DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

TO : GENERAL HEADQUARTERS, SUPREME COMMANDER FOR THE ALLIED POWERS.

FROM : Reparations Agency, Tokyo.

SUBJECT: Application for Authorized Use of Reparations Equipment Filed by Honsha Plant, Kanazawa Sangyo Co., Ltd., (Code No. 15-02).

R.A.R. No. 276 (MS) 4 April 1950.

1. The Reparations Agency hereby submits to your Headquarters an application for authorized use of 4 sets of reparations equipment now lying idle or in "temporary operation" filed by the Honsha Plant, Kanazawa Sangyo Co., Ltd., (Code No. 15-02) together with an application of the Ministry of International Trade and Industry, as enclosed herewith.

2. As stated in detail in the explanatory note attached hereto, the said plants has been engaged in the production of auto-bus bodies with the reconversion permission by GHQ. and it now wishes to use 1 set of idle reparations equipment as "authorized use" in order to increase its production amount, and at the same time, it is desired that 3 sets of reparations equipment now under "temporary operation", which was permitted by the Ishikawa Civil Affair's Team, be replaced into the formal "authorized use" by your Headquarters.

3. It is requested that your most favorable consideration be given to this application at the earliest practicable date.

(Y. Katsumo)
Director, Reparations Division,
Reparations Agency.

ISHIKAWA PREFECTURAL GOVERNMENT

No.E-9 9 Dec. 1949

1832

SUBJECT: Application for permission of utilizing reperation machineries.

TO : Supreme Commander for Allied Powers, GHQ.

THRU : International Trade & Industry Minister.

The Head Plant of Kanazawa Sangyo K.K. (Code No. 15-2, Location: 688, Kita Yasue-cho, Kanazawa-shi) submitted as application for permission of utilization of reparation machineries as per enclosed herewith. As the result of investigation of the cercumstances by the prefectural authorities, it is considered indispensable for rationalization of the productive efficiency of the plant as undermentioned, and is cordially requested to be given permission thereof.

1. Milling machine (Code No. 15-2-76)

It is planned to attach a special appliance to the table of this machine and use it for processing grooves on the metal strip at the junction of the outer plate of a bus body as a substitute of groove-forming machine.

The metal strip is a steel sheet 0.8 mm thick, 6 feet long and 1.2 feet wide, and about 65 strips are required for monthly production of 10 bus bodies. The average working rate per month is 60%.

There are no idle groove-forming machines it this plant, being used to full capacity. To purchase more machines anew it requires so much found that it would be a great burden to this plant in depressing condition of business now. It is the reason why this machine is desired as a substitute.

2. Bending machine (Code No. 15-2-43)

This is used for forming the top and side plates of the bus-body, processing 160 steel plates 2 mm thick, 6 feet long and 3 feet wide required for monthly production of 10 bus bodies in average. The average working rate is 90%.

3. Hand press (Code No. 15-2-156)

This is used for forming the angle bar used as the frame of the top of a bus body.

It is one of two hand presses that are used for processing 160 angle bars required for monthly average production of 10 bus bodies.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

The Average working rate is 80%. This processing was made sometimes by outside orders before. But it is now utilized to process it for the plant itself for the purpose of lowering the cost.

4. Groove-forming machine (Code No. 15-2-195)

This is used for forming grooves on the metal strip connecting the members of a bus body frame. It is difficult to process plates thicker than 0.8 mm by the machine described in Paragraph 1, so that this machine is used for that purpose. The connecting strip is an essential part for giving durability and rigidity to the bus body. Hitherto a grooved strip and groove plate have been used together. While, it is planned to improve the quality and lower the cost thru simplification of the process and increase of rigidity in forming two grooves simultaneously on a metal strip by using this machine.

5. The reparation machineries described in Paragraph 1 thru 3 are now in actual operation, getting authorized to be used temporarily until Jan. 1 next year.

6. The machine described in Paragraph 4 is now kept in No.4 Building with some other idle machines, and it is aditionally requested to be authorized to remove the above machine to the working place in No.3 Building for its utilization.

7. The above 4 machines and others were found in good repair.

BY ORDER OF GOVERNOR

/S/
Masao Harima
Chief of Commerce and
Industry Section,
Ishikawa Pref. Gov't.

