### ITALIANS GAINED COMMAND OF ROAD

Important Success Was Won Between Lake Garda and Adige

Rome, Oct. 26.—The following official statement was issued last evening: "In the zone situated between Lake Garda and the Adige our troops, descending from Monte Altissimo all Nago under a crossfire from the enemy's artillery posted on the Bienna and Riva fortifications, stormed on the 24th the positions of Desseccina and Dosserent. This, with the heights conquered on the 18th and 19th, north of Brentonico, Grossano, gives them complete command of the road from Riva to Mori, by Nago. In the enemy encampments we found arms, munitions, bombs, field kitchens, searchlights and other materials.

"The enemy made three attacks against our new positions in the upper Riva valley during the night of the 24th-25th. All of them were repulsed. Our troops followed up the retreating enemy closely and were able to get up to his trenches and make large breaches in the barbed wire entanglements.

"Further successful raids by our columns in the Fella valley are reported. Lussitza has been burned.

"In the Monte Nero zone the enemy twice attacked our positions above Mrelych, but was repulsed, leaving 21 prisoners. He then directed a more violent attack from the summit of Vodi against our line extending from below Zafelto to Mrelych, which he succeeded in piercing and partly occupying. Later, however, our Alpine troops, with irresistible dash, reconquered the lost territory, taking 70 prisoners, two of them being officers. We buried 202 enemy bodies on the scene of the action.

"On Santa Lucia heights our troops reached a small eminence between Hill 583 and the hummock situated immediately to the south.

"In the Plava zone we stormed yesterday an entrenchment known as Casan Divina. The enemy counter-attacked to retake it but was repulsed with heavy loss, leaving 11 prisoners.

"On the Carso front during the whole day there was an intense action on the part of the artillery of both sides. Our batteries on the Lower Isoneo caused a serious outbreak of fire in the environs of Twine."

### SHE RECOMMENDS "FRUIT-A-TIVES"

Mrs. Corbett Read the Advertisement and Tried It

"Avon, May 14, 1914.

"I have used 'Fruit-a-tives' for indigestion and constipation with most excellent results, and they continue to be my only medicine. I saw 'Fruit-a-tives' advertised with a letter in which some one recommended them very highly, so I tried them. The results were more than satisfactory, and I have no hesitation in recommending 'Fruit-a-tives'.

### ASKED TO DELIVER ANOTHER ADDRESS

Half Crowded to Capacity When J. S. Cowper Spoke at Nanaimo

Nanaimo, Oct. 26.—The most successful Liberal meeting ever held in the Wellington district was held on Saturday evening in the form of a "smoker," at which J. S. Cowper, one of the Vancouver candidates, was the speaker of the evening. The hall was crowded to its capacity, many of the men present coming from Departure Bay and from the district around for a radius of five miles. A. Barnes, of Departure Bay, president of the Wellington and District Liberal association, presided over the gathering, which included several previous supporters of the McBride government. After an hour's speech by the speaker of the evening and the answering of questions from the audience, the meeting gave three cheers and musical honors for the speaker, and three cheers for H. C. Brewster, the leader.

In his speech, referring to the men from England, Scotland, Ireland, Wales, Belgium and Italy who were present at the meeting, Mr. Cowper said they were all allies under the Liberal banner, engaged in a fight for freedom and justice among men, just as were their brothers on the battlefields of Europe. (Applause.)

Mr. Cowper read a fulsome description which appeared in a government publication at Victoria when the McBride government opened the session of February, 1912. Some of the passages which referred to Mr. Bowser's "arresting personality," to Hon. Dr. Young as a man whose "appearance is the best index to his conspicuous ability," and to the premier as "combining a resolute patriotism with a vigilant business instinct," evoked hilarious laughter. The speaker contended that government in its intoxication of triumph at having brought about the defeat of Mr. Brewster in 1911 with its present plight, when discredited in the province and torn by dissensions in the cabinet, it feared to face the people and make an accounting.

Supply Reason.

The premier in the role of the professional son, Hon. Price Ellison in the role of the scapegoat and the attorney general's part in the Dominion Trust failure were dealt with by the speaker. Referring to the statements made by Wishard and Michener on Oct. 15, in St. John's as witnesses in the coal mine case that shares to the value of \$105,000 had been given to Dr. Young for valuable services in connection with a favorable decision of the provincial executive in a foreshore dispute, Mr. Cowper said that if true, these statements supplied not merely an explanation of why the government had expended \$200,000 over the Nanaimo strike-breaking episode, but also a powerful and sinister reason for the re-drafting of the provincial statutes, so that final decisions in dispute over lands, water rights, timber limits, coal areas and foreshore leases are taken away from the courts of justice and put in the hands of the provincial executive.

"The Greeks depicted justice as blind," said the speaker, "I have the feeling that if they lived in British Columbia to-day and witnessed public inquiries, where cross-examination is debarré, and star chamber decisions on matters of public moment, they would depict justice as deaf, dumb, crippled and palsied too."

Dealing with the problem of how to rescue the province from the state of bankruptcy to which it has been brought by the railway guarantees, Mackenzie & Mann, Mr. Cowper handled at length a programme of economic reforms for the development of the agricultural, forest, and mineral wealth of British Columbia.

With a copy of the Public Accounts as a textbook, Mr. Cowper took up a number of financial items.

After having spoken for more than an hour, the unusual report was made of the speaker, from the body of the meeting, that he deliver another speech going further into some of the financial extravagances he had referred to.

### KAISER READS FROM THE KORAN DAILY

Remarkable Call to Holy War Circulated by Germans Among Mohammedans

Montreal, Oct. 26.—How the Germans are trying to stir up a Jihad, or Holy War, in which they hope to get the Mohammedans to join them against British and France and the allies was shown to-day by Dr. Jos. Stern, of this city. Dr. Stern translated an appeal made in all Mohammedans to join the Germans and Austrians, with the Turks to defeat the allies. This appeal, Dr. Stern said, had been prepared by a German Arabic professor, with the cognizance of the Kaiser, and circulated wherever there were Mohammedans or enemies of the allies, especially in Egypt and India.

The document itself, as published in a New York Jewish paper, is a sufficiently remarkable piece of rhetoric to purport to come from the Sultan of Turkey, and starts with a quotation from the Koran: "They that heretofore make plans, and Allah makes plans, for Allah is the best plan-maker."

The document proceeds: "We are calling upon you once again for a holy war against our ancient enemy, who seeks to destroy us.

Why Waiting?  
 "What are you waiting for? Cannot you see that the enemy is striving to encircle you with fire on all sides? Are you waiting until the sacred places of Allah are converted into barracks for English soldiers? Are you waiting to see the French and Italians desecrate the Holy Sepulchre of our Prophet Mahomet, who speaks, sings and preaches to us from beneath the silent tombstone, to 300,000,000 of Islamites?"

