Colorado Flood Sufferers Well Provided For

Pueblo, Colo., June 14.—Pueblo is suffering from an over-supply of food, according to Colonel F. J. Hamrock, Adjutant-General.

Two Drowned

Grand Island, Neb., June 14.—The crest of the Colorado flood in the Platte River claimed two victims here last night when Mrs. H. C. Gillespie, aged about thirty-two, and her son, aged about seven, were drowned.

Leaves Gave Way

El Centro, Calif., June 14.—The Sals levee, forming the Imperial Valley's "second line of defence," broke in three places yesterday under the pressure of Colorado River flood waters.

G. T. R. HEARING

Montreal, June 14.—(Canadian Press)—A further new turn was given to the Grand Trunk arbitration hearing here yesterday.

REORGANIZING
MINING DISTRICT

Calgary, June 14.—Re-organization of the old District 18 of the United Mine Workers of America will be effected today at a convention to be held at night in the city hall.

YORK BY-ELECTION
DATE NOT SET

Toronto, June 14.—Hon. J. D. Reid, Minister of Railways and Canals, met a number of political friends here tonight, including some from West York.

DISMISSED.

Ottawa, June 14.—(Canadian Press)—The Railway Commission has dismissed the application of certain coal companies in Alberta to have the rates on coal charged by the Canadian Pacific Railway from Lethbridge and Crow's Nest districts reduced to the rates charged by the Canadian National Railway from Drumheller and Rocky Mountain districts to the same point.

ONTARIO GAMBLING.

Toronto, June 14.—The Toronto Methodist Conference yesterday passed a resolution commending the Attorney-General of Ontario for his stand on gambling.

MENNONITE MIGRATION.

Regina, June 14.—The southward migration of the Mennonites to the United States will not take place until the Fall, according to local railway officials.

G. T. R. EARNINGS.

Montreal, June 14.—Grand Trunk Railway traffic earnings for the week ended June 7 were \$1,820,225; in 1920 they were \$1,924,529. Thus the decrease was \$104,294.

NEW JUDGE.

Ottawa, June 14.—Donald McLean, barrister, of Saskatoon, has been appointed a judge of the Court of King's Bench for Saskatchewan, according to official announcement here.

TEACH PEOPLE TO
AVOID DISEASE

The Tuberculosis Association Members Meet in New York

New York, June 14.—Up-to-the-minute methods of teaching health principles to children will be shown at the seventeenth annual meeting of the National Tuberculosis Association, which will be opened here this afternoon.

1,500 Representatives.

Dr. Charles J. Hatfield, managing director of the association, will report upon the work of the organization in various parts of the country during the past year.

HUNTING TRAGEDY

Brantford, Ont., June 14.—O. B. Ellis, a former hotelkeeper of Preston, accidentally shot and killed his brother-in-law, A. G. Smith, who was owner of the Queen's Hotel at Hespelet, Ont., while the two were hunting near Apple Mills last night.

A REMARKABLE DISAPPEARANCE

Perhaps the most remarkable disappearance in modern times of a prominent public man was that of James Winstanley, a brilliant Oxford scholar, who won the "Hertford" nearly seventy years ago. Winstanley, having become a Postivist under the influence of Congreve, one of the founders of the new religion consisting of "three persons and no God," left Oxford and lived in retirement on his Leicestershire estate, where he devoted himself to the welfare of his dependents, built a church, and in the year of his appearance was hit by a lightning bolt. Just before the Assizes he went to Folkestone, started for the pier to meet his mother coming from Boulogne, and was never afterward seen by any friends. His body was found in a ditch near Folkestone, and was supposed to have been drowned; but those who knew his temperament thought it possible that he had immured himself in a monastery.—The Westminster Gazette.

TOTAL OF STRIKE
PAY \$2,000,000

Montreal, June 14.—The seven-months' strike of the members of the Amalgamated Clothing Workers of America in the United States and Canada cost \$2,000,000 in strike pay, it was announced at a meeting of the executive of this union here today.

MONEY BY-LAWS PASS IN EDMONTON

Edmonton, June 14.—The rate-payers here yesterday approved three out of four money by-laws, one of \$275,000 for additional power plant equipment, \$187,000 for telephones and \$85,000 for sidewalks.

UNIFORMITY URGED.

Quebec, June 14.—The business sessions of the Canadian Wholesale Grocers' Association yesterday was taken up with addresses and discussions. The delegates advocated that all provincial temperance acts regarding the sale of extracts and essences should be uniform.

May Ask Vancouver to Float \$1,000,000 Bonds for University

Vancouver, June 14.—While no definite official announcement is available of the Government's proposed plans with regard to the early construction of the University of British Columbia at Point Grey, still it is learned from reliable sources close to the Government that the matter is receiving considerable attention.

It is expected that the people of Vancouver will be asked to care for the flotation of a bond issue of \$1,000,000 or \$1,250,000, which amount would carry out the initial work as advocated by the Kiwanis Club and those associated with it in the "University Drive."

The Government would then guarantee the bonds and retire them with the proceeds from the sale of its property at Point Grey, property that should have a high value in the real estate market and which will probably be plotted by an expert in the near future.

It would not be the intention to dispose of the entire 3,000 acres at present, nor perhaps for several years but a minimum value of \$5,000 per acre is placed upon this property, which means a total valuation of \$15,000,000. It is figured that half this amount would be required to lay out the property, install a waterworks system, electric light, sewers and construct roads and sidewalks, together with the provision of transportation facilities.