ISHIKAWA PREFECTURAL GOVERNMENT
(Liaison Section)
Kanazawa, Honshu

30 November 1949

No. E-5

SUBJECT: Application for Permission of Temporary Utilization of Reparations Machinery.

TO : Commanding Officer,
Tokai-Hokuriku Civil Affairs Region,
APO 301, Nagoya, Japan.
(Attn: Commerce and Industry Section)

THRU : Tokai-Hokuriku Liaison and Coordination Office.

The Honsha Plant of the Kanazawa Sangyo Kabushiki Kaisha (Code number, 15-2; Location, 688 Kita Yasue-cho, Kanazawa-shi) submitted an application for permission of temporary utilization of reparations machinery as herewith enclosed. After duly investigating the circumstances the Prefectural Government considers that the machinery is indispensable for the improvement of the productive efficiency of the plant as explained below, and requests that the permission be given.

1. One milling machine (Code number 15-2-76)

It is intended to install a special attachment upon the table of this machine and use it for producing grooves on the metal strip at the junction of the outer plate of a bus body. It is to serve as a substitute for a regular grooving machine.

The metal strip is a steel sheet 0.8 millimeters thick, 6 feet long and 1.2 feet wide, and about 65 strips are required for the monthly production of 10 bus bodies. The average working rate for the month is to be 60%.

2. One hand press (Code number 15-2-156)

This machine is to be used for forming the angle bar used as the frame of the top of the bus body.

It is one of the two hand presses that are in use for processing the 160 angle bars required for the monthly production of 10 bus bodies. The average working rate is 80%. Most of this particular processing was formerly performed by subcontract.

APPROVED
E. F. Jouard by G. Yamanouchi
E. F. Jouard DAC
Economics Div. THCAR
Date 2 Dec. '49
Temporary use till 1 Jan. '50
non-renewable

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

3. One bending machine (Code number 15-2-43)

This machine is to be used for forming the top and side plates of the bus body, processing 160 steel plates 2 millimeters thick, 6 feet long and 3 feet wide required for the monthly production of 10 bus bodies. The average working rate is 90%.

4. One bending machine (Code number 15-2-195)

This machine is to be used for forming channels on the metal strip connecting the members of the bus body frame. It is difficult to process plates thicker than 0.8 millimeters by the machine described in Paragraph 1, and this machine is to be used for that purpose. The connecting strip is an important part for giving durability and rigidity to the bus body. Hitherto one channeled strip and one channel plate were used together. Lowering of cost and improvement of the product will result thru the simplification of the process and increase of rigidity to be realized by the use of this machine.

5. The reparations machinery described in Paragraphs 1 thru 3 is in actual operation now under the permission for temporary utilization given by the Ishikawa Civil Affairs Team.

6. The machine described in Paragraph 4 is now stored in Building No. 4 together with some other idle machines, and is to be operated in Building No. 3 when the permission has been obtained 7. The four machines and others were found to be in good repair.

BY ORDER OF GOVERNOR.

Masao Harima

SUBJECT: Release of Unused Land and Buildings Listed for Reparations

THRU: Commanding Officer
Tokai-Hokuriku Civil Affairs Region
APO 710

TO: Commanding General
Headquarters I Corps
APO 301
ATTENTION: Civil Affairs Section

1. In compliance with directive, Headquarters I Corps, AG 602 BA 25 September 1947, subject: "Release of Equipment from Military and Naval Arsenals, Laboratories, Air Craft and Munitions Plants Listed for Reparations," the attached application submitted by Kanazawa Sangyo K.K. 15-2 is herewith submitted.

2. This office recommends approval on the release of unused land and buildings not used for the custody and control of reparations equipment as outlined in the enclosed plant layout. Protection, maintenance and preservation can be more satisfactorily accomplished in area "D" (enclosed application, plant layout).

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

SUBJECT ; Application for Permission to release a part of land, part of building & land, and selling a part of building

TO ; Commanding Officer, Ishikawa Military Government Team

THRU ; Commerce & Industry Section, Ishikawa Prefecture Government

FROM ; Kanazawa Sangyo Kabushiki Kaisha, Honsha Plant

DATE ; 1 June, 1949

1. Name of Applicant, Kanazawa Sangyo K. K., Honsha Plant

2. Address of Applicant, No.688 Kitayasue-cho, Kanazawa

3. We apply for your permission as follows

A. With regard to the application for permission to release a part of land

We bought the land during the war for the purpose of building more plants. Before then it had been cultivated and yielded a good harvest. After the war, of course, we gave up our intention of building plants there and let farmers cultivate it again. So we think it proper to release the land.