"O, ye believers in the unity of God, O, ye who say there is no other God but Allah, and that Mahomet is his ambassador, ye are beseeching that your numbers reach into hundreds of millions—but of what avail? Your voices are not heard on the face of the earth. The Christian nations look upon you with contempt. Times without number you have allowed each and every one of them to dismember your territories.

"They have robbed you of your substance, disgraced your religion, scattered your children, and still you have kept silent.

"O, ye children of the Sacred Book, ye know how oft the savage Russian, the practical English, the bastard French, born without wedlock, and the Italian bandits have planted their unholy flags upon your sacred hills!

"O, ye oppressed slaves of India, ye persecuted princes of Egypt and the orphaned islands of Algiers, Tunis and Tripoli! O, thou Bokhara, thou Turkistan, that writhe under the knout of that cannibal, the czar! O, you mosques and minarets, and you half-opened graves with Islam's greatest sons! Oh for the woes that Christians have wrought upon you!

"Allah is high and mighty, and he has so confounded the Christian nations that they might come and help him, against your eternal enemies, Germany and Austria, will help us to overthrow the sinful English, the murderous Russians, the bastard French and the Italian bandits.

Every Day.

"You must help them in their holy strife. You must help the Kaiser at Berlin, who is a Kall Allah (friend of the True God), and a devout and noble prince who reads daily a portion of the Koran, like unto the most devout amongst you.

"You must help the monarch of Vienna, who is now on our side, and we must pardon his former sins against Islam. You must aid all the nations who have allied themselves with us.

"Listen to the voice of history; hearken unto the sighs and moans of the persecuted and oppressed, and draw the holy sword of Mahomet against the Cross."

### HOLD POSITIONS TAKEN TO EAST AND WEST

Paris, Oct. 26.—The following official communication was given out last night: "The enemy counter-attacked very violently to-day in the Champagne along the whole of the front of the fortified positions at La Cotelette. We remain in possession of the positions taken to the east and west, the Germans having succeeded in re-occupying in the centre only some portions of the trenches, where the battle continues fiercely with grenades.

"There is nothing of importance to report on the rest of the front."

Jack: "I hear the captain has had hard luck. His wife has run away from him." Bill: "Yes! he took her for a mate, but she proved a skipper!"

**VIOLENT FIGHTING ALONG THE DWINA**

Many Engagements South of Dwinsk, Says Russian Official Report

Petrograd, Oct. 26.—The following official communication was issued last evening:

"In the Riga region the fighting continues. South of Lake Babite the Germans unsuccessfully assumed the offensive. In the region of Olai, there was an artillery duel.

"On the left bank of the Dwina, south of the Raskva railway, the Germans launched several attacks, some of great ferocity. Five attacks were repulsed. During the sixth a party of Germans succeeded in penetrating one of our works.

"Our troops, fighting with courage and determination, cut up the great majority of the Germans and captured the rest. The attack finally was repulsed by a simultaneous action of the artillery and infantry.

"On the front in the region of Friedelstadt there were small engagements on the Dwina river. On the left bank of the Dwina, northwest of Jacobstadt, and in the forest region of Livenhof there have been only actions by small detachments.

**Violent Fighting.**  
"Near Dwinsk, in the region east of Iloukist, furious fighting with the advancing Germans continues incessantly. After the occupation of Iloukist the Germans attempted to develop their offensive, but were stopped in the border of the forest west of Iloukist.

"Enemy attempts to make progress to the east of the village of Pochilina, and toward the south of Iloukist were repulsed.

"South of Lake Mezoum, the artillery fighting was very violent. There also were artillery duels near Lakes Demmen and Dreswiaty. On the front of Lakes Dreswiaty, Boginsky, Mladziol, Narotche and Wichnewskole engagements have occurred in many points without appreciable results for either side. Among the more important encounters was that near the village of Jostille, west of Lake Boginsky, where the enemy was dislodged. Another encounter resulted in the capture by our troops of the village of Petrouchywa, west of Koziany."

**German Statement.**  
Berlin, Oct. 26.—The official statement issued yesterday said:

"Field-Marshal von Hindenburg's troops repulsed Russian attacks south-west of Dwinsk, northwest of Dwinsk, which were captured by the Germans on Oct. 25, also were beaten back. The number of prisoners was increased to 22 officers and 3,295 men. Twelve machine guns and one mine-thruster were captured.

"Austro-Hungarian troops under General von Linsingen entered Russian positions to the west of Komarov."

**FRANZ RINTELEN AND ADAM VON WEDEL SHOT**

Two Germans Formerly in States Were Caught by British

New York, Oct. 26.—Franz Rintelen, recently resident in the New York Yacht club, German secret agent in this country, and said to have outranked the German ambassador in the councils of the imperial government, has been shot as a spy by a firing squad in London. It has been learned on excellent authority. The announcement included the statement that Hans Adam von Wedel, chief figure in the first German passport scandal in this country, had met a similar fate. The British authorities, it was said, have ruled that German spies at work in this country against Great Britain, when they fall into British hands, must suffer the same fate as those apprehended in the British Isles.

The report of Rintelen's death came coincident with the return by the federal grand jury of an indictment accusing him and Andrew D. Meloy, real estate operator, of this city, of conspiring to defraud the United States government by fraudulently obtaining a passport. They left here on August 2, on board the Nieuw-Amsterdam, of the Holland-America line. Both were seized by British officials at Falmouth, but Meloy was allowed to return, and was taken into custody by federal officers at Quarantine.

Only a Beginning.

Rintelen's identity, as well as that of von Wedel, was shrouded in more or less obscurity, but it was understood, he stood high with officials of the German government. One of the missions on which he was sent to this country was said to be to stir up trouble on the Mexican border. The return of the indictment against him and Meloy is said to be but the beginning of an investigation by the grand jury of German influence in the political affairs of Mexico and the United States.

Coming to this country first in 1906 for the purpose of studying its banking system, Rintelen had introductions, it is said, to persons well-known in society. His ostensible purpose then was to found a branch of the Bank of Berlin, the owners of which are said to have been his relatives. The following year he went to South America and Mexico in regard to the establishment of other branches there. He returned here after the start of the war, and federal agents watched him constantly, having knowledge of his high connections in Germany.

**Six Names.**  
They discovered he was known in different quarters under six different names. These, set forth in the indictment, were Fred Hansen, Miller, Muller, Edward V. Gates, Edward V. Gasche and Franz Rintelen. That he was trying to ship food supplies through Sweden for use of the German army was discovered just after the Lubiana massacre. Later representatives of the department of justice and British secret service agents, it is stated, found he was negotiating with various Mexican factions in this city. It is said he had a conference with General Huerta when the latter was in New York city last spring and stopping at the Ansonia hotel. Later General Huerta was arrested in Texas while on his way to the Mexican border.

**Numerous Papers.**  
When Rintelen, posing as Edward V. Gasche, a Swiss, was seized by the British he had in his possession numerous papers said to reveal in detail his activities in the United States.

