Department of Labor

Employment Standards Administration

**Minimum Wages For Federal And
Federally Assisted Construction; General
Wage Determination Decisions**

DEPARTMENT OF LABOR

Employment Standards Administration

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the Federal Register without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for

performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and Supersedeas Decisions to General Wage Determination Decisions

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the Federal Register without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Government Contract Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the

original General Wage Determination Decision.

New General Wage Determination Decisions

Alabama.—AL79-1079.

Modifications to General Wage Determination Decisions

The numbers of the decisions being modified and their dates of publication in the Federal Register are listed with each State.

Florida:

CLASSIFICATIONS DEFINITIONS

CLASS I - Handling steel and stone in connection with erection; cranes doing hook work; any machines handling machinery; cable spinning machines; Reel-copters; machines similar to the above

CLASS II - Engineers working with dock builders and pile drivers, all types of cranes, all types of backhoes; cableways; draglines; keystones, all types of shovels; derricks; trench shovels; trenching machines; pippin type backhoes; hoists with two towers; pavers 21E and over; all types overhead cranes; building hoists - double drum (unless used as single drum); mucking machines in tunnel; gralls; front-end loaders over 3 cu. yd., boat captain; tandem scraper; tower type crane operation, erecting, dismantling, jumping or jacking; drill self-contained (drillmaster type); fork lift (20 ft. and over); mortar patrols (fine grade), batch plant with mixer; Machines similar to the above

CLASS III - Conveyors (except building conveyors), building hoists (single drum), scrapers and tounapulls, asphalt plant engineers, roller (high grade finishing); caterpillar-type tractors with frontend overhead loaders and rubber-tired loaders 2 c.y. up to & including 3 c.y., maintenance engineers with tools; spreaders, high or low pressure boilers, concrete pumps, well drillers, forklift trucks of all types; bulldozers D-7 or equivalent and over; ditch witch type trencher, motor patrol; machines similar to the above

CLASS IV - Concrete breaking machines, rollers and machines similar to the above

CLASS V - All bulldozers under D-7, tractors including rubber-tired type with front and overhead loaders under 2 c.y., seaman pulverizing mixer, welders and maintenance engineers, tireman on power equipment, maintenance engineer (power boat), and machines similar to the above

DECISION NO. PA79-3009

Paid Holidays (Where Applicable):
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

Footnotes:

- Employer contributes 8% of basic hourly rate for 5 years or more of service or 8% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.
- Holidays: A through F, plus the Friday after Thanksgiving Day.
- Holidays: July 4th; Labor Day and Thanksgiving Day.
- Holidays, A through F, Washington's Birthday, Good Friday and Christmas Eve, provided the employee has worked 45 days for the employer during the 120 days prior to the holiday, and is available for work the day preceding and following the holiday.
- Holidays: Election Day
- Holidays: Labor Day and Election Day
- Holidays: A through F, Washington's Birthday, Good Friday and Christmas Eve provided the employee has worked 45 full days for the same employer during the 120 calendar days prior to the holiday & is available for work the days preceding & following the holiday.

CLASS IV: Four and five axle equipment

CLASS V: Low Bed Trailers; Special Earth Moving Equipment under 35 tons, Mechanics; Paving Restoration vehicle and Vac Haul

CLASS VI: Special Earth Moving Equipment over 35 tons

CLASS VII: Trailers when used on a double hook-up (pulling 2 trailers)

PAID HOLIDAYS:
 A-New Year's Day; B-Memorial Day; C-Independence Day;
 D-Labor Day; E-Thanksgiving Day; F-Christmas Day

FOOTNOTES:
 a. Holidays: A through F; Washington's Birthday, Columbus Day, Veteran's Day, V-J Day, providing employee has worked at least one day in the calendar week in which the holiday falls.
 b. Employee who has been on the payroll for 1 year or more but less than 5 years and has worked 150 days during the last year of employment shall receive 1 week's paid vacation; 5 years or more - 2 weeks' paid vacation.