As the land in question is located out of the enclosure of our plants. We think it has nothing whatever to do with the reparation machines.

Location			Dimensions	
693	Kitayasue-cho,	Kanazawa	257	bu
694	"	"	257	"
695	"	"	241	"

657	"	"	257	"
658	"	"	249	"
659	"	"	126	"
Total			2,877	"

B. With regard to the application for permission to release part of building and land

We bought the land and built the building during the war but we do not expect to use them in future at all.
The building is weak in structure, as it was built of poor materials because of shortage of materials and labourers of construction during war. It has history of collapse two times -- one time by a strong wind during war and the other time by the

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

weight of snow on the roof after war. It needs urgent repair even now, for we are afraid it will be fallen down if it snows more than 40 inches high but we are sorry we have no funds to repair it and we think it best means to trust it to other company.

This time we have decided to lend it to the Ishikawaken Fishing-net Trading Co., Ltd. after your permission. The company will soon begin to repair it and make use of it for the purpose of manufacturing fishing-net and of the land for building more plants. Moreover, if this application is permitted we are very convenient as to the custody and guard of reparation machinery as the sphere of guard becomes very narrow.

The principal business of the Ishikawaken Fishing-net Co., Ltd. is manufacturing fishing-net and export of the products to foreign countries. As you know, Ishikawa prefecture is noted for a fishing-net manufacturing prefecture in Japan. The private exportation of Fishing-net and twisting yarn to be used for fishing-net was permitted at the quantity of 200,000 pounds a month from January this year and the company have decided to do their utmost efforts in producing fishing-net better in quality as well as quantity and in exportation to meet the Nine-point Economic Stabilization Program by making use of the building and land.

After your permission, of course, we intend to construct a fence as shown by a red line on the outline sketch attached behind to safeguard reparation machinery.

	660-665	"	"	3005 tsubo
Building	660-661	"	"	336 "

C. With regard to the application for permission to selling a part of our building

The building which we have used for ware-house, was breaked almost part of roof, 6 Mar. 1949 by strong wind. The building is weak in structure, as it was built of poor materials because of shortage of materials and labourers of construction during war. We do not expect to used them in future at all. This time we have decided to sell it to others after your permission.

Location	Dimensions
No.688 Kitayasue-cho, Kanazawa	20 tsubo

D. With regard to the application for permission to release part of building and land

We are doing our utmost efforts to keep custody of machinery and many buildings for reparation in wide land. In view of completing our custody duty, if this application is permitted, we are very convenient as to the custody and guard

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

of reparation machinery as the sphere of guard becomes very narrow.

We should be very much oblized if this application would meet your approval.

After your permission, we intend to construct a fence as shown by a red line on the outline sketch attached behind., in order to safeguard reparation machinery, of course, we intend to move a reparation machineries to No.4 building and E X machineries to No.3 No.7 buildings from No.5 No.6 buildings

FROM ; Honsha Plant, Kanazawa Sangyo K. K.

DATE ; 26 May, 1949

1. Name of Applicant, Honsha Plant, Kanazawa Sangyo K. K.

2. Address of Applicant, No.688 Kitayasue-cho, Kanazawa

3. Machine we hope to temporary use

Code No.	Name	Dimension	Maker
15 - 2 - 43	Bending Machine	Max. thickness of work stock 2 m/m	Unknown

4. Period we want to temporary use

During three month from the day if this application will be permitted

5. Reason

We are making efforts in manufacturing auto-bus bodies. But we have one bending machine only at present. Which is so small that we are in great embarrassement as to increase in efficiency. We should be much oblised if you would kindly permit us to temporary use the machine mentioned above. It will contribute to overcome the bottlenecks from which we are suffering.