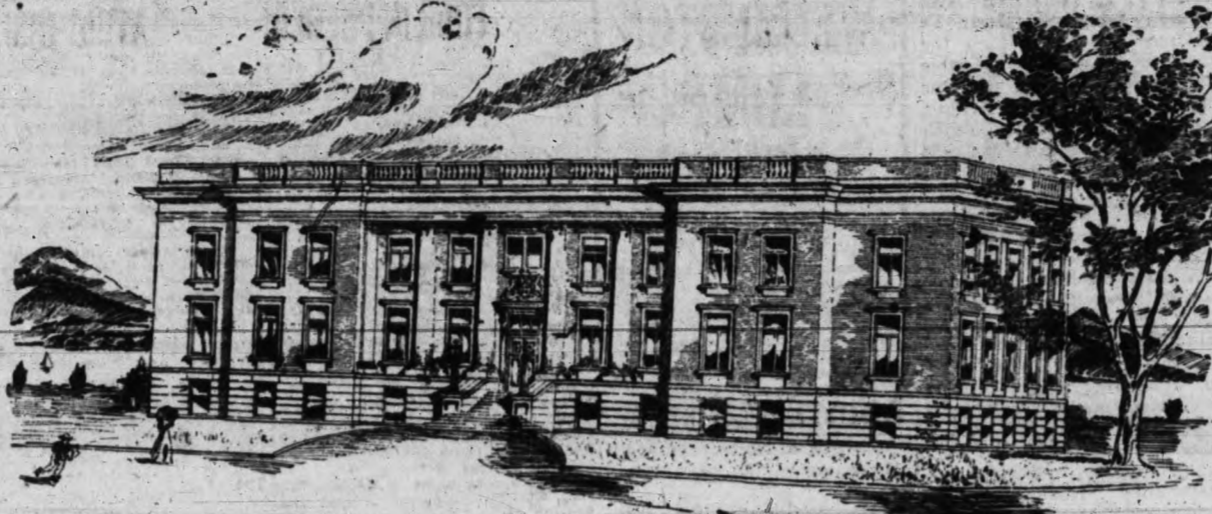

One-sixth of the property would be disposed of first, or \$2,500,000 worth of plots. Half of this amount, being expended for improvements, there would be \$1,250,000 left for the university, which amount would care for the first units of construction, as planned by the Kiwanians. These plans, it is understood, finding favor with the Minister of Education, Hon. J. D. Maclean.

With Vancouver citizens taking the initiative in the movement, and with six-sevenths of the University enrollment coming from Greater Vancouver, the Government seems inclined to ask Vancouver to absorb or dispose of the first bond issue. A selling campaign would be successful, it is asserted, and expectations are that Vancouver will shortly have and show its faith in an up-to-date system of university buildings.

ON THE MARRIAGE DAY.

Romance usually ceases, and history begins, and sore corns begin to go when "Putnam's" is applied. It takes out corns, roots, hemorrhoids, and in a trace of a single corn left after Putnam's Painless Corn Extractor has done its work, 25c at all dealers. Refuse all substitutes. Advt.

New Large Public Building is Tribute to Prince Rupert's Importance

Here is a picture of the \$400,000 Court House and Government building, which the British Columbia Government is to build in Prince Rupert and for which the Hon. T. D. Pattullo, Minister of Lands and member for Prince Rupert, had to put up such a strenuous fight when the vote for it came up in the Legislature in the Spring, and was bitterly assailed by members from southern constituencies.

IRRIGATION BODY FOR SECOND TIME GOING TO VERNON

Some Notes on Previous Conventions of Association

The Western Canada Irrigation Association is this year holding its fifth annual convention at Vernon, July 27, 28, 29 and 30, having been formed in 1907. In the official guide to the first convention, which was held at Calgary, July 17 and 18 of that year, it was stated that it was gradually dawning on the minds of thinking people that the most significant development in agriculture that Western Canada has yet witnessed is the movement to utilize the ground mountain streams in aiding the farmer largely to eliminate the element of uncertainty of his operations.

Organization's Object "Our mountain ranges contain natural reservoirs only awaiting the finishing touch of skill and labor to save water sufficient to irrigate vast areas, in addition to those which are now and can be provided for by our normal water supply. A propaganda so vast and fraught with such far-reaching interest that enters so closely into the whole problem of Western Canada's colonization and future prosperity, is of deep concern to every resident of the Great West, and imperatively demands the impetus, constructive guidance and moulding influence that can only be effectively brought to bear by a strong and competent organization."

elastic irrigationists had concluded that irrigation in Western Canada had advanced to a point where it was important that a convention should be held and some cohesive effort made looking to intelligent legislation on the subject. Invitations were issued to representative men throughout the three provinces of British Columbia, Alberta and Saskatchewan to attend a meeting at Calgary the following month. Among those who attended this meeting were: William Pearce, of Calgary; W. H. Fairfield, of Lethbridge; Col. J. S. Dennis, of Calgary; C. D. King, of Raymond; J. T. Hall, of Medicine Hat; I. S. G. Van Wart, of Calgary; J. R. Wheeler and Martin Woolf, of Cardston; E. M. Richardson, of Calgary, and C. W. Peterson, of Calgary.

The first convention having proved very successful, it was arranged that the second one should be held in British Columbia the following year, and Vernon was the city chosen. This convention was opened on August 8, 1908, and lasted two days. It was attended by 103 representatives delegates, who came from British Columbia, Alberta, Saskatchewan and Manitoba. The chief subject of discussion was that of legislation applied to irrigation, and speeches on this question were made by J. S. Dennis, the Hon. F. J. Fulton, Charles Wilson, K. C., J. M. Robinson, and others. The convention was delivered by Professor Carpenter, of Denver, Colorado; Price Ellison, M. P.; R. E. Campbell, Dominion Superintendent of Forestry; Duncan Ross, M. P., and the Hon. Martin Burrell.

Since 1908 the Western Canada Irrigation Association has held conventions east and west of the mountains in alternate years, with the exception of 1920, when for two years in succession the convention was held in Alberta. The convention in 1919 was held in Medicine Hat at a time when the movement for the development of co-operative irrigation schemes in Southern Alberta had almost reached a deadlock. The guarantee of Government assistance was required by the irrigation districts in the course of formation, and neither the Provincial nor the Dominion Governments could see their way clear to give this guarantee.

Meanwhile three dry seasons had made matters desperate for hundreds of farmers on whose lands it was possible to bring water if only irrigation systems were constructed. The centre of the movement for irrigation extension was Lethbridge.

The whole North country through the influx of settlers, and the increase in public revenue from the North. When the building is completed all Government departments in the North will be centralized there. This, it is expected, will enable the Government to economize.

The interior finish is consistent with the requirements of a modern structure, terrazo floors in corridors with portion of main stairway of marble, office floor cement covered with linoleum, with walls of Judges' room, library and court room paneled in oak and mahogany. The ceiling of court room has an enriched paneled ceiling with provision for efficient ventilation.

The exterior is of Clayburn tapestry brick with base, cornice balustrade and window trim of Haddington Island stone. British Columbia materials as far as possible have been specified and used by Canadian. The building will be heated with a mechanical vacuum steam heating plant using the Dunham system.

The entire drawings for this building including the heating have been prepared in the Architectural Section of the Public Works Department under the direction of the Supervising Architect, H. Whitaker, on instructions from the Public Works Engineer, P. Philip.

The contractors for the general contract are Albert & McFerry, Ltd. and McDougall & McNeill, Ltd., of Prince Rupert and Calgary. Heating contractors are McDowell & Mann of Victoria.

