What a Dollar Will Buy in Bulbs for Your Winter Garden

This page is dedicated to those among our customers who are, as yet, not familiar with the joys of seeing a Daffodil burst its dainty bud, who are yet to become acquainted with the fragrance of the Hyacinth and the showy brilliancy of Tulips. As small an investment as One Dollar will bring to your home the joys of flowers and a taste of springtime when all outdoors is still wrapped in gloomy winter. The bulbs are bound to bloom if the simple directions given in the following pages, are followed.

The "All Season" Window Garden Collection for \$2.00 Postpaid

Bound to bring joy from Christmas until early March. The Roman Hyacinth will bloom first, followed by the Early Single Tulips. The Daffodils and later, Double Tulips, will bloom during January, followed by the Hyacinths during February. Here is what we will send:

- 6 First size Named Hyacinths, Our Selection.
- 3 Early Roman Hyacinths.
- 6 Early Single White Tulips, Named.
- 6 Early Double Yellow Tulips, Named.
- 6 Empress Daffodils or Narcissus.

27 Sure-to-Bloom Bulbs for only \$2.00.

(A Big \$2.50 value and we pay the postage.)

Beckert's "Surprise" Collection of Daffodils

You won't know just how much loveliness is contained in rather unattractive bulbs until you see these burst into bloom:—

6 Choice kinds of Daffodils of our selection, 3 bulbs of each kind, blooming in succession, 18 bulbs in all, postpaid for \$1.00.

Beckert's "Get-Acquainted" Tulip Collection

There is a riot of color wrapped up in early tulips and a pan or two of them will brighten any home. To make more friends for Tulips we offer 2 dozen Early Tulips, 4 Named Sorts, our selection, 6 bulbs of each kind, postpaid for \$1.00.

The "Soil-less" Window Garden

There are some bulbs that thrive quite as well in water, in glasses or bowls with pebbles, as they do in soil. It is quite interesting to watch them send forth the roots and develop. We will mail, postpaid, 6 Chinese Sacred Narcissi, 6 Roman Hyacinths and 6 Paper-White Narcissi, in all 18 Selected Bulbs for Water Culture, postpaid for \$1.00.

Have You a Friend Who Is Fond of Flowers?

Then send her (or him) one of above collections with the compliments of the season and feel sure that it will meet with a particularly grateful reception. Bulbs as gifts have become so popular because they seldom disappoint. They prove to the recipient that the sender keenly appreciates the finer things in life while the long lasting qualities of the flowers serve as a lasting reminder of friendly thoughtfulness. Our Mail Order Department executes all out-of-town orders with speed and accuracy.

Pittsburgh, Penna., August 15, 1919.

Midsummer Greeting to Our Friends, Our Customers

FLOWERS, sunshine and cheer are inseparable companions. How logical then, that we should fortify our homes against the dreary winter months by growing some flowers. Nature herself provides certain bulbs into which, last spring, she stored an abundance of sunshine and blooming power. The Dutch bulbs which we offer herewith, are really flowers in embryo. With the help of soil, water and the congenial warmth of the home they promptly burst forth in gay colors that help shorten the dull mid-winter days.

We list in the following pages the choicest of the many floral treasures which France and Holland contribute to our indoor and early spring gardens. Only such sorts are offered in the different classes, as have stood the severest tests of our most critical customers for years. All are priced as moderately as our insistence for the most vigorous and most select bulbs together with present import conditions warrant. *We import direct from the growers.*

The flowering of the bulbs is an easy matter, if the simple culture directions given within this catalog are followed. Most of them should be planted between early October and Thanksgiving Day. A few, like Paper White Narcissus and Roman Hyacinths may be planted for a succession of flowers, as long as bulbs are obtainable. We suggest however that you place your order promptly upon receipt of this catalog as insurance against disappointment later in the season.

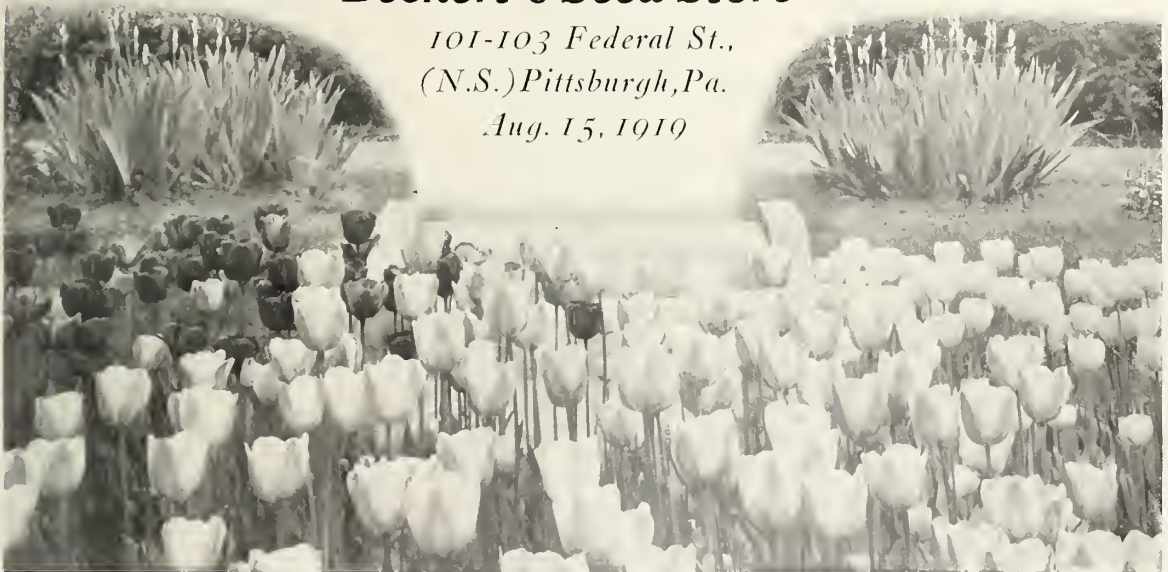

Yours for more Flower Gardening,

Beckert's Seed Store

101-103 Federal St.,

(N.S.) Pittsburgh, Pa.

Aug. 15, 1919

Customers Will Oblige Us by Carefully Reading This Page Before Ordering

Name and Address. Write your *Name, Post Office, County, and State* as distinctly as possible. Some orders reach us which give neither name nor location. In such cases it is impossible for us to fill such orders until we again hear from the senders.

Send Us Your Order as Early as Possible. It will facilitate its prompt execution, and will serve as insurance against disappointment later in the season when our collection of varieties becomes "broken." We shall always appreciate, after Nov. 1st, the giving of a second choice of specific sorts.

Use the Order Sheet. Make out your list of requirements consecutively in the order as given in the Catalogue, placing the quantity wanted before the article, and the price of the same in the column to the right; and always keep a copy of your orders.

Correspondence should not be intermingled with the body of the order, but should be written on a separate sheet of paper.