They were perused carefully, and when their contents were communicated to Washington it is said the case instantly assumed an importance out of all proportion to the arrest of Meloy on the conspiracy accusation. Great Britain's communication on the subject to the state department caused the Mexican phase of the situation to loom large, and Felix A. Somerfield, once connected with the Madero administration and later General Villa's personal representative in this country, was summoned before the grand jury.

Other Mexicans, one of them once high in the councils of General Huerta, will go before that body soon, it is said.

Seized by Cruiser.

Two spies recently were executed in the Tower of London, and it was said yesterday that they were Rintelen and von Wedel. When on January 2 federal agents halted the Bergensford, of the Norwegian-American line, as she was outward bound through the Narrows and arrested five German reservists attempting to join their colors by using forged passports, von Wedel was on board. Some of the federal authorities knew him by sight and when he presented a Mexican passport he was allowed to proceed. Later he was apprehended in Norway, and, it is said, was being returned to this country when he was taken to a British detention camp by a cruiser.

WILL TRY FOR PEACE.

It is reported that in a short time the German emperor will be ready to intimate to President Wilson and the King of Spain, through Prince von Buelow, his most accomplished diplomat, the conditions under which he will agree to peace.

That the Kaiser will try to retire from the welter of blood which through his action has deluged Europe with the boundaries of his own country inviolate, there can be no doubt.

There is no room in civilization for the German empire as ruled by the present emperor or any of his monstrous brood. Like a plague spot the awful idea which is expressed in the most hideous record that ever blackened the annals of history must be stamped out.

WHEN HAS IT DONE SO?

Is it not a somewhat notable thing that when the Colonist urges, as it often does, the Dominion or provincial government to do certain things for the benefit of this community, it never by any possibility receives any support from its opposition friends?

It is observations such as these which make people doubt the sincerity of the morning paper. The one thing it has not done is to urge the Dominion or provincial government to adopt policies calculated to promote the welfare of the community.

For years we have been insisting upon the adoption of an enlightened land settlement policy by the government. Did the morning paper support the agitation? Certainly not.

Three years ago we endorsed the arrangement made by the local government with the railroads regarding the subdivision of the reserve for terminals and received the assurance from the morning paper that work

would be started immediately. This assurance was not carried out, and although we have pressed continually for a commencement of operations on the scale proclaimed by the company our contentions have done little else than to scold us for doing so.

DOMINION TRUST ACTION.

Action has been begun by the liquidator of the Dominion Trust against the shareholders of the company. For the purpose of the suit these are divided into three classes, against one of which the plaintiff claims the return of all dividends they have received from the company on their stock for six years prior to the collapse.

Whatever may be the legal merits of the case, all of which will be fully ventilated at the hearing, there can be no doubt that the latest turn of this twisted affair will cause much heartburning. It is bad enough for people who invested their money in the company in good faith to lose what they have put in, but it becomes doubly so when they are asked to return what their investment has earned for them in dividends.

Shareholders and depositors put their money in the Dominion Trust in the belief that the company was a sound institution conducted on lawful lines. With a trust company inspection act in operation in this province, an inspector of trust companies in office and the law firm of the Attorney-General as solicitor to the company, they had every reason to feel secure.

Had they known the true state of affairs they never would have put their money in the company. As a matter of course they expected protection under the laws on the statute books; they never dreamed that instead of obtaining that protection they were to be the victims of a proceeding which practically implicated the government in the company's frenzied manipulations.

SIR ROBERT BORDEN'S VISIT.

If Sir Robert Borden adheres to his present intention of visiting the Canadian West and addressing non-political meetings on the war he will be heartily welcomed by the people irrespective of party, as the first minister of the Dominion should be.

We hope to hear from him, however, not that Canada has an army corps at the front, another in England and more than that in training in Canada, but that this country proposes to double its contribution without delay.

Australia has more than 100,000 men on foreign service, and some reports put the number at 150,000. The state of New South Wales alone has raised 60,000. This has been done by means of a whirlwind recruiting campaign, the chief features of which were described in these columns several weeks ago.

When the Prime Minister comes we trust somebody close to him will draw his attention to the part politics is playing in the military organization in this province. It is notorious that the political machine has as much to do with the selection of officers as it has with the disposal of government contracts.

Germany intimates her willingness to indicate the terms upon which she will dispense peace. In the beginning it was world domination or downfall. Now it is not world domination; possibly it is fear of downfall.

loss of a decisive battle and the war. A serious blunder at a critical point, even though it occurred at a small fraction of the battle-line might involve the whole front. It would be a blessing in this country if meddling politicians were locked up until the war was over.

KEEPS THE TRUCE.

Commenting upon the recent by-election in Hochelaga, a constituency in Montreal, in which Mr. Patenaude, the new Minister of Inland Revenue, was returned by acclamation, the Star of that city, in some respects the most powerful conservative journal in Canada, says the incident shows that Sir Wilfrid Laurier is maintaining the party truce to which he subscribed so eloquently when the war began.

"Sir Wilfrid Laurier is to be warmly commended by Canadians of all parties—who realize that the first business of every British community to-day is to fight and win this war—for the decisive fashion in which he prevented a breach of the political truce in Hochelaga. Sir Wilfrid pledged himself to keep the truce when the first German charge scandalized the loyalists who have kept that pledge."

"He has resisted a considerable temptation in vetoing a contest at this time in Hochelaga, when it is felt by many that the ill-smelling war pursued by the loyalists has offered him an effective issue. But he believes, apparently—and we think, correctly—that the time is not yet for a discussion of these vital and far-reaching questions before the electorate. Undoubtedly, it is the duty of Parliament as at present constituted to discuss them, for this Parliament must stand until the war is finished as the trustee of the nation."

"In taking this stand Sir Wilfrid will have the support of the greater section of his own party, but of the less partisan portions of the Conservative party as well. He may not get his just meed of praise from sceptic-plants who ever worship the risen sun. From self-seekers who fawn upon the powers that be, but he will receive his reward in the esteem of all mainly men whom neither partyism nor 'patronage' can blind, and from the calm verdict of history which will immortalize the statesman who stands most steadily by the state in its supreme hour of trial."

The Brandon, Manitoba, board of education has decided to cut German from the school curriculum. This action was taken on the advice of the principal of the Collegiate Institute, who says he is convinced that for some years there will be no further use for German. This judgment is not confined to one solitary town in the province of Manitoba.

Not so long ago the Kaiser announced that he could have peace at any time. A little later he said peace would be proclaimed in October; he pledged his imperial word that there would not be another winter campaign. Probably he realizes to-day how true it is that the "best-laid schemes of mice and men gang aft aley."

Mystery surrounds the southern part of the Russian battle-line. For several nights the Petrograd official communication has been silent in regard to the offensive operations of Ivanoff's group of armies from the Pripiet to the Roumanian frontier. The last time they were referred to material progress was reported. Plainly the omission of any reference to them for several days indicates that big movements of troops are under way, probably in connection with the operations in the Balkans.

