RETURNING HOME.
King Edward Has Started From Paris for London.

Paris, May 4.—King Edward left at noon today for London. He was accompanied to the depot by representatives of President Loubet and Foreign Minister Delcasse and many officials.

His Majesty bestowed a number of decorations of the Order of Victoria and expressed the great satisfaction which he had experienced from his sojourn in France.

Alex. C. Roberts, of 22 Young street, late of the V. & S. staff, left this morning on the Charnier for Hedley, B. C., to fill a position in the office at the Nickel Plate mine.

THE LATE MINISTER.
Large Number of Liberals Will Attend Funeral at Woodstock.

(Special to the Times.)
Ottawa, May 4.—Two Pullman cars and two private cars with Sir Wilfrid Laurier, Sir W. Mulock, Hon. W. Paterson, C. Hyman, C. Sifton, and a large number of Liberal members leave to-morrow night for Woodstock to attend the funeral of Hon. J. Sutherland on Saturday afternoon.

WINNIPEG CLEARINGS.
Winnipeg, May 4.—Bank clearings for the week ending to-day were \$7,405,053. The clearings in the same week last year were \$6,394,972, and in 1903, \$5,646,763.

**TYPHOON DAMAGED
RUSSIAN WARSHIPS**

**REPORTED SCATTERING
OF LIGHTER VESSELS**

Storm Will Likely Interfere With Rojstevsky's Movements—Nebo-gotoff's Squadron.

(Associated Press.)
Amoy, China, May 4.—A typhoon which swept over the coast of South China this week is said to have damaged the Russian second Pacific squadron considerably.

The lighter vessels are reported to have been scattered.

Shipping men expect further delay in the execution of Admiral Rojstevsky's plans as a result of the damage sustained by the squadron.

**SIGHTED BY A
BRITISH STEAMER.**

Singapore, Straits Settlement, May 4.—The British steamer Selanger, which arrived here to-day, reports having passed a division of Russian warships off Jugrah, midway between the island of Penang and Singapore, at 9 o'clock this morning.

**SHIPS ARE UNDER
COMMAND OF NEBOGOTOFF.**

Island of Penang, Straits of Malacca, May 4.—The Russian warships sighted by the British steamer Selanger this morning are considered likely to develop into an interesting situation.

Jugrah, off which the division was seen, is a town of the state of Selanger, which is a British protectorate, and is not far distant from the point where a Russian division was sighted so long ago as April 27th.

It is not yet known whether the Russian warships are within territorial waters, or whether they are obtaining supplies from the neighboring land, but a brief telegram on the subject from Singapore is taken to indicate that for a week the Russians have been practically enjoying the hospitality of the waters of Japan's ally in the same manner that Admiral Rojstevsky's ships utilized French waters in Cochin-China.

A cable dispatch received in London this afternoon says that two of Nebo-gotoff's transports have put into Saibong, on the north coast of the island of Sumatra, with their bows stove, evidently having been in collision. Their names are given as the Mariechen and the Fernine Hessemliller.

**RENEWAL OF THE
STRIKE RIOTING**

**FIRST OUTBREAK TO-DAY
RESULTED IN FATALITY**

Non-Union Colored Teamster Shot in Leg—Chicago Police Ready to Escort Wagons.

(Associated Press.)
Chicago, May 4.—With employers preparing to press a demand for troops, violence in the teamsters' strike showed no signs of cessation to-day. The very first outbreak resulted in a fatality. The riot took place near the bars of the employers' teaming company, Chas. Riebalng, a white man, who resides in the vicinity, received a fractured skull and is expected to die. He was standing in a crowd, which jeered a non-union colored teamster who was guarded by five detectives. The negro suddenly picked up a stone and threw it into the crowd. Riebalng was struck on the head and sank to the ground unconscious. He was removed to the hospital.

During a second disturbance at the stable of the Employers' Association, John Danberry, a non-union colored teamster, was shot for trying to strike a boy who had shouted an offensive epithet. A number of strike sympathizers instantly made for the negro. Private detectives rushed to Danberry's aid and a general fight ensued, during which Danberry received a bullet in the leg. Joseph Lang, barn boss for a large mercantile firm, was arrested, charged with the shooting.

The police to-day announced that they were prepared to escort 800 wagons for the wholesale and retail strike-bound stores, and 350 express wagons. This, it is stated, would be the greatest number of wagons moved in one day since the beginning of the strike.

A. M. Crompton, chairman of the ways and means committee of the Chicago Commercial Association, has issued a special notice to members with reference to orders and shipments. The notice reads: "Exaggerated reports are being circulated throughout the country to the effect that the commercial facilities of Chicago are handicapped by reason of a strike of union teamsters. To the end that commercial interests of Chicago may not be injured by this exaggerated report, members of this association are requested to notify their travelling salesmen and the trade generally of the fact that orders are being received and filled promptly. Shipments are being made as usual."

WOMEN SHOT.
Chicago, May 4.—Sheriff Barrett to-day received a formal request from the Chicago Employers' Association to act with the police in quelling the rioting and in restoring order in the city's streets by wearing in several thousand deputies. The call upon the sheriff by the Employers' Association was said to be preliminary to plans to have the National Guard put in the streets.

It is reported that Sheriff Barrett expressed a determination to show that his deputies, acting with the Chicago police detail of 2,700 men, could be adequate to quell the disturbances and see that normal conditions were resumed without the aid of soldiers. Household goods were to-day delivered to residences by some of the department stores.

To-day for the first time since the strike developed a woman was shot. The victim was Mrs. W. C. Laret. She was attending to her household duties in her flat at 130 Twenty-Eighth place when some one in a mob below fired a shot, the bullet crashing through a window and wounding her in the neck. A physician said she would recover unless blood poisoning resulted.

**ANOTHER REPORT
REGARDING SQUADRON.**

Malacca, Straits Settlement, May 4.—4:30 p.m.—A Russian division consisting of four battleships, an armored cruiser and a gunboat, accompanied by five colliers, is now passing Malacca.

**CARRYING SUPPLIES
TO RUSSIAN SQUADRON.**

London, May 4.—Cabling from Tokio the correspondent of the Daily Mail reports that dense fogs continue to prevail on the China and Japan seas. The correspondent says that it is definitely known to Japan that on May 2nd ships of the Russian second Pacific squadron were in Port Daya, to the northward of Honkobe Bay, Annam.

The Daily Mail's Hongkong correspondent says that numerous steamers are constantly plying between Saigon and the Russian warships with full cargoes of provisions and cattle. He adds the report that American and German newspaper correspondents at Shanghai have chartered the steamer Fusanag, ostensibly to view the coming naval battle. The vessel he reported as flying the French flag, but it is believed she is really Russian property, with a mission to locate Vice-Admiral Togo.

**ADMIRALTY DENIES
REPORTS OF PURCHASE.**

New York, May 4.—A St. Petersburg dispatch to the Times says: "Rumors have been current for several days that Charles M. Schwab and Chas. B. Flint, of New York, have effected the sale of the Argentine and Chilean navies to Russia. The admiralty denies the rumors, but they are gathering force. It is even declared that several transports are leaving Kronstadt with sailors to man the purchased vessels."

"Fifteen special trucks, capable of conveying 120-ton submarines, have been constructed at the Pupillo works for the transport of submarines of the Boubloff and Holland types to Vladivostok. The admiralty is also sending ten 60 feet naphtha launches there."

**FRENCH NEUTRALITY
IN INDO-CHINA WATERS.**

Tokio, May 4.—The press of this city continues its sharp criticism of French neutrality in Indo-China waters, and expresses surprise and indignation at what it describes as "the elasticity of France's

**PRESBYTERIAN SYNOD
IN SESSION HERE**

Rev. John Logan, M. A., of Eburne, is the New Moderator--Proceedings at Meetings in First Presbyterian Church.

A glance at the interior of the First Presbyterian church last night revealed the great strides Presbyterianism has made in the West during the past decade, and to those who attended the synod when it was last held in Victoria the change is simply marvellous. Amid the crowd of representatives some of the veterans were readily marked out, whilst also some others were conspicuous by their absence. All the way from Edmonton is Rev. D. G. McQueen, who was there long before the railway, and who has just been honored by his Alma Mater, and now can add D. D. to his name.

Being escorted to the chair Rev. Mr. Logan warmly thanked the brethren for the great honor done him, and then succinctly outlined the business before the synod.

During the evening the choir of the First Presbyterian church rendered appropriate music, and J. G. Brown contributed a solo in splendid voice.

Although this, the fourteenth synod of British Columbia and Alberta, has opened under the most auspicious circumstances and is the largest as yet numbers ever held.

Rev. J. Knox Wright was chosen

REV. JOHN LOGAN, M.A.

clerk for the ensuing year, and proceeded to read the roll of synod. It was decided to hold sessions at the hours of 9.30 to 12 a. m., 2 to 5.45 and 8 to 10 p. m.

The ladies of the First Presbyterian church and St. Andrew's kindly invited all the attending members of the synod to lunch in their respective churches during the meetings of the synod. These invitations, it need be hardly necessary to remark, were unanimously accepted.

The synod then closed with the benediction, to meet to-day at 9.30 a. m.

