Wikimedia Commons

The problem

Current situation: Files uploaded locally
Often with wrong/missing information

Good:

- Name attribution

Wrong:

- No license info

- Source incomplete

The screenshot shows a Wikimedia Commons file page for 'Bild:Köln - Rheinufer Panorama.jpg'. The page includes a navigation menu on the left with options like 'Hauptseite', 'Meilensteine', and 'Suche'. The main content area shows the file name, a description of the image (a panoramic view of the Cologne skyline along the Rhine river), and a table of 'Dateiversionen' (file versions). The table lists one version: 'aktuell 20:35, 11. Nov. 2008' by user 'Raimond Spekking', with dimensions of 800x211 pixels and a size of 33 KB. The source is listed as 'Quelle: Commons. Autor: Raimond Spekking'.

Version vom	Maße	Benutzer	Kommentar
aktuell 20:35, 11. Nov. 2008	800×211 (33 KB)	• (Diskussion Beiträge)	(Quelle: Commons. Autor: Raimond Spekking)

Wikimedia Commons History

The solution

Syntax as usual:

```
[[File:Köln Panorama.jpg|thumb|Cologne: Main mapping area]]  
[[File:Raymond.jpg|thumb|Raymond]]
```

Local files get precedence.

The screenshot shows a user profile page for 'Raymond de' on the OpenStreetMap Wiki. The page includes a navigation menu with options like 'benutzerseite', 'diskussion', 'bearbeiten', 'versionen/autoren', 'verschieben', and 'nicht mehr beobachten'. The user's bio states 'I am active at the German Wikipedia as Wikipedia:de:User:Raymond too.' There are two featured images: a panoramic view of Cologne with the caption 'Cologne: Main mapping area' and a portrait of Raymond with the caption 'Raymond'. On the left side, there are sections for 'letzte änderungen' (last changes) and 'navigation' (main page, map, OpenStreetMap-Portal, Map Features, Hilfe, Blog, Shop, Donations). At the bottom left, there is a search box with a 'Seite' button and a 'Suchen' button.

Wikimedia Commons

The solution

Local description page

- Transcludes summary, author and license

- Shows link to Wikimedia Commons

The screenshot shows a Wikimedia Commons file page for 'Image:Köln Panorama.jpg'. The page includes a navigation bar with tabs for 'file', 'discussion', 'create', and 'watch'. Below the title, there are tabs for 'Image', 'File history', 'Links', and 'Metadata'. The main content area features a large image of a panoramic view of Cologne, Germany, showing the city skyline and the Hohenzollern Bridge over the Rhine river. Below the image, there is a summary section with a red arrow pointing to the text: 'This file is a shared upload and may be used by other projects.' The summary also includes a link to the file's description page on the shared repository. The page also displays technical details such as the camera location (50° 56' 24.95" N, 6° 58' 17.65" E) and a description in German: 'Deutsch: Blick über das Zentrum Kölns. Von links nach rechts: Kölner Altstadt, Kölner Philharmonie, Museum Ludwig, Kölner Dom, Hohenzollernbrücke, Hauptbahnhof Köln, Musical'.

Wikimedia Commons Pros

- Instant access to more than 5,000,000 media files under a free license
- No upload to own wiki, no copy & paste of the file description
- Proper attribution of author and license
- Less traffic – less space

Wikimedia Commons Cons

- WMF server broken – no files served
- Image vandalizing
- Copyvios still possible
