## Social Security Bulletin

## Annual Statistical Supplement, 1987

SSA DOCS

## Foreword

Over the years, the Annual Statistical Supplement to the Social Security
Bulletin has proved to be an unequaled resource for information on the Natimon's social insurance and social welfare programs. Each edition has included statistical tables and program descriptions that constitute the single most detailed and comprehensive compendium of data on such programs in this country.
?
For most persons, the phrase "social security" is recognized as representing the program of Old-Age, Survivors, and Disability Insurance (OASDI) that is administered by the Social Security Administration (SSA). However, in its broadest sense, the phrase represents the OASDI program and all the other social insurance and social welfare programs administered by Federal, State, and local agencies throughout the United States. Included among these programs are Medicare and Medicaid, Unemployment Insurance, Workers' Compensation, temporary disability insurance, veterans' benefits, public employee programs, Railroad Retirement benefits, Supplemental Security Income, Aid to Families with Dependent Children, Food Stamps, Low-Income Energy Assistance, and General Assistance. Data on each of these programs are found in the Supplement.

Preparation of this annual volume represents an extensive cooperative efffort on the part of numerous individuals and components within the Social Security Administration as well as from offices outside of SSA. Within SSA, members of the Supplement Committee (whose names are listed on the next page and on the tables) for which they have primary responsibility) maintain ongoing contact with individuals who provide them with data from the Departments of Health and Human Services, Agriculture, Commerce, Labor, and Treasury, and from such agencies as the Railroad Retirement Board and the Veterans Administration. These individual contacts, in turn, are provided data by their sources in such organizations as State and local government agencies.

Administrative data used by various agencies in the management of their programs are the source of much of the information presented in the statistical tables of the Supplement. Survey data are used as a source of data not available through such administrative records. For the most part, the information in the current edition is data either for December 1986 or, where applicable, for calendar year 1986. However, because of the complexity of the data-gathering procedures, some tables are limited to data for prior years. Both the program descriptions and the glossary have been updated to reflect the laws in effect in the fall of 1987.

Through publication of this volume, I hope that we provide the informatimon and statistical data necessary for a better understanding of the Nation's social insurance and social welfare programs as they continue to evolve in a strong and positive direction.

Dorcas R. Hardy

# Old-Age, Survivors, and Disability Insurance, 1987 

 SummaryThe Old-Age, Survivors, and Disability Insurance (OASDI) program provides monthly benefits to retired and disabled workers and their dependents and to survivors of insured workers. Retirement benefits were provided by the original Social Security Act of 1935, benefits for dependents and survivors by the 1939 amendments, benefits for the disabled by the 1956 amendments, and benefits for the dependents of disabled workers by the 1958 amendments. (For a description of the Health Insurance program, generally known as Medicare, see the Health Care Programs section, page 34.)

A person builds protection under the OASDI program through work in employment covered under Social Security. Coverage is in general compulsory. Taxes on wage and salary workers' earnings up to a statutory maximum taxable amount each year are withheld and matched by employers. Selfemployed persons pay taxes on their annual earnings up to the same maximum as employees but at the combined employeremployee rate. A temporary income tax credit, equal to 2.0 percent of earnings from self-employment, reduces the effective self-employment tax rate. After 1989, when this tax credit expires, special provisions will treat the self-employed in much the same manner as employees and employers are treated for Social Security and income tax purposes. While taxes of workers with more than one employer are withheld and matched up to the annual maximum by each employer, the employee's share of taxes on total wages above the maximum is refundable through the income tax system. All taxes are credited to the OASI and DI Trust Funds, which by law may be used only to meet the cost of: (1) Monthly benefits when the worker retires, dies, or becomes disabled; (2) vocational rehabilitation services when disability benefits are being received; and (3) administrative expenses.

## OASDI Monthly Benefits

Monthly benefits are paid as a matter of earned right to workers who gain insured status and to their eligible spouses and children and survivors. Fully insured status qualifies a worker and family for almost all benefit types on the basis of Social Security earnings credits. A worker who dies without being fully insured may be currently insured, and his or her children and their widowed mother or father would thus qualify for benefits. "Insured in event of disability" status is required to qualify for a disabled-worker benefit or to establish a period of disability. A lump-sum death payment may also be payable on the death of a fully or currently insured worker. Certain persons born before January 2, 1900, who do not meet fully insured-status requirements can qualify for small, fixed-rate benefits under special transitional provisions.

Benefits are related to past earnings with two exceptions: (1) Fixed-rate "special age-72" benefits payable to certain persons born before January 2, 1900, and (2) "special minimum" benefits, based on number of years with specified minimum amounts of covered earnings, for workers with low earnings but long attachment to the labor force.

The amount of a monthly benefit award is determined by first computing an insured worker's average monthly wage (AMW) or -in the case of most workers who attain age 62, become disabled, or die after 1978-average indexed monthly earnings (AlME). The AMW or AIME is then linked (by a table in the law and by a formula, respectively) to the monthly benefit payable at age 65-called the primary insurance amount (P1A). For persons with a very low AMW or AlME who reached age 62, became disabled or died before 1982, a minimum PIA is applicable. Benefits for dependents and survivors are calculated as a percentage of the insured worker's PIA but are subject to proportional reduction to conform to a family maximum amount stated in the law. Benefits payable to retired workers, spouses, widows, and widowers who elect benefits before age 65 are subject to an actuarial reduction. The age at which unreduced benefits are paid will gradually increase from age 65 to age 67 after the year 2000 .

Benefits are subject to an earnings or retirement test, under which part or all of benefit payments are withheld when earnings of a beneficiary under age 70 exceed the amount specified in the law (see table B).

Monthly benefits are financed principally through contributions from employers, employees, and the self-employed. The trust funds also receive income through: Federal general revenues to finance the cost of benefits attributable to military and other gratuitous wage credits; Federal general revenues to finance the cost of "special age- 72 " benefits; revenues arising from the inclusion of part of Social Security benefits in adjusted gross income for Federal income tax purposes beginning in 1984; and interest on the investment of Federal general revenues that are not needed to meet current program expenses. This program is administered by the Social Security Administration.

## Special Provisions for Railroad Retirement Beneficiaries

At the end of 1986, an estimated 52,000 Railroad Retirement beneficiaries would have been eligible for Social Security benefits had they applied. These persons received their Social Security benefits as part of their Railroad Retirement annuity and are not included in the OASDI tabulations. Of these beneficiaries, an estimated 27,000 were retired workers, 5,000 were disabled workers, and 20,000 were spouses and children.

The Railroad Retirement Act of 1974, effective January 1, 1975, provided that the regular annuity for employees with 10 or more years of railroad service who retired after December 31, 1974, will consist of two components:

Tier 1-A basic Social Security level component equivalent to what would be paid under the Social Security Act on the basis of the employee's combined railroad and nonrailroad service, reduced by the amount of any monthly benefit under OASD1 actually paid on the basis of mom nit. . . ...l and

Tier 2-A staff level component payable over and abọve the Social Security equivalent, on the basis of a formula applicable only to railroad service.

Since the receipt of a Social Security benefit would reduce
the Railroad Retirement benefit by a like amount, many of these retirees have not applied for a Social Security benefit. The number of such persons is estimated to have grown slowly at first-1,000 in 1977, 4,000 in 1979—but to have reached levels of 40,000 in 1980 and 52,000 in 1986 as Railroad Retirement beneficiaries became aware of the provision.

# History of the Provisions of the Old-Age, Survivors, and Disability Insurance Program* 

## Employment Covered

[Unless otherwise noted, coverage begins on the first of January following the passage of the Act; for the self-employed, coverage begins<br>at the beginning of the taxable year following the passagel

## Compulsory

1935 All workers in commerce and industry (except railroads) under age 65 in continental United States, Alaska, and Hawaii. (Covered after 1936.)

1939 Age restriction eliminated.
1946 Railroad and Social Security earnings combined to determine eligibility for and amount of survivor benefits.

1950 Regularly employed farm and domestic workers. Nonfarm self-employed (except members of professional groups). Federal civilian employees not under a Federal retirement system. U.S. citizens employed outside the United States by American employers. Workers in Puerto Rico and the Virgin Islands.

1951 Railroad workers with less than 10 years of service, for all benefits. (After October 1951, coverage is retroactive to 1937.)

1954 Farm self-employed. Professional self-employed except lawyers, dentists, physicians, and members of other medical groups (taxable year ending after 1954). Additional regularly employed farm and domestic workers. Homeworkers.

1956 Members of the uniformed services. Remainder of professional self-employed except physicians (taxable year ending after 1955). Farm landlords who materially participate in farm operations.

1960
U.S. citizens employed in United States by foreign governments or international organizations. Parents working for children (except domestic or casual labor). Workers in Guam and American Samoa.

[^5]
## Act

1965 Interns. Self-employed physicians (taxable year ending on or after Dec. 31, 1965). Tips for employee tax only.

1967 Ministers and members of religious orders not under a vow of poverty (unless exemption is claimed on grounds of conscience or religious principles). Taxable year ending after 1967.

1982 Federal employees-Hospital Insurance program only.
1983 Federal employees (except reemployed annuitants) hired on or after Jan. 1, 1984, including executive, legislative, and judicial branch employees and including those with previous periods of Federal service if the break in service lasted more than 365 days.

Legislative branch employees hired before 1984 who were not participating in the Civil Service Retirement System on Dec. 31, 1983.

Members of Congress, the President, the Vice-President, Federal judges, and most executive-level political appointees of the Federal Government.

Employees of nonprofit organizations.
U.S. residents enployed outside the United States by American employers.

1984 Rehired Federal employees whose previous service was covered.

Persons exercising reemployment rights to noncovered Federal employment retain exemption after a period (not limited to 365 or fewer days) of military or national guard service or work for an international organization.

Generally, all legislative branch employees except those who were participating on Dec. 31, 1983, and are also currently participating in the Civil Service Retirement System or another Federal retirement system.

Employees of nonprofit organizations who are also participating on a mandatory basis in the Civil Service Retirement System are treated like Federal employees
for Social Security tax and coverage purposes. They are therefore not covered unless hired on or after Jan. 1, 1984, or reemployed after a break in service of more than 365 days.

1986 Noncovered State and local government employees hired on or after Apr. 1, 1986-Hospital Insurance program only.

## Elective by Employer

State and local government employees not under a State or local government retirement system. Termination permitted 2 years after giving notice if group has 5 years of coverage when notice is given.
U.S. citizens employed outside the United States by a foreign subsidiary of an American employer.

1972b Members of a religious order who are subject to a vow of poverty. Retroactivity allowed for 5 years but not earlier than Jan. 1, 1968.

1983 U.S. citizens and residents employed outside the United States by a foreign affiliate of an American employer.

States prohibited from terminating coverage of employees and permitted to reinstate coverage for a terminated group.
Churches or church-related organizations may elect irrevocably to have services performed by their employees excluded from covered employment. Their employees are then treated as self-employed for Social Security purposes.

## Elective by Employer and Employee

1950 Employees (other than members of the clergy) of nonprofit organizations (upon election by employer, each current employee given a choice as to coverage, new employees are covered). Nonprofit organizations permitted to terminate coverage 2 years after giving notice, if the organization has 8 years of coverage when notice is given.

1954 State and local government employees (except fire fighters and police personnel) under a State or local government retirement system (coverage provided at State's option, a majority of the eligible employees must vote in favor). See above (elective by employer, 1950) for termination rule.

1956 Fire fighters and police personnel in designated States. State and local government employees under the State or local government retirement system in designated States may be divided into two systems, one excluding employees not desiring coverage (new employees covered).

1967 Fire fighters under State or local government retirement system.

1983 Employees of nonprofit organizations placed under compulsory coverage; nonprofit organizations prohibited from terminating coverage of their employees on or after Mar. 31, 1983.

States prohibited from terminating coverage of employees and permitted to reinstate coverage for a terminated group.

## Elective by Individual

1954 Members of the clergy and of religious orders not under a vow of poverty.

1965 Members of certain religious sects may obtain exemptions from self-employment coverage (retroactive to 1951).

1967 Members of the clergy and of religious orders not under a vow of poverty are covered automatically, but they can choose to be exempt on grounds of conscience or religious principles.

1977 Members of the clergy and of religious orders who filed an application for exemption from coverage may revoke the exemption if the revocation is filed before the due date of the individual's Federal income tax return for the first taxable year beginning after Dec. 20, 1977.

1986 Members of the clergy and of religious orders who filed an application for exemption from coverage may revoke the exemption if the revocation is filed before the due date of the individual's Federal income tax return for the first taxable year beginning after Oct. 22, 1986.

## Noncontributory Wage Credits

1946 Fully insured status and average monthly wage of $\$ 160$ for World War II veterans who died within 3 years after discharge.

1950 Wage credits of $\$ 160$ per month of military service during World War II (Sept. 16, 1940, to July 24, 1947).

1952 Same military wage credits to Dec. 31, 1953.
1953 Same military wage credits to June 30, 1955.
1955 Same military wage credits to Mar. 31, 1956.
1956 Same military wage credits to Dec. 31, 1956.

1967 For uniformed services, wage credits of $\$ 100$ for each $\$ 100$ (or fraction thereof) of basic pay not in excess of $\$ 300$ per quarter, beginning 1968.

1972b For uniformed services, wage credits of $\$ 300$ per calendar quarter of service after 1956. (Supersedes 1967 provision.) For U.S. citizens of Japanese ancestry,
wage credits for the period they were interned by the U.S. Government during World War II (Dec. 7, 1941, to Dec. 31,1946 ) and were aged 18 or older.

1977 For uniformed services, additional wage credits of $\$ 100$ for each full $\$ 300$ of basic pay up to maximum credit of $\$ 1,200$ per calendar year after 1977.

## Insured Status (Entitlement to Benefits)

Quarter of Coverage (QC)

Calendar quarter in which $\$ 50$ of wages is earned. Four QC are credited for covered earnings equal to maximum limitation for the year.

1946 Calendar quarter in which $\$ 50$ of wages is paid.
1950 Calendar quarter credited with $\$ 100$ of self-employment income (reported annually).

1954 Calendar quarter credited with $\$ 100$ of agricultural wages (reported annually).

1977 Calendar quarters of coverage (up to 4) for each \$250 of annual earnings, effective Jan. 1, 1978 (effective Jan. 1, 1979, dollar measure subject to automatic increase):
$\$ 260$, effective Jan. I, $1979 ;$
$\$ 290$, effective Jan. I, $1980 ;$
$\$ 310$, effective Jan. 1, $1981 ;$
$\$ 340$, effective Jan. 1, $1982 ;$
$\$ 370$, effective Jan. 1,$1983 ;$
$\$ 390$, effective Jan. 1, $1984 ;$
$\$ 410$, effective Jan. 1, $1985 ;$
$\$ 440$, effective Jan. 1, $1986 ;$
$\$ 460$, effective Jan. 1, $1987 ;$ and
$\$ 470$, effective Jan. 1, 1988

## Disability Definition

1954 Inability to engage in substantial gainful activity because of any medically determinable permanent physical or mental impairment.

1965 Disability lasting at least 12 months. For blind persons aged 55-64, inability to engage in usual occupation.

1967 Disability that precludes engagement in any substantial gainful work existing in the national economy. For surviving spouse, disability precludes any gainful activity.

## Period of Disability

1954 Continuous period of at least 6 months of disability as defined above or of blindness.

1972 b At least 5 months of disability.

## Fully Insured

1935 Cumulative wages of \$2,000 and employment in each of 5 years after 1936 and before attainment of age 65 .

1939 QC equal to one-half the quarters elapsed after 1936 (or quarter in which age 21 attained) and before quarter of death or attainment of age 65. Minimum 6 QC, maximum 40 QC.

Any person aged 55 or older on Jan. 1, 1984, and employed by a nonprofit organization for whose employee coverage is extended solely by reason of the new compulsory coverage provision will be deemed fully insured upon subsequently acquiring 6 QC if aged 60 or older on Jan. 1, 1984; 8 QC if aged 59 ; 12 QC if aged $58 ; 16$ QC if aged 57 ; and 20 QC if aged 55 or 56 .

## Currently Insured

Elapsed period measured after 1950 (QC earned at any time are used).

Period of disability excluded from elapsed period. Alternatively, QC earned in all quarters after 1954 and before quarter in which age 65 attained (minimum 6 QC).

Elapsed period measured to age 62 for women. Alternatively, QC earned in all except 4 quarters after 1954 and before quarter in which age 65 attained ( 62 for women).

QC reduced to $1 / 3$ the elapsed quarters.
QC equal to years elapsed after 1950 (or year age 21 attained) and before year of death or age 65 ( 62 for women).

Elapsed period for men reaching age 62 after 1972, measured to age 62 or to 1975 , if later.

6 QC earned in 12 quarters before quarter of death.
6 QC earned in preceding 13 quarters, including quarter of death.

Including quarter of retirement added.
Including quarter of disablement added.

## Disability Insured

20 QC earned in last 40 quarters, including quarter of disablement, and currently insured.

Fully insured requirement added.
Currently insured requirement eliminated.
Alternatively, 20 QC earned before quarter of disable-
ment (not necessarily in last 40 quarters) but QC earned in all quarters after 1950, with minimum of 6 such QC.

1965 Alternatively for blind under age 31, QC earned in onehalf the quarters elapsed after age 21 , with minimum of 6 such QC. For blind under age 24, 6 QC earned in preceding 3 years.

1967 For all disabled under age 31, same alternative.
1972 For blind, requirement for recent QC eliminated.
1983 For those who become disabled again at age 31 or older
and who were previously disabled before age 31 , same alternative as that for those disabled under age 31.

## Transitional Insured

1965 Same as fully insured, but minimum reduced to 3 QC .

## Requirement for Special Age-72 Monthly Benefit

3 QC for each year elapsed after 1966 and before attainment of age 72. (No QC if aged 72 before 1968.)

## Benefit Computation

## Average Monthly Wage (AMW)

1939 Computed using creditable earnings after 1936 and before year of death or retirement, divided by months after 1936 and before quarter of death or retirement, excluding months before age 22 in quarters not QC.

1950 Alternatively, computed using creditable earnings after 1950 (or year aged 21, if later) and before year of death, year of retirement or subsequent year, or year age 65 attained if then insured, divided by number of months in those years.

1954 Earnings and months in 4 years may be excluded in all cases; in 5 years if worker has 20 QC. Period of disability may be excluded.

1956 Earnings and months in 5 years may be excluded in all cases. Computation period may end at age 62 for women then insured.

1960 Earnings may be used for any year after 1950 and before year of retirement but including year of death, with the number of years equal to the years elapsed after 1955 (or year age 26 attained) and before year of death or age 65 attained ( 62 for women).

Same method may be used for earnings after 1936 and years elapsed after 1941.

1972b Number of years for men reaching age 62 after 1972, measured to age 62 or to 1975 , if later.

1977 For workers who attain age 62, become disabled, or die after 1978, excludes earnings in year of attainment of age 62 and later, computed using creditable earnings after 1936.

For workers who attain age 62 after 1978 and before 1984, excludes earnings in year of attainment of age 62 and later, computed using creditable earnings after 1950.

## Average Indexed Monthly Earnings (AIME)

1977 For workers who attain age 62, become disabled, or die after 1978, AIME is computed by using indexed earnings after 1950 for the same computation period applicable in calculating the AMW. Indexed earnings for a given year equal actual creditable earnings multiplied by average wages for the second year before worker attains age 62, becomes disabled, or dies, divided by average wages in a given year, except that for years after the second year before the worker attains age 62 , becomes disabled, or dies, indexed earnings equal actual creditable earnings.
1980 For disabled workers, the number of years of earnings used equals the number of years elapsed after 1950 (or year aged 21, if later) and before year of disability, minus dropout years equal to one-fifth of the number of elapsed years rounded to the next lower integer (to a maximum of 5 dropout years). However, the number of years of earnings used is at least 2. Effective for initial entitlement after June 1980.

Disabled workers who receive less than 3 dropout years under the one-fifth rule may be credited with additional dropout years based on child care, up to a total of 3 dropout years. (To receive this credit, a worker must have had no earnings in that year and have been living with a child under age 3.) However, the number of years of earnings used is at least 2. Effective for July 1981.

1983 For workers who die after 1978 but before attaining age 62 , indexed earnings for a given year can equal actual creditable earnings multiplied by the average wages for the earlier of (1) the year in which the worker reached or would have reached age 60 , or (2) the second year before the survivor becomes eligible for aged or disabled widow or widower benefits, and then divided by average wages in a given year. This computation method applies only if a higher benefit results. Effective for surviving spouses newly eligible after 1984.

Table A.1.-Formulas for computing primary insurance amount (PIA) ${ }^{1}$ from creditable earnings after 1936

'Old-age benefit under 1935 Act and primary insurance benefit (PIB) under 1939 Act. Effective for September 1950, the PIB became an intermediate step in benefit computations based on creditable earnings after 1936; a conversion table was introduced into the law for determining the PIA from the PIB. Each time a benefit increase becomes effective (see table A. 2 for benefit increases since 1950), a new conversion table incorporating the increase takes effect.

Under this computation method, a period of disability that began before 1951 is not taken into account. Earlier provisions remained in effect for workers who attained
age 21 after 1936 and before 1951 or for whom consideration of a period of disability that began before 1951 resulted in a higher PIA.
${ }^{3}$ Under this computation method, a period of disability that began before 1951 is not taken into account. The 1967 simplified old-start method remained in effect for workers with first eligibility before 1978. The pre-1967 old-start formula remained in effect only for workers, irrespective of date of first eligibility, for whom consideration of a period of disability that began before 1951 resulted in a higher PIA.

Table A.2.-Formulas for computing PIA from AMW based on earnings after 1950, and percentage increases in PIA
[Formulas apply, as of effective dates shown, to all benelits based on AMW alter 1950]

'Average increase in benefits of about $77 \%$-irom $100 \%$ at the lowest level to $50 \%$ at the highest level.

Increase of $12.5 \%$ or $\$ 5$, if latger.
${ }^{3}$ Average increase of about $13 \%$, with minimum increase of 55 .
Hncrease ol $7 \%$ or $\$ 3$. il larger.
Increase of $7 \%$ or 54 . il larger.
"Applied to first \$100 of AMW.
${ }^{7}$ Applied to next $\$ 200$ of AMW.
*Applied to next \$190 before 1955 and to next \$240 eflective lor January 1955.
"Elfective for January of following year.
"Provision for automatic cost-ol-living adjustments effective for January 1974.
"Increase of $5.9 \%$ effective for June 1974 but never applicable. Effective date of first automatic cost-of-living adjustment postponed to January 1975.

1Ancrease effective in two steps: 7\% for March-May 1974: full $11 \%$ for June 1974 Effective date ol first automatic cost-of-living adjustment postponed to June 1975.
${ }^{13}$ Based on automatic cost-ol-living adjustments.
${ }^{14}$ Elfective lor January 1979. PIA formulas based on AMW after 1950 (as shown here) apply only to workers who attained age 62, became disabled, or died before 1979.

15 Applied to next $\$ 150$ elfective for January 1973 and to next $\$ 350$ effective for January 1974.

1hApplied to next $\$ 50$.
${ }^{17}$ Applied to next $\$ 100$ before January 1975.
${ }^{1 \times}$ Effective date for automatic cost-of-living adjustments moved from June to December beginning with 1983.

Table A.3.-Formulas for computing PIA from AIME based on 1977 Act, and increases in PIA based on cost-of-living adjustments
[Applicable to workers who were first eligible (attanned age 62, hecame disabled. or died) atter 1978]

'For workers who attained age 62 in the 1979-83 period. PIA cannot be less than that derived Irom PIA table in elfect in December 1978 (approximated hy PIA formula in table A.2) hased on provisions in effect belore 1979 but excluding earning alter year aged 61 in computations of AMW, and including any general benelit increase after year aged 61.
?The 1983 legisation provided a modilied formula applicable to workers lirst eligihle after 1985 who in addition first became eligible lor a monthly periodic payment alter 1985 based on noncovered employment. Under this lormula the $90 \%$ factor applicable to the first AIME barcket is reduced to:

| Factor | Worken lïst cligble i |
| :--- | :---: |
| $80 \% / \%$ | 1986 |
| $76 \%$ | 1987 |
| $60 \% / \%$ | 1988 |
| $50 \%$ | 1989 |
| $40 \%$ | 1990 or later |

This provision is not applicable 50 workers with 30 years of coverage (described in
A. 4 Ior the special minimum P1A Iormula); to Federal employees on Jan. 1. 1984. who became covered by Social Security on that date: or to those with Railroad Retirement pensions. Also excluded are persons employed on Jan. I. 1984. by a nonprolit organization covered lor the lirst time on that date by reason of the compulsory coverage provision. For worker, with more than 25 years but less than 30 years ol coverage. the lactor applicahle to the first AIME bracket in the lormula will be increased (but not decreased) to:

| Falctor | Years of coverage |
| :--- | :---: |
| $80 \%$ | 29 |
| $70 \%$ | 28 |
| $60 \%$ | 27 |
| $50 \%$ | 26 |

Reduction in PIA (Irom $90 \%$ to the applicable lower percentage of the lirst AIME bracken) will not be greater than one-hall of the periodic payment based on noncovered employment perlormed alter 1456.

Table A.4.-Special minimum PIA: ${ }^{1}$ Formula applies to years of coverage

| Act | Years of coverage |  | PIA computation |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Applicable period | Number | Amount ${ }^{2}$ per year of coverage above 10 years | Maximum amount ${ }^{2}$ for workers with 30 or more years of coverage | Effective for- |
| 1972b | 1937-50 | The number (disregarding any remainder and not exceeding 14) obtained by dividing total creditable wages in 1937-50 by $\$ 900$. | \$8.50 | \$170.00 | January 1973 |
|  | After 1950 | Number of years with creditable earnings equal to at least $25 \%$ of the effective annual maximum taxable earnings, that is: |  |  |  |
| 1973b | $\cdots$ | - .. | 9.00 | 180.00 | March 1974 |

Table B.-Earnings test-Continued

'Earnings of retired-worker beneficiary affect total monthly family benefit; earnings of dependent or survivor beneficiary affect only his or her benefit. However, effective January 1985, earnings of retired-worker beneficiary do not affect benefit to divorced spouse who has been divorced at least 2 years.
${ }^{2}$ Monthly test for self-employment income is defined in terms of substantial services. For taxable years beginning after Dec. 31, 1977, monthly test eliminated for both wage and self-employment income except that each individual may use monthly test for 1 grace year, usually the year of retirement.
${ }^{3}$ Applied to self-employment income only.
${ }^{4}$ Special provisions for earnings in noncovered employment outside the United States.
${ }^{5}$ Includes earnings during first year of eligibility for benefits and during year of attainment of exempt age.
${ }^{6}$ No earnings test applied to disabled child's earnings, but earnings of retiredworker beneficiary affect disabled child's benefit.
${ }^{7}$ Includes earnings during first year of eligibility to benefits, but excludes earnings in and after month of attainment of exempt age.
${ }^{8}$ Beginning in 1975, annual and monthly amounts subject to annual automatic adjustments in proportion to increases in average eamings level. (Superseded 1972a legislation of adjustments.)
${ }^{9}$ Discretionary increase included in 1977 legislation.
${ }^{10} 1981$ a legislation postponed effective date of new exempt age by 1 year
${ }^{11}$ Beneficiary category established by District Court Decision, July 17, 1980. Statutory change enacted in 1983.
${ }^{12}$ Excludes self-employment income received in a year after entitlement but derived from pre-entitlement services.

## Rounding of Benefit Amounts

## Type of Rounding

1935 Nearest cent.
1950 Next higher \$.10 at each computation step.

Next lower \$. 10 at each computation step.
Final individual benefit check (after SMI premium and some other deductions, if any) to next lower \$1 (if not already multiple of \$1).

## Income Tax Treatment of Benefits

## Social Security Benefits Subject to Income Tax

1983 Effective for taxable years ending after December 31, 1983. gross income includes up to one-half of Social Security and Tier I Railroad Retirement benefits received by taxpayers whose income, as defined below, exceeds certain base amounts. The base amounts are $\$ 32,000$ for a married couple filing jointly, 0 for a married individual filing separately who lived with his or her spouse anytime during the year, and $\$ 25,000$ for individuals in all other filing categories. The income to be compared to the applicable base amount is adjusted gross income (before Social Security or Railroad Retirement benefits are considered), plus tax-exempt interest income and certain other deductible or excludable income, plus one-half of Social Security and Tier I Railroad Retirement benefits. For taxpayers whose income exceeds the appropriate base amount, the amount of benefits included in gross income is the lesser of onehalf of benefits or one-half of the excess of the income, as described, over the base amount.

Examples of Social Security benefits to be included in gross income for single taxpayers with varying amounts of annual income and Social Security benefits of $\$ 8,000$ are shown below:

| Modified <br> adjusted <br> gross <br> incomel | One-half <br> of <br> benefits 2 | Income <br> to be <br> compared <br> with base <br> amount | Base <br> amount <br> for single <br> taxpayer | Excess <br> income <br> over base <br> amount | One-half <br> of <br> excess | Benefits <br> included <br> in gross <br> income |
| :---: | ---: | ---: | ---: | ---: | ---: | ---: |
| $\$ 21,000 \ldots$ | $\$ 4.000$ | $\$ 25,000$ | $\$ 25,000$ | 0 | 0 | 0 |
| $23,000 \ldots$ | 4,000 | 27.000 | 25,000 | $\$ 2,000$ | $\$ 1.000$ | $\$ 1.000$ |
| $25,000 \ldots$ | 4,000 | 29.000 | 25,000 | 4.000 | 2.000 | 2,000 |
| $27,000 \ldots$ | 4,000 | 31,000 | 25,000 | 6.000 | 3.000 | 3,000 |
| $29,000 \ldots$ | 4.000 | 33.000 | 25,000 | 8.000 | 4.000 | 4.000 |
| $31,000 \ldots$ | 4.000 | 35.000 | 25,000 | 10.000 | 5,000 | 4.000 |

IAdjusted gross income (before Social Security or Railroad Retirement benefits are considered). plus tax-exempt interest income. with further modification of adjusted gross income in" some cases involving certain tax provisions of limited applicability among the beneficiary population.
-Social Security and Tier 1 Railroad Retirement benefits, including workers" compensation benefits to the extent they cause a reduction in either of these two types of benefits.
${ }^{3}$ Lesser of either one-half of benefits or one-half of excess income over the base amount.

Table G.-Taxation of Social Security benefits

| Act | Filing status | Amount of income permitted without additional taxation | Income subject to test | Additional taxable income |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  | Amount | Effective for taxable years |
| 1983. | Married filing joint return | \$32,000 | Modified adjusted gross income.' plus 50 percent of Social Security and Tier 1 <br> Railroad Retirement benefits? | The lesser of one-half of Social Security and Tier 1 Railroad Retirement benefits² or one-half of the excess over the base amount | Ending after Dec. 31, 1983 |
|  | Married filing separate return ${ }^{3}$ | 0 | Same as above | Same as above | Ending after Dec, 31, 1983 |
|  | Individuals in all other filing categories | 25.000 | Same as above | Same as above | Ending after Dec. 31. 1983 |

'Adjusted gross income (before Social Security or Railroad Retirement benefits are considered). plus tax-exempt interest income, with further modification of adjusted gross income in some cases involving certain tax provisions of limited applicability among the beneliciary population.
"Includes workers" compensation benefits to the extent they cause a reduction in

Social Security or Tier I Railroad Retirement disability benefits.
${ }^{3}$ Includes only married taxpayers filing separately who lived with their spouses at any time during the tax year: married individuals filing separately who did not live with their spouse are treated the same as unmarried individuals.

Table H.-Social Security tax credits

| Act | Group | Tax payable under- | Percent <br> of earnings | Tax credit, effective with respect to-- |
| :--- | ---: | ---: | ---: | ---: |
| $1983 \ldots \ldots \ldots \ldots \ldots$ | Employee | Federal Insurance <br> Contributions Act <br> (FICA) | 0.3 | Remuneration paid in calendar year 1984 |

# Automatic Adjustment Provisions 

The OASDI automatic adjustment provisions were enacted as part of the 1972 Social Security Amendments (the 1972a Act). However, these provisions have been modified and expanded by subsequent legislation enacted in 1973, 1976, 1983, and 1986.

## Cost-of-Living Increases in Benefits

## Current Law

A cost-of-living benefit increase generally is established each year if the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W), prepared by the Department of Labor, indicates a percentage increase after rounding of at least onetenth of 1 percent between 2 specified calendar quarters. The arithmetical mean of the CPI-W for July, August, and September in the year of determination is compared with the arithmetical mean of the CPI-W for the later of (a) July, August, and September in the year in which the last effective cost-of-living increase was established or (b) the 3 months of the calendar quarter in which the effective month of the last general benefit increase occurred. The percentage increase in the CPI-W, rounded to the nearest one-tenth of 1 percent, represents the size of the cost-of-living increase in benefits, effective for December of the year in which the determination is made.

