NARBERTH, PA., THURSDAY, FEBRUARY 7, 1918

PRICE TWO CENTS

## Y. M. C. A. DIRECTORS MEET

The regular monthly meeting of the directors of the Y. M. C. A. was held Monday evening. Mr. Charles E. Kreamer was elected president and Mr. A. J. Loos, vice-president. Mr. Kreamer continues as chairman of the board of directors.

Mr. Weaver, on behalf of the Athletic Committee, presented a plan for issuing tickets for bowling and pool, whereby a slight reduction would be made in the cost of playing, and a better record of receipts can be kept. This was referred back to the committee and the secretary, with power to act, and purchase the necessary tickets.

Mr. Oddyke reported for the Membership Committee that between December 15 and February 4 ten men, four women, forty-four boys and eight girls had taken full membership tickets, and five men had taken social membership tickets, or seventy-one new members. There were also renewals as follows: Full membership, seven men, six boys; social membership, four men, total seventeen, or a total of new members and renewals of eighty-eight. This brings the membership up to 200 of all classes, there having been forty-four expirations in January. It is hoped that when the canvass that is now going on is finished, there will be a large accession of members.

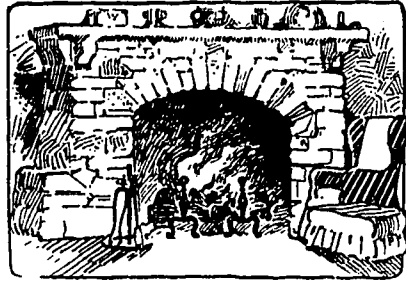

The Ladies' Auxiliary made an informal report, stating that progress is being made in securing new members. Thus far, they have supplied

the association with twenty-six tons of coal this winter.

General Secretary W. G. Nyce reported that the rooms were open twenty-three days January, with an average attendance of sixty-six. He stated that the equipment of the boys' game room was poor, and some of the games needed renewal of parts and repairs. A collection taken among the directors yielded \$27 for this purpose.

His report on the gymnasium classes is gratifying. In the younger boys' class there are twenty-five, and a class of little girls of nine years, eight members. In the class of boys of twelve to sixteen years, about twenty, larger boys, twelve, and men and women's classes each about the same number. He stated that Mr. Emmett is demonstrating his capability in a very satisfactory way, his services having been very influential in popularizing the association among many boys during the past month. He referred to the increase of popular interest in the association, and to the warm commendation from the pastors of three churches during the past two weeks, who had made strong pleas to their people to support the institution.

He called attention to the infraction of the law regarding smoking of cigarettes by minors, and requested instructions from the board. A resolution was accordingly adopted, instructing the general secretary to post a notice in regard to the matter, and to enforce the law within the premises.

## HIGHWAY COMMITTEE RIGHT ON THE JOB

### New Councilmen Solve Snow Problem

An interesting report telling of the work of the new Borough Highway Committee, was submitted to Council at the meeting held last Wednesday night.

Chairman Wentz and Messrs. Maddox and Keim, the other two members, reported that during the recent "near-blizzard" they employed special help on Sunday afternoon and were thus able to operate the snowplow and remove the snow from the sidewalks of the principal avenues of the town. But the storm continued and the committee had to keep right on the job the next day, two days, as the report shows:

"As the snow of Sunday night brought about the same conditions Monday morning, the chairman of your committee again employed special help to see that one path on both sides of the railroad was provided to the public school buildings, as well as one path on each of the principal streets leading to the railroad station. Following this, just as soon as the storm abated, paths were made on all streets of the borough."

Another matter that should be carefully considered by every resident is dealt with in the same report, in the following language:

"With particular reference to ash collections this week, some difficulty was experienced at several houses, due to the fact that the snow had not been removed from the cellar doors and it was necessary for our drivers to clean off the snow before they could enter. When the ash collections were started this week, instructions were issued to the drivers that they were not to clean the snow from cellar doors, and if by reason of the snow they could not get the ashes, they were to inform the residents to that effect and leave them until next week."

