9 Relation between School and Community

About the items mentioned above, we discussed and received lectures in 5th I.F.E.L chiefly by our consultant, Dr nash, who is the Dean at Idaho University. Happily I had the opportunity to go over to America and see the work at hand. Then I am going to write my oppinion about the observation of the elementary schools in America.

(1) Character of new Elementary School

All of the elementary schools in America which I have seen, are child-centred and are well equipped so that children can do everything for themselves

My first impression of the schools in America is that its equipment is very good It is so good that I can not compare with that of Japan. About teaching method, it is almost the same that I have taught or read in Japan. There are so [illegible] materials for teaching that Teachers can do it with ease

my oppinion about the observation of the elementary schools in America.

(1) Character of New Elementary School

All of the elementary schools in America which I have seen, are child-centred and are well equipped so that children can do everything for themselves

My first impression of the schools in America is that its equipment is very good It is so good that I can not compare with that of Japan. About Teaching method, it is almost the same that I have taught or read in Japan. There are so much quantity of materials for teaching that Teachers can do it with ease

In easten area, out-door equipment is comparatively poor

(2) Curriculum.

About Curriculum, another specialist of us observed, so he will report but, in case of my area I was much impressed by the fact that a Principal has the responsibility to make curriculum and supervise his teacher

(3) Guidance

With regard to Guidance, another specialist will report it. But as a principal I will state my opinion. In America there is a great deal of child study at Board of Education and the Principal can send the child and get the suggestion in training him. Guidance system at Board of Education is very much improved. Every county School Board, I found

psychologists who are working about child problems in school.

(4) School system

School system are very much varied, for instance, 6. 3. 3 and 8. 4. To my suprise, even in one County, one district is of 6. 3. 3 and another district of 8. 4. I think, it is not convenient, it shoud be of the same system in one County. Considering the difficulty or delaying in making new system, I think, even in America. it is too fast to make 6. 3. 3 system in Japan.

(5) School Organization

I wanted to know the relation Principals and faculties. but it could not be obserbed exactly, but I think, all the schools which I saw are in very democratic atmosphere.

As for a principal, it is very convenient to have a secretary. I was very much impressed by the fact that the secretary is a good worker to arrange the school bussiness quickly.

In Japan, we must study arranging school-bussiness, and to do it efficiently.

(6) School plant

very democratic atmosphere.

As for a principal, it is very convenient to have a secretary. I was very much impressed by the fact that the secretary is a good worker to arrange the school bussiness quickly.

In Japan, we must study arranging school-bussiness, and to do it efficiently.

(6) School plant

School plant is so good that we can not imitate it. But according to the the observation in American schools, we have learned that school-office arranges business so quickly. And, in American schools there is no teacher's room like in Japan, which is better, I think.

As to the school-office, in American schools, location of the office is very good, very convenient for the principal as office manager.

At present, elementary schools in Japan have no school-office, so we must study how to set up school-office, while out-door equipment is not considered, in eastern area, I thought.

(7) In-service education

I have seen many teachers who are attending the post-graduate-course of college in Columbia, and in Chicago, and they get master's or doctor's degree. It is a very good system.

I hope also in Japan, many Teachers will goTo colleges and get higher degrees. (But at present under the existing conditions in Japan, most of the teachers have no leisure to go to colleges.)

The course of the post-graduate, is very practical for teachers. I have seen several workshops of the teachers, most of which are concerning to practical things, for instance, teaching materials or to make it or so.

In short, Teachers have many opportunities to get inservice-education. and it is very practical. But they may be lacking in principle.

We should think it convenient for some of the collegesto equip men and women for training Teachers.

(8) School-finance

In America, an elementary school is supported by its school district. Every district differs, in many respects, from each other; for instance, the ~~salary of~~ a teacher under the same condition is at variance in the respective district. I wonder why it is so. I should prefer

[illegible] available in the whole

and it is very practical. But they may be lacking in principle.

We should think it convenient for some of the colleges to equip men and women for training Teachers.