Under certain conditions, depending on the size of the combined OASDI Trust Funds relative to estimated disbursements, the applicability and size of a cost-of-living adjustmemt are determined under an alternative method (see the "stabilizer provision" described below). In no case, however, are benefits reduced below the level of benefits in the year of determination.

Under the benefit computation method based on average indexed monthly earnings (AIME), the principal method currently applicable to newly eligible workers, the cost-of-living adjustments are applied to the worker's primary insurance amount (PIA) beginning with the year of his or her first eligibility (see table A.3). Benefit increases are not incorporated into the benefit formula; the replacement percentages applicable to the three AIME brackets remain unchanged at 90,32 , and 15 percent, respectively. Instead, the dollar amounts defining the AIME brackets are adjusted annually in proportion to increases in the average wage level (see "Adjustments of Bend Points in Benefit Formula" below). Thus, as shown in table A.3, workers first eligible in different years have different benefit formulas.

The procedure is different for benefits computed on the ba-
sis of the average monthly wage (AMW), the main computation method applicable to workers who were first eligible before 1979. Here the benefit formula effective for a particular time period is the same for workers with varying years of first eligibility. For benefits based on the AMW after 1950, benefit increases are incorporated into the replacement percentages specified for the various AMW brackets (see table A.2). The AMW brackets remain unchanged except that whenever there is an increase in the maximum amount of taxable and creditable earnings (see the following subsection), a new AMW bracket is created: The benefit formula provides an additional 20-percent replacement for the portion of the AMW above the monthly equivalent of the previous maximum. For benefits based on the AMW after 1936 (see table A.1), benefit increases are reflected in a revised conversion table used in determining the PlA from the primary insurance benefit (PIB).

The special minimum PlA is also subject to the cost-of-living adjustments, beginning with the June 1979 benefit increase (see table A.4). Under this computation method, the increases are incorporated into the benefit formula and therefore apply to the benefits both of workers becoming eligible in the current or future years and of workers already on the benefit rolls. The same formula applies to workers with varying years of first eligibility.

## History of Provisions

Under the original provisions (based on the 1972a, 1973a, and 1973 b Acts), the arithmetical mean of the CPI for January, February, and March in the year of determination was compared with the arithmetical mean of the CPI for the later of (a) January, February, and March of the year in which the last effective cost-of-living increase was established or (b) the 3 months of the calendar quarter in which the effective month of the last general benefit increase occurred. ${ }^{1}$ If the percentage increase in the CPI, rounded to the nearest one-tenth of 1 percent, was at least 3.0 (the triggering requirement), a cost-of-living benefit increase was established and the level of benefits increased by the same percentage, effective for June of the year in which the determination was made.

[^14]The 1983 Act moved the effective date for a cost-of-living benefit increase from June to December, beginning in 1983, and eliminated the "triggering requirement" for the 1983 increase only. Effective with the determination made in 1984, the two periods used in calculating the CPI-W percentage increase were shifted from the first to the third calendar quarter. Public Law 99-509 (signed October 21, 1986) eliminated the triggering requirement entirely for cost-of-living increases in and after 1986.

The 1983 Act also introduced an alternative method for determining the size of a cost-of-living adjustment. This method, called the stabilizer provision, is applied when the ratio of the combined OASDI Trust Fund assets to estimated outgo ${ }^{2}$ falls below a certain percentage. The "triggering" percentage is 15 percent for the years 1985-88 and 20 percent for years after 1988. Under these circumstances, the cost-of-living adjustment is based on the lesser of the CPI-W percentage increase determined above or the increase in average wages. The latter increase is the percentage, rounded to the nearest one-tenth of 1 percent, by which the national average wage for the year before the year of determination exceeds the average wage for the year before the most recent year in which either a cost-of-living increase or a general benefit increase occurred (see column 2 in table I for average annual wages after 1950).

The 1983 legislation also included a provision for making up any benefit increases that are based on a lower wage increase rather than on the increase in the cost of living. When the fund ratio is greater than 32 percent, additional increases will be provided so that benefits are increased to the level at which they would have been if all increases had been based on the CPI-W.

## Adjustments in Maximum Amount of Taxable and Creditable Earnings

The 1972a Act (as modified by the 1973a and 1973b Acts) mandated a determination in 1974, and in every subsequent year in which a cost-of-living benefit increase is established, as to whether or not an adjustment is required in the maximum amount of annual earnings that will be taxed and credited toward benefits.

The determination is made by multiplying the "maximum" in effect in the year of determination by the following quotient: the national average wage for the year before the year of determination, divided by the average wage for the year before the most recent year in which an automatic determination was made that resulted in an increase or in which an increase in the maximum was enacted. ${ }^{3}$ The resulting product, rounded to the nearest multiple of $\$ 300$, is the new maximum amount of taxable and creditable earnings, effective with respect to remuneration paid after the year of determination and with respect to taxable years beginning after that year. In no case, however, is the new maxi-

[^15]mum reduced to an amount below the maximum in the year of determination.

The 1977 Act instituted statutory in lieu of automatic increases in the maximum for the years 1979, 1980, and 1981. It also provided that for purposes of establishing a "year of coverage" used in the computation of the special minimum PIA, annual maximum taxable and creditable earnings after 1978 are the amounts that would have been determined under the automatic adjustment provisions if the statutory increases in the maximum under the 1977 Act had not been enacted (see table A.4).

## Adjustments in Earnings Test

The 1972b Act (as modified by the 1973a and 1973b Acts) mandated a determination in 1974, and in every subsequent year in which a cost-of-living increase is established, as to whether or not an adjustment in the exempt amount-the amount of earnings permitted without reduction in benefits-is required.

The determination is made by multiplying the monthly exempt amount in effect in the year of determination by the following quotient: the national average wage for the year before the year of determination, divided by the average wage for the year before the most recent year in which an automatic determination was made that resulted in an increase or in which an increase in the exempt amount was enacted. ${ }^{3}$ The resulting product, rounded to the nearest multiple of $\$ 10$, is the new monthly exempt amount, effective with respect to remuneration paid after the year of determination and with respect to taxable years beginning after that year. In no case, however, is the new exempt amount reduced below the exempt amount in the year of determination. The new annual exempt amount is determined by multiplying the new monthly amount by 12 .

## Adjustments in Amount Required for a Quarter of Coverage

The 1977 Act mandated an annual determination, beginning in 1978, as to whether or not an adjustment is required in the amount of wages and self-employment earnings an individual needs to be credited with a quarter of coverage in the succeeding year. The amount required for a quarter of coverage is the product of $\$ 250$ (in effect in 1978) multiplied by the following quotient: the national average wage for the year before the year of determination, divided by the average wage for 1976 (see column 2 in table I for average annual wages after 1950). The resulting product, rounded to the nearest multiple of $\$ 10$, is the new amount required for a quarter of coverage. In no case, however, is the new amount reduced below the amount in effect in the year of determination.

## Adjustments of Bend Points in Benefit Formula

The 1977 Act introduced a new benefit computation method based on average indexed monthly earnings (AIME) after 1950, effective for workers first eligible after 1978 (see table A.3). The dollar amounts, or bend points, defining the AIME brackets are adjusted annually by multiplying the bend points in effect for $1979-\$ 180$ and $\$ 1,085$-by the following quotient: the national average wage for the second year before the year for which the determination is made, divided by the average wage for 1977 (see column 2 in table I for average annual wages after 1950). The resulting products, rounded to the nearest dollar, are the new bend points.

Table I.-Average wage series for indexing earnings, 1951-88

| Year | Annualmaximumtaxableearnings | Average annual wage' | Annual maximum indexed earnings ${ }^{2}$ for workers who were first eligible (attained age 62, became disabled, or died) in- |  |  |  |  |  |  |  |

${ }^{1}$ National average wage levels. For years before 1978, average wages were determined from wages earned during the first quarter of the year and reported to the Social Security Administration (SSA) for Social Security tax purposes. These wages were then multiplied by 4 to obtain the average wage for the year. For 1973-77, from data collected on all taxable wages reported to SSA: for 1957-72, based on $1 \%$ statistical sample; for 1951-56, based on $1 / 10$ of $1 \%$ statistical sample. For 1978-84. from wage data collected by the Internal Revenue Service during processing of annual tax retums. For years after 1984, from W-2 data processed by SSA. For years after 1977. the average wage amounts have been adjusted to be consistent with the pre-1978 series.
${ }^{2}$ Earnings in the year before the year of first eligibility, and any earnings thereafter. are not indexed. Indexed earnings for a particular year are equal to the product of (1) the ratio of the actual taxable earnings in that year to the average wage for that year and (2) the average wage in the second year before the year of first eligibility. For example, if the year of first eligibility is 1987 and if earnings in 1980 were greater than or equal to the maximum taxable amount, $\$ 25,900.00$, then the ratio of the maximum amount to the 1980 average wage is $25,900.00 / 12,513.46$ or 2.0697713 ; multiplication of this ratio by the 1985 average wage, $\$ 16,822.51$, gives the maximum indexed earnings of $\$ 34.818 .75$ for 1980 .

## Appropriations Authorized from General Revenues and Interfund Borrowing

## Act

## Appropriations From General Revenues

1935 Annual appropriations to the old-age reserve account to provide for payments; direct appropriation to pay for administrative expenses.
1939 Trust fund created from which benefits and administrative expenses were to be paid.
1944 General authorization, to finance benefits and payments.
1947 For cost of gratuitous military service wage credits.
1950 General authorization repealed.
1956 For cost of gratuitous military service wage credits.
1966 For cost of monthly benefits for those with less than 3 quarters of coverage.
1972b For cost of gratuitous wage credits for JapaneseAmerican internees.
1983 A lump-sum payment to the OASDI Trust Funds equal to (1) the present value of the estimated additional benefits arising from the gratuitous military service wage credits for service before 1957 and (2) the amount of the combined employer-employee OASDI taxes on the gratuitous wage credits for service after 1956 and before 1984 but less any amounts previously transferred. After 1983, the trust funds will be reimbursed on a current basis for employeremployee taxes on such wage credits for service after 1983.
A lump-sum payment to the OASDI Trust Funds
representing the amount of uncashed benefit checks (including interest) issued in the past. In the future the trust funds will be credited on a regular basis. All transfers made for uncashed benefit checks will be subject to the annual appropriation process.
Transfer from the Treasury Department to the OASDI Trust Funds an amount equal to income tax receipts attributable to inclusion of Social Security benefits in taxable income.
For discussion of tax credits for part of employment FICA tax and tax on self-employment income under SECA, see section on "Income Tax Treatment of Benefits and Taxes."

## Interfund Borrowing

1981 Interfund borrowing permitted among OASI, DI, and HI Trust Funds as needed until Dec. 31, 1982. For all or part of any loan to be repaid, the managing trustee determines if assets of borrowing trust fund(s) are sufficient for that purpose. Interest with respect to any outstanding loan balance at a rate equal to the rate earned by lending trust fund is transferred from time to time.
1983 Interfund borrowing reauthorized among OASI, DI, and HI Trust Funds for calendar years 1983-87, with provisions for scheduled repayment, no later than Dec. 3I, 1989, of principal and interest (including amounts borrowed in 1982). No borrowing is permitted from any fund that has been reduced to specified levels.

## International Agreements

The 1977 Amendments to the Social Security Act authorized the President to enter into international agreements to provide for coordination between the social security systems of the United States and of other countries.

An international social security agreement is designed to benefit both workers and employers. Such agreements eliminate dual coverage and contributions with respect to the same work under the social security systems of the countries that are parties to the agreement. Agreements also prevent the impairment of social security protection that results when a person works under the social security systems of two countries but is not eligible for benefits in one or both of the countries when he or she retires, becomes disabled, or dies. Under an agreement, each country takes into account periods of coverage that are completed under the laws of the other country and that were not already credited under its own laws. A partial benefit is then computed by each country based on the proportion of total
covered work completed in that country.
The United States currently has social security agreements in effect with eight countries-Italy (1978), the Federal Republic of Germany (1979), Switzerland (1980), Belgium, Norway, Canada (1984), the United Kingdom (1985), and Sweden (1987). The agreement with Spain is expected to enter into force in late 1987 or early 1988, and agreements with France, the Netherlands, and Portugal, in late 1988.
Social Security old-age and disability benefits are generally payable to U.S. citizens regardless of where they reside. An international agreement generally provides that each country that is a party to the agreement must, for benefit purposes, treat nationals of the other country in the same manner as it treats its own nationals. Furthermore, certain other persons who are not nationals, such as dependents and survivors, but who reside within the participating countries are guaranteed equal benefit treatment with nationals.

## Illustrative Benefit Amounts

# Health Care Programs Medicare Program Summary, 1987 

The Medicare program, enacted on July 30, 1965, as title XVIII ("Health Insurance for the Aged") of the Social Security Act, became effective on July 1, 1966. It consists of two separate but coordinated programs-Part A is Hospital Insurance (HI) and Part B is Supplementary Medical Insurance (SMI). In 1972, Public Law 92-603 made major changes in the program provisions. In particular, protection was extended, effective July 1, 1973, to disabled persons entitled because of their disability to monthly cash benefits under the Social Security or Railroad Retirement programs and to certain individuals with end-stage renal disease. Title XVIII thus became Health Insurance for the Aged and Disabled. The Omnibus Reconciliation Act of 1980 (Public Law 96-499) liberalized home health benefits under Medicare. For deductible and coinsurance amounts, see table M.

Effective November 1, 1983, Medicare implemented the coverage of hospice care for terminally ill beneficiaries whose life expectancy is 6 months or less. Effective for hospital fiscal years beginning on or after October 1, 1983, Public Law 98-21 established a prospective payment system for Medicare payment of inpatient hospital services.

The Consolidated Omnibus Budget Reconciliation Act (COBRA) of 1985 (Public Law 99-272) extended manadatory Medicare coverage to virtually all State and local employees hired after December 31, 1985. Medicare was made secondary for all workers aged 65 or older and their spouses who elected to be covered by employment-based health insurance through an employer with 20 or more employees. The Act required also that the SMI premium continue to be based on 25 percent of program costs for beneficiaries through calendar year 1988.

Under the Omnibus Budget Reconciliation Act (OBRA) of 1986, Medicare was made secondary payor for all disabled Medicare beneficiaries who elect to be covered by employment-based health insurance as a current employee (or family member of such employee) of an employer with at least 100 employees. The OBRA Act of 1986 also provided that outpatient immunosuppressive drugs furnished to transplant patients are covered for 1 year after the transplant.

## HI Program

This program enrolls for benefits all persons aged 65 or older who are entitled to monthly benefits under the OASDI or Railroad Retirement programs (whether retired or not), as well as disabled persons under age 65 who have been entitled to disability benefits for at least 24 months and insured workers (and their spouses and children) with end-stage renal disease who require renal dialysis or a kidney transplant. The Social Security Amendments of 1980 (Public Law 96-265) removed the requirement that the 24 months be consecutive, effective December 1, 1980. Months from previous periods of disability benefit entitlement may be counted in determining whether the monthly qualifying period requirement is met provided the current onset begins within certain time limits following the earlier period of entitlement. Also eligible for HI enrollment under transitional provisions are persons aged 65 or older with specified amounts of earnings credits less than those required for
monthly benefit eligibility. (Not eligible under the transitional provisions are retired Federal employees covered by the Federal Employees' Health Benefits Act of 1959 or aliens admitted for permanent residence unless they have 5 consecutive years of residence and the required covered quarters under these provisions.) The Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) requires that as of January 1983 Federal employees be covered for HI protection and allows workers employed during January 1983 to use Federal wage quarters before 1983 upon retirement from Federal service to establish entitlement to HI benefits, if needed. Since July 1973, most persons aged 65 or older and otherwise ineligible for HI have been permitted to enroll voluntarily and pay a monthly premium for HI protection if they are enrolled for SMI.
The HI program pays for part of the costs of inpatient hospital care and related health care provided by skilled-nursing facilities (SNF's) and home health agencies (HHA's). The first 60 days of covered services in a benefit period in a participating hospital are covered essentially in full after a specified deductible is paid (see table M). For each of the next 30 covered days in a benefit period the patient pays a coinsurance amount (equal to one-fourth of the deductible). Each HI beneficiary also has a "lifetime reserve" of 60 additional hospital days that can be used at his/her option when the covered 90 days within a benefit period have been exhausted. Lifetime reserve days, once used, are not reusable. HI benefits include reimbursement for inpatient tuberculosis and psychiatric hospital services, with a lifetime limit of 190 days of care in a psychiatric hospital. HI also pays for emergency inpatient care in a nonparticipating hospital.

The program pays part of the costs of all covered inpatient service in participating SNF's for up to 100 days in a benefit period after a hospital stay of 3 or more consecutive days. The cost of the first 20 days is covered in full. The patient pays a coinsurance amount equal to one-eighth of the HI deductible for each of the remaining 80 covered days. The provisions of TEFRA allow the Secretary of HHS to eliminate the 3-day prior hospitalization requirement for SNF care under the Hospital Insurance program (Part A of Medicare) if it will not increase program costs or alter the acute care nature of the program. Effective July 1, 1981, the Omnibus Reconciliation Act of 1980 provides for coverage under Medicare of unlimited home health visits. The Act also removes the $\$ 60$ deductible for home health services under the Supplementary Medical Insurance program (Part B), and permits proprietary home health agencies to participate in States not having licensure laws.

Under the provisions of the OBRA of 1986, the inpatient hospital deductible was set at $\$ 520$. For future years, the deductible will be indexed annually by the percentage increase used for the prospective payment rate, adjusted to reflect changes in real case mix.

The program is financed by a separate trust fund to which employees, employers, and self-employed persons contribute through a payroll or earnings tax (see table D). Under a special provision, the HI Trust Fund is reimbursed from general revenues for the cost of providing HI coverage for certain aged persons not entitled to OASDI or Railroad Retirement benefits (see table 150 ).

Under HI, each hospital nominates an intermediary to act as its link with the Health Care Financing Administration (HCFA). The intermediaries review and pay hospital claims for the costs of providing care to the beneficiaries, drawing against balances established by HCFA. Certain hospital claims are paid directly by HCFA.

## SMI Program

All persons aged 65 or older (except aliens) and all disabled persons entitled to coverage under HI are eligible to enroll in the SMI program on a voluntary basis by paying a monthly premium. Persons who lack the required earnings credits for HI eligibility (except the aliens mentioned above) must also buy SMI protection if they purchase HI coverage. State welfare agencies may "buy in" for public assistance recipients and pay the premiums in their behalf.
The SMI program pays 80 percent of the charges allowed for medical and related health services and supplies furnished by physicians (or others in connection with physicians' services), and by hospital outpatient facilities, after the beneficiary has met the established deductible amount (see table M). Services furnished by home health agencies are covered without any deductible or coinsurance payments. Radiology and pathology services furnished by physicians to hospital inpatients are reimbursed at 80 percent of the charges allowed but are not subject to the deductible.
Under the OBRA of 1986, SMI benefits will include vision care services performed by optometrists. The Medicare program
will now also cover occupational therapy services provided in settings such as skilled-nursing facilities (when Part A coverage has been exhausted), rehabilitation agencies, public health agencies, or by independently practicing therapists.

SMI is financed through a separate trust fund, in which are placed the premiums paid by enrollees and a matching amount by the Federal Government from general revenues (see table 151). Benefits and administrative costs are paid from this trust fund.

Through calendar year 1985, the monthly premium amount is calculated so as to produce premium income equal to 25 percent of estimated program costs for enrollees aged 65 or older Beginning with calendar year 1986, the premium calculation would have reverted to an earlier method under which the premium amount is the lower of (1) an amount sufficient to cover half the program costs for the aged, or (2) the current premium amount increased by the percentage by which cash benefits were most recently increased under the cost-of-living adjustment (COLA) provisions of the Social Security program. The Deficit Reduction Act of 1984 extended the requirement that the Part B premium produce income equal to 25 percent of program costs through 1987. COBRA extends this level of premium contribution through 1988. However, the increase in the Part B premium may not exceed the dollar amount of the Social Security COLA adjustment. It is effective with premiums for January 1986.

HCFA contracts with "carriers" to process' the claims for payment for covered services under SMI. The carriers determine the amounts to be paid, based on "reasonable charges" for the services.

# History of Medicare Provisions 

[See History of OASDI Program Provisions for Employment Covered and Maximum Taxable Earnings and Taxes]

# Insured Status (Entitlement to Benefits) 

Any disabled individual, under age 65 , entitled to monthly disability benefits for 24 consecutive months under the Social Security or Railroad Retirement program (excludes spouses and children of disabled individuals). Any individual under age 65 who has end-stage renal disease and who is either fully or currently insured, or is entitled to monthly benefits under the Social Security or Railroad Retirement program or is the spouse or dependent child of such an insured individual or beneficiary. Entitlement begins on the first day of the third month following the initiation of a course of renal dialysis and ends with the 12 th month following the month in which either the dialysis terminates or the individual has a renal transplant.

Any individual aged 65 or older enrolled in the SMI program who is not otherwise entitled to HI benefits, upon voluntary participation with payment of hospital premium.

Any individual who would be entitled to monthly benefits under the Social Security or Railroad Retirement program if application were made.

Any disabled individual under age 65 entitled to monthly disability benefits for a total of 24 months, not necessarily consecutive, under the Social Security or Railroad Retirement program.

Medicare coverage extended for up to 36 months for disabled individuals whose disability continues, but whose monthly benefits ceased because they engaged in substantial gainful activity.
Second waiting period eliminated if a former disabled-

## Entitlement to HI Benefits

Any individual aged 65 or older entitled to monthly benefits under the Social Security or Railroad Retirement program, or age 65 before 1968, or 3 QC for each year after 1965 and before attainment of age 65.

Or 3 QC for each year after 1966 and before attainment of age 65.

Act

Federal employees covered under HI based on QC for earnings as Federal employees and/or based on deemed QC for earnings as Federal employees before 1983.

1983 Employees of nonprofit organizations, effective Jan. 1, 1984.

1985 Any individual aged 65 or older not otherwise entitled to Medicare may obtain coverage under Part A by paying a monthly premium.

Individuals who do not purchase Part A coverage within a specific time after becoming eligible because of age are subject to a 10 -percent penalty for each 12 months they are late in enrolling.

There is a cutoff on the length of time these individuals will have to pay an enrollment penalty. The 10-percent premium penalty would be limited to twice the number of years enrollment was delayed. Therefore, if enrollment was delayed 1 year the penalty would be assessed for 2 years. Individuals in this category and already enrolled, will have the length of time the higher premium was paid credited to them.

## Entitlement to SMI Benefits

1965 Any U.S. resident (citizen or lawfully admitted alien with 5 years continuous residence) aged 65 or older or any individual entitled to HI benefits upon voluntary participation with payment of SMI premium.

1972b Any individual under age 65 entitled to HI benefits, upon voluntary participation with payment of SMI premium.

## HI and SMI Benefits

1984 For spouses of workers aged 65-70, Medicare is secondary to benefits provided by the worker's employmentbased health insurance plan.

For Health Maintenance Organizations, includes medical and other health services furnished by clinical psychologists.

Extends the working age provision to cover workers and their spouses beyond the age of 69 .

Extends coverage on a mandatory basis for all newly hired State and local government employees.

For disabled individuals who are covered by employer-
based health plans (with 20 or more employees), Medicare is the secondary payer.

1986 For Health Maintenance Organizations that offered organ transplants as a basic health service on Apr. 15,

1985, may otter such services from Oct. 1, 1985, through Apr. 1, 1988.

For disabled individuals who are covered by employerbased health plans (with at least 100 employees), Medicare is the secondary payer.

# Medicare Benefits 

## HI Benefits

 creases in cost sharing. Increased the Part A deductible annually by the applicable percentage increase in the hospital prospective payment rates.
## SMI Benefits

Lifetime reserve of 60 additional days of inpatient hospital services. Outpatient hospital diagnostic services transferred to SMI.

1972b Services of interns and residents in podiatry training.

Part A coinsurance is based on the deductible for the calendar year in which services are received rather than the deductible in effect at the time the beneficiary's spell of illness began. Alcohol detoxification facility services eliminated.

Beneficiaries expected to live 6 months or less may elect to receive hospice care benefits instead of other Medicare benefits. Effective November 1, 1983-October 1, 1986.

For workers aged $65-69$, HI benefits may be secondary to benefits provided by employment-based health insurance.

Health Maintenance Organizations (HMO) will be covered as providers of benefits. The prospective payment mechanism for HMO's must be certified by the Secretary of HHS before implementation.
For durable medical equipment provided by home health agencies, the payment amount is reduced from 100 percent of costs to 80 percent of reasonable charges.
The Part A deductible is set at $\$ 520$ with resulting in-
In each benefit period, inpatient hospital services, 90 days. Includes semiprivate accommodations, operating room, hospital equipment (including renal dialysis), laboratory tests and X-rays, drugs, dressings, general nursing services, and services of interns and residents in medical, osteopathic, or dentistry training. Inpatient psychiatric hospital care limited to 190-day lifetime maximum. Outpatient hospital diagnostic services. Posthospital extended-care services, 100 days (including physical, occupational, and speech therapy). Posthospital home health services, 100 visits. Deductible and coinsurance provisions (see table M).

Home health services with no restrictions. Alcohol detoxification facility services.

Physician and surgeon services. In-hospital services of anesthesiologists, pathologists, radiologists, and psy-
chiatrists. Limited dental services. Home health services, 100 visits in calendar year. Other medical services including various diagnostic tests, limited ambulance services, prosthetic devices, rental of durable medical equipment used at home (including equipment for dialysis), and supplies used for fractures. Deductible and coinsurance provisions (see table M).
1967 Outpatient hospital diagnostic services, transferred from HI. Includes physical therapy services in a facility. Purchase of durable medical equipment.
1972b Physical therapy services furnished by a therapist in his/her office or individual's home (limited to $\$ 100$ expenses in calendar year). Chiropractor services (limited to manual manipulation of the spine). Outpatient services include speech pathology services furnished in, or under arrangements with, a facility or agency. Services of a doctor of optometry in furnishing prosthetic lenses.
1977 Services in rural health clinics.
1980 Home health services unlimited. Facility costs of certain surgical procedures performed in freestanding ambulatory surgical centers.
Increase in annual limit for outpatient therapy from $\$ 100$ to $\$ 500$.

Recognizes comprehensive outpatient rehabilitation facilities as Medicare providers.

1981a Elimination of carryover from previous year of incurred expenses for meeting the Part B deductible.
1982 For workers aged 65-69, SMI benefits may be secondary to benefits provided by employment-based health insurance.

Health Maintenance Organizations (HMO) will be covered as providers of benefits. The prospective payment mechanism for HMO's must be certified by the Secretary of HHS before implementation.
1984 Hepatitis B and pneumococcal vaccines and blood clotting factors and necessary supplies are included as Part B benefits. Debridement of mycotic toenails is limited.

For outpatient physical therapy services, includes services of a podiatrist. For outpatient ambulatory surgery, includes services of a dentist and podiatrist furnished in his/her office.

For calculating the amount of premium for individuals aged 65 up to age 70 not enrolled in Medicare, the individual's employer group health insurance will not be taken into account.

1986 Includes vision care services furnished by an optometrist. For occupational therapy services, includes services
furnished in a skilled-nursing facility (when Part A coverage has been exhausted), in a clinic, rehabilitation agency, public health agency, or by an independently practicing therapist.

Includes outpatient immunosuppressive drugs for 1 year
after transplant and occupational therapy services provided in certain delivery settings.

For ambulatory surgical procedures performed in ambulatory surgical centers, hospital outpatient departments, and certain physician offices, the Part B coinsurance and deductible are no longer waived.

## Appropriations Authorized From General Revenues and Interfund Borrowing

## Appropriations From General Revenues

For cost of hospital benefits for individuals not entitled to monthly Railroad Retirement or Social Security benefits other than special benefits for the aged, transitionally insured.

For the SMI program, an amount equal to participant premiums.

1972b For cost of SMI not met by enrollee premiums. Enrollee premium rate limited to rate of increase in OASDI cash benefits.

SMI enrollee premiums for July 1, 1983-December 31, 1983, frozen at premium level of June 30, 1983.

Premiums for January 1, 1984-December 31, 1985, set at one-half of the actuarial rate for the aged.

Military wage credits (see under OASDI program provisions).

1984 SMI enrollee premiums for January 1, 1986-December 31, 1987, will be calculated so as to produce income equal to 25 percent of program costs. Increases in the Part B premium may not exceed the dollar amount of the Social Security cost-of-living adjustment.
1985 Extends through calendar year 1988 the requirement that SMI premiums continue at the 1986 level.

## Interfund Borrrowing

1981b See under OASDI program provisions.

1983 See under OASDI program provisions.

Table M.-Medicare cost sharing and premium amounts, 1966-88

Voluntary participation of individual aged 65 or older not otherwise entitled to hospital insurance.

2Beginning July 1973 for the disabled.
${ }^{3}$ Benefit not provided.
${ }^{4}$ Professional inpatient services of pathologists and radiologists not subject to deductible or coinsurance.
${ }^{5}$ Beginning in January for current and succeeding years.
${ }^{6}$ Home health services not subject to coinsurance.
${ }^{7}$ Monthly premium for July and August 1973 was reduced to $\$ 5.80$ and $\$ 6.10$, respectively, by the Cost of Living Council.
${ }^{8}$ Home health services not subject to deductible.
${ }^{9}$ Same as footnote 4, but only when physician accepts assignment.
${ }^{10}$ Effective Oct. 1, 1983, professional inpatient services of pathologists and radi-
ologists are subject to coinsurance.
"Effective for July-December 1983.

## Medicaid Program Summary (as of July 1, 1987)

Title XIX of the Social Security Act provides for a program of medical assistance for certain low-income individuals and families. The program, known as Medicaid, became Federal law in 1965. Medicaid is a cooperative venture between the Federal and State governments. It is funded jointly by the Federal and State governments, and is administered by States under broad Federal guidelines. In 1986, the Medicaid program provided services to 22.4 million poor eligible persons who were aged, blind, disabled, or certain members of families with dependent children. The combined Federal and State cost for the Medicaid program for 1986 was $\$ 41$ billion ( $\$ 23$ billion expended by the Federal Government and $\$ 18$ billion by the States).

The percentage paid by the Federal Government (see table N), known as the "Federal Medical Assistance Percentage" (FMAP), is determined each year by a formula using the average per capita income level of each State compared with the national level. The FMAP varied from 50 to 78.42 percent for 1986 (the average was 55 percent). The eligibility requirements, benefit structures, and total Medicaid programs differ considerably among the States. As a result of these differences, population compositions, and the sheer number of their population, 5 States (New York, California, Michigan, Pennsylvania, and Illinois) accounted for almost 50 percent of the Medicaid program's total expenditures in 1986.

## Eligibility

There are certain groups of individuals who must be included in a State's Medicaid plan. These "mandatory" categorically needy groups are:

- Recipients of AFDC;
- Recipients of title IV-E adoption assistance and foster care;
- Pregnant women and children under age 5 who meet the AFDC financial rules;
- SSI recipients (or aged, blind, and disabled individuals who meet more restrictive requirements of eligibility); and
- Special protected groups (usually individuals who lose cash assistance because of the cash program's rules, but who keep Medicaid).

In addition, States have the option to provide Medicaid coverage with FMAP monies for other categorically needy groups. These "optional" groups share characteristics of the mandatory groups, but are somewhat more liberally defined. The broadest optional groups that States may cover include:

- Children up to age 21 with income and resources below cash assistance program limits;
- Pregnant women, children under age 5 , and aged, blind, and disabled persons who have incomes or assets above
the "mandatory" levels, but below the Federal poverty level;
- Recipients of optional State supplementary payments;
- Institutionalized individuals with income and resources below specified limits;
- Persons receiving care under home and communitybased waivers; and
- The "medically needy" persons (described below).