The fine crops grown on the irrigated lands around Coaldale and elsewhere had convinced the people of Lethbridge of the great possibilities of the surrounding country if only water were brought on the land wherever it was possible. They brought their case before the convention at Medicine Hat. The opinion at this convention was that the movement for irrigation extension in Southern Alberta and in Western Canada generally would be better favored by holding the fourteenth convention at Lethbridge instead of at some point in British Columbia, and a motion was made by one of the British Columbia delegates to the effect and seconded by a delegate from Saskatchewan and passed by the convention unanimously.

This year the convention is returning to Vernon after a lapse of fourteen years. Since it was last in this city conventions have been held at Calgary, Lethbridge (three times), Bassano, Maple Creek and Medicine Hat, east of the mountains, and at Kamloops (twice), Kelowna, Penticton and Nelson, in British Columbia. Three times in the Dominion. The history of the association has the convention been held in the Okanagan Valley—at Vernon in 1908, Kelowna in 1912 and at Penticton in 1916. The last three conventions were successful from every point of view, but from present indications this year's convention at Vernon is expected to surpass all previous ones.

Vancouver Island News

NEW INSTRUMENT WAS PRESENTED TO LADYSMITH BAND

Ladysmith — The Ladysmith band played a programme of music at the residence of Dr. Montgomery, who came from British Columbia the following month. During an interval presented the band with a clarinet, and complimented the men on the excellence of their playing. He hoped to see the band become the premier band of the island and wished the members success at the forthcoming band contest.

Mr. Merry, the bandmaster, suitably replied, and thanked Dr. Montgomery for his continued interest in the band. The ceremony concluded with musical honors and cheers for the donor.

Wallace's (Vancouver) and Ladysmith football teams played at the Agricultural Society's ground at Ladysmith. The Ladysmith band was in attendance and escorted the players to the grounds.

CONCERT SUCCESS AT SHAWNIGAN LAKE; OTHER NEWS ITEMS

Shawnigan Lake—The Three K's Concert Party, of Victoria, played a very successful engagement in the S. L. A. Hall. It was their first appearance up island, and they jumped into favor immediately. Every number on their programme was good, and met with applause.

Cricket.

A sporting game of cricket was played on the Strathcona grounds between the parents and friends of the boys of C. W. Lonsdale's school, and the boys, resulting in a decisive win for the boys.

Fish.

During the week 18,000 cutthroat trout from the Government Hatchery at Cowichan Lake, were liberated in Shawnigan Lake. The request for them went from the Duncan and Shawnigan Lake Board of Trade. A. W. Wilde and George Kingsley loaned their launches and assisted in the distribution of the fish. Some were put near the outlet of the lake, others taken to the outlet of McGee's swamp, and the rest placed in Strathcona Bay, all the places being considered suitable for the preservation of the fish. Of late the lake has been yielding some splendid baskets, the fish being about one-half to three-quarters of a pound in weight. Trolling seems to yield the largest baskets, although the fly fishermen have had good success.

Growth.

There is a persistent inquiry for small cottages and good building sites. The general trend is for locations a little back from the lake, but with a good view. Such positions are much cooler on a hot day than sites right at the lake. Amongst those inquiring are quite a few Prairie people and Americans.

VICTORIA TO HAVE ITS OWN AEROPLANE. (Continued from page 1.) use of aircraft in the northern end of the island and more especially to connect coast with inland waters. Prospectors, timber cruisers, surveyors and many other types of field workers were interested in the former venture and the Aerial Service Ltd., was in a fair way to becoming firmly established and adding to its craft when misfortune befell it.

DERWILLO The Famous Beautifier. Have you tried it yet? Thousands everywhere are using it. It is a wonderful tonic for the skin, defies hot Summer sun and causes wrinkles, freckles, mallow skin, blackheads, sun spots, roughness, ruddiness to quickly disappear.

ROYAL NAVY a Cut Plug Tobacco of Wonderful Value & Quality ROYAL NAVY CUT PLUG SMOKING TOBACCO 1/11 lb. packet 15 cents 1/2 lb. tin 80 cents

Victoria Daily Times

TUESDAY, JUNE 14, 1921. Published every afternoon (except Sunday) by THE TIMES PRINTING & PUBLISHING COMPANY, LIMITED.

A DOMINION MATTER.

If the Provincial Department of Labor or the Legislature of this Province possessed the authority to regulate the employment of aliens in British Columbia it would be a simple matter to institute the necessary procedure for replacing foreign workmen by men of the British race.

If it is reasonable to attach any local blame for the tremendous inroads which aliens have made in the industrial life of British Columbia our contemporary must accept its share because it has failed to take its part in an essentially important educative campaign.

At the same time it must make up its mind where it would propose to draw the line. It must be clear in its demand and decide whether it would exclude the Frenchman, the Belgian, the Italian, or the native of any country associated with the British Empire in its fight against the Central Powers.

Having succeeded by either course in attaining its object it would then be necessary to deal with the immigration laws of the country by obliging the Dominion Government to exclude those laborers and artisans from whom it would place a legal ban in the matter of employment.

EXPLAIN THE COST.

If the Liquor Control Board desires to save the time of its vendors by simplifying their replies to those who will call down the wrath of Heaven in protest against the price of Scotch whisky, it will see that a small printed label is affixed to each bottle for the purpose of indicating how much of the selling price will be turned over to the Dominion exchequer and how much will remain for the Province with which to supply the liquid itself and administer the Act.

Liquor under Government control will cost them something like twenty-five per cent. more than it did under prohibitory law. The label would indicate the reason.

WHAT AMERICA SAYS.

If anybody supposed that Admiral Sims would be pilloried on his return to the United States it is not necessary to go further than the editorial comment of most of the leading American dailies—not to mention a flood of correspondence in the newspapers—to find that the great bulk of the people are virtually joining with their cousins on the other side of the Atlantic in patting the gallant sailor on the back for speaking the truth without the usual diplomatic frills.

GOOD NEWS.

Mayor Porter's intimation that the Dominion Government proposes to realize upon its assets at the Outer Wharf by developing its terminal facilities in its own behalf and shipping enterprise in general is of particular interest to the people of this community.

BRITAIN'S POLITICAL POT.

When one or two by-elections go against the Government the British press promptly indulges in every form of speculation all the way from a Cabinet shuffle to a general election. Two recent reverses have been sufficient to interest almost every school of political thought.

But the attitude of the anti-Government press will not be the determining influence that will compel Mr. Lloyd George to go to the country or hasten his own retirement from public life.

EXPLAIN THE COST.