(8) School - finance

In America, an elementary school is supported by its school district. Every district differs, in many respects, from each other; for instance, the salary of a teacher under the same condition is at variance in the respective district. I wonder why it is so. I should prefer To the same salary and a salary schedule available in the whole country is desirable. However, it is enviable to see that the relation between a school and its community is very closely connected by the support and assistance of the district.

(9) The Relation between school and community.

Relation between school and community are very closely related. The elementary school is what we call community school. But I could not observe the district board of education only I have been told by the county school board. Most of the principals and Teachers have been Teaching schools for many years, and so the teachers and community try To do the child-centered education To-gether.

About the relation between school and community, there is a wide difference between America and Japan

After all, I have realized that it is dangerous to imitate American system as it is. We must fit it for Japan

We must study Democracy and its origin of the social back-ground.

DOCUMENTARY REQUIREMENTS FOR STUDENT VISAS

1. Two signed copies (or one original and one certified true copy) of a letter of admission to the school to which destined.

2. Documentary evidence that adequate financial arrangements have been made to cover the entire cost of travel to and from the United States, tuition, and all living and incidental expenses while in the United States. This evidence must be submitted in duplicate and may consist of items such as the following:

(a) Affidavit of support executed by the sponsoring individual, institution, or organization. Such affidavit must include a guarantee that the applicant will depart from the United States and return to Japan upon completion of his studies. Affidavits executed by individuals should be signed by at least two persons, and should also include, to the extent deemed necessary, information regarding the sponsors' income, resources, obligations, and expenses; the plans and arrangements made for the applicant's support; and personal data concerning the sponsor (permanent address, nationality status, number of persons dependent upon him for support, etc.). The affidavit must be supported by sufficient

corroboratory evidence (likewise in duplicate) to establish that the sponsor has sufficient financial resources to fulfill the obligation undertaken. This evidence may be in the form of certified copies of the latest income tax returns; affidavits from an employer showing the employee's salary and the length and permanency of employment; reports of a commercial rating concern regarding an individual or his business; affidavits from an officer of a bank regarding a depositor's account, showing the date the account was opened, the present balance, and its accumulation by small or lump-sum deposite. (The requirements for affidavits executed by well-known and reputable organizations and institutions may be modified in accordance with individual circumstances, but must include the guarantee concerning the applicant's departure from the United States and must clearly state the exact nature and extent of the obligation assumed.) More detailed information concerning the form of affidavits of support may be obtained if necessary by the applicant from the American Consular Service, Yokohama, or by the sponsor in the United States from the nearest office of the United States Immigration and Naturalization Service.

(b) Evidence of grants of scholarships should also be in duplicate and should be specific concerning the amount and duration of the scholarships.

(c) If it will be necessary for a student to accept employment in the United States, he may do so provided the employment will not interfere with his pursuance of a full course of studies in day classes. Arrangements for such employment must be made prior to submitting his application, as during his stay in the United States he will be permitted to accept only such employment as specified in his visa or may be later, specifically and exceptionally, authorized. Affidavits from prospective employers in the United States should be presented in duplicate and should include specific details concerning the nature and hours of work and remuneration therefor.

(d) There should be included in the affidavit of support, or in a separate statement made by the applicant and/or sponsor, an estimate showing his annual expenses in specific detail and indicating the sources of income from which sufficient funds will be obtained to meet such expenses.

3. Two certified extracts from family register (Koseki-shohon), with two English translations thereof, showing place and date of birth.

4. Two copies, with two English translations, of a certificate from local Japanese authorities showing whether applicant has ever been arrested or imprisoned or has had military service, and giving full details concerning any such arrest, imprisonment, or military service.

5. Six passport-style photographs.

6. A personal history statment in triplicate, giving full curriculum vitae. This statement should be prepared in accordance with form provided by the Japanese Foreign Office (Room 323, NISSAN BUILDING, Tokyo).

Mr. Miyoshi's Address

Mr. Miyoshi spoke on his itinerary, impressions of farming and farm life in the United States, pointed out differences between agricultural conditions and methods of America and Japan, suggested reforms that Japanese farmers could make, and finally brought messages from American Japanese to the Japanese farm populace.

