrs. Capt. Anderson on Monday night and completed the arrangements for a strawberry social to be held on Friday night of this week. A splendid musical programme will be rendered, after which games and other social entertainment will be carried out. The ladies are preparing to give their friends and the public a strawberry feast, and naturally there will be a small admission fee. The social will be held in the Sunday school room of the church on the corner of Queens avenue and Blanchard street, and all the names will aid the special committees in providing for the entertainment of those present.

**"Nag" Roof Compositions will stop leaks and add years to the life of an old roof.** See Newton & Greer Co., 1212 Wharf street.

**For accessories for your auto, tires, etc., Goucher's, corner Courtenay and Gordon streets.**

**Citizens' Committee Meet.**—A meeting of the Victoria Citizens' Committee, having in hand arrangements for the entertainment of the San Francisco "Flying Legion," will be held to-morrow afternoon at 5 o'clock in the committee rooms, No. 4, MacGregor block, corner of Broad and Yates streets.

**Money to Loan.**—We have money to loan at 8% interest on improved city residence property on easy repayment terms. Builders will be glad to inquire. The B. C. Permanent Loan Co., 1210 Government St.

**Mothers' Club.**—Yesterday afternoon at the Mothers' Club of James Bay church, an interesting address was given by Mrs. Gordon Grant on the subject: "Work Among the Neglected and Dependent Children of Victoria." There was a good attendance of mothers and others interested in the subject.

For your taxicabs phone 121.

**Victoria Kennel Club.**—At the meeting of the Victoria Kennel Club last evening the reports were presented by the different officials and were found to be very satisfactory. Business in connection with the last show was disposed of and arrangements were made for the exhibition, which is to be held at the Victoria fall fair. It was decided also to engage the services of J. Bradshaw, of San Francisco, the well-known expert, as judge of all classes, but setters and pointers, the latter being adjudged by Charles Minor of this city. The following officers were elected: J. Creighton, president; Thomas Withers, vice-president; J. Geddes, secretary; J. S. Hickford, J. A. Robb, W. Willman, Mitchell Innes and A. J. Garesche, bench show committee.

**Cut Price Sale One Week Longer.**—Spectacles and eyeglasses, gold-filled frames, best lenses; complete \$2.50 and up. Cut prices on toric and bifocal glasses and optical supplies. Frank Clugston, optician, 654 Yates street (corner Douglas), room 1.

**Daughters of Scotland.**—The Daughters of Scotland will hold another of their popular social evenings to-morrow night at the Foresters' hall, the proceedings commencing at 8.30 p. m. A good programme of music is promised the visitors, as Messrs. Doble and Melville, the well known favorites who have given their audiences so much enjoyment on past occasions, will sing some of their comic songs, while, with Miss Angus' orchestra in attendance, the character of the music to be supplied for the dancers is assured. Refreshments will be served, and an enjoyable evening is promised to all.

**Croquet sets, \$2.00 up; tennis, cricket, baseball and lacrosse goods at Victoria Sporting Goods Company, 1010 Broad Street, Pemberton Block.**

**Young People's Guild.**—The retiring pastor, Rev. T. E. Holling, presided at the annual meeting of the Young Ladies' Guild of the Metropolitan church last evening in the church schoolroom. The various reports read showed the progress that had taken place during the year since the inception of the organization, the retiring president, Miss Foxall, submitting an interesting report. Miss Richards, the treasurer, reported that \$213 had been raised during the year, the sum of \$71.48 remaining to their credit. The following was the result of the election of officers for the ensuing year: President, Miss Bromley-Jubb; vice-president, Miss Foxall; secretary, Miss Edith Renfrew; treasurer, Miss Richards (re-elected); social vice-president, Mrs. Pendray; musical vice-president, Miss Edie; missionary and literary vice-president, Miss Elliott; reporter, Miss Jaster. The proceedings concluded with a short address from Mr. Holling, after which strawberries and cream and cake were served.

**Hotel Balmoral, View, Douglas and Fort streets, under new management, newly renovated throughout. Rooms single or en suite. Moderate rates.**

**Summer Stock at Victoria Theatre.** Miss Verna Felton and The Allen Players, Thursday, Friday and Saturday with Saturday Matinee. "The Third Degree." Summer Prices.

**Our Rose Show.**—being held now and orders booked for fall delivery. All the old favorite varieties and many new varieties now offered for the first time. A great floral display. Oakland Nursery Company, 1580 Hillside avenue. A. Ohlson, proprietor. Phone 1390.

## TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, June 20, 1887.  
1837-1837. Retrospective.—At 5 o'clock in the morning on the 20th June, 1837—just 50 years ago this morning, a carriage and pair dashed up the great central avenue to Kensington Palace. Its occupants were the Archbishop of Canterbury, Dr. Howley and the Lord Chamberlain, the Marquis of Conyngham. The two grave men heeded nothing but the importance of their solemn mission, which was to call a queen to the throne of her ancestors, and break the news of the death, at 2 o'clock that morning of her uncle and predecessor, William IV.

The nomination for vacancies at the school board took place to-day. For James Bay ward Mr. D. R. Harris was elected by acclamation. His colleague is Mr. R. B. McMicking. In Yates street ward Messrs. Edward White and Chas. Hayward go to the polls for the suffrage of the electors. In the Johnson street ward, His Worship Mayor Fell and Mr. J. B. Ferguson are the candidates. Dr. Morrison was nominated, but as his name did not appear on the voters' list it was withdrawn. The voting will take place next Thursday.

Last evening Rev. Mr. Starr, in the course of his sermon at the Methodist church, remarked there were many away who should be present, and many present who might not attend again for years. All were startled to hear a voice from the body of the church respond: "I hope you are not alluding to me just because I haven't been here for seven years." The speaker was Margaret Wheeler, better known as "Nigger Mag," who was quietly, but firmly, led down the aisle and out of the church.

### G. L. BUSK NOT GUILTY.

Jury Hears Evidence of Several Witnesses and Return Verdict in Fifteen Minutes.

After a retirement of fifteen minutes the county jury empaneled yesterday to hear the appeal of George L. Busk, returned into court with a verdict of not guilty. The police court conviction against Busk of having been drunk was therefore quashed and the fine of \$3 remitted.

For the defence Messrs. Hart, Sparrow, Johnston and Ella were called, who gave evidence of Busk's condition before and after his arrest and of his habits on April 16 and his general habits. The appeal lasted all day, the jury returning to court about 6 o'clock.

**"Sepias"—Soft, delicate, refined.** The last word in high grade photography. The Skeels Lowe studio, Douglas and Yates.

**"Frances Willard."** The Life and Works of Frances E. Willard was the subject presented at the meeting of the Literary Society of the W. C. T. U. Men's Mission, Tuesday evening. A large number were present. It was conceded by many to be the best meeting of the season. Miss Saunders, of Victoria West, is providing a programme of Scotch selections for Saturday evening's concert.

**Merchants' Lunch at the Bismarck.** Successful Bazaar.—There was a large attendance of ladies at the bazaar held yesterday afternoon and evening at the residence of Mrs. Birch, "Deravaraugh," Esquimalt, by the ladies of St. Joseph's church. The various stalls were very daintily arranged, and were popular centres for the groups of purchasers. Mrs. Leonard and Miss Mackenzie undertook the direction of the fancy stall; refreshments were dispensed by Mrs. Colbert, Mrs. Pauline, Miss Doran, and the Misses Walton; Miss MacLachlan and Miss Lily Pagan presided at the flower stall; and Mrs. Birch looked after the fish-pond and bran pie. During the evening a pleasant feature was the programme of songs and recitations which was arranged by Miss Goulome.

**Hotel Balmoral, View, Douglas and Fort streets, under new management, newly renovated throughout. Rooms single or en suite. Moderate rates.**

**Summer Stock at Victoria Theatre.** Miss Verna Felton and The Allen Players, Thursday, Friday and Saturday with Saturday Matinee. "The Third Degree." Summer Prices.

**Our Rose Show.**—being held now and orders booked for fall delivery. All the old favorite varieties and many new varieties now offered for the first time. A great floral display. Oakland Nursery Company, 1580 Hillside avenue. A. Ohlson, proprietor. Phone 1390.

### TRADES AND LABOR COUNCIL.

New President Chosen for Balance of Term—Employment in Stores.

At the meeting of the Trades and Labor Council last evening Vice-President H. J. Sheen was elected president for the balance of the term, and H. King, vice-president. The president, F. J. Perrott retired, having ceased to be a delegate from the Painters' union. Mr. Perrott was tendered a vote of thanks.

It was decided to invite the unions to consider whether they would be prepared to contribute a dollar a year per member for legal defence, and the proposal to appoint a legal adviser was favorably received. George A. Coldwell making a report for the committee. A committee was appointed to look into the question of oriental immigration. Delegate Farrar was appointed on the finance committee, and the secretary, C. Sivertz, was chosen financial secretary in place of Delegate Sherik, who resigned. The latter was thanked for his services. The alien labor regulations, and their local effect are being watched, and several cases are being observed, with a view to a prosecution.

The Laborers' Protective union requested the council to use its influence with the city engineer to employ union men. This request was referred to the civic and legislative committee to deal with and report at next meeting. The following are the committee and the new appointees: Delegates J. R. Martin, G. A. Coldwell, J. Varney, P. R. Smith, E. A. King.

The special committee appointed to examine into the employment of young girls in stores, factories and laundries made a report, and condemned some of the proprietors for the wages paid and the hours of work in their establishments. After a lengthy discussion, the report was referred back to the committee for amendment.

### SCOUT ENTERTAINMENT.

Troop No. 2 Provided Enjoyment for Large Audience Last Evening.

Troop No. 2 of the Victoria Boy Scouts gave an excellent entertainment to a large audience last evening in the Christ Church schoolroom, and the camp fund, to which the proceeds are to be devoted, will greatly benefit thereby. Many of the musical items were well rendered, while the dramatic sketches showed good training and practice in the performers, and were much enjoyed by the audience.

The third troop orchestra gave the overture in their best manner, while an Irish character piece entitled "The Recruiting Officer," which was performed by W. Geldard and C. Leary, was excellent in its unforced humor and delighted everyone, the antics of Patrick McLaherty, the Irish recruit, being much enjoyed. The owl patrol, under the leadership of A. Godson, gave an excellent exhibition of first-aid work and comic songs were rendered by W. E. H. Godson, A. Godson, E. Godson, W. Kerr and A. Kerr.

The tit-bit of the evening was the playlet entitled "The Beavers Camp," with which the proceedings terminated. An amusing scout play the characters were very well taken in each case, those taking part being Messrs. C. Leary, W. E. H. Godson, W. Geldard, A. Godson, C. Alexander, A. Moffat, A. Kerr, J. Moffatt, O. Godson, F. Jones and W. Kerr. The National Anthem brought an enjoyable evening to a close. The programme will be repeated to-morrow evening in St. Luke's schoolroom at Cedar Hill.

### PRINCESS THEATRE.

"The Parish Priest" Continues to Draw Good Audiences.

Dan Sully's comedy drama, "The Parish Priest," is being received with much favor by well-filled houses this week. Each night the audience grows more interested in the three charming love stories that constitute the plot of the piece. Jolly Kate Corrigan, who is always looking for her father, in the course of her long search finds nearer and dearer relative, just like the one she imagines she left behind in Ireland. Haughty, headstrong Agnes Cassidy with her lofty ideas and ambition thinks she can live without love, but finds it exceedingly hard, and is glad to accept Father Whalen's advice and happiness at the price of a little wholesome humiliation. Sweet little Nellie Durkin, whose tender heart is almost broken over the peridy of her girlhood playmate and companion, is an ideal character, and as played by Miss Mildred Paige is most lovable.

Father Whalen, the priest, as played by Byron Alden, is a fine character who could be improved upon and it is one of the best parts this talented young actor has yet attempted. Dave Williams, the comedian, has a splendid part in Michael Sullivan, and it is needless to say he does full justice to the role of the witty son of Erin who, although hard-working and reliable, has a soft place in his heart for dice-throwing and racing.

## If You Get It At PLIMLEY'S It's All Right

The Canadian King of the Road Is the **Massey 'SILVER RIBBON' Cycle**

Write or call for fully illustrated list showing all the special features of the "Silver Ribbon" Cycles

## If You Want One of These Pianos You Must Move Quickly

THE FIRST DAY OF OUR SPECIAL SUMMER SALE OF SLIGHTLY USED PIANOS OF HIGH GRADE WAS WONDERFULLY SUCCESSFUL AND WE CLEARED A NUMBER OF GOOD ONES FROM THE LIST

That Victorians appreciate sterling values in pianos was demonstrated clearly to us yesterday when we started our special summer sale, offering a number of excellent instruments, some of them used very slightly, at reductions that ran as low as half price in several instances. We sold a good percentage of them to the early visitors, and the majority of those remaining will go to-day.

## If You Need a Piano Don't Fail to Come

The instruments offered are as good as new, having been taken in exchange for player pianos, some of them coming from the wealthiest homes in Victoria. We are offering them at prices that include

**\$50, \$75, \$100, \$125, \$200, \$250 and \$275**

Every piano offered has been looked over by expert tuners and finishers and is guaranteed in first-class shape.

**TERMS ARRANGED AS LOW AS \$10 DOWN**

**FLETCHER BROS.**

**EXAMINATIONS NEXT WEEK.**  
Annual Tests Commence in Public Schools—High School Course Following Week.

Next week will be the time of examinations in the schools, the High school entrance examination beginning on Wednesday, and lasting over the next two days till the end of term, while the High school or teachers' course examinations, skipping July 1 as a legal holiday, will commence on Tuesday week, at most of the important centres in the province. The subjects of the former examination are British and Canadian history, nature lessons, arithmetic, dictation and spelling, drawing, English literature, reading, grammar and composition, reading and geography. For the High school examination the schedule materially differs, and is divided into different schedules according to the class of certificate. At least 150 pupils in the public schools are expected to write for the entrance examination.

### CHICKENS COMING HOME TO ROOST

#### TOWN OF ARMSTRONG HAS A GRIEVANCE

And Deputation Will Ask Sir Richard to Explain Pre-Election Promise

The enterprising little town of Armstrong in the Okanagan Valley is up in arms and incidentally a fine plump chicken is coming back to Sir Richard McBride's roost. The trouble has arisen from the modest request of the Canadian Northern railway people for a bonus of \$50,000 for the purpose of assisting the company in the purchase of a right-of-way into the town. If the request is granted the line will come into Armstrong; if not, it is hinted the town will only get a spur.