Remittances. Send your remittances by Express or Post Office Money Order, Registered Letter, or Draft on New York. For small amounts, postage stamps will be acceptable.

When the Remittance is not sufficient to pay for the bulbs ordered, we will send the quantity for which the remittance will pay.

Express Rates. Seeds, bulbs, and plants are now entitled to special rates, which are considerably lower than rates on general merchandise. Where quick delivery is desired, we advise, unless goods are too bulky, to have shipments go forward by express or parcel post.

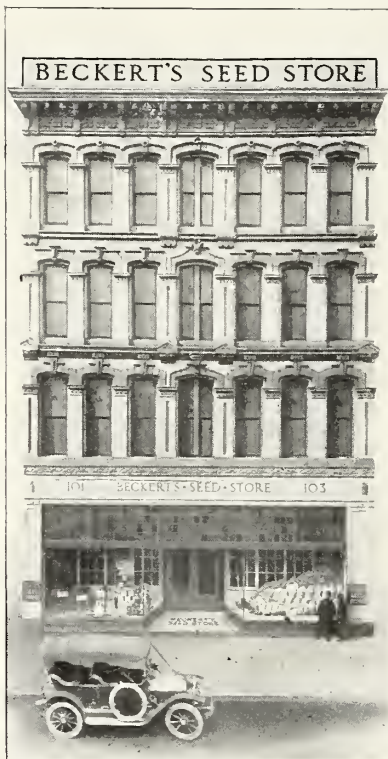

Errors. All possible precautions are taken to avoid their occurrence. Notify us at once if your order is not properly filled, and we will promptly make the necessary corrections.

Substitutions. As the season advances, some stocks of bulbs are exhausted, so it is advisable, when late orders are sent, to name a few substitutes. We make substitutions only when requested to do so, sending varieties that will as fully cover the indicated wants as our stock will permit. If not so instructed, the remittance will be refunded.

Catalogues are sent free to all our customers of the *past year*. Should any change their place of residence, we desire to be informed, that we may correct the address in our Catalogue list. Our local customers, who purchase over our counters, will please give their correct address when making their first annual purchases; this will insure their receiving Catalogues the following year by mail. Many of our patrons who desire our Catalogues fail to receive them because their post office address is unknown to us.

Please Let Us Hear From You

We are always delighted to receive from you frank expressions of opinion concerning either our goods or methods of service. If it has been our privilege to serve you to your satisfaction, kindly *tell others* about Beckert Service. If our service proves disappointing, please *tell us*. It is our business to *please* you and our constant efforts are toward rendering the type of service that stands for thorough satisfaction. We shall gladly forward our catalogues to such among your friends as you know to be interested in gardening.

Where we are taking care of your orders

Mails Make Near Neighbors of Us All

Throughout last winter, mail orders were filled the day they arrived. Bulb orders will be filled as soon as shipments reach us from abroad—generally around October 1st. Do not let the fact that you cannot personally call at our store, discourage you from sending your order to headquarters for Quality Bulbs. Our personal advice, recommendations or suggestions on any point in the make-up of your order are yours to command by mail.

Quick, economical service from our door to yours via U. S. mail

Parcel-Post Rates

Parcels of bulbs weighing 8 ounces or less must pay postage to all zones at the rate of 1 cent for each 2 ounces; in excess of 8 ounces at pound rates.

Parcels of general merchandise weighing 4 ounces or less must pay postage to all zones at the rate of 1 cent per ounce; in excess of 4 ounces at pound rates.

We forward, postpaid, all seeds in packets, ounces, and quarter-pounds.

To figure postage on bulbs, please refer to the approximate weights per dozen bulbs given under the various class headings throughout this catalog.

	Local rate.	Pittsburgh and R. F. D. Routes Nos. 1, 2, 3, 4, 5	First pound or fraction pound	Each additional pound or fraction	Limit of weight
			\$0 05	\$0 00 ¹ / ₂	50 lbs.

The World's Finest Hyacinths and How to Grow Them

THE cultivation of Hyacinths indoors as well as in the garden in beds or borders dates back several hundred years and had its beginning in Holland which, to this day, is the home of the Hyacinth bulb industry. Their growing from tiny bulblets into the fine large bulbs which we supply, has become almost a science and the Dutch growers strive constantly to give us, each year, a greater choice of varieties in many shades, of different blooming seasons.

From the many hundreds of sorts now available in each of the color classes we have selected for you, by a careful weeding-out process, those that most nearly measure up to our ideal of what stands for perfection in Hyacinths. Not all sorts lend themselves to growing indoors during the off-season, which is termed "forcing" by the initiated. Nor are the smaller size bulbs offered for outdoor garden culture suitable for indoor culture.

However, by observing the various classifications and by treating the bulbs as suggested under the various headings, even the beginner should score a full measure of success since the bulbs we offer are really the cream of the crop—ready to bloom if only given a fair chance.

Culture in Pots, Bowls, or Boxes. Use porous soil thoroughly mixed with well-rotted manure and some sand, not omitting some drainage. A single bulb will require a 5-inch pot. Allow same proportionate space, when planting a number of bulbs in larger pots or window-boxes. Remove any sprouts there may be at the base of the bulbs. Plant the bulbs so that the top appears just above the surface of the soil, water thoroughly, and place in a cool, dark but airy situation until the roots are well established, then bring them to light.

Prepared Holland Fiber

For Growing Bulbs in Vases, Bowls, Jardinières, etc., without Drainage.

Wonderful success has been obtained by planting in this Fiber such bulbs as Dutch and Roman Hyacinths; Paper-White, Chinese and other Narcissi; Tulips, Freesias, Crocuses, etc.

Bulbs are planted in similar manner as we direct for planting bulbs in soil. It is not desirable, however, to press the Fiber too firmly, otherwise the roots do not penetrate freely, and the bulbs may push themselves upward out of the Fiber. Once planted, they require but little attention, only they must be kept moist, but on no account must it be sodden or too wet. The Fiber should never be permitted to become dry; if so, the pores of the roots close up, and failure is likely to result. Until the bulbs have sprouted about 1 inch, they should be kept in a dark, cool but airy cellar, room or pantry, then brought to the light, preferably where cool, but above the freezing-point. Bulb Fiber can also be used advantageously for planting bulbs in pots, as the Fiber does not dry out so readily as soil.

Prices of Holland Fiber:

½ pk. (4 lbs.) 40c.; peck (7 lbs.) 65c.; ½ bu. (14 lbs.) \$1.15; bu. (28 lbs.) \$2.00.

By parcel post, add postage at your zone rate on opposite page.

Hyacinths in Glasses

Hyacinths should not be started in water before the end of October. The bulbs require a certain period of rest and, if started too early, they will not develop a satisfactory root-growth and consequently will produce an imperfect flower.