The new moderator, Rev. J. Logan, is a brother-in-law of Jas. Foran, of this city, and along with Mrs. Logan will reside with Mr. and Mrs. Foran during their stay here.

This morning's session.

The first business of the synod when it met this morning was to consent to the division of several Presbyteries in Alberta, an indication not only of a growing church, but also of a growing country.

Rev. D. MacRae, of Victoria West, then gave in the reports on church property, and drew attention of the members of synod to the great importance of having the title deeds of churches conformed to the regulations drawn out by the church.

Manitoba College had an able representative in Prof. Bryce, who eloquently set forth the claims of the western college to the consideration of the synod. While admitting the possibility in the not far distant future of British Columbia having its own university, yet in the meantime the college at Winnipeg had to look largely to the western provinces for support.

Manitoba College has been a great factor in the upbuilding of the church life in the west, and there are unique facilities now for the training of students. A former member of the synod, Rev. Guthrie Perry, has just been appointed professor of Oriental languages.

Dr. Bryce pleaded for a larger supply of students and urged the ministers to hunt up the young men in their congregations who show any aptitude for church work. During the last two years over twenty students from Manitoba College came west to do home mission work. A large number of the missions working within the bounds are graduates of the same college.

The past year has been the most suc-

cessful year in the history of the college, 214 students having been in attendance. It cost last year \$28,000 to run the college, \$5,500 being received from fees, the rest being from endowments and Synod contributions.

Dr. Bryce went into many details regarding the financial state of the college and appealed earnestly to the synod to see to it that the institution should be adequately supported.

The synod decided to take steps to meet Dr. Bryce's plea, and recommended the various churches and ministers to raise at the least \$1,500 during the coming year.

The Rev. J. Wright gave in the report on statistics and finance. Revenue for all purposes was \$101,802, an increase of \$2,385 over the previous year, and 155 congregations, an increase of the previous year of 14 congregations.

Notes.

Tonight will be home mission night and a number of home missionaries as well as the secretary of home missions, Rev. Dr. McLaren, the home mission superintendent, Dr. Herdman, and Rev. Dr. McQueen, of Edmonton, will give addresses.

An invitation was extended to the synod by Rev. J. McCoy, to attend an "at home" in the B. C. Ladies' College on Saturday afternoon at 2 o'clock. Music and refreshments will be provided during the course of the afternoon. It is hoped that as many as can will attend.

**SECOND READING
OF AUTONOMY BILL**

**BORDEN'S AMENDMENT
DECISIVELY DEFEATED**

Government Had a Majority of Eighty-One—Debate Lasted Twenty-Eight Days.

(Special to the Times.)
Ottawa, May 4.—R. L. Borden's amendment was defeated last night on a vote of 50 for to 140 against, and the second reading of the bill raising Alberta to the status of a province carried on the same division reversed.

An analysis of the vote shows: Against the amendment, 140; pairs, 4; absent, 6; vacant seats, 4; speaker, 1; total, 214. Of the absentees five were Liberals and one was Conservative. The vacant seats, Gaspé, North Oxford, Lévis and North Wentworth, are all Liberal.

The vote by provinces was as follows:
Ontario—For, 44; against, 50.
Quebec—For, 1; against, 61.
Nova Scotia—For, 0; against, 17.
New Brunswick—For, 0; against, 7.
Prince Edward Island—For, 2; against, 1.
Manitoba—For, 3; against, 0.
Territories—For, 3; against, 7.
British Columbia—For, 0; against, 7.
Yukon—For, 0; against, 1.
Total, for, 50; against, 140.

The pairs were as follows: Liberals—Gorman, Logan. Conservatives—White, LeFurgey. The absentees were: Messrs. Gladie, Conroy, Power, Bate and Grosvenor, Liberais; Ames, Perley, Worthington, Bradshaw, Lewis and Thompson, thirteen in all.

The main motion on Mr. Borden's suggestion was subsequently declared carried on the same division as that on the amendment, and the House rose at 1:30 in the morning.

When the vote, which marked the end of 28 working days of debate, was being taken the galleries of the House were crowded, mostly by ladies, who had sat patiently since eight o'clock.

The whips were out for nearly twenty minutes after the division bells had first rung, and in their absence a few of the members threw parliamentary papers about. The ministerial side of the House was plainly joyful while the vote was being taken and after it had been announced, and there were few sad faces on the opposition side.

If all the Catholics in the House had abstained from voting the bill would have had a majority. There was solid British Columbia and solid Nova Scotia.

Mr. McIntyre (North Perth), Liberal, explained in the House to-day that if the vote should have been taken on the second reading of the bill last night he would have voted against the second reading. He found that having asked for a division he was now recorded as voting for the bill.

PERISHED IN FLAMES.

Fire Destroyed Hotel in Duluth—Three Lives Are Known to Have Been Lost.

Duluth, Minn., May 4.—The Fifth avenue hotel, in the wholesale district of Duluth, was destroyed by fire early to-day. Three lives were lost and three men are missing. Three bodies were recovered, John M. Yes and two unknown persons. A gale was blowing and made fire fighting difficult. The hotel was a wooden structure.

A statement of revenue and expenditures of the province of Quebec from July 1st, 1904, to April 25th, shows that the latter exceeded the former by nearly \$1,000,000. The revenue was \$3,351,088.05 and expenditures \$4,438,198.35.

RIOTING IN THE STREETS OF CHICAGO

SEVENTY-FIVE MEN REPORTED INJURED

Mayor Duane Is Opposed to Calling Out the State Troops, Armed Guards or Wagons.

Chicago, May 3.—Representatives of the striking teamsters have voted for a strike which promises more strength to the striking drivers. At a meeting of the joint council a fund of \$35,000 was pledged by the treasurers of the different affiliated unions and an assessment voted upon which if lived up to will mean an income to the strikers of \$30,000 a week.

Chicago, May 3.—Brutality in the strike-to-day began with a fight and panic in a crowded street car. Two men mistaken for strike breakers were assaulted and so severely beaten that they had to be taken to a hospital.

Shooting occurred at Franklin and Madison streets, where a driver was attacked by a big crowd. The negroes opened fire at once. Harry Williams and Fred Smith when seated on a paper laden wagon narrowly escaped death. A bullet passed through Williams' coat and another through Smith's hat.

Chief of Police O'Neill is steadily increasing his force and he believes he will be able to cope with the situation. He says 14,000 policemen are on strike duty. Nearly 300 negro strike breakers refused to work when the police called at the non-unionist headquarters to accompany them to the bars of the employers of team company.

More than 100 subpoenae were placed in the hands of United States deputy marshals to be served to-day on violators of federal court injunctions issued in connection with the strike.

The Rioting. Chicago, May 3.—The first rifle shot fired during the teamsters' strike went whizzing through a crowd of thorough-fare to-day. The shot was fired by a guard on a wagon of the United States Express Co. while he was passing through a crowd of strike sympathizers at State and Randolph streets. No one was hit.

Rheumatism

LIVES IN THE BLOOD

Consequently it requires an internal treatment, one that will restore the blood and thereby relieve the cause of the pain. After years of experiment Dr. Hamilton succeeded in producing a remedy that quickly cures rheumatism, gout, and all uric acid disorders. This marvellous cure has been given to the public as Dr. Hamilton's Mandrake and Butterfat Pills; in every case they cure quickly.

By toning the kidneys and liver, Dr. Hamilton's Pills ensure a clean, healthy body. The blood is restored to a normal healthy condition, renewed vigor is imparted to overworked organs, and thus the general health is built up, and no room is left for rheumatism to creep in. Discouraged sufferers, relief is at hand. Use Dr. Hamilton's Pills, and you will soon shake hands for good with your old enemy. Here is substantial proof:

A Cripple's Story of Cure. "This is a glad day for me," writes James E. Brownfield, from Midland, Ont. "because I can speak of my permanent cure of rheumatism. I have been all through the aching days and sleepless nights, have spent my money on worthless remedies, and consequently in recommending Dr. Hamilton's Pills I feel sure of their merit. No remedy gave such relief or did me so much good as Dr. Hamilton's Pills. My rheumatism they cured, and ever since my health has been perfect."

When Dr. Hamilton's Pills are to be had in any drug store, it is foolish to buy on credit and to let it go. You ought to get this medicine to-day and cure yourself. Price 25c. per box, or five boxes for \$1 at all dealers, or by mail from N. C. Poison & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

London, May 3.—Joshua Crane, Jr., the American amateur champion, won his second tie-to-day in the amateur tennis championship games at the Queen's Club, beating J. F. Marshall by 3-0.

NAN PATTERSON MAY BE SET FREE

ATTORNEY WILL NOT OPPOSE RELEASE ON BAIL

Lawyer Levy Says He is Certain His Client Will Never Be Placed on Trial Again.

New York, May 4.—Having failed to reach a verdict and declaring that they were hopelessly disagreed, the jury in the Nan Patterson case was formally discharged at 2:20 this morning. The jury was given the case at one o'clock yesterday, and after deliberating twelve hours came into court at 1:30 this morning and informed Recorder Goff that they had failed to reach a verdict. The jury were sent back to continue their deliberations.