The request was made to the city council by A. E. Ashcroft, the engineer in charge of the Okanagan to Kamloops section of the line. At the gathering feeling ran high regarding the action of the government in promising during the recent elections that the line would be built through Armstrong. The local member, Premier McBride, and the government generally, were individually and severally "roasted" for what the meeting regarded as unparliamentary duplicity.

What the C. N. R. Plans.

Mr. Ashcroft stated that after the recent visit to Armstrong of Messrs. White and Hault, chief engineer and attorney for the C. N. R., respectively, these officials had given the wishes of the people of the district fullest consideration and would like to meet the people half way. The route location was left to Mr. Ashcroft, who here stated that the route map filed with the railway department of Victoria did not bring the line into Armstrong, nor did the agreement with the government mention Armstrong as even to be given a spur.

At present the route is about six miles from Armstrong at the head of Otter lake. By bringing the road into town it would mean the expenditure of a large amount of money—approximately \$249,000.

Mr. Ashcroft suggested issuing debentures to raise the necessary \$50,000. Speaking of the right-of-way, he stated that his company were prepared to pay up to \$500 per acre for the meadow land they would use in coming in.

Government Censured.

It is the intention of the company,

### BUSINESS CONDITIONS IN THE PHILIPPINES

#### American Territory is Prosperous and Reluctant to Have Political Change

The Philippines are far from ready for self-government, according to Albert S. Guttridge, a passenger on the Yokohama Maru, which arrived at the outer wharf last evening from the Orient.

Mr. Guttridge for the last seven years has been engaged in the Philippines, with headquarters at Iloilo, in commercial enterprises, and is now on his way to England. He says that the impetus given to the sugar industry by the change in the tariff regulations, and the assurance that the group will not be given self government for many years yet, the Filipinos not being ready for responsible administration, have raised the expenditure of a large sum of money and the creation of a boom condition of things which is having material effect on the business of the territory.

Since confidence that the American occupation will not be disturbed has been restored, permanent buildings of reinforced concrete are going up in the principal cities, and a general air of prosperity prevails. The anticipated extinction of Spanish as an official language has had a stimulus on the teaching of English, and the provision shortly to be made for university education will enable the aborigines to secure full advantages of western education in their own islands. Street car and similar systems of a municipal character in the cities are very progressive, but the railways are somewhat obsolete. Enormous interest is being taken in the Republican convention by the Americans in the Philippines, and their delegates recently

### Dandruff Germs Are Responsible

#### Baldness and Most Hair Troubles Due to This Parasite, Which Destroys Hair Roots.

Nobody wants to be bald. But a neglected scalp means falling hair, then baldness. If you are troubled with itching scalp or falling hair, get rid of dandruff without delay. It destroys the hair roots, so that no new hair growth is possible.

Begin now using HAY'S HAIR HEALTH, the reliable dandruff remover. It destroys the dandruff germs and encourages a growth of youthful-looking hair. You won't have unsightly dandruff scales on your coat collar, or bald spots on your scalp if you use HAY'S HAIR HEALTH. W. W. White, Pastor Vienna (Md.) M. E. church, writes us: "I have used half a dozen different hair tonics, but I find HAY'S HAIR HEALTH the very best preparation I have ever used for dandruff." You can get it at any drug-gist's for 50¢, or \$1.00 per bottle, or from the Philo Hay Spec. Co., Newark, N. J. For sale and recommended by D. E. Campbell, Bowes & Co., Fraser & Co., Hall & Co.

### "WETS" WIN AT EVERETT.

Everett, Wash., June 20.—The "wets" won a complete victory in the city election here, electing their three candidates. Three amendments were passed by an overwhelming majority. One repealed the ordinance recently passed by a vote of the people providing for the condemnation and purchase of the local water plant for \$350,000. A second proposal directs the council to acquire a permanent water supply and to construct a system, the plans of which will be submitted to the voters of the

### WEATHER BULLETIN.

#### Daily Report Furnished by the Victoria Meteorological Department.

Victoria, June 20.—5 a. m.—The pressure is slightly rising on the California coast, but low areas cover British Columbia and the North Pacific states inland, the pressure being lowest over Cariboo and the Kootenays. A heavy thunderstorm occurred last night in these districts, causing rainfall on the Lower Mainland, Vancouver Island and Western Washington, Oregon and California. In the prairie provinces fair weather continues.

Forecasts.

For 24 hours ending 5 p. m. Friday, Victoria and vicinity—Southerly and

westerly winds, chiefly cloudy and cooler, with showers to-night or Friday.

Lower Mainland—Light to moderate winds, chiefly cloudy and cooler, with showers to-night or Friday.

Reports at 5 a. m.

Victoria—Barometer, 29.86; temperature, 56; minimum, 54; wind, 8 miles S. W.; rain, .22; weather, cloudy.

Vancouver—Barometer, 29.89; temperature, 60; minimum, 59; wind, calm; rain, .36; weather, cloudy.

Kamloops—Barometer, 29.56; temperature, 53; minimum, 49; wind, 4 miles N. E.; weather, cloudy.

San Francisco—Barometer, 30.04; temperature, 52; minimum, 52; wind, 12 miles W.; weather, cloudy.

Edmonton—Barometer, 29.88; temperature, 58; minimum, 50; wind, 4 miles S. E.; weather, clear.

Winnipeg—Barometer, 30.16; tempera-

ture, 54; minimum, 44; wind, 4 miles N.; weather, clear.

## IS HERE ON MAIDEN TRIP FROM ORIENT

### YOKOHAMA MARU TIED UP HERE LAST NIGHT

Is One of Finest Passenger Steamships in Oriental Service

Ranking as one of the finest steamships operating in the trans-Pacific service, the new Nippon Yusen Kaisha liner, Yokohama Maru, Capt. Noda, paid her first visit to Victoria last night, arriving at the outer docks at 8 o'clock. Local shipping men, after inspecting the ship, considered her the best product of Japanese shipyards yet to come to this port. Her magnificent passenger accommodation, her large holds and the splendid arrangement of her winches for handling cargo were all well spoken of by those who went aboard the ship last evening.

The new Japanese liner surpasses in every respect the other vessels of the Nippon fleet. Capt. Noda says that the Yokohama is the finest seaboat in the company's service, and he is perhaps in the best position of anyone to voice an opinion on this matter, as he has commanded a great many of the Marus and knows their seagoing qualities. The new liner is the first of the Nippon line to be constructed with a flush deck, and this greatly improves the stability of a vessel, especially in a storm. When weathering a storm the sea which break over her stem, stern

Captain K. Noda, Master of the new N. Y. K. liner Yokohama Maru, and also commodore of the fleet.

passengers and her crew total but 160 there would be plenty of room in the craft for those aboard in case of shipwreck. An innovation on the Yokohama which looked well to the pilots was wings extend about two feet beyond the side of the vessel and enable the officer on the bridge, when docking the ship, to obtain a clear view as to her position. The Yokohama has coal bunkers capable of holding 2,635 tons of coal. She has a specially constructed silk room which is not only much larger than those on most of the steamships but is also constructed so as to keep the material in the best state of preservation. The cargo capacity of the Maru is 883 tons, about 1000 tons larger than the other Nippon liners.

## PIRATES LOOT SAFE OF JAPANESE LINER

### Chinese Overpower Officers and Passengers and Depart With \$22,000 of Opium

While the new Nippon Yusen Kaisha liner Yokohama Maru, Capt. Noda, was lying at Hongkong loading cargo for her first trip across the Pacific, a number of Chinese pirates boarded the Maru, running between Hongkong and Formosa, while she was riding at anchor. It was early in the morning and there was a great commotion aboard the vessel before the pirates finally overpowered the officers and passengers.

When walking about the ship one of the night watches noticed someone moving towards him through the darkness, holding in his hands something that glittered. As soon as he realized that the man was a pirate and that the glittering object was a revolver of big type, he attempted to rush into a cabin to report but was collared before he could reach the saloon entrance and could be rescued. After warning him to make no sound, the visitors made their way into the cabins and awoke passengers and crew from their peaceful slumbers and tied them all up. Captain Sugawa, of the vessel, and some of the crew offered a good deal of resistance, but in vain, and eventually they were overpowered and locked in a cabin. The pirates then proceeded to abstract a quantity of opium from the safe, the value of which is said to amount to \$22,000.

## KIT GETS AWAY FOR NORTH.

### Norwegian Whaler Sails to Hunt Mammals—Must Keep Out of Alaskan Waters.

The Norwegian whaling steamer Kit, which has been at Seattle for a month, sailed yesterday afternoon in command of Capt. E. Evanson under orders to remain in northern waters until she secures a full cargo of whale oil and other products of the ocean and then return to Seattle. Efforts to place the Kit under American registry have not been successful to date and she will hunt outside of the three-mile limit from the Alaskan coast but her owners hope that by the time she returns, in three or four months, Congress will have approved the plan of entering her under American registry and giving her a trial as an ice-breaker to carry mail from Unalakleet to Nome next winter.

The Kit is owned by Christian Christiansen, father of Lars Christiansen, the so-called whaling king of Sandefjord, Norway. She came to Seattle from Vladivostok, via Hakodate, arriving here May 16. The vessel is a combined whale hunter and floating whaling station, having machinery aboard for extracting the oils and other valuable products from the whales.

## RICH CARGO ON DOLPHIN.

### Brings South From Alaska Big Ship- ment of Bullion—Valuable Furs Aboard.

Bringing \$500,000 in gold bullion from Dawson and interior points, a valuable shipment of furs, the winter's capture by trappers on northern rivers, and fresh fish, the Alaska Steamship Company's liner Dolphin arrived at Seattle yesterday morning from Skagway and via ports. The gold shipment, the largest received this year, is the largest shipment being by Yukon Gold Company at Dawson. The gold and furs came to Seattle via the coast.

The furs are mostly those of water animals from the rivers of interior Alaska and the Northwest Territories, including a large number of mink, Marten and other skins. They are consigned to various buyers in Seattle and Tacoma, and also to big firms in New York, where they are billed through by express.

## NEW WIRELESS CALLS COMPILED BY STATES

### Americans Carrying Out Berlin Radio-Telegraphic Agree- ment on Pacific

Seattle, June 20.—The first step today carrying out the Berlin radio-telegraphic agreement on the Pacific ocean was taken yesterday by R. H. Armstrong, general manager of the United Wireless Telegraphic Company, when he ordered new lists of call letters compiled in accordance with the ruling of the several governments, placed in the hands of every operator in the employ of his company.

In the past the wireless companies have assigned call letters to the vessels that they equip with the result that there have been many duplications and much confusion. The United States bureau of navigation has taken a prominent part in working out the agreement with other countries, and more than 80 per cent. of the American shipowners have agreed to adopt the plan.

The bureau of navigation has completed arrangements with the companies of American ships and shore stations. All vessels and stations will thus become part of a world-wide system of radio-telegraphy, each vessel and shore station having its own call letter or letters, which can be recognized by the wireless ships and shore stations of all nations.

The change to the new system will involve temporary inconvenience to operators, but this will be offset by advantage of having a wireless call system intelligible to all the world.

The international bureau has assigned a series of call letters beginning with "K" and "W" to American vessels and yachts, and "N" to the United States navy. The "W" group of letters has been assigned to vessels plying in the Pacific, and the letter "K" to vessels plying in the Atlantic. It has been the aim to arrange as far as possible the two remaining letters of the call so that the second letter or letters shall be assigned to vessels of the same line, the third letter or letters will be the vessel's distinctive call. For instance, a steamship line operating on the Pacific has five vessels equipped with wireless, and the wireless call letter will be "W," indicating an American vessel on the Pacific; the second will be "Q" or any other letter or letters adopted to distinguish the steamship line, and the third letter or letters will be "or" any other letter or group of letters adopted to represent the name of the vessel.

Mr. Armstrong explained that the bureau of navigation has completed arrangements with the Berlin bureau for the assignment of call letters to all American wireless ships and shore stations, so that there will be no duplications. When the readjustment is made, after all call letters have been submitted, bulletins will be issued for the information of all nations entering the agreement. The hundreds of calls will be made of single letters and groups in order to prevent duplications.

## ANTILLIAN'S POSITION BAD.

### Liner With Freight for Victoria Strands on Atlantic Coast— Water in Hold.

Advisers were received today that a fifth of the valuable cargo of the steamer Antillian had been saved, but details of the shipments are not to hand. The steamer while bound from Liverpool for Puerto, Mexico, went ashore last week on Turks Island. The cargo included shipments for Victoria on Tuesday morning, Seattle, Tacoma and Vancouver, to come via Tehuantepec railroad and a Canadian-Mexican liner.

## ANTILLIAN'S POSITION BAD.

### Liner With Freight for Victoria Strands on Atlantic Coast— Water in Hold.

There are several feet of water in holds 1, 2 and 3 and all ballast tanks are full. The engineering and stockhold are being kept free by pumps. A fifth of the cargo has been saved, but 20,000 tons remain on board and will have to be discharged before the vessel can be floated. The passengers and mails were taken off by the steamer Tortuguero and conveyed to Jamaica.

## SPRINGBANK'S ROUGH TRIP.

Vancouver, June 20.—Captain Royal, master of the British barque Springbank, has written to friends here stating that he met with heavy weather on the voyage from Tacoma to Antwerp where he arrived on May 18, after a voyage of 149 days. The barque lost sails and tarpaulins and the ventilators were damaged. The Springbank has loaded lumber in Vancouver in recent years, but her last voyage was from Puget Sound. She left Tacoma on December 18 and Seattle the day following.

Captain K. Noda, Master of the new N. Y. K. liner Yokohama Maru, and also commodore of the fleet.

## LIST OF PASSENGERS ON RUPERT IS LIGHT

### Sails North This Morning— Princess Royal Hauled Out for Repairs to Bow

Bound for Prince Rupert on her seventy-fifth trip the Grand Trunk Pacific steamer Prince Rupert, Capt. Barney Johnson, left port this morning at 10 o'clock. The big northern vessel took off rather a light list of passengers, the following leaving here on her: Misses Jenns, Mrs. Hunt and family, Mrs. Jenns, C. E. Hunt, A. T. Johnson, Mrs. N. Hughes, Mrs. J. Nutt, M. A. Roby, A. Hull, T. P. Hull, W. Corperon, A. E. McMaster and R. R. Jeffrey.