The option to have a "medically needy" (MN) program allows States to provide Medicaid to individuals and families who have more income and/or countable resources than is allowed for Medicaid eligibility under the mandatory or optional categorically needy groups. Within this MN option, which has Federal financial participation (FFP), an individual or family having income in excess of a State's prescribed income standard can reduce excess income by incurring medical and/or remedial care expenses sufficient to establish Medicaid eligibility. This is referred to as "spend-down." If a State elects to have a MN program, it must provide coverage to certain children under age 18 and pregnant women, and may include certain other persons, such as aged, blind, and disabled persons, caretaker relatives of children deprived of parental support and care, and certain other financially eligible children up to age 21. Thirty-six States now elect to provide Medicaid to at least some groups under a MN program.
Medicaid does not provide medical assistance to all of the poor. Low income is only one test of eligibility; resources are also tested. But to be eligible for Medicaid, a person must belong to one of the designated groups listed above. Even under the broadest provisions of the Federal statute, the Federal Medicaid program does not provide health care services (except for emergency services for a few specific persons) even for very poor persons if they are not aged, blind, disabled, pregnant, under age 21 , or an unemployed parent of a dependent child. States also have "State-only" (no FFP) programs to provide medical assistance for specified persons who do not qualify for the Medicaid program.

## Services

Title XIX of the Social Security Act requires that certain basic services be offered in any State Medicaid program. These services include:

- inpatient hospital services;
- outpatient hospital services;
- laboratory and X-ray services;
- skilled-nursing facility services for individuals aged 21 or older;
- home health care for persons eligible for skilled-nursing services;
- physicians' services;
- family planning services;
- rural health clinic services;
- nurse-midwife services;
- prenatal care; and
- early periodic screening, diagnosis, and treatment (EPSDT) services for individuals under age 21.

In addition, States may elect to provide up to 30 other optional services (such as dental services, hospice care, personal care, etc.) at the assigned FMAP rates. The most common optional services are:

- nursing home care in intermediate-care facilities (ICF) for the aged and disabled;
- ICF care for the mentally retarded;
- skilled-nursing care for those under age 21;
- emergency hospital services;
- prescription drugs;
- clinic services;
- optometric services; and
- eyeglasses.

States determine the scope of services offered. They may limit, for example, the days of hospital care or the number of physician visits covered. States may provide and pay for Medicaid services through various prepayment arrangements, such as health maintenance organizations (HMO's).

States may also request "waivers" under which they offer a cost-effective alternative (at home or in-community care settings) package for persons who would otherwise be institutionalized under Medicaid. States are not limited in the range of services they can provide except that they may not provide room and board for such "waivered" recipients.

## Cost-Sharing by Recipients

States may impose a small copayment, deductible, and/or coinsurance on Medicaid recipients (except for children under age 18, hospital patients or nursing home patients, and categorically needy HMO enrollees) for some services. This must be a nominal amount. As of 1986, 26 States had some form of cost-sharing program.

## Medicaid-Medicare Relationship

Some persons are covered under both the Medicare and Medicaid programs, and are known as "dual-eligibles." The Medicare program provides inpatient Hospital Insurance (HI),
and Supplementary Medical Insurance (SMI). Although coverage for HI (Part A) is automatic for persons aged 65 or older and for certain disabled persons who have insured status under the SSA system, some deductible and copayment amounts are required. Coverage under SMI (Part B of Medicare) requires payment of a monthly premium.

Federal guidelines require States to pay the deductible and copayment amounts for the Part A portion of Medicare for dualeligible recipients. States may also pay the premium for the Part B portion of Medicare for dual-eligible recipients through "buyin" agreements between State Medicaid programs and SSA. The buy-in agreement allows the addition of the SMI Medicare coverage for dual-eligible persons too poor to pay their own premium. Almost all States purchase Part B for dual-eligible recipients.

Medicaid supplements the Medicare program coverage, and provides several basic services for the elderly and disabled dualeligible persons that are not provided under Medicare. Medicaid may provide, for example, hearing aids, prescription drugs, eyeglasses, and for skilled-nursing care beyond the 100 -day posthospital benefit provided under Medicare.

## Payments

Medicaid operates as a vendor payment program. Payments are made directly to the providers of services for care rendered to eligible individuals. Providers must accept the Medicaid reimbursement level as payment in full. States determine the reimbursement rate for services with two exceptions: (1) for hospital care, they are required to follow the Medicare reasonable-cost payment system (unless they have special approval to use an alternative system), and (2) for hospice care services, they must pay the Medicare rates. States have broad discretion in determining payment to practitioners and providers, subject to Federal upper limits.

## Trends

Total Federal outlays for Medicaid have increased from \$2.5 billion in fiscal year 1970 to $\$ 23$ billion in fiscal year 1986. Projected growth of Federal Medicaid outlays for fiscal years 1986-93 are expected to average a compound rate of about 8.5 percent per year under current law (or a doubling in 9 years).

Medicaid was initially formulated primarily as a program to provide medical care for poor children and their single mothers. Over the years, Medicaid has evolved into a far more complex program. Expenditures for nursing homes (skilled, intermediate care, and care for the mentally retarded) continue to increase far in excess of all other services. These long-term care services were provided to only 14.5 percent of the total Medicaid population, yet consumed 42.7 percent of all Medicaid expenditures for 1986.

Within Federal guidelines, each State has its own version of who is eligible and what services are offered. The political climate, economic conditions, and social concerns-within each State and nationally-impact decisions regarding health care for the poor and for Federal and State budgetary limitations. Therefore, with frequent revisions in Federal laws, in the Health Care Financing Administration regulations, and in the policies and budgetary plans of individual States, the Medicaid program is continually changing.

## Black Lung Payments (as of January 1, 1988)

The "Black Lung" benefit program established by the Federal Coal Mine Health and Safety Act of 1969 provides monthly benefit payments to coal miners totally disabled as a result of pneumoconiosis, to the widows of coal miners who died as a result of pneumoconiosis, and to their dependents. The Social Security Administration is responsible for the payment and administration of all claims payable before July 1, 1973, and for survivor claims filed by December 31, 1973, or within 6 months of the miner's death (whichever is later). The program is financed from the general funds of the Treasury. Beginning July 1, 1973, under the Black Lung Benefits Act of 1972, the Department of Labor has jurisdiction over new miner claims. Those claims filed with the Department of Labor are not included in the tables in this Supplement.

Under the law, the basic rate is $371 / 2$ percent of the monthly pay rate for Federal employees in the first step of grade GS-2. The basic rate to a miner or widow may be increased according to the number of qualified dependents- 50 percent of the basic benefit rate if one dependent qualifies, 75 percent for two
dependents, and 100 percent for three or more dependents. Through December 1987, the basic benefit rate was $\$ 338.00$ and the maximum payment per family was $\$ 676.00$. Effective January 1988 , the corresponding rates are $\$ 344.80$ and $\$ 689.50$, respectively.

Since Black Lung payments are tied indirectly to Federal employee salary scales, increases are automatically payable when Federal salaries are increased. If a miner or his or her surviving spouse is receiving workers' compensation, unemployment conlpensation, or disability insurance payments under State law, the benefits are offset by the amount being paid under these programs.

Under the 1972 amendments to the law, payments were extended to full orphans, parents, brothers, and sisters of deceased miners. Under earlier law, survivor payments were limited to widows and their dependent children (if the miner and spouse were both deceased, no benefits were payable to surviving children). The 1972 amendments also expanded coverage to include surface as well as underground coal miners.

# Supplemental Security Income Program, 1987 

## Summary

The federally administered Supplemental Security Income (SSI) program was established by Congress in 1972 with payments beginning in January 1974. SSI replaced the Federal-State programs of Old-Age Assistance (OAA), Aid to the Blind (AB), and Aid to the Permanently and Totally Disabled (APTD) in the 50 States and the District of Columbia. Residents of the Northern Mariana Islands became eligible for SSI in January 1978.

Under the SSI program, each eligible person living in their own household and having no other income are provided, as of January 1988, a monthly cash payment of \$354 (\$532 for a couple if both members are eligible). Since 1975, these Federal SSI benefit levels have been increased at the same time, and by the same percentage, as the cost-of-living increases in OASDI benefits. The Social Security Amendments of 1983 delayed the July 1983 cost-of-living increases until January 1984 and rescheduled future increases for January. However, a general increase effective July 1983 raised the Federal SSI benefit level by $\$ 20$ per month for an individual and $\$ 30$ for a couple. Cost-of-living increases in SSI continue to be based on changes in the Consumer Price Index (see page 27 for further explanation of the cost-of-living increase).

If an individual or couple is living in another person's household and is receiving both support and maintenance there, the Federal benefit level is reduced by one-third. For institutionalized persons, the eligibility requirements and payment standards depend on the type of institution. With some exceptions, inmates of public institutions (for example, publicly operated community residences serving no more than 16 persons) are ineligible for SSI. A maximum of $\$ 25$ a month is set for persons in public or private institutions who receive a substantial part of the cost of their care from the Medicaid program (title XIX of the Social Security Act). Other eligible persons in private institutions may receive up to the Federal benefit level applicable to those living in their own households.

The Federal payment is based on the individual's countable income. Not all income is counted against the Federal SSI payment. The first $\$ 20$ monthly in OASDI benefits or other earned or unearned income is not counted. Also disregarded is $\$ 65$ monthly of earnings plus one-half of any earnings above $\$ 65$. For example, a person living in his or her own household, whose sole income is a $\$ 200$ monthly OASDI benefit, would receive $\$ 174.00$ in Federal SSI payments ( $\$ 354-(\$ 200-\$ 20)=$ $\$ 354-\$ 180=\$ 174)$. A person whose income consists of $\$ 500$ in gross monthly earnings would receive in Federal SSI payments $(\$ 354-(\$ 500-\$ 85) \div 2)=\$ 354-\$ 207.50=\$ 146.50)$.

Beginning October 1982, an SSI application is effective on the date of filing or, if later, the date on which the individual meets all criteria of eligibility. The payment for the first month of eligibility (and the first month following a period of ineligibility) will be prorated on the number of days for which there is an effective application. For example, if the application date is April 16, the individual meets all eligibility criteria on that date, and the payment for the entire month would be $\$ 200$, then the payment for April is $\$ 200 \times 15 / 30$, or $\$ 100$.

For calendar year 1988, individuals generally are not eligible for SSI if they have resources above $\$ 1,900$ (or $\$ 2,850$ for a couple). Certain resources are excluded, most commonly a home, an automobile whose current market value is $\$ 4,500$ or less, household goods and personal effects of reasonable value, burial plots, and life insurance with a face value of $\$ 1,500$ or less, or total burial funds (including life insurance) totaling $\$ 1,500$ or less.

States have the option to supplement the Supplemental Security Income floor for all or selected categories of persons, regardless of previous State program eligibility. States are required to supplement the Federal benefit level if that level does not equal or exceed the incomes that recipients of the former State programs had in December 1973 plus, in general, the amount of Federal benefit increases after 1976.

# History of the Provisions of the Supplemental Security Income Program* <br> Basic Eligibility Requirements 

An individual may qualify for payments on the basis of age, blindness, or disability.

Aged: Any person aged 65 or older.
Blind: Any person with 20/200 or less vision in the better eye with the use of correcting lenses, or with tunnel vision of 20 degrees or less. An individual transferred from a State AB program is eligible if he or she received such State aid in December 1973 and continues to meet the October 1972 State definition of blindness.

Disabled: Any person unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment expected to result in death or that has lasted or can be expected to last for a continuous period of at least 12 months. For a child under age 18 , eligibility is based on disability of severity comparable with that of an adult, since the criterion of "substantial gainful activity" is inapplicable for children. An individual transferred from a State APTD program to SSI is also eligible if he or she received such State aid in December 1973 and continues to meet the October 1972 State definition of disability.

Only persons who had received APTD before July 1973 and were on the rolls in December 1973 may receive SSI on the basis of the State definition of disability; those who became eligible for State aid from July to

## Act

December 1973 must meet the Federal definition of disability.

1980 A disabled recipient who loses Federal SSI eligibility because of earnings at the substantial gainful activity level may continue to receive a special benefit under section 1619 and retain eligibility for Medicaid under title XIX of the Social Security Act. This special benefit status may continue as long as the recipient has the disabling impairment and meets all nondisability SSI eligibility criteria. States have the option of supplementing this special benefit.

The provision of the law was in effect from Jan. 1, 1981, through Dec. 31, 1983. Beginning January 1984, under a 1 -year demonstration project, this provision is continued for persons already eligible for either regular SSI payments or special monthly benefits.

1984 The special benefit and Medicaid provision of the 1980 legislation were extended through June 30, 1987 (retroactive to Jan. 1, 1984).

1986 The special benefit and Medicaid provision of the 1980 amendments were made permanent. The provision was amended effective July 1, 1987, with significant modifications to simplify administration and to allow free movement between regular SSI disability benefits and either the special cash benefit or Medicaid eligibility under section 1619.

## Other Eligibility Provisions

## Citizenship and Residence

The individual must reside within one of the 50 States or the District of Columbia and be a citizen or an alien permanently and legally residing in the United States. Persons living outside the United States for an entire calendar month lose their eligibility for such a month.

Eligibility for SSI was extended to residents of the Northern Mariana Islands.

The income and resources of the immigration sponsors of aliens applying for SSI are considered in determining eligibility for and the amount of payment. After allowances for the needs of the sponsor and his or her family, the remainder is deemed available for the support of the alien applicant for a 3 -year period after admission to the United States for permanent residence. This provision does not apply to those who

[^19]become blind or disabled after admission, to refugees, or to persons granted political asylum.

## Other Benefits

1980 SSI applicants and recipients are not required as a condition of eligibility to elect to receive Veterans Administration pensions under the Veterans and Survivors' Pension Improvement Act of 1978.

## Alcoholism and Drug Addiction

Any disabled individual who has been medically determined to be an alcoholic or drug addict must accept appropriate treatment, if available, in an approved facility and demonstrate compliance with conditions and requirements for treatment.

## Institutionalization

An individual who is an inmate of a public institution is ineligible for SSI payments unless the institution
is a facility approved for Medicaid payments and is receiving such payments on behalf of the person. The Medicaid payment must represent more than 50 percent of the cost of services provided by the facility to the individual.

1976 An inmate of a publicly operated community residence serving no more than 16 persons may, if otherwise eligible, receive SSI.

1983 Payments may be made to persons who are residents of public emergency shelters for the homeless for a period of up to 3 months in any 12 -month period.

1986 Effective July 1, 1987, regularly determined SSI payment amounts can be paid to recipients of special SSI payments or qualifiers for Medicaid coverage under section 1619 for up to 2 full months if they reside in certain public medical, psychiatric, or Medicaid facilities, or in private Medicaid facilities.

## Vocational Rehabilitation and Treatment

1972 Blind and disabled individuals under age 65 must be referred to the State agency providing services under the Vocational Rehabilitation Act and must accept the services offered. States are reimbursed for the cost of services.
1976 Blind and disabled children under age 16 must be referred to the State agency administering crippled children's services, or to another agency designated by the State. States are reimbursed for the cost of services.

Of funds provided for these services, at least 90 percent
must be used for children under age 6 or for those who have never attended public schools.

1980 Blind and disabled SSI recipients who are determined to be medically recovered may continue to receive payments while enrolled in an approved vocational rehabilitation program, if the Commissioner of Social Security determines that by continuing in the program the probability of their leaving the rolls permanently will increase.

1981 Funding no longer provided under title XVI for services to children.
Reimbursement for the cost of rehabilitation services will be made if the services result in the recipient's return to work.

## Deeming of Income

1972 Deeming occurs when the income and resources of certain family members living in the same household with the SSI recipient are considered in determining the amount of the SSI payment. These family members are the ineligible spouse of an adult recipient and the ineligible parents of a child recipient under age $2 l$.

After personal allocations for the spouse (or parents) and for ineligible children in the home, and after application of income exclusions, any remaining income of the spouse (or parents) is added to the income of the eligible person.
1980 Children aged 18 or older are not subject to parental deeming.

Sponsor's income deemed to an alien for 3 years.

## Federal Benefit Payments

## Windfall Offset

1980 Offset (by reduction of retroactive Social Security benefits) to prevent persons who are paid initial OASDI retroactively to receive more in total benefits for the same period than if they were paid the benefits when regularly due.

1984 Offset provision expanded to allow for reduction of retroactive SSI benefits and to apply in cases of OASDI benefit reinstatement.

## Proration of Benefit

1982 Benefit for first month of eligibility to be prorated by
the number of days in the month for which an application has been filed and there is eligibility.

## Retrospective Monthly Accounting

1981 Changed the method of computing the SSI benefit to one under which the benefit amount is computed on a monthly basis and is based on income, living arrangements, and other conditions in the previous (or second previous) month.

## Uncashed Checks

1981 States that have federally administered supplements to be credited their share of SSI checks that remain unnegotiated for 180 days.

## Federal Benefit Levels

| 'For those without countable income. These payments are reduced by the amount of countable income of the individual or couple. <br> ${ }^{2}$ For recipients who live in another person"s household and receive sup- |  |  |  | one-third. |
|  |  |  |  | ${ }^{3}$ Included in this group are persons in private institutions whose care is |
|  |  |  |  | not provided by Medicaid. |

## Rounding of Payment Amounts

Cost-of-living adjustments in the Federal SSI benefit and income eligibility levels are to be rounded to the next lower whole dollar, after the adjustment is calculat-
ed. Subsequent cost-of-living adjustments will be calculated on the previous year's benefit standard before rounding.

## Exclusions From Income

## General

1972 The first $\$ 60$ of earned or unearned income per calendar quarter for an individual or couple; the next \$195 and one-half the remainder of quarterly earned income. Unearned income includes Social Security benefits, other government or private pensions, veterans' benefits, and workers' compensation.
1981 The first $\$ 20$ of earned or unearned income per month for an individual or couple; the next $\$ 65$ and onehalf the remainder of monthly earned income. Unearned income includes Social Security benefits, other government or private pensions, veterans' benefits, and workers' compensation.

## Special

Any amount of tax rebate issued to an individual by any public agency that is based on either real property or food purchase taxes.

Grants, scholarships, and fellowships used to pay tuition and fees at an educational institution.
Income required for achieving an approved self-support plan for blind and disabled persons.
Work expenses of blind persons.
For blind persons transferred from State programs to SSI, income exclusions equal to the maximum amount permitted as of October 1972 under the State programs.

Irregularly or infrequently received income totaling \$60 or less of unearned income and $\$ 30$ of earned income in a calendar quarter.

Payment for foster care of ineligible child residing in recipient's home through placement by a public or private nonprofit child care agency.

One-third of any payment received from an absent parent for the support of a child eligible for SSI.
Certain earnings of a blind or disabled child under age 22 regularly attending an educational institution.

State or local government cash payments based on need and designed to supplement SSI payments.

1976 Any assistance based on need (including vendor payments) made to or on behalf of SSI recipients, which is paid and wholly funded by State or local governments.

The value of assistance provided under certain Federal housing programs.

Persons forced to leave their homes due to a major disaster declared under the Disaster Act of 1974 (and occurring between June 1, 1976, and Dec. 31, 1976) will not have their payments reduced for the support and maintenance received in any residential facility, if they relocate within 30 days of the disaster. This provision is effective for up to 18 months.
1978 Provisions for exclusions for support and maintenance under the Disaster Act of 1974 extended on permanent basis. Effective Jan. 1, 1978.

1980 Remunerations received in sheltered workshops and work activity centers are considered earned income and qualify for earned income disregards.

Impairment-related work expenses paid by the individual (including cost for attendant care, medical equipment, drugs, and services necessary to control an impairment) are deducted from earnings when determining whether an individual is engaging in substantial gainful activity. Impairment-related work expenses are excluded in calculating income for benefit purposes if initial eligibility for benefits exists on the basis of countable income without applying this exclusion.
Earned income tax credit treated as earned income (temporarily excluded from 1975 through 1980).

1981 Modified provision under which irregularly or infrequently received income is excluded to conform to change from quarterly to monthly accounting; amounts excludable: $\$ 20$ or less of unearned income and $\$ 10$ of earned income in a month.

1982 From Dec. 18, 1982, to Sept. 30, 1983, certain home energy assistance payments are excluded if a State agency certified that they are based on need.

1983 Support or maintenance assistance (including home energy assistance) provided in kind by a nonprofit organization or in cash or in kind by certain providers of home energy is disregarded if the State determines that the assistance is based on need. Provision is applicable through September 1984.
Certain home energy assistance payments are excluded if a State agency certified that the assistance is based on need. Provision is applicable through June 1985.
1984 Above provisions for 1983 continued to Oct. 1, 1987.
1986 Educational Assistance under Higher Education Act of 1965 as amended.

1987 Above provisions for 1983 continued under waiver authority of section 1110(b) of the Social Security Act through Mar. 31, 1988.

## Limits and Exclusions From Resources

1972 Countable resources limited to $\$ 1,500$ or less for an individual and to $\$ 2,250$ or less for a couple.

Limit on countable resources raised by $\$ 100$ a year for individuals and $\$ 150$ a year for couples, beginning in calendar year 1985 through 1989. The respective limits would become $\$ 2,000$ for an individual and $\$ 3,000$ for a couple in 1989 and thereafter.

## General Exclusions

1972 A home of reasonable value-established by regulation as not exceeding a fair-market value of $\$ 25,000$ ( $\$ 35,000$ in Alaska and Hawaii).

Personal effects and household goods of reasonable value established by regulation as not exceeding a total market value of $\$ 1,500$.

An automobile of reasonable value-established by regulation as not exceeding a market value of $\$ 1,200$.
An automobile, however, may be excluded, regardless of value, if the individual's household uses it for employment or medical treatment, or if it is modified to be operated by or for transportation of a handicapped person.

Life insurance with face value of $\$ 1,500$ or less.
The recipient's home, regardless of value, is excluded from consideration in determining resources.

Reasonable value for an automobile increased by regulation to $\$ 4,500$ of current-market value; personal

Act
goods and household effects increased to $\$ 2,000$ of equity value.

Assets transferred for less than fair market value for the purpose of establishing eligibility for benefits under the Social Security Act are counted as resources for 24 months after transfer.

1982 The value, within prescribed limits, of a burial space for the recipient, spouse, and immediate family is excluded. In addition, $\$ 1,500$ each (less the value of already excluded life insurance and any amount in an irrevocable burial trust fund) may be set aside for the burial of the recipient and spouse, if held in separately identifiable burial funds.

1984 The unspent portion of any retroactive title II or title XVI payment is excluded for 6 months following its receipt, and the individual must be given written notice of the time limit on the exclusion.

## Special Exclusions

1972 Assets of a blind or disabled individual that are necessary to an approved plan of self-support.
Tools and other property essential to self-support, within reasonable limits. Shares of nonnegotiable stock in regional or village corporations held by natives of Alaska.

For persons transferred from State programs to SSI, resource exclusions equal to the maximum amount permitted as of October 1972 under the State program.

# Presumptive and Emergency Payments and Interim Assistance Reimbursement 

## Presumptive Payments

1972 A person applying on the basis of disability who meets all other criteria of eligibility may receive payments for 3 months pending the disability determination.

1976 Presumptive payment provision was extended to persons applying on the basis of blindness.

## Emergency Advance Payments

1972 Any applicant who can be presumed to meet the criteria of eligibility but has not yet been determined eligi-
ble and who is faced with a financial emergency may receive an immediate cash advance of up to $\$ 100$.

## Interim Assistance Reimbursement

1974 SSA may enter into agreements with the States to repay them directly for assistance payments made to an SSI applicant while his or her claim is being adjudicated. The repayment is made from the first check due to the individual. This legislation to expire June 30, 1976.

1976 The authority to repay the State for interim assistance was made permanent.

## Medicaid Eligibility

States can provide Medicaid coverage to all recipients of SSI payments. Alternatively, they could limit coverage by applying any more restrictive criterion from the State Medicaid plan in effect on Jan. 1, 1972.

States can accept SSA determination of eligibility, or make their own determination.

1976 Preserves the Medicaid eligibility of recipients who be-
come ineligible for cash SSl payments due to the cost-of-living increases in Social Security benefits.

1980 Blind and disabled recipients no longer eligible for either regular or special SSI payments because of their earnings may retain SSI recipient status for Medicaid eligibility purposes under the following conditions: (1) They continue to have the disabling impairment, (2) they meet all nondisability eligibility criteria except for earned income, (3) they would be seriously inhibited from continuing employment without Medicaid services, and (4) their earnings are insufficient to provide a reasonable equivalent of SSI payments and Medicaid.

In States that do not provide Medicaid coverage categorically to all SSI recipients, qualification for Medicaid benefits depends on the State's specific eligibility and program requirements.

The Medicaid provision of the 1980 legislation was in effect from Jan. 1, 1981, through Dec. 31, 1983. Under a 1 -year demonstration project, beginning Jan. 1,1984 , this provision was continued for persons already eligible for regular or special SSI payments, or retention of Medicaid eligibility.

Medicaid provision of 1980 legislation extended through June 30, 1987 (retroactive to Jan. 1, 1984).

Medicaid protection for disabled widow(er)s whose title II benefits increased in 1984 because of a change in the actuarial reduction formula.

The SSI recipient status for Medicaid eligibility provision of the 1980 amendments was made permanent.

Effective July 1, 1987, certain expenses that would be lost if SSI eligibility was discontinued may be excluded from earnings when determining sufficiency of earnings to establish SSI recipient status eligibility for Medicaid purposes-
impairment-related expenses of disabled persons;
work expenses of blind persons;
income required for achieving an approved selfsupport plan; and
the value of publicly funded attendant care services.

Effective July 1, 1987, preserves the Medicaid eligibility of recipients who become ineligible for SSI payments because of entitlement to, or an increase in, Social Security disabled adult child benefits on or after the effective date.

Effective July 1, 1987, requires all States to provide Medicaid coverage for recipients in special SSI status (either receiving special SSI payments or in the special recipient status described for 1980) if they received Medicaid coverage the month before special SSI status.

## State Supplementation

States were given the option of providing supplementary payments both to recipients transferred from the State program and to those newly eligible for SSI.

States may either administer the payments themselves or have the Social Security Administration make payments on their behalf. When State supplementary payments are federally administered, the Social Security Administration makes eligibility and payment determinations for the State and assumes administrative costs.
"Hold harmless" protection, which limits a State's fiscal liability to its share of OAA, AB, and APTD expenditures for calendar year 1972, was provided to States electing Federal administration of their supplementary plans. This provision applies only to supplementary payments that do not, on the average, exceed a State's "adjusted payment level." (The adjusted payment level is the average of the payments that individuals with no other income received in January 1972; it may include the bonus value of food stamps. Adjustments are provided for payments that had been below State standards.)
1976 After June 30, 1977, when the Federal SSI payment level is increased by a cost-of-living increase, such an increase will be disregarded in calculating the "hold harmless" amount.

Requires States to maintain State supplementation pay-
ments at the level" of December 1976 ("maintenance of payments") or to continue to pay in supplements the same total annual amounts ("maintenance of expenditures") when the Federal SSI payment level is increased and thereby pass through any increases in Federal benefits without reducing State supplements.

1982 Effective June 1982, States may switch from the "maintenance of expenditures" method of compliance with mandatory pass through to the "payment level" method, by maintaining the rates in effect for December previous to the change.

Began a 3-year phaseout of "hold harmless" protection. Effective with fiscal year 1985, Wisconsin and Hawaii (the only remaining "hold harmless" States) assumed the full cost of their supplementary payments.

1983 Federal pass-through law is adjusted (1) by substituting the State supplementary payment levels in effect in March 1983 for those in effect in December 1976 as the levels that States must maintain in complying with the pass through requirements, and (2) with regard to the $\$ 20$ (individual) and $\$ 30$ (couple) increase in the Federal SSI standard in July 1983, by requiring States to pass through only as much as would have been required if the SSI cost-of-living adjustment had been made in July 1985.

1986 Provided for Federal administration of State supplements to residents of medical institutions.

## Mandatory Minimum State Supplementation

1973a Provision was made for mandatory State supplementation as assurance against reduction of income for per-
sons who received State assistance in December 1973 and were transferred to SSI. These supplementary payments must equal the difference between (1) the amount of the State assistance payment that the individual received in December 1973 plus other income and (2) his or her Federal SSI payment plus other income.

# Aid to Families with Dependent Children, 1987 

## History of Program Provisions*

Title IV of the Social Security Act (enacted August 14, 1935) established the Federal-State program for aid to dependent children and authorized annual appropriations from general revenues for the Federal share of the program costs. The statutory requirements for approval of a State plan were: provisions that are effective in and mandatory for all political subdivisions of the State; single-agency administration or supervision of local administration by a single agency; opportunity for a fair hearing for those whose claims are denied; regular reporting to the Social Security Board; and no residence requirement for any child residing in the State for 1 year before the application for assistance or born in the State within 1 year of the application if the mother resided in the State for 1 year before the application.

The Act provided for payment quarterly by the Federal Government (actually effective February 1, 1936) of an amount equal to one-third of the approved State plan's expenditures, excluding monthly amounts above $\$ 18$ per child or, if more than 1 child, above $\$ 18$ for the first child and above $\$ 12$ for each other child in the family.
"Dependent child" was defined to mean a child under age 16 who is deprived of parental support or care by reason of the death, continued absence from the home, or physical or mental incapacity of a parent and who is living with a father, mother, grandparent, brother, sister, stepparent, stepsister or stepbrother, uncle, or aunt in a residence maintained by such relative as his or her home. "Aid to dependent children" is defined as "money payments to a dependent child(ren)."

## Eligibility

Act

## Optionai

Federal funds may not be withheld if a State chooses to include as eligible persons 16 - or 17 -year-old needy children not attending school. Effective July 1, 1957.
List of relatives with whom the needy child may live and receive aid expanded to include first cousin, nephew, or niece. Effective Aug. 1, 1956.
1961 "Unemployed parent" program. Child may be eligible if deprived of support and care by reason of the unemployment of a parent. Effective May 1, 1961.
1962 Second adult may be included as recipient for Federal matching purposes if second adult is either the spouse of an incapacitated parent of at least one of the children or the spouse of an unemployed parent in a State that includes a child deprived because of the unemployment of a parent. Effective Oct. 1, 1962.

1964 Dependent children aged 18-20 may be considered recipients for Federal matching purposes if they attend high school or a course of vocational or technical training designed to fit them for gainful employment. Effective Oct. 13, 1964.
1965 Dependerit children aged 18-20 may be considered recipients for Federal matching purposes if they at-

[^20]tend school, college, or university, or a course of vocational or technical training. Effective July 30, 1965.

1967 "Unemployed parent" program amended to be "unemployed father" program. For States with such programs, Federal matching is available only for families in need as the result of the unemployment of the father of at least one of the children and the State is required to comply with Federal definition of the word "unemployed." Needy child's father must also comply with Federal requirements. He (1) must not have been employed for at least 30 days before receiving aid, (2) must not have refused an offer of employment or training without good cause, (3) must be registered with the State public employment office, (4) must not be receiving unemployment compensation, and (5) must have worked at least 6 out of the last 13 calendar quarters. Effective Jan. 2, 1968.

Emergency assistance. Aid for up to 30 days in a 12month period to prevent destitution of children under age 21 and their families may be provided but cannot be extended to a family in need as the result of refusal (without good cause) to accept work or training for employment. Extendable throughout the State or in specified areas to migrant workers with dependent children. Effective Jan. 2, 1968.

1979 "Unemployed father" program amended to be "unemployed parent" program. For States with such programs, the Supreme Court ruled that it is unconstitutional to make AFDC benefits available to families with an unemployed father but not to families with an unemployed mother. Effective June 25, 1979.

1980 Otherwise dependent children aged 18-20 attending a college or university may be excluded from the definition of a child. Effective Dec. 28, 1980.

1981 A child for AFDC eligibility purposes must be under the age of 18 or, at State option, under the age of 19 and a full-time student who is expected to complete his or her secondary education or equivalent technical training before reaching age 19. Effective Oct. 1, 1981.

Payments to families on the basis of the unemployment of a parent shall be made only when the parent who is the principal earner (the parent who had the greatest amount of earnings during the 24 months preceding the month of application) is unemployed. Effective Oct. 1, 1981.
State may pay benefits to pregnant women who have no
other eligible children only when it has been medically verified that the child is expected to be born within the 3-month period following the month of the initial payment. States may provide Medicaid coverage to pregnant women who, except for this limitation, would be entitled to AFDC benefits, from the date of medical verification of the pregnancy. Effective Oct. 1, 1981.

1982 Dependent child definition amended to provide that a parent whose absence is occasioned solely by reason of the performance of active duty in a uniformed service of the United States is not considered absent from the home. Effective Oct. 1, 1982.

## Federal Matching Formula

Change in Federal share of expenditures within specified maximums. Federal payment: $1 / 2$ of $\$ 18$ per month for the first child and $1 / 2$ of $\$ 12$ per month for each additional child. Effective Jan. 1, 1940.

1946 Change in Federal matching maximum and in Federal share of expenditures within specified maximums. Introduction of the average expenditure per child up to an individual maximum. Federal payment: $2 / 3$ of the first $\$ 9$ (average payment per child) multiplied by the total number of children receiving AFDC plus $1 / 2$ of the remaining amount up to a total of $\$ 24$ per month for the first child and $\$ 15$ per month for each additional child. Effective Oct. 1, 1946.