If the Liquor Control Board desires to save the time of its vendors by simplifying their replies to those who will call down the wrath of Heaven in protest against the price of Scotch whisky, it will see that a small printed label is affixed to each bottle for the purpose of indicating how much of the selling price will be turned over to the Dominion exchequer and how much will remain for the Province with which to supply the liquid itself and administer the Act.

the value of that verdict and upon the result of his analysis he will take the plunge. Except in one or two instances there has been no correlated demand for the return of the party system of Government such as one would expect in Great Britain.

On the other hand the Prime Minister seems to have burned all his bridges as far as his old affiliations are concerned. And it is very doubtful whether he may woo Labor with success in the face of public opinion and its hostility to the new type of extremism.

"CLEAN-UP" PERIOD.

It should not be necessary to cite even one of the many reasons why the general public should lend its assistance to the promoters of a "clean-up" period for the city of Victoria. There is so much of beauty in the immediate surroundings and in the more thickly populated section of the community that an unsightly building on the road to permanent decay or a vacant lot with nothing but a collection of hideous-looking refuse as a tenant spoil the whole effect and leave the wrong impression with those who may be here on holiday.

NOTE AND COMMENT

It will not be surprising if Admiral Sims's homecoming easily surpasses the gigantic demonstration with which he was greeted when he brought his fighting craft back from the battle zone.

All prospects of a body of policemen regulating the crowd at the Government Liquor store tomorrow morning appear to have gone aglimmering.

At the triennial convention of the Brotherhood of Locomotive Engineers it was decided to increase the salary of President Warren Stone from \$13,500 per annum to \$25,000. This ought to make Cabinet Ministers green with envy.

OTHER PAPERS' VIEWS.

A BRITISH NEED (The Washington Star) His work would be wonderfully facilitated if some of our great materialistic philosophers could devote to the cause of Lloyd George to be in several places at the same time.

LANE'S CLAIM TO FAME

Had Franklin K. Lane been born in the United States instead of in Prince Edward Island in Canada, it is within the range of political probability that he would have been President of the United States. To the advantages of a remarkably broad education and omnivorous reading, he added a practical training in all branches of newspaper work and in practice of the law before entering politics in which he displayed and developed a natural talent for understanding human beings.

MAYBLOOM TEA The Triumph of Expert Tea Blending PLAN TO FINISH WORK ON BRIDGE AT END OF 1922 Will Be Average Time For Such Project, Says Engineer

The new Johnson Street bridge should be completed towards the end of next year, City Engineer Preston stated in an address before the City Council yesterday.

The opening portion of the bridge will consist of two independent Strauss bascules. Independent, that is so far as their first installation is concerned. When the bridge is completed they will both be controlled by one operator and will move simultaneously.

Method of Moving It is not very easy to describe verbally the working of this type of bascule, but it consists practically of a pivoted moving portion and a concrete counterweight.

Three Railway Tracks The width of the railway portion of the bridge will be twenty feet, and the roadway thirty feet wide with an eight foot sidewalk, will be provided on the City's side of the bridge.

The balance of the roadway is capable of taking twenty-five ton motor trucks, and the sidewalk, eighty pounds to the square foot.

Interesting Feature There is nothing of much interest about the abutments, but the main piers which carry the bascule are interesting from an engineering point of view.

These caissons have to be sunk about thirteen feet into the harbor bottom and the method of doing this

is to dredge out the inside, part of the dredging being deposited into boxes fastened to their sides in order to add weight, and a diver washing out the clay from under their lower edge with a high power waterjet into the hole dredged inside them.

Area to be Piled After these are sunk into place, the whole area enclosed by them has to be piled. These piles penetrate to the rock, and their tops will be five or six feet above the bottom edge of the caisson.

When this work is finished, the caissons will be parted at mud level, bolted joints being provided for this purpose and the upper part dismantled, leaving a completed pier inside.

Not Superstitious. The three caissons were launched without mishap, each on a Friday.

The span of the eastern approach part is one hundred and ten feet, and that the western approach is seventy-three feet.

The opening portion of the bridge will consist of two independent Strauss bascules. Independent, that is so far as their first installation is concerned.

Method of Moving It is not very easy to describe verbally the working of this type of bascule, but it consists practically of a pivoted moving portion and a concrete counterweight.

This moving portion of the bridge is limited up together and the counterweight is so constructed that the bridge is in perfect balance in whatever position it may happen.

Interlocking With Signals. The machinery will be interlocked with railway signals in such a way that after the railway signals are thrown to danger, no power can be transmitted to the main motors.

The bascule on the highway side and eighty-five thousand pounds, and the railway bascule about seven hundred and sixty thousand pounds.

Take Two Years The contractors for the highway portion of the steel work are the Canadian Brylowsky Company, who are one of the two firms which combined to build the Quebec Bridge, and they will be able to commence their erection in about five months' time.

The stars incline, but do not compel. HOROSCOPE TUESDAY, JUNE 14, 1921. (Copyright, 1921, by The McClure Newspaper Syndicate.)

This is not a lucky day, according to astrology. Although Neptune is in benefic aspect early in the morning, Saturn and Mercury are in evil place.

While the next few months will not be lucky for the King, the Prince of Wales is to receive many honors and to add constantly to his popularity.

BRIEF LOCALS

Grant Special Leave—Mrs. Alward, principal of Cloverdale School, was last night granted special leave by the Board of Education. She is by the Spanish School Board. This will enable Mrs. Alward to attend a Summer school for teachers in California.

Named in Mistake—Owing to a clerical mistake on the prize list of the B. C. Goat Breeders' Association, the name of T. Muirhead was inserted instead of that of H. A. Foster as winning the third prize in the Grade Spanner yearling class.

Meet Fortnightly—The directors of the Chamber of Commerce to-day decided to meet every second Monday during the months of July and August, to conform to the rule adopted by most of the organizations in the city during the Summer months.

Esquimalt Police Commission.—The Board of Police Commissioners of Esquimalt will meet in the municipal hall at 8 p. m. to-morrow, when applications for a new chief of police will be received. James Foster, whose resignation was accepted by the Board will apply again for the position, it is stated.

Interstate Realty.—T. Cross at last night's meeting of the Real Estate Board of Victoria, reported on the accommodations available for delegates to the Interstate Realty Convention to be held in Paradise Inn, Mount Ranier, Washington, on August 24, 25 and 26, and advised that members wishing to attend should send in their names to him as early as possible so that they may be assured of accommodation.

Interested in Clinic—The Spanish School Board last night authorized Trustees Mrs. Humphreys and Reeves Watson to join him in asking the Provincial Government for a grant towards the purchase of equipment for the Dental Clinic to be established in the Memorial Health Centre. The Central Parent-Teacher Association raised by its recent tag day in Spanish \$385 towards the cost, according to a letter sent the Board by President Hitchcock. The equipment required will cost \$500, having been slightly used by the Canadian Army Dental Corps.

