REPORT OF MEETINGS OR MASS MOVEMENTS

E. on 7 March to 13 March, 1951

No. 1.
A: Date: 1920-2140 hrs., 7 Mar.
B: Place: Matsuzawa Primary School. P.S. (Kitazawa)
C: Name of meeting: Meeting for Commenting upon Current Situation & Report on Diet Activities by Setagaya Chap. Social Party.
D: Details: 1) Speaker: ASHIKAWA, Chief, Setagaya Political Affairs Investigation Section.
Subject: After taking about the experiences during his stay in U.S. as a student, the speaker took up tax problems giving information and lastly asked the audience to give their support to the Social Party in the coming election.

2) Speaker: KATO Kanju, candidate for Governor of Tokyo.
Subject: Concerning the rearmament issue, said, Gen. MacArthur advised Japan to became the Switzerland of the East in the establishment of the Japanese Constitution. In a few years since then, he is now adovocating rearmament for the measure of defending the country for aggression. This is hard to understand. Mr. Ashida is demanding a 200,000-man self-defence army, but where is the need? People say that the Soviet is strong with an army of 10,000,000 soldiers but the Kremlin may know better than I that she is no match for America of modern chemistry, as for atomic weapons, a raid of B-36s will destroy the 150 military bases she boosts of so much in less than 4 hours, completely. In such a chemical warfare, what is the use of an army of only 200,000 men? I think a little armament is a dangerous thing. In this sense the Social Party is fighting against the Liberal Party with the slogan of permanent neutrality, no rearmament, promation of all-out peace treaty, etc. I hope you will think the matter over so that you may not have another Hiroshima. I expect you support our party, etc.

REPORT ON MEETING OR MASSMOVEMENT

28 Feb. to 6 Mar. 1951

(A) 28 Feb. '51
2000-2150 hrs.
HOSENJI (Temple) Mukojima P.S.
Lecture meeting. SEIJI KEIZAI KENKYUKAI (Political economy circle)
Speaker: SAITO Eisaburo, instructor of WASEDA University (Dr. of Commerce)
Subject: On the Korean War and Economics of Japan.

Since January, the U.N. Forces are seen driving back the Chinese Communist troops. The appearance of a certain new weapon, the increase of the U.N. Forces and the change of 8A operations have caused such a great result. The cease-fire-declaration will soon be announced. However, here is the problem if the U.N. Forces would cross the 38 Parallel. It is supposed that America would like to cross the said zone, for she has had many soldiers mobilized and many firearms produced; while England and France are different in their opinions from American Anyway, around the boundary, the unarmed zone may be made in future.
(The speaker also explained the seven points advocated by Dulles, the U.S. ambassador to Japan).
Japanese peace pact will be signed by 2 Sept. Now in America, the peace-time-industries have been changed into the wartime ones, and the economic controls have been carried on. I believe such systems can also be applied to us. The prices of staple commodities will be 30% higher in December. Don't hoard the goods. If necessary, buy the goods with about half of the money you have. Save the rest.
Make more ships and try to decrease the goods to be imported.
Broke up. No trouble.

Cast away our conservative nature.
Work active among the people.

The society expenses for the mayor, and the retirement allowances for the out-going assemblymen, are to come from the heavy taxes you have paid. Such an assemblyman is no good; he arranges a matter for the benefit of himself. Let's elect a man of fine character." Dispersed without any trouble.
