CATALOGUE and PRICE LIST for 1933

Also seed and plants of a few of the vegetables and fruit which I grow and sell at my roadside stand in my dahlia field.

See following pages. You will find many things you will want.

Greeting

Flowers are companions. They brighten our happiness. They lighten our worries. They bring us comfort in our sorrows. We cannot afford to be without them.

In this spirit I greet you and want to share with you my new shape original creations of SINGLE and LITTLE DARLING MINIATURE dahlias at prices within the reach of all.

For many years I have grown all types of dahlias. Now, on account of the increasing demand for my new shape SINGLES, my original LITTLE DARLING MINIATURES, POMPONS and ORCHID FLOWERING dahlias, I am devoting my time, almost exclusively, to these classes.

Guarantee

I guarantee all bulbs as true to name. Should a bulb not sprout return it to me immediately for replacement. Success, however, depends upon the soil, cultivation and weather conditions, so I cannot guarantee the GROWTH of the plant in another's hands.

TERMS. Cash invariably in advance or C. O. D. if one-quarter of amount is sent with order. On all retail orders fully paid in advance, I will prepay carriage to any part of the United States, except where noted.

Be sure your full name and address is written plainly on every letter and order.

New Single Dahlias

1933*

Price After Last
Description

This list of new form or shape of SINGLE dahlias was originated by me and especially grown for the season of 1933 to meet the increasing demand for this popular type of single dahlias. Their beauty of design and delicacy of coloring can only be appreciated when grown in one's own garden. Plants of medium height, flowers held erect on stiff stems, they are of unusual beauty in the garden. When picked just before the bloom fully opens, properly cared for after picking, the beautiful flowers on long stems make an exquisite formal or informal home decoration of superior keeping quality. No dahlias have yet been produced so especially decorative for the living room, den and halls as these new forms of single dahlias. Offered in a wide range of colors.

MISS ALLING. Magenta, shaded lighter at tips; yellow at base.

MISS AMBROSE. Butter yellow, shaded deeper to almost gold.

MISS ATWELL. Light rose pink, pale cream at base.

MISS BAUSCHER. Deep rose pink, delicately shaded. Petals very slim and slightly twisting.

MISS BAXTER. Light lemon yellow.

MISS BISHOP. White, edge of petals magenta.

MISS BOGART. White, long slim, twisting petals.

MISS BOURNE. Pink salmon.

MISS BRADLEY. Rich old gold. Petals twisting in a beautiful manner and folded forward.

MISS BULL. White, speckled and striped magenta; slim twisting petals, slightly rolled. A most beautiful combination of colors.

MISS BUTLER. White and deep rose pink, shaded and striped. Petals white at base and tips. An unusual combination of color.

Every dahlia in the collection is a prize in any garden. Every flower in the lot is easily worth twice that amount.

Order early and state date you want them shipped.

New Orchid Flowering Dahlias

The Orchid Flowering Dahlias are of foreign origin and a recent addition to the dahlia family of this country as a novelty. The petals are gracefully rolled and pointed. They are produced here in rather limited colors but make an exceedingly attractive group in the garden or home. The plants grow 2-3 feet high, producing flowers in abundance, held erect most gracefully. The cut flowers keep remarkably well. The extremely low price of the bulbs places these novelties within the reach of all.

Bulbs 50c each. Seed \$1.00 per package (100 seeds). One-half package 50c.

EVEREST. Pure White.

IBIS. Buff. Back of petals peach red.

LEOPARD. Yellow spotted with rose.

POLLY. Yellow. Back of petals intense red.

RUBY. Light ground mottled with ruby.

STARFISH. Pale flesh color. Back of petals ruby.

Little Darling Miniatures

In originating these LITTLE DARLING MINIATURES I have concentrated all the fineness of texture and beauty of coloring of the dahlia into tiny flowers. They are the newest, smallest and most beautiful baby dahlias yet introduced and in a class by themselves. Easily grown—all flower lovers should, by all means, include these LITTLE DARLING MINIATURES in the garden. The low plants with a wealth of blooms are especially adaptive for a place in the annual garden bed. The tiny, delicate colored flowers on long, firm stems are unsurpassed for the dining table decoration, library, guest room or wherever in the home an informal or intimate bouquet is wanted. The following LITTLE DARLING MINIATURES are a selected list of new creations for 1933 and offered at such a low price that any dahlia lover can enjoy the lovely colors of these new miniatures.

Labeled bulbs 75c each, 6 bulbs for \$3.00. General mixture without labels, 50c each, 5 for \$2.00.

- EDDIE A. Yellow, edged deep pink.
- EDDIE B. Lemon, edged lavender.
- EDDIE C. Deep velvety red.
- EDDIE D. White, edged with deep pink.
- EDDIE E. Very light pink.
- EDDIE F. Lemon, tipped old rose.
- EDDIE G. Yellow suffused with old rose.
- EDDIE H. Deep pink.
- EDDIE J. White.
- EDDIE K. Canary yellow.
- EDDIE L. White, striped pink.

Pompon Dahlias

The tiny POMPONS are more popular each year as their adaptiveness is better appreciated. They bloom profusely throughout the season, making a mass of color above the low growing plants. Used alone in solid color, or alternated with Little Darling Miniatures, they make a most attractive border. They are long lasting as a cut flower and combine with a pleasing effect with Little Darling Miniatures or Singles.

Special price on quantities for extensive borders.

Perfection in Sweet Corn

My ambition was to produce a better sweet corn with larger ears and of superior quality to the kinds in common use. This I succeeded in doing in the two following varieties:

SWEET ORANGE sweet corn (yellow) is nearly as early as the smaller yellow kinds. It has 12 and frequently 14 rows of kernels. Ears are twice as large as the Bantam corn. It makes a profitable market corn and is a favorite table corn as well. Height about 4 feet.