2. Adress of Applicant; No.688 Kitayasue-cho, Kanazawa

3. Machines we apply to install

a. Drilling Machine — Dimension: 1.3 meters — Maker: unknown — Quantity: 1

Use
For the use of drilling extended frames of auto-bus bodies

b. Shearing Machine — Dimension: 1 meter — Maker: Nomn Tekkosho — Quantity: 1

Use
For the use of cutting iron plates to be used for roofs and walls of auto-bus bodies

c. Grinding Machine — Dimension: 0.65 meters — Maker: Towa Dendo-Kogu Seizosho — Quantity: 1

Use
For the use of grinding window-fram and miscellaneous tools

d. Mechanical Press — Dimension: 50 ton — Maker: Osaka Seiko Ishihara-Kojo — Quantity: 1

Use
For the use of cutting or bending of outriggers of auto-bus bodies

e. Shaper — Dimension: 1.65 meters — Maker: Mizutani Tekkosho — Quantity: 1

Use
For the use of making various kinds of parts of auto-bus bodies

f. Milling Machine — Dimension: 1 meter — Maker: Okawa Kikaiten — Quantity: 1

Use
For the use of making various kinds of parts of auto-bus bodies

g. Motor — Dimension: 200 V. 5 H.P. — Maker: Nakajima Electric Manufacturing Co. — Quantity: 1

Use
For the use of driving the machines mentioned above

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

4. Reason of installation

We are now making our utmost efforts in manufacturing of better auto-bus bodies. In order to make increase more efficiency, we are in necessity of installing these machines.

We should be much obliged if you would kindly understand our intention and give us immediate permission of installing the machines mentioned above.

Subject ; Application for permission to release a part of our land

To ; The commander of the Ishikawa Military Government Team

From ; Honsha Plant, Kanazawa Sangyo K. K.

Date ; Dec. 23, 1948

The application as to above subject is hereby submitted as follows ;

1. Name of Applicant ; Honsha plant, Kanazawa Sangyo K. K.

2. Adress of applicant ; No.688 Kitayasue-cho, Kanazawa

3. Location and dimensions of the land we apply for permission to release ;

Location			Dimensions
693	Kitayasue-cho,	Kanazawa	257 bu
694	"	"	257 "
695	"	"	241 "
700 - 1	"	"	726 "
654	"	"	250 "
655	"	"	257 "
656	"	"	257 "
657	"	"	257 "
658	"	"	249 "
659	"	"	126 "
Total			2,877 bu

4. Reason ;

We bought the land during the war for the purpose of building more plants there. Before then it had been cultivated and yielded a good harvest. After the war, of course, we gave up our intention of building plants there and let farmer cultivate it again. So we think it proper to release the land.

As the land in question is located out of the enclosure of our plants, we think it has nothing whatever to do with the reparation machines.

5. Attaching sheet ;

Outline sketch showing the location of the land question

6. Signature ;

Signed ; Rikichi Takata

Title ; Chief of Honsha Plant.

File 15-2

HEADQUARTERS
ISHIKAWA MILITARY GOVERNMENT TEAM
APO 301 (Kanazawa, Honshu)

11 October 1948

SUBJECT: Permission Granted to Install Manual Press

THRU: Japanese Liaison Office, Ishikawa-ken

TO: Kanazawa Sangyo K.K.
Honsha Plant, Code No. 15-2
No. 688 Kitayasue-cho, Kanazawa-shi

1. You are hereby notified that your application for permission to install one (1) (non reparations) manual press has been approved.

2. The subject machine will be marked "EX" to indicate that it is an exempt machine.

3. This does not authorize the use of any additional reparations machinery.

FOR THE COMMANDING OFFICER:

JOSEPH D. GILMORE
Major, FA
Economics Officer

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

SUBJECT ; Application for permission of installation of machine

TO ; Headquarters, Ishikawa Military Government Team

NAME & ADDRESS OF APPLICANT ;

Honsha Plant, Kanazawa Sangyo K.K. 15 - 2

No.688 Kitayasue-cho, Kanazawa

DATE ; 2 Oct. 1948

1. Name of Applicant ; Honsha Plant, Kanazawa Sangyo K.K.
2. Address of Applicant ; No.688 Kitayasue-cho, Kanazawa
3. Machine we apply to install

Kind	Number	Dimensions	Maker	Use
Manual press	1	Stroke 150 m.m. Size of table 300X350m.m.	Unknown	aluminium plate working for auto-bus body

4. Reason

Our principal products are auto-bus bodies. Ever since we have used one manual press to manufacture small parts of auto-bus body. For the point of effisiency we want to use two manual presses. This is the reason necessitating the application.