This is how the New York Herald puts the case: "Had it not been for the British fleet Germany probably would have won the war in three months. Germany cannot possibly destroy the British fleet." Sound reasoning, based on irrefragable premises. And the truth seems at last to have penetrated the dense Hunnish brain.

An American contemporary says: The monument to Edith Cavell that some day will be erected in the public square of Brussels will be a pleasant reminder to the intrepid German four-letter who may venture to show his face there a hundred years or so hence.

Germany intimates her willingness to indicate the terms upon which she will dispense peace. In the beginning it was world domination or downfall. Now it is not world domination; possibly it is fear of downfall.

CIVIL ENGINEERING AND LAND SURVEYING

Case Against C. H. Topp is Being Heard by Magistrate in Provincial Court To-day

Whether or not a civil engineer can take a contract to survey land for a customer, provided he does not himself perform the work—assuming that he is not a registered surveyor—will be argued out in the case against former city engineer Charles H. Topp, which is at hearing in the provincial police court.

Mr. Topp is being prosecuted by the Corporation of Land-Surveyors of the Province of British Columbia on a charge that on or about August 17, at or near Sooke Lake, he unlawfully carried on the practice of land surveying without being duly authorized by the corporation to do so.

James L. Raymur, city comptroller, produced the contract between the city and C. H. Topp & Co. C. H. Topp and Geo. White-Fraser, civil and mining engineers, and H. C. Land surveyors, entered into on July 17 last for the survey of the Sooke watershed.

Responding to Mr. Aikman the comptroller said Mr. Topp was a civil engineer by profession and for some years had been city engineer.

**Soldiers Entertained**—An enjoyable time was spent by a large number of the boys belonging to the 67th Battalion Western Sea, last evening when the members of the Young People's society of the First Congregational church invited them to a fancy dress social. Besides about eighty of the soldiers, there were nearly as many entertainers. The costumes were both interesting and comical. Of the Crusader boys causing much laughter mention might be made of Ross Hugh, who won the "hobby" prize as Charley Chaplin, Bill Smilie representing a clown, and Harry Clark as Marley. The best display of the evening was that of Percy Ives who passed off as a girl of eighteen. Among others taking part were Miss Grace Sykes, who won the ladies' prize representing an English peasant, Mr. Harold Davis, negress, the gentlemen's prize, the misses Mary Williams, and Bertha Nightingale as sisters, Miss Elsie Hale, Britannia, the Misses Vera Elvish and Meg Sibbald, fairies, and Percy Cull as Bicy. A programme of vocal and violin solos, followed by many games and light refreshments, brought the entertainment to a close, for which a member of the Western Sea moved a vote of thanks to the Y. P. S. which was endorsed with three ringing cheers from the soldiers.

## LOCAL BUYER HAS SUSPICIOUS OFFER

Believes German Firm is Operating From Swiss Base; Will Investigate

The efforts which are being made to secure the remnant of the decayed trade of Germany and Austria by German merchants under cover of neutral countries and by devious subterfuges, have been widely exposed in the press during the last few months, but a case in point locally brings the argument much nearer home.

A local resident some time before the war occurred desired to import Kerosene incandescent oil lamps, which as may readily be appreciated, are not common articles of commerce. He was in touch with two firms of manufacturers in Germany. However the transaction fell through, and he thought the matter had dropped. No other firms in central Europe besides those two could have had his address here.

Therefore he was surprised the other day to receive a circular, accompanied by a letter from Zurich, Switzerland, from a firm in the same way of business, in which very great emphasis is laid on the Swiss origin of the firm, and the alleged fact that the product they have to sell is of Swiss manufacture. There is evidence, however, that the circular was composed by someone whose native tongue is German, and the recipient is suspicious. He is satisfied that it is one of the German patents being used to life again, and that they are using a factory in Switzerland to make goods for export to British countries. Otherwise probably there would not be such an effort to emphasize the Swiss character of the industry.

He proposes to send the correspondence with the German firms to the department of trade and commerce at Ottawa, so that the Canadian trade commissioners on the continent may investigate the association, if any, between the two parties. It appears, however, to be a careful attempt to evade the law with regard to trading with enemy countries.

## VISIT ARCHIVES

Young People of St. Andrew's Church, at Provincial Library, Hear Story of Historical Expeditions.

The Young People's society of St. Andrew's Presbyterian church last evening visited the new provincial library by kind invitation of E. G. S. Scholefield, who gave a very interesting talk about the early history of the Pacific northwest to an audience of about seventy-five. Mr. Scholefield spoke briefly, telling in an entertaining manner something of the early expeditions made along the Pacific coast by the Russian, Spanish, and English navigators and explorers. Particularly was the literature connected with these expeditions referred to, and the principal library called attention to the fact that there were far more historical documents, charts, maps, etc., dealing with their explorations from the British than from the Spanish or Russian navigators.

With some amusement and just pride Mr. Scholefield showed what he called his "War Trophies," a Russian manuscript which he succeeded in getting out of Germany on the last day of July, 1914, just before the war broke out. This was of special value to his archives on the history of the northwest, containing a number of old Russian maps with interesting descriptive matter.

After his lecture Mr. Scholefield took the visitors over the library, showing his collection of old volumes and manuscripts. These were of great interest, and concluded a very interesting visit.

**Victoria District Epworth League**—will hold its first institute to-morrow evening in the Fairfield Methodist church. Subject will be served to the executives of that industry by a large number of the city at 8:30. It will be followed by a conference of the officers of the league, and the public are cordially invited to attend the mass meeting at 8:30, which will be addressed by Rev. Dr. C. T. Scott, of the Metropolitan church. During the evening a collection will be taken to defray incidental expenses of the district executive.

**Is Arranging Concert**—The First Presbyterian Church Athletic association is nothing if not vigorous and enthusiastic. The members, young and old, have spent the evenings of the last few weeks fitting up their new gymnasium, and have organized a number of clubs and classes which are busily engaged in various exercises and games. To enable the association to continue its work free from debt, J. G. Brown has consented to arrange a concert programme to be given on Wednesday evening, November 3, in the school room, and has already secured the assistance of a number of well-known vocalists and instrumentalists. Immediately at the close of the programme an exhibition match of basketball will take place between the senior basketball team of First Presbyterian church and one of the city senior teams.

## RETURNING SOLDIERS

Welcome Committee Has Set Meeting This Evening in the City Hall.