At 2:20 o'clock the jury again entered the court room, where the recorder and other court officials were in waiting, and the foreman announced that they had failed to agree on the verdict. He added that their disagreement seemed hopeless of adjustment. Upon this announcement Recorder Goff formally discharged the twelve men composing the third jury that has considered this celebrated case. It is understood that a majority of the jury was for acquittal, but in what proportion they stood cannot be ascertained.

Miss Patterson collapsed on the jury's announcement and fainted dead away. She was assisted from the court by one of her counsel and several court attendants and revived in the ante-room. On the second return of the jury, Recorder Goff made a personal appeal to the foreman to endeavor again to reach a verdict. The foreman entered the jury box and polled the jurors in open court, but they were not able to agree. The recorder then asked them again if there was some point in law or something he could do by which they might be able to reach a verdict, but the jurors remained steadfast and finally declared their verdict a disagreement.

Future procedure in the case is uncertain. It has been intimated by the district attorney's office that the people probably would not attempt another trial. Should this be the case, Miss Patterson would be released either in nominal bail or under her own recognizances, and the indictment eventually be squashed.

May Be Released To-Day. New York, May 4.—Dramatic in the extreme were the closing scenes to-day of the Nan Patterson trial before Recorder Goff on the charge of having murdered Frank Young, the well-known turf man and bookmaker, in a cab last June. When the foreman had finally asserted the court that there was no possibility of reaching an agreement, the prisoner was in a dead faint. At 2:20 o'clock the recorder declared the jury discharged, and ordered Miss Patterson returned to the Tombs prison. She was carried out in a chair by attendants and two doctors had a hard time restoring consciousness. When told of the result, she smiled faintly.

In the streets below thousands of persons, held back by non-uniformed police, cheered the news, but were somewhat disappointed. They evidently favored the young woman, and had expected her acquittal.

Various rumors gained currency as to how the jury stood. Information received by the Associated Press is that the poll was 7 to 5 in favor of acquittal. It is quite certain that the former show girl will be given her liberty on nominal bail, and the indictment will be quashed. She has faced trial three times, twice the jury disagreed, and once there was a mistrial, owing to the collapse of a juror.

HON. JAMES SUTHERLAND.

The Dominion Parliament is yet young, but death has been busy in it and has laid his cold hand upon three members, two of whom were very conspicuous figures, one of them a member of the government and the other a stalwart in the opposition ranks.

Hon. James Sutherland, whose death occurred yesterday, was a well-known Liberal, loved by his colleagues for his simplicity of character and intensely human personality. As a statesman and a public speaker the late Minister of Public Works may have been overshadowed in a degree by some of the eminent men by whom he was surrounded, but no member of the Laurier government was more popular in Parliament or in the country; none possessed in more complete measure the confidence of his fellow-laborers in the political field.

The scene in the House of Commons yesterday when the Prime Minister was overcome by emotion in making the announcement that a trusted colleague had passed from earth must have opened the eyes of many understandings to the fact that there are relationships in political life of a very tender character. The incident of yesterday in the House of Commons will go down to posterity as a memorable one in the history of Canada.

Mr. Sutherland served his country and his party well. His death was expected, and yet when the news of dissolution came the shock was a severe one to his venerable chief and to his fellow-comrades. He will be sincerely mourned in Ontario and Quebec, in which provinces he was a well-known figure.

THE SOUND AND THE SALMON INDUSTRY.

The article we publish below, from the Bellingham Review, no doubt reflects current opinion in the centre of the Sound fishing industry. If the Times were to comment upon it in suitable terms, our expressions might be considered as extravagant. Our readers may, therefore, peruse it and form their own inward opinions upon the subject. It may be said in all candor that the statements of the Review will cause but little surprise on this side. We have had experience in striving to bind our neighbors under the provisions of an agreement when there is a possibility of profit through the violation of its terms. We might apply the logic of our contemporary to the situation and contend that because the fish which may pass through the traps on our shores during the close season will inevitably be caught in the meshes of the nets of the Sound fishermen during the open season, it would be folly on our part to close down at all. We are truly sorry that our friends are not yet convinced that they have done almost irreparable harm to all concerned in the fishing industry by their blind disregard of all protective measures. They are evidently determined to continue the work of devastation for another year. We do not for a moment

imagine that the law will be enforced to prevent them. The Review says:

The thirty-six hour weekly close of fishing will probably not be enforced during the salmon season. The incentive does not exist to observe it, as the fish escaping the Sound traps will likely be caught in the Fraser river, as the season is to be open when they reach there. In addition the waters requiring patrol are extensive, and the means to support an efficient patrol have not been provided.

Opportunities for violating the law will be innumerable. The season is essentially short. The swiftest prosecution is apt to be pushed only when the salmon run has ceased. Cannermen and trap men believe the measure is doomed to failure. An efficient remedy has not been suggested. Many believe the next law to be conceived in indifference. These look on the situation as hopeless; on any proposed remedy as useless.

The salmon industry has been barren of financial profits the past three years, indebtedness prevails among the majority of cannery and trap owners. Through the results of the coming season many expect to break free from debt. This means that every effort will be strained on the salmon grounds to catch every fish possible. Hence, if the run is at all light each trap must be watched or the legally required close will not be observed.

The enactment provides against catching of salmon during thirty-six hours of each week; it does not make illegal the holding of salmon in a trap during those hours. By this loophole trap men expect to avoid prosecution. If they are not seen catching the fish in these hours they consider themselves safe. The patrol provided consists of the fish commissioner and two deputies. It is not believed three men can do this work. In a word, it is the opinion of the trap men that the present law will not be enforced.

DEBATE ON THE AUTONOMY BILL.

The second reading of the Autonomy Bill, after six weeks' discussion in the Dominion House of Commons, has been carried by what is probably the largest majority on record on a question of supreme importance. On a superficial glance it might appear that the valuable time of the members of the two Houses of Parliament has been wantonly wasted in wrangling over what, when the matter is considered dispassionately, is a very trivial matter after all. But the discussion, prolonged though it was to the point of weariness, has done a great deal of good. It has cleared the atmosphere and permanently disposed of a considerable amount of misapprehension. The fires kindled by political demagogues have been effectually banked, if they have not actually been extinguished.

The debate has been notable in many respects. It was remarkable from the fact that representative Protestants from Quebec, elected to oppose the government, broke away from their leader and voted for the bill, after testifying to the generosity with which the minority had been treated by the majority in that province in all matters respecting education.

The developments during the course of the debate were no less interesting. In the early stage of the proceedings, when the firebrands held the floor and the mercenary religious agitator in Toronto was spouting fire and brimstone, the government was represented as having sold itself into the hands of the "Hierarchy." But it was proved that the "Hierarchy" is far from pleased with the proposed settlement. The "Hierarchy" represents one extreme; the agitators in Toronto represent the other. The "Hierarchy" demands separate schools in fact, schools whose control would be completely and absolutely in its hands, with power to administer as to curriculum, teachers and funds. The agitators profess to be dreadfully alarmed at the possible effect upon the children of the Northwest of a school system completely and absolutely in the hands of the governing authorities; teachers who must qualify in the regular way; books which must be sanctioned by the department—in short, the educational system at present in existence, a system established by the Northwest itself, is to be continued. There will be no separate schools as the people of the East understand the term. The schools are all public schools. Where their supporters are mostly Catholics the principles of Catholicism may be taught for half an hour after school hours to such scholars as desire to remain and learn. Where Protestants predominate parents have privileges of a like character. But there shall be absolutely no privileges accorded one sect that are not to be enjoyed by another. If the new provinces desire to alter or amend the provisions of the law as existing at present there is nothing to prevent them. They will have complete control of the system.

It took six weeks or thereabouts to clear up these points and to blow away the dust of misrepresentation raised by the mischief-makers and reckless demagogues who shouted for a "free West, a common school, provincial rights and religious equality." The new Governor-General even thought the agitation of the firebrands serious enough to call for a rebuke from his lips. But there was never much danger of the members of Parliament being carried away by the irrational appeals of the mercenaries. The more light thrown on the proposition the more reasonable it appeared. Towards the end there were unmistakable indications that the opposition was tired of the discussion. Some of its leaders gave plain evidence of their belief that from a tactical point of view the Conservatives had made a serious mistake. It was scarcely to be expected that Mr. Borden would accept the bill as a statesmanlike attempt to deal with a delicate

Watch and Jewellery Repairing

If your Watches and Clocks do not keep good time, or if your Jewellery needs repairing, let us examine them and give you an estimate of the cost of putting them in good condition. We make no charge for estimates, while our long experience in repairing and the fact that we employ only the best workmen enables us in many instances to give satisfaction where others have failed. Our charges are moderate, and we guarantee to give satisfaction.

C. E. Redfern, 43 GOVERNMENT ST. Established 1862. Telephone 118.

INHERITANCE.

Isabelle Ecclesie Mackay, in Canadian Magazine. There lived a man who raised his hand and said: "I will be great!" And through a long, long life he bravely knocked At Fame's closed gate.

A son he left who, like his sire, strove High places to win; Worn out, he died, and dying, left no trace That he had been.

He also left a son, who, without care Or planning how, Bore the fair fates of a deathless fame Upon his brow.

"Behold a genius, filled with fire divine," The people cried; Not knowing that to make him what he was Two men had died.

NO NEED OF THANKS.

