DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(2) When we visited Sfc Sartain of the Y.P.M. on July 17, the cases were already turned over to the 4 4 C.I.D. On the same day, we visited Messrs Hautley and James, agents of the 44 CID and expalined the developement of the cases up to the time. They said that the CID's examination of the cases having been transferred to them from the Y.P.M. Hq. calarified the sugar held by the Chinese was purchased from O.S.S. legally and there was neither facts of alleged violation nor illegal sale to the Japanese. In near future the sugar was to be returned to the owner. However, as Japanese could not purchase it from Chinese, so EIA was to refer the Japanese suspects to the public procuratpr after examining of them. Furtherly, the seized goods of the Japanese suspects had nothing to do with the arrested Chinese,however, as they were illegal goods, CID could not dispose of them of its own accord, the goods would be sent to the distribution agency of the Japanese Gov't, waiting for the EIA's reference of the cases to the public procurator. They returned the "Report of Confiscated Goods", which were submitted by the suspects to Y.P.M., for the receipts.

(3) This office is now preparing to take procedure for prosecution of the cases, attaching the receipts compiled by the Hq. for the receipts.

Closed at 3:30 p.m.

Place : EIA conference room.

Attendants : A chairman and 14 others.

(1 absentee out of 16 members)

Agenda :

(1) Matters reported

a) Report on the result of the inspection of soda.

EIA Material Sec. I Chief explained the result of the inspection of demanding quarters of soda ------- In examining the relation between the coupons issued and real transactions, it was revealed that out of 248 ton handled by wholesalers in the past 1 year, 192 ton of spots was received and of remaining 56 ton, the right of receipt of 45 ton was entirely waived. The stock on hands of makers was 748 ton as of the end of April, this year. When this was viewed from the standpoint of transactions, there were some receipts not reaching to the amount described on coupons, while there were transactions disregarding coupons. Thus, coupons were almost ignored in real transactions. As for the returning of coupons to makers, it was disclosed that minimum was zero and maximum 179%. The coupons backed by the treasury subsidy has now become meaningless.

(2) Matters conferred

a) Inspection program for the 1st and secondary processing of staple food.

Discussion --- EIA Food Sec. Chief prefaced that the above inspection had been already started, explained the draft program in details and asked the approval and cooperation of attending members.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Decision ------- All the attending members approved the draft program without any objection.

(3) Liaison and familiar talks

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Illegal transaction of gasoline

16 May '50

(reported by Kanagawa EIA)

This case was uncovered by the Shizuoka EIA when they were checking stocks of oils at the Iwata,Kakegawa area

The consigners of gasoline are Mr.Tsugio Nakajima(38 years old),President of the Nakajima Industry Co. at Hiratsuka city, and Mr.Susumu Nakajima(19 years old),brother of Tsugio. Those two were arrested by the Shizuoka Procurator and are under investigation,but the suspects have not confessed yet. Therefore, the Kanagawa EIA was asked by the Shizuoka EIA for further investigation to get another evidences.

It was revealed by the K EIA that the source of illegal supplies of gasoline is the Shirai Road Construction Co. in Yokohama,who is a general contractor for the Occupation Forces. In general,gasoline coupons for construction work are being issued by the SPB Yokohama,and coupons for transportation by the Land Transportation Control Office. The Shirai Co. has got 144,060 ltr. of coupons issued by SPB during Apr.'49 to Apr. '50 for construction work and 122,217 ltr. by the Land Transportation Control Office during Jan.'49 to Mar. '50 for transportation work.

Check was made at the designated oil dealer,Yutaka Firm,where transaction s were conducted.

Nakajima recieved 75,710 ltr. of gasoline from the Yutaka Firm with coupons which were illegally sold by Mr.Naotada Yokokawa,Material section chief of the Shirai Road Construction Co.

Nakajima recieved illegal gasoline as follows:

Period From	To	Times	Amount	Recieved by	Remarks
20 July '49	5 Sept'49	6	19,440 ltr.	tank car	sent to
after 5 Sept '49		38	56,270 ltr.	drum containers	Shizuoka
			75,710 ltr.		