Mr. McMaster, who is general agent of the G. T. P. at Prince Rupert, has been in Victoria and Vancouver for the past week. He stated this morning that at the beginning of next month the sternwheeler Port Simpson will return to the Skeena river from the Sitka and will operate from Skeena River Crossing to Hazelton, a distance of some fifteen miles. She will alternate with the steamer Inlander and will handle freight as well as passengers.

To-day the C. P. R. steamer Princess Royal was hauled out on the B. C. Marine railway slip to have repairs made to her bow, which was damaged when she struck a submerged log on her southward trip from Granby Bay. Her cutwater has been broken off for about ten feet and the work of repairing this is not expected to take very long. She will return to the northern run next Wednesday and in the meantime will assist the ferry steamers on the Vancouver run.

To-morrow night the steamer Princess Sophia, Capt. Campbell, will sail for Prince Rupert and Skagway with a large number of passengers and a good cargo of general freight.

## ARRANGE EXCURSIONS ON COMING HOLIDAYS

### Whatcom Going to Angeles July 4—Charmer to Cow- ichan July 1

Several steamer excursions from Victoria have been arranged during the past few days by steamship companies operating vessels out of this port. Announcement was made yesterday of the annual outing to Cowichan Bay on July 1 and also the regular excursion to Port Angeles on July 4. Arrangements have also been completed by the C. P. R. for operating a week-end excursion from Victoria to the Gulf Island on the steamer Joan.

This year the steamer Charmer will take the excursion to Cowichan and the C. P. R. has decided to issue 500 tickets for the trip. The steamer will leave here at 8 o'clock in the morning and will return about 10.30 o'clock at night. The trip to Cowichan always attracts a large number of Victorians and it is expected that the Charmer will be sold out before her sailing time. A good programme of sports and other amusements is being prepared by the people of the up-land port and they promise everyone who attend an enjoyable day.

On July 4 the steamer Whatcom, of the Puget Sound Navigation Company, will make four trips from Victoria to Port Angeles with excursionists. According to the circulars which have been issued, the Whatcom will leave here at 8 a. m., noon, 5 p. m. and 9 p. m., and will return from her last trip early the following morning. The round trip fare has been placed at fifty cents and no doubt the excursions this year will be patronized as largely as they have been in the past.

There are a great many people in Victoria who do not know the beauties of the Gulf Islands. In order that local residents may have an opportunity to see the beautiful scenery on these islands the C. P. R. has decided to run the Joan on Saturdays with excursion parties. She will leave here at 7 o'clock in the morning and return about the same hour in the evening. The fare fixed for the trip is \$1.50 and the officials of the company have to build up a good business on this run.

## SHIPPING INTELLIGENCE

June 19.

San Francisco—Arrived: Steamers Maryland, Astoria; Dedondo, Coos Bay; Santa Monica, Francis H. Leggett, schooner Meteor, Gray's Harbor; Lulline, Honolulu; Algerine, Manzanillo; Pennsylvania, Mackinaw, Seattle. Sailed: Steamers Bear, Portland; Navajo, Gray's Harbor; Tiverton, Ludlow; Klaskan, Victoria.

Seattle—Arrived: Steamers Dolphin, Skagway; Nome City, Rosecrans, San Francisco; Northland, Sitka; Prince Rupert, Prince Rupert; Willamette, Everett; Governor, Sound ports. Sailed: Steamers Spokane, Humboldt, Skagway; Watson, Willamette, City of Puebla, San Francisco; Seattle Maru, Prince Rupert; Tacoma; Prince Rupert, Nome City; City of Seattle, Skagway; Kit, Behring sea.

Quebec, Que.—Arrived: Royal George, Bristol.

Astoria, Ore.—Arrived: Riverside, San Francisco. Sailed: W. F. Herrin, San Francisco; Sue H. Elmore, Tillamook; Carlos, San Francisco; Oleum, San Francisco.

Los Angeles, Cal.—Arrived, Tahoe, Gray's Harbor; Thomas Leland, Gray's Harbor; Willapa, Willapa Harbor; Yellowstone, Columbia River; Hornet, Everett; Defiance, Bellingham; Caspar, Caspar. Sailed: Claremont, Willapa Harbor; Hokulani, Gray's Harbor; Rainier, Gray's Harbor; Willapa, Willapa Harbor; Yosemite, Portland; Columbia, Columbia River; Willey, Columbia River; Helene, Willapa Harbor.

The Russian ship Marie Chen, from Vancouver January 21, has arrived at Plymouth, 148 days out, with lumber.

Bound for Holberg and way ports, the C. P. R. steamer Teas, Capt. Gilliam, will leave port to-night. She is taking out a number of passengers and general freight.

and Mrs. F. Proctor, of this city, supported the latter. The wedding march was played by Mr. W. Heaton. At the close of the ceremony a reception was held, and refreshments served, after which Mr. and Mrs. William Henry Smith and Mr. and Mrs. Arthur Lorne Proctor left town on the 4.30 boat on a honeymoon tour of the Sound cities.

A charming June wedding took place at St. Paul's church, Esquimalt, yesterday afternoon, the principals being Mr. Edgar Dewdney, of Vernon, nephew of Hon. Edgar Dewdney, and Miss Mary Helen Peters, only daughter of Mr. and Mrs. Fred Peters.

The bride was given away by Col. Peters, her father being detained at Prince Rupert, where he is acting as the city's legal adviser. She was charmingly gowned in white satin, heavily embroidered in pearls, the skirt slashed in front to show an underdress of pearl embroidered chiffon.

The bridegroom's gift to the bridesmaids was an amethyst brooch, and to the best man and page pearl stick pins. After the ceremony a reception was held at "The First" Lamson street, the residence of the bride's parents.

DISSENSION IN ROOSEVELT CAMP

COLONEL SCORED FOR GOING TO CHICAGO

Declared to Have Acted Too Hastily—Talk of Compromise Candidate

Chicago, June 20.—With the split between the Taft and Roosevelt forces in the Republican national convention...

It looks as if the bottom had dropped out," remarked a member of the Roosevelt council.

Serious dissension exists in the Roosevelt camp. Many of the leaders were frank in their declaration that the colonel had acted too hastily in coming to Chicago...

Colonel Roosevelt said early this morning before Governor Post gave out the announcement of the release of Roosevelt's delegates...

Francis J. Heney, of California, a Roosevelt leader, said the "fight against the thieves" would be continued in the convention to-day.

Although the real news of the situation was developing nearly a mile away at the Coliseum...

The gavel fell a few minutes after noon, and Rev. Dean Walter Sumner, of the Cathedral St. Peter and St. Paul, offered prayer.

Floor leader Watson, of the Taft forces, obtained recognition immediately. He explained that the credentials committee was not ready to report...

When the doors of the Coliseum were again thrown open at 2 p. m., with still two hours to spare before the gavel sounded, the people began to pour in rapidly.

At 2 o'clock rain came through the skylights and through the windows, and umbrellas were opened all over the hall.

The convention again met at 4 p. m., but on motion of Watson, of Indiana, adjourned until 11 o'clock a. m. to-morrow.

It was said that the convention would not be able to finish its work this week and would have to adjourn over Sunday.

Senator Penrose said: "We will stay with President Taft," when told that the president would get out of the way candidate.

This opinion was a fairly accurate reflection of the "stairway leaders." Some people hold the view that in case of the nomination of Col. Roosevelt by a bolting convention that some other candidate than Mr. Taft might more effectually hold the radical wing of the party in hand.

Theodore Roosevelt before his political advisers and a personally-selected number of delegates instructed for him, late this afternoon read a statement of his position in the Republican nomination fight and left it to them to decide what position they would take in the struggle.

SOUTH PARK RETAINS LIEUT.-GOV.'S SHIELD

Close Competition for Senior Trophy—Girls' Central Win Junior Honors

The result of the singing competition was announced this morning for the Lieutenant-Governor's trophy, open to the public schools of Victoria, and South Park again carries off the honor of having the best vocalist.

The contest was held on Tuesday, the judges being G. J. Burnett, J. G. Brown and Jesse Longfield. The holders of the championship shield were South Park school, who received the trophy last year from Mr. Paterson's own hands.

South Park retains the shield, with only three marks from the full number, Bank street being second. There were nine schools competing in the senior grade, and the competition was very close.

Ten entries had been received for the junior trophy, which is carried off by the Girls' Central, Rock Bay being second. The full details of the marks, and the comments of the adjudicators will be contained in a report to the school board shortly.

References will be made to the excellent work of the supervisor, H. J. Pollard.

Former Judge Parker Recommended for Temporary Chairman. Baltimore, Md., June 20.—Former Judge Alton B. Parker was to-day recommended for temporary chairman of the Democratic national convention which meets here next week by the committee on arrangements.

GRAIN SHIPMENTS BY WESTERN ROUTE

Elevator Men Met at Calgary to Discuss Plans to Handle Crops

Calgary, June 20.—Credence is given to the report that owing to the presence in the city of Mr. Nicholas Bawlf, president of the Northern Elevator Company, there is some big grain enterprise under way here.

Mr. Bawlf is in Calgary looking after the business of his firm and states that they are still receiving grain purchased last year. Incidental with Mr. Bawlf's visit to Calgary, W. J. Ker, of the Braekman-Ker Company of Victoria, who have large elevators and mills in the coast cities, is here conferring with Mr. Bawlf. Other big grain men are expected here.

Despite the statement of Mr. Bawlf that the meeting is only coincidental, the magnates are reported to have been together all yesterday morning and afternoon. Both men expect a big year, and also look for the whole grain route of the west to be changed with the opening of the Panama canal.

The latest rumor in connection with the visit of the magnates is that they are here to make arrangements for the building of several big terminal elevators at Vancouver, which will take care of the grain shipments that will be made through that port on the completion of the Panama canal.

SENSATION IN QUEBEC LIBEL CASE

Defence Claims It Can Prove Mde. Morin is Not Daughter of Chiniquy

Montreal, June 20.—The defence sprung a surprise on the court this morning just as Judge Greenshield was about to deliver his judgment in the suit brought by Mde. Morin, daughter of the famous ex-priest Charles Chiniquy and his wife for \$10,000 damages for libel against La Croix, a Roman Catholic weekly published here.

The defence filed an affidavit signed by three Montreal people claiming that Mde. Morin was not the daughter of the Chiniquys and asked for time to produce a Peter Murray from Illinois, who was said to be her father.

The judge ordered the production of those who had signed the affidavit and insisted that unless they could produce evidence to prove that Chiniquy could not be her father he would proceed to give judgment.

The plaintiff claimed that the Chiniquys did adopt a girl before there was any born and that this had caused the confusion.

North Battleford, Sask., June 20.—A fire, which originated from a gasoline explosion, almost wiped out the year-old village of Edan, forty miles north of here, on the Jackfish branch of the C. N. R., this morning. The following business places were burned: Arizona hotel, Lindgren's hall, pool room and baker's shop, Stevens' general store, Gallin-Watson Lumber Co., and Nelson's general store and post office, two pool rooms, three livery barns, the Pioneer Lumber Company, and many others. The estimated loss is \$250,000.

Artificial tobacco leaves are now made by a process invented by a German chemist. Stems and ribs of tobacco leaves, soaked in a solution of caustic-soda or potash, are separated into fibres and ground until a "smear mass" is obtained. This composition is fed into a paper-making machine and converted into sheets, which possess all the properties of natural tobacco, and may be used in a similar manner to the natural product.

SOUTH PARK RETAINS LIEUT.-GOV.'S SHIELD

Close Competition for Senior Trophy—Girls' Central Win Junior Honors

The result of the singing competition was announced this morning for the Lieutenant-Governor's trophy, open to the public schools of Victoria, and South Park again carries off the honor of having the best vocalist.

The contest was held on Tuesday, the judges being G. J. Burnett, J. G. Brown and Jesse Longfield. The holders of the championship shield were South Park school, who received the trophy last year from Mr. Paterson's own hands.

South Park retains the shield, with only three marks from the full number, Bank street being second. There were nine schools competing in the senior grade, and the competition was very close.

Former Judge Parker Recommended for Temporary Chairman. Baltimore, Md., June 20.—Former Judge Alton B. Parker was to-day recommended for temporary chairman of the Democratic national convention which meets here next week by the committee on arrangements.

OBITUARY RECORD

The death took place this morning at St. Joseph's hospital of John Alexander Kentfield, a native of Bogner, Sussex, England, at the age of 57. The deceased man had lived in Victoria for the last sixteen years. The funeral will take place at 2.30 p. m. on Saturday from the Hanna-Thomson parlors, Rev. Baugh Allen officiating.

The funeral of the late Mrs. Bullock-Webster took place this morning at 10 o'clock, the service being private.

The death took place this morning at his former residence, 1010 Fisguard street, of Joseph Henry Brown, a native of Brockville, Ontario, at the age of 60. The deceased, who came to the Cariboo country in 1876 accompanied by his brother Hugh. Later he conducted a hotel in this city, and was well known and highly respected by his patrons and outsiders. He was a member of the I. O. O. F., also of the Orangemen. He is survived by his widow, a daughter, Mrs. George Andrews, of Victoria; one granddaughter; and four sisters in Ontario; Mrs. J. Empey, Mrs. W. Empey, Mrs. J. Ferguson, and Mrs. Kirkland. The funeral will take place on Saturday next at 3 p. m., from the late residence.

The death occurred last night at the Jubilee hospital of Louise Moerman, wife of Gustav Moerman, a native of France, who had lived until recently at Quatsino, B. C. She was 60 years of age, had no immediate relatives in this part of the country, and was little known here. The funeral will take place on Saturday next at 2.30 from the chapel of the B. C. Funeral Co.

The funeral of the late Etta Birney, beloved wife of James Birney, Jr., of 454 Kingston street, who passed away at Jubilee Hospital on Tuesday morning, took place from the local carriage drivers, with whom Mr. Birney was associated in business. Rev. Gilbert Cook officiated at the home and the grave side, and the following friends of the deceased bore her remains to the grave: J. Heaney, W. Larson, R. Bray, A. Brown, H. Cummings and D. McIver.

H. Lewis, of Montreal, is at the James Bay hotel.

William B. Moir is in town from Alberni and is at the James Bay hotel.