School Board Distressed—After a delegation of Mackenzie Avenue School Board last night authorized Trustees Mrs. Humphreys and Reeves Watson to join him in asking the Provincial Government for a grant towards the purchase of equipment for the Dental Clinic to be established in the Memorial Health Centre. The Central Parent-Teacher Association raised by its recent tag day in Spanish \$385 towards the cost, according to a letter sent the Board by President Hitchcock. The equipment required will cost \$500, having been slightly used by the Canadian Army Dental Corps.

Present Parting Gift—On the occasion of the closing down of the Inlet plant of the B. C. Cement Company on Saturday last, H. L. Knappenberger, superintendent of the plant, was presented with a pair of military "hairs" engraved with the initials of the cement company. The gift took place as an expression of the goodwill of the employees who were thus being forced to sever their association with the cement company. Mr. Knappenberger replied briefly to the address and presentation, the gathering closing with rousing cheers in his honor.

Elks Held Smoker.—A successful smoker was held by the Elks last night in their clubrooms, when a varied programme of music and musical comedy songs were indulged in by a large gathering. A mock trial enlivened the proceedings to the point of hilarity, in which Byron Aldern, James Bell, Andy Hill, Ernie Miller, Arthur Patton and Gus Brown took part with conspicuous success. Leo Sweeney officiated as chairman, while those assisting the musical items were Messrs. Lee Jaxon, James Coots, Jesse Evans, Thomas Keway, Butterworth, McCloy, Nairn and others.

Additional Goat Awards—Additional special prizes in connection with the annual goat show of the B. C. Goat Breeders' Association, just closed here, were announced yesterday. In the class for the best three kids in various grades special prizes were distributed as follows: Sired by Mr. Crow's Idylwild Chief—R. Jackson, W. Hardy, Mrs. Blakeney; sired by Mr. Addison's Idylwild Captain—F. H. Harrison, G. D. Davis, J. Duval; sired by Mr. Vaughan's Southern King—T. Muirhead, and H. A. Foster; sired by Mr. Monckton's Aloha of Rancho 57—Miss K. Burton, E. H. Burton, Miss Payne's special prizes for the best Toggenburg kid, E. H. Burton; Mrs. Burton won second prize for butter, while Miss Anderson tied for second in the grade Spanner yearling. Third in Toggenburg yearling was won by H. C. Foster, and not T. Muirhead, as stated Saturday.

Victoria Photographic Society.—There will be a "camera jaunt" on Sunday next, starting from the Cedar Room, Parliament Buildings, at 2.30 p. m. in Routin's Parliament Building interior and exterior, then any other point or points in the city which the party cares to take. Conducted by W. W. Baer.
Sale of Work.—The ladies of St. James Anglican Church, Quebec Street, will hold a sale of home cooking, fancy work and other useful articles for the home at a sale of work to be held in the Orange Hall, Courtney Street, between the hours of 1.30 and 4 o'clock to-morrow afternoon. Refreshments will be served.

Why Not Victoria? — C. P. W. Schwenger has called the attention to the fact that the steamer of the Canadian Merchant Marine leaving Montreal for this coast in July is scheduled to call to Vancouver but Victoria is not mentioned. This matter will be politely called to the attention of the Federal authorities, to see that Victoria is included as a port of call in the Canadian Merchant Marine service.

In Supreme Court.—The suit of the Yorkshire Canadian Trust versus Newcomb was re-opened in the Supreme Court to-day before Mr. Justice Clement. A. E. Bull, of Vancouver, is appearing for plaintiff company, with J. R. Green acting for the defendant. The action was opened in the local courts some days ago, being a matter in dispute where it is claimed that holdings were transferred to avoid payment of the amount claimed as due to the plaintiff.

In County Court.—His Honor Judge Lampan heard a list of chamber applications in the County Court this morning. Two trials were set for Friday in the County Court, the first being that of Holmes versus Gowen, with Messrs. Tait and Marchant for the plaintiff, and Moresey, O'Reilly and Lowe for the defendant. The second action is that of Purchase versus Harris, with C. L. Harrison for plaintiff, and Messrs. Tait and

WILL COME HERE

TWO YEARS' HENCE

Moose District Convention Ends at Aberdeen
Victoria delegates returned yesterday from the Pacific Northwest convention at Aberdeen, Washington, of the Northwest Moose Association, held June 10, 11, 12.

Delegates to the number of 150, representing 25 lodges from the States of Washington, Idaho and British Columbia met in session to discuss the various problems, and it is estimated that at least 1,500 people were on hand to take part in the festivities, which lasted from Friday morning until Sunday evening.

The local delegates, Messrs. Copeland, Pearce and Hurd, left Victoria on Thursday last and arrived in Aberdeen on Friday morning in time to join in the proceedings.

The first session was opened by the singing of the National Anthem of both countries, and President J. J. McNamara and Hon. John J. Carmy welcomed the delegates to Aberdeen. Large keys of the city of Aberdeen were presented to the State of Washington, the State of Idaho and to British Columbia amid great applause and speeches were made by John Williams, Vancouver; J. A. Campbell, Tacoma; E. E. Fisher, Fort Angeles; A. G. Sartori, Spokane; B. Brown, Tacoma; Mayor B. F. Hill, Walla Walla; R. J. Dillon, Seattle, and others after which the gathering settled down to business part of the various committees appointed.

New Officers.
The officers elected for the coming year were: President, E. E. Fisher, Port Angeles; first vice-president, E. J. Weeks, Tacoma; second vice-president, A. Kaaburg, Lewiston; third vice-president, J. Measow, Spokane; treasurer, H. J. Leamy, Seattle; secretary, J. W. Rowlands, Vancouver; trustees: R. H. McEwen, Victoria; R. H. McEwen, Ellensburg; J. W. Whitfield, Bellingham.

For the first time in history a convention of the women of Moose district was held simultaneously with that of the senior lodges, a fact of which the ladies were very proud. The officers chosen for the coming year are as follows: President, Mrs. D. M. Campbell, Tacoma; first vice-president, Mrs. M. Davis, Vancouver; second vice-president, Mrs. O. L. L. Lewis, Victoria; chaplain, Mrs. O. L. L. Lewis, Victoria; and secretary, Mrs. M. A. Richter, of Tacoma.

On Friday afternoon the Moose district picnic was served by the ladies of the Aberdeen Chapter, W. O. M. L. and drill team and other contests took place in front of the city hall, to come here.