Mr.Yokokawa was arrested by Kanagawa EIA on 17 APr.'50 and transferred to Shizuoka EIA,while his office was searched on 18 Apr. '50.

Thus,all cases were turned over to the Shizuoka EIA with statements and documents concered. Furthermore, it is expected that some officials of Yokohama S.P.B. will be involved, who might committed economic and criminal violations.

2. Place : EIA conference room.

3. Attendants : A chairman & 12 others.

(No absentee).

4. Agenda :

(1) Matters conferred

a) Program for carrying out investigation into violations forcused on rice.

EIA Food Section Chief explained the outline of the program and requested the attending members' approval. At the same time, he reported that the control of staple food had been and was being carried out, and this time the control was to be attached importance to rice, as rice now took weight, following to the enforcement of distribution of staple food excl. rice for business use.

Next, EIA Surveillance Sec. Chief expalined concrete detailes of execution and requested coopererations of the police.

Decision - The council approved the draft program without any objection and promised for cooperations. As a rule, reference of violations to the public procurator and disposal of goods will be executed by the police.

(2) Liaison and familiar talks

A) Re essential for enforcement of the examination in accordance with the Temporary Restaurant Control Law.

EIA Food Sec. Chief reported that this examination will be carried on in parallel with the before mentioned program and requested the members' cooperations.

Next, on request by the police to make the interim report, he answered that no malicious violation hadbeen found heretofore.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

B) Re investigation of illegal receiving of staple food ration.

EIA Food Sec. Chief reported that there had been no malicious violation, while rejection of receiving was appearing.

C) Others.

a) Possibility of rifting of control over "miso", "soy" and amino acid.

EIA Food Sec. Chief explained that the news articles on the matter had no grounds and opinions were exchanged among the members about this problem.

b) Allocation of staple food for business use.

EIA Food Sec. Chief reported that authorized allocation of staple food for business use in accordance with the revised Temporary Restaurant Control Law was started from the beginning of June. 750 tons were allocated to this prefecture, however, it was anticipated that partial rejection of receiving maight happen. The reasons are: 1) Traders depend upon purchase of balckmarket staple food in apprehension of tax to be levied; 2) Staple food of inferior quality with small production loss margin will be distributed.

c) Re information for violations on sugar.

EIA Surveillance Sec. Chief requested to the members that EIA wants some good informations on the above, since Central EIA is now working out a nation-wide investigation program for sugar, because there are now symptoms of happening of criminal cases such as forges of sugar coupons. Informations & opinopns were submitted from the attendants.

d) Re reorganization of the police structure.

The matter of reorganization of economics section of every police of autonomous entities was talked. The detailes of the section were explained by the police concerend.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(3) Real condition of management of producers and sellers.

The crisis of the medium & small size enterprises appears remarkably in this business circles.

Owing to difficulty in management they are under the condition of natural selection and influenced badly by the concentration production.

(4) Re the result of the examination.

As the result of accelerated exchange of coupons into spots, sale contract of 15,000 pounds of fishing materials was realized towards May 25, which is equal to 10% of total supplementarily issued coupons in the 3rd & 4th quarters. By the way, the violation on route and prices of the Kanagawa Fishing Materials K. K. is now under investigation.

c) Re the result of the investigation of inventory of incentive goods for quota delivery of rice & sweet potatoes produced in 1949.

d) Re revision of the Economic Investigation Coordinating Council Rules.

EIA 1st Div. Chief reported the points of the above rules revised on May 24 by the Director-General EIA's Instruction No. 2.

(2) <u>Matters conferred</u>

a) Re partial revision of the Rules for Management of the Kanagawa Prefectural Economic Investigation Coordination Council.

EIA 1st Div. Chief reported that the above rules were partially revised and requested the approval of the revised part.

Decision - All members approved this without any objection.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

b) Re disposition of rejected supplementary ration of staple food for labour.

EIA Food Sec. Chief's inquiry---- Non-receipt of supplementary ration of staple food for labor is happening. As this ration can be received without the limit of the passing of time, this cannot be disposed as rejection. EIA wants opinions of what measure be taken.