The second meeting of the committee that is to welcome the returning soldiers will be held at the city hall this evening. The time since Friday, when the body was organized, has been too short for any public bodies to meet and appoint their representatives, and the only response this morning to the mayor's invitation, as conveyed through the press, has been a letter from a lady and gentleman volunteering their help. In spite of this, the committee's careful explanation of the objective before the committee, as compared with any other body with similar objects, there appears to be some confusion in the public mind just what supporters of this organization will be called upon to do. They will be simply asked to act as a committee of welcome on arrival of the steamer, and as many boats have to be met, some in the early hours of the morning, a fairly large body of citizens is needed. The procedure to be adopted has yet to be determined by the committee itself. The arrangement for notice of the men arriving is perhaps the most important need, as yet, and in this respect a leaf may be taken from Winnipeg's book, and the service of the train conductors enlisted to notify the committee of the dates of arrival. Winnipeg has a system already well established, which accounts for the excellent stories sent through of returning soldiers who have recently arrived, a large contingent of wounded soldiers will be gradually beguiled to Canada in the next few weeks. The committee has seriously to consider whether it cannot render better service to the returning soldiers by a small number meeting the men than by making a demonstration for one, and the next having little notice at all. In other words organization of effort seems essential.

The question now arises as to what work will be done in 1916. A large amount was outlined by the special paving committee early this week with which it has been impossible to proceed owing to protests from interested owners, and there are many wood block pavements which have to be renewed in the immediate future.

Dealing with the first matter, as far as can be seen at the present time, the prospect for resuming operations in the immediate future is entirely dependent upon the possibility of a sale of local improvement debentures at a more satisfactory figure than at present prevailing.

To sell debentures at 15 per cent discount is not likely to be a course which will commend itself to a large number of property owners, and the demand for asphalt paving in 1916 will probably be limited. However, the inauguration of the municipal asphalt plant this year will more than justify itself in the demand for supplies to effect repairs. The mileage of asphalt streets in Victoria to-day is such that there will always be a considerable quantity of repairs to be done.

The replacement of wood-block paving in the downtown streets, notably Johnson, and in parts of Yates and Broad streets, is an urgent necessity. The condition of these streets is notorious. The city engineer has already recommended that in the former case the owners should be encouraged to pavilion for a new by-law, while in the other cases the city is compelled to put the streets in repair, which is going to bring a costly undertaking in several blocks. Johnson street, below Government, particularly demands attention because by it will pass all the heavy traffic to the western suburbs when the Johnston street bridge is built. This factor is certain to weigh in the determination as to what character the paving will take when it is laid. The city engineer seems to think that the city council will have to take the

GRACE BUYS FLEET FROM PACIFIC MAIL
Seven Steamers Change Hands in Biggest Shipping Deal Ever Put Through on Coast

One of the biggest deals in shipping on this coast in recent years was consummated yesterday by the purchase by the firm of W. R. Grace & Co. of the steamers Pennsylvania, Astor, Peru, City of Paris, San Jose, San Juan and Newport from the Pacific Mail Steamship Company.

When the Princess Maquinna leaves next she will inaugurate the winter schedule to Shagway. The steamer Princess Alice which has been operating with the Sophie through the summer will be withdrawn upon her arrival here next Monday night.

LAST OF YUKONERS COME OUT ON SOPHIA

Princess Steamer Brings South 240 Passengers; New Skagway Schedule Effective
Bringing south the last contingent of Yukoners who wish to winter in the south, the C. P. R. steamer Princess Sophia, Capt. Locke, arrived from the north last night. A total of 240 passengers made the voyage from Skagway, and while the majority disembarked at Vancouver, quite a number came through to Victoria.

Weather was Stormy.
The weather in the inside passage has been none too agreeable. The south-west winds have been ripping up the narrow channels, and in the sounds a nasty sea has been ricking the steamers.

MAQUINNA BUFFETED BY TERRIFIC STORMS

Steamer in From West Coast After Hard Run; Smoking Gale Off Clayoquot
Weather off the west coast of Vancouver Island is very tempestuous at the present time. The C. P. R. steamer Princess Maquinna, Capt. Gillam, arrived in port last night from Holberg, and her officers tell of snorting south-east gales, drenching rains and tremendous seas.

When making the run between Clayoquot and Hazelton on the way north a heavy gale was encountered. The wind was blowing along so fiercely and the rain and sleet was being whipped about with great force, and no one appeared on deck. All the way up the coast the seas continued to buffet the ship, and on the way home considerable water was shipped as she dove into the great green combers.

GALE BLEW 48 MILES AN HOUR BEFORE NOON

Strong Southeast Storm is Sweeping Coast; Heavy Seas Running; Rain is Heavy
Strong southeast gales are sweeping the coasts of Southern British Columbia today, with the sole exception of Triangle Island, where a fresh south-westerly is blowing. Victoria is getting a full taste of the gale, and for a few minutes before the noon hour the wind was blowing at a velocity of 48 miles an hour.

DONNA CONA CARRIED A CREW OF NINETEEN
Montreal, Oct. 23.—The steamship Donnacona, which was sunk by a German submarine, carried a crew of nineteen or twenty men. Her captain when she left here was A. Lawrence, of Hanover, N. S. The mate was J. Levesque, of Gaspe. The first engineer was Hugh McMillan, of Port William, Ont., and the second engineer, Herbert Barton, of Port Arthur, Ont. It is presumed that these would still be aboard her when she was attacked.

MEN RUSHED FORWARD SHOUTING BATTLE CRY

Austrians Were Unable to Check Italians; Extremely Violent Fighting

London, Oct. 25.—A dispatch to the Daily Telegraph says: The first details of the great battle which was fought for three days over 300 miles of the Italian front have been received.

A decision may be reached at three points—in the Tyrol-Trentino-Carnia region, on the Isonzo line and on the Carso plateau. The last is the most important on account of the artillery and the masses of men engaged.

When the infantry went into action, the regiments threw themselves forward with irresistible enthusiasm, raising the battle cry, "Savola, Savola!" At all points where they reached the Austrians they stamped them out completely.

The Italian fire set the woods aflame. There were fights in the midst of burning trees. Skilful manoeuvring resulted in the Italians enveloping an enemy detachment, which was blotted out.

The Austrians fought desperately, often with their infantry under a double fire, the target of their guns as well as those of the Italians.

On the Carso plateau the Italian fight and left won a great success, advancing steadily. Along a line of five miles the Austrian defense was completely broken.

Many of the Austrian taken prisoners were demoralized. Some who were found on the front said that nowhere in the great war had anything been witnessed exceeding the terror that they had passed through.

According to the statements of prisoners, the Austrian losses in the first three days' fighting must have exceeded 50,000, including several officers of the higher commands.

It is said that a number of members of the Austrian imperial house have fallen with two generals; also, that the enemy's position on the Carso plateau is now in danger, especially at Dobrovo, Margottin and San Michele.

Two arrested; one has been sentenced

London, Oct. 25.—Announcement was made officially today of the arrest of two persons, designated as "K" and "L," who are suspected of being German agents.

"K" is described as a German, and is said to have had a forged American passport. He was tried and sentenced. Sentence will be carried out shortly.

COST LESS THAN AT BEGINNING OF WAR

French Government is Not Paying So Much for Shells

Paris, Oct. 25.—The French shell makers have had some difficulty in obtaining the necessary quantities of steel suitable for projectiles. The largest iron-producing region in France is in German occupation and some production has had to be supplemented by orders abroad, chiefly in the United States.