1948 Change in Federal matching maximum, Federal share of expenditures within specified maximums, and average expenditure per recipient. Federal payment: 3/4 of the product of the first $\$ 12$ (average payment per child) multiplied by the total number of children receiving AFDC plus $1 / 2$ of the remaining amount up to a total of $\$ 27$ per month for the first child and $\$ 18$ for each additional child. Effective Oct. 1, 1948.

One needy relative may be included with dependent child as a recipient for Federal matching purposes. Federal payment for the 50 States and the District of Columbia: $3 / 4$ of the product of the first $\$ 12$ (average payment per recipient) multiplied by the total number of recipients receiving AFDC plus $1 / 2$ the remaining amount up to a total of $\$ 27$ per month for the first child, $\$ 27$ per month for one needy relative, and $\$ 18$ per month for each additional child. Effective Oct. 1, 1950.

AFDC extended to Puerto Rico and the Virgin Islands, but assistance limited by maximum on the annual Federal payment established by the Federal Government. Federal payment: $1 / 2$ of $\$ 18$ per month for the first child and $1 / 2$ of $\$ 12$ per month for each additional child. Effective Oct. 1, 1950.

Special matching formula available to States that extended AFDC to Navajo and Hopi Indians. The Federal Government pays $80 \%$ of the State's share of AFDC payments made to such groups in addition to the Federal share under the basic formula. Effective Apr. 19, 1950.

Payments made to suppliers of medical or remedial care on behalf of AFDC recipients (medical vendor payments) may be matched by Federal funds up to the individual monthly payment maximum. Effective Oct. 1, 1950.

Change in Federal matching maximum, Federal share of expenditures within specified maximums, and average expenditure per recipient. Federal payment: 4/5 of the first $\$ 15$ (average per person) multiplied by the total number of persons receiving AFDC plus $1 / 2$ the remaining amount up to a total of $\$ 30$ per month for one needy relative with whom the dependent child is living, and $\$ 21$ per month for each additional child. Effective Oct. 1, 1952.

1956 Change in Federal matching maximum, Federal matching percentage, and average expenditure per recipient. Federal payment: $14 / 17$ of the first $\$ 17$ (average per person) multiplied by the total number of persons plus $1 / 2$ of the remaining amount up to $\$ 32$ for the first child, $\$ 32$ for one needy relative, and $\$ 23$ for each additional child. Effective Oct. 1, 1956.

State may implement an optional Federal matching formula for its medical vendor payments program ( $\$ 6-\$ 3$ formula). (Permits Federal sharing in State's total expenditures for medical vendor payments-identified separately from "money payments"-up to $1 / 2$ the sum of $\$ 6$ multiplied by the number of adult recipients and $1 / 2$ the sum of $\$ 3$ multiplied by the number of child recipients.) Effective July 1, 1956. Repealed as of Sept. 30, 1958.

1958 Introduction of the variable Federal matching percentage. Federal matching percentage is applied to States (other than Guam, Puerto Rico, and the Virgin Islands) as a variable percentage depending on the ratio of the State's per capita income to the national per capita income. Federal payment: 14/17 of the first $\$ 17$ per month (average per recipient) multiplied by the total number of AFDC recipients plus the variable Federal matching percentage of the amount by which expenditures exceed this maximum (\$17) up to a total of $\$ 30$ multiplied by the total number of recipients. Federal matching percentage may in no case be less than $50 \%$ or more than $65 \%$. Federal match-
ing percentage is $50 \%$ for Alaska and Hawaii. Effective Oct. 1, 1958.

AFDC extended to Guam, but assistance is restricted by a maximum of the annual payment established by the Federal Government. Effective Oct. 1, 1958.

1965 For the 50 States and the District of Columbia, change in the percentage of Federal payments. Change in the average payment per recipient. Federal payment: 5/6 of the first $\$ 18$ per month (average per recipient) multiplied by the total number of AFDC recipients plus the Federal percentage of the amount by which expenditures exceed this maximum ( $\$ 18$ ) up to a total of $\$ 32$ multiplied by the total number of recipients. (Beginning 1962, the count of recipients could include a second needy adult under specified circumstances.) Effective Jan. 1, 1966.

Alternate formula established. Available to a State operating an approved plan for medical assistance under title XIX of the Social Security Act. Federal medical assistance percentage for that program is applied to total expenditures for medical vendor payments and State may elect to apply it also (instead of the "regular formula" identified above as effective Jan. 1, 1966) to the total expenditures for money-payment assistance. Effective Jan. 1, 1966, or the date thereafter within any fiscal year when the State operating a medical assistance program makes the election of the alternate formula for Federal financial participation in total expenditures for assistance.
1967 Separate formula established for Federal financial participation in foster home care for dependent children. Federal payment: 5/6 of the first $\$ 18$ per month (average per recipient) multiplied by the number of foster care recipients plus the Federal percentage of the
amount by which expenditures exceed this maximum ( $\$ 18$ ) up to a total of $\$ 100$ multiplied by the number of foster care recipients. (Federal payments for foster home care previously governed by basic formula.) Effective Jan. 2, 1968.

1971 Federal financial participation in expenditures for the work incentive program (WIN) is increased from $80 \%$ to $90 \%$ of total expenditures. Effective July 1, 1972.

Federal financial participation in special supportive services under the WIN program is increased from $75 \%$ to $90 \%$ of such expenditures. Effective July 1, 1972.

1977 The number of individuals for whom protective payments or payments to a person furnishing goods or services are made who can be counted as recipients for Federal financial participation in any month is limited to $20 \%$ of the number of other AFDC recipients in the State for that month. Effective July 1, 1977.

A special financial incentive was established for States if the dollar error rate of aid furnished by a State under its State plan was less than $4 \%$. Effective Jan. 1, 1978.

1979 The Federal medical assistance percentage for Puerto Rico, the Virgin Islands, and Guam is $75 \%$. Effective for quarters after Sept. 30, 1978.

1981 State may make restricted payments to AFDC families, regardless of the number and percentages previously applicable, when the conditions warranting such payments are met. The conditions and documentation necessary to initiate such payments are waived when the request for such payments is initiated by the recipient. Effective Oct. 1, 1981.

## Income and Resources Considered and Disregarded

## Mandatory

1939 State agency must take into consideration any other income and resources of any child claiming AFDC. Effective July 1, 1941.
1950 No aid will be furnished under AFDC to any individual who is in concurrent receipt of AFDC and old-age assistance under the Social Security Act. Effective Oct. 1, 1950.

1967 State must disregard all earnings of a child receiving AFDC who is a full-time student or a part-time student but not a full-time employee and is attending a school, college, or university, or a course of vocational or technical training designed to fit him or her for gainful employment. State must also disregard the first $\$ 30$ and $1 / 3$ of the remainder of the total of monthly income earned by all other individuals living in the same household whose needs are taken into account in determining need for AFDC. Optional Jan. 1, 1968-June 30, 1969; mandatory July 1, 1969.
A recipient of SSI payments must not be regarded as a member of an AFDC family for the purposes of
determining the amount of the family benefits nor have his or her income and resources counted as income and resources of the family. Effective July 1, 1973.

1975 State plan must require that, for the 15 months beginning July 1, 1975, in determining need the State agency must, for any month in that year, disregard amounts payable under the child support provisions of the Social Security Act. Effective July 1, 1975.

1981 State agency shall disregard from the earned income of any individual receiving assistance in any month the following amounts in the following order: the first $\$ 75$ (or less for other than full-time employment throughout a month); child or attendant care costs of up to $\$ 160$ per month for full-time care for each individual requiring care; and $\$ 30$ and $1 / 3$ of any remainder. If an individual's income exceeds his or her needs without application of the " $\$ 30$ and one-third" disregard, it may not be applied unless he or she received assistance in 1 of the preceding 4 months, and after it has been applied for 4 months, it may not again be applied until an individual has received
no assistance for 12 consecutive months. Effective Oct. 1, 1981.
A family shall not be eligible for aid under a State plan for any month in which the combined gross income of all members of the assistance unit exceeds $150 \%$ of the State standard of need. Effective Oct. 1, 1981.

State agency shall, in determining need, consider any other income and resources of an individual claiming assistance and shall determine ineligible for aid any family whose members combined resources exceed $\$ 1,000$ in equity value, or a lesser amount established by the State. The home in which the family resides and one automobile are disregarded to the extent that an individual's ownership interest in the automobile does not exceed an amount specified by the Secretary of HHS. Effective Oct. 1, 1981.
An individual's earned income in any month shall include to the extent and under circumstances prescribed by the Secretary of HHS an amount equal to the earned income advance amount that is or would be payable under section 3507(a) of the Internal Revenue Code of 1954. Effective Oct. 1, 1981.
Countable nonrecurring income in excess of the State standard of need received by any member of an assistance unit in a month shall be combined with all other countable income received by the farnily during that month and the assistance unit shall be ineligible for the number of months (including the month of receipt) resulting from a division of this sum by the State standard of need. Effective Oct. 1, 1981.

Income of a stepparent living in the same home with a dependent child shall be considered the income of said child to the extent that it exceeds: the first $\$ 75$ of earned income, plus the State standard of need for the stepparent and any of his or her dependents living in the same household, plus any payments, including alimony and child support, made to dependents living elsewhere. Effective Oct. 1, 1981.

Income and resources of the sponsor (and the sponsor's spouse) of an alien shall, for a period of 3 years alter the alien's date of entry into this country, be deemed to be the income and resources of the alien within certain limits. Effective Oct. 1, 1981.

State shall round both its need standard and monthly payment amount to the next lower whole dollar. Effective Oct. 1, 1982.

State may not provide assistance for any period prior to the date of application. Effective Oct. 1, 1982.
1984 Gross income limit raised to $185 \%$ of the State need standard. Effective Oct. 1, 1984.
Applications on behalf of a dependent child must include the siblings and the natural or adoptive parents living in the same household as the dependent child. Any income and resources of these relatives is counted to determine eligibility and the amount of the payment. Effective Oct. 1, 1984.
When living together, income of the parent(s) or legal guardian(s) of a minor parent (or legal guardian) is considered available to the minor and the dependent
child (subject to the stepparent disregards). Effective Oct. 1, 1984.

Aliens sponsored by an agency or organization are ineligible for assistance for 3 years from date of entry into the United States, unless the sponsoring agency is no longer in existence or has become unable to meet the alien's needs. Effective Oct. 1, 1984.
States must disregard the first $\$ 50$ per month of the current monthly support obligation whether collected on the family's behalf or received directly by the family. Effective Oct. 1, 1984.
After the expiration of the $\$ 30$ and one-third earned income disregard, States must disregard the first $\$ 30$ of earned income for an additional 8 months (for a total of 12 months); extend the $\$ 75$ standard work expense disregard to part-time workers; and count the earned income credit (EIC) only when actually received. Effective Oct. 1, 1984.
States must exempt from countable resources burial plots and funeral agreements for members of the assistance unit. Also, for a limited time, States must exempt real property the family is making a "good faith" effort to sell but only if the family agrees to repay benefits. Effective Oct. 1, 1984.

## Optional

1962 State may permit all or any portion of earned or other income of a family to be set aside for the "future identifiable needs" of a dependent child. Effective July 1, 1963. (Rescinded effective Oct. 1, 1981.)

1965 In connection with the "pass along," the State may disregard not more than $\$ 5$ of any income. Effective Oct. 1, 1965. (Rescinded effective Oct. 1, 1981.)

State may disregard up to $\$ 50$ per month of the earned income of a needy child under age 18 but may not disregard more than $\$ 150$ of earned income in the same AFDC home. Effective July 1, 1965. (Superseded by mandatory disregard, effective July 1, 1969.)
1967 State may disregard all earnings of a full-time student or a part-time student who is not a full-time employee. State may also disregard the first $\$ 30$ and $1 / 3$ of the remainder of monthly income earned by all other family members. (If the State implemented this amendment in 1968, the 1965 amendment on disregarding $\$ 50$ of earned income was superseded.) Exemptions not mandatory for Puerto Rico, the Virgin Islands, and Guam until July 1, 1972, and then could be set at an amount lower than " $30+1 / 3$ " as negotiated by the Secretary of HHS and the respective jurisdiction. Effective Jan. 2, 1968 (optional until July 1, 1969).
Essential person. If, in determining need, State chooses to consider the needs of any other individual living in the same household as the AFDC child or relative, then the income and resources of such individual must be considered with the income and resources of the child or relative. Effective July 1, 1969.
1981 State may consider as income food stamp allotments and/or housing or rental subsidies that duplicate the
food/housing allowance payable to a family of the same size and composition with no income. Effective Oct. 1, 1981.

State plan must provide safeguards permitting the use or disclosure of information on AFDC applicants or recipients only to (a) public officials requiring such information in connection with official duties or (b) other persons for purposes directly connected with plan administration. Effective Aug. 1, 1975.

State plan must (1) require each applicant or recipient to furnish to the State agency his or her Social Security number(s) and (2) provide that the State shall use such number(s) in addition to any other means of identification it may determine. Effective Aug. 1, 1975.

State plan must provide safeguards restricting the use or disclosure of information on AFDC applicants or recipients to purposes directly connected with (1) administering the approved State plan or program; (2) any investigation, prosecution, or criminal or civil proceeding conducted in connection with the administration of the plan or program; or (3) the administration of any other Federal or federally assisted program producing assistance, in cash or in-kind or service, directly to individuals on the basis of need;

## Mandatory

State must grant an opportunity for a fair hearing to any individual whose claim for AFDC is denied or not acted upon with reasonable promptness. Effective July 1, 1951.

## Mandatory

State plan must provide safeguards restricting the use or disclosure of information on AFDC applicants or recipients to purposes directly connected with plan administration. Effective July 1, 1941.

States may disregard, for up to 6 months, the earned income of a dependent child if derived from participation in a program under the Job Training Partnership Act (JTPA). Effective Oct. 1, 1982.

1984 States may disregard, for up to 6 months, the earned income of a dependent child who is a full-time student. Effective June 1, 1984.

## Fair Hearing and Equal Opportunity

All individuals wishing to apply for AFDC must have the opportunity to do so. Effective July 1, 1951.

1975 State plan must provide that all individuals wishing to apply for AFDC have the opportunity to do so and that AFDC will be furnished with reasonable promptness to all eligible individuals. Effective Aug. 1, 1975.

## Privacy and Disclosure

1951 Federal aid cannot be withheld from a State that chooses to disclose certain limited information concerning AFDC applicants or recipients. Effective Oct. 20, 1951.

1984 State may disclose the address of a fugitive felon to State or local law enforcement officials. Effective Oct. 1, 1984.

1977 Wage information available from the Social Security Administration under section 411 of the Social Security Act and wage information available (under the provisions of the Federal Unemployment Tax Act) from agencies administering State unemployment compensation laws must be requested and used to the extent permitted under those Acts, except that the State need not request such information if available from the agency administering the State unemployment compensation laws. Effective Oct. 1, 1979.

1980 AFDC information will be made available to governmental audit agency if authorized by law. Effective Sept. 1, 1980.

## Optional

safeguards so provided must prohibit disclosure to any committee or legislative body of any information identifying by name or address any applicant or recipient. Effective Aug. 1, 1975.

## Foster Care

## Mandatory

1967 Foster care for dependent children related to AFDC is to be available, as required by law, July 1, 1969. Such care must be provided for children in child care insti-

## Optional

1961 Federal financial participation available if State chooses to extend AFDC to recipient child (1) who is removed from the home of parent or relative, (2) for whom
a judicial determination has been made that continuing in the home would be contrary to the welfare of such child, and (3) who is placed in foster family home under the responsibility of the State or local agency administering AFDC. Effective May 1, 1961.

## Protective and Vendor Payments

Mandatory
Removal of vendor payment limitation for child support. Effective Aug. 1, 1975.

## Optional

Federal financial participation may be claimed for protective or vendor payments made with respect to any dependent child to another individual who is interested in or concerned with the welfare of such child or needy relative, or directly to a person furnishing food,
living accommodations, or other goods, services, or items to or for such child, relative, or other individual. Effective Jan. 2, 1968.

The limitation on the proportion of recipients for whom protective payments can be made because of their inability to manage their funds may be increased from $5 \%$ to $10 \%$ of the number of other AFDC recipients. Excluded from this limitation are recipients for whom such payments must be used because (without good cause) they refuse to work, to register for work, or to participate under a work or training program. Effective Jan. 2, 1968.

1976 State plan may provide for the institution of procedures, in any or all areas of the State, under which any household participating in the Food Stamp program will be entitled to have the charges for its coupon allotment under such program deducted from any aid in the form of money payments, payable to such household (or any member or members thereof) under the plan, and to have its coupon allotment distributed to it with such aid. Effective July 1, 1977.

1977 Dependent child's payments, intended to enable the recipient to pay for specific goods, services, or items recognized by State agency as a part of the child's need under State plan, may be made in the form of checks drawn jointly to the order of the recipient and the person furnishing such goods, services, or items and negotiable only upon endorsement both by the recipient and such person. Effective Oct. 1, 1977.

1981 Recipient may voluntarily request vendor payments. Effective Oct. 1, 1981.

States may continue to make payments on behalf of the remaining members of the assistance unit to a parent or other caretaker who fails to comply with certain work or child support requirements if, after reasonable efforts have been made, the State is unable to identify a suitable protective payee. Effective Oct. 1, 1984.

## Work Incentive

## Mandatory

State must, in determining need, take into consideration any other income and resources of any child or relative claiming AFDC, as well as any expenses reasonably attributable to the earnings of such income. Effective July 1, 1963.
referred to the work incentive program by State agency officials unless (1) under age 16, (2) ill or incapacitated, (3) attending school, (4) needed to be continually present in the home because of the illness or incapacity of another member of household, or (5) exempted by decision of State agency. Effective Jan. 2, 1968.

Federal financial participation in State community work
and training programs under section 409 of the Social Security Act to cease after June 30, 1968. Effective July 1, 1969.

1971 To be eligible for AFDC, every individual must register for manpower services, training, and employment as provided by regulations issued by the Secretary of Labor unless (1) under age 16 or attending school full time; (2) ill, incapacitated, or of advanced age; (3) so remote from a WIN project that effective participation is precluded; (4) needed in the home to care for another family member who is ill or incapacitated; (5) a mother or other relative of a child under age 6 who is caring for the child; or (6) a mother or other female caretaker of a child if the father or other male relative is in the home and not exempted under the law, unless he has failed to register. Also, any individual referred to in item (5) has the option to register. Effective July 1, 1972.

State is not to be denied Federal aid by reason of registration or the individual's certification to the Secretary of Labor. (A separate administrative unit in the State agency will (1) administer a special program of supportive services such as health, vocational rehabilitation, counseling, and child care to enable individuals to accept employment or receive training and (2) certify to the Secretary of Labor those individuals who are ready for employment or training under the work incentive program.) Effective July 1, 1972.

Federal Government will withhold a percentage of the Federal share of WIN funds in an amount equal to the difference between $15 \%$ (the penalty-free minimum) of registered workers certified to local employment offices in a given State and that percentage of certified individuals in said State less than such $15 \%$. Effective July 1, 1972.

1981 Participation in a strike shall not constitute good cause to leave, refuse to accept, or seek employment and AFDC is not payable to a family for any month in which the natural or adoptive parent is, on the last day of that month, participating in a strike. Aid is not payable to or for any other individual who is participating in a strike on the last day of a month. Effective Oct. 1, 1981.

As a condition of eligibility, an individual must be available for employment and/or employment-related services unless he or she is a child who is under the age of 16 or attending an elementary, secondary or vocational/technical school full time, the parent of a child under the age of 6 who is personally providing care for said child with only brief and infrequent absences or an individual who meets other conditions previously specified in the statutes. Effective Oct. 1, 1981.

## Optional

Federal matching is made available for States whose AFDC recipients aged 18 or older and living with dependent children participate in a community work and training program if (1) health and safety regulations are observed, (2) State pays the recipient no less than the minimum wage, (3) the employment serves a useful purpose, (4) the recipient is covered under
workers' compensation, and (5) the recipient's expenses attributable to his or her work are considered in determining need of relative. Effective Oct. 1, 1962.

1976 The definition of "dependent child" with respect to the "unemployed father" provisions of the Act is applicable if the approved State plan provides for the denial of AFDC to a child or relative as specified in the law: (1) if and for so long as such child's father, unless exempt under the law, is not registered for WIN pursuant to such section of the law or-if he is exempt under such section or if no such program in which he can effectively participate has been established or provided-is not registered with public employment offices in the State and (2) with respect to any week for which such child's father qualifies for unemployment compensation under a Federal or State unemployment compensation law but refuses to apply for or accept such unemployment compensation. State plan must also provide for the reduction of the amount otherwise payable under AFDC by the amount of any unemployment compensation that such child's father receives under a Federal or State unemployment compensation law. Effective Nov. 1, 1976.

Secretary of HHS and Secretary of Labor may jointly enter into an agreement with each State able and willing to do so (1) to simplify procedures to be followed by unemployed fathers and other unemployed persons in such State in registering for WIN and with public employment offices or in connection with applications for unemployment compensation by reducing the number of locations or agencies to which such persons must go in order to register or apply and (2) to provide where possible for a single registration. Effective Jan. 20, 1976.

1981 State may establish a community work experience program designed to improve the employability of AFDC recipients. Individuals, including a parent or relative of a child who is 3 years of age or older, may be required to participate in this program for the number of hours resulting from a division of the AFDC grant by the higher of the Federal or State minimum wage rate. Health, safety, and other reasonable working conditions must be maintained and a work assignment must be reasonable in terms of the individual's abilities and location. Effective Oct. 1, 1981.

State may develop and operate a work supplementation program as an alternative to AFDC. Participation by applicants/recipients shall be voluntary but States may vary benefit levels geographically and/or by categories of recipients to encourage participation and to finance the job program. Federal requirements dealing with the treatment of income may also be waived under this program. Effective Oct. 1, 1981.

State may elect as an alternative to the work incentive program otherwise provided in this part to operate a work incentive demonstration program for the purpose of demonstrating single-agency administration of the work-related objectives of this Act. Maximum State flexibility in the design and operation of such program is assured. States must submit an application to administer this program within 60 days of
enactment of this legislation and, once approved, the project will be in force for 3 years. Effective Aug. 13, 1981.

1982 State may establish an employment search program designed to place AFDC applicants and recipients in jobs. Effective Oct. 1, 1982.

1984 Federal agencies may host Community Work Experience

Program (CWEP) participants but State must provide same workers' compensation and tort claims protections to such participants as it provides to other CWEP participants in the State. Effective Oct. 1, 1984.

States may operate grant diversion programs in all or part of the State. Effective Oct. 1, 1984.

## Child Support Enforcement

## Mandatory

1965 Secretary of HHS must furnish address (or address of most recent employer, or both) of an individual upon request of any State or local agency administering the approved State plan if (1) a court order has been issued against such individual for the support and maintenance of his or her child or children, (2) such child or children are applicants for or recipients of aid, (3) all other sources of information have been investigated without success, and (4) such information is requested for the purpose of obtaining such support and maintenance. Effective July 30, 1965.

1967 When State welfare agencies have been unable to locate the absent parent or parents of children receiving AFDC through all sources available to them, the Internal Revenue Service will make available any information it has concerning their whereabouts. Effective Jan. 2, 1968.

1975 State plan must provide for prompt notice (including transmittal of all relevant information) to the State child-support collection agency of the furnishing of AFDC payments for a child deserted or abandoned by a parent (including a child born out of wedlock whether or not the paternity of such child has been established). Effective Aug. 1, 1975.

State plan must provide that, as a condition of eligibility for aid, each applicant or recipient will be required (1) to assign to the State any rights such applicant may have to support from any other person (i) in his own behalf or on behalf of any other family member for whom the applicant is applying for or receiving aid and (ii) that have accrued when such assignment is executed and (2) to cooperate with the State (i) in establishing the paternity of a child born out of wedlock for whom aid is claimed and (ii) in obtaining support payments for such applicant and for a child with respect to whom such aid is claimed, or any other. payments or property due such applicant or such child ${ }^{\prime}$ and that, if the relative with whom a child is living is found ineligible because of failure to comply with the requirements, any aid for which such child is eligible will be in the form of protective payments, regardless of the eligibility of the relative. Effective Aug. 1, 1975.

State plan must provide that the State has in effect an approved child support plan and operates a child support program in conformity with such plan. Effective Aug. 1, 1975.

Amount payable to any State for child-support programı for quarters in a fiscal year will, for quarters beginning after Dec. 31, 1976, be reduced by $5 \%$ of such amount if such State is found by the Secretary of HHS in the annual audit to have failed to have an effective program in any fiscal year beginning after Sept. 30, 1976 (but, for the fiscal year beginning Oct. 1, 1976, only considering the second, third, and fourth quarters). Effective Aug. 1, 1975.

No State may be found, before Jan. 1, 1977, to have failed substantially to comply with requirements if, in the judgment of the Secretary of HHS, such State is making a "good faith" effort to implement its program. Effective Aug. 1, 1975.
The term "aid to families with dependent children" does not cover payments with respect to a child's parent (or other individual whose needs such State determines should be considered in determining the need of the child or relative claiming aid under the approved State plan) who fails to cooperate with any State agency or official in obtaining such support payments. This provision may not be construed to make an otherwise eligible child ineligible for protective payments because of the failure of such parent (or such other individual) to so cooperate. Effective Aug. 1, 1975.

State plan is to provide that, in determining the amount of aid to which an eligible family is entitled, any portion of the amounts collected in any particular month as child support and retained by the State under the provisions for distribution of the collections that (under the approved State plan in effect both during July 1975 and during that particular month) would not have caused a reduction in the amount of aid paid directly to the family, is to be added to the amount of aid otherwise payable to such family. Effective Aug. 1, 1975.

State plan is to provide that, as a condition of eligibility for aid, each applicant or recipient will be required to cooperate with the State in establishing paternity and in obtaining support payment unless such applicant or recipient is found to have good cause for refusing to cooperate as determined by State agency in accordance with standards prescribed by the Secretary of HHS, which must take into consideration the best interests of the child on whose behalf aid is claimed. Effective Aug. 1, 1975.

State must pay to the family the amount disregarded (up. to first $\$ 50$ per month) from support the State receives from an absent parent. Effective Oct. 1, 1984.

## Other

## Mandatory

State must provide prompt notice to appropriate law enforcement officials of the furnishing of aid for a child who has been deserted or abandoned by a parent. Effective July 1, 1952.

If a State includes a durational residence requirement as a condition of eligibility, it may not exclude from assistance: (1) any needy child living in such State for 1 year immediately preceding the application for aid or (2) any needy child under age 1 who was born in the State or whose parent or relative (with whom the child is living) has resided in the State for 1 year
preceding the child's birth. Effective July 1, 1952.
1962 Title changed from "aid to dependent children" to "aid and services to needy families with children." Effective July 25, 1962.
1985 State plan is to provide that, as a condition of eligibility for aid, each applicant or recipient must cooperate with the State in identifying and providing information to assist States in pursuing any third party who may be liable to pay for care and services available under title XIX, unless such individual has good cause for refusing to cooperate as determined by the State agency in accordance with standards prescribed by the Secretary of HHS. Effective July 1, 1986.

Table N.-Determination of Federal share for AFDC and Medicaid ${ }^{1}$

| State | Federal percentage |  |  | Federal medical assistance percentage |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $1986{ }^{2}$ | 198734 | 19885 | $1986{ }^{2}$ | 198734 | $1988{ }^{5}$ |

Sections $1101(\mathrm{a})(8)(\mathrm{A})$ and 1905(b) of the Social Security Act specify the method to be used to compute the Federal percentages and the Federal medical assistance percentages. From these sections the following formulas are derived:
$\mathrm{N}=3$ year average national per capita personal income
$\mathrm{S}=3$ year average State per capita personal income
Federal percentage:
State share $=\left(\mathrm{S}^{2} / \mathrm{N}^{2}\right) \times 50$ or $\left(50 / \mathrm{N}^{2}\right) \times \mathrm{S}^{2}$
Federal share $=100-$ State share but with $50-65$ percent limits
Federal medical assistance percentage:
State share $=\left(S^{2} / N^{2}\right) \times 45$ or $\left(45 / N^{2}\right) \times S^{2}$

Federal share $=100-$ State share but with $50-83$ percent limits
${ }^{2}$ Effective Oct. 1, 1985 through Sept. 30, 1986.
${ }^{3}$ Effective Oct. 1, 1986 through Sept. 30, 1987.
${ }^{4}$ Public Law 99-509 allows States to use the fiscal year 1986 percentages if use of the fiscal year 1987 percentages would reduce the amount of payment made to the State.
${ }^{5}$ Effective Oct. 1, 1987 through Sept. 30, 1988.
${ }^{6}$ For purposes of title XIX of the Social Security Act, the Federal medical assistance percentage will be 50 percent.

# Food Stamp Program (as of October 1987) 

Under the Food Stamp program, single persons and those living in households meeting nationwide standards for income and assets may receive coupons redeemable for food at most retail food stores. The monthly amount of coupons a unit receives is determined by household size and income. Households without income receive the determined monthly cost of a nutritionally adequate diet for their household size. This amount is updated to account for food price increases. As of October 1987, an eligible four-person household with no income receives $\$ 290$ monthly in food stamps. Households with income receive the difference between the amount of a nutritionally adequate diet and 30 percent of their income, after certain allowable deductions.

To qualify for the program, a household must have less than $\$ 2,000$ in disposable assets ( $\$ 3,000$ if one member is aged 60 or older, gross income below 130 percent of the Office of Management and Budget (OMB) poverty guidelines, and net income below 100 percent of the poverty guidelines. Households containing a person aged 60 or older or a disabled person receiving Supplemental Security Income (SSI), Social Security (OASDI), or veterans' disability benefits may have gross income exceeding 130 percent of OMB's poverty guidelines, but income after subtracting the deductions listed below must be less than 100 percent of the poverty guidelines. One- and two-person households that meet the applicable standard receive at least $\$ 10$ a month in food stamps. All households must meet these requirements, even those receiving other Federal assistance payments. Monthly deductions from income are:
(1) Twenty percent of earned income.
(2) A standard deduction, currently $\$ 102$ (this amount is updated in October).
(3) The amount paid for child care while the child's caretaker is working or looking for work, up to $\$ 160$ a month.
(4) Any medical expenses for an aged or disabled person as defined above after subtracting $\$ 35$. If more than one person in the household is aged or disabled, only $\$ 35$ is subtracted before deducting combined medical expenses.
(5) An excess shelter deduction, which is total shelter costs including utilities minus 50 percent of income after all the above deductions have been subtracted, and limited to $\$ 152$. This amount was effective October 1, 1987, for households whose certification for benefits began before October 1, 1987. For households initially eligible for benefits or recertified after October 1, 1987, the limit on the excess shelter deduction will be raised to $\$ 164$. Households with an aged or disabled person, as defined above, do not have a limit on this deduction.

Households are certified for varying lengths of tıme, depending on their income sources and individual circumstances. Recertification is required at least annually. Households whose sole' income is from SSI payments or Social Security benefits are certified for a 1-year period. Moreover, households must report
income or expense changes of $\$ 25$ or more or other changes in household circumstances that would affect eligibility. Families with income or food loss resulting from disaster situations such as hurricanes or floods may be eligible for food stamps for a period up to 1 month if they meet the special disaster income and asset limits.

Special provisions allow drug addicts, alcoholics, blind, or disabled residents in certain group living arrangements, residents of shelters for battered women and children, and persons aged 60 or older to use their coupons for meals prepared at a nonprofit facility. Households whose members are aged 65 or older or mentally or physically handicapped may be certified for food stamps by telephone or through a home visit.

The Food Stamp program is in effect in the 50 States, the District of Columbia, Guam, and the Virgin Islands. (Beginning in July 1982, Puerto Rico receives a block grant for nutrition assistance and is not part of the Food Stamp program.) The Food Stamp program is administered nationally by the Food and Nutrition Service of the Department of Agriculture and operates through local welfare offices and the Nation's food marketing and banking systems. Since August 1, 1980, persons receiving or applying for SSI payments have been permitted to apply for food stamps at their Social Security district office. The Federal Government, through general revenues, meets the full cost of food stamps, but Federal and State programs share administrative costs.

Initiated on a pilot basis in 1961, the program was formally established by the Food Stamp Act of 1964, with 22 States participating. Originally, food stamp coupons were purchased by participants. The difference between the face value of the coupons and the amount the participant paid was known as the "bonus value." The amount paid for coupons varied according to household income. Legislation in 1971 required family allotments large enough to purchase a nutritionally adequate diet, established national eligibility standards, provided free food stamps to the poorest recipients, required automatic cost-of-living increases in food stamp allotments, and established work-registration requirements for able-bodied adult household members up to age 65 (except students and those needed at home to care for children). Legislation in 1973 expanded the program (while phasing out the family food distribution program), provided for semiannual adjustment of coupon allotments, and broadened the categories of persons eligible to participate.