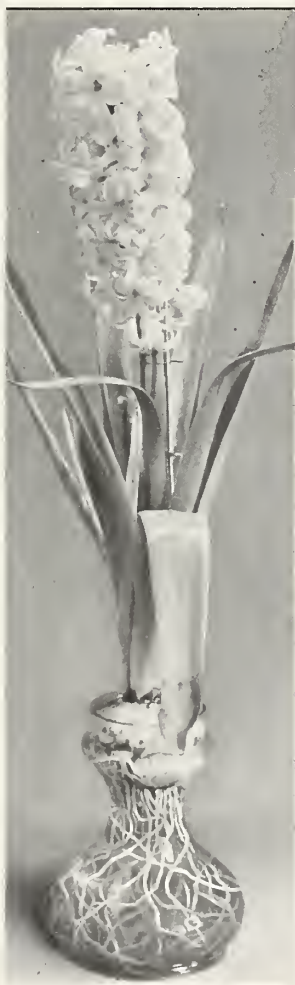

With proper attention, the Hyacinth will produce as perfect a flower in water as in soil. For this purpose, use only the most perfect bulbs and, before placing them in the glasses, free the base of the bulb from dust, remnants of old decayed roots that may still adhere, and any other impurities. This will prevent contaminating the water. After thoroughly cleaning the interior of the glasses, fill them with pure, clear soft water. Rainwater cannot be recommended. The entire base of the bulb must be in contact with the surface of the water and remain so until the roots develop. Replenish the water as it evaporates or renew if it becomes offensive. Place them in a cool and dark location, letting them remain there until the roots nearly reach the bottom of the glasses. Should any of the roots after starting show decay, lift the bulb out of the glass and remove such roots. When bringing them to the light, place them where they are cool, as the flower will develop more perfectly and last longer.

Varieties Specially Adapted for Water Culture

These are the highest grade of First-size Hyacinths of such varieties as have been proven by test to be the best adapted for growing in glasses. The bulbs are not so large as Exhibition Hyacinths, but are so selected for size and shape that they will fit well in the cup of the Hyacinth glass. For full description, see list of the First-Size Named Hyacinths.

If to be sent by parcel post, add postage for 3 lbs. per doz. bulbs, at your zone rate.

	Each	Doz.
Lady Derby. Beautiful light pink. Very early.....	\$0.25	\$2.50
La Victoire. Brilliant red, changing to pink. Very early.....	.25	2.50
Queen of the Pinks. Lovely pink. Medium early.....	.25	2.50

City of Haarlem. Golden yellow. Medium early.....	.25	2.50

Hyacinth in glass

Hyacinth Glasses of the best quality, in tall and low styles, in blue, green and amber. Tall, 30c. each, \$3.00 per doz.; low, 30c. each, \$3.00 per doz. Not available.

Exhibition Type of Hyacinth which may be grown, with little care, from any of the bulbs offered on this page.

Beckert's Giant Exhibition Hyacinths

These are the varieties selected for their large-sized spikes, elegance of form, and beauty and richness of color. The bulbs are of mammoth size—the cream of the crop—and naturally command advanced prices. We offer this grade only in limited quantities and suggest early orders. These bulbs are too large to grow in hyacinth glasses but may be flowered in any large vase, if this is preferred to pot culture. For complete descriptions see the same varieties under First-Size Named Hyacinths, pages 5 and 6.

If to be sent by parcel post, add postage for 4 lbs. per doz. bulbs, at your zone rate.

Special Offer No. 1 To acquaint more of our out-of-town patrons with the superb qualities of our Exhibition Bulbs we will mail one of each, Red, Pink, White, Blue and Yellow Named Sorts. our selection, for \$1.25 postpaid, (This is a regular \$1.50 value.)

Named EXTRA SELECTED FIRST-SIZE BULBS Hyacinths

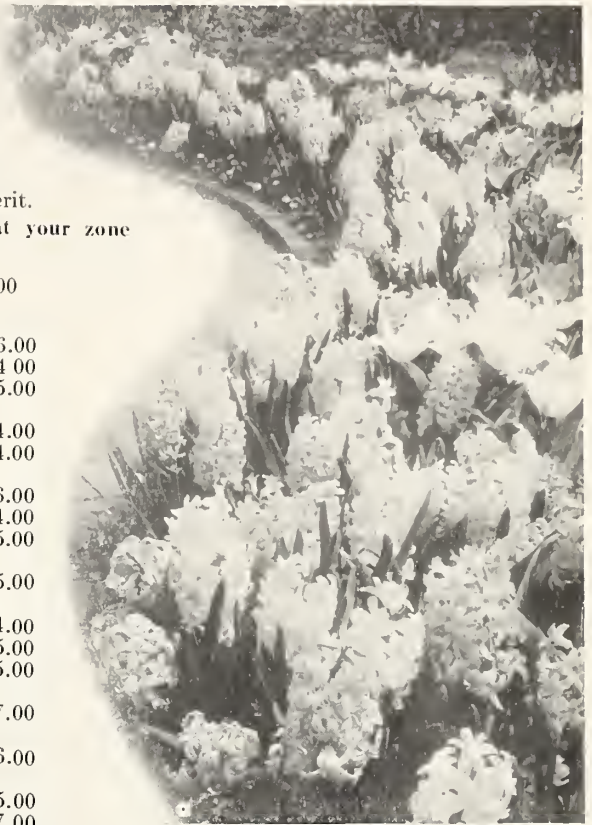

These are Equal to Those Some Houses List as "Exhibition or Mother Bulbs."

Single-flowering varieties are principally grown, both in indoor and outdoor culture. They force more readily and, as a rule, produce far larger and finer spikes of flowers than double-flowering varieties. Double Hyacinths are indicated by a star (*). Varieties in capital letters are the most recent introductions and novelties of approved merit.

If to be sent by parcel post, add postage for 3 lbs. per doz. bulbs, at your zone rate. See page two for postal rates.

Red, Rose, and Pink Shades

	Each	Doz.	100
CARDINAL MANNING. Bright red; a splendid large truss with bells of great size. Very early.	\$0.23	\$2.25	\$16.00
Cardinal Wiseman. Dark pink; large compact spikes.	.20	2.00	14.00

BUFF BEAUTY. Buff-orange-yellow; large bells; enormous truss.....	.23	2.25	16.00
DAYLIGHT. Primrose-yellow.....	.23	2.25	16.00

Roman Hyacinths

Miniature or Dutch Roman

These are the 3-year-old bulbs of the Dutch Hyacinths, easily forced, and largely grown for winter flowering. Can be forced in pots, pans, or grown in bowls and vases in Holland Fiber. They bloom later than the true French Roman Hyacinths but produce larger spikes. 5 to 6 bulbs can be potted in a 6-inch pot. Treatment same as for Dutch Hyacinths.