Philadelphia Record. An elderly clergyman who attended the Baptist ministers' meeting last week told of an occasion during the past winter when the joke was on him. It was a very cold day, and the sidewalks being slippery the clergyman had some trouble in walking. When he came to the steps of his residence he tried to climb them, but was unable to do so because of the thick coating of ice. A little boy passing along the street lent his arm to the old man, assisting him to the top step; and then was about to run away, when he was called back and thanked. "Oh, don't mention it," said the boy. "I am used to that. My father comes home that way almost every night."

FIRST AID TO THE INJURED.

Harper's Weekly. On a rock-strewn beach on the Cornish coast the fury of a violent storm was just abating. A vessel had gone to pieces on the rocks, and after a display of much heroism on the part of the villagers, all the crew and passengers had been saved, with the exception of one man. He had been washed ashore apparently drowned, and the new curate knelt at his side on the beach, endeavoring to restore his circulation. "My friends," he said, turning to the villagers, "how do you usually proceed in these cases?"

"At one man the simple folk replied: "Search his pockets."

A PIOUS WISH.

Small Girl—Minister's children get invited to "meet everything nice that's going on. I wish my papa was a minister, instead of just a poor miserable sinner.

NEWSPAPER FAILURES.

Nelson Tribune. The passing of the St. Paul Globe may appear at first sight to be a matter of purely local interest, and without significance to any but its readers and its immediate "entourage." Such, however, is not correct. There are features of the case which suggest considerations of importance to every editor in the country, and enable him to "point a moral" both for his own and the public benefit. The St. Paul Globe was the property of J. J. Hill. No doubt he bought it to furnish a medium for advocating such opinions and policies as he might from time to time wish to promulgate. Viewed in this light, with the owner a multi-millionaire and the promoter of vast industrial and transportation projects, one cannot think for a moment that the question of cost would cut any figure. Yet it is frankly stated that it was killed, because it did not pay. The public often forgets that a newspaper is a business property, whose paramount interest is to "pay." If a paper runs long at a loss, the inevitable conclusion is that it is not wanted. It falls to appeal to a sufficient number to make it worth while continuing its publication. A newspaper is like a man; if it has a message, people will hear it, and keep on hearing it; if not, it may as well stop first as last—it is only marking time. The fact of a paper not paying is evidence that it

—Prof. J. Mesher has been awarded the contract for the erection of a house for School Trustee Mowat on Cadboro Bay road, for which Ridgway Wilson is architect.

—In Chambers this morning letters of administration were granted in the estate of the late H. A. Sedrs, who was drowned in the loss of the Clallam. The brother of the deceased was made the administrator.

—An inadvertent error was made in yesterday's account of the wedding of Miss Violet Tyrwhitt-Drake and Capt. Moxpratt-Williams, R. A. The bride is a daughter of the late W. Tyrwhitt-Drake, and a niece of Judge and Mrs. Tyrwhitt-Drake.

—Applications will be received at the city hall up till Monday, the 8th inst., for the position of city poundkeeper. R. F. Green, who now holds the position, was only appointed temporarily, but during his short term of office has established an enviable record for dog catching. The salary attached to the position is \$50 a month.

—From the family residence, No. 4 Oak Bay Avenue, yesterday afternoon, the funeral of the late Mrs. Elizabeth Norton-Cannell took place. Services were conducted at the house and grave side by Rev. E. G. Miller. There was a large attendance. Those who acted as pallbearers were: R. Clark, T. E. Morrison, J. E. McDonald, W. F. Crookford, G. Neil and A. Davidson.

—There will be no rally of the Ladies of the Miscellaneous in Victoria this month after all. The ladies in Seattle claim that they have not had sufficient notice of the proposed convention, and in view of this and like reports, Mrs. Baxter has decided not to have the event held. The local Macabees regret very much this action, as they had arrangements well in hand.

—The annual vestry meeting of St. James' church was held on Monday evening, when the following were elected as officers and delegates: Churchwardens, Messrs. C. Loat and H. C. Marsh; church committee, Capt. Walbran; Messrs. Holloway, Daniel, Wollaston, Broderick, Carr-Hilton, Hopkins, Walter and Clarke; side-men, Messrs. W. Loat, T. Hopkins and W. Goddard; lay delegates to synod, Messrs. Davies, Carr-Hilton, C. Loat and H. C. Marsh; delegates to curia-baconal conference, Capt. Walbran, Messrs. Holloway, Carr-Hilton, C. Loat and H. C. Marsh.

—Princess Trilce continues to draw large crowds nightly to the Grand theatre on Johnson street. The wonderful exhibition by the horse includes spelling out words after looking at a business card, doing sums in addition, subtraction, multiplication and division, telling the time by a watch purposely mis-set, playing tunes on a set of chimes, giving the corresponding tone on the chimes after hearing any note struck on the piano by the musical director, etc. Murray Hill gives an original and very funny monologue which earns nightly recalls; the electrical dance by Mlle. Zardina is one of the most beautiful exhibitions ever given at the Grand; and Gordon and Reverse in a comedy sketched, entitled "The Bell Boy and the Soubrette," have some good singing and dancing. F. Roberts' selection for the week, "A Little Boy Called Taps," is particularly happy, and an amusing line of moving pictures concludes a most enjoyable bill.

Dr. Price's Baking Powder HIGHEST IN STRENGTH AND PURITY Improves the flavor and adds to the healthfulness of the food. Price Baking Powder Co. CHICAGO, U. S. A.

—Have you any interest in the great English Derby? For \$1.00 you can procure a ticket in H. L. Salmon's famous Derby Sweep.

—In the city police court to-day an assault case, both parties to which were Chinamen, was dismissed. The Chinese gambling case will be continued to-morrow again.

—James Forman has let the contract to James Anderson for a new story and a half house on Linden Avenue, to be erected forthwith. The price is in the neighborhood of \$27,500.

—At the residence of Rev. W. Leslie Clay last evening Mr. Fred. J. Busbee and Mrs. Madeline Morgan, both of Seattle, were united in marriage. Mr. and Mrs. Busbee will spend their honeymoon in Victoria.

—Occupiers of premises at the corner of Douglas and Yates streets are combating the effect of a blocked-up sewer. The sewage is overflowing and running out onto Douglas street.

—Members of Signor Claudio's orchestra are rehearsing for the Anti-Tuberculosis Society's concert, to be held Wednesday, May 17th, are requested to attend a rehearsal this evening at 8 o'clock sharp.

—Far West Lodge, K. of P., will confer the rank of page on several candidates to-morrow evening. They will also instruct their delegates to the Grand Lodge, which holds its annual session Tuesday next at New Westminster.

—Big houses are the rule at the Redmond this week. A more satisfactory entertainment has rarely been offered to the amusement loving public. Every seat on the bill meets with approbation. The matinee in the afternoon are well attended.

—Residents of Birdge Walk have petitioned the city council asking that no change be made in the decision reached about the re-naming of that thoroughfare. They are in accord with the proposal to have it named Government street. There are a few, however, residing on the street who prefer to have the name of Birdge Walk retained.

—The Canada Life was established in 1847; its long record of large dividends to policyholders has not been surpassed on the North American continent. Its new policy contract contains the most up-to-date features to be found in the market. It will pay intending insurers to fully investigate the plans of the Canada Life before placing their insurance. Heisterman & Co., general agents.

—Local lodges of the I. O. O. F. are this week electing representatives to the Grand Lodge, which meets at Ladysmith on June 10th. Those chosen at a meeting of Columbia lodge last evening were P. W. Dempster and J. Wilby, while R. W. Fawcett and S. Reid were selected as alternate. To-night they are going to lodge will elect their representatives, and to-morrow night Victoria lodge will follow in line.

—The Methodist Sunday school union committee met last evening in the school-room of the Metropolitan Methodist church for the purpose of arranging for their annual picnic. The following officers were elected for the ensuing year: President, N. Shakespeare (re-elected); secretary, J. B. McCallum; assistant secretary, C. B. Deaville; treasurer, W. Ritchie; chairman of sports' committee, W. C. Staneland; committee on transportation, N. Shakespeare, W. Ritchie, J. B. McCallum and H. H. McDonald.

—A. M. Carpenter, of Rawlins, Wyoming, writes to Chief Langley as follows: "I see that you are going to have a big time on Victoria Day, so I thought I would send my mite to help it out. You will find enclosed \$2. I wish that you would have the agent of the Tourist Association send me a few views and some of his advertisements. The people are never tired of asking about Victoria. There are a good many going to the Portland fair, and I have advised them to go on to Victoria and see the prettiest place on the coast."

—The B. C. Pioneer Society held a well-attended meeting last evening when it was decided to admit to membership all those desiring who have been residents of the province for twenty-five years. Those present at the meeting were: Charles Hayward, the president; J. Blackhouse, E. J. Wall, E. C. Johnson, C. E. Redfern, E. Pearson, H. D. Helmecken, K. C. W. Haynes, B. Macguire, W. Wilson, George Chadwick, Thomas Sholtz, W. Harrison, W. S. Chambers, J. Muirhead, J. Robertson, H. G. Ross, L. J. Quagliotti, J. A. Douglas, E. R. Marvin, N. Shakespeare, John Dowley and the secretary, A. Graham.