## COMMUNITY CLUB NOTES

### S. ANDERS DIES IN FRANCE

Sen of Late Montgomery County Treasurer Victim of Fever

Samuel K. Anders, twenty-seven, De Kalb street, Norristown, Pa., late of the United States Army Banking Department, died of scarlet fever in France on January 22.

He was the son of George K. Anders, treasurer of Montgomery county, who committed suicide three weeks ago, because, his family say, he feared that his son would never return from the war. The young man, who had been an assistant bank examiner, was assigned to the banking department in France because of his knowledge of financial matters. His mother tried to comfort the father by pointing out that the young man would not have to endure trench duty, but Mr. Anders had a premonition that evil would befall his son, and two days after the young man sailed for France Mr. Anders cut his throat in the bathroom of his home, and died thirty-six hours later in the Norristown Hospital.

## MEMBERSHIP CAMPAIGN TO RUN TO FEBRUARY 15

The solicitors for the Y. M. C. A. have been having such encouraging results in their canvass, while at the same time the weather has proved such a hindrance to their progress, that it has been determined to extend the time for the completion of their work to February 15, so that all the friendly disposed people in Narberth may be visited and brought in to the Y. M. C. A.

Since December 15 up to the beginning of the present campaign there have been received ninety membership subscriptions, of which number seventy-one are new ones. Forty-four of the latter are boys, but a good many men and women are also among the number, who have joined the adult gymnasium classes.

Informal reports from a number of the solicitors indicate that the total roll when all are counted up, will be much greater than any one dared to hope. The town is taking on a new interest and a new pride in the association, and it is a practical certainty that its membership at the close of this month will be over the 300 mark.

**EDITORIAL**

The prevailing epidemic is a measly trick to play on our children.

Experts have estimated that the expression "Some weather!" has been used a billion times daily since December 1, 1917.

Kaiser Wilhelm and Jack Frost have evidently effected an offensive and defensive alliance. Warm weather and hunger may break it up.

The Simple Mug is now receiving daily information from the Wise Guy as to the best method of terminating the war, and getting back to the good old times.

A million checks a month will soon be going forward from the bureau of war-risk insurance to safeguard America's fighting forces and their families. Applications from soldiers and sailors for insurance are near \$4,000,000,000.

To the Editor of Our Town:  
I pay my \$1 a year subscription to Our Town, one half of it because of civic pride for our good looking sheet and the other half to read "Cub's" letter. The week I do not see his (or her) column filled, I feel as though I did not get all that was coming to me.

**DIG OUT THE FIRE PLUGS**

Many of the fire plugs throughout the township are almost entirely covered with snow, and in many places it would be impossible for the fire engines to get up to the plugs without wasting valuable time clearing away the snow. If there is a fire plug located in front of your property see that the snow is shoveled away without delay and while you are at it clear away a space for the fire engine to drive up in case it should be necessary. You never can tell what may happen and it is better to be safe than sorry.

**YOUR INCOME TAX**

Somebody is going to tell on you if you don't pay your income tax. Congress has fixed it so that somebody must tell, whether he wants to or not.

One section of the War Income Tax law, exhaustively comprehensive in scope, requires every person, without exception, and every corporation, partnership, association and insurance company, as interest, rent, salaries, wages, premiums, annuities, compensation, remuneration, emoluments or other fixed or determinable gains, profits and income, to report the name and address of the person, corporation, etc., to whom the payment was made, together with the amount of the payment, to the Commissioner of Internal Revenue at Washington, using a form prescribed for the purpose—Form 1099, now to be had from all collectors' offices. The forms must be filled out and returned ON OR BEFORE MARCH 1, 1918, accompanied by Form 1096, which is a letter of transmittal and affidavit certifying the accuracy of Form 1099.

**CURE FOR PNEUMONIA**

Take six or ten onions and chop fine; put into a large spider over a hot fire; add about the same quantity of rye meal and vinegar enough to make it a thick paste; stir it thoroughly, letting it simmer five to ten minutes; put into a cotton bag large enough to cover the lungs and apply it to the chest as hot as the patient can bear. Before it gets cool apply another and thus continue reheating poultices. In a few hours the patient will be out of danger. This simple remedy has never failed to cure this too often fatal malady. Usually three or four applications will be sufficient, but continue always until perspiration starts freely from the chest.

