MEMORANDUM FOR: Reparations Agency, Tokyo

SUBJECT: Application for Authorized Use of Items Listed for Reparations.

1. Reference is attached R.A.R. No. 420(MS), 4 May 1950, subject: Application for Additional Authorized Use of Reparations Equipment Filed by Tsurusaki Plant, Nissin Kagaku Kogyo Co., Ltd., (Code No. 30-08).

2. The application requesting permission for the authorized use of the 32 items of reparations machinery and equipment listed in reference 1, above, is approved.

3. This permit is issued subject to any and all directives affecting reparations plants which have been issued or may hereafter be issued by the Supreme Commander for the Allied Powers. Reports will be rendered as required by current directives and instructions.

To: General Headquarters, Supreme Commander for the Allied Powers.

From: Reparations Agency, Tokyo

Subject: Application for Additional Authorized Use of Reparations Equipment Filed by Tsurusaki Plant, Nissin Kagaku Kogyo Co., Ltd., (Code No. 30-08).

R. A. R. No. 429(MS) 4 May 1950.

1. The Reparations Agency hereby submits to your Headquarters an application for additional authorized use of 32 sets of reparations equipment now lying idle filed b the Tsurusaki Plant, Nissin Kagaku Kogyo Co., Ltd., (Code No. 30-08), together with an application of the Ministry of International Trade and Industry, as enclosed herewith.

2. As stated in detail in the explanatory note attached hereto, the said plant has been engaged in the production of amny kinds of dyes and their intermediates with the reconversion permission by GHQ, and it now wishes to use additionally 32 sets of idle reparations equipment as "authorized use" in order to rationalize its present operation.

3. It is requested that hour most favorable consideration be given to this application at the earliest practicable date.

(Y. Katsuno)
Director, Reparations Division,
Reparations Agency.

C_O_P_Y_

| Name of Machines | Purpose of use | Unit | Remarks |
|---|---|---|---|
| Nitration Kettle | (A) To replace nitration kettle of Dinitrobenzene Plant (Tsurusaki Plant) | 2 | Three units are equipped but all of them have been used more than ten years, especially two of them are too superannuated and in danger. |
| | (B) To replace naphthalene sulphurization kettle of Beta-naphthol Plant (Tsurusaki Plant) | 3 | All the equipments now in use are from the Kasugade Plant in Osaka which had once damaged by the war. Nearly all of them are superannuated. Those nitration kettles involved in application are equipped with jacket for both heating and cooling, therefore they can be used also for sulphurization. |
| | (C) To replace naphthalene sulphurization kettle of 2S Acid Plant (Tsurusaki Plant) | 1 | |
| | (D) To replace beta-acid sulphurization kettle of 2S Acid Plant (Tsurusaki Plant) | 1 | |
| | (E) To replace naphthalene sulphurization kettle of Pery Acid Plant (Tsurusaki Plant) | 2 | |
| | (F) To replace the kettle of nitration of ortho-toluidine of Scarlet G Base Plant (Tsurusaki Plant) | 1 | |
| Measuring Tank | (A) To replace measuring tank of mixed acid of Dinitrobenzene (Dinitro-toluene) Plant (Tsurusaki Plant) | 2 | |
| | (B) To replace sulphuric acid measuring tank of Beta-naphthol Plant (Tusrusaki Plant) | 3 | |
| | (C) To replace fuming acid measuring tank of 2S Acid Plant (Tsurusaki Plant) | 2 | |
| | (D) To replace sulphuric acid measuring tank of Peri Acid Plant (Tsurusaki Plant) | 2 | |
| Worshington Pump | To replace the one in use at Beta-naphthol Plant (Tusrusaki Plant) | 1 | |
| Centrifugal | To replace each of those used at present in Peri Acid, 2S Acid, Scarlet G Base Plant respectively (Tsurusaki Plant) | 3 | |
| Monjus | To replace monjus used for mixed acid at Dinitro-benzene (Dinitro-toluene) Plant (Tsurusaki Plant) | 2 | |
| Receiver | To replace the one now in use at Dinitro-benzene (Dinitro-toluene) Plant (Tsurusaki Plant) | 1 | |
| Flaker and its Hopper | To use for flaking of Caustic Soda (Tsurusaki Plant) | each 3 | |

SUBJECT: Request for Authorization to Use Reparations Machinery

TO : Commanding Officer, Kyushu Mil Govt Region, APO 929

1. Inclosed is application of the Nisshin Chemical Company to use reparations equipment.

2. The Nisshin Chemical Company was listed for reparations by SCAPIN 1134, paragraph 2 of which authorized use of equipment designated for reparations until further notice.