A lot of good work was accomplished at the afternoon session, and in the evening a monster dance, followed by an initiation into the first degree of Moosehood, was given. The Saturday session many items of importance were on the carpet, the principal of which was the selection of the place at which the district convention was to be held, and after a very spirited contest between Victoria, Lewiston and Walla Walla, the latter named place won out by a narrow margin. The city of Victoria delegates were promised to Victoria for the year 1923. It is practically a certainty that the convention of that year will come to this city.

Telegram from the Rotary Club, the Kiwanis Club and the Board of Trade were received in session and added considerable weight to Victoria's claim.

Concert and Ball.
On Saturday afternoon band contests took place, followed by a magnificent parade of all the combined lodges, male and female, the citizens of Aberdeen turning out en masse to applaud.

In the evening a grand ball was the principal item of interest, and a legion frolic, which was held at midnight concluded the events of the day. On Sunday a picnic was held at Pacific Beach, some twenty-six miles from Aberdeen, and was participated in by almost all of the huge gathering. This brought to a close the biggest and best convention ever held by the association and all went home tired, but quite satisfied with the good time.

VERNON TENNIS CLUB.
The attendance was good last Saturday afternoon and great interest was displayed at the Vernon Tennis Courts, in the draw for the first round in the mixed double competition. Members should make themselves acquainted with the lists which are now posted and arrange to play off their ties at the earliest possible date. Several tournaments will be arranged before September committee for the month of July.

WOULD MAKE CITY MORE PRESENTABLE
Paint-up and Clean-up Campaign Proposed for Victoria
A clean-up and paint campaign will be started in Victoria shortly. The idea is to encourage people to undertake the value of preservation of property by the use of paint and the advantages of keeping up the appearance by the use of paint and the advantages of keeping up the appearance of the home as well in order that tourists who visit the city will go away with a favorable impression of the city and one that will not only live long in their memories but will serve as a good advertisement for the city's attractions as well.
It has been noted that a number of houses that had existed in obscurity have recently been decked out in new colors, fences have been repainted and lawns and gardens cleaned up with the result that the properties have created a very favorable impression.
The clean-up and paint idea was broached at the meeting yesterday of the directors of the Chamber of Commerce by President James H. Beatty. He referred to the fact that while taking visitors for a drive about the city the natural beauty had been marred in places by dilapidated and unimproved homes looking out from dilapidated hedges and fences. The boat houses along the marine drives were particularly noticeable in this respect.
J. C. Pendry, president of the Victoria and Island Development Association, said that his association would gladly support any movement that would tend to promote a better appearance for the city. H. B. Thomson, when in the city some time ago, had brought the Development Association's attention to the benefits of such a campaign from the standpoint of making the city bright and cheerful and thus adding to the tourist attractions. Mr. Pendry reported that Edmonton recently carried out a paint-up campaign with great success.

# Times Latest Sporting News

## Weakness Apparent in Team to Meet Scotties

Goal and Backs Are Best in City, But Mistakes Apparent in Half Backs and Forwards—Visiting Players Will Be Well Entertained

For two hours last evening the Selection Committee of the Victoria and District Football Association worked over the names of eighteen players to represent eleven should be chosen to meet Victoria against the Scottish team, which will play here on Wednesday, June 22. The committee had, no sincere and the result of their deliberations will no doubt meet with approval from some quarters, while from other sources will emanate a stream of vigorous criticism.

The team, which will be captained by Jimmy Allen, of the War Vets, will be as follows: Goal—Shrimpton, G. W. V. A. Full-backs—Bob Whyte, Victoria West, and Everett Taylor, Metropoli. Half-backs—Archie Muir, Victoria West, Jimmy Allen, G. W. V. A. and Munro, Yarrows. Forwards—Brewer, Comrades; Bridges, Yarrows, Petticey, Metro. Full-backs—G. W. V. A. and Totty, Metropoli. Reserves—Rickinson, Caskie and Clarkson, G. W. V. A. John Cummings, Metropoli, and Wright.

There will be no criticism found with the selection of the goal and full-backs. Shrimpton has that he is the best of our goalkeepers in this city. When he has a good day he is the hardest man in the world to get on color next Wednesday. The Scotties will need their Andy Wilson to bring home the counters. Taylor make the best pair of backs that could be picked here. Bob Whyte deserves a place for his splendid play. He is steady and possesses a good kick and plays with his head as well as with his feet.

The main criticism in the Selection Committee's work hovers around the half-backs and forwards. What will puzzle every one is the fact that the best forwards of the city, the Jimmy Allen and the other men, are not picked. It is a pity that the best forwards of the city, the Jimmy Allen and the other men, are not picked. It is a pity that the best forwards of the city, the Jimmy Allen and the other men, are not picked.

Extensive preparations have been made for entertaining the Scotch footballers on their arrival here. The Football Association decided last evening to make the stay of the visitors a memorable one.

On Monday local supporters will motor to Nanaimo and be the guests of the Scots at the game with the Upper Island team. On Tuesday morning at 8 o'clock the Scots and their guides will motor over the Island Highway, arriving at noon. The footballers will then be entertained at a luncheon by the Kiwanis Club at the Elks' club-rooms. The Pipers band will be in attendance to cheer the hearts of the boys from the heather.

## Victoria Lacrosse Players Are Now On Their Way Back to East

Vancouver, June 11.—The British Columbia Lacrosse Association will hold a meeting this evening. At this gathering the application of Ernie Murray's Vancouver club for a franchise in the B. C. L. A. will be taken up and acted upon.

## P. N. A. Swimming Gala to Be Held Here on Aug. 20

Arrangements have been completed for holding the annual Pacific Northwest swimming, diving and water polo championships at the George on Saturday, August 29. As this notable aquatic event will be staged by the V. L. A. A. at its pool inside the lip of Curtis Point, the swimming committee of the association met last evening at matters decided on several important matters in connection with the gala.

Yakima	28	.377
Victoria	21	.422
Tacoma	17	.425
Vancouver	17	.415

After a very wobbly start in the Pacific International race the Capitals have pulled themselves together and are now jogging up the ladder and following their victorious engagement with Vancouver while Tacoma took a string of defeats from Yakima, they now find themselves safely entrenched in second place.

Yakima got away to a flying start and caught the other three teams unprepared. The Crabapples have a very nifty balanced team, and have had the edge so far, but whether or not they will be able to maintain that advantage within the next couple of months over the fast elevating Capitals is causing much speculation around the circuit.

### Are You a Born Advertiser?

Certain merchants get a reputation for being born advertisers.

