BUSINESS CONDITIONS. PLEASE READ CAREFULLY.

TERMS on Florists' stock: To customers of approved credit, 60 Days, except on certain Cash items. Special 3 per cent. discount for cash in Ten days (from these list prices only) not from the "Special" quotations and excepting Net Cash Items.

New Accounts: New customers, if not already well-known, will please send cash with first order if desiring to open an account send good references, property statement or other information concerning their commercial standing as they may be able to furnish. This will avoid delay which is very annoying. We cannot be expected to ship goods to those whose good standing is not known to us. For reference please name wholesale seedsmen or other well-known business men with whom you have had dealings—such information will be held in confidence.

Our Responsibility: While we always aim to have the best SEEDS, BULBS AND PLANTS which each season affords from reliable houses, we cannot and do not guarantee any of them to flower or produce a crop of flowers at the price given, or will we be responsible for the crop. We assume our customers to be acquainted with

these conditions and if the stock is not accepted on such conditions it must be returned at once and any money paid will be refunded. Live plants and like perishable stock should be sent by express; we cannot assume any responsibility whatever for safe arrival when ordered by freight. The remedy for loss must lie between the buyer and the Railroad Company, but we will gladly render all the aid we can.

We prefer not to send goods C. O. D., but when wanted in that manner some money must accompany order. PERISHABLE stock, plants, etc., are Positively NOT SENT C. O. D.

LOW EXPRESS RATES ON PLANTS.

We ship plants by all express lines to any part of the country. Under the ruling of the leading express companies plants packed closed boxes or baskets are now being carried at the "GENERAL SPECIAL" rate, which means a reduction of 20 per cent. from the regular merchandise rate. Boxes weighing less than 100 pounds are charged at pound rates, but the minimum charge is 45c. For example, if the general rate is \$5.00 per 100 lbs., a box containing 25 lbs. will cost \$1.00, which is a saving of 25c.

LILIUM LONGIFLORUM JAPAN GROWN.

MULTIFLORUM TYPE.

The true variety under this name will produce more flowers per bulb than other types, but it is difficult to secure true stock of this unmixed with other grades. Our Japan growers promise that our stock shall contain 80 per cent true type.

PRICES:

6 to 8 inch.....	Per 100, \$3 50	Per 1000, \$30 00
7 to 9 inch.....	Per 100, 5 00	Per 1000, 45 00

GIGANTEUM (Dark Stem.)

While ordinarily considered later than other varieties of Longiflorum, it has proven with our customers as early as any, and when shipped and planted fairly late has formed fine plants even in growth and fairly early in season. The type is free flowering and true. The dark stems readily prevent mixture in the growing crop.

PRICES:

6 to 8 inch.....	Per 100, \$3 00	Per 1000, \$28 00
7 to 9 inch.....	Per 100, 6 50	Per 1000, 60 00

REGULAR GRADE.

PRICES:

6 to 8 inch.....	Per 100, \$3 00	Per 1000, \$24 00
7 to 9 inch.....	Per 100, 4 50	Per 1000, 40 00
9 to 10 inch.....	Per 100, 7 50	Per 1000, 67 50

LILIUM HARRISII.

Owing to the very short crop of Bermuda bulbs this season we are only able to offer one size of these.

PRICES:

5 to 7 inch.....	Per 100, \$4 50	Per 1000, \$40 00
------------------	-----------------	-------------------

LILIUM CANDIDUM Thick Petaled.

It is known to most growers of this Lily that there are two strains. The flowers of each show in substance a marked difference. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true "Thick Petaled" bulbs and they have given our customers excellent satisfaction.

We have arranged again this year for a large amount of bulbs, but would advise early ordering by our customers in order to be sure of their supply, especially of the larger sizes.

Boston Ferns

NEPHROLEPIS
EXALATA
BOSTONIENSIS

We have five houses full of the most popular fern in all sizes from 2½-inch to 12-inch pots. All our plants are pot-grown, bushy stock; well furnished with fronds from the pot up and cannot be compared with the cheap long-drawn-up lifted stock from the bench.

These popular *Nephrolepis Ferns* (Bostoniensis and Piersonii) have proven the best decorative plants of recent introduction. They are all rapid growers, work up fast and are good sellers. Every florist should grow these ferns. We have the finest stock in the West.

The New Fern *Nephrolepis Elegantissima*

The photograph of the frond on this page gives a very good idea of the feathery plume like fronds, although one has to see the plant to appreciate its beauty and value.