Gertrude. Light pink. La Grandesse. Snow-white
 Grand Maitre. Lavender-blue L'Innocence. Pure white.
 King of the Blues. Dark blue Moreno. Earliest rose
 La Victoire. Dark pink. Schotel. Light blue

Above varieties, 65 cts. per doz.; \$4.50 per 100.

Early-Flowering French Roman

These bloom far earlier than the Dutch Romans. By early potting in fall, with successional plantings, flowers may be had from November to early spring, and quite early results may be obtained by growing them in bowls or in saucers with water and pebbles, or in balls or baskets of moss.

	Each	Doz.	100	1,000
Early White. 14 to 15 cm. and up.....	\$0.15	\$1.50	\$10.00	\$95.00

Early Blue.....	.10	.90	6.50	
Early White Italian.....	.10	.90	6.50	

If Roman Hyacinths are to be sent by parcel post, add postage for 1½ lbs. per doz., or 12 lbs. per 100 bulbs, at your zone rate.

Special Offer No. 3 Mail us your order before September 15th and we will send, postpaid, as our special appreciation of early orders, one dozen each of the Dutch Roman and French Roman Hyacinths, in the different colors, for \$1.50, postpaid.

Hyacinths for the Garden

Culture—The soil must have good drainage and be dug to a depth of 12 inches. The beds should slope from the center outward for surface drainage. Well-rotted manure, dug in, will suffice for the wants of the bulbs and also for the usual bedding plants to follow in such beds the next spring. Plant the bulbs 6 to 9 inches apart and to a depth, from the crown of the bulb, of about 5 inches in heavy soil and to 7 inches in light soil. Protect the beds with 3 to 4 inches of leaves or light litter, gradually removing this in the spring. It is still better to cover with several inches of well-rotted and light manure, allowing this to remain on the beds in the spring, this mulch keeping the beds moist and cool, through which the blooming period is considerably lengthened. The bulbs can be planted from October until the ground freezes. They may even be planted later if precaution is taken, before too heavy frosts or snow, to cover the spots where the bulbs are to be planted, with either litter or coarse manure. However, early planting is preferable, as the root-growth has time to develop, enabling the plants better to withstand the winter, and also contributing to the production of larger and more perfect flower-spikes.

Named Single Bedding Hyacinths, Extra Quality

We strongly recommend the use of Named Bedding Hyacinths for outdoor planting in preference to Unnamed Bedding Hyacinths under color. The latter are made up of many varieties in mixture, which are not uniform in height, color, or time of blooming, whilst, when the Named Bedding Hyacinths are planted, uniformity in color, height of plant, and time of blooming are obtained and at a cost not much in excess of Unnamed Bedding Hyacinths.

If to be sent by parcel post, add postage for 2 lbs. per doz. and 15 lbs. per 100 bulbs, at your zone rate.

RED SHADES

Gertrude. Dark pink; compact spike; strong stem.
General DeWet. Light pink, white center; large spike.
King of the Belgians. Bright glistening red; tall, erect.
La Victoire. Brilliant scarlet; fine upright spike.

WHITE SHADES

General Vetter. Blush-white; large, pyramidal spike.
L'Innocence. Pure white; large bells; fine spike.
Mr. Plimsoll. Blush-white; large bells; broad spike.

BLUE SHADES

Grand Maitre. Deep lavender-blue; immense loose spike.
King of the Blues. Rich dark blue; large, perfect spike.
Perle Brillante. Light blue; large, erect.
Potgeiter. Very light blue; compact spike.

Above varieties, \$1.15 per doz.,
 \$8.50 per 100, \$80.00
 per 1,000.

Yellow Shades

King of the Yellows. Rich deep yellow; tall, erect spike.
 Above sort, \$1.15 per doz., \$8.50 per 100, \$80.00 per 1,000.

Unnamed Single Bedding, Extra Quality

If to be sent by parcel post, add postage for 2 lbs. per doz. and 15 lbs. per 100 bulbs, at your zone rate.

Single Red Shades. Single Light Blue Shades.
 Single Rose and Pink Shades. Single Dark Blue Shades.
 Single Blush-White. Single Yellow Shades.
 Single Pure White.

Above varieties at 90 cts. per doz., \$6.50 per 100, \$60.00 per 1,000.

SPECIAL OFFER No. 4—To enable you to make a unique Red, White and Blue Patriotic Display very early in your garden next spring, we will send, **postpaid**, one dozen each of a choice Red, a Fine White and a Superb Blue Variety of Named Bedding Hyacinths, three dozen in all, our selection, for **\$3.25, postpaid.**

ABOUT THAT LAWN—The effectiveness of your flower beds will be greatly enhanced by smooth, velvety lawns which serve as a frame to the pictures created with flowers. Early fall is an ideal time to start new lawns and renovate old ones.

A very effective outdoor planting of Hyacinths and Tulips

* Golden Queen. 12-B. One of the best yellows; large, well-shaped golden yellow flower on strong stem. Easily forced06	.60	4.25	36.00

TULIPS

For grand effect as an early spring flower the Tulip probably heads the list of bulbous plants. They are so entirely hardy, easily cared for, flower so freely in city or country, sun or shade, and as, with proper selection of varieties, their flowers may be enjoyed from April to June, it naturally follows that they are becoming immensely popular. By planting crocus, etc., between the bulbs, the same bed or space of ground will provide a beautiful display of these early gems, preceding and in no manner interfering with the Tulips. Named varieties are to be preferred for satisfying results, and as we give the average height and relative blooming season of most varieties, selections as to color and season may be readily made. Plant 5 to 6 inches apart, and cover to a depth of 4 to 6 inches from the crown of the bulb—the greater depth for light soil.

For house-culture plant four to six bulbs in a 6-inch pot, and in proportion for the larger sizes of bulb-pans; treat as advised for hyacinths. Good roots and plenty of them before bringing plants to light and warmth are essential to success.

Varieties that are the most suitable for forcing are marked with an asterisk (*).

The numbers following the names indicate the height in inches to which they grow. These heights as given are, however, only approximate, as they vary according to soil, seasons, and other conditions.

Time of Flowering. The order of flowering is indicated by the letters A, B, C, and D. The difference in time of flowering is not great, so that those under the A class can be planted with those of the B class, and the B class with the C class, and so on.

POSTAGE ON TULIPS. If to be sent by parcel post, add postage for 1 lb. per doz. bulbs, or for 7 lbs. per 100 bulbs, at your zone rate.

100 rate, 500 bulbs at 1,000 rate.

Single Early Tulips

BECKERT'S SUPERB SINGLE MIXED.

This is our own special mixture which we recommend where the best results are desired in beds of mixed colors. This mixture is made up of the above-named sorts and in equal proportion of each variety.....

.05	.55	4.00	35.00
-----	-----	------	-------

FINE MIXED.

This mixture is as we import it from our grower in Holland, special care being taken to have it made up of all possible varieties and colors.....