Food Office's answer --- According to the memorandum of the Food Agency issued this time, supplementary ration for labor is based upon the actual record. This record is fixed every 2 month. If this ration is not received over two month, this will be come to close, accordingly there will be no trouble. If good operation on distribution is made, such phenomenon of rejection will be minimized.

1. 32nd meeting of the Kanagawa Prefectural Economic Investigation Coordinating Council (Sub-committee).

1. Date : Apr. 27th (Thurs.) 1950 Opened at 1:00 p.m. Closed at 3:30 p.m.
2. Place : EIA conference room.
3. Attendants : A proxy of chairman and 13 others.
   (4 absentees out of 18 members)
4. Agenda :

(1) Matters reported

a) Interim report on the special investigation of fertilizer.

EIA Material Section No. 2 Chief reported as follows:

a) Though the Showa Electric Industry Co., Ltd. is listed as top-ranking both in scale and in productivity among the electrolytic plants, its operating rate was at the minimum level. This was exclusively resulted by the unsmooth supply of electric power. The special distribution of electric power is the key to increased production.

b) The allocation of electric power to the Co. from Apr., 1949 through Mar., 1950 was not more than 59% of applied volume. By this allocation, the Co. can only secure an annual output of 100,000 ton.

c) The Co.'s production material unit is lower than the standards fixed by the Ministry of International Trade & Industry. The consumption of production materials is being made effectively. Especially, the Co.'s production material unit of coal is low, which indicates the Co. is making good heat control.

b) Re rejection of receiving of staple food ration.

The Pref. Gov't's report - The description & quantity of rejected staple food from Aug. 1949 through Mar., 1950 were 83.544 ton of rice, 882.672 ton of wheat, barley & flour, 958.555 ton of potatoes, sweet potatoes & processed potatoes, 9.584 ton of beans, 0.196 ton of cereals, 0.097 ton of corn,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

109.158 ton of mailo, 0.006 ton of canned foods - totaled 2,043.810 ton.

c) Re results of the inspection of petroleum products.

There were disclosed pretty large number of advanced borrowing of petroleum products, especially of heavy oil in the largest. This was generally caused by the retard of issueance of tickets and shortage of allocated quantity.

(2) Familiar talks

a) Re change of fish prices and receipt of goods after the abolition of the control.

EIA's official's report - The price of fishes sky-rocketed for a while after the abolition of the control. At present, however, the price of popular fishes is below the former official price. The receipt of the goods from Apr. 1 through around 9 was in low ebb. But, it tends to increase gradually thereafter.

b) Re control of restaurants.

N.R.P.'s report - The total number of control by the police of autonomus entities in this prefecture (excl. N.R.P.) in April was 363 cases, out of which 25 cases were of violations and 23 cases were referred to the public procurator.

In this connection, each municipal police officials explained in detail on its controlling sutuation.

(The end)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

2. 33rd meeting of the Kanagawa Prefectural Economic Investigation Coordinating Council (Sub-committee).

1. Date : May11st (Thurs.), 1950 Opened at 1:00 p.m.
Closed at 3:30 p.m.

2. Place : EIA conference room.

3. Attendants : A chairman & 12 others.
(4 absentees out of 17 members)

4. Agenda :

(1) Matters reported

a) Re partial revision of the Economic Investigation Board Law.

Mr. Hayashi (EIA 1st Div. Chief) explained the revised law passed by the Diet on May 2 and to be enforced on May 10 in contrast with the former law.

b) Re partial revision of the Temporary Restaurant Control Law.

The EIA Food Section Chief explained the points of the revised law promulgated and enforced with Law No. 115 on Apr. 30.

a) The effect of the law was extended until May 1, 1951.
b) The meaning of the designated staple food was revised. Staple food to be obtained legally, that is, allocated for business use is not the designated one. The staple food other than rice will be allocated. The s
c) The light restaurant can sell "sake".
d) If customers provide coupons at first at meal coupon restaurants, noodle coopon retaurants, of hotels for meal service, they can request second helping without coupons.
e) If consumer processors of "sushi" sell sushi, they are regarded as non-lisenced operators.

c) Re results of the investigation of fertilizer.

a) Though the plants by electrolytic method are planning the cut-down of production cost, the electric power situation is the bottleneck.
b) The rationalization of the plants by gas method is hindered by the high-priced coal.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

e) The fertilizer is being stockpiled owing to the farmers' declined purchasing power.

d) Allocation business in this prefecture is not being made smoothly.

