Its winter population is exceedingly rice. As the great Southern seaport, it is attitually receiving accessions from Europe at the North. Of the large number who spair littles during the healthy season a critism proportion are persons of desperate. tely more vigilance on the part of the police toy and zeal. The commercial disasters the North being felt with far less severity will drive numbers of doubtful reputaa to New Orleans. The gambler, the se of reques who obtain a living by direct-or indirectly violating the law, may be ented to repair to New Orleans in awarms.

If the police should be manufactly to spreaent scanty number, we may be be trackly sure that New Orleans will be one the paradise of scoundrels; and that not only will crome and violence be more troquently perpetrated, but their perpetrators will secape detection and punishment.

We have no objection whatever to hold the sheef magistrate of New Orleans to a rigid accountability for his acce. He is wested with habituse satimated at 2150,000 to 2200,000.

There was an absence of gold withdrawals from the Bank, and the expertation of silver to the East appeared to have received a complete check.

The acceptances of Hoge & Williamson, of Liverpool, correspondents of Wm. Hoge & Co., of New York, were not taken up; and Paris letters reported that the large American house of John Munro & Co. had stopped payment. The fature of Gallerkamp Brothers, Amsterdam, was announced.

A deputation from Liverpool united with that from Glasgow for the purpose of inducing government to take steps in the financial crisis, but no result had been attained.—The Manchester Commercial Association declined to join in the movement, being of opinion that governments absuld not interfere with the circulating medium.