The cost of producing shells has been reduced greatly since the war began by the immense scale on which they are produced and by the use of the most modern machine tools. The price paid for the 3-inch shells at the beginning of the war was equivalent to \$7.50.

When the infantry went into action, the regiments threw themselves forward with irresistible enthusiasm, raising the battle cry, "Savola, Savola!" At all points where they reached the Austrians they stamped them out completely.

Must be excluded, says agent-general

Ottawa, Oct. 25.—A cable to the Montreal Gazette from London says: "Mr. J. H. Turner, agent-general for British Columbia, writes the Morning Post urging that German manufactures must be excluded as far as possible in all allied countries after the war, also the export of raw material to Germany must be prevented.

On the Carso plateau the Italian fight and left won a great success, advancing steadily. Along a line of five miles the Austrian defense was completely broken.

Officially doubt case can be made out

Washington, Oct. 25.—Officials of the department of justice expressed doubt today whether the federal government can make out a case against the men implicated in the plot to blow up munitions ships sailing from the United States.

ENEMY'S LAST EFFORT, SAYS HILAIRE BELLOC

Frying to Create Diversion in Balkans Before Failure Ends All

London, Oct. 25.—Hilaire Belloc sums up as follows the military and political aspects of "the new moves in the Near East" to link up Constantinople with the central empire: 1. It is the last effort of the Austro-Germans to create a diversion before their effective begin to fail.

Movement of wheat cars likely to be checked

Chicago, Oct. 25.—As expected, receipts of wheat at northwest terminals were heavy. And were offset by unsettled weather in the Canadian Northwest, which, if continued, will tend to check the movement from first hands.

Grey's statement

London, Oct. 25.—In announcing in the house of commons that Britain's offer of Cyprus to Greece had lapsed, Sir Edward Grey said: "Great Britain is bound to use every possible effort to assist Serbia. We offered inducements to secure Greece's aid. Greece did not take advantage of the offer and it has lapsed."

U. S. Steel Corporation dividend

At the quarterly meeting of the U. S. Steel Corporation held after the close of the stock exchange to-day the directors decided not to renew the dividend for the present. It had been anticipated that a dividend of five per cent. disbursement might be declared.

SUCCESSOR TO DELCASSE NOT APPOINTED YET

Paris, Oct. 25.—The expected decision in regard to the successor of Theophile Delcasse as foreign minister was not reached at the cabinet meeting this afternoon. It is probably, however, that the decision will not be long delayed.

During the conference recently held by M. Viviani and representatives of the various political parties, a number of proposals have been advanced. This has given rise to reports that the prime minister contemplates important changes in the cabinet. There even has been discussion of a complete cabinet. It is expected a final decision will be reached prior to the meeting of the cabinet on Thursday.

TO-DAY'S TRADING ON THE WINNIPEG MARKET

Winnipeg, Oct. 25.—Wheat prices closed lower to be higher, and flax closed lower to be higher. Trading was not quite so active to-day. The export was higher. Freight rates on the lakes were somewhat stiffer to-day, while the demand for space was less keen. There was a good general trade in the cash department. The premium on No. 1 northern wheat was 1c. over October in the early hours and later to 1/2c. The grades which were most in request were No. 1 and No. 2 northern and tough wheat. In oats and barley business was brisk, and for November-shipment oats was in good inquiry.

## THREE ADDITIONAL BOUTS FOR WESTERN SCOTS' BOXING CARD

### Scott Goes Through Strenuous Workout in Presence of Large Crowd; Fight Gossip

A throng of fight enthusiasts assembled at the Panama hotel yesterday to see Cyclone Scott go through his paces in preparation for his 12-round engagement with Russ Leighton on November 2. He opened up by boxing four rounds each with Joe Bayley, a heavy-weight who is also participating in the November 2 boxing programme, and Tommy Boyce, another well-known boxer. After the 12 rounds of strenuous boxing, Scott punched the bag and skipped for 20 minutes.

Russ Leighton, who will oppose Scott, will return to the city to-day from Nelson, where he has been spending the week-end. While in the Coast City Leighton worked out with some of the boys, and is primed for the bout of his career. He will have about 30 rounds on the Cyclone in weight.

Three additional bouts have been added to the programme of events, two of the contests being between the army and navy representatives. Augustine, a member of the 67th Battalion, and a heavy-weight of some ring

ability, will take on Seaman Milne, of the navy, for six rounds. Tommy Boyce and Jack Fenton, both members of the 7th Battalion, will swap punches for six rounds in the 135-pound class, and Pte. Parsons, of the 7th Battalion, will oppose a navy representative in the 115-pound division.

The public will be admitted to Cyclone Scott's training quarters to witness his workouts until Saturday, when the door will be closed to outsiders.

New York, Oct. 26.—Dick Dillon and Charlie Weinert, light heavyweights, were yesterday matched to box ten rounds at Madison Square Garden on November 1. These bouts were recently, Dillon scoring a knockout in two rounds.

Milwaukee, Oct. 26.—Negotiations have practically been arranged for a ten-round bout between Matt Wells, of Chicago, and Charlie White, of Chicago, to be held on November 25.

New York, Oct. 26.—Owing to the fact that the Jack Dillon vs. Charlie Weinert bout is scheduled for November 1, the fight between Tom McManahan and Jim Savage, heavyweights, which was scheduled for that date at the American Sporting club, has been postponed until November 5.

## NEW MATERIAL FOR COAST HOCKEY LEAGUE

### Patrick's Flooded With Applications From Amateur Stars; Rink Almost Completed

During the past few seasons young hockey material appeared to be as rare as yellow diamonds, but this winter numerous amateur hockey organizations have sprung up, and the conditions brought on by the war, and thus plenty of young players are available. This season the Pacific coast Mogs will not make their usual recruiting campaign. They are quite satisfied with the numerous offers that have been received from well-known amateur stars from the pro ranks, but were unsuccessful. The Patrick's have been fairly flooded with applications from the pick of the amateur hockey circles, and it is anticipated that the coast clubs will be mainly made up of youngsters.

Jim Riley, an Alberta boy who played with the Calgary Vics, last winter, is anxious to come to the coast for a trial with Vancouver. Riley is said to be a speedy skater and an excellent stick handler. Mickey O'Leary and R. A. Rickey, two young hockey players who are now harvesting on the prairies, left Regina last night for a trial with one of the coast clubs. O'Leary is an Ottawa boy, while Rickey played semi-pro hockey throughout Alberta and Saskatchewan.

Patrick Makes First Move. Frank Patrick, president of the P. C. H. A., who declared war on the eastern hockey body Saturday night, has started an offensive, his first move being a splendid inducement to Cyril and Corbett Denney, who starred with the Toronto Shamrocks last winter. No reply has yet been received from the boys, but the coast board is confident that they will make the "jump."