(2) Matters conferred

a) Re program for the investigation into illegal receiving of staple food ration.

Discussion - The EIA Food Sec. Chief explained the draft program and requested the attending members' approval.

Decision - Every member approved the draft program without any objection.

(1) Period of enforcement.

May 1 - 30, 1950.

(2) Objectives.

Material ------ staple food.

Persons ------- Receivers of supplementary ration for labor.

3. 34th meeting of the Kanagawa Prefectural Economic Investigation Coordinating Council (Sub-committee).

1. Date : May 25 (Thurs.), 1950 Opened at 1:30 p.m. Closed at 3:30 p.m.

2. Place : EIA conference room.

3. Attendants : A chairman & 14 others.

(2 absentee out of 17 members)

4. Agenda :

(1) Matters reported

a) Interim report on the investigation of illegal receiving of staple food ration.

The EIA Food Sec. Chief's report - There was found out no deliberate malicious violation. Family members of round year staple food holding farmers or of partly staple food holding farmers working at factories, plants, or other working places were receiving supplementary ration of staple food for labour equal to the distribution standards for ordinary consumer family.

Besides, there was found faulse report of sorts of profession. Furthermore, there was so-called "friendly distribution" (distribution by favoritism to unqualified persons at working places), however, it is doubtful that this be regarded as violation.

N.R.P.'s report - Recently violations on large scale were found out.

(2) Matters conferred

a) Program for the investigation of the inventroy of incentive goods for the quota delivery of rice & sweet potatoes produced in 1949.

Discussion - The EIA Section Chief in charge explained the draft program and requested the members' approval and cooperations.

Decision - Every member approved this program without any objection.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

a) Period of enforcement.

May 22 - June 12.

b) Places to be investigated.

Joint receiving organs (commercial and agricultural Cooperative ass'ns)

Retailers.

b) Program for inspection of fishing materials.

Discussion - EIA Sec. Chief in charge explained the draft program and asked every member's approval.

Decision - Each member approved the program without any objection.

a) Period of enforcement.

May 15 - June 15.

b) Objectives.

Manufacturers and sellers of roped wire and manila hemp fishing net.

(3) Others

A) Re control of the third nationals.

What measures is to be taken by the police against flagrant offenses of the third nationals was conferred. On the above, further study was to be made for appropriate decision.

Subject: Results of the Special Investigation of Fertilizer

Sir:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

REPORT

RESULTS OF THE SPECIAL INVESTIGATION OF FERTILIZER

1. Period of the investigation

Feb. 15 - Apr. 30, 1950.

2. Objectives investigated

Producers ..... The Kawasaki Plant of the Showa Electric Industry Co., Ltd., the Yokohama Plant of the Nittoh Chemical Industry Co., Ltd., and the Koyasu Plant of the Nihon Steel Pipe Co., Ltd.

Consumers ..... Designated dealers and receiving farmers.

3. Points of the investigation

a) Investigation into the real condition of fertilizer producing plants.

b) Farmers' demand, distribution, and rejection of spring fertilizer.

c) Handling of the spots by designated dealers.

d) Violations by brokers and persons concerned with fertilizer business.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

4. Matters clarified by the investigation

1) Since 1949 fiscal year, the spots allowance to and removal by employes did not happen.

2) It was uncovered that fertilizer was neither sold to the other than the Kodan nor bartered with secondary materials or agricultural products.

3) There was no shipment of spilled fertilizer disguised as legal products or mixed with legal ones. However, suspension of purchase of spilt fertilizer by the Kodan caused increasing stocpile month after month. As of the end of March, the Showa Electric Industry Co., Ltd. had 55 ton of spilt fertilizer on hand and the Nittoh Chemical Industry Co., Ltd. 20 ton, whose qualitative deteriolation is grave concern.