.04	.40	3.00	25.00
-----	-----	------	-------

Double Early Tulips

The double varieties cannot be forced so early or readily as the singles. One of the earliest, *Salvator Rosa*, may be had by the middle of January, while varieties preceded by a star (*) may be flowered from January to March. The flowers are large and brilliant and are effective in beds or groups. If grown in pots, do not attempt flowering before they are well rooted.

Double Early Tulips

	Each	Doz.	100	1000
* Boule de Neige (Purity.) 10-B. Pure white, large, peony-like flower. A splendid forcer.....	\$0.05	\$0.55	\$4.00	\$35.00

Giant Darwin Tulips

Originated in France, some twenty-five years ago, and named for the great naturalist, Darwin. They are noted for the unusual clearness of their colors, great substance of their flowers, and the robust growth of the plants. Their chief characteristics are the perfect cup-shape of the flowers and the blue, black, or white coloring at the base of the petals inside of the flower. The colors inside are just as bright as outside, and they remain beautiful as long as the flower lasts. The colors range from the palest lilac to purplish black, including shades of rose, scarlet, crimson, violet, brown, white, etc., but no yellow. Most vigorous of all Tulips. Flowers of immense size, borne on long, strong stems, attaining a height of 2 to 3 feet. They bloom some three weeks after the early Tulips, and are very suitable for growing in clumps amongst shrubbery, and in hardy plant borders. Unsurpassed for cut-flowers. Late experiments have proven that some varieties of Darwins lend themselves quite readily to growing indoors and may even be forced.

	Each	Doz.	100
Ariadne. 28-C. Enormous cup-shaped flower of a brilliant rosy scarlet with blue base.....	\$0.06	\$0.65	\$ 4.75
Anton Roozen. 24-A. Vivid rose-pink, with white base; large cup-shaped flower of great beauty.....	.06	.60	4.25

Late Single or Cottage Tulip

Late Single-Flowering Tulips

Known as Cottage or May-Flowering Tulips

This class, as well as the Darwin Tulips, is becoming very popular. They are very hardy and robust; flowers are large in size and very rich in coloring. The stems are long and wiry and the flowers are durable in a cut state. They are effective planted in clumps or borders, and may be grown in pots as recommended for other Tulips and brought in to succeed the earlier classes.

	Each	Doz.	100

Special Offer No. 5 To further popularize the really unique Bybloems, Bizarres and Parrot Tulips we will mail one dozen of each class, varieties of our selection, two dozen bulbs in all for 85 cts., postpaid.

Narcissi or Daffodils

These are among the most charming of our spring flowers, defying, in their earliness, the rough winds of April to grace our lawns and borders. Plant them in masses or have a few pans in your window garden, but, by all means, grow some.

Daffodils may be treated as advised for hyacinths; they are not particular as to soil, and will thrive for a number of years in ordinary soil. They are, with few exceptions, suitable for naturalizing, and while preferring partial shade, will thrive in full sun exposure. They are very desirable for pot culture, three to five bulbs in a 5- or 6-inch pot producing an attractive group. By planting one or more varieties in succession, such a display may be enjoyed throughout the first three months of the year.

If wanted by parcel post, add postage at your zone rate as follows: On First-size bulbs for 2 lbs. per doz.; on Mammoth double-crown bulbs, for 3 lbs. per doz. See page 2 for zone rates.

Yellow Trumpet Daffodils

Varieties with yellow or primrose trumpets and petals of same color, instead of white.

COLCHICUM

IF BY PARCEL POST, add for 4 lbs. per doz.
GIANT (Autumnale majus). The bulbs possess the peculiarity of producing, without soil or water, a mass of rosy purple, fragrant flowers in September. 15 cts. each; \$1.60 per doz.

GIANT FLOWERING CROCUS MAMMOTH BULBS

One of the earliest spring-flowering bulbs. They produce fine effects, if planted promiscuously throughout the lawn or in shrubbery, especially if combined with any of the early-flowering bulbs. Plant 2 inches deep, and at the same time you plant other varieties outdoors. Six or more bulbs may be planted in a pot or pan, placed in a cool situation, and when leaves appear they may be taken indoors.

BY THE DOZEN, POSTPAID. On Mammoth bulbs, add postage on 3 lbs. per 100. All prices stand for Mammoth Bulbs, except as noted otherwise.

FREESIA

A very popular and widely cultivated early-flowering fall bulb. They force very readily and can easily be flowered by Christmas. Plant six to ten bulbs, according to size, in a 6-inch bulb-pot, covering 1 inch. Allow them to root in a cool place for about three weeks, then bring to the light. The flowers are very fragrant, gracefully branched, and last a long time.

Free by mail at catalogue price per dozen. For Monster and Mammoth bulbs, add postage for 1 lb. per 100 bulbs; for First-size bulbs, add postage for 1/2 lb. per 100 bulbs.

Rainbow Freesia. Produces flowers in a great number of lovely and unique colors and shades. 10 cents each, \$1.00 per doz., \$7.00 per 100.				

LILY-OF-THE-VALLEY

For forcing, plant about twelve pips in a 6-inch pot, keeping the crowns above the soil; place in a temperature of about 80 degrees, covering the pots with moss; keep them moist continually. They should flower in 3 to 4 weeks from time of planting. Ready in November.

Mailing weight, bundle of 25 pips, 20 ozs.

Perfection Brand, Extra-Select, Early-Forcing, Strong Pips. Prices on application.

Cold Storage Pips. Prices on application.

Large, Strong Clumps. (Mailing weight, 2 pounds per clump.) For planting outdoors. Perfectly hardy; produce a profusion of flowers in spring. Partial shade is necessary. 50 cts. each, \$5.00 per doz.

LILIES

For elegance of form and beauty the Lily is matchless among the bulbous plants. Such varieties as are used for forcing should be potted as soon as the bulbs in pots that are about twice the diameter of the bulbs; start them slowly, and as they advance toward the blooming period shift them to larger pots. For outdoor culture, plant the bulbs about 8 inches below the surface in soil that is well drained.

Lily-of-the-Valley

LILIES, continued

	Each	Doz.	100

Peonies (Ready in October)

Those of our customers who are fond of the old-fashioned "Piney's" of grandmother's garden will be even more delighted with the modern marvels which the skill of the hybridizer has given us. These truly wonderful sorts are not any more difficult to grow than potatoes—in fact, they are easier to take care of. Plant in good, deep, rich soil so that the crown of the plant is about 2 inches below surface.

	Each	Doz.
Mailing weight, 16 ozs each root.

Festiva maxima. The finest white; a grand cut-flower, for Decoration Day	.35	3.50
General Bertrand. An even shade of solferino-red, center slightly tipped silver. Early bloomer	.40	4.00
L'Indispensable. Fine midseason shell pink	.35	3.50
Madame Crousse. An exceedingly fine large mid-season white, sometimes spotted crimson	.60	6.00
Madame de Vatry. Lilac-white guard petals and crown, sulphur white collar, center petals sometimes striped carmine	.40	4.00
Alfred de Musset. Full, double blooms of milk white shading to blush or light pink in center	.55	5.50

Iris Kaempferi (The Japanese Iris)

NOVEMBER. Mailing weight, 2 lbs. for each clump.