3. An official list has now been prepared and published of all reparations items in authorized use. The list for the Nisshin Chemical Company was forwarded as an inclosure to letter, subject: "Reparations Items in Authorized Use," this headquarters, dated 2 July 1948.

4. As stated in inclosure, the Nisshin Chemical Company now wishes to use two nitrators to produce dyestuff intermediates.

5. In view of the importance of the production of dyestuff for the foreign trade program, approval of this application is recommended.

SUBJECT: Removal of Privately Owned Plant from Reparations List, Page 10, SCAPIN 1134

TO: Commanding General, Eighth Army, APO 343

THRU: Channels

1. SCAPIN 1134, dated 13 August 1946, file AG 387.6 (13 Aug 46) ESS/IN listed the Sumitomo Kayaku Kogyo K.K., Tusmusaki-machi, Oita-ken, Kyushu, as taken into custody and control of SCAP for reparations.

2. The privately owned firm was established in 1925 for the purpose of intermediate manufacturing of chemicals, dyes, pharmaceuticals required for civilian use. Construction was started in 1937 and completed in 1939. Production of chemcials was started in 1940 and manufactured only civilian requirements until 1945 when the firm was directed to manyfacture TNT. Three of its sixty-five buildings were used forthis purpose.

3. Permission was obtained for reconversion of the TNT equipment and buildings used fot its manufacture by permit dated 3 May 1946. Headquarters I Corps, file AG 004-BA, Ref. IG-334. The permit authorized the manyfacture of aniline, beta-naphthol, diphenyl-amine, alpha-naphthypamine, para-taluidine, ortho-toluidine, di-nitrobenzine, para-nitrichlorobenzine, mono-chlorobenzine, meta-phenylendiamine, Na-meta-nilate, napnthionicacid, synthetic dyestuffs and coal tar chemcials. Maximum production currently authorized is 436 tons monthly.

4. In compliance with Operational Directive No. 34, Headquarters Eighth Army, dated 26 March 1946, the Imperial Japanese Government request with that of the Minitsry of Commerce and Industry and the request from the Governor, Oita-ken, are inclosed herewith.

5. Removal of this plant from the reparations list is recommended.

1. This headquarters concurs in recommendation made in paragraph 5 of basic communication inasmuch as subject plant was not primarily engaged in the manufacture of weapons, missiles, ammunition or military explosives. This establishment was not originally organized for munitions production, not was it converted to munitions pruction through such major change in the volume and character of its equipment as to render its unsuitable for reconversion to peacetime prucposes, as evidenced by present production and plant history.

2. Attention is inveited to letter of 16 September 1946 from Oita Military Government Team, Subject: Application of Sumitomo Kayaku Kogyo K.K. and ist Indorsement this headquarters dated 11 October 46, in which recommendation was made for deletion of subject establishment from reparations selections within privately-owned munitions plants. Copies of this letter and 1st Indorsement are made as additional inclosures hereto.

16 September 1946

Serial No: 6895

Subject : Application of Sumitomo Kayaku Kogyo K.K.

To : Commanding Officer, Kyushu Military Government Region Hq & Hq Detachment, APO 929

1. SCAPIN 1134, dated 13 August 1946, listed the Sumitomo Kayaku Kogyo K.K., Tsurusaki-machi, Oita-ken, as taken into custody and control of SCAP for the reparations program.

2. This company is now the Tsurusaki Factory of the Nissin Chemical Co. Ltd., Osaka.

3. This headquarters has been informed by the Kyushu Military Government Region Hq & Hq Detachment that SCAP desires recommendations for additions and deletions to list issued with SCAPIN 1134. The company's request for deletion is inclosed.

4. This headquarters recommends removal of this plant from the list.

a. The plant produced civilian goods before the war, and has continued civilian production until the present time.

b. No part of the plant was converted to war production.

c. The equipment added for the production of TNT produced only a negligible quantity before the end of the war and has now been converted to the production of chemicals for civilian use.

Date Sep. 16, 1946

To: Oita Military Government Team

Subject: Application for Exemption from Custody List as per Scap's Directive on 13 August, 1946

For the reasons as undermentioned, we sincerely ask you will give the matter your kind consideration and please see your way clear that we are really entitled to enjoy a privilege of having our factory exempted from the Custody List as per Scap's Directive 13 August, 1946.