Seattle Rink Almost Ready. Vancouver, Oct. 26.—Bringing word that the Seattle Arena is all ready for the big opening early in November, President Frank Patrick, of the P. C. H. A., arrived yesterday from the Sound city and returned to the south again last night. "We have everything ready but the installation of lights, and this will be completed this week," remarked the coast boss. "It will be one of the finest arenas in the country. We will open in Seattle about November 17, the same date on which we will open the Vancouver Arena."

### NEW TRAINING GROUNDS.

Chicago, Monday, Oct. 26.—Charles Comiskey returned from the Wisconsin woods yesterday. He was met at his office by Manager Rowland of the White Sox and training plans for the 1915 season were discussed.

The White Sox boss is undecided where he will send his ball club next spring, although he will not very likely select California again for a training camp; Rowland favors Florida, but if a suitable place cannot be secured in that state, Texas will very likely get the White Sox.

### PERMIT CANCELLED.

Toronto, Oct. 26.—The Toronto Ministerial association is being held responsible for the fact that the Ontario government has cancelled the permit to show the Johnson-Willard fight pictures under the auspices of the Sportsmen's Patriotic association, the proceeds to have been used to buy comforts for the soldiers. As a result of this action of the government the Sportsmen's association has ceased operations and will disband.

Dave Shan, a former West Indies soccer player, has transferred from the Medical Corps to the 6th Battalion.

Willie Church, former Fairfield player, is doing well at centre half with the West seniors.

## TIGHT STRUGGLE FOR BATTING HONORS IN PACIFIC COAST CIRCUIT

The Pacific Coast league closed Sunday, and the final statistics have not yet been issued.

Although Bunny Hiet of Salt Lake, is still leading the Coast league players who are new in the game, it is likely that unless he fractures, the figures made by Harry Hellman before the latter was forced to quit the game, that the batting crown for 1915 will go to the San Francisco first baseman, who has played in more games than has the Salt Lake guardman of the initial corner. Hellman has a mark of 265 while Hiet is five points below him.

Gus Fisher continues to lead the Portland hitters with 32. Gus is the only member of the team who is hitting over the 34 mark.

Averages figured on games up to and including those of Sunday, October 27, are as follows:

## REGINA WILL DEFEND THE HUGO ROSS TROPHY

Regina, Oct. 26.—When it came to a question of play or defaulting the Hugo Ross cup and the Western Canada Rugby championship, the Regina club officials, players and supporters, at a special meeting Saturday night decided to play.

At the conclusion of the meeting President Armstrong wired Joe Pryce, coach and manager of the Canucks, that the Regina team would defend the cup and championship title here Saturday, October 30, guaranteeing \$300 and 50 per cent. of the gate receipts. Calgary had made the same offer for the game to be played in the Alberta city, but this was impossible, as two of the best players would have been unable to make the trip.

## C. N. R. BRIDGE TO

### CROSS SELKIRK WATER

#### Company Asks for Approval of Plans to Be Expedited

A letter forwarded by the C. N. R. divisional engineer, D. O. Lewis, to the city council last evening indicated that the company is ready to proceed with the construction of the bridge across Selkirk water.

In his letter Mr. Lewis pointed out that the company's plans had been before the city for months, and had been sent to the departments of public works and marine and fisheries for approval. Various objections had been taken from time to time, and the company had made amending plans providing for additional openings in the bridge, for the passage of river craft, as well as the movable span in the centre. The last plan in which provision was made for a 50-foot span north of Deadman's Island, was the one which had been before the city authorities for the past 12 months.

On the motion of Alderman Todd, who said the committee of the council having the matter in hand was not to blame for the delay, the communication was referred to the same committee, with direction to make a report as soon as possible.

#### WANTS BRIDGE BUILT

Esquimalt Urges Government to Take Action at Once, or Provide Temporary Bridge.

The Esquimalt council last night passed a resolution urging progress in connection with the proposed Johnson street bridge. The matter was discussed very fully, and formed the main business of the fortnightly meeting of the council. All the councillors were in accord that the bridge connection with Victoria West and Esquimalt is very badly needed. The resolution reads:

Whereas no progress towards the construction of the proposed Johnson Street bridge is apparently being made, and as the delay is causing much hardship and inconvenience to the people of Esquimalt and Victoria West:

Resolved that, in the opinion of this council, no further time should be lost, and that the matter be brought to the attention of the provincial government, requesting that influence be brought to bear on all interested parties, and that, if it should be found impossible for the present to carry out the proposed plans, then to arrange, if possible, for the immediate construction of a temporary bridge, and thus relieve the long suffering people of this end.

The council also conducted the usual routine business, and referred a report for road repairs on Williston street to the road inspector.

#### 50¢ FOR A PINE FOREST

People with bronchitis, asthma, and lung troubles benefit very much by living amongst pine trees. Why? Because they breathe the healthy aroma of the pines. Peps contain beneficial pine essences, together with their medicinal ingredients; and for 50c, you may bring into your home a veritable pine forest. Peps are tablets made up of Pine extracts and medicinal essences, which when put into the mouth turn into healing vapors. These are breathed down direct to the lungs, throat and bronchial tubes—not swallowed down to the stomach, which is not ailing. Try a 50c box of Peps for your cold, your cough, bronchitis or asthma. All druggists and stores or Peps Co., Toronto, will supply

## PASSES RESOLUTION CALLING FOR RETURN

### City Council is to Receive Formal Report on Johnson Street Bridge

The city council decided last evening to have a return made up to November 29 of the negotiations with regard to the Johnson street bridge, to be reported to the council on December 13 for the information of the incoming council.

Alderman Todd introduced the resolution, which Alderman Dilworth seconded, and the motion was adopted unanimously. Alderman Todd stated that the proposal would greatly accelerate progress on the matter.

The council passed a motion to appoint a committee of three members, with the city solicitor, to draft a suitable plan in keeping of the various city rolls in uniformity, so that the descriptions of real estate may coincide with those in the land registry office records.

Alderman McNeill, who had introduced the resolution, stated that the motion was necessary to clear up ambiguities, and to assist at times when the city had to give title to property after a tax sale.

"It seems to me, you are getting too many committees, and I don't see the necessity of the resolution," said Alderman Dilworth, who believed that such adjustment could be readily effected.

"There has been a conflict of opinion between the assessor and collector," asserted Alderman McNeill in reply.

The motion was then carried, the committee to be composed of Aldermen McNeill, Okell, and McCandless.

In connection with the negotiations for the appropriation of a lane through Block W., Leonard C. Mills wrote with regard to the property of Mr. and Mrs. A. Morris and Mr. Cookson.

Mr. Mills asked for remission of the taxes on the property expropriated by the city, but not taken over, for the years from 1912 to 1915 inclusive, and \$300 paid as compensation for loss of tenancy, etc. The lots face on Quadra street. If the council would accept terms that would agree to repeal of the by-law.

The council declined to accept any responsibility for the payment of compensation to the claimants out of general revenue, and will state that if the owners insist on the money being paid, the work should continue as one of local improvement for which the owners should pay themselves.