Very handsome, summer-flowering varieties, blooming from June to August. They prefer rich, moist soil, but will thrive in any fair soil.

Separate Colors, as follows:—White, Blue and White, Lavender and Yellow, Lavender and Pink, Indigo Blue, Light Purple, French Gray, Violet, Pink and White, Reddish Violet, White and Purple.

Large clumps, 25 cts., each, \$3.00 Dozen.

Iris--Fleur-de-Lis or Blue Flags

During May, the Irises rule supreme in the hardy border where they thrive in soil too poor to grow potatoes. The clumps increase in size from year to year producing larger and lovelier flowers each succeeding season.

We offer the following choice, named varieties at the uniform price of 15 cts. each; \$1.50 per dozen.

Darius. Beautiful combination of canary-yellow, lilac, white and orange shades.

Dr. Bernice. Coppery bronze, rich velvety. Flavescons Soft yellow; a prolific bloomer.

Florentina White, flushed lavender, **Florentina, Blue,** Large, dark purple.

Gracchus. Yellow and maroon shades.

Gypsy Queen. Old gold, pearl and black-maroon—a wonderfully rich combination.

Hector. Soft yellow and dark crimson

Madame Paquette. Bright rosy scarlet.

Mrs. H. Darwin. White and violet.

Queen of May. Rosy-lilac.

Shakespeare. Combination of yellow standards and deep carmine-violet falls or drooping petals.

Mixture of Blue Flags or Iris \$1.25 per dozen, our choice of varieties.

RANUNCULUS, French, Persian and Turban. Very showy, ranging through many shades of color. They flower profusely in pots and frames in the spring of the year. Plant 3 to 4 inches apart with the claws of the tuber down; cover with sand and sufficient soil so that the crowns are 3 inches below the surface. Prices of all three types, 3 cts. each; 25 cts. per doz. In lots of 100, \$2.25, postpaid, excepting Turban Type which cost \$2.50 per 100.

Iris or Blue Flags

Special Offer To encourage the liberal planting of these wonderful kinds we will supply one strong root of each of these 12 sorts for \$4.50.

Vegetable Seeds for Late Summer and Fall Sowing

The cool fall weather brings ideal growing conditions for the vegetables offered herewith. As a matter of fact, fall is the time to grow them and they will provide an abundance of both greens and roots for late fall and winter. Most of the vegetables described here, like Kale and Turnips, are improved by frost. Spinach is perfectly hardy and will remain in the garden all winter, to thrive vigorously the following spring.

CABBAGE. Chinese Celery or Pe-Tsai. Forms a long head as shown in illustration alongside. Of mild flavor. It may be eaten raw as salad or boiled. Sow during August. Pkt., 10c.; oz., 50c.

CORN SALAD. Used in the same manner as lettuce. An ounce of seed will sow a bed 20 feet square.

Green Cabbaging. Pkt., 5c.; oz., 20c.

KALE, or Borecole. Generally sown broadcast, but is better grown in drills two feet apart. An ounce of seed will sow about 200 feet of drill.

Dwarf Curled Green Scotch. Leaves bright green, and elegantly curled.

Dwarf German Greens. (Siberian Kale.)

Price, either of above: Pkt., 5c.; oz., 25c.

Mosbach Winter. Leaves yellowish green, bent upward, and curled on the edges.

Tall Curled Green Scotch. Unusually hardy growing 2 feet or more in height.

Prices, either of above: Pkt., 5c.; oz., 30c.

Pe-Tsai or Chinese Celery Cabbage

SPINACH. The main crop is sown late in August and the plants covered for winter. An ounce of seed will sow 50 feet of drill; 30 pounds to the acre.

Long Season. Stands longer without going to seed than any other; leaves thick, crumpled, tender, and of finest quality.

Other good kinds are:

Long-Standing Thick-Leaved; Munsterland; Norfolk Savoy; Victoria.

Uniform price for above: Pkt., 5c.; oz., 10c.; ¼ lb., 30c.

TURNIPS. An ounce of seed will sow 150 feet of drill.

Purple-Top Strap-Leaf. Grown largely for fall and winter crops. Oz., 20c.; ¼ lb., 60c.

Purple, or Red-Top Globe. Remarkable for its heavy yield per acre. Oz., 20c.; ¼ lb., 60c.

Other Good Sorts available are:

White Egg, (oz., 20c. ¼ lb., 60c.); Large White Globe; Golden Ball; Cow Horn; Yellow Aberdeen; Seven Top (oz., 10c.)

Uniform price for above, except where noted otherwise, Pkt., 5c.; oz., 15c.; ¼ lb., 50c.

RUTABAGAS, or SWEDES. These are chiefly for stock, but are excellent for cooking in spring.

Improved American and Sweet German. Each Pkt., 5c.; oz., 15c.; ¼ lb., 50c.

Flower Seeds for the Greenhouse and Coldframe

ANTIRRHINUM. Now grown as extensively under glass as in the garden. The tall, graceful spikes are excellent for cut-flowers.

Giant Scarlet.

Giant White.

Giant Yellow.

Giant Garnet.

Giant Pink.

Giant Rose.

Giant Striped.

Each of the above pkt. 10 cts., ¼ oz. 50c.

Giant Mixed, pkt. 10c., ¼ oz., 35c.

TWO GRAND FORCING ANTIRRHINUMS

Oakledge Favorite, Giant Pink. Fine salmon-pink of immense size; vigorous in habit and fine for winter blooming.

Oakledge Favorite, Giant Pink White-throated. Immense fine deep pink flower and produced in great abundance; fine for winter blooming.

Either of above, pkt. 50c.

ANTIRRHINUMS, Intermediate or Half-Dwarf Varieties

Daphne. Soft-blush-pink. **Golden Queen.** Rich yellow.

Firebrand. Rich deep red. **Rose Queen.** Rich rose.

Finest Mixed, pkt. 10 cts., ¼ oz. 35 cts.

BELLIS PERENNIS.

Giant Rose. Giant White. Giant Red. Giant Pink. Each of the above pkt. 15 cts.

CALCEOLARIA grandiflora. These are gorgeous greenhouse flowering plants. Their peculiar form and the brilliant colors make them distinctly attractive. Prize Strain, pkt 50 cts.

CINERARIA. Very distinct and ornamental house plant, with magnificent heads of velvety blooms, the colors of which include white, very delicate to very dark blue, all shades of pink, carmine and crimson, with bicolors of crimson and white, blue and white, etc., Our strains are unsurpassed.

