34-42 Owada Plant Chugai Kakohin KK

This is an idle plant and 198 items are under reparation custody. They are stored in one building except 22 items located in the adjoining area formerly occupied by 1st Cav. 27 Ord. Com.,where only a few members of "8A-8013" stay.

Maintenance of reparation machine and equipment is good and the custody is satisfactory.

22 items including 7 items inventoried on OD 5/4 are in use in the Occupied Area. These are being used by Allied Powers but are treated as "Temporary Use" At the same time on the same P.D. issued as of 7 June 1949, the building that is storing all the rest of reparation items to was requested. The occupant was so strongly required to empty the building, the company applied and approved for the removal of all items in the building.

This application was made at the understanding with S.P.B that the expense for removal of machines will be defrayed from PD budget. Therefore company has been waiting the budget. But now according to the occurring of the Korean War, the 1st Cav. 27 Ord. Com. removed and now "8A-8013" took the place.

The unit has only a few men the area, then the company is wondering if the emptying of the house and removal of those authorized items is still needed.

Company applied for scrapping 10 reparation items , of following number, Several days ago.

On the application those machines were checked and by Mr. Smida.