—The annual vestry meeting of St. James' church was held on Monday evening, when the following were elected as officers and delegates: Churchwardens, Messrs. C. Loat and H. C. Marsh; church committee, Capt. Walbran; Messrs. Holloway, Daniel, Wollaston, Broderick, Carr-Hilton, Hopkins, Walter and Clarke; side-men, Messrs. W. Loat, T. Hopkins and W. Goddard; lay delegates to synod, Messrs. Davies, Carr-Hilton, C. Loat and H. C. Marsh; delegates to curia-baconal conference, Capt. Walbran, Messrs. Holloway, Carr-Hilton, C. Loat and H. C. Marsh.

PROMINENT PUBLIC MAN OF CANADA

REV. DR. BRYCE IS VISITING THE CITY

Has Won Wide Recognition as Theologian, Historian and Educationalist—Sketch of Busy Career.

One of the most prominent men before the Canadian public, in the person of Rev. Dr. Bryce, theologian, historian and educationalist, is spending the day in Victoria. He arrived last evening to represent Manitoba College at the session of the Presbyterian synod of British Columbia and Alberta, which is now in progress here. His visit in this city must necessarily be brief, his presence being required at the commencement exercises of the college, which are about to take place, and he, therefore, will leave for Winnipeg to-night. While in the city he is a guest of Rev. W. Leslie Clay, A. A.

It would be difficult to say in which particular field of activity Rev. Dr. Bryce has attained to the greatest prominence. Everybody who keeps abreast of the literature of Canada, even though the knowledge be superficial, is familiar with his name. He has published a great many works, principally, if not all, historical in character. One of his best known is a short history of the Canadian people, which is regarded as the best condensed record of this vigorous element of the Anglo-Saxon race extant.

Perhaps his most important work, however, is the remarkable History of the Hudson's Bay Company, which was given to the world in 1902. This is a most fascinating volume, throwing a strong, clear light upon the extraordinary commercial achievements of one of the most exceptional enterprises the world has ever known. Rev. Dr. Bryce's Illustrated History of Winnipeg, which is now being published serially in the Winnipeg Free Press, weekly, and is of an interesting and instructive nature, is to be produced in book form. In this connection the author decided to write in a style that would be attractive to the younger element. He recognizes that many of the incidents which he describes are more or less intimately known to the older inhabitants, and his wish is to arouse an interest in the history of their city in the young people of the prairie capital. In this he has succeeded, the work already having won a wide vogue. He has also in preparation a work to form one of the Makers of Canada series. It will deal with the careers of three remarkable men—Sir George Mackenzie, Lord Selkirk and Sir George Simpson. Of the first, British Columbians should know considerable, for he was one of those indomitable spirits who penetrated to the unknown regions of this great Pacific province away back in the discovery period. Of the others Westerners have much to learn, and Dr. Bryce's history will be awarded high interest.

Rev. Dr. Bryce was born in Brant County, Ont., of Scottish parents. His early education was received at the public and high schools of Brant and the Brantford Collegiate Institute. At the age of nineteen he matriculated with honors at Toronto University, and during his course captured numerous prizes, especially in higher English and science. In 1878 he entered Knox College and lifted five out of six scholarships. In 1881 he was one of the organizers of the Mount Pleasant Infirmary Company, and was at the skirmish with the Fenians at Limeridge. He was a graduate of the Toronto Military school, and attended the camp at Leperville under Colonel Philip Marshall Worles. At the close of his military course he was selected as assistant for Chalmers church, Quebec, but after six months' service there, was ordered to Winnipeg. In the prairie capital he founded Manitoba College and became its first professor, and was also entrusted with the charge of Knox church. In 1881 he organized the St. Andrew's church, and has always taken the most active interest in church circles in Manitoba. His, indeed, has been a busy career.

A Times representative called upon Rev. Dr. Bryce at Rev. Mr. Clay's residence this morning, and found him as generally approachable as all scribes of the fourth estate have known him. Some men upon whom honors have thickened, but the doctor possesses among his numerous endowments the instinct of the newspaper profession, and always entertains the kindest feelings for its representatives. He attributes the facility with which he has produced his various works to his intimate knowledge of the characters and incidents of which they deal. His long residence in Manitoba has brought him into such contact with the historic landmarks and personages so closely connected with the pioneer days of the country, that much of the research that would otherwise be required is unnecessary. For his history of the Canadian people, however, he put in a host of time investigating the histories of Harvard, Ottawa and the British museum, where he has a seat entitled him to access at any time.

"Harvard has an excellent 'Americana,'" he said. "Quite the best on the continent, although the Wisconsin University has lately acquired a fine collection. This deals with the early days of the country. The corresponding records in Canada we designate as 'Canadiana.'" Manitoba College, which was founded by Rev. Dr. Bryce, and which includes in its constituency British Columbia and Alberta is the oldest institution of this denomination west of Toronto. "It is one of a sisterhood of colleges," he explained, "that form the Manitoba University. The others are St. Boniface,

representing the Roman Catholics, St. Johns, of the Church of England, and Wesley College, maintained by the Methodist church. There is, in addition, the university in which are the officers, the science and mathematics courses. The university is supported by the government, a grant of 150,000 acres of land having been given to it. The sisterhood of colleges are supported by the various denominations they represent. This gives the system as a whole, two advantages, namely, the support of the state and that of the churches. The latter can accomplish more in the way of getting students than the state can, and the arrangement, therefore, is most advantageous. All the examinations are conducted by the university, which also bestows the degrees. It is a strong institution, there being about a thousand students. The council comprises some of the most prominent men of Manitoba, one hundred and fifty in number, representative of all denominations. This council is a most harmonious body, and there is nothing that can make it otherwise, for each religious body has its own college in hand." Dr. Bryce is professor of English in Manitoba University, a course which is wholly non-denominational.

He is one of the leading figures in the movement seeking to unite the Presbyterian, Methodist and Congregational churches of Canada, which won wide prominence at Toronto last year. There is a strong sentiment, he says, in favor of such a union, and he anticipates its completion. The obstacles are not distant. The division lines being not broad enough to raise trouble. Custom and form are the real factors to overcome, and he apprehends no difficulty in meeting them. He is one of the committee having this important matter in hand. They felt, he said, that it would be unwise to take any decided action without the endorsement of the assembly, which was the reason why the question rested in abeyance. The doctrinal of the various bodies interested have modified considerably during the last few years, leaving the promoters of the union the matter of administration practically alone to deal with.

Commenting on national affairs the doctor referred to the frayed-out subject of annexation which seems to agitate some quarters. In reply to the argument that destiny would seem to hold out for Canada annexation to the United States because of their community of ideas and intimate relationship, he pointed to Spain and Portugal and Sweden. In both these sections of Europe a similar sympathy of aims and aspirations prevails, but for centuries they have maintained their sovereign independence of one another. At the same time he recognizes that Canada and the republic at the south can become more closely drawn together than they are now. But for the tariff barriers the States have erected around themselves, in the Old Land the feeling of indifference towards the colonies is fast disappearing, the people there becoming better acquainted with their kinsmen across the seas. Great Britain is willing, in the doctor's opinion, to allow Canada to map out her own destiny if she chooses, her position, in common with that of the sister colonies, being actually independent.

Rev. Dr. Bryce is brimful of confidence as to the great future of Winnipeg. That city, he says, occupies the same relation to the Western prairies that Chicago does to the middle western states. Everlasting centers, therefore, of administration, law, religion and trade. Besides, it is a very intellectual place, its founders having been largely graduates of universities who sought their fortunes there after Confederation, when more room in Canada was wanted.

The doctor was moderator of the General Presbyterian Assembly in 1902, and in the following year opened the annual session at Vancouver. It was on that occasion that he made a trip across the gulf and spent a short time in Victoria. In Winnipeg, while not in charge of any church, he is actively interested in a church extension organization, which last year established five new churches, increasing the number of Presbyterian denominations in that city to fourteen.

"KING OF SIAM" WAS COMPLETE SUCCESS Entertainment Enthusiastically Received - It Will Be Presented Again in Institute Hall To-Night.

A large and fashionable audience greeted the performance of the musical comedy, "King of Siam," in the Institute hall last evening, and certainly never was a prettier sight of the kind seen than when the curtain rose disclosing the pretty faces of the chorus in beautifully trimmed gaudy drapery, contrasting with the picturesque garments of the men in strict Siamese costume. The general verdict was that the staging and acting would have done credit to professionals.

Arthur Gore, as King, was truly resplendent in his regal robes, and acted his part exceedingly well, while his song, "Oh, King of Siam," was loudly cheered. Both Prior, as Minister-General, quite took the audience by storm both in acting and singing—his rich baritone voice sounding to great advantage in the song, "As a Minister of Finance, I Am a Daisy." He had a strong supporter in the Governor of Tringano (Darrel Hanington), whose make-up was excellent, as was his acting. His song, with chorus and dance, "It Was Not So in the Olden Time," was enthusiastically received. Soon after his daughter (Miss M. Todd), and Chin Chin (Miss Alice Bell), her companion, were both excellent, and their work and their singing was much appreciated.