4) As for the quality, more than 20.6% (the present guaranteed ingredient of ammonium shlphate) is maintained. Especially, the Showa Co. is making efforts to raise the secured ingredient up to 21%.

5) Resulted by the inspection, packing weight was not appropriate. The investigation also revealed that 6 bags out of 10 shipped by the Nittoh Co. were short in weight. At the Showa Co., non-attachment of security labels to 50 bags was found put. The above facts seem due to the sub-contractors' irresponsibility to and unskilled handling of the packing and shipping works commissioned to them.

6) In circulation, the quantity distributed by the Kodan was only 53% of the received from the plants. It is noted that

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

the spots are stockpiling in the form of goods left to the Kodan or to the designated dealers. This was caused by the decline of the farmer's purchasing power and increased production of fertilizer.

Besides, the above quantity distributed was merely the one delivered to the designated dealers by the Kodan and not distributed to the farmer.

7) The allocation business of fertilizer by municipalities in this prefecture was not speedily made. The budgetary and personal bottleneck had to do with it, and, on the other hand, the complicated procedures for allocation should be taken into consideration.

8) Most of distribution by designated dealers is not made to individual farmer, but to a village in unit. Accordingly, farmers cannot necessarily secure the distribution persuant to the allocation standard. Furtherly, the poor management of the agricultural cooperative ass'n is cooling eagerness towards performance of the distribution business.

9) The survey of farmers' demand as the basis of the allocation of spring fertilizer in this year (carried out Sept. last) cannot be admitted to be accurate by the reasons of technical incompleteness, entry by proxy and not urging of collection of reports from non-reported farmers. The allocation to farmers reached 71% on an average of the demanded quantity appeared in the investigation. However, there were instances that the spring fertilizer was consumed as autumn fertilizer and the partial unbalance was seen.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

10) In the distribution, no notable violation was disclosed. Rather, the stockpile was sharply increasing. This stockpile is not delivered as yet owing to farmers' refraining from purchasing until the beginning of June, that is demand season of fertilizer, plus the decline of their purchasing power. For example, the Hodogaya Agricultural Cooperative Association's not-yet-distributed quantity reached to 6,559 kan out of 8,491 kan received in the latter period of March.

II. Dates of meetings or coordinating council, degree of attendance and subjects reported upon or discussed ; conclusion reached

The 30th meeting of the Kanagawa Prefectural Economic Investigation Coordination Council (Sub-committee)

1. Date : Mar. 29 (Wed.), 1950 Opened at 1:00 p.m. Closed at 3:30 p.m.

2. Place : Conference room of the Kanagawa EIA.

3. Attendants : A chairman and 16 others.

Degree of attendance --- 1 absentee out of 18 members.

4. Agenda :

(1) Matters reported

a) Re the result of the investigation of inventory of sugar being held by the ~~Foodstuffs~~ grocery Distribution Kodan.

Content: 1,343,520 kin of crude sugar, 2,573,085 kin of crystallized sugar, 6,635,356 kin of refined sugar and 872,346 kin of indigenous sugar - total 11,424,307 kin -were stocked as of the end of February. If the already established program of 80% exportation to other prefectures and 20% consumption in this prefecture be carried out favorably, there will be no stockpile.

b) Supply and demand of galvanized iron sheet.

Content: The difference between official price & blackmarket price became very small. Neither illegal diversion nor unlawful transaction was found at all.

c) Interim report on the investigation of chemical fertilizer.

Content: The decline of farmers' purchasing power was indicated in the phase of sharply increased utilization of agricultural bills. (While the amount was about ¥200,000 last year, it reached

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

more than ¥2,800,000 this year.) The effect of the consumption of fertilizer upon future agricultural production deserves careful attention.

(2) Matters conferred:

a) Re the investigation of refused staple food of ration.

Discussion: By investigating the causes of rejection of rationed staple food and disposition of disqualified goods, adequate management of staple food distribution must be worked out.

Decision:

1) Goods to be investigated.

a) Foodstuffs rejected since Jan., 1950 inclusive

b) Other foodstuffs not adequate for meal.

2) Objectives to be investigated.