Legislation in 1977 enacted major changes. The purchase requirement was eliminated and households began receiving only the bonus portion of their coupon allotment. Deductions from income were limited to a standard deduction, a 20 -percent earnings deduction, and a limited combined excess shelter and childcare deduction. The OMB poverty guidelines became the new eligibility limits and, for the first time, households receiving Aid to Families with Dependent Children or SSI payments were required to meet asset and income limits in order to participate. Work registration requirements were tightened for students and for caretakers whose children now had to be under age 12 to provide an exemption. For older persons, the age at which the registration exemption became effective was lowered from age 65 to 60 . States were given incentives to reduce error rates by the provision of a 60 -percent Federal funding of administrative costs, rather than 50 percent, if error rates were reduced
to 5 percent or less. Legislation in 1979 gave aged and disabled persons a medical deduction, removed the limit on their shelter deduction, and tightened fraud provisions.

Legislation in 1980 provided for an annual, rather than biennial, updating of the cost of an adequate diet and the amount of the standard deduction. The eligibility of students for benefits was restricted. A sanction system was implemented that withheld some administrative funds to States whose high error rates showed no improvement.

The Omnibus Budget Reconciliation Act and the Food Stamp and Commodity Distribution Amendments of 1981 made several changes in the program. For the first time, a gross income eligibility standard was applied for all households not containing an aged or disabled person. The earnings deduction was lowered to 18 percent. The updates to deduction limits and thrifty food plan (TFP) increases to account for inflation were postponed until July 1983 for the deductions limit updates and until October 1982 for the TFP. Benefits for new participants were prorated for the first month to the day the application was filed. Boarders and persons who strike were prohibited from participating in the program and the household definition was tightened. Provisions facilitating claims and overpayment collection and fraud recovery were enacted. The program in Puerto Rico was replaced by a block grant and monthly reporting/retrospective accounting systems were made mandatory for all States, effective October 1983. However, households composed solely of all aged or disabled persons, as defined above, were exempted from the monthly reporting requirements, and migrant households were exempted from both requirements.

Further revisions were made by the Food Stamp Amendments of 1982. Among other changes, the scheduled adjustment to the TFP was reduced 1 percent while adjustments to the standard and shelter deductions were delayed until October 1, 1983. (Public Law $98-473$ restored maximum food stamp allotments to the full cost of the TFP beginning November 1 , 1984.) The error rate sanction system was strengthened. A net income limit for nonelderly and nondisabled households was added to the existing gross income limit. Benefit computations and adjustments were rounded down to the nearest dollar, and new restrictions were placed on the use of standard utility allowances. At the same time, the definition of disability for food stamp purposes was expanded to include certain veterans' payments, and annual cost-of-living adjustments to SSI payments and Social Securiiy benefits were not counted in determining food stamp amounts for 3 months.

The Food Stamp program was reauthorized for 5 years by the Food Security Act of 1985 (Public Law 99-198). Among the revisions enacted, the definition of disability for food stamp purposes was again extended to include recipients of State supplementary SSI payments, government disability benefits, and Railroad Retirement disability payments. Households in which all members receive AFDC or SSI were made categorically eligible for food stamps. The earned income, child care, and excess shelter cost deductions and the asset limits were increased as of May 1986. Portions of the income received under the Job Training Partnership Act is now considered countable income. And all States are required to implement an employment and training program for food stamp recipients by April 1987.

# Low-Income Home Energy Assistance Program, Fiscal Year 1986 

The Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), signed into law by the President on August 13, 1981, authorized seven block grants to be administered by the Department of Health and Human Services (HHS). Title XXVI of the Act authorized the Low-Income Home Energy Assistance Program (LIHEAP) for fiscal years 1982-84. On October 30, 1984, the President signed into law the Human Services Reauthorization Act of 1984 (Public Law 98-588). Title VI of the Act reauthorized and amended LIHEAP for fiscal years 1985-86. ${ }^{1}$

Major amendments in LIHEAP for fiscal year 1986 include:

- Addition of four new assurances to the grant application requirements.
- Addition of new requirements that must be included with the grant application plan. In addition to describing how the grantee will carry out the statutory assurances, the plan must:
(1) contain estimates of funds to be used for each program;
(2) describe the eligibility requirements for each type of assistance;
(3) describe weatherization and other energy-related home repair that the State will provide; and
(4) contain any other information determined appropriate by HHS.
- Specification that both the original grantee application plan and each substantial revision be made available for public inspection.
- Addition of the requirement that States must spend funds in accordance with their plans or applicable revisions.
- Prohibition of the setting by States of income eligibility limits lower than 110 percent of the poverty level.
- Prohibition of the differentiation by States between categorically eligible and income eligible households in providing assistance; prohibition of the exclusion by States of income eligible households from receiving home energy assistance.
- Replacement of the requirement that home energy suppliers not treat assisted households any differently with the requirement that home energy suppliers not adversely treat households receiving assistance.
- Requirement that maximum planning and administrative costs be 10 percent of funds payable to a State for a fiscal year and not transferred to another block grant.

[^21]- Beginning with fiscal year 1985 funds held available for fiscal year 1986, a requirement that States indicate why they are carrying over funds, describe the types of assistance to be provided with these funds, and reduce the carryover maximum from 25 percent of a State's allotment to 15 percent of the funds payable to a State and not transferred to other HHS block grants.
- Specification that HHS shall issue regulations to prevent waste, fraud, and abuse under LIHEAP.
- Specification that the Comptroller General's evaluations take place at least every 3 years.
- Specification that States must prepare/obtain financial and compliance audits of their energy assistance programs at least every 2 years. Audits must be conducted in accordance with the Comptroller General's standards for audit of governmental organizations and programs, by an organization or person independent of agencies administering LIHEAP activities. Audits must be made public within States on a timely basis. The chief executive officer of the State must submit audits to the State legislatures and HHS within 30 days after completion of the audits. ${ }^{2}$
- Elimination of HHS' authority to waive any of the statutory assurances.
- Prohibition from counting LIHEAP benefits as income or resources for any purpose under any Federal or State law, including any law relating to other Federal or State public assistance programs, unless enacted in express limitation of this prohibition.

LIHEAP provides grants to States to assist eligible households to meet the costs of home energy. In addition to the 50 States, grants were provided in fiscal year 1986 to the District of Columbia, the Commonwealth of Puerto Rico, five insular areas, and 121 Indian tribal organizations. Fiscal year 1986 represents the seventh year that an energy assistance program has been administered at the Federal level by HHS.

In accordance with the Act, the Secretary of HHS left maximum policy discretion to the States. Many fiscal year 1981 LIEAP (Public Law 96-223) requirements, including HHS approval of State plans, were removed. The Federal information collection and reporting requirements for States were substantially reduced to only information that was essential to Federal administration and Congressional oversight. State decisions, directed by public participation in the development of grant applications, largely replaced Federal regulations in establishing the shape of the program for fiscal years 1982-86.

[^22]
## Funding

The Act as amended authorized $\$ 2.14$ billion for fiscal year 1985 and $\$ 2.275$ billion for fiscal year 1986. For fiscal year 1986, $\$ 2.1$ billion was appropriated by Public Law 99-178. However, this funding level was decreased by 4.3 percent to $\$ 2.0097$ billion in January 1986 as a result of the reduction mandated by title II of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177). Enacted on December 12, 1985, this statute is commonly referred to as "Gramm-RudmanHollings,", after the Senate sponsors of the legislation.

Fiscal year 1986 funds (including the reallotment of \$251,579 in unobligated fiscal year 1985 funds) were distributed approximately as follows:
(1) $\$ 1.989$ billion to the States and the District of Columbia;
(2) $\$ 16.3$ million in direct grants to 121 Indian tribes and tribal organizations;
(3) $\$ 2.7$ million to the Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands;
(4) $\$ 2.1$ million for Federal administrative expenses.

The funds appropriated for LIHEAP provides payments to eligible households for heating or cooling costs, and for home energy crises. Up to 15 percent of the available funds also may be used for low-cost residential weatherization or other energyrelated home repairs.

One major area of flexibility provided by the law is the authority to transfer LIHEAP funds among the HHS block grants. Up to 10 percent of a State's energy assistance allotment may be transferred to other HHS block grants. States may also transfer up to 10 percent of their social services grant and up to 5 percent of their community services grant into LIHEAP. Additionally, up to 15 percent of the State's energy assistance funds may be set aside for use in the next fiscal year.
To receive grants, each State had to submit in fiscal year 1986 an application consisting of assurances by its chief executive officer and a plan describing how the State would carry out those assurances. In the assurances, the State agreed to:
(1) Use funds only for the purposes of the statute;
(2) make payments only to eligible low-income households;
(3) conduct outreach activities;
(4) coordinate title XXVI activities with similar and related programs;
(5) provide the highest level of assistance to households with the lowest incomes and highest energy costs in relation to income, taking into account family size;
(6) give consideration to agencies that have previously managed the program when designating local agencies to carry out the purposes of the program;
(7) assure that energy suppliers receiving benefits directly
on behalf of eligible households not treat assisted households adversely;
(8) treat owners and renters equitably;
(9) use not more than 10 percent of its allotment for planning and administration;
(10) establish fiscal control and accounting procedures for proper disbursal of an accounting for Federal funds, establish procedures for montioring assistance provided, and prepare an annual audit;
(11) permit and cooperate with Federal investigations;
(12) provide for public participation in the development of its plan;
(13) provide an opportuniity for a fair administrative hearing to individuals whose claims for assistance are denied or not acted on with reasonable promptness.
(14) describe how households are identified as eligible and how the State determines benefit levels;
(15) describe the amount of funds to be reserved for crisis intervention and the administrative procedures for designating an emergency, how the assistance to be provided in an emergency is determined, and how any leftover crisis intervention funds are to be used;
(16) describe energy usage and average cost of home energy in the State, by fuel type and region; and
(17) cooperate with HHS in collecting and reporting data under section 2610 of the statute.

## Eligibility

The unit of eligibility for energy assistance is the household, defined as any individual or group of individuals who are living as one economic unit for which residential energy is customarily purchased in common, either directly or through rent. The Act limits payments to those households with incomes under the greater of 150 percent of the poverty income guidelines or 60 percent of the State's median income, or those households with members receiving AFDC, SSI, food stamps, or need-tested veterans' benefits. States are permitted to set more restrictive criteria as well. Beginning with fiscal year 1986, no household may be excluded from eligibility if its income is less than 110 percent of the poverty income guidelines.

## Energy Assistance Payments

States make payments directly to eligible households or to home energy suppliers on behalf of eligible households. Payments can be provided in cash, fuel, prepaid utility bills, or as vouchers, stamps, or coupons that can be used in exchange for energy supplies. Payments are to vary in such a way that the highest level of assistance is furnished to households with the lowest income and highest energy costs in relation to income, taking into account family size.

## Beneficiary Families under OASDI, 1986

(For further detail on beneficiaries, see table 123)

Average monthly benefits
. . .for retired-worker families, \$525
Worker only
Worker and wife

. . .for survivor families, \$477
Widow or widower only Widowed mother or father with children Children only

. . . for disabled-worker families, $\$ 551$

${ }^{1}$ Expenditures from Federal, State, and local revenues (general and special) and trust funds under public law includes capital outlays and administrative expenditures, unless otherwise noted. Includes some payments abroad. Through 1976, fiscal year ended June 30 for Federal Government, most States, and some localities; for Federal Government, beginning 1977, fiscal year ends September 30.
${ }^{2}$ Excludes financial interchange between OASDHI and Railroad Retirement.
${ }^{3}$ Hospital Insurance and Supplementary Medical Insurance included in total shown directly above.
${ }^{4}$ Excludes refunds of employee contributions; includes payments to retired military personnel and survivors. Administrative expenses for Federal noncontributory retirement not available.
${ }^{5}$ Includes unemployment compensation under State programs, programs for Federal employees and ex-servicemen, trade adjustment and cash training allowances, and payments under extended, emergency, disaster, and special unemployment insurance programs.
${ }^{6}$ Cash and medical benefits in five areas; includes private plans where applicable and State costs of administering State plans and supervising private plans. Administrative expenses of private plans and all data for Hawaii not available.
${ }^{7}$ Cash and medical benefits paid under Federal and State laws by private insurance carriers, State funds, and self-insurers. Beginning in 1959-60, includes Alaska and Hawaii. Administrative costs of private carriers and self-insurers not available. Beginning in 1969-70, includes Federal "black lung" benefit program.
${ }^{6}$ Categorical cash and medical payments under the Social Security Act, and general assistance from State and local funds. Beginning in 1968-69, includes work-incentive activities.
${ }^{9}$ Income-maintenance payments began January 1974.
${ }^{10}$ Work relief, other emergency aid, surplus food for the needy, repatriate and refugee assistance, and work-experience training programs. Beginning in 1980-81, includes Low-Income Home Energy Assistance.
${ }^{11}$ Excludes State and local expenditures for domiciliary care in institutions other than mental and tuberculosis, and services in connection with OASDHI,

State temporary disability insurance, workers' compensation, public assistance, vocational rehabilitation, and veterans' programs, included in total expenditures for these programs.
${ }^{12}$ Civilian and Department of Defense programs (including medical care program for military dependents).
${ }^{13}$ Includes services for crippled children.
${ }^{14}$ Includes burial awards. Beginning in 1964-65, includes special allowances for survivors of veterans who did not qualify under OASDHI. Beginning in 1973-74, subsistence payments to disabled veterans undergoing training shifted from veterans' pensions and compensation to veterans' education subgroup.
${ }^{15}$ Excludes the servicemen's group life insurance program.
${ }^{16}$ Beginning in 1973-74, excludes administrative expenses.
${ }^{17}$ Federal expenditures represent primarily surplus food for institutions.
${ }^{18}$ Surplus food for schools and programs under National School Lunch and Child Nutrition Acts. State and local funds represent direct appropriations.
${ }^{19}$ Represents primarily child welfare services under the Social Security Act. Beginning in 1968-69, excludes administrative expenses.
${ }^{20}$ Includes domestic programs consolidated in 1971-72 under ACTION and special Office of Economic Opportunity programs. Other OEO programs listed in appropriate subsections under "public aid" and "education."
${ }^{21}$ Federal expenditures include administrative and related expenses of the Secretary of Health and Human Services; Indian welfare and guidance, aging and juvenile delinquency, and certain manpower and human development activities. State and local expenditures include amounts for antipoverty and manpower programs, day care, child placement and adoption services, foster care, legal assistance, care of transients, and other unspecified welfare services; before 196970, these amounts were included with institutional care.

${ }^{1}$ The 1938 Act was applicable generally to employees engaged in interstate commerce or in the production of goods for interstate commerce.
${ }^{2}$ The 1961 amendments extended coverage primarily to employees in large retail and service trades as well as local transit, construction, and gasoline service station employees.
${ }^{3}$ The 1966 amendments extended coverage to State and local government employees of hospitals, nursing homes, and schools, and to employees of
laundries, dry cleaners, large hotels and motels, restaurants, and farms. Subsequent amendments extended coverage to the remaining Federal, State, and local employees not protected in 1966, to certain workers in retail and service trades previously exempted, and to certain domestic workers in private household employment.

* For year in which minimum wage rate changes were effective.
${ }^{5}$ Data based on July 1987 figures.

## Poverty Data

Tables 7-13 present data on the extent of poverty in the United States for $1959-85$ and weighted average poverty thresholds for 1959-86. Table 14 presents poverty guidelines for 1965-87 issued by the Department of Health and Human Services. Poverty thresholds are used primarily for statistical purposes, while poverty guidelines are used for administrative purposes. The guidelines are used to determine the financial eligibility criteria for a number of Federal Government programs.

The conceptual framework for the measurement of poverty, originally developed in 1964 by Mollie Orshansky of the Social Security Administration, was revised by Federal interagency committees in 1969 and 1981. The statistical poverty levels consist of a set of thresholds that vary by family size and composition. The poverty index is a statistical measure based on income-food expenditure patterns (from the Department of Agriculture's 1955 Household Food Consumption Survey) and the minimum adequate "American style" diet included in the Department of Agriculture's 1961 economy food plan. (See Bureau of the Census, "Poverty in the United States: 1985," Current Population Reports: Consumer Income, Series P-60, No. 158, Appendix A, for an explanation of the poverty definition.)

These income criteria for determining the extent of poverty in the United States have become the basis for the official statistics issued annually by the Bureau of the Census in "Characteristics of the Population Below the Poverty Level," Current Population Reports: Consumer Income, Series P-60. The poverty levels are adjusted to reflect changes in the annual average Consumer Price Index (CPI) (see Bureau of the Census, "Revision in Poverty Statistics, 1959 to 1968," Current Population Reports: Special Studies, Series P-23, No. 28; and "Directive No. 14, Definition of Poverty for Statistical Purposes," Statistical Policy Handbook, 1978, Office of Federal Statistical Policy and Standards, Department of Commerce).

The poverty income guidelines, a simplified version of the poverty thresholds, vary by family size, and there are separate sets of guidelines for the two noncontiguous States (Hawaii and Alaska). The guidelines are used for determining whether a person or family is financially eligible for assistance or services under a particular Federal program. Authorizing legislation or regulations for specific programs indicate whether a program uses the poverty guidelines as one of several eligibility criteria, uses a modification of the guidelines (for example, 130 percent or 185 percent of the guidelines), or uses them for purposes of targeting assistance or services.

The poverty index was originally developed at a time when the noncash benefits for both nonneedy and needy families were relatively small and unimportant. It was, therefore, developed as a measure of income inadequacy of money income only. Nonmoney income is, therefore, not currently considered in calculating the poverty thresholds. Whether these poverty thresholds would also serve as a measure of income inadequacy for income distributions that include nonmoney as well as money income is an issue that requires serious analytical consideration.

Data on the poverty population and on family and personal income are collected in the March Current Population Survey (CPS). Data from the March survey are also known as the Annual Demographic File. Following the standard Census Bureau definition, the family is defined as two or more persons related by blood, marriage, or adoption and residing together. "Income" refers to money income from all sources, including public income transfers, but before Federal, State, or local personal income taxes. Money income does not reflect the fact that many families receive part of their income in kind-in the form of nonmoney transfers such as employee use of business
transportation and facilities, employer-paid health insurance and other employer-supported fringe benefits, Medicare, Medicaid, food stamps, and housing assistance. Many farm families receive part of their income in the form of rent-free housing or goods produced and consumed by the family. Beginning in March 1980, the Census Bureau began supplementing data on annual family money income with information on the number of households receiving certain selected public and private noncash benefits. For information on characteristics of recipients of selected noncash benefits, see Bureau of the Census, "Characteristics of Households and Persons Receiving Selected Noncash Benefits: 1980 (With Comparable Data for 1979)," Current Population Reports: Consumer Income, Series P-60, No. 131, and subsequent reports. The Census Bureau is examining procedures for valuing benefits but there is as yet no consensus on how to assign a money value to such benefits. Results of this "valuation" work, described as "experimental" and "exploratory in nature," appear in the Bureau of the Census, "Estimates of Poverty Including the Value of Noncash Benefits: 1986," Technical Paper No. 57, July 1987. This report suggests that if selected government benefits had been counted as income without changing the current poverty threshold, the official estimate of poverty would have been reduced by 8 percent to 35 percent, depending on the range of benefits valued and the method used.

Before 1980, for statistical classification of families as poor, detailed poverty thresholds were applied separately for 124 family situations which allowed for the number of adults and children, sex of family householder, and whether the family lived on a farm. The current matrix of poverty thresholds used by the Census Bureau to determine the poverty status of families and unrelated individuals consists of a set of 48 thresholds arranged in a two-dimensional matrix by family size (from one person, that is, unrelated individuals, to nine or more persons) cross-classified by the presence and number of family members under age 18 (from no children to eight or more children present). Unrelated individuals and two-person families are further differentiated by the age of the individual or family householder (under age 65 and aged 65 or older).

The poverty thresholds generally cited for specified family sizes represent the weighted average of individual thresholds for families of different composition at that size. From 1969 to 1980, families living on farms were assumed to need 85 percent of the cash income of corresponding nonfarm families. (Figures for prior years were retabulated retrospectively on this basis.) Several changes were implemented with the 1980 Census and the March 1982 CPS: (1) elimination of separate thresholds for farm families, (2) elimination (through appropriate averaging) of separate thresholds for female-householder and "all other" families, and (3) extension of the poverty matrix to make the largest family size category "nine persons or more" rather than "seven or more persons" (see Current Population Reports: Consumer Income, cited earlier). The total money income of each family in the CPS sample is tested against the appropriate poverty threshold to determine the poverty status of that family. If the family's total income is less than its corresponding cutoff, the family is classified as being below the poverty level. The average threshold for a given family size is the weighted average threshold for that group obtained by multiplying the threshold for each family size subcategory by the number of families in that subcategory. These products are then aggregat ed across the entire range of family-size categories, and the total aggregate is divided by the total number of families in the group to yield the weighted average threshold at the poverty level for that family size.

Since 1973, the poverty income guidelines have been computed from the official poverty threshold by increasing the
weighted average poverty thresholds by the percentage change in the Consumer Price Index (CPI-U) during the preceding year and rounding the value for a family of four up to the next higher $\$ 50$. All family sizes above and below four are computed by adding or subtracting equal dollar amounts derived from the average difference between poverty lines, for families with one to eight persons, rounded to the nearest multiple of $\$ 20$.

Once a year, in March, the sample of U.S. households interviewed in the monthly CPS is asked to provide information on household members' incomes during the preceding calendar year. Survey experience indicates that respondents tend to underreport their income in household surveys. There is almost no underreporting of wage or salary income. Underreporting is most pronounced for dividends, interest, and workers' compensation; less pronounced for veterans' payments, public assistance, and private pensions and modest for Social Security and Federal retirement programs. The proportion of nonresponses to CPS income questions is greater among middle-income and higher-income families than among lowerincome families.

It should be noted that changes have occurred in the sample size, content, and procedures of the CPS over the years. Since 1959-the first year for which statistics using the current official definition are available-the number of households interviewed has been increased, the definition of farm residence was altered, the number of income types separately identified has been increased, and more sophisticated allocation procedures have been developed for income items respondents failed to report. Because of these changes, the income and poverty data as reported yearly by the Census Bureau do not in the strictest sense form a continuous series

The major modifications introduced in March 1980 rendered
interpretation of change from 1978 to 1979 particularly difficult. In March 1980, the sample size was expanded considerably. The number and type of questions relating to income received in 1979 changed, as did the procedure for allocating the reported income among family members. The description of family structure was changed-eliminating secondary families and replacing the concept of "family head" with that of "householder." Such modifications result in adding to the number of households designated as having a female head some husband-wife families that formerly would have been classified as having a male head. Another consequence is the sharp rise in the number of households-poor and nonpoor alike-credited with income received from dividends, interest, and rent, or from pensions other than social security. The 1978-79 increase in these characteristics is much greater than one would normally expect for a single year and should not be attributed to economic and social factors alone.

The increased sample size means that income and related data are now being obtained from twice as many households as were interviewed in the early years of the CPS. Accordingly, current poverty population estimates are subject to considerably smaller sampling errors than the estimates for the initial years of the poverty series. Comparison of data for 1979 (obtained in March 1980) with those for 1978 and earlier years should make allowance for the differences in survey techniques. Moreover, data for 1980 (collected in March 1981), have been adjusted to new controls introduced in the 1980 Census. Some summary data for 1979 have been adjusted to facilitate comparison and may differ from data presented here (see Bureau of the Census, Current Population Reports, Consumer Income, Series P-60, Nos. 130, 133, 138, 144, 147, 152 and 158).

### 1.3 Poverty

Table 7.-Weighted average poverty thresholds for nonfarm families of specified size, 1959-86

| Calendar year | Unrelated individuals |  |  | Families of 2 persons or more |  |  |  |  |  |  |  | $\begin{gathered} \text { CPI, } \\ \text { all items } \\ (1967= \\ 100)^{1} \end{gathered}$ |

${ }^{1}$ Beginning in January 1978, the Bureau of Labor Statistics introduced a new price index for all urban consumers (CPI-U) that forms a continuous series with the earlier index for urban wage earners and for clerical workers as of December 1977.

Note: Three technical changes in the definition of poverty are described in the Bureau of the Census report on the poverty population in 1980 (Characteristics of the Population Below the Poverty Level, 1980, Series P-60, No. 133): (1) Distinctions based on the sex of the family householder will no longer be made; (2) income thresholds for farm families will be the same as for nonfarm families of the same size and composition, and (3) the increased sample size will now permit separate poverty income criteria for families of 7,8 , and 9 or more persons. (Separate criteria for these family sizes by number of children have been developed by the Social Security Administration for the base year 1967 on the same basis as the original poverty matrix for smaller family sizes, and then updated by means of the all-items Consumer Price Index.) The thresholds for
larger families beginning in 1980 are:

| Year | 7 persons | 8 persons | 9 persons or more |
| :---: | :---: | :---: | :---: |
| 1980 ................... | \$12,761 | \$14,199 | \$16,896 |
| 1981. | 14,110 | 15,655 | 18,572 |
| 1982 .. | 15,036 | 16,719 | 19,698 |
| 1983. | 15,500 | 17,170 | 20,310 |
| 1984 ................... | 16,096 | 17,961 | 21,247 |
| 1985 ................... | 16,656 | 18,512 | 22,083 |
| 1986 ................... | 17,049 | 18,791 | 22,497 |

${ }^{1}$ Household surveys tend to underestimate the number of income recipients and/or the amount of income received. Income sources such as, interest, dividends, rents, veterans' payments, unemployment compensation, and workers' compensation, are more underreported than others. For more detail, see Bureau of the Census, Estimates of the Poverty Population Including the Value of Noncash Benefits: 1979-82, Technical Paper No. 52, Appendix F.
${ }^{2}$ Poverty status based on money income of all family members after receipt of OASDI and any other cash transfer payments.
${ }^{3}$ Received by individuals or any family member at any time during 1986. Most
individuals or families received more than one type of income during the year
${ }^{4}$ Social Security may include any Railroad Retirement payments.
${ }^{5}$ Less than 0.05 percent.
${ }^{6}$ Unemployment insurance, workers' compensation, or veterans' payments.

${ }^{1}$ Living arrangements as of March 1986. Poverty status in 1985 as reflected by income of unrelated individual or family money income for year compared with official poverty income criterion for families of appropriate size and composition.
${ }^{2}$ Aged family members who are neither the family householder nor the spouse of the householder. Official poverty classification is based on combined income of all related persons living together. Persons in this group are classified here on the basis of official poverty criteria for family income and on a comparison of their own income with official poverty criteria for elderly persons maintaining their
own households. The hidden poor are other relatives in nonpoor households whose own income is below the official poverty line for unrelated individuals or married couples.

# The Survey of Income and Program Participation (SIPP) 

This section contains data from the Survey of Income and Program Participation (SIPP), a new data source for information not generally available from program records or household surveys. The SIPP was developed by the Office of the Assistant Secretary for Planning and Evaluation of the Department of Health and Human Services, the Office of Research and Statistics of the Social Security Administration, and the Bureau of the Census during the late 1970 's and early 1980 's. Interviewing began in late 1983 under the auspices of the Bureau of the Census. It covers the civilian noninstitutionalized resident population, and respondents are interviewed every 4 months over a 2-1/2 year period. An additional panel, with a new sample, is introduced each year.

The survey is intended to provide more reliable and comprehensive information on the economic resources of Americans and on how public transfer and tax programs affect their financial circumstances. The data will provide Government policymakers with an improved information base for: (1) studying the effectiveness of Government tax and transfer programs, (2) estimating future program costs and coverage, and (3) evaluating the effects of proposed policy changes.

The Survey supplies detailed information on annual and subannual income, participation in public and private transfer programs, and income, earnings and property taxes; it also measures economic resources other than current cash income. The data on assets, debts, and noncash benefits represent the most important elements of this broader perspective. To support a fuller understanding of the variation in economic resources among individuals and families, information is collected about labor-force activity; current health and disability status; work, health, and marital history; and experience with major public transfer programs. Data on a limited number of expenditure items, such as shelter costs and work expenses, are also obtained.

The focus of the SIPP-participation in public programs, a broad-gauged definition of economic resources, and information about personal background characteristics that condition resources and needs-makes it an important resource for studying the social and economic circumstances of Social Security beneficiaries and Supplemental Security Income (SSI) recipients, and the general aged, disabled, and survivor populations to which they belong. Given the varied arrangements under which individuals receive cash benefits under the Old-Age, Survivors, and Disability Insurance (OASDI) portions of the Social Security program, it is noteworthy that the SIPP distinguishes among retired-worker, disabled-worker, spouse, widow, and child beneficiaries. ${ }^{1}$ Lacking this capability, the Census Bureau's Current Population Survey has been of limited use in analyzing the social and economic characteristics of different types of OASDI beneficiaries.

The following tables present data on (1) the composition and level of cash income and the receipt of noncash benefits by individuals with different types of Social Security (OASDI)

[^29]benefits; (2) the general socioeconomic characteristics, including living arrangements, of persons aged 18-64 receiving OASDI or SSI payments based on disability; and (3) similar socioeconomic information about SSI recipients aged 18 or older. The unit of analysis used in these tables is the individual beneficiary. Demographic and economic characteristics are shown at the person, family, or household level.

Because the SIPP is a sample survey, caution should be exercised when these data are compared with data based on program records or other household surveys. For example, by design, the survey does not cover the entire beneficiary population (persons living in institutions and outside the 50 States and the District of Columbia are excluded), and estimates may pertain to different time periods. Other definitional differences may also affect the data. In addition, survey estimates are subject to various kinds of error. Sampling error is one type of error that affects the SIPP estimates. It is discussed in the note that appears at the end of this section.

For additional information on the development and current status of the SIPP program see:

Nelson, Dawn, David McMillen, and Daniel Kasprzyk, "An Overview of the Survey of Income and Program Participation" (SIPP Working Paper Series No. 8401), update 1, Population Division, Bureau of the Census, 1985.

Ycas, Martynas, and Charles Lininger, "Income Survey Development Program: Design Features and Initial Findings," Social Security Bulletin, November 1981.

The following publications from the Bureau of the Census Current Population Reports (P-70 series) provide an introduction to the range of information collected by SIPP that is of special relevance to the populations served by the Social Security Administration:

Household Wealth and Asset Ownership: 1984, No. 7, 1986
Disability, Functional Limitation, and Health Insurance Coverage: 1984/85, No. 8, 1986

Male-Female Differences in Work Experience, Occupation, and Earnings: 1984, No. 10, 1987

Pensions: Worker Coverage and Retirement Benefits, 1984, No. 12, 1987

They are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

## Note on Sampling Error

Since SIPP estimates are based on a sample, they may differ somewhat from the figures that would have been obtained if a complete census had been taken using the same questionnaire, instructions, and enumerators. The uncertainty that arises from
using a sample is referred to as sampling error. The magnitude of sampling error for a given statistic is indicated by its standard error.

Although the Bureau of the Census has calculated standard errors for a number of different types of survey estimates, they are not available for OASDI and SSI recipients per se. There is good reason to believe that the magnitude of sampling error
for estimates concerning OASDI beneficiaries varies by type of benefit and that, in turn, standard errors for such estimates may be quite different from those associated with the characteristics for which published standard errors are available. Consequently, the Office of Research and Statistics has developed standard error estimates specifically tailored to the population of OASDI and SSI recipients. They are available on request.

Includes persons receiving benefits as disabled workers, disabled widows, and adults disabled in childhood
${ }^{2}$ Based on September of wave 1 of the 1984 panel. Interviews were conducted between October 1983 and January 1984, and information was obtained for a 4-month period preceding the interview. September was the single calendar month common to each period.
${ }^{3}$ Restricted to the subset of beneficiaries from the wave 1 file who were also inter-
viewed for the disability topical module conducted on the third wave of the 1984 panel. Two to three percent of the wave 1 beneficiaries were not interviewed in wave 3. As a result, estimates of the number of SSI recipients in this table are lower than corresponding estimates in tables 21 and 22.
${ }^{4}$ Persons of Spanish origin may be of any race.

