LO. No. 109

TO : General Headquarters,
Supreme Commander for the Allied Powers

FROM : Ministry of International Trade and Industry

THROUGH: Ministry of Foreign Affairs

SUBJECT: Blending of Tetra-Ethyl Lead

1. Reference is memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 463.7(13 Oct 49)GD, SCAPIN 6898-A, subject: Disposal of Former Military Stocks of Tetra-Ethyl Lead, dated 18 October, 1949.

2. In the above reference, it is directed that the disposition of all stocks of tetra-ethyl lead, formerly the property of Japanese military agencies, be limited to allocation and sales to refiners of imported crude oil, and that they be blended only into an estimated straight run gasoline yield of 25% of the initial crude oil allotment.

3. In accordance with the above mentioned Memorandum, the Japanese Government has been making allocation and delivery of the materials to the Pacific Coast refineries whose reopening was permitted by SCAP Memorandum. The following refineries with complete tetra-ethyl lead blending equipment have already started the blending of the material.

Toa Nenryo Co., Ltd., Shimizu Refinery

Quantity of tetra-ethyl lead blend	1.2 cc/gal.
Octane value	72

Showa Oil Co., Ltd., Kawasaki Refinery

Quantity of tetra-ethyl lead blend	1.2 cc/gal.
Octane value	72

The Kudamatsu Refinery and the Yokohama Refinery of the Nippon Oil Company, Ltd. have recently made arrangements for the blending of tetra-ethyl lead.

As shown above, shipments of authomobile gasoline of over 70 Octane value are being made.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

4. The straight run octane value of the automobile gasoline being produced and shipped from the refineries in the domestic crude oil producing area (Akita and Kashiwazaki Refineries of the Nippon Oil Co., Ltd.) is 63 - 65. This means that no automobile gasoline with an octane value of 70 and above can be produced from the domestic crude oil producing area without ethyl blending. This is considered unfair in the light of sales technique.

5. For the reasons mentioned above, it is desired that your special consideration be given to the approval of allocation of tetra-ethyl lead for blending use to the refineries in the domestic crude oil producing area, i. e. Akita and Kasiwazaki Refineries of the Nippon Oil Company and Funakawa Refinery of the Nippon Mining Company.

a. Karasuyama Lumber Co. Ltd., Karasuyama, Karasuyama-machi, Nasu-gun	13	Matsunosuke Osaki, Karasuyama, Karasuyama-machi, Nasu-gun	A. On 16 March 1946, the Ashio Mining Plant, Furukawa Mining Co. Ltd. had the release of 189 each at free charge from the Transportation Sect. of Tochigi Prefecture in the woods at Fubasami, Ochiai-mura, Kamitsuga-gun where they had been located. The plant maintained them at the same-place, but around March or April 1946, the plant transferred 65 each out of them to Ashio town. Around November 1949, contents of ~~2,~~065 each were burned off and the empty cans were disinfected and have been kept in maintenance there.
a. In front of Karasuyama RR Station, Karasuyama, Karasuyama-machi, Nasu-gun	7	Karasuyama Tsuun Co.Ltd., Karasuyama-machi, Nasu-gun	B. As for 124 each left in the woods at Fubasami, Ochiai-mura, Kamitsuga-gun, they were to belong to the Ashio Mining Plant, Furukawa Mining Co. Ltd., but Yoshitaro Okuzawa from Kita-adachi-gun, Saitama Prefecture put them to the maintenance of Ryutaro Kobayashi in his allegation that Okuzawa received the maintenance order (without any legal basis) from the War Termination Remaining Materials Investigation Committee (Voluntary organization).

Location	Quantity	Custodian or owner	Disposition status since the post-war
Kikuchi Auto Repairing Co. 1357 Tomatsuri-cho, Utsunomiya	5 drums (1,000 Itr)	Shinkichi Kikuchi (custodian)	On listening to Shinkichi Kikuchi, it is disclosed that the said 5 drums had been brought up to his plant by an automobile, and left on the road in front of his plant, and that Kikuchi at that time, were not engaged in transaction of 4-Ethyl Lead. He sayshe knows nothing of owner of the truck and its source. We had this listening in Jan.-Mar. 1950.
Sadao Ikeda, 2772 Kiyosumi-cho, Utsunomiya	1 drum (200 ltr.)	Sadao Ikeda (owner)	The Owner purchased it around 1946 from Farm-land Development Implement Manufacturer at Kiyosumi-cho, Utsunomiya-shi (a sub-contractor for Kanto Sangyo-sha, at Tara-machi, the same city which were engaged in disused weapons disposition) to use as gasoline, and finding it to be 4-Ethyle Lead around 1948, have kept it under his custody.
Tatsusaburo Nakamura 1621 Moto-machi, Utsunomiya	4 drums (800 ltr.)	Tatsusaburo Nakamura (owner)	A Masashi Hisamatsu, around March 1946 (living at Utsunomiya bought from Enpei Kimura(who died in May 1946) and sold it to Kohichi Sakamoto(Living in Esoshima, Yokokawa-mura, Kawachi-gun). Sakamoto brought it to Gunze Silk Reeling Co. to sell it but it was rejected for the reason that it could not be usd for gasoline. Since then Sakamoto kept them till he sold it to Tatsusaburo Nakamura through the hand of Yoshisaku Yosizawa(Utsunomiya) and Minomatsu Kato. Sakamoto have had 7 drums but had three of them stolen during he kept it in the above said silk reeling company.