F. Simonds, of Toronto, is visiting the city and is a guest at the James Bay hotel.

J. H. and Harry H. Selkirk, of Vancouver, are registered at the James Bay hotel.

C. E. and W. Wardle have just arrived in the city from Leeds, England, and are staying at the James Bay hotel.

Rev. R. A. Macconnell, of St. Columba church, Oak Bay, who has been attending the general assembly of the Presbyterian church in Canada, held at Stems and ribs of tobacco leaves, soaked in a solution of caustic-soda or potash, are separated into fibres and ground until a "smear mass" is obtained. This composition is fed into a paper-making machine and converted into sheets, which possess all the properties of natural tobacco, and may be used in a similar manner to the natural product.

The Egyptians believed that the soul lived only as long as the body endured, hence their reason for embalming the body to make it last as long as possible. It is estimated that altogether there are 100,000,000 mummies in Egypt.

RULE OF THE ROAD WILL BE ENFORCED

Notices Are Published Warning Public of Regulations—The Control of Hired Vehicles

The city authorities have published a notice over the signature of the chief of police instructing the public about the rule of the road in driving and overtaking vehicles, an order which is universally neglected in the city, particularly by American automobilists who do not take the trouble to learn the obligations imposed by the police regulations of the country they are visiting, and by the teamsters of the contracting companies now operating in the city.

The rule is neglected, especially as to overtaking street cars dropping passengers at street intersections, and fast vehicles, as automobiles, overtaking slow ones like wagons and bicycles, and the attention of the police will be welcome in giving a sharp warning to the offenders.

Closely bound up with street traffic is the arrangement of hired vehicles, concerning which a committee of the council yesterday met representatives of the back and express drivers, and have practically reached an arrangement by which they will take up positions on streets intersecting Government street, but west of the street itself. Vehicles are to be removed from Yates east of Douglas, but an option to use Blanchard avenue will be made.

A schedule of fares is to be drawn up for revision by the committee, as protecting the citizens, and a standard charge is to be fixed according to the value received.

SEEKING OTHER QUARTERS. Temporary Premises Are Required for Health Department Officials Immediately.

The medical department is the latest of the city departments which has to join the hunt for quarters, and the office which Dr. G. A. B. Hall has occupied on the first floor at the city hall which was desired by Assistant Solicitor Copeman as a relief from the incessant noise, and long-winded propensities of his visitors, is now required by the engineering department, where it would be of great service.

Dr. Hall says that temporary quarters are being sought for himself, the sanitary inspector, who is forced into a shack at the back of the market building, and the analyst, and they are seeking to rent a series of rooms until the civic centre is ready, or some better system can be devised to provide the officials with proper accommodation.

Tests are being made with butter at the present time, and the result of the analyses will be announced in due course.

TO HAVE LEGAL ADVISER. Levy is to Be Made by Trades and Labor Council to Create Defence Fund.

The decision of the Trades and Labor council last evening to employ definite legal advice will be generally welcomed, and the leaders of the unions feel that inasmuch as the capitalist organizations unite to secure expert advice, so should the men who have only their labor to sell.

The expectation is that a dollar per member per year would produce about \$1,500 a year, and before an appointment is made it is the intention to create a defence fund of a few hundred dollars as a reserve. One gentleman who has shown a practical sympathy with organized labor, and has been engaged for clients in arbitration and similar proceedings, Frank Higgins, is believed to be strongly favored by some of the officials who are confident if they could secure Mr. Higgins their case would be well looked after. No action will be taken until after the unions have reported back, and determined to what extent they will support the recommendation of the committee.

ALLEN PLAYERS. Verna Felton To-night at Victoria Theatre as Mrs. Jeffries, Jr., in "The Third Degree."

Miss Verna Felton and the Allen Players appear at the Victoria theatre to-night for the first time in Charles Klein's great American play, "The Third Degree." Miss Felton, who opened a very successful first bill in "Zaza," Monday night, is playing Mrs. Jeffries, Jr., and Ralph Belmont is appearing as Howard Jeffries. Irving Kennedy plays the legal part of the play. Mrs. Allen will be seen as Mrs. Jeffries, sr., and the other characters will be in capable hands.

"The Third Degree" will be played to-night, to-morrow and Saturday nights and on Saturday afternoon there will be a matinee performance. The Royal Hungarian String Orchestra which made such a successful opening with the Allen Players, this week is booked for the whole summer season with the company at the Victoria. A large house witnessed the final performance of "Zaza" last night.

NEW APARTMENT HOUSE. Dunford & Son to Build at Corner of Government and Simcoe Streets.

Another apartment house will be erected in the James Bay district by Dunford & Sons, at a cost of \$45,000, from the designs of Captain H. J. R. Cullen.

The site selected is the corner of Government and Simcoe streets, and the material will be brick, concrete and wood. It will be four stories with basement, and will contain 65 rooms. Permits taken out include houses for Mr. Brownlee on Linden avenue, costing \$2,600; D. H. Bale, five-roomed house on Collinson street, costing

THIRTEEN DEAD

Bodies of Victims of Explosion in Mine Have Been Recovered. Trinidad, Colo., June 20.—Twelve bodies of the miners entombed in yesterday's explosion and resultant cave-in of the Hastings mine, were found and removed to the surface at midnight. Though in the path of the flames none of the bodies were badly burned. The thirteenth body was removed from the mine when rescue work was begun to-day. This number comprises the death list.

KILLED BY LIGHTNING. Bellingham, Wash., June 20.—What is believed to be the first death in western Washington as the result of a lightning stroke occurred near Lynden, at 9.30 last night, during the Progress of the first electrical storm that has swept over this section of the state in the last ten years. Phillip Barnhardt was the victim. He was in one of the farm outhouses when he attempted to reach his dwelling and was struck by lightning. Death was not instantaneous, but occurred in a short time. Barnhardt leaves a large family.

MAZAWATTEE TEA. THE MOST LUSCIOUS TEA IN THE WORLD. 50c and 60c per pound. At all good stores. Alex. Marshall, Distributor, 144 Water St., Vancouver, B. C.

**A BEAUTIFUL CITY  
IN THE MAKING**

Kelowna, the Orchard City of  
the Okanagan Valley—  
Marvellous Growth

Kelowna, June 20.—A city is sometimes created by the wealth and influence of man, but more often by the richness of its own natural resources. Kelowna, B. C., belongs to the latter class. Without a railroad, a lake 70 miles long her only means of transportation, with nothing save the enterprise of her citizens and her enormous fruit production to attract the attention of the outside world, Kelowna, sheltered by the mountains and centrally located in the fruitful valley of the Okanagan, has grown to a prosperous community of 7,000, and to a city of over 2,000 people. Kelowna this year refused a third class post office, electing to wait a year or two and secure a building of the second class.

As evidence of growth during the past six months, buildings were completed, or are in course of construction, or ground has been purchased for their erection, to a value of \$358,000. Last year the four land companies operating at Kelowna expended on their holdings \$450,000 in clearing and irrigation; and this year, 1912, their outlay will amount to \$500,000. During the year 1910-1911 cars of fruit were exported; in 1911 600 cars, with considerably less than 4,000 acres bearing, and 12,000 acres will be in bearing orchard in five years and 25,000 in ten years.

The Farmer's Exchange, one of the exporting concerns at Kelowna, has placed orders for three times the boxes used last year, and the future substantial growth of Kelowna resolves itself into an absolute certainty.

With modern stores, hotels, cafes, telephones, electric light and water municipally owned, two newspapers, three of the leading banks, and with a progressive city ideally located, the one thing needful to place Kelowna in the position she rightly belongs to—one of the leading cities of western Canada—is railroad facilities.

The C. N. R. have purchased a forty-acre tract for their terminals in Kelowna, paying therefor \$2,000 an acre, and have purchased most of their right-of-way.

The Canadian Pacific have already two surveys into Kelowna from Okanagan Landing, the terminus of their present line, and the expectation is that the C. P. R. will reach Kelowna next year.

The Kettle Valley Railroad is under construction twenty-five miles to the south, and will either go through Kelowna or connect same with a branch line.

Naturally with such great natural advantages, the value of real estate has advanced, and a great many purchases have been made during the present year. Additions are being put upon the market, and if the expectations of Kelowna in regard to railway connection are realized, as they undoubtedly will be, there will be still greater advances in the very near future. The Western Land and Investment Company, of Victoria and Vancouver are the owners of a sub-division, which they call "Lakeview," which will be the "Shaughnessy Heights" of Kelowna.

**THE PASSING SHOW**

The Empress Theatre. That vaudeville audiences can never seem to get enough of well-played rag-time selections is indicated at the Empress theatre this week. The reception accorded the clever Olivetti Troubadours shows plainly the tendency with which the music holds to the two serendipitous, even after they have responded to several encores are loth to let them go.

A sketch in which the rural comedy element is well carried out is the dainty "The Chalk Line," in which Harlan E. Knight and his company appear at the Empress. This company, which has given the tabloid play an excellent setting, formerly appeared on the Orpheum circuit. "The Chalk Line" deals with a quarrel between postmaster and storekeeper, in a village "way down east," and the title is given because of an expedient the quarrelsome couple adopted of making a chalk line across the store which both occupied.

With an abundance of bright material Harry Cutler, the English singing comedian, reminds those who hail from the old land of the London music halls. Mr. Cutler is one of the latest importations of the Sullivan & Conside circuit and his cockney renditions have won him much success.

McIntyre and Groves are a funny couple who offer a dialogue skit entitled "On Father's Train." This is written for fun and fun only. McIntyre is a son of the famous minstrel comedian of McIntyre and Heath, and shows himself to be a capable successor of his noted parent.

The roller skating turn contributed by the Four Mayos include both funny falls and good trick skating, and the Empress shows some good pictures.

**WILLIAMS' CASEIN SASH**

**Madam—  
ever light candles  
with dollar bills ?**

Yet buying an American or other imported Corset instead of a "La Diva" or "D & A" is like lighting a candle with a Dollar bill. Only the dollar instead of going to ashes, goes to the government as customs dues.

Prove this by asking your dealer to show you a D & A or a La Diva at \$2.50 and any American or other imported corset at \$3.50.

Compare the material, the finish, the style.

We, as experts and manufacturers know that point for point our product will at least equal the imported article costing you \$3.50.

The reason is that when retailers buy a D & A or a La Diva they pay only

the cost of manufacturing plus a legitimate profit, whereas on the imported corset 35% duty is levied.

The duty adds nothing to wearing quality or style but does add one dollar to the price.

We are proud to state that under the British Flag or in the United States there is no finer, no better equipped corset factory than ours, nor is there a more efficient and better trained staff of corset workers anywhere in the world.

The steady growth of our business, shows that Canadian Women

**THE DOMINION CORSET CO., QUEBEC.**

appreciate the quality and price of D & A and La Diva Corsets, as our factory is by far the largest corset factory in Canada.

If you have no money to burn, examine the D & A and the La Diva Corsets and unless you are swayed by prejudice you will not favor the imported corset.

D & A and La Diva Corsets are sold by up-to-date stores throughout Canada.

D & A Corsets \$1.00 to \$3.50.

La Diva Corsets \$3.50 to \$5.00.

on file in the Land Registry Office at the City of Victoria and there numbered 22, with the Minister of Public Works at Victoria, and a duplicate each in the office of the Registrar General of Titles at Victoria, British Columbia, being the Registrar of Deeds for the District in which such work is proposed to be constructed, and has made application to the Governor in Council for approval thereof.  
AND FURTHER TAKE NOTICE that at the expiration of one month from the date of this notice application will be made to the Governor in Council for approval thereof.  
Dated at Victoria, British Columbia, this 28th day of May, A. D. 1912.  
ROBERT PATERSON RITHET,  
By Jackson & Phelan, His Solicitors.

### AUTOS MUST STOP AND ENGINES ALSO

#### STATUTE QUOTED IN COURT OF APPEAL

### Damages Given Where Rider of Horse Was Injured When Machine Was Not Silenced

The responsibility of automobile drivers in regard to horse traffic was demonstrated in the British Columbia court of appeal yesterday afternoon when an appeal by a plaintiff who was thrown from a horse and run over by an automobile was allowed and the action sent back to the supreme court judge for the purpose of having the amount of damages fixed. The British Columbia statute regulating the traffic of automobiles provides that when the driver of a horse shall signal the driver of an automobile, the latter must not only stop his automobile, but must also shut off his engine until the horse has safely passed the machine. Otherwise, should an accident occur the driver of the automobile is liable for damages.

The action is Cassidy against Billings, the plaintiff having sued the defendant for damages as the result of an accident which occurred on a bridge. The plaintiff riding a horse bare-backed entered on the bridge and heard an automobile driven by the defendant coming behind him. His horse was reared and he turned his head to the right and he turned the machine to go ahead. The driver of the automobile stopped the machine when he signalled but did not shut off his engine. The noise of the engine frightened the animal and the plaintiff was thrown in front of the machine. The defendant, seeing that plaintiff would be thrown in front of the automobile sent his machine forward and in doing so ran over the plaintiff injuring his leg.

Mr. Justice Murphy, who heard the suit held that while plaintiff was not negligent in turning back and facing the automobile he was negligent in his manner of attempting to pass it. He should have dismounted and led the horse past, and he should also have had a whip.

The court of appeal was of opinion that the appeal should be allowed. The question was: Was the breach of the statutory duty in not stopping the motor engine the cause of the horse's fear? The inference was that it did cause the horse to be reared, and thereby led to the accident. On the evidence the plaintiff was entitled to succeed, and the appeal would be allowed and the case remitted to the trial judge to assess the damages.

L. G. McPhillips, K. C., for appellant; C. B. MacNeill, K. C., for respondent.

In the appeals of Murray and Linden against the Coast Steamship Company judgment has been reserved in the first appeal and the second has been dismissed. The men were employed on a steamship of the company and declined to work on Sunday, claiming the Lord's Day Act as a defence. Murray was signed on the articles and the question arose as to whether he had not refused to obey the lawful commands of the captain. In the case of Linden, however, he was not signed on but engaged on a trial contract with a full knowledge of the kind of work he would be called on to perform and the times when he was liable to be employed.