The song, "What a Little Dance I'll Lead Him," by Misses Todd, Bell and Heyland, was very amusing, and the duet, "Money," by Misses Todd and Miss Bell, created great admiration and mirth. Miss Bell also sang "My San Domingo Mad," with a chorus and dance by six young ladies, very sweetly and was loudly cheered. This was one of the gems of the evening. Miss Netta Heyland took the part of "Yum Yum," an imported English maid, and was very bewitching in her dainty black dress. Her acting and singing were exceedingly good. The tea-dance between herself and six other tea girls dressed like her was most effective and fairly brought down the house. Her duet with her lover, the valet (Cecil Berkeley), "Do You Think That You

WHY HAS "SALADA"

Tea such an enormous sale? Simply because its quality is irreproachable. If you are not using it you should give it one single trial. Black, Mized or Natural Green, Highest Award, St. Louis, 1904. Sold only in sealed lead packets: 40c, 50c, 60c per pound. By all Grocers. KELLY, DOUGLAS & CO., WHOLESALE AGENTS.

Practical Experience

Is worth a heap of money. One mother knows more about boys' clothes than a dozen average men. Our special knowledge of this subject is put into buying the most satisfactory sort. If you put yours to the same use your boys would wear

LION BRAND CLOTHING

Their last long, look well, cost little price. Hand made collars on coats, shrunken canvas, all wool materials; knickers with double seats and knees. \$4.50, \$5.00, \$5.50 and \$6.00 the suit, 3-pieces.

Building Lots FOR SALE HOUSE BUILT ON THE INSTALLMENT PLAN.

D. H. Bale, CONTRACTOR AND BUILDER, LEIGHTON ROAD.

Bust Developer Makes full plump bust in a short time. For sale at Mrs. Kosche's Hair-Dressing Parlors, 25 DOUGLAS ST. PHONE 1175.

RETIRING FROM BUSINESS GENUINE HALF PRICE SALE

Every article in the store will be sold POSITIVELY AT HALF THE REGULAR MARKED PRICE until the entire stock is cleared off. COMMENCING JANUARY 11th. Stevens & Jenkins 84 DOUGLAS ST.

Have Known Me Long Enough, was one of the prettiest things of the evening, as was her dance before the King. The calcium lights played upon her, making a beautiful picture. The valet (Cecil Berkeley) took the part of the lover (who had a weakness for every pretty face) exceedingly well. He sang in fine style the song "My Little Canoe," arranged as a tableau, with the chorus in pairs paddling. Miss Katie King sang "Little Moogyoo Maise," very prettily and was loudly cheered. Miss Viola Hickey also sang "Love," arranged as a tableau, with colored lights, four girls being grouped about her. She has a very sweet, well trained voice. Miss Gladys Campbell, dressed as a Pierrot, with twelve little girls dressed in the same way, sang "Will You Come With Me to the Zoo Zoo."

Easy Street The Waits Song Hit of 1905. Take our tip. This is a good one and will be a sure winner. GET "ON EASY STREET."

McCartter & Drysdale Contractors and Builders. Lots for sale in any part of the city. Phone A1002. 61 51st Street.

Sunlight Soap

is the best for washing clothes. It also does more thoroughly and easily every other kind of washing required in the household. Sunlight is a pure, powerful soap that you should always have at hand. Equally good with hard or soft water. No scrubbing, no boiling.

Try Sunlight. Your money back for any cause of complaint.

Lever Brothers Limited Toronto

PROVINCIAL NEWS.

GRAND FORKS.

A pleasing incident in connection with the removal of Dr. Northrop from Grand Forks to Spokane occurred at the Gravel smelter Thursday, when the doctor was presented by the smeltermen with a solid silver loving cup, as a token of their goodwill and best wishes for him in his future work. Dr. Northrop has been surgeon to the company for five years. In addition to the cup, as a further expression of goodwill, the doctor was asked to convey to Mrs. Northrop an order for the handsome clock that could be purchased, the same to have a plate appropriately engraved.

PHOENIX.

Lake D. Wolfard, Spokane, arrived a few days ago to look over the development being done on the Wolfard group of claims, located about three miles and a half from Phoenix. Mr. Wolfard states that a company has recently been formed to take over and operate the group, known as the Wellington Copper Mining & Smelting Company, of which he is president. So far something like \$6,000 has been spent in development on the group, showing that it has an immense body of low grade copper-gold ore, running high in iron. The ore body has been exposed on the surface 700 feet in length and 400 feet in width. At present a tunnel is being driven, all in ore, that has penetrated about 110 feet. A little later it is the intention to install an air compressor to push the work with more expedition, a half mile wagon road being now under construction to connect with the main Phoenix-Grand Forks wagon road.

NELSON.

"The tide of immigration from Washington and Oregon into Alberta is steadily growing," says the News. "The number of settlers that pass through Nelson would alone be significant of a general movement, but Nelson is only one of four channels of entry. Through Creston by the Kootenay Valley railway, and through Fernie by the new branch of the Great Northern system, farmers from over the border are steadily moving northward. Some, probably fewer, from western Washington, are travelling by the main line from Vancouver or New Westminster. The farmers of the coast states of the northwest who are moving to Alberta, are leaving good farms, where they were making money. They have been influenced not by professional immigration agents but by the reports and advice of former neighbors who have visited the new lands of Alberta and find them more fertile than their own, and purchasable at prices that seem

CATARRHOZONE INHALER is the greatest invention of the century for diseases of the respiratory organs. It is sure to cure because it cannot fail to reach the germs in the air passages. No medicine—no drugs—just healing, balsamic vapor.

RECEIVER APPOINTED.

Will Act as a Stay of Execution of the Judgment of More Than \$300,000.

Saratoga, N. Y., May 3.—Justice E. E. Kellogg, of the Supreme court, has appointed Mr. Pedrick, of Glens Falls, receiver of the Hudson River Water Power Company, in the matter of a \$2,000,000 mortgage foreclosure action brought by the Hudson River Electric Company. When the application for a receiver was made it was not claimed that the company was insolvent. The receivership was sought on the ground that it would act as a stay of execution of the judgment of more than half a million dollars received by the National Contracting Company against the Hudson River concern. The light and power plant of the company were levied on by the sheriff of Saratoga several weeks ago, and would have been offered for sale had not the receiver been appointed by Justice Kellogg.

EQUITABLE LIFE.

President Alexander Denies Report That Anyone Has Been Asked to Succeed Him.

New York, May 3.—President Jas. W. Alexander, of the Equitable Life Assurance Society, today gave out a statement denying all reports to the effect that anyone has been asked to succeed him as president of the society. He said: "I have been elected president by the board and have no intention of resigning. There is no body of men having authority to offer the presidency to anybody."

KRUPPS BUSY.

Immense Orders For Guns Lead to Increase of Employees to Thirty Thousand.

Essen, Prussia, May 3.—The Krupp's immense contracts, partly for the rearmament of German artillery and partly for Russian, Japanese and Turkish orders, have required the company to increase the number of workmen from about 24,000 to more than 30,000. The insufficiency of buildings for the men has compelled the management to erect temporary barracks for their accommodation.

NEWMARKET RACES.

Vedas Won the Two Thousand Guineas Stakes.

London, May 3.—At the Newmarket first spring meeting today Vedas, the two thousand guinea stakes, Signorina was second, and Langibaby third. Fourteen horses started.

PLANT DESTROYED.

Springfield, Ill., May 3.—The plant of the Springfield Boiler Manufacturing Company was burned today. The loss is about \$300,000. The company had large contracts with the United States government to furnish boilers for ships.

Comfortable Feet

Foot Elm instantly relieves chafing from new shoes, chills and other foot troubles. Try it once and you will be convinced of the genuine merits of FOOT ELM.—\$5 per box, postpaid from SPORT & JURY, BOWMANVILLE, ONT.

SERMON ON INGRATITUDE.

The art of gratitude ought to be taught in the schools; says an English writer. "I am perfectly astonished at the attitude of my own sex. A woman wishes to alight at a certain station. A man—a total stranger—not only opens the door, but hands out her many packages, all of which she receives as her right, and calmly walks off without a word of thanks. Then, again, a woman is walking along the street all unconscious of a foot or two of dirt trailing behind her. You wish to do a kind action, and inform her of the fact. Instead of the expected 'Thank you,' you receive a weary stare, as though you were in some way responsible for the untidy state of the dress. "How often, too, we hear that a certain valuable article has been returned to its owner, who showed his or her gratitude to the finder by a reward so trivial as to be almost an insult! "Women are mostly at fault in this matter, but men, too, are sadly wanting at times, as the following incidents will show. One would expect a person who had been rescued from drowning to be at least grateful, but, according to a Royal Humane Society man, this is seldom the case. A woman who had fallen through the ice and had been dragged out by these two men owned a husband who stood safely on the bank watching proceedings, and when his wife was brought safely to land, abused the men and was ready to fight them, because, he said, they had rescued his wife in such a rough manner! "Another case was that of a man who was rescued with difficulty, and who, after the men had been trying to bring him to life for two hours, solemnly raved because half a dollar was missing from his pocket!"

SMALLEST SHEEP IN WORLD.

A specimen of what is probably the smallest breed of sheep in the world has just been added to the Natural History Museum at South Kensington. A native of the Cameroons, West Africa, and known as the Cameroon sheep, this animal, though a full grown ram, is only nineteen inches high at the withers. Horns are represented only by conical bosses not more than half an inch long, and hair takes the place of wool as covering.