1. Production of Civilian Goods As Sole Purpose of Establishment and Actual Production Followed Faithfully along This Line.

The Tsurusaki Factory of the Japan Dyestuff Mafg. Co., Ltd. (Now the Nissin Chemical Company, Ltd.) was established in 1937 for the purpose of supplying our Osaka Works with such civilian goods as dyestuff-intermediates, medicines and etc.

Since the initial operation in January, 1940 the Factory has faithfully abided by our original principle of civilian goods manufacture and not only supplied our Osaka Works with sufficient amount of dyestuff-intermediates, medicines and etc. but also marketed no small quantity of their surplus to the whole body of the middle and small medicine makers, thus contributed our share towards the peace and stability of the people's living. For the total production please refer to Table I.

2. Civilian Production Kept Up During War Period Except One Item Negligible Quantity Coerced Just Before Surrender.

Despite the outbreak of the Pacific War our aim and project for peace industry remained unchanged notwithstanding the fact the factory management fell into danger in asmuch as strong pressure, military as well as governmental, was brought to bear upon us for the procurement of [illegible] Men, Money and Materials.

However, it so happened in December, 1944 that the army authorities issued a decree to make TNT and there was finally no other way left for us but to submit, because further objection at that time meant a danger of complete shut-down of the factory.

Installations for TNT were completed in Feburuary 1945 and during the initial operation a great damage was done to the main apparatus due to an explosion occurred in April. It took over two months for repairings and actual production was commenced in July followed by Japan's complete surrender on August 15, 1945. Accordingly the total production was not more than 45 tons, thus our contribution tothe War is quite insignificant (Refer to Table II)

Enc 2/K

DECLASSIFIED E.O. 12065 SECTION 3-402/NNSC NO. [illegible]

3. Not by Conversion of Existing Regular Equipments
but by Temporary Apparatus Newly Installed

Our regular equipments for peace industry were utilized somehow or other to the best of our ability for our Osaka Works and the whole body of the middle and small makers of medicine, and therefore a small apparatus was newly installed for the manufacture of TNT.

4. After the Surrender Complete Dissection of War Industry
Ushered In with Reconversion Permit Dated 3 May, 1946,
Now Returned Exclusively to Former Peace Industry.

Thanks to the kindness of the Allied Forces we are now emancipated from the betters of military as well as bureaucratic oppression and a dawn of New Age has come at last.

The dissection as well as reconversion of TNT apparatus was completed sometime ago with a necessary permit dated 3 May, 1946. Now that we realized the importance of our peace goods more than ever before we are now doing everything in our power to contribute our share towards the post-war rehabilitation of the country. (Please refer to Table III IIII V VI)

Trusting that you will exempt our factory from the Custody List in due course of time, we are

Respectfully Yours

Yoshimi Yamaguchi.

Factory Director

DECLASSIFIED E.O. 12065 SECTION 3-402/NNBB NO. 1

1. Name.
   Company: Nissin Kagaku Kogyo Kabushiki Kaisha
   Former name:
   (1) Sumitomo Kagaku Kogyo Kabushiki Kaisha until 26 Feb. 1946.
   (2) Nippon Senryo Seizo Kabushiki Kaisha until 30 June, 1944.
   Factory: Nissin Kagaku Kogyo Kabushiki Kaisha, Tsurusaki Factory.

2. Location.
   Head office: 22,5 chome, Kitahama, Higashiku, Osaka.
   Factory: 2200, Tsurusaki, Oita Gun, Oita Prefecture.

3. Area.
   Compounds: 663.000 $m^2$
   Building : 20.660 $m^2$

4. Employees

| | men | women | total |
|---|---|---|---|
| office | 22 | 14 | 36 |
| technical | 32 | 0 | 32 |
| worker | 230 | 19 | 249 |

5. Date of the permit for reconversion: 3 May, 1946. (IG-334)

6. Date of Construction: July, 1937.

7. Date of first operation: Dec, 1939.

8. Name of President: Yoshimi Yamaguchi (Chief of the Factory)

9. Air Raid Damage:
   (a) Percent to building: 2%
   (b) Percent to equipment: 0%
   (c) Percent repaired: 100%

5. Description

a. Principal Products

(1) Wartime: Aniline, Orthonitrotoluene, Paranitrotoluene, β-Naphthol, Orthotoluidine, Monochlorbenzene, Mixed toluidine, Pare toluidine, Diacetonalcohol, α-Naphthylamine, Diphenylamine, Trinitrotoluene