Includes persons receiving benefits as disabled workers. disabled widows, and adults disabled in childhood.
${ }^{2}$ Based on September of wave 1 of the 1984 panel. Interviews were conducted between October 1983 and January 1984, and information was obtained for a 4-month period preceding the interview. September was the single calendar month common to each period
${ }^{3}$ Restricted to the subset of beneficiaries from the wave 1 file who were also interviewed for the disability topical module conducted on the third wave of the 1984
panel. Two to three percent of the wave 1 beneficiaries were not interviewed in wave 3. As a result, estimates of the number of SSI recipients in this table are Iower than corresponding estimates in tables 21 and 22.
${ }^{4}$ Less than 0.05 percent.
${ }^{5}$ Fewer than 65 unweighted cases.

See tables 23 and 24 for appropriate footnotes.

## Footnotes to table 23

${ }^{1}$ Beginning in 1983, includes government contributions on deemed wage credits for military service in 1957 and later. The amount shown for 1983 includes, in addition to the annual contributions on 1983 wage credits, a net amount of $\$ 5,388$ million representing (1) retroactive contributions on deemed wage credits for military service in 1957-82, less (2) all reimbursements received prior to 1983 for the costs of such credits. An adjustment to these amounts totaling $\$ 466$ million was transferred to the trust fund from the general fund of the Treasury in 1984.
${ }^{2}$ Includes payments (1) in 1947-51 and in 1966 and later, for costs of noncontributory wage credits for military service performed before 1957; (2) in 1971-82, for costs of deemed wage credits for military service performed after 1956; and (3) in 1968 and later, for costs of benefits to certain uninsured persons who attained age 72 before 1968 .
${ }^{3}$ Net interest includes net profits or losses on marketable investments. Beginning in 1967, administrative expenses are charged currently to the trust fund on an estimated basis, with a final adjustment, including interest, made in the following fiscal year. The amounts of these interest adjustments are included in net interest. Beginning in 1983, these figures reflect payments from a borrowing trust fund to a lending trust fund for interest on amounts owed under the
interfund borrowing provisions. Also, beginning in 1983, interest paid from the trust fund to the general fund on advance tax transfers is reflected. The amount shown for 1983 includes $\$ 6,677$ million in interest on (1) retroactive government contributions on deemed wage credits for military service in 1957-82, and (2) unnegotiated benefit checks issued before 1983. The amount shown for 1984 includes an interest adjustment of $\$ 1,732$ million on government contributions on deemed wage credits for military service in 1957-83. The amount shown for 1985 includes an interest adjustment of $\$ 88$ million on unnegotiated checks issued before April 1985.
${ }^{6}$ Beginning in 1966, includes payments for vocational rehabilitation services furnished to disabled persons receiving benefits because of their disabilities. Beginning in 1983, amounts are reduced by amount of reimbursement for unnegotiated benefit checks. The amount shown for 1983 is reduced by $\$ 288$ million for all unnegotiated checks issued before 1983; reductions in subsequent years are relatively small.
${ }^{5}$ Positive figure represents amounts lent to the OASI Trust Fund from the DI and HI Trust Funds. Negative figures represent amounts repaid from the OASI Trust Fund to the DI and HI Trust Funds.

${ }^{1}$ Beginning in 1966, transitionally insured persons are included with the permanently insured.
${ }^{2}$ Beginning in 1955, a worker with disability protection could have his insurance rights frozen during any period of disability. All workers insured in event of disability are also fully insured. Disability protection ends at age 65; disabled-worker benefits and "disability freeze" benefit increases were not
payable before September 1965 if the disability began after entitlement to benefits because of old age; the data thus exclude persons aged 65 or older and, before 1966, persons aged 62-64 entitled to benefits because of old age.
${ }^{3}$ Persons currently insured before July 1940 or currently insured after August 1950 and before July 1954 are also fully insured.

[^48]${ }^{2}$ From November 1956-July 1961, only women workers were eligible for retired-worker benefits at ages $62-64$. For women age 72 or older, approximately 5 percent are insured on their own earnings record and are not receiving a benefit on that earnings record, but are receiving a spouse benefit on another earnings record.

### 2.5 OASDI Current-Pay Benefits: Summary

Table 70.- Number and average monthly benefit amount, by type of benefit, race, ${ }^{1}$ age, and sex, at end of 1985-Continued

[^73]
### 2.5 OASDI Current-Pay Benefits: Summary

Table 70.-Number and average monthly benefit amount, by type of benefit. race,' age, and sex, at end of 1985-Continued

'For dependents and survivors, race assumed to be the same as that shown on the Social Security application of wage earner on whose work record the benefit is based. Race data not available for disabled adult children aged 60 or older.
${ }^{2}$ Age on birthday in 1985.
${ }^{3}$ See page 1 for "Special Provisions for Railroad Retirement Beneficiaries."
${ }^{+}$With entitled children in their care.
slncludes divorced wives
${ }^{6}$ Since the benefit amounts for children of retired or disabled workers and children of deceased workers are based on different proportions of the primary insurance amount, the average monthly amounts for combined child's benefits are not meaningful.

'Based on sample data.
-For wives and husbands and widowed mothers and fathers, terminations are due to attainment of age 16 of last entitled child
${ }^{3}$ These data do not include disabled beneficiaries whose benefits were suspended or terminated because of their ability to engage in substantial gainful activity. Such ben-
eficiaries continue to be eligible for Medicare for a 3-year period. Data are not available on the number of beneficiaries in the first year of this period. In December 1986. 15.800 disabled workers and 700 disabled adult children were in the second and third year of Medicare eligibility following disability benefit termination. In December 1985, the comparable figures were 10.000 and 1,000 , respectively.

The payments shown as being from the general fund of the Treasury include certain interest-adjustment items.
2Other income includes recoveries of amounts reimbursed from the trust fund which are not obligations of the trust fund and other miscellaneous income.
${ }^{3}$ The financial status of the program depends on both the total net assets and the liabilities of the program.
${ }^{4}$ Section 708 of title VII of the Social Security Act modified the provisions for the delivery of Social Security benefit checks when the regularly designated delivery day
talls on a Saturday. Sunday, or legal public holiday. Delivery of benetit checks normally due January 1982 occurred on Dec. 31, 1981. Consequently, the SMI premiums withheld from the checks ( $\$ 264$ million) and the general revenue matching contributions ( $\$ 883$ million) were added to the SM1 Trust Fund on Dec. 31. $1981^{\circ}$. These amounts are excluded from the premium income and general revenue income for calendar year 1982

[^102]Insurance the same as under Supplementary Medical insurance. Because section 1833(d) of the Social Security Act requires that services that can be paid under Hospital Insurance cannot be paid under Supplementary Medical Insurance, virtually all home health services are now paid under the Hospital Insurance program.

[^106]charging beneficiaries more than the statutory deductible and coinsurance. Additional payments, determined by nondiagnostic criteria, are made to hospitals by the program for various "pass-through" costs and additional adjustments. These additional payments are not included in the inpatient hospital billing amounts reimbursed shown in this table.
${ }^{3}$ Coverage began Jan. 1, 1967. Benefit payments shown for 1985 are incomplete due to billing lags.
${ }^{4}$ Beginning Oct. 1, 1978, includes a relatively small number of persons entitled to benefits solely because of end stage renal disease.
${ }^{5}$ Includes a relatively small number of persons under age 65 entitled to benefits solely because of end stage renal disease.
Note: For more recent data, see table Q-12 in the quarterly issues of the Social Security Bulletin.

Table 158.-Hospital Insurance: Number of bills for inpatient short-stay hospital care approved for payment, covered days, total charges, and amount reimbursed, by type of beneficiary, 1966-85
[Includes only approved bills recorded in the Health Care Financing Administration records before July 25, 1986]

${ }^{1}$ The Social Security Amendments of 1983 (Public Law 98-21) replace (for most hospitals) the retrospective cost reimbursement system and the cost-per-case limits and rate of increase ceiling created by the Tax Equity and Fiscal Responsibility Act of 1982. Effective with hospital cost-reporting periods beginning on or after Oct. 1, 1983, Medicare payments for inpatient operating costs are to be based on a fixed amount, determined in advance, for each case, according to one of 475 diagnosis related groups (DRG's) into which a case is classified. The prospective payment is considered payment in full; hospitals are prohibited from charging beneficiaries more than the statutory deductible and coinsurance.

Additional payments, determined by nondiagnostic criteria, are made to hospitals by the program for various "pass-through" costs and additional adjustments. These additional payments are not included in the inpatient hospital billing amounts reimbursed shown in this table.
${ }^{2}$ Beginning July 1, 1973, includes data for services rendered to both aged and eligible disabled persons, including persons entitled to benefits solely because of end stage renal disease.
Note: For more recent data, see table Q-13 in the quarterly issues of the Social Security Bulletin.

[^107]${ }^{3}$ Preliminary data.
${ }^{4}$ Excludes claims for persons residing in foreign countries.
${ }^{5}$ Includes claims for persons whose place of residence is unknown.

Table 160.-Supplementary Medical Insurance: Number of reimbursed bills, charges, and amount reimbursed, by type of service and type of beneficiary, 1966-86
[In thousands. Includes only bills for which reimbursements were made by carriers or intermediaries and recorded in Health Care Financing Administration records before Jan. 1, 1987]

${ }^{1}$ Includes some bills and charges with type of service unknown.
${ }^{2}$ Where both medical and surgical charges are included on a single bill, the highest-priced service is the determining factor in classifying the bill.
${ }_{3}^{3}$ The Omnibus Reconciliation Act of 1980 (Public Law 96-499) eliminated the 100 -visit limit on home health services and the 3 -day prior hospitalization requirement. This made the coverage of home health services under Hospital Insurance the same as under Supplementary Medical Insurance. Because section 1833(d) of the Social Security Act requires that services that can be paid under Hospital Insurance cannot be paid under Supplementary Medical Insurance, virtually all home health services are now paid under the Hospital Insurance program.
${ }^{4}$ Except for outpatient hospital and home health services, represents allowed charges as determined by the carriers on the basis of customary charges for
similar services generally made by the physician or supplier of covered services and also on prevailing charges in the locality for similar services. Charges for outpatient hospital and home health services are amounts actually billed by providers.
${ }^{5}$ Amount reimbursed to or on behalf of the beneficiary-generally 80 percent of the allowed charges-once the beneficiary has satisfied the deductible in the current year. Some radiology and pathology services are reimbursed at a $100-$ percent rate, regardless of the beneficiary's deductible status. Beginning in 1973, home health services provided under the Supplementary Medical Insurance program are reimbursed at 100 percent of the reasonable cost less any applicable deductible.
${ }^{6}$ Data not available.

${ }^{1}$ Fiscal year 1977 began in October 1976 and was the first year of the new Federal fiscal cycle. Before 1977, the fiscal year began in July.
${ }^{2}$ Beginning in fiscal year 1980, recipients' categories do not add to unduplicat-
ed total because of the small number of recipients that are in more than one category during the year.
${ }^{3}$ Less than 0.05 percent.

Table 169.-Unduplicated number of recipients and percentage change, by type of eligibility category, fiscal years 1972-86 ${ }^{12}$

${ }^{1}$ Includes benefits to spouses and children were applicable.
${ }^{2}$ Excludes refunds of contributions to employees who leave service.
${ }^{3}$ Disability data include pensions and compensation, clothing allowance (beginning in 1973), and subsistence payments to disabled veterans undergoing training (1944-73). Survivor data includes special allowances for survivors of veterans who did not qualify under OASDHI (Servicemen's and Veterans' Survivor Benefit Act of 1956). Lump-sum payments are for burial of deceased veterans. Beginning 1978, retirement data no longer available separately.
${ }^{4}$ Data not available.
${ }^{5}$ Excludes payments for medical care.
${ }^{6}$ Benefits payable in California, New Jersey, New York, Puerto Rico, and Rhode Island under public and private plans. Beneficiary data for private-plan beneficiaries in New Jersey not available. Beginning in 1980, includes data for

Hawaii.
${ }^{7}$ Small but unknown amount of lump-sum death payments included with monthly survivor payments.
${ }^{8}$ Regular State unemployment insurance, Federal employee, and ex-servicemen programs through 1981; exlcudes Federal employees thereafter.
${ }^{9}$ For OASDHI, average monthly number, for the Railroad Retirement program, the public employee retirement system, the veterans' programs, and the Black Lung benefit program, number on rolls June 30; for State unemployment and temporary disability insurance, average weekly number for railroad unemployment and temporary disability insurance, average weekly number during 14 day registration period. No beneficiary data is available for the workers compensation program, or for lump-sum payments under any program.

[^118]${ }^{3}$ Beginning in July 1973, aged ineligibles may voluntarily enroll for HI.
"Includes premiums paid on behalf of eligibles by State governments under "buy-in" arrangements.
${ }^{5}$ Beginning in 1966, excludes HI contributions and includes employer contributions to supplement benefit account.
${ }^{6}$ Includes for 1984 a 0.3 -percent employee tax credit from general revenue.
${ }^{7}$ Employer share represents Federal and District of Columbia government contributions; employee share includes voluntary contributions to purchase additional annuity. Beginning in 1980, estimated by the Social Security Administration from fiscal year data.
${ }^{9}$ Data not available.
${ }^{\text {® }}$ Estimated by Social Security Administration from Bureau of the Census fiscal year data. Employer share represents government contribution.

[^119]${ }^{3}$ From employment security administration account.
${ }^{4}$ Beginning in July 1947, includes railroad temporary disability program. Beginning in September 1958, includes railroad unemployment insurance account.
${ }^{5}$ Less than $\$ 500,000$.
Source: Unpublished Treasury reports.

Table 176.-Summary data on State programs, by State, 1985
[In thousands, except for ratios, average benefit and average duration. Except where noted, excludes data for Federal employees and special unemployment programs for ex-servicemen. Includes data for State and local government employees where covered by State law after 1955]

| State | Covered employment (excludes Federal Government) |  | Insured unem-ployment as percent of covered em-ployment ${ }^{2}$ | Number of first payments | Average weekly benefit for total unemployment |  | Weeks com-pensated for all unem-ployment | Aver-age actual duration (in weeks) | Claimants exhausting benefits ${ }^{5}$ |  | Contributions collected ${ }^{6}$ | Benefits paid ${ }^{7}$ | $\begin{array}{r} \text { Funds } \\ \text { avail- } \\ \text { able } \\ \text { for } \\ \text { benefits } \\ \text { at end } \\ \text { of year } \end{array}$ | Average employer contribution rate ${ }^{9}$ |

${ }^{1}$ The purpose of the financial interchange provided by the Railroad Retirement Act, as amended, is to place the OASDHI trust funds in the same position in which they would have been if railroad employment had always been covered under OASDHI. Transfers include (a) interest from Railroad Retirement account to OASI Trust Fund on amount held to the credit of the trust fund, 1954-57; (b) principal and interest from OASI Trust Fund, beginning in 1958, and from DI Trust Fund, beginning in 1961, to Railroad Retirement accounts; and (c) principal and interest from Railroad Retirement accounts to DI Trust Fund in 1959 and 1960 and to HI Trust Fund, beginning in 1966.
${ }^{2}$ Represents amounts appropriated under section 15(d) of the Railroad Retirement Act as amended in 1974 to meet the cost of phasing out dual benefits under the Railroad Retirement and Social Security programs. The dual benefits payments account was established Oct. 1, 1981, to receive dual benefit appropriations and to pay dual benefits. Beginning in 1984, represents reimbursements for prior shortfalls in dual benefit appropriations.
${ }^{3}$ Represents amounts, including interest paid as extended-sickness benefits from railroad unemployment insurance account to workers who would otherwise have been entitled to disability annuity from Railroad Retirement account under conditions specified in section 10(h) of Railroad Unemployment Insurance Act.
${ }^{4}$ Includes interest on loans due from railroad unemployment insurance account and Social Security equavelent benefit account.
${ }^{5}$ Includes $\$ 17$ million in interest on loans due from railroad unemployment insurance account and $\$ 338$ million in transfers from general Treasury Department funds under section 7(c)(4) of the Railroad Retirement Act. In addition, $\$ 1,658$ million was borrowed from Treasury Department general funds against the financial interchange under section 15(b) of the Railroad Retirement Act as amended in 1981. Of this amount $\$ 1,153$ million (including interest) was repaid
during the year. Loans due Treasury Department (with interest) as of Dec. 31, 1983, totaled $\$ 534$ million.
${ }^{6}$ Includes $\$ 22$ million and $\$ 1$ million, respectively, in interest on loans due from railroad unemployment insurance account and Social Security equivalent benefit account. Also reflects $\$ 1,313$ million in financial interchange advances from general Treasury Department funds, and $\$ 559$ million repayment of outstanding Treasury Department loans with interest.
${ }^{7}$ The 1966 Amendments to the Railroad Retirement Act established employerfinanced supplemental annuities for long-term railroad employees retiring after June 1966.
${ }^{6}$ Less than $\$ 500,000$.
${ }^{9}$ Adjusted for interest on loan from retirement account for 1970, cash balance less total amount owed that account.
${ }^{10}$ Reflects loss of small fiscal year-end balance on September 30 in year.
${ }^{11}$ Established October 1, 1984 to keep track of the financing and payment of Social Security level portions of Railroad Retirement benefits; initial balance of $\$ 315$ million represented liability for benefits paid October 1.
${ }^{12}$ Transfers from general Treasury Department funds under section 7(c)(4) of the Railroad Retirement Act.
${ }^{13}$ Reflects interest on loans due Railroad Retirement account as well as loan interest paid during the year.
${ }^{14}$ Includes appropriations from general funds and contributions of the District of Columbia and Government corporation. Beginning in 1980, estimated by the Social Security Administration from fiscal year data.

Source: Daily Statement of the Department of Treasury; beginning in 1954, published and unpublished reports of the Railroad Retirement Board and the Office of Personnel Management.

IPopulation data on which ratio is based furnished by the Bureau of the Census. Data not adjusted for errors of coverage and of age misreporting. The population data for 1980 are derived from actual census counts. The population data for 1981-85 are based on census estimates.
${ }^{2}$ For 1940-73, data refer to Old-Age Assistance program. Beginning January 1974, the Supplemental Security Income program superseded the Old-Age Assistance program in the 50 States and the District of Columbia.
${ }^{3}$ Based on 10 -percent sample.

Excludes data for Iowa, Louisiana, and Ohio.
Includes data not distributed by reason for eligibility
${ }^{3}$ Data partly estimated.
${ }^{4}$ Represents September 1986 data for Minnesota, October 1986 data for Colorado, Idaho, and Nebraska, and November 1986 data for Arizona and Oklahoma; data
not available for December.
${ }^{5}$ Data not available.
${ }^{6}$ Includes data for the blind.
${ }^{7}$ Excludes optional supplementation data.

${ }^{1}$ Data reflect State estimates of energy assistance expenditures from the following funds: Fiscal year 1985 LIHEAP funds carried over for use in fiscal year 1986, petroleum escrow funds made available by State governors for use in fiscal year 1986; fiscal year 1986 LIHEAP allocations; and any State funds used for fiscal year 1986 LIHEAP including those funds used to pay administrative costs above the 10 percent statutory maximum.
${ }^{2}$ Includes funds for winter, summer, and year-crisis assistance.
${ }^{3}$ Benefits for heating and cooling assistance combined.
${ }^{4}$ Winter crisis assistance provided through an expedited or fast-track emergency system as part of the heating assistance program.
${ }_{5}^{5}$ Excludes $\$ 2,786,839$ in State funds to provide energy assistance to nonLIHEAP households (i.e., one and two person households with incomes between

150 percent and 175 percent of poverty).
${ }^{8}$ Reflects one-half of fuel assistance benefits paid in the summer to those living in households in the extreme southern part of the State and who received fuel assistance in the winter.
${ }^{7}$ Includes $\$ 81,528$ in private fuel funds.
${ }^{8}$ If households did not receive fuel assistance in the winter, such households could receive fuel assistance in the summer if there were at least 3 consecutive days of 90 degrees or more and if funds were available.
${ }^{9}$ Includes $\$ 1,714,000$ in State and Federal matching funds to serve AFDC households under Title IV-A.

## Technical Note

## Sampling Variability

A substantial number of tables in section 2.3, 2.4, and 2.5 in this edition of the Annual Statistical Supplement present OASDl award and current-pay benefit data based on 1-percent and 10 -percent sample files drawn from the Social Security Administration's administrative records. In addition, tables 29-38 on the taxable earnings of OASDI workers in section 2.2 and tables 202, 203, 212, and 213 on SSI benefit distributions and diagnoses in section 5.2 are also based on 1-percent administrative record samples.

Estimates, based on sample data, may differ because of sampling variability from the figures that would have been obtained hàd all, rather than specified samples, of the records been used. The standard error is a measure of the sampling variability. About 68 percent of all possible probability samples selected with the same specifications will give estimates within one standard error of the figure obtained from a compilation of all records. Similarly, about 95 percent will give estimates within two standard errors and about 99 percent will give estimates within two and one-half standard errors. The standard error of an estimate depends on the design elements such as the method of sampling, sample size, and the estimation process.

Because of the large number of data cells tabulated from the sample files, it is not practical to calculate the standard error for every possible cell. However, standard errors for a large num-

ber of cells were estimated. These estimates were used to fit regression curves to provide estimates of approximate standard errors associated with tabulated counts and proportions.
The tables showing the sampling variability provide a general order of magnitude for similar estimates from the various sample files. Table O presents approximate standard errors for the estimated number of persons from the 1 -percent and the 10 -percent files. The reliability of an estimated percentage depends on both the size of the percentage and on the size of the total on which the percentage is based. Data in tables P and Q provide approximations of the standard errors of the estimated percentage of persons in the 1 -percent and 10 -percent files. The standard errors are expressed in percentage points and the bases shown are in terms of inflated data.

## OASDI Benefit Award Data

The OASDI benefit award data in this edition of the Annual Statistical Supplement are derived from two sources:
(1) Monthly unedited award data.-The Master Beneficiary Record (MBR) is the major administrative data base for the Social Security program. It is used for the calculation of benefits and the maintenance of information about beneficiaries. Each month, when the MBR is updated, a record of award actions is created. This record is used to prepare award data on a 100 -percent basis. Data available each month include types of benefits awarded, sex of beneficiary, and the monthly benefit amounts payable. These data are used to update the time-series tables.
(2) Award data from the OASDI 1-Percent Sample.-This source provides monthly award data based on a 1-percent sample derived from the MBR. The 12 monthly files are combined to produce an annual file. In this Supplement, the 1-percent sample was used to prepare award tables for the year 1986,
which show detailed data by age, sex, and type of benefit, and distributions by benefit amount. Award data from the 1-percent sample are similar to the data described above. An important difference, however, is the treatment of dual entitlement.

When a retired-worker beneficiary subsequently becomes dually entitled to a secondary benefit as a dependent (wife or husband) or a survivor (widow or widower), the secondary benefit is counted as an award in the 100 -percent data. In contrast, award data based on the OASDI 1-percent sample do not count the secondary benefit as an award when both benefits are paid from the same trust fund. The latter method appears to provide a better descriptive framework for the presentation of award data. When dual entitlements are counted as awards, the number of awardees is increased and the monthly amount awarded is lowered. The person has already been counted as having received an award when he or she became entitled to the retired-worker benefit, and is counted again upon entitlement to the secondary benefit. The benefit amont is lowered because the amount recorded for the award for the dually entitled person is only the difference between the amount of the retired-worker benefit and the amount of the secondary benefit.

# Glossary of Program Terms 

Old-Age, Survivors, and Disability Insurance (OASDI)<br>Medicare (HI/SMI) and Medicaid<br>Supplemental Security Income (SSI)<br>Aid to Families With Dependent Children (AFDC)<br>Low-Income Home Energy Assistance Program (LIHEAP)

## (OASDI, Medicare, Medicaid, SSI, AFDC, and LIHEAP)

Actuarial reduction (OASDI). See "Benefit reduction."
Aged enrollee (Medicare). A person aged 65 or older enrolled in the Medicare program.

Aged beneficiary (OASDI). A person who qualifies for benefits on the basis of age rather than on the basis of child care or disability.

Aged person (SSI). A person aged 65 or older. Excludes persons whose eligibility is based on blindness or disability and who are classified as blind or disabled even if they are aged 65 or older.

Aid to families with dependent children (AFDC). Money payments with respect to a dependent child or children; includes money payments to meet the needs of the parent(s) or needy relative with whom the child is living and the needs of any other individual living in the same home who is considered essential to the well-being of the child if the resources and the needs of such individual are taken into account in determining the amount of the money payment.

Allowance (DI). A determination that a worker is entitled to a cash disability benefit award or to the establishment of a period of disability because of an inability to work by reason of any physical or mental impairment.

Amount reimbursed (Medicare, HI, and institutional billing under SMI). The amount recorded on an individual bill paid by an intermediary to a provider for covered services. The amount reimbursed excludes the applicable deductible and coinsurance, which are the responsibility of the Medicare enrollees served. For hospitals and other institutions paid under the reasonable cost method, billing reimbursements paid by intermediaries are based on an interim rate (either per diem, or a percent of charges, or an all-inclusive rate), which is later adjusted at the end of each provider's fiscal year on the basis of audited reasonable costs of operation. The interim amount reimbursed, as shown on the bill, is an approximation of ultimate reimbursement and excludes any retroactive adjustments or lump-sum interim payments. For hospitals paid under the prospective payment system, which began to be phased in October 1, 1983, the billing reimbursement shown on an individual bill represents the amount paid for the particular diagnosis related group (DRG) into which the patient was classified. Excluded are reimbursements for non-DRG related pass through costs such as capital, direct medical education, kidney acquisitions, certain bad debts, and for the indirect medical education adjustment.

Amount reimbursed (Medicare, physicians, and suppliers under SMI). The amount recorded on an individual claim paid by a carrier to a physician or supplier (for an assigned claim) or a beneficiary (for an unassigned claim).

Annual maximum taxable limit (OASDHI). Annual dollar amount ( $\$ 43,800$ in 1987 and $\$ 45,000$ in 1988) above which earnings in covered employment are neither taxable nor creditable for benefit-computation purposes. See table D for maximum taxable amounts for previous years. (Also referred to as "contribution and benefit base," "annual creditable maximum," "taxable maximum," and "maximum taxable.")

Another's household (SSI). Living arrangement covering those recipients who live in a household headed by someone else and who receive support and maintenance from that person. See "Federal benefit rates (SSI)."

Approved bill (Medicare, HI, and institutional billing under SMI). A bill submitted by a provider of services to an intermediary and approved for payment by the intermediary. Inpatient hospital bills reimbursed under the reasonable cost method may be submitted before discharge for payment of part of an inpatient hospital stay, as well as after discharge for the full stay or for the remaining part of the stay not covered by the interim bill. Under reasonable cost reimbursement, an approved inpatient hospital bill does not necessarily equal a complete stay or discharge. Inpatient hospital bills reimbursed under the prospective payment system are submitted for payment after discharge. There is usually one bill for each stay or discharge.

Assignment rate (Medicare, SMI). See "Total assignment rate."

Auxiliary benefit (OASDI). See "Dependent's benefit."
Average indexed monthly earnings-AIME (OASDI). The amount of earnings used as the basis for determining the primary insurance amount (PIA) for most workers who attain age 62, become disabled, or die after 1978. Indexing creates an earnings record that reflects the value of the individual's previous earnings relative to national average earnings in the indexing year. The indexing year is the second year before the year in which the worker attains age 62, becomes disabled, or dies. Taxable earnings after the indexing year are counted at their nominal value. For widow(er)s first eligible after December 1984, the indexing year applicable to the deceased worker's earnings may alternatively be the second year before the widow(er)s date of eligibility for survivors benefits if a higher benefit results.

Earnings are indexed by multiplying the worker's taxable earnings for each year after 1950 through the indexing year by the average wages of all workers for the indexing year, and dividing by the average wages of all workers for the year being indexed. Once the earnings record has been indexed, the AIME is computed by-
(1) determining the number of computation years-the number of years after 1950 (or the year of attainment of age 21, if later) and up to the year in which the worker attains age 62, becomes disabled, or dies, minus dropout years, generally 5 (minimum number of computation years is 2 ;
(2) selecting the actual computation years, based on highest earnings after indexing, from any years after 1950; and
(3) dividing the sum of earnings in the computation years by the total number of months in the computation years.
For workers becoming entitled to disability benefits after June 1980, the number of dropout years varies by the age attained in year of disability onset. The number is $0,1,2,3,4$, and 5 , respectively, for workers aged 26 or younger, 27-31, 32-36, 37-41, 42-46, and 47 or older. Effective for months after June 1981, however, disabled workers under age 37 may obtain up to 3 additional dropout years ( 3,2 , and 1, respectively, for those aged 26 or younger, 27-31, and 32-36) for years otherwise included as computation years in which the worker had no earnings and was living with a child (of the worker or his or her spouse) under age 3.

Average monthly wage-AMW (OASDI). The amount of earnings used as the basis for determining the primary insurance amount (PIA) for workers who attained age 62 , became disabled, or died before 1979, and also under a transitional guarantee computation for workers who attained age 62 in 1979-83. The AMW is computed by-
(1) determining the number of computation years-the number of years after 1950 (or the year of attainment of age 21 , if later) and up to the year in which the worker attains age 62 (age 65 for men born before January 2, 1911, and the later of age 62 or the year 1975 for men born after January 1, 1911), becomes disabled, or dies, minus dropout years, generally 5 (minimum number of computation years is 2 );
(2) selecting the actual computation years, based on highest earnings (up to the amount of the annual maximum taxable earnings in each year), from any years after 1950; and
(3) dividing the sum of earnings in the computation years by the total number of months in the computation years.
See the last paragraph under AIME for special dropout rules for disabled workers.
An alternative computation method takes into account the worker's earnings after 1936. The method yielding the highest PIA is used.

The transitional guarantee computation is applicable to workers who attained age 62 in 1979-83, and to survivors of such workers (if the PIA under the transitional guarantee computation is higher than under the AIME method). It excludes earnings beginning with the year of attainment of age 62.

Award (OASDI). An action following a determination that an individual is entitled to a specified type of benefit. The action adds the individual to the Social Security benefit rolls maintained for that type of benefit and is counted as an award in a particular month. Award actions are processed not only for new entrants to the benefit rolls but also for persons already on the rolls whose benefits in one category are terminated but who become entitled to another type of benefit. These actions are called conversions. Two frequent events causing conversions are the attainment of age 65 by a disabled worker and the death of a retired or disabled worker. When a disabled worker attains age 65 , the worker benefit and the benefits of spouses and children are converted to the retirement category. Upon the death of a disabled worker, benefits for children are converted to the survivor child category and benefits for spouses caring for these children are converted to widowed mothers and fathers benefits. Benefits for spouses of retired and disabled workers who are entitled because of age are converted to nondisabled widows and widowers benefits upon the death of the worker. The above conversions are counted in the award data. Children of retired workers who are converted to children of deceased workers upon the death of the worker are not counted in the award data.

Awards may result in the immediate payment of benefits (currently payable awards). If an individual does not qualify for payable benefits due to any of the reasons listed under "withholding," conditional or deferred awards are processed. Deferred awards are those in which benefits are scheduled to begin in a specified month. If benefits are witheld for an indefinite period, a conditional award is prepared. Since September 1965, most conditional and deferred awards for beneficiaries aged 65 or older have been for individuals who apply for Social Security benefits in order to become eligible for Medicare but have benefits offset due to the earnings test. Legislation enacted in 1980 permits individuals aged 65 or older to file for Medicare without applying for Social Security benefits. These individuals are not counted in the award data until they actually apply for Social Security.

Bend points. The dollar amounts defining the average monthly earnings or AIME brackets in the benefit formulas. See Table A.3.

Beneficiary (OASDI). A person who has been awarded benefits on the basis of his or her own or another's earnings record. The benefits may be either in currentpayment status or withheld.

Benefit-family group (OASDI). See "Family classification."

Benefit period (Medicare, HI). A period of time for measuring the availability and use of impatient services in a hospital or skilled nursing facility. Also known as a "spell of illness," it begins with the first day not included in a previous benefit period and ends when the individual has not been in any hospital or skilled-nursing facility for 60 consecutive days.

Benefit reduction (OASDI). Reduction in monthly benefit amount payable (1) on entitlement at ages $62-64$ if the beneficiary is a retired worker, a wife or husband of a retired or disabled worker (with entitlement not based on
caring for a child beneficiary), or a divorced spouse; (2) on entitlement at ages $60-64$ if the beneficiary is a widow, widower, or a surviving divorced spouse or (3) on entitlement, in case of disability, at ages $50-59$ if the beneficiary is a widow, widower, or surviving divorced spouse.