### COMMISSION IS PAID ON FINES TO SPECIALS

#### Hackman Defends Charge on Ground of Special Engagement When Accused

The fact that the police employ special detectives who are paid by commission on the fines received by the court from convictions resulting from their work was made known this morning in the hearing of a police court prosecution against a hack driver named Davis, who was found not guilty of overcharging a person he drove in his hack. The witness who testified that he was to get paid by commission from the fine was a special detective named Anderson, who was a passenger in Davis' hack from Yates and Langley streets to Powell street, James Bay. For the hire of the vehicle he paid Davis \$5 before starting the journey. Witness said he had been employed to obtain convictions against disorderly houses. He had been the chief witness in the case against occupants of a house at 416 Perry street, who were convicted and fined heavily. During the time of his operations in connection with this house he had hired Davis' vehicle to drive him there and had been told it would cost him \$5. He paid the sum, and on arrival at Powell street, left the hack in company with the hackman at the latter's direction, and walked to the Perry street house, where the hackman secured his entrance by first telling the occupants that he was "all right."

The charge of overcharging failed, as the by-law provides a scale of charges except for special engagements. The police magistrate held the engagement as testified to by the witness to be a special engagement with a price declared before the hiring commenced.

### SPOKANE LEAVES ON FIRST ALASKA TRIP

#### Sails With Representative List of Passengers — Persons From Every State

When the Pacific Coast excursion steamship Spokane, Capt. Geo. Zek left port this afternoon on her first Alaskan cruise, nearly every state in the American union was represented. A glance at the passenger list showed people registered from California, Washington, Massachusetts, New York, Pennsylvania, Minnesota, North Carolina, Maryland, Nebraska, Illinois, Montana, Connecticut, New Jersey and Oregon. There was only one person on board who resides in the British Empire, Miss Margaret Weeks, of Vancouver. Every stateroom on the Spokane was taken and it is estimated that the combined wealth of the passengers on the vessel runs into many millions of dollars. There are doctors, lawyers, railroad and steamship men, financiers and journalists. The trip will extend over a period of nearly two weeks and all the interesting points in Alaska will be taken in. The Indian villages, many centuries old and with which many interesting stories are connected, the ice fields and the other renowned spots on the Totem Pole route, will be visited. The Spokane arrived here this morning at 6 o'clock and did not pull out until about 3 o'clock. It was expected that she would clear at noon but Capt. Zek decided to hold his vessel here in order to make the trip in Seymour Narrows to-morrow morning. Mrs. Mary E. Hart is again acting in the capacity of lecturer on the Spokane. She has held this position for many years and knows the history of every point in the Northland.

### HEAD LIGHTS

With 161 tons of general freight for this port and a large list of passengers, the Pacific Coast steamship Queen will arrive in port to-night from San Francisco.

The American ship Aryan has been chartered by the Leads Lumber Company for lumber from the Sound to New York, rate not announced. She is 100 days out from Baltimore for the Sound with coal for the Cumberland Coal Company.

A. F. Thane & Co., shippers of lumber at "Frisco," have chartered the British steamers Strathmore, Strathairn, Strathpey and Strathardie to load lumber at the Bay City, Puget Sound or Columbia river for Australia, Sydney, Pirlie Range, at rates ranging from 6s. 6d. to 7s. Cargoes for these vessels were sold some time ago and the high charter rates paid will leave little—if any—profit in the deal. The rates show an advance of three to six per cent over the last previous steamer fixtures, the British steamer Netherpark, taken a few days ago by Hind, Ralph & Co., at 6s. 6d. All the vessels are at present under charter to the government for coal from the Atlantic to San Francisco.

We always may be what we might have been.—Procter.

The following account of the shortest courtship on record was given by counsel in the London law courts. On January 17 he proposed to her, and on the following day, before the doors were open, they were at Doctors' Commons to obtain a license. They took a taxi from Doctors' Commons to find whether a curate was at leisure. The curate was found, and by two o'clock that day they were married.

### TO COLONIZE ON A LARGE SCALE

#### COMPREHENSIVE PLAN TO BE CARRIED OUT

#### By Canadian Pacific Railway Company Through Its Chicago Office

Although the Canadian Pacific railway has for some years maintained an office at Chicago for the purpose of furthering the colonization of Alberta, about the first of this year, Mr. J. S. Dennis took steps to tremendously increase the scope and effectiveness of the colonization work done at Chicago.

Previous to that time the Chicago office had as its main object the assistance and inspection of the fifty or more general agencies of the Canadian Pacific Irrigation Colonization Co., Ltd., located throughout the United States and all working more or less independently.

Mr. Dennis' new plan was far broader than this and was nothing less than that the colonization office at Chicago should get into close personal touch to the greatest extent possible with every man and woman in the United States thinking about locating in Western Canada. The idea was to disseminate accurate information about the Canadian West; to advise parties considering the purchase of land; the best locations for the classes of farming in which they wished to engage; and in particular to assist the American farmer with limited capital to obtain a highly productive farm and independence in Western Canada.

The first move toward the carrying out of this broad educational plan was the making of a large appropriation for advertising the agricultural resources and opportunities of Western Canada so that the message of the Last Best West has been carried in the past six months to every city, town and village, to practically every farm home on every rural mail route in every section of the United States.

The replies to these educational advertisements were received by the Colonization office at Chicago and the demand for literature on the prairie province was enormous, requests for the handbook of Alberta taking the lead of those for the other provinces.

Each of the thousands of inquirers whose letters were received each month received personal letters in reply and it is safe to say that the Chicago office of the Canadian Pacific has conducted the largest correspondence in the interests of Western Canada which has ever been maintained by any company, organization or bureau. To practically every farmer and every opportunity seeker interested in the Canadian West from four to eight letters have been written, explaining in as personal a manner as possible the chances here for that particular individual.

In order to make the way to Western Canada as easy as possible for each person interested, special efforts were made to get each one to explain to the colonization department just what his resources were, what class of farming he favored, and about what acreage of land he expected to purchase if he moved to the Canadian West.

The results of this rather personal inquiry were most surprising. No one showed the slightest resentment, but to the contrary, a very large percentage of farmers and investors in correspondence with the colonization department stated the amount of cash they were prepared to put up for land immediately and the size of farm they expected to purchase.

Where exact figures were given the amounts were tabulated. For example, the farmer who stated that he had \$12,500 capital which he was prepared to reinvest in Western Canada lands was listed with that amount opposite his name. If he merely generalized as to his capital, of course, no accurate record could be kept.

The total of the plain figures given to the Chicago Colonization office alone aggregated \$1,591,496,000, and most of this is ready to be turned into Western Canada before the end of the coming summer. The capital, according to the farmers' own figures, is to be expended in the purchase and development of 112,205 acres of land, representing a probable investment of \$1,466 per acre purchased.

These figures should be taken merely as an indication of good things to come to Alberta as a result of the colonization work at Chicago, and by no means as a final result of the six months' operation of the new plan of educational colonization. Ten per cent of all the farmers in correspondence with the Chicago office would be a fair average of those who gave plain figures as to their resources. The remainder generalized, but that is no indication that they are not equally prepared to purchase. Yet only the plain figures are considered above.

The attitude of the farmers throughout the United States toward the land-selling organizations of the Canadian West was shown in a remarkable way by the replies received from the various states.

The farmers of Missouri whose motto is supposed to be "show me," were not at all reticent in showing the colonization department the extent of their resources. This was equally true of the farmers of Illinois, Indiana, Ohio, Iowa, Nebraska and generally of the Central West, many of which were equally quick to admit either they were practically "broken" or that they had resources amounting in cases to a hundred thousand dollars each.

But in the east—New York, Connecticut, Massachusetts and Pennsylvania, the farmers' enthusiasm for the opportunities of the Canadian West was seldom expressed in plain figures of cash to be put up. Just another evi-

LAWLESSNESS IN SAANICH.

To the Editor.—Is it not time that the South Saanich municipality set about seeing to the proper policing of their widely spread and thickly populated district?

While in Victoria you are, at every turn, tripping over policemen, horse-foot and artillery—plain and ornamental—we have in this large and wealthy municipality only one covered constable for the protection of a population approximately to one-seventh of that of Victoria.

There was a potato pit here emptied of about a ton of potatoes, about 100 chickens taken from a brooder, and have been openly defied by a couple of able-bodied brigands, with bicycles and baskets, and invited by these 40 decide my right to my own strawberries, which I caught them stealing, by the ordeal of battle, and had I wanted the constable to referee the combat, it would have meant a seven miles' journey, more or less, to his headquarters at Royal Oak, and then, on my arrival there, I might find that he was in pursuit of the enemy in some twenty miles distant part of the municipality.

One of my strawberry plantations, at some distance from, and out of sight of, my house, is at present being so well picked for me by some person or persons unknown, that it is hardly worth my while to put my own pickers on it.

There is a good deal of dissatisfaction in this part of the municipality on the score of this inadequate policing, many of these ratepayers having had experience calling for police assistance when it was not to be had. Of course no one blames the one constable, whom the only feeling is one of wonder that he is able to come around as often as he does.

S. G. FETHERSTON, Cedar Vale (Mr. Tolmie P.O.), Victoria, June 13, 1912.

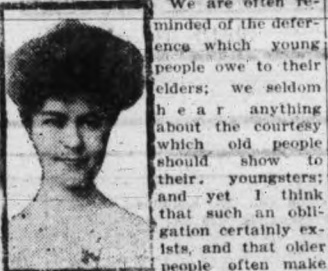

### The Evening Chit-Chat

By Ruth Cameron

"In short, if youth is not quite right in its opinions there is a strong probability that age is not much more so."

We are often reminded of the deference which young people owe to their elders; we seldom hear anything about the courtesy which old people should show to their youngsters; and yet I think that such an obligation certainly exists, and that older people often make the mistake of ignoring it.

It is both irritating and amusing to hear an elderly lady flatly contradict her niece on subjects which the latter has been studying for the last ten years. Doubtless there are many things about which the older woman

does know best, but in regard to this matter she has absolutely no claim to superior knowledge except "I've lived a good deal longer than you have, my dear." Consequently she makes herself both obnoxious and ridiculous by her assumptions of superiority. Wisdom in youth deserves respect just as much as wisdom in old age, and whoever fails to give it falls in propriety, even if he is a hundred years old.

Again, young folks have a right to their privacies. An impertinent question does not cease to be impertinent when an older person asks it. A young woman tells me that an elderly cousin considers that her eighty years give her the right to say anything she wishes, and that she often asks such questions as, "How much board do you pay your father?" "How much did your sister's wedding cost?" A good many of us know people like this who presume on their years to be rude and inquisitive, and need not to say, we do not love them for it.

One more suggestion for the older folks. A short time ago I urged the young people to call on their lonely old friends more often. A letter-friend writes, "I wish you would also tell these lonely old people that the young folks will be more anxious to visit them if they meet their visitors with some writes, 'I wish you would also tell these young folks have so many interests that it is very good of you to spare time for us lonely old people,' instead of with some acid remark like, 'You have not been to see me for a long time. Well, you will be old yourself

# THE AUTOMOBILE

## IN AND AROUND VICTORIA

MARINE DRIVE

B.C. ENG. CO.

At the last meeting of the Victoria Automobile Association the matter of an assistant secretary was finally dealt with. This matter, it will be remembered, was first dealt with at the last annual meeting of the association, since then the matter has been brought up several times, and Charles A. Forsythe, chartered accountant, 317 Central Block, was appointed at the last meeting to fill this office. Forms of nomination for membership can be obtained from Mr. Forsythe, and the association has issued a request that every one interested in motoring will make a point of becoming a member of that body, as by this means its influence for the betterment of existing roads and the formation of new ones will be much increased. That the society is quite earnest in its determination to bring every motor owner in the city into its ranks is shown by the steadily increasing membership, the following twenty-seven new members having been elected at the last general meeting of the association: Capt. Balcom, 2329 Blanchard street; Thos. R. Cusack, 1418 Douglas street; S. J. Drake, 1418 Douglas street; Miss Fitzlyson, 1069 Terrace avenue; F. Gillanders, 512 Simcoe street; Miss M. Gooders, 812 Pandora avenue; J. M. Langley, 1051 Fort street; F. Moore, 1021 Pemberton road; W. H. Murphy, 1029 Belmont avenue; C. Mossa, North Saanich; W. W. Moore, 1521 Camosun street; R. Musgrave, 1294 Government street; H. E. Maddock, 1210 Douglas street; H. P. Newman, 643 Pandora avenue; James Oxendale, 1258 Fisgard street; Cyril G. Owen, Fort street; Miss Peatt, Colwood, B. C.; E. B. L. Rogerson, 2214 Quadra street; F. W. Stevenson, 1601 Belmont street; J. S. Sibley, 2411 Wick street; E. M. Savage, 837-84 Charles street; G. M. Tripp, 255 Government street; R. M. Taylor, 1418 Douglas street; F. H. Ware, 513 Sayward block; S. H. Worswick, 2132 Victoria avenue; W. O. Wallace, Belmont; Percy Winch, 1394 Wharf street.

Country Club-House. Other discussion which came up at the meeting was that relative to the proposed country club-house, the members showing some variance of opinion on this subject. W. W. Foster, deputy minister of public works, suggested looking over the district around the new government road on the west coast, which, he said, was within easy distance of Victoria and would make a very pleasant locality for the suggested country headquarters.

Club Quarters. Club quarters may shortly be opened in the city, thanks to the generosity of A. E. Todd, who has offered to place at the disposal of the association for one year, rent free, premises on Fort street, near Cook, all that is wanted to complete the arrangement being a room to look after the place and make it of real use to members and visiting motorists by supplying any information that might be required by such at any time.

Post-Planting at Duncan. The post-planting crew of the Victoria Automobile Association which left town early on Tuesday morning consisted of a small cohort of cars filled with enthusiasts—the same enthusiasts who have been seen at nearly all the motoring events in Victoria for the past year. The president of the association, A. E. Todd, and his wife were among the number, also Mr. and Mrs. Moody and Mr. Bannerman (of Moody, Styles and Bannerman), while comprising in the group was the big motor truck lent by Graham & Co. for carrying the outfit of tools and sign posts. Each of the passenger cars had its quota of metal signs, tools, nails, etc., the little file of motorists leaving their rendezvous in front of the city hall shortly after seven o'clock. The intention of the organizers of this post-planting party is to mark the

Island Highway to Campbell River and the Canadian Highway between Nanaimo and Alberni—an undertaking which they anticipated, at the time of leaving, being able to accomplish by Friday evening.