A sport from the Piersonii Fern, but is much more beautiful. It is as different from Piersonii Fern as that is from Boston. The small side pinnae are again subdivided, producing an exquisite and beautiful effect, changing the entire character of the fronds, which measure less than half the length and about twice the breadth of the fronds of the Piersonii Fern. The fronds also assume an entirely different form the side pinnae standing at right angles to the mid-rib of the frond making the frond appear double.

NEW NEPHROLEPIS WHITMANI

The Improved Tarrytown Fern.

In this we have unquestionably the most valuable *Nephrolepis* of the Ostrich Plume type yet introduced, not only is it of dwarfer and more compact habit than the *N. Elegantissima*, but the pinnae being more deeply divided, gives the plant a much more graceful appearance, while another important point in its favor is the fact that not a single frond has ever reverted to the common Boston Fern.

BABY RAMBLER

BABY RAMBLER ROSE.

The Everblooming Dwarf Crimson Rambler.

This new Rose, which was sent out by the name of Mme. Norbert Levasseur, is a cross between Crimson Rambler and Glory of Polyanthus, retaining the color of the former with the exceedingly free flowering habit of the latter, as well as its dwarf growth.

The plants are very vigorous, grow to a height of about 24 inches. The foliage is dark, glossy, profuse and remarkably free from insects and fungus. The flowers are borne in clusters, 30, 40 and 50 flowers to a cluster. They are in every way just like those of the Climbing Crimson Rambler and are produced perpetually.

MRS. WILLIAM H. CUTBUSH.

New Dwarf Perpetual Polyantha Rose.

This charming addition to the Queen of Flowers is in every respect similar to the Baby Rambler, with exception of the color, which is a very pretty delicate pale pink of a most pleasing shade. The truss is very large, producing fifteen to twenty double flowers of good size. It is a most useful variety for pot culture or for bedding purposes, flowering profusely throughout the whole summer and autumn. We cannot too highly recommend this Rose, being certain that it will find a place in every garden.

Strong dormant 1 year plants, ready Jan. 1st, each, 75c.; doz., \$8.00, per 100, \$60.00.

NEW EVERBLOOMING ROSE

ETOILE DE FRANCE.

This new crimson Hybrid Tea Rose is of French origin and is, we believe, destined to become very popular. Certainly for outdoor blooming, Etoile de France will surpass any red rose in cultivation and our opinion is that it will become as much of a favorite as La France. It combines vigorous hardiness with rich color, and free flowering qualities. The buds are long, full and beautiful, of a superb velvet crimson color; as the flower expands the center discloses depths of rich vivid cerise. The flowers are very large and double, produced on long stems, retaining their beauty a long time; magnificent cupped form with a delicious tea fragrance. Without any exaggeration we may assert that Etoile de France will be appreciated by all lovers of the queen of flowers. Hardy with slight protection.

1 year dormant plants, per doz., \$2.00; per 100, \$15.00; per 1000, \$125.00.

A handsome new variety, different from all other Tom Thumb sorts. The tiny bushy plants do not exceed 4 or 5 inches in height, with clusters of flowers of light blue, with dark red center, changing to pure light blue. The plants are literally covered with flowers; we have counted over 200 on a single plant. **Trade Pkt., 25c.**

NEW ANNUAL HOLLYHOCKS.

BLOOM FROM SEED IN 4 MONTHS.

This new strain possesses all the virtues of the double old-fashioned Hollyhocks, with the additional advantage of **blooming from the seed the first year**. Sow in March. The plants branch out freely, grow to a respectable height, and are not as easily attacked by the Hollyhock fungus and therefore retain their fresh, bright green leaves until late. The flowers are double, semi-double or single. Last year we sowed some of this seed in the open ground May 19th, and the plants bloomed from the end of August until frost. Pkt. (100 seeds), 20c.; 3 pkts. for 55c.

NEW DOUBLE ANNUAL HOLLYHOCKS, WHITE.

The plants of this new strain will, like the above, bloom the first year and stay in bloom uninterruptedly until late in the season. The plants branch out freely, grow 7 feet. The leaves are long and small, entirely different from those of the old type. Color pure white. Pkt., 25c.

IMPATIENS HOLSTI.

LOBELIA, "BEDDING QUEEN."

This new variety is undoubtedly the most remarkable and magnificent of the dwarf Lobelias. The habit of the plant is very dwarf and compact, forming handsome little bushes which are entirely covered with large flowers of the deepest purple, contrasting most charmingly with the pure white eye. Its freedom and duration of bloom is remarkable, the flowers lasting until late in the fall. The best Lobelia for carpet beds, borders and pots. Trade pkt., 15c.; ½ oz., 25c.; oz., \$1.50.

MIGNONETTE GOLIATH.

MIGNONETTE GOLIATH.

