BRITISH AVIATORS FOUND BATTERIES

Dropped Bombs on Big German Guns Which Threw Shells Into Dunkirk

SEVERAL KILLED BY SHELLS LAST EVENING

To-day's French Official Statement Reports No Change Along Battleline

London, May 1.—Developments on the northern extremities of the two fronts, both east and west, the shelling of Dunkirk, France, and the new German offensive movement aimed at the Baltic provinces, take precedence in the war news of to-day.

British aviators have discovered and attacked the German batteries which from a distance variously estimated by British observers at from sixteen to even twenty-eight miles, hurled great shells at Dunkirk. Bombs were dropped on the guns.

London newspapers say this bombardment of Dunkirk means that the Germans still cling to their cherished idea of occupying the French coast nearest England, and more than one editorial writer to-day points out that "Elanders still remains the theatre of operations."

Paris, May 1.—The war office to-day gave out the following official statement on the progress of hostilities:

"No change has been reported in the general situation along the front since the giving out of the report of last night."

"Ten more shells fell on Dunkirk during Friday evening and there were several victims."

Paris, May 1.—Dunkirk remained calm and there was no sign of a panic while it was being bombarded on Thursday by shells from the giant German guns, according to the editor of a newspaper at that city, who has arrived in Paris.

He said that the bombardment began at 11.30 a. m. on Thursday, and lasted until about 2 p. m. Twenty projectiles in all were hurled into the city. They fell at intervals of about seven minutes. All of them were fifteen-inch shells, and they blasted craters some times forty-five feet across, and sent up great columns of dense black smoke.

Folkestone, Eng., May 1.—Refugees arriving here from Dunkirk, France, report that six shells from the big German guns fell in Dunkirk on Friday evening at intervals of ten minutes. Considerable damage was done to the town. The women and children of Dunkirk are leaving in large numbers.

BRITISH DESTROYED EIGHT SUBMARINES

Germany's Heavy Loss Due to Mines and Net-Traps in English Channel

Paris, May 1.—Eight German submarines have been destroyed by British mines and net-traps in the English Channel.

This series of disasters occurred within the week following April 22, the date on which the British admiralty official order suspended all trade and passenger traffic with the Netherlands.

The German craft were decoyed to their doom by the retirement of the British fleet from the North Sea into the Channel. This plan to trap the Germans' under-sea boats was the real reason for the suspension of sea intercourse with Dutch ports.

It was announced from London last night that trade between the British Isles and Holland may be resumed now, passenger traffic, however, will not be permitted until further orders from the British admiralty.

The mysterious rumors of an impending battle in the North Sea may find an explanation in the news of the destruction of eight German submarines, and the notice of the re-establishment of trade with Holland is to mean that action for it is suspended—at least as British plans are concerned.

Ottawa, May 1.—The government will announce the dissolution of parliament on Monday. Nominations will be held on June 21, and the voting on June 28.

DISABLED ON WAY TO SAN FRANCISCO

Steamship Northern Pacific in Trouble Off Point Arena; 120 Passengers Aboard

HER STEERING GEAR WAS CARRIED AWAY

San Francisco, May 1.—Disabled with 120 passengers aboard, the pacific coast liner Northern Pacific, bound for San Francisco, was wallowing in the giant seas off Point Arena early to-day, battling unevenly against the blown-out storm with her two sets of steering gear gone.

The storm-tossed liner was hoisted in deep water, manoeuvring through the swells with her propellers, while she awaited aid sent from this port, according to wireless reports sent by Capt. Ahman.

The drag end of the record storm swept eastward to-day, leaving inestimable damage to crops in inland and coast towns.

Capt. Brennan, of the Pacific-Alaska steamship Admiral Farragut, steamed through the Golden Gate at 7 a. m. to-day after a fierce voyage down the coast, past the position of the liner Northern Pacific, bound from Flavel, Ore.