This remedy was formulated many years ago by one of the best physicians New England has ever known. He never lost a patient by the disease. It is also an excellent croup remedy when applied to the throat.

**MEN IN THE UNITED STATES SERVICE**

A list of the names and addresses of soldiers in the service of the United States has been placed in the lobby of the post office. Permission to post these names has been given the postmaster by friends of those listed. Any that are not now on the list will be added if the postmaster is authorized in writing. The object is to give the friends of the boys in the service an opportunity to get their address and write them messages of cheer. It is said that soldiers while in the service like to receive letters. We are indebted to Mr. William D. Smedley and Mr. Elwood Sickles for the work on the list and case.

#### Church Notes

The monthly meeting of the Teachers' Association was very largely attended on Friday evening of last week. Mr. W. C. Nyce gave a most excellent address on the subject, "A Spoke in the Wheel." Mr. Charles McCarter was unanimously elected one of the assistant secretaries of the Bible school. He has been acting in this capacity since the others have answered the country's call and have enlisted. The board of trustees met the same evening and elected Mr. William D. Smedley as president of the board.

At the communion service Sunday morning the hand of fellowship was given to new members. Wednesday, February 13, will be observed as a day of prayer for missions. The ladies of

the church will hold a special meeting in the afternoon from 2.30 to 4.30 o'clock.

If you are worried that you sometimes don't know what to do; if you have burdens that seem too heavy to bear; if you are losing faith in man and hope in God, come to the service Sunday morning. You will find help and strength for these times of great need.

On Sunday evening Mr. William Beatty, formerly soloist of St. James' Episcopal Church in Philadelphia, will sing. This will be an exceptional opportunity for the friends and members of the church to hear a most wonderful singer. He should be greeted by a crowded house.

#### Church Notes

Notwithstanding the severe storm of last Wednesday evening, we had a most interesting and helpful prayer meeting at the home of Dr. and Mrs. E. C. Town. This week the meeting will be at the home of Mr. Lessey, 120 Woodside avenue.

The attendance at the Men's Bible Class last Sunday morning was most encouraging and the session was most helpful. Mr. Howard A. Banks, associate editor of the Sunday School Times, is the teacher. All men not affiliated with other classes are invited to attend.

All alien enemies falling to register are liable to imprisonment for the duration of the war.

## CUB'S WEEKLY LETTER

To the Editor of Our Town:

Spring must be almost here. Ad. Wohliert emerged from his hibernation last week to write you three letters. In one of these he wrote his name frontwards, in another backwards and in still another he used camouflage. What's the idea, Addie? He's a canny business man, however, as you may have observed. While he is handing the school board some free advice, which will, no doubt, be of inestimable value and is making some timely suggestions about Civic Association affairs, incidentally putting the lid on that worrisome wretch "Notions," he takes advantage of the opportunity to get in some free advertising by suggesting the planting of flowers, etc., on a large scale. Of course, he doesn't mean that we should patronize the Garden Nurseries—not at all. Do you suppose he intends to get right back into winter quarters or does he really want us to start in beautifying our gardens now?

Now, if the Tennis Club will only emulate the example of the Fire Company by putting out a service flag, this'll look like the real live town it is. Think it over, Kirk.

Ordinance 182 appropriates "\$25 for expense of Chief Burgess." Well, that's a lot of money, but I suppose we must have him.

You needn't be surprised at the new fur coat which has appeared in the lower Chestnut avenue district. When coal operators get \$10 a ton for their culm piles, it's easy to explain some fur coats and other visible evidences of prosperity, but of course nobody begrudges Carl his good fortune.

And that suggests the thought that the plumber isn't asking for sympathy these days. Harry Wall is already figuring on a Pierce-Arrow for next summer.

And that fellow that charges you \$2 for delivering a little coal around the corner from the yard ought to head Narberth's Liberty Loan Subscription.