Prefectural Gov't, Food Office, Food Distribution Kodan and civil bodies connected with them (plants, establishments, schools, hospitals and receiving persons)

3) Points for the investigation.

a) Conditions of custody.

b) Reasons for occurance of disqualified goods.

c) Reasons for rejection.

d) Steps taken to damaged goods.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The 31st meeting of the Kanagawa Prefectural Economic Investigation Coordination Council (Sub-committee)

1. Date : April 13 (Thur.), 1950 Opened at 1:00 p.m. Closed at 3:30 p.m.

2. Place : Conference room of the Kanagawa EIA.

3. Attendants : A proxy of chairman and 14 others.

   Degree of attendance --- 3 absentees out of 18 members.

4. Agenda :

(1) Matters reported:

a) Interim report on the examination of petroleum products.

Delivery in advance decreased sharply.

b) Interim report on the special investigation of fertilizer.

c) Re consumer processors of "sushi".

The conditions of arranging their shops were explained to council-members.

d) Re free price after the abolition of the control over fishes.

From April 1st, on which the control over fishes rescinded, to Apr. 8th, the free price of fishes boosted twice as high as the official price at the time of abolition. Thereafter, however, it was on the decline.

(2) Matters conferred:

a) Program for the examination of inventory of the Food Distribution Kodan.

b) Program for the examination of inventory of Oilstuffs Kodan.

Both the draft programs were approved without any objection.

V. Statement as to degree of cooperation given by other Enforcement Agencies

1. On the survey in making sure whether exporters' shipment of cargoes corresponded with their reports, the Surveillance Section of the Yokohama Costums gave us great convenience in quickly adjusting documents concerned.

2. The Marine Transportation Agency, the Road Administration Agency, the Materials Adjustment Agency and the Commercial & Industrial Materials Office gave us positive cooperations by submitting documents concerning allocation of petroleum products and other data, which contributed much to our drawing up of the complete program for investigation of petroleum products.

V. Statement as to degree of cooperation given by other Enforcement Agencies

1. On the survey in making sure wether export goods were actually loaded on ships, the Yokohama Customs gave us great convenience in quickly adjusting documents concerned and in checking over them.

2. In the investigation into disguised transportation of staple food, the municipal police in Yokohama and Kawasaki cooperated with us positively. The disclosures were as follows:

a) At Yokohama and Higashikanagawa Railway Station.

Rice ---------- 33.6 kgs

Beans ---------- 305.94 kgs

b) At Kawasaki Railway Station.

Red bean --------- 15.84 kgs

The disposition of the above goods and persons concerned with were turned over to the competent police.

3. In investigating of non-lisenced restaurant operators, 40 suspects were disclosed in 3 areas outside of Yokohama with the aid of police. The cases were transferred to the competent police at Yokohama, Kanazuru, Oiso and Odawara.

4. When blackmarketeers of soap in Shinshuku Market of Hiratsuka City, a police inspector of Hiratsuka City gave aid to our investigation.

16 MAR 1950

A conference was held at the Kanagawa E/A in regards to the distribution of controlled items and enforcement of economic control laws in Kanagawa Prefecture with the attendance of NRP and Yokohama M/P. It was reported that (1) during the period from 1 to 15 Mar. '50, 20 and 60 violation cases were discovered by MP and NRP respectively in restaurants and (2) from 15 Jan. to 2 Feb. '50, 17,257 kg of staple food was impounded in train checks. These figures express economic regulations being enforced by respective authorities concerned. But nevertheless many open violations by various restaurants, street stalls, wagon stalls and customer processers were noticed by spot checks made in Kanagawa Prefecture on the previous day.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 75013

In order for OD the police, to make checks easier, kinds of violations prevailing were explained, for instance, such as unlicensed restaurants, staple food serving light restaurants, or those not in compliance with the minimum requirement of sanitary regulations. Also it was pointed out that despite of many train checks and station checks rice carriers into this prefecture are still operating utilizing Chuo Line, Hachioji Line, Jinchu Line or ferry boats between Chiba Prefecture and Yokohama and that train checks are never made at some stations. It was requested that the police with coordination of E/I and other enforcement agencies take more strict control against violations by restaurants, carriess, processers like "sushi" shop or "senbei" factory.