The Northern Pacific's steering gear was carried away off the Oregon coast last night in a fierce onslaught of the terrific combers, according to Captain Brennan's report. The Admiral Farragut spoke the Northern Pacific off Point Arena at midnight.

The tug Defiance made repeated unsuccessful attempts to break the seas yesterday to go to the Northern Pacific's relief. It was not until an early hour to-day, however, that the Defiance was able to get outside the heads.

ADVANCE CHECKED BY RUSSIAN FORCES

Invasion of Kovno by Germans Has Led to Violent Fighting; Villages Burned

Petrograd, May 1.—The Russian troops sent to repel the German invasion of Kovno have checked the enemy's attacks along the Dubissa river, and now have taken the offensive, according to an announcement made here to-day by the war office. A battle which started yesterday north of the Niemen river is progressing to-day with great violence. The fighting is taking place about the angle formed by the Niemen and Dubissa rivers.

German forces under Prince Joachim form the left wing of General Elchhorn's army, the centre of which lies along the Szas-Kawarja front, southwest of Kovno, on the left bank of the Niemen.

General Elchhorn five weeks ago tried to cut the Russian lines here and strike at Kovno, but was repulsed.

Germans reported near the Courland border to-day were characterized in the Slav war office report as "raiders."

A strong force of cavalry has been sent to drive them back.

Several villages have been fired by the Germans and hundreds of families are homeless.

London, May 1.—Special dispatches from Petrograd disagree as to the purpose of the German thrust at the extreme Russian front.

One theory connects it with probable movements of the German fleet in the Baltic looking to the invasion of the Baltic provinces. Another idea is that this advance is aimed at Libau and Riga, the former a strong naval base and the latter one of the most important ports on the Baltic. Or the Germans may intend to strike at the railroad running from Petrograd to Warsaw by way of Dunauburg and Vienna.

Farther south the Germans have failed in their repeated attempts to get this line.

BY THE GOVERNMENT.

Ottawa, May 1.—The department of railways last night announced that the Grand Trunk Pacific had declined to take it over on a lease, the government to-day would take over the operation of the eastern division of the N. T. R. from Winnipeg to Montreal.

At the same time the government also takes over and operates the Lake Superior division of the G. T. P., between Superior Junction and Fort William, including the terminals at the latter place.

A GREAT NAVAL TRIUMPH

GERMAN SUBMARINE OFFICER—"This ought to make them jealous in the sister service. Belgium saw nothing better than this."

OFFICERS OF 88TH SUFFER SEVERELY

Four Killed and One Missing in Latest Casualty List

In the recent action which exacted such a toll of lives the 7th Battalion suffered heavily, and in addition to the many privates of the 88th Fusiliers who left here at the very outset of the war are the names of four officers killed, and one missing. As two sub-alterns, Lieut. Bogas and Lieut. Lawrence met their death in action earlier in the year, the officers sent by the 88th to the 7th has been almost completely wiped out. Lieut. Carew Martin, another officer from the 88th who left with the Princess Patricia's, was wounded in the arm some weeks ago.

The officers in the recent casualty list are as follows:

Killed:
Capt. R. V. Harvey,
Lieut. H. A. Bromley,
Lieut. C. C. Holmes,
Lieut. N. A. Jessop.

Missing:
Major P. Byng-Hall, D. S. O.

Capt. R. V. Harvey was born at Londonderry, Ireland, in 1872. He was warden of University School at the time of his enlistment with the 88th, having been associated with that institution ever since its foundation about seven years ago, when Rev. W. Bolton and J. C. Barnack secured him as one of the masters. Through his connection with the school, in the organization and educational and athletic departments, of which he took a keen interest, he became well known to a wide circle of residents in the city, while hundreds of the students carried away from their school career an affectionate memory of one who was devoted to their interests and their development. When the Boy Scouts movement was first organized he became a warm advocate, and the Cadet Corps of the University School owed much of its efficiency to his supervision. With the idea of improving the standard in shooting he made a per-

manent mark.