After reading "Notions" last letter, I am more eager than ever to have him on our editorial staff. I hope he will remember us each week by writing something. That lad is a genius who has been hiding from us. If he didn't write Rory O. Moore or Handy Andy, y' may shoot me, or possibly I might hazard a guess that his name is Aloysius or even Seumas McManus. Anyway, Mr. Editor, if you will can me in his favor, I'll gladly pay the dollar he seems so loath to part with, just for the sake of hearing from him every week. "Cub."

### MYSTERIOUS ICE CAVES

There are several caves in the United States where Nature seems to have become confused as to the seasons, according to an article in the Popular Science Monthly for August. During the late spring and early summer ice forms and a freezing temperature prevails, but as winter comes on the interior of the caves becomes milder, the ice gradually melts and a kind of subdued summer seizes in underground.

One of these peculiar caves is to be found at Coudersport, Pa., and one at Decorah, Iowa. The superstitious among the residents of these localities give the caves a wide berth and look with suspicion upon anyone daring enough to attempt to investigate them.

Edwin S. Balch, of Philadelphia, who has made a study of the subterranean ice mines, as they are called, states that according to the theory evolved by investigators the formation of the caverns is such that the cold air of winter does not penetrate and settle in them until late in the spring at the time when the water from spring thaws is seeping through the walls and roof. This water meeting the cold air freezes and stays frozen all summer until, as the fall season approaches, the warm summer air at last finds its way into the cave and melts the ice.

Teacher—Now, my children, we will parse the sentence, "John refused the pie." Johnny Jones, what is John?" Tommy—A fool.

### FIND THE SUNNY SIDE

Nothing contributes more to the highest success than the formation of the habit of enjoying things. Whatever your calling in life may be, whatever misfortune or hardship may come to you, make up your mind resolutely that, come what may, you will get the most possible real enjoyment out of every day; that you will increase your capacity for enjoying life by trying to find the sunny side of every experience of the day. Resolutely determine that you will see the humorous side of things. No matter how hard or unyielding your environment may seem to be, there is a sunny side if you can only see it. The mirth-provoking faculty, even under trying circumstances is worth more to a young man or woman starting out in life than a fortune without it. Make up your mind that you will be an optimist; that there shall be nothing of the pessimist about you, that you will carry your own sunshine wherever you go.

There is longevity in the sunny son that eases our jolts and makes our sides shake with laughter.

There is a wonderful medicinal effect in good cheer. Good news and glad tidings have a magic effect even upon invalids.

We often see a whole store or factory or home transformed by one sunny soul. On the other hand, we have seen them blighted and made dark by a gloomy, morose, fault-finding person.—Christian Advocate.

### A SURE SIGN

"Getting on nicely," said the doctor "very nicely! I think he might have a little solid food directly he begins to be convalescent."

"But what are the signs of convalescence?" asked the wife.

"Oh, it's always a good sign when the patient displays irritability and a disposition to argue and a certain peevishness."

On his visit next day the doctor found the little wife very cheerful.

"And how is the patient?" he asked "Oh, much better, I think, doctor! I gave him a live! steak and onions yesterday."

"Fried steak and onions?" gasped the medico. "But why on earth—"

"Well, I followed your instructions, doctor. You said that if he was at all peevish or disposed to argue it was a sign that he could stand some solid food. He asked me last night if he could have a fried steak and onions and I said I didn't think he ought to, so he got up and went into the kitchen, smashed fourteen soup-plates, a tea-service, and two milk-jugs. So, in view of what you said, I let him have it!"

### LIGHTHOUSE 300 YEARS OLD

One of the most beautiful of the early lighthouses, and the first tower in a sea-swept position, was Cordouan light on the coast of France at the entrance to the River Gironde. It was built in 1611, and, although it has been remodeled, some of the original structure is still there, more than 200 feet high.

### SULPHUR

Sulphur occurs very widely distributed in the mineral kingdom, partly free, partly combined with other elements. The free sulphur is either found pure in regularly formed crystals or intimately mixed with earthy matters. In its native state sulphur is largely found in Sicily and Italy and as a general rule in abundance in volcanic districts. The brittleness of sulphur renders the cleavage imperfect.