Hybrida grandiflora. Large flowering. Unsurpassed for richness of colors and perfection of form. Height 1½ ft. \$0.75

Hybrida grandiflora, Semi-Dwarf. Differs from the preceding only in size of plant. Height 1 ft. .75

Hybrida grandiflora, Matador. Scarlet. .75

Hybrida stellata (Star Cineraria). Large panicles of star-shaped flowers in many pleasing colors. .50

CLARKIA elegans fl.-pl. Magnificent specimens for greenhouse adornment.

Princess. Glowing rose. ¼ oz. 25 cts. .05

Antirrhinum

Cineraria Hybrida Grandiflora

Flower Seeds (Continued)

CLARKIAS Con'd

Scarlet Queen. Brilliant salmon-scarlet.

Salmon Queen. Beautiful salmon-pink.

White Prince. Pure White.

Each of the above, pkt. 5 cts.; $\frac{1}{4}$ oz. 25 cts.

CYCLAMEN. A very popular pot plant for winter and spring flowering. Blooms very freely and for a long period. Most graceful and dainty as a cut-flower. Blooms in eight to ten months from seed. Our strain is unexcelled.

Giant Princess May. Gigantic rose flower with purple base.

Giant Persicum. White with red eye.

Giant Persicum, Rose. Distinct and beautiful variety.

Giant Persicum, Mauve. A delicate mauve with carmine eye.

Giant Phoenix. A lighter red than Vulcan.

Giant Sunset. Fine light salmon-pink. 25 seeds, 50 cts.; 50 seeds, \$1.10; 100 seeds, \$2.00.

Giant Salmon King. Beautiful clear salmon-pink; the most popular of all varieties. 25 seeds, 60 cts.; 50 seeds, \$1.10; 100 seeds, \$2.00.

Giant Vulcan. Deepest red; free-blooming, blood-red variety.

Giant White Swan. Enormous pure white flowers on stiff stems.

Giant Superb Mixed. 25 seeds, 50 cts.; 50 seeds, 85 cts.; 100 seeds, \$1.50.

Any of above 25 seeds 65 cts.; 50 seeds \$1.00; 100 seeds \$1.75, except as quoted otherwise.

Eileen Low. Color a lovely shade of Rose DuBarry pink. Its great attraction lies in the distinct white margin and blush-white crest on each petal. Both lovely and unique. Pkt. \$1.00

Cherry Ripe. Nearly scarlet; brightest red Cyclamen 1.00

Mrs. Buckston. Giant salmon-colored flowers, beautifully frilled, very floriferous. .75

Purple Prince. Flower purple-crimson; foliage brightly marbled, silver leaf. 1.00

St. George. The silver leaved Cyclamen; foliage beautifully marbled; flowers of a pale salmon color. 1.00

Giant Pink Pearl. Lovely pale salmon; very free flowering. 25 seeds 65 cts.; 50 seeds \$1.00; 100 seeds \$1.75.

CALENDULA. Blooms freely during the winter and early spring, and is fine for pot culture.

Pure Gold. Very large double golden yellow flowers; semi-dwarf. Pkt. 5 cts.; oz. 50 cts.

Meteor. Double yellow, striped orange. Pkt. 5 cts. oz. 35 cts.

CANDYTUFT, Giant White Perfection. Produces immense spikes of pure white flowers. Best for forcing. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.

CENTAUREA, imperialis. Beautiful giant varieties; vigorous growers; branch freely and send out numerous side shoots flowering for a long time; fine for forcing.

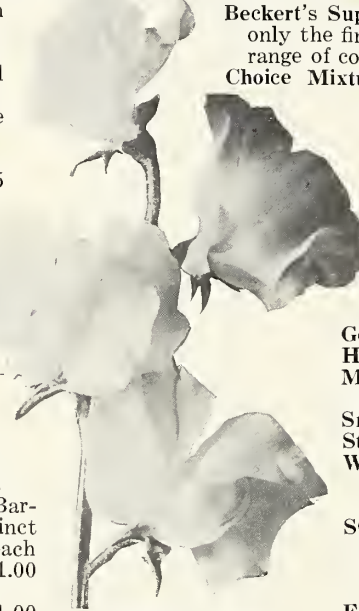

Giant White. Giant Lavender. Giant Lilac. Giant Yellow. Giant Rose. Giant Rose and White.

Each pkt. 10 cts.; $\frac{1}{4}$ oz. 30 cts.

Giant Mixed, pkt. 5 cts.; $\frac{1}{4}$ oz. 25 cts.

CHEIRANTHUS kewensis. A valuable hybrid Wallflower for winter flowering. Flowers open primrose and change to a clear mauve. Plants freely branching, each stem carrying a long spike of flowers. Height 2 ft. Pkt. 25 cts.,

DIMORPHOTHECA aurantiaca (African Golden Orange Daisy.) A wonderful free-flowering plant. It begins flowering in small pots six weeks after sowing and forms a nice pot plant. Pkt. 10 cts.

Winter-flowering
Spencer Sweet Peas

MIGNONETTE, Crimson Giant. (Pot saved seed.) One of the best sorts for forcing. Pkt. 20 cts.; $\frac{1}{4}$ oz. 40 cts.; oz. \$1.35.

Machet Giant. is paler in color than the preceding. Pkt. 20 cts.; $\frac{1}{4}$ oz. 40 cts.; oz. \$1.25.

New York Market. An extra-choice strain for greenhouse culture, Pkt 50 cts.

PANSIES. Seed may be sown from August to September in a cold-frame and protected during the severe winter.

Beckert's Superb Mixed. Our own blending, containing

only the finest of Mammoth-flowered strains in greatest range of colors. Pkt. 50 cts.; $\frac{1}{8}$ oz. \$1.50; Oz. \$10.00.

Choice Mixture of Large-flowering Varieties. Pkt. 25 cts.; $\frac{1}{8}$ oz. 80 cts.; oz. \$6.00.

Andromeda. Rose with lavender.

Adonis. Giant light blue, white center.

Atropurpurea. Giant dark purple. Pkt. 15 cts.

Bugnot's Large-blotched. Very fine colored.

Beaconsfield. Giant lavender and purple.

Cassier's Superb. Great range of colors.

Navy Blue Emperor. Giant ultra-marine blue. Pkt. 15 cts.

Golden Queen. Clear yellow. Pkt. 15 cts.

Golden Yellow. Yellow with dark eye. Pkt. 15 cts.

Hortensia. Giant red and rose shades.

Madame Perret. Large-flowered, red-marbled shades.

Snow Queen. Giant satiny white. Pkt. 15 cts.

Striped. Giant striped varieties. Pkt. 15 cts.

White. Giant White, purple eye. Pkt. 15 cts.

Any of the above, Packets 25 cts., except as otherwise quoted.

SCHIZANTHUS, SINGLE. Elegant for decorative use in pots or for cutting. The buds open in water and the sprays last a week. Sow from August to September. Pkt. 10 cts.

Excelsior. Exceptional strain for indoor culture. Pkt. 50 cts.