**TO VISIT VANCOUVER**  
Saturday, June 22, has been set for the date for the first of the summer motoring tours of the Automobile Club of Seattle and Vancouver, B. C., will be the destination of the army of motor

AUTOS AT SHAWNIGAN ON RECENT RUN

car owners. The distance to the British Columbia metropolis by way of the Pacific Highway is approximately 172 miles. The start will be made in the afternoon of June 22 and stops over night will be made by the Queen City motorists at Mount Vernon, Burlington and Bellingham, continuing to Vancouver the next morning. Sunday will be spent in traveling leisurely over the roads and in sight-seeing in the Canadian city.

Monday, June 24, the Seattleites will be the guests of the Vancouver Automobile Club. The return to Seattle will be made the following day, or as many who can spare the time can ship their machines to Vancouver Island for a few days' tour of the scenic driveways on the island. There are some beautiful roads leading out of Victoria, while the scenery is of a varied and gorgeous nature.

Frank M. Fretwell, secretary of the Automobile Club of Seattle, has gathered information concerning road conditions and routes of travel, and club members desiring to make the journey can get data from him.

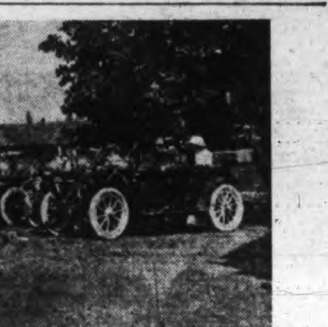

Interest in Other Runs. Several other motoring jaunts are on the schedule of the club for this summer, the longest one being to San Francisco in August, when the annual meeting of the Pacific Highway Association will be held in the Golden Gate City. The journey to San Francisco will be known as a "club meet," as the car owners will not travel in a body, owing to the long distance of the trip, but will meet in San Francisco. Parties of two, three and four cars will wend their way southward to attend the convention.

Interest in the summer tours of the club is increasing each year and a big increase in the number of participants is noticeable in each trip. It is not improbable that from fifty to seventy-five cars will be in line when the start is made from Vancouver on June 22. The Queen City motorists want to make a strong impression in the British Columbia city, for the Canadians extended themselves in driving to the Pottatch last July. In the neighborhood of seventy-five or eighty machines made the trip to Seattle last summer, and when the Queen City boosters invade King George's domain this month they will urge the Canadians to motor to the Pottatch in July.

The San Francisco club meet is attracting considerable attention among the club members and it would not be surprising if the organization turned out a big procession of cars. President J. T. Ronald of the Pacific Highway Association; Frank M. Fretwell, secre-

tary of the same organization and secretary of the Automobile Club, and W. A. Avery, one of the leading automobile accessory dealers in this city, are planning to drive their cars down the coast. C. E. Plimpton, president of the club, is a very likely participant in the event also.

In view of the importance of the forth-coming annual convention of the Highway Association, it is not improbable that a member of automobile parties in Tacoma, Portland and other cities along the route of travel

ADMIT MR. TODD'S CLAIM

The Seattle Times says: Some discussion has arisen recently as to who actually were the pioneer pathfinders of the Pacific highway route from San Diego, Cal., to Vancouver, B. C., and in response to inquiries, Frank M. Fretwell, secretary of the Pacific Highway Association, has just given out the following statement: "To Mr. and Mrs. A. E. Todd, of Victoria, B. C., belongs the honor of first completely pathfinding and accurately logging the Pacific highway route from San Diego to Vancouver."

SOMETIMES THIS HAPPENS

boards in various places—under the running-boards and seats, and even on the sides of the propeller shaft under the footboards of the rear seats. The dashboard will not present that plainness of which many manufacturers at the present time profess to be proud. It will have a clock, speedometer and an electric light switch, all placed close to the driver. Sometimes both a thermometer and barometer are installed. The style and quality of the lamps and of the instruments just mentioned will afford a clue to the experience and knowledge of the owner. Even the condition of the pockets are built to follow the suggestions of the owner. These are typified in dash-board, ventilators, foot-scrappers—fixed under the running boards, and cup-

Continued from Page Fourteen

Third will be a route from New York via Philadelphia (with connections from Baltimore and Washington) along the old National Highway through Columbus, Indianapolis and St. Louis to Kansas City, thence through Chicago, Kansas to Colorado Springs, and across the Rocky Mountains via Denver to Salt Lake City. This is a civil engineering expert topographer and cartographer, will also act as a special agent of the United States office of public roads. He is one of the best known route experts in the country, has made three transcontinental trips, and the "Trail to Sunset" came from his journeyings. Information of distances and altitudes, hotel and garage accommodations, and anything to interest the traveller will be included in the copious notes for the book of strip maps which will be issued for each route.

### WITH THE DEALERS

**Western Motor Co.**  
Among the purchasers of McLaughlin-Buick cars this week have been L. Thomson, of Saanich, and Robert Graham, of Saanich, who have each taken a model 29, while the only cars that remain in stock at the garage at present are three separate models which are composed of one model 34 runabout, a big grey model 43 and a 45. Very shortly there will be a fresh shipment of five cars and that will in all probability be the last that the Western Motor Co. will be able to obtain from the factory at Oshawa for the present year. Mr. Clark, the manager of the company announced yesterday that a new garage will shortly be set up at the corner of View and Vancouver, the lot on which this is to be built has al-

ready been purchased and is one hundred feet long and sixty broad. The garage, which will be of brick and fitted out on the most up-to-date lines, will be a great boon to the large number of Buick models of the Motor Co. which will very probably not be on hand for some months as the factory people at Ontario, have had such a tremendous season that the new cars will necessarily be delayed. Even with the large number of hands that are employed, and the fourteen acres of floor-space in use at Oshawa they have not been able to cope with the unprecedented demand for these popular and low-priced cars.

**White Garage.**  
The black touring car, which is announced last week would be the feature at the White Garage this week has been somewhat delayed but in all probability will be on hand tomorrow. This model is on the same lines as the 1913 torpedo-bodied car which can be seen any day at the garage. In three weeks time the new six-cylinder 60 H. P. White will be in the city, the first of its kind that has been seen here. This car won the great prize at the New York Automobile show last year. This car is priced at a high figure but this is warranted by the excellence of design and the quality of workmanship. The power of the engine is on the ample side and it is sufficient to take a full load in an enclosed car up most hills on the direct third speed. The ability of the engine to accelerate is of a very high order, and this ability, it need hardly be said, is of extreme value in circumstances where a car is likely to be checked many times, as for instance in congested traffic. The car is also quite silent and able to crawl at three miles to the hour on direct gear without a kick or falter on the part of the engine, effi-

cient to the highest degree, and particularly easy to control.  
**Moody, Styles and Bannerman.**  
Though selling operations for this season have practically terminated at the Cadillac Garage, 51 the corner of Yates and Cook, yet business is still very brisk. So satisfied have users of these well-known machines been that orders for the 1913 models have been pouring in steadily for the last few days. Nothing is more eloquent of satisfaction on the part of a business man than a repeat order. The Cadillac has gained in Victoria when it is known that already, before any advance notice or new models have arrived in town, twenty-five 1913 models have already been booked in advance. This season has been a most successful one for the popular firm, but the coming one gives prospect of becoming more successful still.

**Vancouver Island Automobile Co.**  
At their large garage on Wharf street the above company have experienced a very busy season, and the sale of the big, high-priced Peerless cars has been one of the features of the current motor selling season. The reason for this probably lies in the fact that the Peerless motor cars represent the spirit of conservative progressiveness. They lack no element which has been definitely proved of value. There are modifications in details of chassis and superstructure in the direction of greater simplicity, efficiency, comfort and beauty; also the ownership of a fine car carries with it the title to such improvements in construction and equipment as represent the furthest advance in motor car building.

**Wood Motor Company.**  
The Wood Motor Company have just received a shipment of Detroit Electric. One has been delivered to Mrs. Hilt and the other two are to be used for show purposes until sold. The beautiful lines and appointment of these cars are something worth comment. It is undoubtedly one of the most beautiful creations of the motor car makers' art. The "Victoria" in the "open electric" finishes one of the most beautiful, quiet running and clean conveyances for the business woman or man who does not care to travel over 20 miles an hour and whose only aim is safety. The "Brougham" is a car which is most used by ladies in fair or rough weather. It is entirely enclosed in glass and mahogany, trimmed inside together with gray brocade.

The new addition to the Wood Motor Company's present plant will be opened up on Rockland avenue—in the course of the next week or ten days, which will give them additional 18,000 square feet of floor space. This will give them 20,000 square feet.  
The new Wintons have recently arrived and been put out for rent owing to the excessive demand for rent cars in the last month.

### NEW "AUTO GAME"

Following is an outline for a game such as might be enjoyed at an afternoon tea or to amuse friends in the evening. It was used at a St. Patrick's day luncheon, March 18, with the following original explanation:

Were Saint Patrick here to-day, He'd need an auto right away. Fill in the list with makes you find, And he can choose his favorite kind.

It is usable, of course, any time with merely an oral introduction or with some other verse appropriate to the occasion. Each item represents the name of an automobile, which the participants are invited to guess and write down.

1. Head office in British cabinet.
2. A river in New York.
3. One of Scott's novels.
4. The discoverer of electricity.
5. A planet.
6. A famous pitcher of the New York Giants.
7. A pioneer western trail.
8. Discovered a continent.
9. One of the presidents.
10. One of the trinitities on the Mississippi.
11. A sleeping-car corporation.
12. Theatre in which Lincoln was shot.
13. First battle in the revolutionary war.
14. An occupation.
15. One addicted to strolling.
16. An instrument for removing dust.
17. A cabinet officer.
18. An African ruler.
19. One of the Apostles.
20. A president and an Indian implement of war.
21. Something to burn.
22. Where Nature looks her best in fall.
23. A well-known sewing machine.
24. Business between states.
25. An old Chicago hotel and a vocalist.
26. What the people of the United States call themselves.
27. Pertaining to the government.

### MOTOR EXHIBITION

Arrangements are now well in hand for the Vancouver Motor Exhibition, which will take place August 10 to 17 at the Horse Show grounds at Hastings park. Though nothing definite has been decided during the past month since first the announcement was made of the forthcoming exhibition, yet a number of innovations will be seen this year which are destined to make the show one of the most successful that has ever been held in Vancouver.

### 15,000-MILE RUN

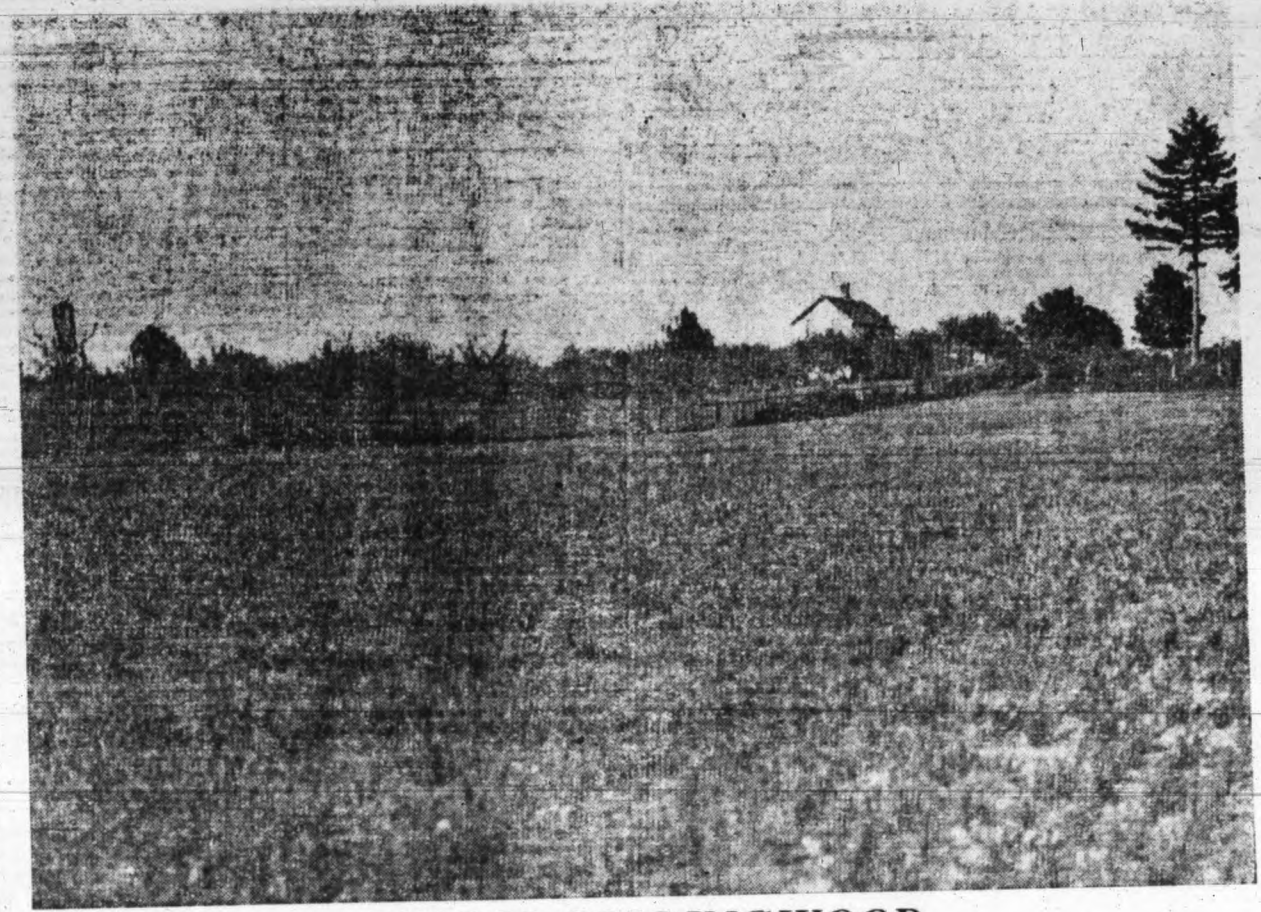

George B. Spangler, a tourist of world-wide experience in touring, will leave Detroit June 17 on a tour which will take him from Detroit to San Francisco, thence to Galveston, New Orleans, Savannah, Ga., Washington, Philadelphia, New York, and back to Detroit. The total mileage will amount in the neighborhood of 15,000 miles and in the neighborhood of 500 cities and towns will be visited on the trip. The trip will be made in an Oakland Model 45 touring car, and three men besides Spangler will be engaged.