Sulphuric acid is an important combination and a very dangerous one in inexperienced hands. Sulphur combined with a number of elements, such as iron, copper, lead, etc., furnishes the sulphides. In the vegetable kingdom sulphur is a small constituent of albuminous bodies and of certain volatile irritant oils. Moreover, the vegetable juices contain it in the form of certain sulphates.—Times.

### MATERNAL PATRIOTISM

During the campaign of 1777, a soldier of the Fifty-fifth Regiment was sitting with his wife at breakfast, when a bomb entered the tent and fell between the table and a bed where their infant was sleeping.

The mother urged her husband to go round the bomb and seize the child, his dress being, from the position of things more favorable than hers for the prosecution of the dangerous task; but he refused, and running out of the tent, begged his wife to follow, saying that the fuse was just ready to communicate with the deadly combustibles.

The fond mother, instead of obeying, hastily tucked up her garments to prevent their coming in contact with the bomb, leaped past it, caught the child, and in a moment was out of danger. Well might we ask: "Is there a man, into the lion's den who dares intrude to snatch his young away?"

In December, 1850, the house of Peter Knight, of Bath, Me., caught fire, and a small child, asleep in the room where the flames burst out, would have perished but for the self-possession and daring of the mother.

One or two unsuccessful attempts had been made by others to rescue it, when the mother, always the last to despair, made a desperate effort, and secured the prize.

When the two were taken from the window of the second story, the dress of Mrs. Knight was in flames.

### KNEW THE MISTRESS

Mr. Henpeck told Jane to hang the new picture to the right of the window; Mrs. Henpeck wanted it hung to the left. Mr. Henpeck told Jane that his order was to be obeyed. Jane hung the picture on the right side but put a picture-hook on the nail to the left side.

"What is the second nail for, Jane?" asked her master.

"It's to save me the trouble of fetching the ladder in to-morrow morning, sir," said Jane, "when you've come round to mistress' way of thinking."

Willie—I wonder why I can't make my kite fly?

Elder sister—Perhaps the caudal appendage is disproportionate to the superficial area.

Willie—I don't think that's it. I believe there isn't weight enough on the tail.

### WORLD'S CHAMPION SPELLER

Professor David Jones, the world's champion speller, has just retired on a well-earned pension after school-teaching for fifty years in Missouri. For thirty-three years the champion has issued an annual challenge to all-comers to spell against him. Many have tried to wrest from him his title, but none have succeeded.

His record is 15,000 words correctly spelled straight off the reel at one sitting without a single mistake. Professor Jones has defeated in spelling contests heads of Universities, famous teachers, scholars, authors, and professional proofreaders, and his sideboard is loaded with silver cups and other similar trophies, won all over the country at the once popular "spelling bees." With him spelling is an art, just as music or painting or sculpture is an art with others. He pounces on and treasures a rare and difficult word as eagerly as an enthusiast does on a scarce and elusive butterfly.

Ever notice that when you are on time the other party is late?

### MAD ARTISTS

Quite a number of eminent artists have been victims of brain disorder. Sir Edwin Landseer, towards the close of his life, showed signs of insanity, while the eccentricities of Turner were quite of the insane order. Amongst other eminent artists it might be mentioned that Sir Thomas Lawrence suffered from a symptom of brain disorder; David Wilkie lost power of attention, and ultimately had a nervous seizure which made his speech incoherent; while Romney suffered so much from the hallucination that his talent would desert him that at the height of his fame he thought of relinquishing his art altogether.

The above department should be the greatest use to the community, the list contains the name of every professional man, tradesman, mechanic, shopkeeper, etc., who does or can in any way serve his fellow-townsmen, and who is progressive enough to add name to list of Register.

As it is difficult for those contributing their time and efforts to the production of "Our Town" to personally either know or interview all such, it would be most helpful if those not now found in the printed list would send in a memo of their names, address, phone numbers and businesses or professions for listing. This will cost as follows: 10 cents each issue for 2 lines; 5 cents for each additional line.