This is by far the best Mignonette in existence, surpassing even our selected strain of Giant Machet. The plants grow in fine pyramidal bushes, the foliage is rich green, contrasting strikingly with the bright red of the flowers. The flower stalks tall and stiff, while the spikes are often 7 inches in length by a diameter of 2 inches at the base. Mignonette delight in very rich (not freshly manured) soil, and require frequent watering. Trade pkt., 25c.; oz., \$1.00.

The plants grow from 2 to 3 feet high and produce flower spikes up to 20 inches long, according to the quality of the soil, weather and treatment. The seed is all saved from selected plants grown from 3 to 5 shoots to a plant and was all saved from the spikes measuring from 10 to 18 inches long.

GIANT BOULOGNE PANSIES.

Vaughan's Pansies.

Boulogne Giants. This is a special selection of a French Pansy grower's the flowers are of the largest size, of great substance and fine form, and are borne on particularly strong stems. They are mostly 3 and 5 blotched, delicately veined, while the colors are rich and varied. Like all high-bred Pansies they are shy seed bearers. **Trade pkt., 50c.**

Bridesmaid. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty the finest Apple-blossom, and most strikingly sets off the dark blotches of the center. **Trade pkt., 25c.; 1/2 oz., 45c.; 1/4 oz., 75c.; oz., \$2.60.**

Rosy Morn. A bright purplish crimson margined with a clear white edge. In early spring the color is very deep and rich; as the weather grows warmer, the color gradually turns a pleasing rosy carmine and the silver edge becomes wide. **Trade pkt., 25c.; 1/2 oz., 60c.**

Marechal Niel. The flowers are very large, without any blotches or veins, and are of the same pleasing, delicate cream color as the rose whose name it bears. **Pkt., 10c.**

Siegfried. Of giant size, the flowers are borne on strong stems. They are mostly 5 spotted with a clear white margin. The colors are of rich brown shades such as are found in the English wall flowers. **Trade pkt., 25c.;**

Giant Volcano. Color, bright dark red, each petal being marked with a very large dark blotch. The flowers are of large size and good substance and the edges of the petals are curled like those of "Masterpiece," from which it is a selection. **Trade pkt., 25c.**

Orchid-Flowered. A most interesting type of Pansies of the Giant Flowered Class, containing a mixture of most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is in light shades, the petals being marked with large brown or golden yellow blotches which diffuse into rays and veins toward the edge. The upper petals are upright and plaited, resembling orchids. The colors are terra cotta, flesh, orange, rose, pink and lilac. **Trade pkt., 25c.; 1/2 oz., 70c.; 1/4 oz., \$1.25; oz., \$5.00.**

Vaughan's "Elite" Pansies. This is not a complete mixture like our International; it does not contain any pure white, yellow or any self colors. MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. **Trade pkt., 35c.; 1/2 oz., 60c.; 1/4 oz., \$1.00; oz., \$4.00.**

THE HOWARD STAR PETUNIA.

Their ground color is a dark, crimson maroon, with a rich velvety texture. Showing through the ground color are violet veinings. From the center starts the points of a five-rayed star, which broadens half-way up, narrowing to a point at the margin of the flower. The plants are free growers, branching freely and attaining an average height of 18 inches by 24 inches in diameter. They are remarkably prolific bloomers, single plants often having 50 fully expanded flowers at a time. Trade pkt., 20c.; oz., \$1.00.

CRIMSON FOUNTAIN GRASS.

(Pennisetum Macrophyllum Atrosanguineum.)

A beautiful and very graceful ornamental grass with foliage of a rich, deep coppery-bronze, bearing tawny-crimson plumes. For bordering a bed of Cannas or Caladiums, or alone on the lawn or in a mixed hardy border it is most effective and decorative. 3½ feet. Trade pkt., 25c.; ½ oz., 50c.

NEW GIANT-FLOWERED PETUNIAS.

The Petunia is one of the best plants for the summer flower garden, being always in bloom. The large flowered strains are very beautiful.

Queen Louise. Flowers of immense size, 6 inches and over in diameter, of a rich velvety crimson color with broad, white margin and deep yellow throat. A very striking sort. Pkt., 25c.

German Empress. Flowers of gigantic proportions, color light lavender with veins of a rich velvety purple. A magnificent sort. Pkt., 25c.

Quadricolor. Very large; the color is a most pleasing rose. The flowers are veined for two-thirds of their surface with a network of lustrous carmine, which merges into a deep blood-red towards the expansive throat. A large proportion of the flowers have 5 spatulate graceful markings of a decided yellow, radiating from the center of the flower in the form of a five-pointed star. Pkt., 25c.

Rose Queen. Mammoth sized flower, beautifully marbled rose on white ground with a most striking veining of the deepest crimson in the wide-open throat. Pkt., 25c.