It was resolved to comply with the request of the oak bay municipality to embody in an agreement the verbal arrangement made in July to reduce the price of water to the district council from ten to six cents per thousand gallons.

The letter was referred to the water commissioner for a report to the finance committee next Monday.

The mayor thought there ought to be some higher price in order to provide for the cost of larger mains which installation became necessary.

## SOLDIER WRITES OF NO. 5 BASE HOSPITAL

### Rev. Dr. Campbell's Son States in Letter That He is Among Friends

Rev. Dr. Campbell, chaplain of the 20th Regiment, Gordon Highlanders of Canada, had a letter yesterday, under date of October 5, from his son who is now at Shorncliffe. One paragraph of the letter in particular is of special interest in view of the much-discussed movements of the No. 5 Base Hospital which left here not many weeks ago. This is as follows:

"No. 5 Hospital Corps, with Lt. Col. Hart in charge, took over the hospital yesterday, and I am more or less among friends. There are many of the corps that I know personally, and several of the doctors and nurses I know by sight."

"There is no doubt but that the unit will do the work for which it was organized. The disorganization is only temporary, and was decided on only for temporary reasons, one being that it would give the surgeons and other medical men the advantage of experience in English hospitals where the work is splendidly organized. The nurses, in the interim until orders are received to move to the front, are gaining useful experience also, and at the same time giving service of the kind which they volunteered for. The unit is not demobilized, however, but only scattered, and the whereabouts of all its members are known, so that it can be brought together at short notice and made ready to operate as a complete hospital corps whenever required."

No. 4 General Hospital, raised in Toronto, and which left Canada as long ago as May last, is still, it is understood, at the Canadian base in England awaiting orders for service either on the Continent or in England. So it is not probable that No. 5 Hospital, the younger organization, will be called on for some time.

Magistrate—"And what was the prisoner doing?" Constable—"E were 'avin' a very 'eated argument with a cabdriver, yer worship." Magistrate—"But that doesn't show he was intoxicated." Constable—"Ah, but there wasn't no cabdriver there, yer worship."

## WOMAN IN BAD CONDITION

### Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt. — "We have great faith in your remedies. I was very irregular and was tired and sleep all the time; would have cold chills, and my hands and feet would blot. My stomach bothered me, I had pain in my side and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me."—Mrs. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine  
It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Considerable development work is being carried on in the north of the province by the interests headed by D. A. Thomas, former member of the imperial parliament, and now in this country as a member of the munitions committee. These interests, it is worthy of note, have not asked anything from the provincial government.

Charles F. Law, the representative of the company in British Columbia, has returned to Prince Rupert from Peace River Crossing, where he has been spending two months inspecting the work being done. He found that the steamer which is being built at Peace River Crossing to ply between Hudson's Hope and Vermilion Chutes is now nearing completion. It is proposed to build another steamer next year for service on the Peace between Vermilion Chutes and Smith's Rapids.

By the year 1917 it is proposed to put another steamer on the northern waters to ply between Vermilion Chutes and Herschel Island, at the mouth of the Mackenzie river. Electric car lines are to be built at Vermilion Chutes and Smith's Rapids. The company proposes to build the line at the former place next year, the right-of-way having been cleared this year.

## DEVELOPMENT WORK ON PEACE RIVER LANDS

### The D. A. Thomas Interests Are Doing Much for Province Quietly

A reconnaissance is now being made for the Athabasca and Vermilion railways between Athabasca and Fort Vermilion. This will be completed next month. A road from near the mouth of the Naas river to Prince Albert is also contemplated.

Mr. Joseph Johnson, 526 Broome St., New York, writes: "Over twenty years ago eczema appeared on my hands and face. I went to a doctor, but his treatment afforded only temporary relief. Finding medical attention and treatment of little avail I commenced to try first one and then another of the so-called remedies which were recommended, but for over twenty years I suffered from this painful, humiliating disease. During this time I spent hundreds of dollars and all I got was temporary relief. At last Zam-Buk was suggested to me. I decided to give it a trial, but did not expect a cure.

The first few applications proved this remedy entirely different to the scores of preparations I had used in vain. Perseverance with Zam-Buk and Zam-Buk Soap, I am more than glad to say, has effected a complete cure.

"Zam-Buk is beyond all question a marvellous preparation and I most heartily recommend it to all sufferers from eczema."

Think of it, suffering day in and day out for twenty years! Think of the grip this disease must have had on the entire system! Think of the healing power of Zam-Buk which, despite the long-standing nature of the disease, effected a cure! How much more easily and more quickly the cure could have been effected had Zam-Buk been applied at the outset!

If you suffer from any skin disease or injury, pimple, ulcer, abscess, rheumatism or sciatica, take this lesson to heart. Try Zam-Buk first and give it a fair trial.

Decision of Mr. Justice Macdonald on Question of Security for Costs.

By a decision given in supreme court chambers in Vancouver by Mr. Justice Macdonald a new principle in law has been established in this province. Charles McBride, through R. W. Eyre, has an action pending against M. R. Anthony et al to recover moneys paid for the purchase of a one-eighth interest in 29 acres of land in Burnaby valued at \$22,000.

It is alleged by the plaintiff that it was represented to him that railways and tram lines would be constructed adjacent to the property, and it is further claimed that the land is not as represented. Mr. Eyre is asking for his client a cancellation of the agreement and the return of the moneys, \$2,245, paid the defendants.

A. C. Brydone-Jack, for the defendants, made application to have the action set aside, but failing in this, he moved for security for costs on the ground that the plaintiff resides outside the jurisdiction. To this the plaintiff replied that he possessed sufficient assets within the jurisdiction.

Mr. Justice Macdonald, in giving his decision, was of the opinion that it was not necessary for the plaintiff to put up any further security.

This decision, it is said, establishes the principle in British Columbia that the subject matter of litigation can be used for security for costs in an action to recover money paid on a contract subject to that security.

## MEMBER LOSES CASE

H. E. Forster, M. P. P., Has to Pay Large Amount to Farm Laborer for Arrears.

Judgment has been given in a law suit of great interest in the upper Kootenay, in which the defendant was H. E. Forster, M. P. P. for Columbia, and the plaintiff, Guy Fay, who has worked as a laborer and ranch foreman at Mr. Forster's ranch at Willard since 1907.

Mr. Justice Macdonald, who heard the case, ordered the defendant to pay to plaintiff the sum of \$2,827. This amount represented various arrears and disputed claims for wages since 1910, the principal amount in dispute being a claim for extra wages while laying out and superintending the construction of a seven-mile irrigation ditch. The judge upheld Fay's contention that he was to get \$1.50 a day extra for this work, but disallowed a number of days claimed for.

Soon after the case was entered in the courts the plaintiff got a default judgment, but on application the case was reopened and the defendant given leave to defend on payment into court of the full amount of the judgment claimed. This sum will be paid out to the plaintiff.