One of the features of the trip is the fact that Spangler will attempt to make the circuit and detour of his car for 20 per cent of the list price when he is through.

# COLLINGWOOD

25 Minutes to Victoria via Saanich Suburban

THIS IS COLLINGWOOD

A View of the House and a portion of the Orchard

THE prices of all commodities have advanced to such an extent, in other words the purchasing power of a dollar has decreased to such an extent, that you cannot afford to have any money idle. It must be earning more than banking rate of interest. It must make a maximum rate of increase consistent with safety. A little invested in Collingwood will multiply rapidly and surely. Let us show you this property, you will then understand why this is so.

Invest \$100 in Collingwood to-day. Your money will do better working for you than you for it. We would like to discuss this with you on the "reason why" basis, we have the "goods" to back us up.

## Pumps Vim Into Worn-Out Men

If you feel tired out stupid, with no ambition to get out and hustle; if you have spells of despondency and a desire to give up the fight, you need new energy. The race is to the strong. Show us a failure and we'll show you a weakling, lacking in courage, strength and ambition, three essentials to the makeup of a successful man. We can take a man like that and pump new energy into his body while he sleeps, and in a few weeks' time transform him into a giant in strength and courage. It is proven that energy and electricity are one and the same thing. If you lack this energy, you can get it only by filling your nerves with electricity. Electro-Vigor does this. Wear it while you sleep. Feed its invigorating streams of electric life in your nerves. You wake up in the morning full of new life, new energy and courage. Its vitalizing spark in your blood.

Electro-Vigor is an electric body battery which sends a steady current of electricity into the nerves and builds up vitality and strength and removing the cause of disease. No pain can exist in a body charged with electric life. You can have no rheumatism, no weakness, no inactive parts, for the life generated by this appliance gives health and strength to every organ.

Electro-Vigor is not an electric belt. It never needs charging, for it makes its own power constantly. March 16th, 1912. 1229 4th St. East, Calgary, Alta. DEAR SIR— Your Electro-Vigor is doing me a lot of good, as I am now able to attend to my work much better and take a lot of pleasure out of life. Yours sincerely, GEO. M. YEATS

### WE GIVE IT FREE

Get our 100-page book, describing Electro-Vigor, and with illustrations of fully developed men and women, showing how it is applied. This book tells in plain language many things you want to know and gives a lot of good, wholesome advice for men. Will send this book, prepaid, free, if you will mail this coupon. Cut it out now.

### MOTOR NOTES.

The Galveston Automobile Club's beach meet, August 8, 9 and 10, will be run on a 2½-mile beach course, near the western part of the city. The course will be fitted with banded turns at each end, and the cars will be in plain view of the spectators at all times. A spacious grandstand is to be erected well above the level of the beach, and on a much larger scale than those heretofore used. The repair pits will be installed directly in front of the stand. Prizes aggregate \$6,000.

The average prices of imported automobiles sold in England for the last four years were as follows: In 1908, \$1,815; 1909, \$1,665; 1910, \$1,595; 1911, \$1,265.

Arrangements have been made in London to found a motor museum to include a historic collection of cars. The location of the museum is to be in South Kensington. Germany already has a motor museum in Munich.

Vienna is educating her police to gain a practical knowledge of driving and caring for the motor car. Lectures are given on the automobile, and the police are visiting the factories to witness the manufacture of automobiles.

steady increase in southern touring by northern visitors. The number of garages has almost exactly doubled in a single year.

### WARM ROAST FOR GEO. BERNARD SHAW

#### LONDON NEWSPAPER AND ECCENTRIC WRITER

It Slates Him for His Unfeeling Reference to the Titanic Disaster

A recent issue of the London Standard dishes out the following hot roast for George Bernard Shaw:

Mr. Bernard Shaw is no doubt an amazingly clever man. He has often said so, and he ought to know. But he has a very irritating way of being clever in the wrong place. Not once or twice only has his passion for originality at any cost led him to overstep the line of common decency. At the time of the late King's death, when the whole nation was bowed by the sense of a loss almost personal to each individual, Mr. Shaw decided that the occasion was appropriate for a lively disquisition deriding monarchy in general as a ridiculous institution, and denouncing loyalty as a ludicrous mixture of snobishness and hypocrisy. Mr. Shaw and the small band of servile admirers who sit at his feet no doubt looked on this effort as a fresh and triumphant proof of genius. Common-place people took a different view of the performance. They were not even shocked by the daring heterodoxy of Mr. Shaw's views, but were just mildly contemptuous and impatient, as serious men are when some incorrigible wag insists on interrupting a grave discussion to inquire when a door may be a jar. The latest example of Mr. Shaw's peculiar sense of humor is less conspicuously an offence against good taste, but it is quite bad enough. Large numbers of families here and in America have suffered the most poignant pangs of bereavement through the loss of the Titanic, and people in general, when touched in no ordinary way by a disaster unparalleled in the history of the world, have the memory of that awful tragedy of the North Atlantic still oppress the public mind. Mr. Shaw considers it his duty to sparkle. He devotes the best part of a column to pointing "some unmentioned morals" of the Titanic. Briefly, his view is that there has been "an explosion of outrageous romantic lying." Romance, says Mr. Shaw in effect, demagogued the formula of "women and children first," it instilled in the heroism of the captain and the coolness and fearlessness of the officers; and it could not be satisfied without a dramatic curtain such as that provided by the band playing a well-known hymn tune as the ship sank. To satisfy these requirements of romance the public has been deluged with "ghastly, blasphemous, inhuman, brazenly lying." The facts have been distorted in deference to sentiment. The women and children were not all saved; the captain did not die heroically and knowingly steaming into an ice-field at the highest speed he had coal for; the officers were afraid to go to the rescue of people struggling in the water; and the band played rag-times because the officers were fearful of a panic, and did not dare tell the passengers—especially the third-class passengers—of their danger. Such is Mr. Shaw's view of the facts of the Titanic calamity. His "morals" seem chiefly to be that the British are an absurd people, prone to cowardice, given to vainglorious lying, and destitute of the capacity of looking facts in the face.

In the last-mentioned quality at least Mr. Shaw shows no great superiority. He deliberately ignores all the circumstances that tell against what may be called his argument. No sane person is disposed to deny that the story of the wrecked liner includes features which demand close scrutiny. That is why Lord Mersey's court is sifting the whole affair with minute severity. But, with all deductions, the record of that terrible night is one to stir the pulses of the ordinary, healthy, open-minded man. In spite of Mr. Bernard Shaw the Anglo-Saxon peoples will continue to honor the brave dead. All the women and children, it is true, were not saved, but why should Mr. Shaw, in emphasizing that melancholy fact, deliberately pass over the other undoubted fact that hundreds of men with quiet and cheerful courage acquiesced in what he calls the "romantic formula" of "women and children first"? Nobody has tried to represent the dead captain as a hero; he simply met death when it came, after keeping his head in a scene of horror calculated to try the most adamant self-possession. Nor, to the best of our recollection, has there been any attempt to compare the conduct of Englishmen with "the hypothetical dastardness which lascars or Italians or foreigners generally—say Nansen or Amundsen, or the Duke of the Abruzzi—would have shown in the same circumstances. This sentence is interesting as revealing the cloven hoof. Mr. Shaw, like a true Socialist, is above all things anxious to vilify his country. It quite distresses him to hear praises of British gallantry; and, to administer a corrective, he unscrupulously strings together every point that tends to throw an ugly light on the conduct of passengers and crew. Fortunately, Mr. Shaw's audience is not a particularly influential one. Those who like his plays mostly detest his politics; and those who might like his politics would, we suspect, find him frankly unreadable. It is a pity Mr. Shaw conceives it his duty to discuss every subject that happens to occupy public attention. Jack Point is amusing enough when he sticks to his facts, and jeers, and japes. But a Jack Point who insists on talking on everything from the theory of rent to the Titanic disaster is merely tedious.

ardliness which lascars or Italians or foreigners generally—say Nansen or Amundsen, or the Duke of the Abruzzi—would have shown in the same circumstances.  Vancouver—Bright sunshine, 52 hours 6 minutes; highest temperature, 84 on 17th; lowest, 50 on 16th; rain, 58 inch.  
 New Westminster—Highest temperature, 80 on 18th; lowest, 47 on 15th; rain, 30 inch.  
 Kamloops—Highest temperature, 82 on 18th; lowest, 46 on 15th; rain, 44 inch.  
 Barkerville—Highest temperature, 74 on 17th and 18th; lowest, 38 on 15th; rain, 79 inch.  
 Returns from Prince Rupert, Atlin and Dawson incomplete.

#### To Keep Skin White, Velvety, Wrinkle-Free

(Aunt Sally in Woman's Realm.)  
 C. M. W. says: "My arms are so coarse and rough I cannot wear short sleeves. What do you advise?" The treatment recommended to "Anise" will doubtless overcome this condition.  
 A. F. G. asks: "What should I do for crow's-feet and for a bumpy neck?"  
 Try a wash lotion made by dissolving 1 oz. powdered axolite in 1/2 pt. witch hazel. This is immediately effective in any wrinkled or flabby condition. Use daily for awhile and results will surprise you.  
 Anise: A simple way to keep your skin smooth, soft and white is to apply ordinary mercerized wax before retiring, washing it off in the morning. This keeps the face free from the particles of lifeless cuticle which constantly appear. The wax absorbs these worn-out particles, so the younger, fresher, healthier skin is always in view. An ounce of mercerized wax may be had at small cost at any drug store. Use like cold cream.

### BIRTHDAY CALENDAR

#### IF THIS IS YOUR BIRTHDAY

Exercise great care against accidents and put your mind on what you do. Small annoyances will occur and the year will try your spirit, but in the end happiness will outweigh your trouble.

Those born to-day will desire to travel and will suffer many hardships in consequence. They will succeed best in those occupations in which speech is important.

#### IDEAS OF A PLAIN MAN

BY DR. FRANK CRANE

Here is a list of things for you to think on when you get the blues. They are but creature comforts, to be sure, but creature comforts have a certain power to soothe the soul, a peculiar power which neither religion nor philosophy possess.

Think then, when the universe is all tangled, and you are aware of the world, and life's problems are too much for you, and the isness of the is seems overshadowed by the wasness of the might-be—

think on these things:  
A chimney that draws well.  
A lamp that does not smoke.  
Real cream.  
Sweet, perfect butter.  
A fat book, containing a bully story, that will last a week.

A good bed waiting for you with open arms when you are sleepy and tired.  
A spring of pure water.  
A wood, in summer, with long grass, and a brook.  
A new friend, who has never heard any of your jokes.

A woman whose face lights up when she sees you.  
A man (if you're a woman) who likes you and is afraid of you.  
Miraculously finding a twenty-dollar gold piece every time you put your hand in your pocket.

Owning a slave, your very own.  
Shoes that don't hurt.  
Strawberries.  
The power to enjoy all these things and not be ashamed of yourself.

#### CRUSHED TO DEATH.

Gerrard, June 20.—An inquest was held here on the body of J. K. Robinson, of Kaslo, who was killed by a falling tree at Rudy's logging camp, about six miles from Gerrard, Trout lake. Dr. Devlin held the inquest and the verdict brought in was that the deceased came to his death through accidental causes and that no blame could be attached to anyone.

There are only about 100,000 British people in India—one to say, every 2,000 of the population.

"Nag" Roof composition. Waterproof and fire proof. See our house, Section 4, Greer Co., 1225 Wharf street.

#### IN THE SUPREME COURT OF BRITISH COLUMBIA

IN THE GOODS OF HARRIET COWPER, DECEASED.

TAKE NOTICE that Probate of the Will of Harriet Cowper, late of Victoria, B.C., in the Columbia, splinter, was issued on the 25th day of April, 1912, to A. J. W. Bridgman, real estate agent, of 207 Government street, Victoria aforesaid, as sole executor. That all persons having any claims against the estate of the said Harriet Cowper are required to send full particulars of the same, duly verified by declaration, to the undersigned on or before the 31st day of June, 1912, and all persons are required to pay the same forthwith to the said executor. After the 31st day of June, 1912, the executor will proceed to the distribution of the estate according to the Will, having regard only to the claims of which he shall then have received notice.

Dated the 3rd day of May, 1912.  
CREASE & CREASE,  
Solicitors for the Said Executor,  
P. O. Box 625, Victoria, B. C.

### OFFICERS ELECTED AT CONFERENCE

#### Adventists Will Establish the Church Schools as Rapidly as Possible

Kamloops, June 20.—The most successful conference ever held by the Seventh Day Adventists of British Columbia has closed here. The newly elected officers are: President, J. G. Walker, Pitt Meadows; secretary, treasurer, Andrew Roedel, Vancouver; executive committee, J. G. Walker, T. H. Conway, Nanaimo; J. L. Wilson, Pitt Meadows; J. Rotaker, Armstrong; G. W. Gibson, Victoria; A. H. Nicholson, Mission City; A. D. Cook, Vernon. Much interest was taken in the subject of education and the conference voted to establish church schools as rapidly as possible and a fund was raised to establish such schools. The Adventists firmly hold to the principle of keeping out of debt.

After an interesting discussion on temperance work, the conference unanimously adopted the following resolution:

"Whereas the liquor traffic is the great over-shadowing curse of this and other lands, increasing the burden of taxation, multiplying widows and orphans, filling almshouses with paupers, our jails and various penal institutions with criminals, increasing disease, degrading reason, filling our hospitals and insane asylums with physical and mental wrecks, and whereas the sale of alcoholic beverages tends to the destruction of the home, to the increase of poverty and dissipation, to the destruction of the morals and debauch the youth, to increase drunkenness, incite riot, robbery and bloodshed, to increase ignorance, infidelity and lawlessness and to ultimately ruin the bodies and souls of its victims for time and for eternity, therefore be it resolved that we, the Seventh Day Adventists of British Columbia assembled in annual conference at Kamloops, June 6-16, 1912, do hereby declare our opposition to the manufacture and sale of alcoholic beverages in every form, including the use of fermented wine at the communion table, also against the use of tobacco, and that we express our appreciation of and sympathy with the good work being done in the interest of temperance by the various temperance organizations in this province, and that we urge our people to cooperate, so far as possible, with all proper efforts put forth for the abolition of the manufacture and sale of rum, and to stem the increasing tide of temperance which threatens the ruin of the home and the nation."