(2) At present: Aniline, Orthonitrotoluene, Paranitrotoluene, β-Naphthol, α-Naphthylamine

(3) Planned for 1946-47: Anilin, β-Naphthol, Diphenylamine, α-Naphthylamine, Paratoluidine, Orthotoluidine, Dinitro Benzene, Paranitrochlor Benzene, Monochlor Benzene, Metaphnylen diamine, Na-Metanilate, Naphthionic Acid, Synthetic dyestuff & medicine derived from coaltar.

b. Capacity

(1) Wartime: 418 ton (total), Aniline (100), Orthonitrotoluene (35), Paranitrotoluene (15), β-Naphthol (60), Ortho-toluidine (25), Monochlorbenzene (25), Mixed toluidine(15), Paratoluidine (10), Diacetonalcohol (8), α-Naphthylamine (20), Diphenylamine (10), Trinitrotoluene (100)

(2) At Present: 135 ton (total), Aniline (50), Orthonitro-toluene (25), Paranitrotoluene (10), β-Naphthol (30), α-Naphthylamine (20)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

(3) 1946-47 (With unrestricted access to materials)

436 ton (total), Aniline (100), β-Naphthol (80), Diphenylamine (5), α-Naphthylamine (25), Para-toluidine (5), Orthotoluidine (20), Dinitro Benzene (20), Paranitrochlor Benzene (15), Monochlor Benzene (30), Metaphaylen diamine (5), Na-Metanilate (2), Naphthionic Acid (10), Synthetic dyestuff & Medicine derived from coal tar (119)

c. Number of Employees

| | (male) | (female) | (total) |

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

15. Remarks (Include here any factors hampering production not already mentioned and any recommendations you consider necessary)

(1) Excessive shortage of such raw materials as benzene, toluene, Nitric Acid, liquidized chlorine, sulphuric Acid and caustic Soda. Not only abovementioned principal materials but other subsidiary stuffs are lacking too.

(2) Hardness of accessibility to fuels. (crushed coal)

(3) Occasional suspension of freight train transportation.

(4) Non-ownership of such transportation facilities as moter-car and auto-truck. (Ownership being now appliad for to the Authorities concerned, but the licence is not yet given.)

The esteemed patronage of Your Occupation Forces is earnestly solicited, and we are looking forward to your closer inspection in near future.

16. Certification by applicant

I certify that the information contained herein is true to the best of my knowledge and belif.

Signed S. Kobayashi

HEADQUARTERS
92ND MILITARY GOVERNMENT HQ & HQ COMPANY
OITA, KYUSHU, JAPAN

RG/ma

APO 929
29 March 1946

Serial No : 6206

SUBJECT : Nissin Chemical Co. Ltd., Tsurusaki Factory, Tsurusaki, Oita Ken, Application for Operation of.

TO : The Commanding General, I Corps, APO 301, Kyoto, Japan.
(Attn: Military Government Section)
(Thru Channels)

1. Subject plant was inspected on 28 March 1946, and found to be manufacturing limited amounts of B-Naphthol. Plant is in good condition, and can commence chemical manufacture immediately upon receipt of Autorization.

2. Although formerly a component part of the Sumitomo interests, the plant claim no present connection through dissolution of the holding company. However, Sumitomo interests control a large share of stock.

3. No information has been received here as to how far the Sumitomo and other "Zaibatsu" interests are limited, restricted, or dissolved, but it is recommended that this plant be permitted to operate.

4. The plant management states that during early 1946 its branch factories in Osaka City and Okayama Prefecture have received authorization to operate.

5. Permission is herein requested to recommend that approving authority forward approved or disapproved Authorizations to Operate to the acting Military Government unit in the areas concerned in lieu of forwarding such directly to plants and factories concerned. Through such coordination local Military Government units will be advised of action taken, and will be in position to check for lost applications, and essential liaison work can be fulfilled.

1. As indicated in paragraph 2 of basic communication, a large share of stock is controlled by "Zaibatsu" interests. Accordingly, application of the subject plant for permission to operate is forwarded to your headquarters for consideration.

2. Subject Plant is in good condition and is ready to commence operation immediately. A few of its branch plants have been previously authorized to commence operation. This headquarters recommends approval of the application, providing that the subject plant does not come within the intent of forthcoming SCAP Directives that will restrict manufacturing of chemical products.
