Summary:

1. Questionnaire returned.
2. Discussion of bottlenecks in Lumber Industry.
3. Reply to questionnaire previously submitted was handed over. Information still some what incomplete, but gaps should be filled by 31 October. Questionnaire dealt with organization of the control Ass'n (called Japan Lumber Co.), how it controlled production and allocation, and available statistics on planned and actual production of Lumber.
4. Discussion of bottlenecks in lumber industry revealed (1) that shortage of food was the most serious. Laborers, whose minimum food requirements for efficient working were 1 sho per day, had to work on 40% of this amount. (There are 10 go in 1 sho; and there are about 7 go in 1 kilogram). (2) Shortage of fuel of trucks, railroad cars, etc., was second in importance. (3) Shortage of metals - Sawblades, nails, and wire rope - was next.

Distribution: All Divisions.