They may have earned the reputation. They were not born that way. Their particular genius has lain in the fact that, having marvelous faith in the power of Daily Newspaper Advertising, they went ahead with it regardless of immediate results.

They had courage. And the courageous advertiser gets the greatest rewards.

There are those whose temperament is not suited to Napoleonic tactics. Neither will their product or pocket-book permit them to use these tactics even if they were so inclined.

Daily Newspaper Advertising is as another brain to the sales force of these men. It is the one medium from which they get quick and accurate returns; and are so able to repeat their advertisements as often as conditions warrant, and the treasury justifies.

This is particularly true at this time of the year when the season, the weather, the change of fashion, the state of public mind and attitude of competitors, all combine to affect daily sales.

The born advertiser is not necessarily the large space advertiser nor does he have to have more than one thing to advertise.

If he is quick to seize every incident in his daily life and capitalize it in his next day's advertising—the public will soon pay him that tribute of admiration expressed in the words "a born advertiser."

Issued by The Canadian Daily Newspapers Association, Head Office, Toronto

### A Famous Agent of Economy

Not so long ago the elasticity of the family budget was in many cases entirely unequal to the strain put upon it and the question of ways and means of making "ends meet" was sufficient to drive the average head of a home or of a business into a nervous breakdown. Happily, however a solution was found!

The solution was the classified advertisements!

The classified advertisements came into their own! In that not-so-long-ago-time the little paragraphs were used occasionally and no one got their full value. But in the crisis they proved up and they are now recognized as an ever present aid to economical buying. There is nothing to-day in the human wants that cannot be found in the classified columns and there is no more effective way of securing what you want than through the classified columns.

They are "Uncommon Sense" in business or home.

### \$300 CASH DOWN BUYS THIS

This is not a shack, but an up-to-date, modern bungalow of 5 rooms, with beamed ceiling, finished walls, large brick open fireplace, full cement basement, piped for furnace, and numerous built-in features; takes only \$10 per month; Durability District—Only \$2500.

British American Bond Corporation, Limited  
8, A. Bond Building, 712 Fort St.

## CONFIDENTIAL

WILL GET MORE AID FOR ROADS

Federal Scheme of Assistance Now Clear, Mr. Beckwith Says

As a result of information secured at the recent convention of the Good Roads League of Canada in Halifax, British Columbia should get much more money from the Federal Government for road building purposes in the future than during the last few years, in the opinion of ex-Mayor J. L. Beckwith, one of the city's delegates to the convention.

Division of Funds. To the delegates from the city of Victoria, there was an entirely new light thrown on the whole question of road building with Federal assistance. Mr. Beckwith declared that the money is available at Ottawa and it is only a matter of getting it. We learned that \$20,000,000 has been voted by the Federal Government to aid the Provinces in the construction of roads, this money to be spent at the rate of \$4,000,000 a year for five years. The plan is that the Federal Government should pay forty per cent. on all roads constructed, of which it agrees to assist, the Province paying sixty per cent. Some of the Provincial Governments have taken advantage of this plan. British Columbia has not done much more than in the present, this I take it being due to the fact that the position has not been thoroughly understood, but I am very sure that after the convention the whole is clear to the representatives. It was stated by several representatives that their Provinces would be prepared to take greater advantage of this scheme in the future.

Must Be Trunk Roads. Federal aid from the fund I mentioned will be given to help construct such roads as are approved by the Federal authorities when they are satisfied that they are main trunk roads and deserving of assistance. It is not the Government's intention to give aid to by ways or laterals. The Provincial Government, of course, must take the initiative by asking aid for any road which it considers deserving assistance from the fund. It is up to the Provincial Government, it would seem.

The clearer knowledge on this matter which the delegates gained at the convention about the importance of the city being represented there. Now that we know about them we can expect to get results, so that the convention had more value than perhaps appears on the surface.

Two or three provinces, Mr. Beckwith stated, have been more directly in line with the federal aid policy than British Columbia and have benefited to a greater extent than has our own Province, but it is gratifying now to know that British Columbia will be prepared to take full advantage of any benefits that may come from Federal sources in future.

Get Valuable Data. A number of papers read at the convention were of great value. One by Colonel W. D. Schier, former chairman of the Massachusetts Highway Commission was of particular note. The experience related in it should be taken advantage of by the Association, I think. The convention discussed in detail the various methods of road construction and it was the general opinion of the delegates that there would be rapid progress in the construction of the best types of road throughout the Dominion.

Need Co-operation. There was a general opinion among the delegates—and I urged this also—that there should be more co-operation in future between the Good Roads Association and the Public Works Department of the various provinces so that there would be a clear understanding of the work of road building as it progressed. The Canadian National Highway project was discussed. It appears that the scheme has not made as much headway in the East as out here.

Mr. Beckwith presented to the League a large photograph of the ceremonies which took place in Albert in 1912 when the western post of the Canadian National Highway was driven. He expressed the hope that a move in the same direction would be made in the East soon.

In the course of the convention Mr. Beckwith presided over the annual meeting of the League. After the close of the convention some forty delegates, including Premier Oliver, Mayor Porter and Mr. Beckwith, made an extensive tour of the Okanagan Valley, the great apple country. The trip was made in a special train and in automobiles provided by the people of Kentville, the principal town in King's County. The delegates were given an opportunity to examine the wonderful orchards of this district, which the delegates agreed, was the finest country from an agricultural standpoint that they had ever seen. They also visited Grand Pre. Mr. Beckwith had not travelled through this country for nineteen years and was amazed at the progress that had taken place during that time.

Local new potatoes are on the market and retailing at 15 cents a pound. Providing the weather does not become excessively hot during June, prospects are favorable for a good strawberry crop here, the report says.

### TORONTO WAGE CUT SUGGESTED

Toronto, June 14.—A suggestion from the Toronto Builders' Exchange, an employers' organization, that for the purpose of stimulating building operations the various trades unions should consider a ten per cent. cut in wages was considered at a meeting of the Building Trades Council. No information was given to the press as to the outcome of the meeting, but it is understood that the suggestion of a wage cut was not taken favorably and that a vote on the question may be taken.

The average pay of the men now is slightly over an hour. They recently asked for 90 cents.

TO BE RE-ARGUED. Ottawa, June 14.—(Canadian Press).—The re-argument before the Supreme Court of Canada of the case of the Gold Seal Liquor Company vs. the Dominion Express Company will not be heard until the latter part of this month. The lawyers have been allowed until June 22 to file new evidence.