### WILL INSTALL LEAD STACK.

#### Important Announcement Regarding Granby Company's Plans at Goose Bay.

Vancouver, June 20.—Jay P. Graves, vice-president and general manager of the Granby smelter at Grand Forks, announces that in addition to the already announced project of a copper smelting plant to be located by the Granby interests at Goose Bay, Portland Canal, a lead stack would be installed.

"You may state positively," said Mr. Graves, "that we will put in a lead stack." This means that, in addition to the Granby interests operating a smelter for their Hidden Creek mines, which are mostly copper propositions, the company will put a lead smelter in connection, giving an opportunity for treatment of the valuable silver, lead and galena ores of the Salmon River district and the Portland Canal.

With his son, Clyde M. Graves, Mr. Jay P. Graves left for the north, to be gone several weeks, during which time he will select the smelter site and decide upon just what machinery will be installed, besides outlining a course of development of the Hidden Creek mines, the railroad, tramways and wharves.

Although the Granby company will expend during the next few months a hundred thousand dollars a month in the development of its properties at Goose Bay, the net earnings of the smelter at Grand Forks, in all probability, will be sufficient to permit a resumption of dividend-paying within a short time. According to Mr. Graves' statement, the net earnings of the smelter at Grand Forks the last three months have been much in excess of the best previous record.

"The Hidden Creek smelter will be of 2,000 tons daily capacity," said Mr. Graves, "as against 3,500 tons capacity of the smelter at Grand Forks, but the metal contents of the Hidden Creek ore is almost twice as much as the Phoenix ores, while the cost of production will be much less, consequently the net earnings of Hidden Creek should be more than that of Grand Forks."

### INSURANCE RATES AT KAMLOOPS

Kamloops, June 20.—At the last meeting of the city council the mayor brought up the matter of insurance rates in force in the city. He mentioned a report of a representative of the underwriters made last summer, favorable to a reduction, but the same high rates remained in force. Ald. Crawford said the excellent fire department equipment and certainty of an adequate supply of water which the new reservoir would provide entitled the city to lower rates. Ald. McGill moved that the clerk write the Underwriters Association to that end. Carried.

The mayor reported that R. S. Lee, C. E., R. H. Lee and J. Wilson, city engineers, had had a conference on matters relating to city sewerage, grades, power scheme, etc. Mr. Lee had visited the Barriere river and said that he would pass on the plans of the city's hydro-electric scheme on his next visit to Kamloops. He expressed satisfaction at the progress on the new reservoir.

### WATCHMAN FOUND DEAD.

New Westminster, June 20.—The body of M. Olson, a watchman employed by the B. C. E. R. Company, was found Tuesday morning in his shack near Craig's mill at Chilliwack. According to Dr. McEwen, who viewed the body, there was no doubt that the man had succumbed to heart failure.

### NEW WESTMINSTER PUBLICITY WORK

#### City Council, Board of Trade and Progressive Association to Co-operate

New Westminster, June 20.—According to the plan adopted by the city council there will be a committee of control from the city council, board of trade and progressive association in charge of the publicity work of the city and this committee will allocate to each body all matters coming up for their consideration. The city council will be represented on this committee by the mayor, the chairman of the publicity committee and the publicity commissioner; the board of trade will be represented by the president and vice-president, and the progressive association by its president and secretary. Should financial aid be necessary, the committee of control will recommend payments by the city council.

These were the recommendations of the publicity committee, presented by Ald. Curtis, and they were adopted without discussion.

With regard to the scheme suggested by Messrs. Walker and Wilkie for the Fraser Valley municipalities to combine in placing an information bureau in Vancouver and for circulating booklets describing the advantages of the Fraser Valley, it was decided that Mayor Lee call a meeting of representatives of all districts on the Fraser, but that it should be a municipal undertaking governed by those civic bodies contributing to its upkeep.

Mr. Grant, secretary of the trades and labor council, requested the council to appoint a committee to confer with the trades council over the proposal for maintaining a free employment bureau, and Aldermen Dodd, Gray and White were appointed the committee to represent the city council. Mr. Grant pointed out that a labor bureau was now maintained by the trades council, but they were not financially able to keep a man at that work all day or at night.

W. A. Duncan, city clerk, reported that at a recent meeting of the licence commissioners a resolution was passed recommending that the hotel liquor licenses be increased from \$200 to \$400 a year and the wholesale liquor licenses be increased from \$50 to \$100 a year.

The city solicitor will be instructed to draw up the necessary amendment to the by-law. A petition was received for the opening up of Holmes street, to connect with Armstrong street, otherwise there was no outlet to the golf links station on the B. C. E. R. The board of works will report.

### NEW LAKE STEAMER.

Nelson, June 20.—It is probable that the new C. P. R. passenger steamer will be ready for the season's traffic by June 1, 1912. According to the contract let to the Western Drydock & Shipbuilding Co., Port Arthur, Ont., this steamer will cost approximately \$150,000.

Machinery and steel hull, which are a duplicate of the steamer Bonington, are to be shipped from Cleveland, Ohio, and must be delivered and erect in Nelson not later than September 1 of this year. The steamer will have a passenger license of 400 passengers.

# Investments that make your Money Grow

### DROWNED AT VANCOUVER.

Vancouver, June 20.—Decomposed after being in the water for at least six months, the body of a man was discovered by Claude Butcher, a sailor on one of the boats moored at the sugar refinery wharf Tuesday. No marks of identification could be found on the body, and it does not tally with the description given of anyone who is known to have been drowned in the harbor.

Of manufacturing industries in the United States in 1909, 35.9 per cent. were under incorporate ownership and employed 75.4 per cent. of all wage earners. Value of products was \$16,341,000,000, or 73 per cent. of total; 5,000,000 wage earners were employed.

## In the Highest Degree Profitable

Some men figure that as the mercury climbs up sales will fall down. And figuring that way, fate is kind, and does not disappoint them.

So, there has grown up a commercial superstition that Summer is a dull season.

No greater fallacy has ever gone so long unchallenged.

Summer is a dull season for many lines—but there is no fundamental reason why it should be.

For instance, take a typical case—that of the Canadian wallpaper manufacturers.

They wished to secure their placing orders from the retailers before the early Fall—when American lines are offered. Through education by Advertising, they advanced the season to start the middle of June, instead of the end of August, and they now beat their foreign competitors to the market by nearly three months.

Perhaps you face a selling problem that education by Advertising will solve. Perhaps your Summer business needs the tonic of Summer Advertising.

As the mercury climbs up to its highest degree, increase, rather than slacken, your Advertising and selling efforts. You will find it profitable—in the highest degree.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 508 Lansden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.

Financial News

COPPERS FEATURE OF NEW YORK MARKET

All Issues Show Strength—Industrials May Lead Upward Movement

(By Courtesy F. W. Stevenson & Co.)
New York, June 20.—The opinion is entertained in good quarters that the industrials rather than the rails are likely to lead an upward movement in the stock market owing to the fact that the carriers do not as yet appear to have turned the corner in the matter of adjusting operating expenses to the current level of freight rates, and as a consequence it is thought that an expansion in trade and industry will not be reflected to the extent in net earnings of the railroads.

Table of stock prices for various commodities like American Canadian Oil, Canadian Northwest Oil, etc.

Table of stock prices for various commodities like Amalgamated Development, American Marconi, etc.

NEW YORK MONEY.
New York, June 20.—Money on call steady, 2 1/2 per cent; ruling rate, 2 1/2 per cent; closing bid, 2 1/2 per cent; offered at 2 1/2 per cent.

NEW YORK SUGAR.
New York, June 20.—Raw sugar steady; Muscovado, 39 test, \$3.36; centrifugal, 36 test, \$3.86; molasses sugar, 39 test, \$1.11; refined sugar quiet.

BOUNTIES PAID ON WIRE AND LEAD

Government Returns Show Over \$345,000 Expended in Last Fiscal Year

Ottawa, June 20.—Bounties paid upon wire during the fiscal year 1912-13, \$4,400,000, which at \$4 per ton means that the bounties were paid on 1,100,000 tons.

WHOLESALE MARKET

Table of wholesale market prices for various commodities like Apples, Bananas, etc.

RALLY IN THE GRAIN MARKET

Wheat Options Show Advance of One Cent—Weather Favors Growing Crops

(By Courtesy F. W. Stevenson & Co.)
Chicago, June 20.—In view of recent belated selling in wheat, more especially in July, some little rally in prices was in order, if only for the fact of an argued oversold market. This was seen to-day, an approximate one cent gain being recorded for the three options.

Table of grain market prices for various commodities like Wheat, Corn, etc.

WHEAT RECEIPTS

Wheat receipts in carloads follow: Minneapolis, 117, 185; Chicago, 212, 196; St. Louis, 23,000, 24,000.

the Vancouver boat. He will make a brief stay in Vancouver, and will then proceed to Ottawa to meet Prof. E. F. Prince, commissioner of fisheries, who is an old friend of his, from there he will go to New York to return to England.

In conversation with a Times representative, Dr. Olsen said he had spent a delightful time in Japan among old friends, who had lavished kindness upon him. Entertainments, receptions and luncheons had been arranged in his honor, and among his baggage was a gift of Japanese wine from prominent officials, and in addition he was bringing away from Japan tributes from friends, which swelled the dimension of his baggage.

He spent some days in the capital, and paid visits to the Foreign Office, the Department of Agriculture and Commerce, the Agricultural College of the Imperial University, the Ueno Imperial Museum, the Asakusa park, and delivered lectures before the Marine Products Association, and the Marine Products School. He was the guest of honor at a banquet given by the officials of the latter association.

Among the places visited were Odawara and Hakone, and later Kamakura and Enoshima, and everywhere he was cordially received, later going on to Kobe. He had the honor of an audience with the Mikado, who conversed with him about his work, and thanked him for always being ready to place his knowledge of marine products at the service of Japanese officials visiting England to study the subject, and for the many ways in which he has contributed to the development of Japanese fisheries.

He held the decoration of the Fourth Order of the Rising Sun, and had received a token from the Marine Products Bureau of the Department of Agriculture and Commerce four years ago. The Mikado showed a keen interest in Occidental matters and scientific inquiry during their conversation through an interpreter.

The doctor, who is a member of many learned societies, and in addition to his Japanese decoration holds the First Order of Vasa from the Swedish government in Nagasaki in 1878, and in 1877 became a naturalized British subject. After spending eight years at sea he settled at Grimaby, where he is engaged in the manufacture of fishing implements, and the production of compasses and other instruments of navigation. He has won many medals for this class of work, and is the author of several books on marine products, his Fisheries Almanac, first published in 1877, having reached its thirty-sixth edition. Other works are "Navigation for Fishermen" and "Guide to Navigation." At the international convention of the Marine Products Association held four years ago at Washington he was elected vice-president, and given an honorary degree. Recently he was elected a member of the Japan Fisheries Society.

Dr. Olsen showed an intimate knowledge of fishing conditions on this coast, and of the international disputes between Canadian and American fishermen, and asked after the progress of the British Columbia Fisheries, Ltd., being himself commercially associated with Sir George Doughty in more than one fishing enterprise. He is an intimate friend of Captain Curtis, who was prevented by a domestic engagement from meeting him at the Outer Wharf.

### AUSTRALIAN BOYS REACH HOME AGAIN

After World Encircling Tour Which Embraced This City —Leut. Simon's Opinion

The Australian boys who have just completed a tour of America and the United Kingdom and were in Victoria in December, have returned to Western Australia by the R. M. S. Orsova, after a nine months' absence. Dense crowds lined the quay, and the boys were given a magnificent reception.

Mr. J. Simons, the chief organizer of the tour, said: "The party has travelled 40,000 miles by motor-car, steamer, and

### An Innings for the Small Investor

# PANAMA PARK

This high class subdivision gives the investor his last opportunity to buy Victoria residential property at small town prices. The first payment has been placed at such a small nominal figure that it is practically within the range of everybody. The subsequent terms are so easy that the least saving on the part of the purchaser each month, will see him safely through and assure a splendid margin long before the last installment is due.

The rapid sale of Panama Park has, in no small measure, been due to this admirable arrangement of payments.

There are scores of other redeeming features to this property worth looking into, which do not need to be rehearsed. All we ask is an opportunity to show you Panama Park. The outstanding qualities will appeal to you just as strongly as they have to the hundreds of buyers who have already made their choice of a lot in the subdivision.

Practically every person we have taken out to Panama Park has bought from one to ten lots. You could wish for no better testimony to the attractiveness of the property.

There is still a good range of choice in Panama Park at the original prices, providing you act quickly.

Call up the office to-day and arrange to have our motor take you out.

**YOU GET YOUR CHOICE ON THESE TERMS**

## \$25 Cash and \$10 Per Month Lots From \$250 to \$450

**THE BEST VALUES EVER OFFERED IN VICTORIA IN HIGH QUALITY CLOTHING FOR MEN, YOUTHS AND BOYS WILL RECEIVE A PRELIMINARY ANNOUNCEMENT IN TO-MORROW'S "TIMES."**

We have taken over the entire remainder of the first grade stock held by Alex Peden, together with the exclusive agencies for high class clothing held by him.

To make room for this excellent showing of goods we must clear much of our own present stock of quality clothing and furnishings. We shall mark every piece to be sold at prices that will insure their moving in the specified brief time.

Those who value quality at unusually low cost will not fail to keep posted on this sale.

## MACKINNON'S

557 JOHNSON STREET

The tour has cost roughly about \$60,000, most of which we earned by our own efforts. Approximately the institutions with which we have operated received \$20,000 as their share of a balance before we close all accounts after our intended tour of the State, and that will go towards carrying further the objects of the league. I sometimes think of founding a Young Australian League Boy's Club, on patriotic lines, but that is only a dream at present. I went away with an unbounded faith in Australian boys. I come back after observing types in all parts of the world satisfied that the boys of Australia are superior in every respect.

"When we entered a town or city we detailed two senior boys off to each school, to lecture on Australia, and to answer questions from the pupils. This plan brought us into contact with tens of thousands of children and students, thus advertising the wonders and resources of Australia. This was good for our boys also, and gave them an incentive to study the details of Australian life, for they had a fear of being asked some questions they might not be able to answer."

**Try Cuticura Soap and Ointment Free**