PETUNIA—LARGE-FLOWERED SORTS.

We call particular attention to our large flowering strains of these, which are unsurpassed for size, shape and variety of color.

Giant White Star.	The grandest White Star yet introduced. Pure white massive blooms of giant form produced in great abundance, admirably relieved by very dark foliage, retaining the true character of the Star Primula.
Salmon Pink.	A most charming companion to the above White Star. For conservatory and table decoration it is indispensable.
Blue Star Improved.	By careful selection of large blooms for stock we have produced a strain of really Giant Blue Star Primula with much darker blooms: the dark blue flowers harmonize with the pale green foliage. A most valuable Star Primula.
Crimson Star.	The grandest colored Star Primula yet introduced; the rich crimson blooms, which are as dark as crimson King Sinensis, contrasts beautifully with the dark green foliage.

“FIREBALL” The Best and Earliest of all the Flowering Sage. Blooms all the Time.

SALVIA SPLENDENS FIRE “BALL.”

Of the many sorts of Salvia now cultivated, this splendid novelty undoubtedly is the finest of all. It has larger flowers and is also more free flowering than any other kind. The bushy plant 20 in. high is covered with long broad flower spikes with a great number of flowers of the most fiery scarlet. The plants branch freely and are profuse bloomers, the side shoots often producing 4 to 6 flowering spikes so evenly divided over the foliage and of such erect habit as to hide the foliage. It is the earliest of all, flowering by the beginning of July and continuing without a break until frost. Pkt., 25c.

With the originator it has never given less than 80 per cent double flowers. It is a valuable strain for cut-flower purposes. Pkt., 50c.

Sweet Peas.

Please Note.—We carry about 80 different kinds of Sweet Peas, but list here only those most suitable for florists.

- Any of the following, per oz., 5c., except where noted.
- Dorothy Eckford.** "The grandest pure white. In addition to its pureness it is a grand giant flower, also robust in growth and stem, with no tendency whatever to tinge or go pink; the plant is very short jointed, and grows an enormous mass of bloom." ¼ lb., 15c.; oz., 10c.; lb., 40c.; 10 lbs., \$3.50.
- Florence Fraser.** An Improved Blanche Ferry. Color, pink and white; flower stems 12 to 14 inches long and very stout, bearing three or four large blooms. A strong, vigorous grower and a free early bloomer. It surpasses Blanche Ferry in vigor, flower and stem, freedom and earliness. ¼ lb., 20c.; lb., 60c.
- Flora Norton.** It is a very bright blue, quite different from Countess of Radnor and kindred varieties, being a brighter blue and clearer color. Oz., 10c.; ¼ lb., 25c.; lb., \$1.00.
- Mrs. Geo. Higginson, Jr.** A clear delicate light blue, showing practically no tint of mauve. It is a thing our growers have been working for years, and while it is not any larger than the old Countess of Radnor, it is particularly fine shade. It is especially valuable for florists, and is a decided novelty. Oz., 10c.; ¼ lb., 25c.; lb., \$1.00.

COUNTESS SPENCER HYBRIDS.

THE NEW ORCHID-FLOWERING SWEET PEA.

The type and form of these is a complete departure from anything yet introduced. Both the wings and standard are very large, and its graceful form together with the immense size, makes it by far the most attractive variety in existence. There are five or six distinct shades contained in this mixture, but all are of the large flowering type and of the same form. Oz., 10c.; ¼ lb., 20c.; lb., 60c.

King Edward VII. A true giant flowering variety, with strong stems and growth, with no inclination to burn in the sun. A fine variety, much brighter than either Mars or Salopian; ¼ lb., 20c.; lb., 50c.

VAUGHAN'S "ROSE-GROWER"

BONE MEAL

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughterhouses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

Price, 25 lbs., 70c.; 50 lbs., \$1.25; 100 lbs., \$2.00; 200 lbs., \$3.75. Add 50c. per 100 lbs. if shipped from New York.

Sprayers.

One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square inch, which obviates any danger of bursting. Splendid for spraying pot plants in stores, etc. Always ready for use and never gets out of order. We have used one in our store for the past year and now find we cannot do without it. Price: Galvanized Tank, \$5; brass tank, \$6.

AUTO SPRAY.

Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved this season by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray". In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. Price: Galvanized iron reservoir, \$4.50; with Auto Pop, \$5.50; solid copper reservoir, \$6.00; with Auto Pop, \$7.00; Brass Extension Rod, in 2-foot lengths, each, 35c.; Galvanized Extension Rod, in 2-foot lengths, 25c.

AUTO SPRAY.

PNEUMATIC SPRAYER.