# FINANCIAL NEWS

### ADVANCE FOLLOWED BY LIQUIDATION

(By Burdick Brothers Ltd.)  
New York, June 14.—Stocks opened steady and some issues showed strength during the morning session. Mexican Petroleum and Studebaker were weak and sharp rallies were noticeable. Towards the end of the afternoon session, however, liquidation set in and practically all the early gains were cancelled. No particular news to-day.

# Watch Your Gums—Bleeding a Sign of Trouble

Medical science knows how serious is the sign of bleeding gums. For it knows that tender and bleeding gums are the forerunners of Pyorrhoea, that dread disease which afflicts four out of five people over forty. If the disease is unchecked, the gum-line recedes, the teeth decay, loosen and fall out, or must be extracted to rid the system of the Pyorrhoea poisons which creep into the system and wreck the health. These poisons often cause rheumatism, nervous disorders, anaemia, and other ills.

To avoid Pyorrhoea, visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums. Forhan's For the Gums will prevent Pyorrhoea or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has already set in, use Forhan's according to directions and consult your dentist immediately for special treatment.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

Forhan's, Ltd., Montreal

**Forhan's FOR THE GUMS Checks Pyorrhoea**

# GIVES REASONS WHY EXAMINATIONS DISPENSED WITH

### Inspector May Tells Saanich Trustees System Is Experimental

Inspector W. W. May last night met the Saanich School Board and explained the basis on which the promotions to High Schools are being made this year.

Mr. May stated that the system of promotion by recommendation of the school principal, being used at Clevedale and Tolmie schools, was part of a province-wide experiment. This was not applied in the smaller schools, mainly because the teachers were not so experienced, and possibly by holding a lower idea of the requisite standard of knowledge would cause a number of their promoted pupils to encounter such setbacks at High School as to cause them to discontinue their studies and go to work in the smaller schools. Therefore, the examination system was being retained, in the hope that a large percentage of the successful students would complete High School, and possibly go to the University.

# DEBATE AT LENGTH ON SALARY PLAN

### Saanich Trustees Advance Proposals for Dealing With Teachers

The idea of this contract proposal is to deal with the individual teachers, said Chairman Holloway of the Saanich School Board last night, when the trustees met to discuss the terms of the proposed agreement.

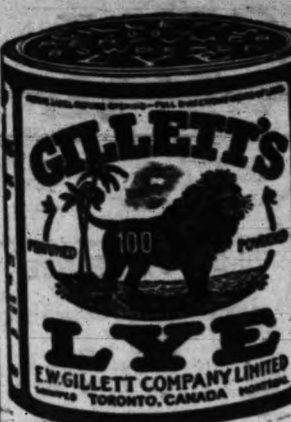

The draft agreement provides for a fixed salary for one year from the commencement of the agreement, and for any alteration between the Board and the individual teachers. There is a provision allowing the teachers to resign at the end of any term of the year, this being a clause required to comply with the Public School Act.

Chairman Holloway thought Saanich would prefer a Province-wide schedule backed by the Department of Education, but this was thought too difficult to arrange, and therefore not a prospective solution for many years.

Contract Difficulties. Trustees Thorne and Mrs. Humphries thought the institution of a contract system would bind the School Board far more severely than the teachers, being good for a year, while teachers could resign as individuals at any time.

# RURAL TEACHERS RESIGN FROM THE SAANICH STAFF

Six resignations or applications for one year's leave of absence were last night presented to the Saanich School Board, while no less than fourteen holders of second class certificates presented applications for employment.

list, the Board accepting all the resignations with little debate.

# SAANICH MUST PAY WHOLE COST

### Such Is Decision for Cloverdale School; One-third for Tillicum

The whole cost of the improvements and alterations planned for the Cloverdale School will have to be borne by the Saanich School Board, according to advice which the Trustees last night received from the Provincial Department of Education.

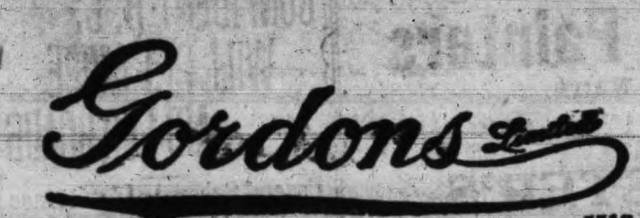

# DEFENDS NEW BURIAL PLAN

### Says Cemetery Board Can Select Any Site

Alderman George Sangster, leader of the municipal council, today gave out a statement in which he sought to clear up a number of erroneous ideas which, he claims, have crept into the minds of sections of the public and the press.

“As far as the need for a new cemetery is concerned we must rely on the reports of our officials, who believe that an irresponsible individual in this matter, if our officials are not telling us this cemetery or then something should be done with these officials.”

# SAYS SAANICH NEEDS SCHOOL INSPECTION

### Chairman of Board Will Give Province Complete Control

“Just a yearly report on our staff is not sufficient” was Chairman Holloway's view of the need of a change in the supervision of the Saanich Schools, expressed last night when the Trustees were discussing with Inspector W. H. M. May the need of a Municipal Inspector of Schools in Saanich.

Chairman Holloway had argued that the Provincial Inspector should make at least two reports yearly, and declared that the Provincial Government was trying to pass the cost of better supervision on to the Municipality, while retaining control of the office through refusing grant freedom of discharge to municipalities which were dissatisfied with their Inspector.

# SAANICH TO TAKE PART IN ISLAND TRUSTEES' MEETING

### Duncan Convention of School Trustees Is Highly Approved

The Saanich School Board last night received with pleasure an invitation from the Duncan Consolidated School Board, to a convention of all Island Boards to be held at Duncan on June 21.

Chairman Holloway and Trustee Mrs. Humphries both thought the Island Convention should not displace the British Columbia trustees meeting at New Westminster next November, “that being the place where the important resolutions for the Government will be passed.”

# WIND ON THE STOMACH QUICKLY RELIEVED.

It is a good thing to know just what to do when gas belching starts. One sufferer related the following experience: “A few months ago I ate some green vegetables and some fruit that was not quite ripe. It brought on indigestion, hiccuping, nausea and cramps. I belched gas continually. A neighbor urged me to use ‘Nerviline.’ I took it in hot water, and got quick relief. I will never again be without this household necessity. Large 35c bottles sold everywhere—Advt.

### CHURCH'S Alabastine

Easy to Mix—Easy to Apply  
All you need is a brush and a pail of cold water. It mixes readily and spreads evenly without leaving brush marks. It is economical—costs one-third as much as paper, and one-fifth as much as paint. One coat is sufficient to give a rich, beautiful tint. When you decorate save money by using

### Cuticura Soap Imparts The Velvet Touch