TWO REPORTED DEAD AND FOUR WOUNDED

Capt. R. A. S. Allen and Lieut. A. E. Ball, of Fifth Battalion, Succumbed

Ottawa, May 1.—The following casualty list was issued to-day:
Second Field Artillery Brigade—Wounded: Lt.-Col. T. J. Creelman.
Third Field Ambulance—Wounded slightly: Lt.-Col. W. L. Watt.
Wounded: Capt. F. C. Bell, Lt. W. Fitzpatrick (previously reported killed).
Fifth Battalion—Died of wounds: Lt. A. E. Ball, Capt. R. A. S. Allen.
Tenth Battalion—Killed: Lieut. G. A. Coldwell, 12th Brandon Horse.

Winnipeg, May 1.—Lieut.-Col. W. L. Watt, who was wounded, was in command of the Third Field Ambulance and left with the First contingent. He is well known in Winnipeg as an X-ray expert. He was born in Walkerton, Ont., and graduated from Manitoba college fourteen years ago. He is 35 years old and single. A brother, Herbert, lives in Vancouver. Lieut.-Col. Watt has lived in Winnipeg for the past 20 years.

Winnipeg, May 1.—Capt. F. C. Bell, of the Third Field Ambulance, is very well known in Winnipeg, being a son of C. N. Bell, secretary of the Winnipeg Grain Exchange, and a physician of standing.

THREE KILLED WHEN LANGUEDOC WAS LAUNCHED

Bordeaux, May 1.—Three persons were killed here to-day in an accident in connection with the launching of the battleship Languedoc. The vessel left the ways with such speed that she struck on the bank of the river. She struck and crushed a lighter, on board which the fatalities occurred.

The Languedoc probably will be released at high tide this evening. She is of the super-dreadnought type, of 24,500 tons. She carries twelve 13.4-inch guns, twenty-four 5.5-inch guns, and six torpedo tubes. She is 573 feet long.

50,000 CANADIANS AT FRONT BY JUNE 15

Casualty Lists Have Stimulated Recruiting; Canada Will Send 100 More Doctors

Ottawa, May 1.—It is probable that by the middle of June Canada will have two full army divisions, or approximately 50,000 men, in the fighting line in France and Belgium. It will be recalled that Major-General Hughes, in replying to questions by Hon. Frank Oliver in the commons, said that the vote of \$100,000,000 was based upon a plan to keep 50,000 Canadians at the front. He added that if Lord Kitchener asked for a larger contribution of men it would be forthcoming.

At the present time there is a full Canadian division at the front, and there are several thousand men still in England who went with the contingent or were sent later. According to cables which have been received, these are being rushed to the front. Canada has two more contingents practically ready, and a fourth is being recruited, while a call may be made shortly for a fifth contingent. Just how many complete divisions will be sent forward is not known at present.

With 50,000 men in the fighting line, when the big advance commences, it is probable that several hundred men will be required every month to replace the wastage due to fighting and illness. A large portion of the third and fourth contingents now being raised undoubtedly will go forward as reinforcements.

The casualties among the members of the Canadian forces continue to stimulate recruiting throughout the Dominion. Men all over the country are joining in larger numbers than at any other period since the war began. There are 100,000 men under arms now, and it is believed that if they are wanted an additional 50,000 soon can be found.

The militia department to-day received a request from the imperial authorities for 100 Canadian doctors, and the call for volunteers will be sent at once to the medical service. No less than 250 Canadians already are serving at the base and other hospitals.

When the second contingent arrives on the other side the number of Canadian nurses will have reached 450.

FORCES ARE PRESSING FORWARD STEADILY ON GALLIPOLI PENINSULA

Great Fleet Bombarding Turkish Positions on Both Sides of the Dardanelles, Says Dispatch From Vice-Admiral de Robeck; Main Turkish Army on Peninsula Is Being Hemmed in by the British; Turks No Longer Can Cross the Straits.

London, May 1.—In the face of fast and furious attacks, four British armies on the Gallipoli Peninsula to-day started a converging movement against the narrows of the Dardanelles and are pressing forward steadily.