At the time of award, the following reductions in benefit amount are made for-
a retired-worker beneficiary: 5/9 of 1 percent for each month of entitlement before age 65 (maximum reduction of 20 percent);
a wife or husband beneficiary: $25 / 36$ of 1 percent for each month of entitlement before age 65 (maximum reduction of 25 percent);
a nondisabled widow or widower or surviving divorced spouse: 19/40 of 1 percent for each month of entitlement before age 65 (maximum reduction of 28.5 percent); and
a disabled widow or widower or surviving divorced spouse under age 60: 28.5 percent.
The benefit continues to be paid at a reduced rate even after age 65 , except that the reduced rate is refigured at age 65 for all beneficiaries and also at age 62 for a widow, widower, and a surviving divorced spouse to omit months for which the reduced benefit was not paid and to take into account any additional earnings.

A disabled-worker benefit may also be reduced if it is payable to a beneficiary already entitled to a reduced retired-worker, widow's, or widower's benefit, with the reduction related to the number of months before age 65 a reduced benefit was actually drawn.

Benefits in force (OASDI). The number of persons with benefits in force is the sum of persons with benefits in current-payment status and persons with benefits withheld.

Benefits paid (OASDI). The amounts disbursed for benefits by the Department of the Treasury in specified periods, including the amount of SMI premiums deducted from the checks.

## Benefits terminated (OASDI). See "Terminations." <br> Benefits withheld (OASDI). See "Withholding."

Bill (Medicare, SMI). A request for payment from or on behalf of a patient for services provided by a physician or supplier. Each bill may include one or more covered services provided by a single physician or supplier on the same or different days. Only bills from which some payment is made under SMI are included in the data.

Blind person (SSI). A person having 20/200 or less vision in the better eye with the use of correcting lenses, or with tunnel vision of 20 degrees or less, or who met the October 1972 State definition of blindness and received payments under the State's program of aid to the blind (AB) in December 1973. Persons aged 65 or older who receive SSI because they are blind are classified as blind rather than aged.

Carrier (Medicare, SMI). Nongovernment organization authorized to determine amounts of payments due noninstitutional providers and to make such payments for covered services provided SMI enrollees. (For HI/SMI institutional providers, see "Intermediary.")

Charges (Medicare, SMI). Amounts allowed by carriers for specific services and procedures, determined on the basis of a physician's or supplier's customary charges for the service and on the prevailing charges in the locality for similar services. The amount allowed, also known as the "reasonable charge," cannot be higher than that applicable for the carrier's own policyholders for similar services under comparable circumstances.

Child (SSI). An unmarried blind or disabled person who is not the head of a household and who is either under age 18 or aged 18-21 and regularly attending school.
Childhood disability benefit (OASDI). "See Disabled child's benefit."
Child recipient (AFDC). Each dependent child who meets the criteria is a child recipient.

Child's benefit (OASDI). A monthly benefit payment to a child or eligible grandchild of a retired or disabled worker or of a deceased worker who died fully or currently insured if the child or grandchild is under age 18, or an elementary or secondary student between ages 18 and 19, (before May 1985, benefits were payable to certain postsecondary students), or a disabled person aged 18 or older whose disability began before age 22. A grandchild is eligible for benefits on the earnings record of a grandparent (or the grandparent's spouse) if the following conditions are met: (1) The child must live with the grandparent in the United States, (2) the child must be dependent on the grandparent for at least half of his or her support, and (3) if the parents of the child are alive and not disabled, the grandparent must be deceased and the child adopted by the grandparent's surviving spouse. Child beneficiaries under age 18 and student beneficiaries must be unmarried. Benefits to disabled adult children (also referred to as childhood disability beneficiaries) can be continued if they marry certain other social security beneficiaries.
Clinic services (Medicaid).Services furnished to outpatients by a facility not part of a hospital but organized and operated to provide services to outpatients.
Coinsurance amount (Medicare, HI) Share paid by the patient for covered services above the deductible currently in effect. In 1988, the patient paid $\$ 135$ for each day of inpatient hospital services furnished from the 61st day to the 90 th day of services for each benefit period and $\$ 270$ for each day of the 60 -day lifetime reserve that he or she used. For skilled-nursing services, the patient paid $\$ 67.50$ a day from the 21st to the 100th day of care in 1988.
Coinsurance amount (Medicare, SMI). Share paid by the patient for covered services above the current deductible for the calendar year. The program pays 80 percent of costs or charges allowed for covered services, after the deductible is met; the individual is responsible for the remainder of all charges on unassigned claims or 20 percent of allowed charges on assigned claims (see table M).
Computation starting date (OASDI). December 31 of either 1936 or 1950. Taxable earnings after the applicable starting date are counted in computing average monthly earnings (only December 31, 1950, applicable in computing average indexed monthly earnings).

Contributions (OASDHI). The amount based on a percent of earnings, up to an annual maximum, that must be paid by-
(1) employers and employees on wages from employment under the Federal Insurance Contributions Act,
(2) the self-employed on net earnings from selfemployment under the Self-Employed Contributions Act, and
(3) States on the wages of State and local government employees covered under the Social Security Act through voluntary agreements under section 218 of the Act.
Generally, employers withhold contributions from wages, add an equal amount of contributions, and pay both on a current basis. For annual maximum taxable earnings limit and contribution rates, see table D . The term contributions includes taxes for OASDI and HI.

Conversion of benefits from one type to another (OASDI). See "Award."

Converted (transferred) from State programs (SSI). Persons eligible to receive cash assistance (OAA, AB, or APTD payments) under Titles I, X, or XIV (or XVI as in effect before 1974) of the Social Security Act for December 1973 who were transferred to the SSI program, effective January 1974.

Covered charges (Medicare, HI). Amount billed by providers for covered services.

Covered days of care (Medicare, HI). The number of days of care for which claims have been approved for payment. Because of interim claims for part of a hospital stay, the number of covered days of care per claim may not represent the number of covered days of care per discharge.

Covered employment (OASDHI). All employment and self-employment creditable for social security purposes. Almost every kind of employment and self-employment is covered under the program. However, in a few employment situations (for example, State and local government employers, religious orders under a vow of poverty, or foreign affiliates of American employers), coverage must be elected by the State, religious order, or American employer, respectively. In a few cases, workers (for example, self-employed members of certain religious groups and ministers) can opt out of coverage. Even though employment is covered, not all earnings may be taxable and creditable for social security purposes. (See taxable and creditable wages and taxable and creditable income from self-employment, table D.)

Covered services (Medicare). Services and supplies specified as covered by law (including those for which no payment was made because deductible was not met).

Current-payment status (OASDI). Benefit being paid for a given month with or without deductions, provided the deductions add to less than a full month's benefit. The amount shown is before deduction for the supplementary medical insurance premium. A benefit in current-payment status at the end of a month is usually payable in the first week of the following month.

Deductible (Medicare, HI). Specified amount to be paid by the patient for covered services before reimbursement occurs. During 1988, the individual was responsible for the first $\$ 540$ of inpatient hospital expenses in a benefit period.

Deductible (Medicare, SMI). The first $\$ 75$ of expenses for covered services in each calendar year that must be paid by the patient.

Deeming (SSI). Taking into account the income and resources of essential persons and certain relatives who live with an SSI recipient, when determining the amount of the payment. Relatives are the ineligible spouses of adult recipients and the ineligible parents of child recipients under age 18.

For noncitizens applying for SSI within 3 years of their entry into the United States, the income and resources of their immigration sponsor are taken into account. This does not apply to those who become blind or disabled after entry, to refugees, or to those granted political asylum.

Delayed retirement credit (OASDI). A credit due a worker for delaying retirement after attaining age 65 provided the worker (1) was fully insured, (2) had attained age 65 but was not yet age 70 (age 72 before January 1984), and (3) did not receive benefits because he or she had not filed an application or was working. Each monthly credit serves as a basis for increasing the monthly benefit (unless the benefit is based on a special minimum PIA) by $1 / 12$ of 1 percent for workers who attained age 62 before 1979 and by $1 / 4$ of 1 percent for workers attaining age 62 after 1978. The increase is applicable to the worker's monthly benefit amount but not to his or her PIA. Hence, auxiliary benefits are generally not affected. The exception is that a surviving (including divorced) spouse receiving widow(er)'s benefits may be entitled, for months after May 1978, to an increase based on the increase that had been applied to the benefit of the deceased worker or for which the worker was eligible at the time of death.

For benefits payable for months before 1979, beneficiaries could not receive delayed retirement credits if they had received a reduced benefit because of entitlement before age 65. Benefits for these individuals were recomputed effective January 1979 to give them the $1 / 12$ of 1 percent credit for any increment month.

Dental services (Medicaid). Services, including ancillary services, provided by a dentist in the practice of his or her profession.

Dependent child (AFDC). A needy child who has been deprived of parental support or care by reason of the death, continued absence from the home, or physical or mental incapacity of a parent or, at the option of the States, who is deprived of such support or care because the parent is unemployed as defined in Federal regulations. The needy child must be living with his or her father, mother, grandfather, grandmother, brother, sister, stepfather, stepmother, stepbrother, stepsister, uncle, aunt, first cousin, nephew, or niece (including such relatives of half-blood; preceding generations as denoted by prefixes of grand, great, or great-great; and persons who have legally adopted the child or the child's parent) in a place of residence maintained by one or more of such relatives as his or her or their own home.

Dependent's benefit (OASDI). Monthly benefit payable to a spouse or child of a retired or disabled worker.

Determination of continuing disability (DI). A determination as to whether a person who has been under a disability within the meaning of the law is still under such disability.

Direct deposit (OASDI and SSI). A procedure by which beneficiaries elect to have their monthly benefit checks sent directly to financial institutions they designate.

Disability (DI). The inability to engage in substantial gainful activity by reason of any medically determinable physical or mental impairment that can be expected to result in death or to last for a continuous period of not less than 12 months. Inability to engage in substantial gainful activity means-
(1) for a nonblind disabled worker, a blind worker under age 55, or a disabled child, the inability to engage in substantial gainful activity;
(2) for a blind worker aged 55 or older, inability because of blindness (that is, central visual acuity of $20 / 200$ or less in the better eye with the use of a correcting lense, or tunnel vision of 20 degrees or less) to engage in any substantial gainful activity requiring skills comparable with those in any gainful activity in which he or she previously engaged with some regularity and over a substantial period of time; and
(3) for a disabled widow, widower, or surviving divorced spouse, inability to engage in any gainful activity.

Except in certain cases involving second and subsequent disabilities, the law requires that a person be disabled continuously for 5 months before he or she can qualify for a "period of disability" or a disabled-worker benefit.

Disabled adult child's benefit (OASDI). See "Disabled child's benefit."

Disabled child's benefit (OASDI). A monthly benefit payable to a disabled person aged 18 or older-a son or daughter or eligible grandson or granddaughter of a retired, deceased, or disabled worker-whose disability began before age 22. (Also referred to as childhood disability benefit.)

Disabled enrollee (Medicare). A person under age 65 who is enrolled in the Medicare program by virtue of having been entitled or deemed entitled to cash disability benefits for at least 24 months. For statisticial purposes, when not broken out seperately, this designation is also used for persons under age 65 enrolled solely on the basis of end stage renal disease.

Disabled person (SSI). A person unable to engage in any substantial gainful activity due to a medically determinable physical or mental impairment expected to result in death or that has lasted or can be expected to last for a continuous period of at least 12 months. Additionally, a child under age 18 who has an impairment of comparable severity with that of a disabled adult may be considered disabled, as may those persons who met the October 1972 State definition of disability and received payments under the State's program of aid to the permanently and totally disabled (APTD) for December 1973 and for at least 1 month before July 1973. Persons aged 65 or older who receive SSI because they are disabled are classified as disabled rather than aged.

Disabled surviving divorced wife's benefit (OASDI). See "Widow's benefit."

Disabled surviving divorced husband's benefit (OASDI). See "Widower's benefit."

Disabled widower's benefit (OASDI). See "Widower's benefit."

Disabled widow's benefit (OASDI). See "Widow's benefit."

Disabled-worker benefit (DI). A monthly benefit payable to a disabled worker under age 65 insured for disability. Before November 1960, disability benefits were limited to disabled workers aged 50-64.

Divorced husband's benefit (OASDI). See "Husband's benefit."

Divorced wife's benefit (OASDI). See "Wife's benefit."
Domiciliary care facilities (SSI). Residential facilities for persons who, because of old age or disability, cannot function in totally independent living situations. These homes do not provide medical or nursing care services.

Dual entitlement (OASDI). See "Entitlement."
Early retirement (OASDI). See "Benefit reduction."
Earnings (OASDHI). Unless otherwise qualified, this term includes all wages from employment and net earnings from self-employment, whether or not taxable or covered.

Earnings test (OASDI). The provision requiring the withholding of benefits if beneficiaries under age 70 have earnings in excess of certain exempt amounts. See "Earnings test," table B.

Eligible couple (SSI). Two persons, living together as married or separated for less than 6 months, both of whom are eligible for SSI. One member of the couple is designated the eligible individual and the other is the eligible spouse. An eligible couple is classified as aged, blind, or disabled according to the classification of the eligible individual.

Eligible individual (SSI). An aged, blind, or disabled person eligible for payments under the SSI program.

Eligible worker (OASDI). For retirement insurance benefits, when an individual meets the insured status and age requirements for benefits whether or not he or she has filed an application; for disability insurance benefits, when an individual meets the insured status requirements and a period of disability has been established for the worker.

Emergency advance payments (SSI). Payments available at initial application for individuals who need cash assistance before the first SSI check arrives. The applicant must present strong evidence that he/she meets the qualifications for eligibility. This advance is withheld from the first check.

Emergency assistance-Title IV-A (AFDC). Aid offered for a period of 30 days in any 12 -month period to needy families with children who are living with specified relatives in a place of residence maintained by one or more of such relatives as his/her or their own home.

End-stage renal disease (ESRD). Coverage available to (1) disability beneficiaries under age 65 with ESRD, (2) persons eligible solely on the basis of ESRD, and (3) persons aged 65 or older with ESRD.

Enrollment (Medicare, HI). Persons aged 65 or older, disabled persons under age 65, and persons with end stage renal disease who are automatically eligible for HI.

Also, persons age 65 or older who are not automatically eligible for HI, either as beneficiaries who receive monthly cash payments or under the transtional provisions, but enroll voluntarily in the hospital insurance program and pay a monthly premium.
Enrollment (Medicare, SMI). Persons eligible for supplementary medical insurance who elect to enroll in the SMI program and agree to pay the monthly premium or have it paid on their behalf by a relative, friend, or organization, and persons enrolled by a State welfare agency as part of a coverage group under a FederalState agreement.
Entitlement (OASDI). The state or condition of meeting the applicable requirements for receipt of benefits, including the filing of an application. Entitlement can be retroactive and thus precede the date of award. Retroactivity can extend up to 12 months before the date of application for benefits but not beyond the first time that all of the requirements other than the filing of the application were met. However, effective for applications filed after December 1977, retroactivity is not permitted where permanently reduced benefits would result (except for disability-related benefits or when unreduced spouse's and children's benefits are involved). Effective with applications filed after February 1981, the retroactive period is reduced from 12 months to 6 months. This reduction does not apply to disabled workers, their spouses and children, or to disabled widows and widowers. Effective with applications filed after June 1983, persons filing for widow's or widower's benefits in the month immediately following the month of the worker's death may elect a 1 -month retroactivity, even if reduced benefits would result.
A person can become entitled to only one benefit, to two benefits simultaneously (dual entitlement) or, in a few cases, to three benefits simultaneously. Entitlement to a particular benefit can be initial or subsequent.

- Dual. Entitlement to two types of benefits for the same month. A woman may, for example, be entitled to payments both as a retired worker and as a wife. Entitlement to two secondary benefits generally does not result in a dual entitlement because usually only the larger benefit is payable. Entitlement to a retired-worker or disabled-worker benefit and a secondary benefit results in dual entitlement only if the secondary benefit is larger. When there is dual entitlement, the beneficiary receives the smaller benefit in full, but the larger benefit is paid only in the amount by which it exceeds the smaller benefit. Three distinguishable dual entitlement categories are:
(1) entitlement to a retired-worker or disabled-worker benefit and to a larger auxiliary benefit. If the two benefits are financed from the same trust fund, the beneficiary is represented only once in the statisticsas a retired-worker or a disabled-worker beneficiaryand the benefit amount recorded is the larger amount associated with the auxiliary benefit. If the two benefits are paid from different trust funds, the beneficiary is represented twice-as a retired-worker or disabledworker beneficiary and also as an auxiliary beneficiary; the retired-worker or disabled-worker benefit amount recorded is the actual amount for that benefit, and the
amount recorded for the auxiliary benefit is the actual amount for that benefit reduced by the amount of the retired-worker or disabled-worker benefit and further adjusted, if necessary, for actuarial reduction, disability offset, and application of the family maximum;
(2) entitlement to a wife's benefit and to a smaller widow's benefit based on a previous marriage; and
(3) entitlement to an auxiliary benefit and to a larger special age- 72 benefit.
The number of dually entitled beneficiaries in categories (2) and (3) is relatively small. For definition of dual entitlement applicable to statistics for earlier years, see the Social Security Bulletin, Annual Statistical Supplement for 1967.
- Initial. Entitlement to (1) a retired-worker or disabled-worker benefit-or to a spouse's and child's benefit payable from the same trust fund and with the same month of entitlement as the retired-worker or disabled-worker benefit based on the same earnings record; (2) a lump-sum death payment; or (3) a survivor monthly benefit where there has been neither a previous entitlement to such a benefit nor previous entitlement to a lump-sum death payment based on the same earnings record.
- Subsequent. Entitlement to (1) a spouse's and child's benefit as of a month later than the month in which the individual became entitled to a retired-worker or disabled-worker benefit payable from the same trust fund and based on the same earnings record or (2) a survivor monthly benefit as of a month later than the month in which the individual became entitled to another survivor monthly benefit or a lump-sum death payment based on the same earnings record.

Essential person (SSI). An individual whose needs were taken into account in computing the amount payable in December 1973 to a recipient under a State program whose payment was converted to an SSI payment. When the recipient's payment was converted to SSI, his or her payment was increased for the essential person. The essential person may or may not be a relative, must live in the same household as the eligible individual or couple, and must be ineligible for SSI.
Extension of Medicare Coverage (DI, and Medicare, HI). Medicare benefits of disability beneficiaries can continue for up to 36 months after their cash benefits are ended on the basis of engaging in substantial gainful activity. The impairment on which the entitlement to disability benefits was based must continue throughout the 3 -year period.

Family benefit (OASDI). The sum of the individual monthly benefits payable to all the beneficiaries entitled on the basis of a single earnings record. See "Maximum family benefit."

Family classification (OASDI). As used in statistical tables, the number and types of beneficiaries entitled to benefits on a single earnings record. Since the family classification is determined by the types of beneficiaries entitled, it can differ from actual family status. For example, a married couple is classified as a worker and spouse family if both persons are entitled on the earnings
record of one of them. If both persons are each entitled to a benefit based on their own earnings record, they would be designated as two worker-only families.

Family planning services (Medicaid). Any medically approved means, including diagnosis, treatment, drugs, supplies, devices, and related counseling, furnished or prescribed by or under the supervision of a physician for individuals of childbearing age for the purpose of enabling them to freely determine the number and spacing of their children.

Father's benefit (OASDI). A monthly benefit payable to a widower or surviving divorced father if (1) the deceased worker on whose account the benefit is paid was either fully or currently insured at the time of death and (2) an entitled child of the worker in his care is under age 16 or is disabled. For fathers entitled for August 1981, based on the care of a child aged 14 or older, benefits were continued until the child attained age 18 or until September 1983, whichever came earlier.

Federal benefit rates (SSI). The basic benefit standards used in computing the amount of Federal SSI payments. Rates differ for individuals and couples and for persons in Medicaid institutions. (Full rates apply for individuals and couples living in their own households, and twothirds of the full rates apply for individuals and couples who live in another's household). A \$25-per-month rate applies for individuals in Medicaid institutions. For 197582, Federal benefit rates except for the $\$ 25$ rate, were increased to reflect increases in the cost-of-living. In 1983, a general benefit increase raised the individual and couple rates by $\$ 20$ and $\$ 30$, respectively. Cost-of-living increases were 3.5 percent effective January 1, 1984 and January 1, 1985, 3.1 percent effective January 1, 1986, 1.3 percent effective January 1, 1987, and 4.2 percent effective January 1, 1988.

Federal SSI payments (SSI). Payments made out of Federal funds after reducing the Federal benefit rates by the amount of countable income, if any.

Federally administered payments (SSI). Federal SSI payments and State supplementary payments issued by the Social Security Administration on behalf of States.

Federally administered State supplementation (SSI). Cash payments provided by a State but issued by the Social Security Administration, which is also responsible for the maintenance of payment records. See "State supplementation (SSI)."

General assistance (GA). Public financial assistance to persons in need who cannot qualify for help under one of the federally assisted programs.

Grandchild's benefit (OASDI). See "Child's benefit."
Hold-harmless provision (SSI). Under certain conditions, this provision limits a State's fiscal liability under federally administered supplementation to its share of OAA, AB, and APTD expenditures in calendar year 1972. Cost-of-living increases in Federal SSI payments made after June 30, 1977, are disregarded in calculating the "hold-harmless" amount. This protection, also referred to as the Federal contribution to State supplementation, was phased out in fiscal year 1985.

Home energy (LIHEAP). Fuel used for heating or cooling in a residential dwelling-electricity, oil, gas, coal, wood, kerosene, or any other fuel.

Home-health services (Medicaid and Medicare). Services furnished a patient in his/her home by an agency engaged primarily in providing skilled-nursing and other therapeutic services under a plan established and supervised by a physician. Covered services may include part-time or intermittent nursing care; physical, occupational, and speech therapy; part-time or intermittent services of a home health aide; medical supplies (other than drugs and biologicals) and the use of medical appliances and, in certain cases, services of an intern or resident-in-training of a teaching hospital. The services must be furnished by or under arrangement with an approved home health agency.

Hospice (Medicare). A public or private organization, or part of either, that is primarily engaged in providing specific services to the terminally ill on an as-needed 24hour basis. Medicare covers four categories of hospice care (general inpatient care, inpatient respite care, routine home care, and continuous home care). Medicare covers hospice care for terminally ill beneficiaries whose life expectancy is 6 months or less. Use of hospice care is voluntary and requires the beneficiary to waive his or her rights to traditional Medicare curative treatments. Beneficiaries retain Medicare coverage for services provided outside the hospice program if the services are for the treatment of a condition completely unrelated to the individual's terminal condition. The Health Care Financing Administration reimburses hospices on the basis of prospective all-inclusive per diem rates established for each of the four categories of care.

## Hospital (Medicare).

- Long-stay hospital. General and special hospitals with average stays greater than 25 days. Includes all pediatric, rehabilition, psychiatric, and alcohol and drug hospitals.
- Participating hospital. See "Provider of services."
- Short-stay hospital. General and special (other than pediatric, rehabilitation, psychiatric and alcohol and drug) hospitals reporting average stays of 25 days or less.

Household (LIHEAP).Any individual or group of individuals who are living together as one economic unit and for whom residential energy is customarily purchased in common, or who make undesignated payments for energy in the form of rent.

Husband's benefit (OASDI). Monthly benefit payable to a husband or a divorced husband of a retired or disabled worker under one of the following conditions:
(1) the husband is aged 62 or older or has an entitled child of the worker in his care who is under age 16 or is disabled. For husbands entitled for August 1981, based on the care of a child aged 14 or older, benefits were continued until the child attained age 18 or until September 1983, whichever came earlier; or
(2) the divorced husband is aged 62 or older and his marriage to the worker has lasted 10 years ( 20 years for entitlement before 1979) before the divorce became final. Effective with benefits payable after December 1984, a divorced husband of an eligible worker can be
entitled to benefits if he meets the requirements for entitlement and has been divorced for at least 2 years, regardless of whether the worker has filed for benefits or has benefits withheld due to the earnings test. The earnings test will continue to apply to the divorced husband's own earnings; or
(3) effective with benefits payable beginning May 1983, a husband of a transitionally insured worker is entitled to benefits if he was born before January 2, 1897.

Income (SSI). Cash, property, or services received by an SSI applicant, which he or she is able to use to meet basic needs-food, clothing, and shelter. If the item received (except food, clothing, or shelter) would be an excluded nonliquid resource in the next month (for example, an excludable television set), the item received does not count as income. Income may be in cash or in kind, earned or unearned. Earned income includes wages and net earnings from self-employment. Unearned income includes any income not defined as earned, such as social security benefits, public or private pensions, and asset income (other than in the course of a trade or business).

Independent laboratory services (Medicare, SMI). Diagnostic laboratory tests ordered by a physician and performed in a laboratory independent of a physician's office or a hospital.

Ineligible spouse (SSI). The husband or wife of an eligible individual who does not meet the eligibility requirements for SSI benefits.

Inpatient hospital services (Medicaid). All services furnished to an inpatient and covered by the hospital's bills.

- General hospital. A hospital maintained primarily for acute illness or injury and for obstetrical or tuberculosis care.
- Mental hospital. A hospital primarily engaged in providing psychiatric services for the diagnosis and treatment of mentally ill persons.
Inpatient hospital services (Medicare, HI). Services provided by a hospital for care and treatment of its inpatients. Covered services include room and board in accommodations containing from two to four beds, nursing services (except for private-duty nursing), drugs and biologicals, and other ancillary services and supplies ordinarily furnished by a hospital to its patients. Inpatient services furnished by a hospital outside the United States are covered if the foreign hospital is closer to or more accessible to the beneficiary's residence than the nearest suitable U.S. hospital.

Institutionalization under Medicaid (SSI). Living arrangement for persons in public or private institutions when more than 50 percent of the cost of their care is met by the Medicaid program under Title XIX of the Social Security Act. See "Federal benefit rates (SSI)."

Insured status (OASDI). The state or condition of having sufficient quarters of coverage to meet the eligibility requirements for retired-worker or disabled-worker benefits or to permit the worker's spouse and children or survivors to establish eligibility for spouse's and children's or survivor's benefits in the event of his or her
disability, retirement, or death. See "Quarters of coverage."

- Currently insured. With at least 6 quarters of coverage during the 13 -quarter period ending with the calendar quarter in which the worker (1) died, (2) became entitled to retired-worker benefits, or (3) most recently became entitled to disabled-worker benefits. If any part of a quarter has been included in a period of disability, that quarter is not counted in the 13-quarter period unless it was a quarter of coverage.
- Fully insured. With at least 1 quarter of coverage (whenever acquired) for each year elapsing after 1950 (or the year in which the worker attained age 21, if later) and before the year in which he or she reaches age 62, dies, or becomes disabled. For a man born before January 2, 1911, the elapsed period ends with the year he reaches age 65. For a man born after January 1, 1911, the elapsed period ends with the later of the year he reaches age 62 or 1975. If any part of a year has been included in a period of disability, that year is not counted as an elapsed year. The number of required quarters of coverage ranges from a minimum of 6 to a maximum of 40 .
- Insured for "special age-72 benefits." Not fully or transitionally insured but meeting the following quarters-of-coverage requirement: no quarters of coverage needed if age 72 was attained before 1968; 3 quarters of coverage required for every year after 1966 and before the year of attaining age 72 . Thus, a woman attaining age 72 in 1970 or later and a man attaining age 72 in 1972 or later would need at least the number of quarters of coverage required for fully insured status.
- Insured in event of disability. Having fully insured status and at least 20 quarters of coverage during the 40 -quarter period ending with the quarter in which the worker became disabled. If any part of a calendar quarter has been included in a period of disability, that quarter is not counted in the 40 -quarter period unless it was a quarter of coverage. A worker disabled before the quarter in which he or she attains age 31 is insured for disability if half the quarters in the period beginning with the quarter after the one in which the worker reached age 21 and ending with the quarter in which the worker became disabled are quarters of coverage. A worker disabled before the quarter in which he or she attains age 24 is insured if he or she has 6 quarters of coverage in the 12 -quarter period ending with the quarter of disablement. A worker disabled by blindness needs only fully insured status to be insured in event of disability.
- Permanently insured. Having at least the number of quarters of coverage that is needed to become eligible for a retired-worker benefit. The maximum number of quarters of coverage required is 40 .
- Transitionally insured. Not fully insured but meeting the quarters-of-coverage requirement for receipt of a benefit under the transitional insured status provision by certain persons born before January 2, 1897:
(1) as a retired worker-has 1 quarter of coverage (whenever acquired) for each year elapsing after 1950 and up to the year of attainment of age 65 for men or age 62 for women. A minimum of 3 quarters of coverage is required;
(2) as a wife or husband-the spouse must be transitionally insured; or
(3) as a widow or widower-the deceased spouse must have had a specific number of quarters, depending on his or her date of birth or death and on the widow(er)'s date of birth. A minimum of 3 quarters of coverage is required.
Intermediate-care facility services (Medicaid). All services provided by an institution furnishing health-related care and services to individuals who do not require the degree of care provided by hospitals or skilled-nursing facilities as defined under Title XIX.
- For mentally retarded- Refers to intermediate-care facility services for mentally retarded persons under active treatment in certified institutions for the mentally retarded or for persons with related conditions.
- For all others- Refers to services provided to individuals in an intermediate-care facility other than one for the mentally retarded or an institution for mental diseases.

Intermediary (Medicare). A public or private organization authorized to determine the amount of payment due for covered services provided beneficiaries and to make such payments to institutional providers of services. (For noninstitutional providers under SMI, see "Carrier.")

Interim assistance (SSI). Payments made by a State or local government to SSI applicants while their claims are being adjudicated. Repayment is made from any benefits due to the individual or couple when the first SSI payment is made.
Laboratory and radiological services (Medicaid). Professional and technical laboratory and radiological services provided in an office or similar facility (other than a hospital outpatient department or clinic) or by a qualified laboratory.

Low-income households (LIIHEAP). Households with income under the greater of 150 percent of the poverty level for their State or 60 percent of the State median income, or households with members receiving aid to families with dependent children, supplemental security income, food stamps, or certain need test veterans' benefits as set out in section 2605(b)(2) of the LIHEAP statute.

Lump-sum death benefit (OASDI). A lump sum of $\$ 255$ payable on the death of a fully or currently insured worker. The lump sum is payable to:
(1) a spouse who was living with the worker at the time of death or, if there is no such spouse, to
(2) a spouse eligible for monthly benefits for the month of death or, if there is no such spouse, to
(3) child(ren) eligible for monthly benefits for the month of death.

For deaths before September 1981, the lump sum was generally payable to the surviving spouse or to the person(s) paying burial expenses, or to the funeral home.

Lump-sum payment (OASDI). A lump-sum death benefit.
Mandatory supplementation (SSI). State supplementary payments required by law to maintain the December 1973 income levels of persons transferred to the Federal SSI program in 1974. See "Converted (transferred) from State programs (SSI)."
Maximum family benefit (OASDI). The maximum monthly amount that can be paid on a worker's earnings record. For benefits payable on the earnings records of retired and deceased workers, and of disabled workers entitled before July 1980, the maximum usually varies between 150 and 188 percent of the PIA.
For disabled workers entitled after June 1980, the maximum represents the smaller of (1) 85 percent of the worker's AIME (or 100 percent of the PIA, if larger), or (2) 150 percent of his or her PIA, but never less than the worker's PIA. Whenever the total of the individual monthly benefits payable to all the beneficiaries entitled on one earnings record exceeds the maximum, each dependent's or survivor's benefit is proportionately reduced to bring the total within the maximum. In computing the total of the individual monthly benefits for entitlements based on a single earnings record, a benefit payable to a divorced spouse or to a surviving divorced wife is not included. Such benefits thus affect neither the necessity for nor the extent of the reduction in the individual monthly secondary benefits. See tables A.5A. 7 .

Military wage credits (OASDHI). Noncontributory wage credits of $\$ 160$ are provided for each month of active military service from September 16, 1940, through December 31, 1956. For years after 1956, the basic pay of military personnel is covered under the social security program on a contributory basis. Noncontributory wage credits of $\$ 300$ for each calendar quarter in which a person receives pay for military service from January 1957 through December 1977 are granted in addition to contributory credits for basic pay. Deemed wage credits of $\$ 100$ are granted for each $\$ 300$ of military wages in years after 1977. (The maximum credits allowed in any calendar year are $\$ 1,200$.) These credits take into account that military personnel receive other cash payments and wages in kind (such as food and shelter) in addition to their basic pay.
Minimum benefit (OASDI). The lowest benefit (before actuarial reduction) payable under the regular insurance programs to a retired worker, a disabled worker, or a sole survivor of a deceased worker. Through 1978, the minimum benefit increased when there was a general benefit increase. The minimum benefit was frozen at $\$ 122$ for persons first becoming eligible after 1978. Benefit increases apply to that amount only when one or more individuals are entitled to benefits on a particular record or, if earlier, when the insured worker or widow(er) reaches age 65 . The minimum benefit was eliminated for most workers who attain age 62 , become disabled, or die after 1981. For these persons, benefits will be derived from applicable computation methods without a minimum floor. See tables A.5-A.7.