Selected Seed 75c per pint; 50c per half-pint.

MT. SHASTA SWEET CORN. This is the largest and sweetest corn in existence. Although it is a very large corn it possesses an unusually pleasing, sweet and delicious flavor of its own. The Mt. Shasta Corn sells itself.

It sold all through the past season in my field, where it grew, at my roadside stand, as fast as it matured, at 50 cents per dozen. I can safely state that no other sweet corn has in so short a time met with so great and popular demand as has the Mt. Shasta.

Selected Seed 75c per pint; 50c per half-pint.

DIRECTIONS FOR PLANTING CORN

Make three plantings of **SWEET ORANGE**, and three of **MT. SHASTA** and you will have a continual supply of the finest green corn you ever ate.

Plant the **SWEET ORANGE** in rows three feet apart and hills three feet apart in the row. Three stalks to each hill. Fertilize liberally when planting according to quality of the soil with poultry manure, but do not allow it to be placed less than five inches from the seed.

Plant the **MT. SHASTA** in rows four feet apart and hills 3½ feet apart in the row. Allow only three stalks to a hill and if soil is weak only two stalks. Fertilize liberally when planting with poultry manure, placed not less than five inches from the seed.

Caution: Do not mix strong fertilizer with the soil when planting any kind of seed. It is liable to injure the seed. Allow the seed to sprout in the plain soil. It will find the fertilizer very soon four or five inches away.

Strawberry Plants

RHODE ISLAND. I started growing everbearing strawberries about 17 years ago and now have the newest and best of them all. The **RHODE ISLAND** is original with me and a seedling of the "Lucky Strike" which was the best everbearing variety before the advent of the **RHODE ISLAND**. This is now ahead of all everbearing berries I have seen in size, flavor and productiveness. It closely resembles its parent in shape.

Only a limited number of plants for sale in 1933. One dozen plants, \$2.00; 25 plants, \$3.50, postpaid first, second and third zones. Add 10c beyond third zone.

Dahlia Seeds

Dahlias bloom the first year from seed planted as soon as the frost is out of the ground. If started earlier in flats and transplanted like tomato plants, they have a longer blooming season. New dahlias come from seed. Each dahlia seed produces flowers of a new variety and different from the parent bloom from which the seed was taken. The curiosity and expectancy to see what the new flower may be like—the satisfaction of originating a beautiful new dahlia, perhaps better than

your neighbor's, or a prize winner—makes raising dahlias from seed one of the most interesting phases of the garden.

For one wanting a number of flowers at an extremely low cost with very little trouble, raising dahlias from seed is an unusually economical and interesting opportunity. They are easily grown. Directions for planting with every package.

From an Old Customer

"Mr. George L. Stillman,

Liverpool, Nova Scotia

"Westerly, R. I.

Nov. 13, 1932.

"Dear Mr. Stillman:

"I am just writing you a few lines to let you know of the success I have had with your dahlia seed the last two summers.

"In 1931 I purchased from you a package of Decorative Dahlia seed at \$2.50 and raised from them 125 plants, a large number of the individual plants being well worth the price of the whole lot.

"In 1932 I again purchased a package of your Dahlia seed, this time Cactus Mixed at \$2.50 (plus exchange \$3.00). The package contained 225 seeds and I raised 217 plants from them, quite a record, I think. And while we had a very backward season in this part of the country this year, most of them bloomed this summer and a few gave me eight inch flowers. The mass of bloom in my dahlia patch was at its height when cut down by the first frost on October 16th.

"I felt that you would be interested in my success with your seeds and to know that they were admired by a large number of people.

"When your new catalogue is ready please send me one and also please send one to.....

"Yours truly,

"....."

Vegetable Seeds

I am offering seeds of a few vegetables which I have carefully selected as the best varieties of their kind to grow for sale at my roadside stand. I recommend these varieties. Try them in your home garden.

RED MATCHLESS TOMATO. Large, smooth, and ripens to the stem. Seed 15c pkg. 2 pkgs. 25c.

YELLOW MATCHLESS TOMATO. Like the Red Matchless but with a rich golden color. Considered of better flavor with less acid than the red tomato. Popular to serve with red and yellow slices alternated. Seed 20c pkg. 3 pkgs. 50c.

CHERRY TOMATOES. Small red—about the size of a cherry. Very popular. Seed 15c pkg. 2 pkgs. 25c.

STRAWBERRY TOMATOES. Sometimes called Shuck Tomatoes and Ground Cherries. About the size of a cherry. Grow within a thin husk. Canary yellow when ripe. Delicious for preserves or pie. Dried seed tomato 10c each, 6 for 50c.

LITTLE GOOSE POLE BEANS. Stringless. The favorite at my roadside stand for eating green with pods—same as string beans. Price, half-pint, 30c; pint 50c, postpaid in first, second and third zones. Add 15c beyond third zone.

BUSH BEANS. (Stringless) Price, postpaid first, second and third zones, half-pint 30c; pint 50c. Add 15c beyond third zone.

SPECIAL BABY LIMA BUSH BEANS. Price, postpaid first, second and third zones, half-pt. 30c; pt. 50c; 2½ pts. \$1.00. Add 15c beyond third zone.

SUMMER SQUASH. Straight neck. Matures quickly, Fine flavor. Seed, 15c pkg.; 2 pkgs. 25c.

Hardy Plants

MIXED HARDY PHLOX. Well established roots that will bloom the first season. Mixed shades. Price, \$1.50 per dozen; half doz. \$1.00, postpaid first, second and third zones. Add 15c beyond third zone.