RAILWAY APPLIANCES.

Washington, May 3.—The American Railway Appliances exhibition was formally opened at noon today in the presence of nearly a thousand delegates to the International Railway Congress.

LONDON BUILDING LAWS.

Some important amendments to the London building laws are prepared in a bill promoted by the London County Council. Many of the clauses have relation to the provision of better means of escape from fire. The height at which such arrangements become compulsory is to be much reduced. Other clauses are directed to secure a greater minimum width in new streets, and to limit the height and number of stories permissible in new buildings.

More interesting from the engineer's point of view are the clauses which fore-shadow a much-needed reform in the methods and materials used in building construction. The present regulations were drawn up many years ago, when modern systems were quite unknown. Some few of these have, it is true, been already adopted in London, but only the county council have no other builders have in consequence been compelled to adhere to the old and costly methods and materials. "Skeleton" steel structures are in future to be permitted. This should result in a material increase in the valuable space on the ground floors of high buildings, which are now diminished by the necessity of existing regulations of using here very thick walls, instead of a mere 9-in. screen of brickwork or cement, which is all that is necessary with the steel skeleton system of construction. It is to be hoped, however, that in sanctioning the new departure precautions will be taken to insure that such buildings shall only be erected under competent engineering supervision. In America this has not always been the case, and some very serious accidents have arisen in consequence. The use of new materials is, as already stated, also to be sanctioned. Presumably these will include ferro-concrete, though this valuable material is not definitely mentioned. Engineering.

TREATMENT OF BOMBS.

How Infernal Machines Are Disposed of in France.

Russia is supposed to be the elastic land of bombs and bomb throwing, yet France is a close second to her ally in the race for honors in this particular. This fact is clearly evident if one glances through the current French illustrated papers, in all of which there are long articles on Paris bomb scares and the precautions which are taken by the government to secure the public against the perils of infernal machines, and also for the purpose of destroying the machines when they are found. La Vie Illustrée and Le Monde Illustré, of Paris, contain illustrated articles on bombs and careful discussions of the most dangerous subjects which care for these dangerous laborers. The statements of the writers in these two periodicals may be briefly summarized.

WHY WOMEN SHOULD CONFIDE IN A MAN.

It is much easier for a woman to confide in the average man than in the average woman. She knows that the man will respect her confidences and keep them to himself. It is said that loyalty is usually lacking in the feminine make-up. Without a perfect understanding there can be no helpful advice, and not one woman in ten places implicit confidence in her own sex. The consciousness of her own weakness puts her on guard against the failings of all other women. In the same way a woman hardly feels like confiding her womanly troubles—her weakness due to diseases essentially feminine—to a woman. That is probably why women do not usually succeed as physicians. There is every reason why women should not trust their delicate constitutions in the hands of unskilled persons. It requires a thorough medical education to appreciate and understand the womanly organism. When a woman has ill and pains that she cannot bear

THE SECRET OF WOMAN'S BEAUTY.

"The secret of a woman's beauty is not to be found in her dressing room or in the use of cosmetics, as cynics might intimate," says Max O'Rell, "but lies in resplendent health and a cheerful mind." "The beauty of a woman's face or figure is but the external sign of the good health within," says Dr. R. V. Pierce, of Buffalo, the specialist in women's diseases. "Further, to be happy and beautiful one must naturally have good health. Now, if a woman has dragging-down feelings, together with constantly returning pains and aches, a too great drain upon her vitality and strength, she will never look beautiful. The feelings of nervousness, the befogged mind, the ill-temper, the pale and wrinkled face, all result from those disorders peculiar to women, and the only way to effect their cure is to strike at the source of the difficulty. In the first place a woman should know thoroughly her own system, and this is easily acquired knowledge, for there are a number of good doctor books on the market. 'The People's Common Sense Medical Adviser,' has perhaps been read more largely than any other, for it is now in its sixty-first edition, having printed nearly two million volumes. Anyone can obtain this book by sending thirty-one cents in one-cent stamps for the paper-bound book, or fifty cents for the cloth-bound volume, to Dr. R. V. Pierce, Buffalo, N. Y.

SINGLE AND MARRIED WOMEN.

Very often find that it is repugnant to their feelings to consult their family physician. In such a case they can put perfect confidence in Dr. Pierce, who has made such a success in the treatment of women's diseases, for he will give the very best advice possible and without cost. To grow beautiful, healthy and happy should be the desire of every woman. It is then possible to hold a husband and to make home happy and bring contentment to it. In most cases Dr. R. V. Pierce's Favorite Prescription will fit the needs and put the body in healthy condition.

A \$500 REWARD.

For women who cannot be cured of Leucorrhoea, Female Weakness, Prolapsus or Falling of womb. All they ask is a fair and reasonable trial of their means of cure.

Dr. Pierce's Favorite Prescription restores weak and sick women to sound health by curing the local womanly diseases which are generally responsible for the failure of the general health. A woman's entire being is centered in her womanly nature. When the delicate womanly organism is attacked by disease; when there is irregularity or disagreeable drain; when inflammation burns and ulcers gnaw, the general health will reflect the progress of disease, in increasing weakness, nervousness, backache, headache, loss of appetite and sleeplessness.

Dr. Pierce's Favorite Prescription cures all these ailments, and cures them perfectly and permanently. It wipes out the record of suffering as a child wipes a sum from a slate. It makes the woman feel like a new woman, and look like one, because it rounds out the form and restores the healthy color to the face.

NOTICE.

Pursuant to the Creditors' Trust Deeds Act, 1901, notice is hereby given that William Jones, of 104 Pandora street, of the City of Victoria, in the Province of British Columbia, carrying on business as assignee in said City, did on the 28th day of March, 1905, make an assignment under Charles Cecil Pemberton, barrister-at-law, of No. 22 Victoria Crescent, said City, of all his personal property, real estate, credits and effects, which may be seized and sold under execution for the benefit of his creditors.

And further take notice that a meeting of the creditors of the said William Jones will be held at the office of Messrs. Robertson & Robertson, solicitors for the said Charles Cecil Pemberton, at No. 32 Langley street, Victoria, British Columbia, on Monday, the 10th day of April, 1905, at three o'clock in the afternoon, for the purpose of giving directions with reference to the disposal of the estate.

And further take notice that all creditors having claims against the said William Jones are required to forward particulars of the same, duly verified, and the nature of the securities (if any) held by them, to the said assignee on or before the 10th day of May, 1905, after which date the assignee will proceed to distribute the proceeds of the estate among the parties entitled thereto, having regard to the claims of which he shall then have had notice, and all persons indebted to the said William Jones are required to pay the amount of their indebtedness to the said assignee forthwith.

Dated this 3rd day of April, A. D. 1905.
ROBERTSON & ROBERTSON,
SOLICITORS FOR THE SAID ASSIGNEE.

CUPID'S MIRROR.

The Secret of Woman's Beauty.

"The secret of a woman's beauty is not to be found in her dressing room or in the use of cosmetics, as cynics might intimate," says Max O'Rell, "but lies in resplendent health and a cheerful mind." "The beauty of a woman's face or figure is but the external sign of the good health within," says Dr. R. V. Pierce, of Buffalo, the specialist in women's diseases. "Further, to be happy and beautiful one must naturally have good health. Now, if a woman has dragging-down feelings, together with constantly returning pains and aches, a too great drain upon her vitality and strength, she will never look beautiful. The feelings of nervousness, the befogged mind, the ill-temper, the pale and wrinkled face, all result from those disorders peculiar to women, and the only way to effect their cure is to strike at the source of the difficulty. WHY WOMEN SHOULD CONFIDE IN A MAN.

It is much easier for a woman to confide in the average man than in the average woman. She knows that the man will respect her confidences and keep them to himself. It is said that loyalty is usually lacking in the feminine make-up. Without a perfect understanding there can be no helpful advice, and not one woman in ten places implicit confidence in her own sex. The consciousness of her own weakness puts her on guard against the failings of all other women. In the same way a woman hardly feels like confiding her womanly troubles—her weakness due to diseases essentially feminine—to a woman. That is probably why women do not usually succeed as physicians. There is every reason why women should not trust their delicate constitutions in the hands of unskilled persons. It requires a thorough medical education to appreciate and understand the womanly organism. When a woman has ill and pains that she cannot bear

SYNOPSIS OF REGULATIONS FOR DISPOSAL OF MINERALS IN DOMINION LANDS IN MANITOBA, THE NORTH-WEST TERRITORIES AND THE YUKON TERRITORY.

Coal.—Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company, locality at the rate of one acre per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint-stock companies holding free-miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,000 x 500 feet by marking out the claim with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within the limits of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$100.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and other minerals in the Yukon Territory, of an area not exceeding 100 acres.

The patent for a mining location shall provide for the payment of a Royalty of 24 per cent of the sales of the products of the location.

Placer Mining.—Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 feet square, entry fee, \$5, renewable yearly. On the North Saskatchewan River claims are either bar or beach, the former being 100 feet wide and 100 feet long, the latter being 100 feet wide and 400 feet long. The latter includes bar diggings, but extends back to the base of the hill or bar, but not exceeding 100 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, but one for less than twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive, entries for bars, beaches, or other claims, except on the Saskatchewan River where the lessee may dredge to high water mark on each alternate side, but not exceeding 100 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, the bed being bounded by its position on the 1st day of August in the year of the date of the lease.