Comment

Audience reaction to Mr. Miyoshi's talks was in each instance excellent. The audience listened intently and showed great interest. In Kotohira many people took notes and made sketches of many

of the large poster-panel exhibits.

As a farm man, his appeal to elderly and young agricultural people, alike, was very great. He benefitted fully by his trip to America and his sharing of his information and experience with Japanese farm people will win much good will for America.

MI/TA

Major Activities made during Nov.

As for November, just as it had been in the past, an itinerant trip for picture showing was made all around this prefecture on city and gun level with films allocated beforehand. Although on account of the fact that the occasion fell on the busiest season of general farmers, some of the towns and villages were left untouched. Major activities taken during this month are as follows:

1. Picture Showing for National Sanatoria.

Held at Ohshima Seishoen, on 2 Nov.

" Takamatsu T.B. Hospital, on 3 Nov.

Each beginning at 6.00 p.m.

2. Kansai District Inter-school Conference on Audio-Vusual Education.

Place: Kameoka Primary School, Takamatsu-shi.

Date : On 17 and 18, Nov.

Lecturers: Messrs. Murakami and Yaguchi, National Educational Research Institute, Tokyo.

Participants: 60 teachers from outside of Kagawa Prefecture.

700 persons interested from within the Prefecture.

Evaluation : Appreciated much by the audience.

3. Regular meeting of Audio-Visual Education Specialists Committee for the month of November.

Place: Council room, Kagawa-Ken School Board.

Date : 21 Nov., from 1 p.m.

Matters taken up: Reflecting over the outcomes of the Kansai District Interschool Conference on Audio-Visual Education, worked out future programs.

4. Regular meeting of Intra-Prefectural Liaison Concil on Audio-Visual Education for the month of November.

Place: Council room, Kagawa Prefectural Office.

Date : 25 Nov., from 10 a.m.

Attendance: 13 officials representing 7 sections.

Matters : Had a preview of CIE films.
Conferred on the ways and the future plans for utilizing school accessories to the utmost extent.

5. Amateur paper-picture show (Kamishibai) concour.
The non-professional "Kamishibai" contest was staged at the Takamatsu Public Hall on Nov. 22 as the first occasion of this sort of contest in this prefecture. Twenty-nine amateur showers, much more than previously expected, took part in the contest for their techniques of showing with the pictures of their own producing. Judgments were given by the members of the Audio-visual Specialist Committee and the 5 members of the "Kamishibai" Research Committee, the chairmanship of which was taken by Mr. Akio Saki, nationally famous expert in "kamishibai", who had been invited for this purpose all the way from Tokyo. As the result, the winners ——two entries each, for the first, second, and thrid prizes, respectively—— were awarded with the honorary certificates and prize money, with 5 entries recommended as runner-ups simultaniously. The occasion attracted around 200 citizens.

6. Training course on the techniques of preparing and showing of marionettes.
In an effort to promote the general understanding of the marionette show, Mr. Shunjiro Yamamoto, expert

in this field was invited from Kochi Prefecture. The training Courses were given by him for 40 and 60 attendants at Kannonji-cho and Takamatsu-shi, on 29 and 30 Nov., respectively. The trainees were so earnest that they expressed their desire to have another occasion of this periodically.

7. Special picture showing.

In accordance with the suggestion of Shikoku C.A. Region, we made visits to the Zentsuji branch of the National Police Reserve Force to have special picture showings for the personnel there, which has taken place five times so far on 20, 22, 24, 27 and 29, Nov.

Besides, a special picture showing was made at "Chiyoda" Bldg, Takamatsu-shi on Nov. 3 in commemoration of the "Justice Day", and another at Sakamoto-mura, Ayauta-gun on Nov. 29 as part of adult education activities.

8. We sent a Natco (No.23) to Sakaide-shi to be used exclusively by the city as they have hitherto been using one commonly between Sakaide-shi and Marugame-shi.