SWEET PEAS, Early Winter-flowering Spencer.

These usually bloom in about three months after the seed has been planted. Will bloom throughout winter and early spring.

EARLY APRICOT ORCHID. Apricot.

EARLY BOHEMIAN GIRL. Deep rose pink.

Early Heatherbell. Rich mauve lavender. Pkt. 25 cts.

Early Morning Star. Orange-scarlet standard, rich orange-pink wings. Pkt. 25 cts.; oz. \$1.75.

Early Melody. Fine rose-pink on white ground.

Early Snowflake. A magnificent white

Early Spring Maid. Beautiful cream-pink.

Mrs. A. A. Skach. Flower bright shell-pink.

Lavender-Pink.

PRESIDENT WILSON. Darkest rose.

Red Orchid. Crimson flowers of good substance.

Rose Queen. Fine pink. Pkt. 25 cts.; oz. \$1.75.

Early Song Bird. Blush pink.

Venus. White with pink flush.

White Orchid. Largest white.

Yarrowa. Bright rose-pink, with a clear creamy base; very large flowers. Pkt. 20 cts.; oz. \$1.25

Any of the above, pkt. 20 cts.; oz. \$1.50, except as quoted otherwise.

STOCKS, Autumnal or Winter-flowering. A very desirable class for greenhouse use. Sow throughout August and September.

Almond Blossom. White.

Beauty of Nice. flesh-pink.

Queen Alexandra. Clear rosy lilac.

Summer Night. Dark violet.

Each of the above, pkt. 25 cts.

VINCA alba.

Rosea. Delicata.

Rosea alba. Mixed.

Each of the above, pkt. 15 cts.

Schizanthus, or Poor Man's Orchid

See Kelway's Hybrid Gaillardias

Seeds of "Old-Fashioned" Hardy Plants

(Hardy Perennials)

A large variety of blooming plants for next spring may be produced by sowing seed now in coldframes or protected quarters. Sow as early as possible, to secure sturdy plants before the advent of cold weather. These may then be readily wintered and give early bloom the coming season. This applies to all such popular plants as Daisies, Foxgloves, Pansies, Hollyhocks, Oriental, Iceland and other Poppies, etc.

COLDWELL'S HORSE LAWN MOWER

This is one of the best and most perfect Horse Lawn Mowers manufactured. It is used exclusively by the government, and on the largest public and private lawns in the country. These Mowers are furnished with shafts, seat and side-draft attachment, which keeps the horse on the cut grass only. Price, 4-blade cylinder, 30-in. cut, \$78.75; 35-in. cut, \$96.50; 40-in. cut, \$124.00. For 6-blade cylinder, add \$10 to the price of each size.

25-in. Pony Mower, without shafts, \$50.75. These prices are f. o. b. factory; purchaser pays the freight.

COLDWELL COMBINATION ROLLER AND MOTOR MOWER

Models G and H. Simplicity more than anything else has been sought in these models. Mechanical experience is not necessary to operate them, and they can be run by anyone. Will cut 6 to 8 acres of lawn per day. Model H weighs 900 pounds, Model G, 1,000 pounds. Prices and descriptive circular on application.

 Grass, English, No. 357. 5½ in., each, 85c.

Start your new Lawns this fall and gain six months time. Consult back cover.

Pot-Grown Strawberry Plants

Plant any time, up to the end of September, and enjoy fine crops of delicious berries next June.

The best time to plant pot-grown strawberry plants is in the latter part of August and throughout September. They have the great advantage over ordinary or "layer" plants of producing a crop of the largest and finest berries the first season after planting. Further than this, they may be safely planted in the hottest and driest weather without serious check to growth; and they may be planted where early potatoes, peas or other early crops have been harvested.

All Spring-bearing sorts at \$4.50 per hundred, \$40.00 per thousand. 25 at the 100 rate.

Standard Sorts.

Barrymore. Superb late.	Hundred Dollar. Midseason.	McKinley. Midseason.
Brandywine. Mid-season.	Joe. Midseason to late.	Senator Dunlap. Early.

EVERBEARING SORTS---Advance, Progressive, Superb and Peerless. Fall-bearing sorts at \$7.00 per hundred.

Becker's Special Victory Garden Service.

This sheet is sent you for your convenience to put up to us any
problems which your garden may present.

Fall is a Good Time to Sow Grass Seeds

September and October bring ideal conditions for successful establishing of lawns and pastures. The soil is warm and mellow, full of the season's accumulated fertility; the fall rains bring the necessary moisture, insuring quick and strong germination.

Under favorable conditions, our Lawn Grasses, sown during late August and early September will grow sufficiently to necessitate one cutting before frost. Lawns should not be cut too close, however, and contrary to spring customs, the clippings should not be raked off but be permitted to remain on the lawn.

The putting down of permanent pasture on the farm in the fall has its decided advantages. In early June when spring sown pastures just begin to develop, fall sown pastures will yield their first crop, although all pasturing should be light the first season.

Beckert's Evergreen Lawn Grass

No one kind of grass will make a good lawn. The changeable moods of our climate, the widely varying conditions of soil and moisture supply require a combination of grasses that will make a closely interwoven and permanent lawn. We have made the subject of lawns a thorough study and offer, in our Evergreen Mixture, a well balanced combination of the finest and most enduring grasses we know. The ingredients of this mixture are the highest grade of re-cleaned seeds only. This Lawn Seed is sold by the standard bushel of 32 quarts (dry measure) and weighs 24 pounds to the bushel.

Use 1 Qt. to 300 sq. ft., 4 to 5 bus. to the acre. Qt. 30c., postpaid, 35c.; 2 qts. 55c., 3 qts. 75.; 4 qts. 90c.; pk., \$1.50; ½ bu., \$2.75; measured bushel of 24 lbs., \$5.50, or \$3.25 for a bushel of 14 lbs.

Beckert's Special "Shady Nook" Mixture

This is largely composed of fine-bladed grasses that thrive in partial shade. It is very difficult to grow grass where the sun does not shine at all. But where the soil is put in good condition by thorough digging and raking and the addition of some lime or gypsum, our "Shady Nook" will surely surprise you with a good lawn. Qt. 30c.; postpaid, 37c.; pk. \$1.75; ½ bu. \$3.00; measured bu., of 20 lbs. \$6.00.

Putting-Green Mixture

The very finest, hardy, low-growing grasses are contained in this mixture, producing a close and lasting green turf. Qt. 30c.; pk., \$1.75; ½ bu., \$3.00; bu. of 20 lbs. \$6.00.

Beckert's Special Mixtures for Permanent Pasture

Fall is an ideal time to put down pastures which, as the basis of food for live stock, are deserving of the farmers most serious consideration. Let us urge you to provide an abundance of feed for next spring by sowing your pastures NOW. We provide separate mixtures for hay and pastures, also special mixtures for medium, dry and heavy soil.