The lessee shall dredge in operation within two years from the date of the lease, and one dredge for each five miles or fraction is sufficient. Rental, \$10 per annum for each five miles or fraction. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, the bed being bounded by its position on the 1st day of August in the year of the date of the lease.

The lessee shall dredge in operation within two years from the date of the lease, and one dredge for each five miles or fraction is sufficient. Rental, \$10 per annum for each five miles or fraction. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base of the claim, and the width of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entries must be obtained for each claim, and the claim is within ten miles of Mining Recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim, each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and another person may hold claims in partnership by filing notice and paying fee of \$2. A claim may be abandoned, and another staked on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$300.

A certificate that work has been done may be obtained each year; if not, the claim shall be deemed abandoned, and the claim to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

DR. TORY'S VISIT. Prominent Educationalist Is Making a Trip Through British Columbia—McGill Extension.

A prominent educationalist from the East, is now visiting British Columbia in the person of Dr. Tory, who occupies the chair of physics in McGill University, Montreal.

While in Victoria he visited the High School, and expressed himself as highly pleased with the efficiency of the work being carried on there.

Although Dr. Tory's visit was one mainly in search of health, he also to a degree represented McGill University; his object being to get into touch with the educational problems of the west and also to study at first hand its mineralogical aspects and developments.

Members of the board discussed with him the question of university extension and some discussion took place relative to the establishment of a branch of McGill on this coast.

Several days will be spent in Victoria by the party before proceeding on their way East.

Mr. Lindsay was asked if there was any truth in the report which was from time to time circulated that the Crow's Nest Pass Coal Company was under the control of the Great Northern.

There was some discussion regarding the extensions and improvements of the past year. It was reported that a new parsonage had been constructed at Spanish and a church on Salt Spring Island.

Rev. G. K. B. Adams, pastor of the Metropolitan Methodist church, was appointed to the district-stationing committee.

After the discussion of matters of minor importance the meeting adjourned until 2 o'clock this afternoon.

Important business is being considered as the Times goes to press. Besides the appointment of various committees, delegates having any special matters to bring up will mention them in order that they may be included in the programme of the general conference.

PIONEER DOCTOR DEAD. (Associated Press.) San Francisco, May 4.—Dr. Wm. Hammond, a pioneer physician of this city, is dead, aged 69 years.

Among female Moors birthday celebrations are unknown. A Moorish woman considers it a point of honor to be absolutely ignorant of her age.

Philadelphia, Pa., May 4.—Mrs. Florence Ward, of Port Kennedy, a sister of Mrs. Robert Rushton Shaw, who with her husband was found dead in a field near Blackpool, England, yesterday, made a statement in defence of her sister's memory to-day.

My sister was highly esteemed by her friends here, and a better girl never lived," declared Mrs. Ward. "It is an outrage to even suggest anything improper in her life previous to her marriage. We lived together for years, and it was impossible for her to have been implicated in an intrigue with a man without my knowledge. I declare positively that she was a pure, good girl, incapable of doing wrong. We have all been looking forward to a visit from my sister and her husband, as I had promised when he married her and took her

has won its great popularity by its prompt cures of this most common ailment. It aids expectoration, relieves the lungs and opens the secretions, effecting a speedy and permanent cure. It counteracts any tendency toward pneumonia.

away that they would come back for a visit to her parents and friends in five years.

The parents of Mrs. Shaw now reside in Port Kennedy, having removed to that place subsequently to the marriage of their daughter.

NAN PATTERSON ILL. Her Nerves Are Completely Unstrung by Ordeal of Trial—Efforts to Secure Release Unsuccessful.

New York, May 4.—Nan Patterson lies very ill in the Tombs prison to-day, her nerves are completely unstrung by the ordeal of her trial, and her dramatic experience in court at 2 o'clock this morning, when the jury reported its disagreement.

The lawyers worked hard to try to secure her release at once on bail, but up to 2:30 o'clock had made little or no headway. At that time they had not been able to communicate with the district attorney, and did not know his intentions regarding the case.

They hoped to secure her freedom in a day or two at the latest.

KILLED IN CHURCH. Were Struck by Bullets While Standing Near Altar—Many Injured During Panic.

Lodz, May 4.—A terrible riot occurred at the church of the Holy Cross yesterday evening. When a number of Roman Catholics around the edifice began singing the revolutionary songs a Cossack patrol came up at a gallop and began shooting into a crowd of people huddled on the church steps, some of the bullets entering the sacred edifice striking the altar.

Several persons were killed. A panic ensued among the people in the church. Many were injured in the crush for the doors. After the crowds had dispersed workmen in groups fell upon a member of the police, who was found alone in the streets, and he was nearly beaten to death before he was rescued.

Trouble Continues. Warsaw, May 4.—Non-Disturbances occurred in several parts of the city this morning and an extension of troubles appears imminent.

In the Wola district workmen forcibly stopped the street cars and cars and Cossacks were summoned. A man in the crowd fired a revolver and wounded a soldier.

The Social Democrats appear to be determined to enforce their manifesto proclaiming a general strike and the observance of to-day as a day of mourning for the victims of the May Day disturbances. No newspapers appeared this morning.

Business Suspended. Warsaw, May 4.—All business and street traffic partially ceased at noon. Some of the houses are barricaded. A few merchants who tried to keep open were visited by pickets of workmen who ordered them to shut their places of business immediately.

Nearly all the street cars stopped running. The cab service is entirely suspended. Many cars earlier in the day were stopped by parties of youths who compelled the occupants to alight, in some instances forcibly throwing them out of the vehicles, and then ordered the drivers to go home.

Immense crowds have gone to Brundo cemetery, where the victims of Monday's shooting are buried.

New Prefect of Police. St. Petersburg, May 4.—Major-General Surafloff, hitherto attached to the ministry of the interior, has been appointed prefect of police of Moscow, in place of General Volkov, who has been transferred to the governorship of Taurida, South Russia.

TIDE TABLE. (Issued by the tidal survey branch of the Department of Marine and Fisheries, Ottawa.)

Table with columns: Date, Time, Height, etc.

The funeral will take place on Saturday, May 6th, at 8 45 a. m. from Hayward's undertaking parlors, and at the Roman Catholic Cathedral at 9 o'clock.

Friends will please accept this intimation.

FIVE DROWNED. Newport, R. I., May 4.—The new London tug Gertrude put in to Newport harbor to-day and reported the loss of the large moonbeam, off Point Judith, last night, with all on board, including the captain, engineer, steward and two children of the captain. The captain of the towboat did not know the names of any of the drowned.

Joseph Fergues and Joseph Dufort were instantly killed and Francis Chatter was seriously injured on Wednesday the result of the bursting of one of the ovens of the La Prairie Pressed Brick and Terra-cotta Co. The explosion was due to an accumulation of gas.

REWARD. The Corporation of the City of Victoria hereby offers the sum of \$10 as a reward for such information as shall lead to the arrest and conviction of the person or persons who breaks an entrance through the fence of the City Pound, or about the 30th ult., and allowed certain dogs, confined in the Pound, to escape therefrom.

WELLINGTON J. DOWLER, C. M. C. City Clerk's Office, May 2nd, 1905.

BRIEF LOCALS

The Assembly Club will give a grand dance on Friday evening.

The R. E. Quadrille Club will hold its regular fortnightly dance at Work Point barracks to-night.

R. Hollis, Devonshire road, brought to the Times office this morning probably the first strawberries of local growth seen in the city this year. The fruit comes from his garden.

W. E. Koch, of Nelson, manager of the Enterprise mine near Sandon, is visiting the city. He is charmed with Victoria and intends bringing his family here for a couple of months.

Chairman Boggs has received from Principal Paul, of the Victoria college, an invitation to members of the school trustee board to present at the presentation of prizes won at a recent competition of the cadet corp.

The funeral of James Shearon took place this morning at 8 45 o'clock from St. Joseph's hospital, and at 9 o'clock from the R. C. cathedral, Rev. Father Standish conducted requiem mass and Rev. Father Eisner the funeral services. The following acted as pallbearers: J. Eues, L. Papillon, W. McTernan, P. Corn, D. Finnelly and A. Finnelly.

Four candidates for assayers' certificates passed their examinations successfully. They all belong to Victoria, and are as follows: P. C. Hart, S. H. Wimmerly, U. L. Parsons and W. G. Stephen. The examiners were the provincial mineralogist, W. Fleet Robertson; N. Carmichael, provincial assayer, and Thos. Kiddie, superintendent of the Ladsnsmith smelter.

TO DEFEND PROPERTY.

Russian Government Grants Permission to Sugar Refiner to Organize Private Militia Company.

(Associated Press.)

St. Petersburg, May 4.—The government has granted permission to M. Tereschentsov, a rich sugar refiner of Kiev, whose property was recently damaged by rioters in March, to organize a militia company of 150 men to protect his factories and other property. This is the first time that the organization of a private militia force has been authorized in Russia.

PRESCRIPTIONS

We give this branch of our business personal supervision. Your prescription when entrusted to us is prepared from the purest materials by a fully qualified pharmacist. Prices moderate.
