

Dario HUNTER

Green for President 2020

PROTECTING OUR PLANET

Transition away from fossil fuels and achieve clean, 100% renewable energy. Dario's Green Path Forward will also improve relationships with major carbon emitting countries so that together we can globally prevent climate change catastrophe, solve other crises like plastic pollution and build a more peaceful world.

FIGHTING FOR EQUAL RIGHTS

Strengthen legal protections for women, workers, people with disabilities, veterans, and the LGBTQIA+ community. Ratify the Equal Rights Amendment. Protect against interference in personal choices and expression, sexual harassment, and job discrimination as well as protecting whistleblowers.

ENDING WAR

End war and America's foreign interventions, closing 700+ military bases and investing instead in a Dept. of Peace, education and a strong infrastructure. Refuse foreign aid to those who do not respect human rights. Oppose Israel's oppression of the Palestinians, supporting BDS and a one- state solution.

SOCIAL JUSTICE

Through a comprehensive People of Color Bill of Rights platform, end police killings of people of color, affirm indigenous sovereignty, implement reparations, and stand up against colonialism - and for Puerto Rico's independence. End corporate personhood and inequalities in banking and lending. Guarantee a living wage, and housing for all.

HEALTHCARE & COMMUNITIES

Provide free, universal health care in all of our communities as well as quality healthcare facilities within reach to all. End redlining, end America's food deserts and grant funds to locally owned green businesses and cooperatives in communities of color.

EDUCATION

Free Pre-K through college without debt as well as forgiveness for past debt. Stop school privatization, fight educational racism, and protect local voice and control in public education. Ensure consistent enforcement of fair standards in special education. Educate on the history and culture of the many diverse peoples of this country.

ABOUT DARIO

Dario was born in New Jersey to an African-American mother and a Persian immigrant father in a working poor family. After Princeton and three law degrees, he sought ways to give back - as a teacher, as an environmental attorney, as a rabbi, and through politics as a member of the Youngstown, Ohio Board of Education. He has fought a state takeover trapping minority students in a cycle of failure, fought fracking, and mounted successful legal efforts to hold public officials accountable. Dario's experience in local politics has made clear to him that nationwide system change is necessary to give Americans greater say and an equal chance at success.