Monthly benefit (OASDI). A cash benefit payable each month.
Monthly benefit amount (OASDI). The amount payable after reduction, if necessary, for age, family maximum, and other reasons but before any deduction for SMI premiums. Effective June 1982, the final benefit payment is rounded to the next lowest $\$ 1$ (if not already a multiple of $\$ 1$ ) after reduction for age, family maximum, and other reasons and after any deduction for SMI premiums. This procedure changes the monthly benefit amount credited to a beneficiary. This amount, which is called the Monthly Benefit Credited (MBC), is derived as follows:
(i) subtract the SMI premium from the monthly benefit amount;
(2) round the above result down to the nearest whole dollar; and
(3) add back the SMI premium to the rounded result from 2 above (this is the MBC).

For example, if a monthly benefit amount is $\$ 423.10$, and a SMI premium of $\$ 12.20$ is deducted, the MBC is $\$ 422.20$ ( $\$ 423.10-\$ 12.20=\$ 410.90$ rounded down to $\$ 410.00+\$ 12.20=\$ 422.20$ ). Tables showing data for beneficiaries in current-payment status beginning with June 1982 will reflect the MBC.

Mother's benefit (OASDI). A monthly benefit payable to a widow or surviving divorced mother, if (1) the deceased worker on whose account the benefit is paid was fully or currently insured at the time of his death and (2) an entitled child of the worker is in her care who is under age 16 or is disabled. For mothers entitled for August 1981 based on the care of a child age 14 or older, benefits were continued until the child attained age 18 or until September 1983, whichever came earlier.
Net assignment rate (Medicare, SMI). See "Total assignment rate." Same computation except omits claims from hospital-based physicians and group-practice prepayment plans.
Noncitizen participation requirements (SSI). To be eligible for SSI payments, a noncitizen must have been lawfully admitted for permanent residence or must otherwise be permanently residing in the United States under color of law.
Noncovered services (Medicare). Services not reimbursable under HI or SMI because they are either specifically excluded by law or fall outside the maximum benefit provisions (days of hospital care in excess of 90 days in a benefit period). Services specifically excluded by law are those performed by a government agency or reimbursable under workers' compensation, services performed by a relative or household member, services performed outside the United States and its possessions (with certain exceptions), self-administered drugs, private hospital accommodations, private-duty nursing, routine physical checkups, routine dental services, eye and hearing examinations, eyeglasses and hearing aids, orthopedic shoes, elective cosmetic surgery, custodial care, and services for which there is no legal obligation to pay. See "Covered Service".

Nondisabled widower's benefit (OASDI). See "Widower's benefit."

Nondisabled widow's benefit (OASDI). See "Widow's benefit."

Nonpayment status (OASDI). See "Withholding."
Occupation (DI and SSI). The longest full-time work performed, as defined in the Dictionary of Occupational Titles, issued by the Department of Labor.

Occupational division (DI and SSI). A number of occupations (professional, clerical, etc.) with a common vocational background. The divisions are defined in the Dictionary of Occupational Titles.

Offset for spouses with other government pensions (OASDI). Spouses's and surviving spouse's benefits, based on applications filed after November 1977, are subject to reduction by any government (Federal, State, or local) pensions payable to the spouse on the basis of his or her own earnings in noncovered employment. After November 1984, the amount of the reduction is equal to two-thirds of any such pension. Persons in either of the following categories are entirely exempt from the offset: (1) all women first eligible for a government pension before December 1982 except those divorced from the worker after fewer than 20 years of marriage and (2) men and women first eligible for their pensions before July 1983 who received one-half or more of their support from the worker.

Old-age benefit (OASI). See "Retired-worker benefit."
Optional supplementation (SSI). Additional payments provided voluntarily by the States to raise the payment levels of both former recipients of State program payments and aged, blind, and disabled persons under the SSI program.

Other practitioners' services (Medicaid). Services of licensed practitioners other than physicians and dentists.

Outpatient hospital services (Medicaid and Medicare, SMI). Therapeutic or diagnostic services provided by outpatient departments of hospitals. Examples of therapeutic services are X-ray and radiation therapy; treatment of fractures, cuts, and abrasions; supply of surgical dressings, splints, and casts; diagnostic X-rays, electrocardiograms, blood tests, urinalysis, and pulmonary function tests.

Own household (SSI). Living arrangement for adults who own their living quarters, or are liable for the rent, or pay their pro rata shares of household expenses; persons who are living in households composed only of recipients of public income-maintenance payments; persons placed by agencies in private households for care; children living in their parent's household; and persons residing in domiciliary care facilities. See "Federal benefit rates (SSI)."

Parent's benefit (OASDI). Monthly benefit payable to a dependent parent aged 62 or older of a deceased fully insured worker.

Participating skilled-nursing facility (Medicare). See "Provider of services."

Payee (OASDI and SSI). A person who receives the monthly benefit, generally the beneficiary.

Payment status (OASDI). The state or condition of a benefit with respect to actual receipt by the beneficiary-that is, whether the benefit is in currentpayment status or withheld.

Period of disability (DI). A continuous period of at least 5 months of disability, within the meaning of the law, established for a disabled worker who also meets the prescribed work restrictions. Such a period is disregarded in computing the PIA unless its inclusion would increase the PIA. Persons who meet the definition of blindness (see "Disability") may engage in substantial gainful activity during the period.

Person served (Medicare). An enrollee who used covered services, incurred expenses greater than the deductible amount, and for whom Medicare paid benefits. Persons are counted once for each type of covered service used, but are not double counted in aggregate totals. A person receiving services two or more times during the year is counted as one person served. An exception to this rule occurs when an individual has incurred services both as an aged and disabled beneficiary during the same year. In this case, reimbursements are aggregated in accordance with the status of the beneficiary at the time medical services were rendered.

Physician's services-including related services (Medicaid and Medicare, SMII). Medical and surgical services by a physician, wherever furnished, and services usually connected with a physician's treatment and included in his or her bill such as diagnostic tests, medical supplies, services of physician's nurse, drugs and biologicals that cannot be self-administered and similar services. Other covered services and supplies grouped in this category include X-ray, radium, and radioactive isotope therapy; prosthetic devices; ambulance service; and purchase or rental of durable medical equipment. Also covered are hospital services incident to physicians services, services of a physical therapist in independent practice, and limited services of a licensed chiropractor.

Poverty level (LIHEAP). One income standard used by States in determining a household's income eligibility for LIHEAP. After adjustment by family income and size, the poverty income guidelines define the poverty level. The poverty income guidelines are a modified version of the poverty thresholds derived from a statistical definition of poverty developed by the Social Security Administration in 1964. The poverty income guidelines are issued each year in the Federal Register by the Department of Health and Human Services for administrative use by poverty-related programs in determining income eligibility of program recipients.

Prescribed drugs (Medicaid). Drugs dispensed by a licensed pharmacist on the prescription of a practitioner licensed by law to prescribe such drugs, and drugs dispensed by a licensed practitioner to his or her own patients. This item does not include a practitioner's drug charges that are not separable from his or her other charges or drugs covered by a hospital's bill.

Presumptive disability or blindness (SSI). When there is high probability of a favorable medical determination of disability or blindness, payments may be made for up to 3 months before the formal determination, if the applicant meets the other eligibility qualifications.

Primary insurance amount-PIA (OASDI). The monthly amount payable to a retired worker who begins to receive benefits at age 65 or to a disabled worker who has never received a retirement benefit reduced for age. This amount, which is related to the worker's average
monthly wage or average indexed monthly earnings, is also the amount used as a base for computing all types of benefits payable on the basis of one individual's earnings record. See Tables A.1-A.3, for the derivation of the PIA from the worker's average monthly wage or average indexed monthly earnings, as applicable, and section on "Type of Monthly benefits" for the relationship (percent) of other benefit amounts to the PIA.

Prospective payment system (Medicare). Public Law 98-21 established a prospective payment system for Medicare payment of inpatient hospital services. Under the new system, Medicare payment for operating expenses is made at a predetermined, specific rate for each discharge. The payment rate is related to the cost of treating that illness. All discharges are classified according to a list of diagnosis-related groups (DRG's). There are 475 specific DRG's under which a beneficiary may be discharged. The law, as amended by P.L. 99-272, provides for a 4 -year transition period during which a declining portion of the total prospective payment rate is based on hospitals' historical costs in a given base year, and a gradually increasing portion is based on a regional or national Federal rate per discharge or both. Beginning with the 5th year and continuing thereafter (that is, after October 1, 1987), Medicare payment for inpatient hospital services will be determined fully under a national DRG payment methodology.

Additional payments are made for the indirect costs of medical education and for hospitals serving a disproportionately large share of low income patients.

Capital-related costs and the costs of direct medical education, kidney acquisition by renal transplant centers, and nonphysician anesthetists are excluded from operating expenses and reimbursed on a reasonable cost basis. (Beginning October 1987, capital-related costs are scheduled to be incorporated into the prospectivelydetermined payment).

Prouty benefit (OASI). See "Special age- 72 benefit."
Provider of services (Medicare). A hospital, skillednursing facility, home health agency, independent laboratory, or other certified provider. A provider of services is eligible for participation and payment if it meets the requirements for certification and has entered into an agreement with the Health Care Financing Administration (1) to provide services on a nondiscriminatory basis in compliance with Title VI of the Civil Rights Act of 1964 and (2) not to charge any patient more than prescribed deductibles and coinsurance amounts for covered items and services.

Quarters of coverage (OASDHII). Effective in 1978 the crediting of coverage needed for insured status: was changed from a quarterly to an annual basis. In 1978, a worker received 1 quarter of coverage (up to a total of 4) for each $\$ 250$ of annual earnings reported from employment or self-employment. This dollar amount is subject to annual automatic increases in proportion to increases in average earnings. For amounts applicable for years after 1978, see section on "Insured Status." No more than 4 quarters of coverage can be credited for any calendar year, and no quarter of coverage is credited after the quarter in which death occurred or for a quarter entirely included in a period of disability.

Before 1978, a quarter of coverage was a calendar quarter in which a worker was paid $\$ 50$ or more in wages for covered employment (except wages for agricultural labor) or was credited with $\$ 100$ or more in selfemployment income. An employee engaged in agricultural labor was credited with 1 quarter of coverage for each $\$ 100$ in covered cash wages paid during the year. All calendar quarters were deemed to be quarters of coverage if the worker had the maximum earnings for a year.

Reduction for early retirement (OASDI). See "Benefit reduction."

Reimbursement (Medicare, SMI). Represents 80 percent of allowed charges for covered services each year after the individual has paid the deductible.

Representative payee (OASDI and SSI). A person designated by the Social Security Administration to receive monthly benefits on behalf of a beneficiary when such action appears to be in the beneficiary's best interest. A representative payee is appointed for an adult beneficiary when the beneficiary is physically or mentally incapable of managing his or her own funds. In addition, a payee is usually appointed to receive benefits on behalf of a child under age 18 .

In the SSI program, the law requires that benefits of disabled persons who have been medically determined to be drug addicts or alcoholics be paid to representative payees.

Resources (SSI). Real or personal property, liquid or nonliquid, that an individual owns and could convert to cash to be used to meet his or her basic needs.

Retired-worker (old age) benefit (OASI). Monthly benefit payable to a fully insured retired worker aged 62 or older or to a person entitled under the transitionally insured status provision in the law. Retired-worker benefit data do not include special age- 72 benefits unless so indicated.

Retirement test (OASDI). See "Earnings test."
Secondary benefit (OASDI). Monthly benefit payable to a spouse or child or a retired or disabled worker, or to a survivor of a deceased worker.

Section 1619(a) (SSI). See "Special monthly benefits."
Section 1619(b) (SSI). See "Special recipient status."
Self-employment (OASDHI). Operation of a trade or business by an individual or by a partnership in which an individual is a member.

Skilled-nursing facility (Medicaid and Medicare). An institution primarily engaged in providing skilled-nursing care and related services for patients who require posthospital medical or nursing care or rehabilitation services. Excludes institutions that are primarily for care and treatment with respect to mental diseases or tuberculosis. Covered skilled-nursing facility services include nursing care; room and board; physical occupational, and speech therapy; drugs and biologicals; medical services of an intern or resident-in-training of a hospital having a transfer agreement with the skilled-nursing facility and other necessary health care services generally provided by such facilities.

Social security number (OASDHI). Number issued to a person by the Social Security Administration, used to keep a record of earnings and of benefits based on these
earnings. Taxable wages and self-employment income are reported by employers and self-employed individuals and credited to the worker's record under his or her social security number.

Special age- 72 benefit (OASI). Monthly benefit payable to men who attained age 72 before 1972 and to women who attained age 72 before 1970 and who do not have sufficient quarters of coverage to qualify for a retiredworker benefit under either the fully or the transitionally insured status provisions. The benefit is payable only for months in which the individual is a resident of one of the 50 States or the District of Columbia and receives no public assistance money payments or SSI payments. It is reduced by the amount of any government pension (except workers' compensation and veterans' serviceconnected compensation) that the individual or the individual's spouse is receiving or is eligible to receive. Most of these benefits are financed from general revenues rather than social security contributions.

Special minimum PIA (OASDI). An alternative PIA based not on the worker's average monthly wage or average indexed monthly earnings but on his or her length (years) of covered employment. It is designed to help those who worked in covered employment for many years but had low earnings. The amount of the special minimum PIA is computed by multiplying the number of years of coverage in excess of 10 (with a maximum of 20) by $\$ 11.50$ ( $\$ 8.50$ for January 1973February 1974, $\$ 9$ for March 1974-December 1978), and augmenting the resulting amount by all automatic cost-of-living increases after 1978. The number of years of coverage equals the number, not to exceed 14 , obtained by dividing total creditable wages in 1937-50 by $\$ 900$, plus the number of years after 1950 for which the worker is credited with at least 25 percent of the annual maximum taxable earnings. For this purpose for years after 1978, annual maximum taxable earnings are the amounts the benefit and contribution base would have been if the statutory increases in the base under the 1977 amendments had not been enacted. The special minimum PIA is not affected by the delayed-retirement-credit provision. See table A. 4 .

Special monthly benefits (SSI). Section 1619(a). Continuing cash benefits for disabled recipients who earn above the amount that reflects substantial gainful activity. These payments may continue until income (earned or unearned) reaches the amount where the monthly payment is reduced to zero.

Special primary benefit (OASDI). This term is used for the special age- 72 benefit payable to an eligible person who is the only special age-72 beneficiary in the family.

Special recipient status (SSI). Section 1619(b). A person who is ineligible for SSI cash benefits because of earnings but qualifies for SSI recipient status for Medicaid eligibility purposes under Section 1619(b) of the Social Security Act.

Special wife's benefit (OASDI). The benefit payable to a woman married to another special age- 72 beneficiary. Before May 1983, the special wife's benefit was one-half of the special primary benefit. Beginning with May 1983, the special wife's benefit is equal to the special primary benefit.

State-administered payments (SSI). State supplementary payments administered by the States. See "State supplementation (SSI)."

State median income (LIHEAP). One income standard used by States to determine a household's income eligibility for LIHEAP. Estimates of the median income for four-person families for each State are calculated by the Bureau of the Census. The Department of Health and Human Services publishes State median income estimates in the Federal Register, which are used to determine eligibility for several social services programs.

State supplementation (SSI). Cash payments to eligible persons made under State provisions. These payments may vary by the living situation of the recipient as well as by geographic area within the State. They include federally administered and State-administered payments.

Student's benefit (OASDI). Child's benefit payable to a full-time unmarried elementary or secondary school student between ages 18 and 19. Student's benefits end at age 19 or at the end of the current semester or quarter, whichever is later. Before May 1985, student's benefits were payable to certain postsecondary students aged 1822.

Substantial gainful activity (DI and SSI). Remunerative work that is substantial, as determined from consideration of the amount of money earned, and/or the number of hours worked, and the nature of the work. See table C for money amounts.

Surviving divorced father's benefit (OASI). See "Father's benefit."

Surviving divorced mother's benefit (OASI). See "Mother's benefit."

Surviving divorced spouse's benefit (OASI). See "Widow's and widower's benefit."

Survivor benefit (OASI). Benefit payable to a survivor of a deceased worker.

Suspended benefit (OASDI). A benefit not in currentpayment status for any of the reasons listed under "Withholding."

Taxable earnings (OASDHI). Taxable wages and/or self-employment income under the prevailing annual maximum taxable limit. See table $\mathbb{D}$ for maximums in effect since beginning of program.

Taxable self-employment income (OASDHI). Net earnings from self-employment, generally above $\$ 400$ and below the annual taxable and creditable maximum amount for a calendar or other taxable year, less any taxable wages in the same taxable year.

Taxable wages (OASDHI). Wages paid for services rendered in covered employment up to the annual taxable maximum. In some cases, wages must also be above a specified amount to be taxed and credited (for example, $\$ 50$ or more in a calendar quarter from one employer for domestic employment, $\$ 100$ or more in a calendar year for employment in a nonprofit organization or for services not in the course of an employer's trade or business).

Termination (OASDI). Cessation of payment of a specific type of benefit because the beneficiary is no longer entitled to receive that type of benefit. (In some cases, the individual may become entitled simultaneously to another type of benefit so that, in essence, the benefit is being converted from one type to another.) The major reasons for termination are:
(1) death of the beneficiary;
(2) for spouses and children, termination of the benefit payable to the retired or disabled worker on whose entitlement the spouse's and child's benefit is based; for a wife beneficiary under age 62 or a mother or a father beneficiary under age 60, termination of the benefit payable to the minor or disabled child or attainment of age 16 by youngest child (attainment of age 18 if mother or father was entitled for August 1981) on whose entitlement the wife's, mother's, or father's benefit is based;
(3) attainment of the statutory age limit for certain types of benefits (for example, age 65 for a disabled worker and age 18 for a minor child);
(4) other statutory reasons (such as marriage, divorce, remarriage, or adoption) for certain types of benefits;
(5) beneficiary no longer meets the definition of disability;
(6) for a secondary beneficiary, entitlement to another equal or larger benefit; and
(7) cessation of full-time student status.

Total assignment rate (Medicare, SMI). The proportion of all SMI claims received by SMI carriers in which the physician or supplier agrees to accept the carrier's determination of "allowable" charges. In unassigned claims, the beneficiary is liable to the physician or supplier for all charges and is reimbursed by the carrier only for that portion deemed allowable by the carrier, subject to deductible and coinsurance provisions.

## Total charges (Medicare).

- HI. Sum of charges for noncovered services and covered services before application of deductible and coinsurance.
- SMI. Total covered charges allowed by the carriers, including deductible and coinsurance amounts.

Totalization (OASDI). The process by which persons having at least 6 U.S. quarters of coverage, but otherwise ineligible for full social security benefits, may meet eligibility requirements by combining their U.S. periods of coverage with periods of coverage earned in a foreign country with which the United States has signed a social security agreement. The total period of coverage must still meet normal eligibility requirements. A partial benefit is computed based on the proportion of total covered work completed in the United States. See section on "International Agreements."

Transitionally insured persons aged 72 or older, benefit for (OASI). Monthly benefit payable to certain persons born before January 2, 1897, under the transitionally insured status provisions.

Trust Fund (OASDI and Medicare). Four separate accounts in the United States Treasury in which are deposited the equivalent of taxes received under the Federal Insurance 'Contributions Act, the SelfEmployment Contributions Act, contributions dealing with coverage of State and local government employees; any sums received under the financial interchange with
the railroad retirement account; voluntary hospital and medical insurance premiums; and transfers of Federal general revenues. Funds not withdrawn for current monthly or service benefits, the financial interchange, and administrative expenses are invested in interestbearing Federal securities, as required by law; the interest earned is also deposited in the trust funds.

- Old-Age and Survivors Insurance (OASI). The trust fund used for paying monthly benefits to retiredworker (old-age) beneficiaries and their spouses and children and to survivors of insured workers.
- Disability Insurance (DI). The trust fund used for paying monthly benefits to disabled-worker beneficiaries and their spouses and children and for providing rehabilitation services to the disabled.
- Hospital Insurance (HI). The trust fund used for paying part of the costs of inpatient hospital services and related posthospital care for aged and disabled individuals who meet the eligibility requirements.
- Supplementary Medical Insurance (SMI). The trust fund used for paying part of the costs of physicians' services, outpatient hospital services, and other related medical and health services for voluntarily insured aged and disabled individuals.
Widow's benefit (OASDI). Monthly benefit payable to: (1) a widow or surviving divorced wife of a worker fully insured at time of death if she is (a) aged 60 or older or (b) aged $50-59$ and has been disabled throughout a waiting period of 5 consecutive calendar months that began no later than 7 years after the month in which the worker died or after the end of her entitlement to benefits as a widowed mother, or (2) a widow of a transitionally insured worker if she was born before January 2, 1897.

A surviving divorced wife's marriage to a worker must have lasted 10 years ( 20 years for entitlement before 1979) before the divorce became final. Effective for benefits payable after December 1983, benefits are continued for disabled widows and surviving divorced wives who remarry after the age of first eligibility for benefits. Before January 1984, benefits were not paid to a widow aged $50-59$ or to a surviving divorced wife who had remarried except for marriage to a person entitled to a widower's, parent's father's, husband's, or childhood disability benefit.

In the case of a widow who remarries after attaining age 60 , benefits for months after 1978 are not contingent on marital status; for months before 1979, her benefit amount was reduced to one-half of the deceased husband's PIA if she married a person other than one of the beneficiaries specified above.

Widowed father's benefit (OASI). See "Father's benefit."

Widowed mother's benefit (OASI). See "Mother's benefit."

Widower's benefit (OASDI). Monthly benefit payable to: (1) a widower or surviving divorced husband of a worker fully insured at the time of death if he is (a) aged 60 or older or (b) aged $50-59$ and has been disabled throughout a waiting period of 5 consecutive calendar
months that began no later than 7 years after the month in which the worker died or after the end of his entitlement to benefits as a widowed father, or (2) effective with benefits payable beginning May 1983, a widower of a transitionally insured worker if he was born before January 2, 1897.
A surviving divorced husband's marriage to a worker must have lasted 10 years ( 20 years for entitlement before 1979) before the divorce became final. Effective for benefits payable after December 1983, benefits are continued for disabled widowers and surviving divorced husbands who remarry after the age of first eligibility for benefits. Before January 1984, benefits were not paid to a disabled widower aged 50-59 or to a surviving divorced husband who had remarried except for marriage to a person entitled to widow's, mother's, parent's, wife's, or disabled adult child's benefits.
In the case of a widower who remarries after attaining age 60, benefits for months after 1978 are not contingent on marital status; for months before 1979, his benefit amount was reduced to one-half of the deceased wife's PIA if he married a person other than one of the beneficiaries specified above.
Wife's benefit. Monthly benefit payable to a wife or a divorced wife of a retired or disabled worker under one of the following conditions:
(1) the wife is aged 62 or older or has an entitled child of the worker in her care who is under age 16 or is disabled. For wives entitled for August 1981 based on the care of a child aged 14 or older, benefits were continued until the child attained age 18 or until September 1983, whichever came earlier; or
(2) the divorced wife is aged 62 or older and her marriage to the worker lasted 10 years (20 years for entitlement before 1979) before the divorce became final. Effective with benefits payable after December 1984, a divorced wife of an eligible worker can be entitled to benefits if she meets the requirements for entitlement and has been divorced for at least 2 years, regardless of whether the worker has filed for benefit or has benefits withheld due to the earnings test. The earnings test will continue to apply to the divorced wife's own earnings; or
(3) the wife was born before January 2, 1897, and the husband is transitionally insured.
Withholding (OASDI). Suspension of benefit payments until the conditions causing deductions are known to have ended. Suspension of monthly benefit payments does not affect eligibility for hospital insurance benefits. Reasons for withholding benefits include:
(1) Earnings in excess of exempt amounts under provisions of the annual earnings test;
(2) for spouses and surviving spouses, receipt of offsetting government pensions;
(3) failure of a wife or husband under age 62 or mother or father beneficiary to have an entitled child in her or his care;
(4) refusal of a disabled person to accept rehabilitation services;
(5) pending determination of continuing disability;
(6) for special age- 72 beneficiaries, receipt of public assistance or supplemental security income payments or offsetting government pensions;
(7) workers' compensation and public disability benefit offset for disabled workers and dependents;
(8) payee not determined;
(9) for beneficiaries who are incarcerated as a result of a felony conviction, unless the person is participating in a court-approved rehabilitation program that is expected to result in the achievement of substantial gainful activity within a reasonable period after release; or
(10) administrative reasons such as (a) the inability to locate the beneficiary, (b) the beneficiary's residence in certain foreign countries, and (c) under certain conditions, an alien beneficiary's residence outside the United States for more than 6 full consecutive calendar months.
Worker (OASDHI). A person who has earnings creditable for social security purposes on the basis of services for wages in covered employment or on the basis of income from covered self-employment. Data on covered self-employment exclude self-employed persons who had no self-employment income taxable or creditable under social security because they had wages or salaries reaching the annual taxable maximum reported for the same year.

Workers' compensation (and public disability benefits) offset (DI). A reduction in the monthly benefits for a disabled-worker family when the monthly DI cash bene-
fit amount plus the State or Federal workers' compensation benefit amount or other Federal, State, or local disability benefits (excluding VA or needs-based benefits or benefits based on Federal, State, or local covered employment) exceed 80 percent of the worker's "average current earnings" before the onset of disability. "Average current earnings" is defined as the highest of (1) the average monthly wage used for computing the PIA under the Social Security Act (2) average monthly earnings from covered employment and self-employment earnings during the 5 consecutive years of highest covered earnings after 1950, counting any earnings in excess of taxable earnings or (3) average monthly earnings from covered employment and self-employment in the year of highest earnings during the period consisting of the year of disablement and the 5 preceding years, counting any earnings in excess of taxable earnings. The reduction is applied proportionately first to the spouse's and children's benefits; any excess is then applied to the disabledworker benefit. The workers' compensation offset applies to benefits payable for months after December 1965, with respect to a disabled worker under age 65 whose disability began after June 1, 1965. Average monthly amounts for disabled workers and their spouses and children and for disabled-worker families shown in the Annual Statistical Supplement reflect the applicable offsets. The offset is imposed for any month in which individuals are entitled to both DI cash benefits and other applicable benefits. The offset is not applicable if the workers' compensation or other public disability program had a provision in effect on February 18, 1981, that reduces the benefit because the worker was receiving social security disability benefits. Offset begins with the month of entitlement to other benefits.

    in average earnings level

[^14]:    Before the introduction, in 1977, of the alternative CPI series "for All Urban Consumers," or CPl-U, the CPI-W was referred to as the CPI.

[^15]:    ${ }^{2}$ Combined balance in the OASDI Trust Fund at the beginning of the year, including any taxes transferred from the Treasury Department on January 1 and reduced by the outstanding amount of any loan less interest made to either fund from the HI Trust Fund; divided by the total estimated amount of authorized payments for all purposes that will be made from the OASDI Trust Fund during such calendar year.
    ${ }^{3}$ See column 2 in table I for average annual wages after 1950 and footnote I in table I for the underlying data sources. In the 1974 and 1975 determinations the quotient was the average wage for the year of determination, estimated from data for the first calendar quarter, divided by the corresponding amount for the year before the year of determination. Public Law 94-202 (signed January 2, 1976) revised the adjustment method by increasing by a year the lag in average wages used in the computation. Thus, for example, the 1976 determination was based on the percentage increase in the average wage from 1974 to 1975.

[^16]:    ${ }^{1}$ Federal minimum wage (currently $\$ 3.35$ per hour) $\times 2,080$ hours per year $=$ yearly eamings. For years prior to 1981 , see table 6.
    ${ }^{2}$ See table 1, column 2.
    ${ }^{3}$ See table 1, column 1 .
    ${ }^{4}$ Assumes maximum reduction and no prior period of disability.
    ${ }^{5}$ Assumes the deceased worker began to work at age 22, was deceased in 1987 at age 40, had no earnings in that year, and had no prior period of disability.

[^17]:    ${ }^{6}$ Assumes the worker began to work at age 22 , became disabled at age 50 , and had no prior period of disability.
    ${ }^{7}$ The 1980 Amendments to the Social Security Act provide for different family maximum amount for disability cases. For disabled workers entitled after June 1980, the maximum is the smaller of (1) 85 percent of the worker's AlME (or 100 percent of the PIA, if larger), or (2) 150 percent of the PIA.

[^18]:    'Assumes retirement at beginning of year.
    ${ }^{2}$ The final benefit amount payable after SMl premium or any other deduction is rounded to next lower \$1.
    ${ }^{3}$ Effective for February 1968.
    ${ }^{4}$ Derived from transitional guarantee computation based on 1978 P1A table.

[^19]:    *The word "Act" throughout represents legislation enacted in the year shown. 1973a denotes legislation enacted on July 9; 1973b denotes legislation enacted on December 31.

[^32]:    'Includes persons receiving benefits as disabled workers, disabled widows, and adults disabled in childhood
    2Based on September of wave 1 of the 1984 panel. Interviews were conducted between October 1983 and January 1984. and information was obtained for a 4 -month period preceding the interview. September was the single calendar month common to each period.
    ${ }^{3}$ Restricted to the subset of beneficiaries from the wave 1 file who were also interviewed for the disability topical module conducted on the third wave of the 1984

[^33]:    See footnotes at bottom of table 25 .

[^34]:    ${ }^{1}$ Beginning in 1983, includes government contributions on deemed wage credits for military service in 1957 and later. The amount shown for 1983 includes, in addition to the annual contributions on 1983 wage credits, a net amount of $\$ 402$ million representing (1) retroactive contributions on deemed wage credits for military service in 1957-82, less (2) all reimbursements received prior to 1983 for the costs of such credits. An adjustment to these amounts totaling $\$ 62$ million was transferred to the trust fund from the general fund of the Treasury in 1984.
    ${ }^{2}$ Includes payments (1) in 1966 and later, for costs of noncontributory wage credits for military service performed before 1957, and (2) in 1971-82, for costs of deemed wage credits for military service performed after 1956.
    ${ }^{3}$ Net interest includes net profits or losses on marketable investments. Beginning in 1967, administrative expenses are charged currently to the trust fund on an estimated basis, with a final adjustment, including interest, made in the following fiscal year. The amounts of these interest adjustments are included in net interest. Beginning in 1983, these figures reflect payments from a borrowing trust fund to a lending trust fund for interest on amounts owed under the interfund borrowing provisions. Also, beginning in 1983, interest paid from the
    trust fund to the general fund on advance tax transfers is reflected. The amount shown for 1983 includes $\$ 660$ million in interest on (1) retroactive government contributions on deemed wage credits for military service in 1957-82, and (2) unnegotiated benefit checks issued before 1983. The amount shown for 1984 includes an interest adjustment of $\$ 169$ million on government contributions on deemed wage credits for military service in 1957-83. The amount shown for 1985 includes an interest adjustment of $\$ 14.8$ million on unnegotiated checks issued before April 1985.
    ${ }^{*}$ Beginning in 1966, includes payments for vocational rehabilitation services furnished to disabled persons receiving benefits because of their disabilities. Beginning in 1983, amounts are reduced by amount of reimbursement for unnegotiated benefit checks. The amount shown for 1983 is reduced by $\$ 48$ million for all unnegotiated checks issued before 1983; reductions in subsequent years are relatively small.
    ${ }^{5}$ Negative figure represents amounts lent by the DI Trust Fund to the OASI Trust Fund. Positive figures represent repayment of these amounts.
    ${ }^{6}$ Less than $\$ 500,000$.

[^35]:    ${ }^{1}$ Type of benefit estimated.

[^36]:    ${ }^{1}$ Relates to wage and salary workers for 1937-50. Beginning in 1951, includes self-employment. See table D for annual maximum taxable earnings.
    ${ }^{2}$ Workers reported with first taxable earnings under program in specified year. During 1937-84, 231.4 million different persons reported with taxable earnings.
    ${ }^{3}$ Total wages, including estimated amounts above taxable limit, for 1937-50. Beginning in 1951, also includes reported total net earnings of self-employed persons.
    ${ }^{4}$ Excludes railroad account numbers. Since program began, 303.9 million Social Security numbers have been issued. (Some individuals have been issued

[^37]:    ${ }^{1}$ Represents total number in specified type of employment. Persons with both types of covered employment during the year are included in each type.
    ${ }^{2}$ Total wages, including estimated amounts above the taxable limit.
    ${ }^{3}$ See table D for annual taxable earnings.
    ${ }^{4}$ Reported self-employment net earnings.
    ${ }^{5}$ Data subject to adjustment.