With the Queen Elizabeth in the lead, the great Anglo-French fleet has been bombarding not only the forts but the positions of the Turks on both the European and Asiatic sides of the Dardanelles. The Turks are offiored entirely by Germans.

As many as 300 shells in a single day have been hurled against the Turkish fortifications, and they are beginning to have their effect. All indications point to the success of the drive against the Dardanelles, and the belief is general that Constantinople will be in the hands of the allies before the spring months are over.

SAYS THAT VICTORIA HAS GONE TO BOTTOM

Eleven Sailors Were Aboard Vessel Off Coronado Island, States Purser

PASSENGERS ARRIVED AT SAN DIEGO TO-DAY

San Diego, Cal., May 1.—The coastwise steamship Victoria, disabled by gales, probably sank early to-day, according to her purser, taking with her eleven of her Mexican crew.

A. Tonasciani, the purser, who arrived here to-day with the vessel's passengers, said that the Victoria, reported as in a leaking condition last night off Coronado Island, just across the Mexican line, was nowhere visible to-day, and undoubtedly had gone down.

San Francisco, May 1.—The Mexican steamship Victoria was reported early this morning as under the lee of Coronado Island, leaking badly. Her fifteen passengers are aboard the American Hawaiian steamship American after one of the most thrilling rescues in the annals of coast shipping. At the height of the gale last night a boatload of sailors from the American answered the frantic distress signals of the Victoria, and by clever seamanship rescued the passengers from the crippled craft.

The bar here still is breaking badly and ships are experiencing great difficulty making in this port.

NO WORD YET FROM MEIGHEN AND LOOMIS

13th and 14th Battalions Were at St. Julien During Heavy Fighting

Ottawa, May 1.—Have the 13th and 14th battalions been annihilated? This is the question which the military authorities anxiously are asking to-day.

The thrilling story sent by Sir Max Aitken, Canadian official eyewitness, tells how these two gallant battalions were left in St. Julien to cover the retreat of the Third Brigade. He tells how the German line rolled over the village. The last heard was the persistent rifle fire of the survivors. What became of the regiment is not disclosed by the eyewitness story, and it is feared that the complete battalions either have been wiped out or captured.

Lieut.-Colonel F. S. Meighen is the commander of the 14th Battalion and Lieut.-Colonel F. O. W. Loomis is commander of the 13th Battalion. Neither of these commanders has been heard from at Ottawa.

DIVISION CALLED OUT.

Berne, May 1.—The federal council decided to-day to call out the sixth division of the Swiss army.

Big Krupp guns, manned by Turks, have done some damage to the ships of the fleet, but it is slight.

The above statements were included in an optimistic dispatch received here to-day from Vice-Admiral de Robeck. He characterized the assertion from Constantinople that 8,000 British and French troops had been driven into the sea as "silly nonsense."

Turkish aeroplanes attacked British positions at Sari Bahr, on the Gulf of Suva, and near Kaba Tepeh, while some of the long range guns of the forts at Kild Bahr, Chanak Kalesai and Namazieh were swung inland, throwing shells at the redoubts built at night by the British and Australians.

Both unofficial and official advices received here indicate that while severe losses have been sustained, the allies are progressing on both sides of the Dardanelles, while the fleet carries on a terrific bombardment.

Maidos has been destroyed. The forces of General Sir Ian Hamilton which landed near Enos and Bulair are encountering swampy ground and pitfalls constructed by the Turks. This is hampering progress at these two points.

Admiral de Robeck states that the British hold practically the entire southern end of the Gallipoli peninsula, from a point near Krithia. Two armies are in this area. One has a foothold on the shore of the Gulf of Suva and another has advanced inland from Kaba Tepeh.

The great operations to open the way to Constantinople have not reached yet a critical stage. Both sides are reinforcing, but it is extremely difficult for the Turks to send heavy reinforcements forward because of the long range of coast shipping of the allied fleet.

Wounded sailors tell stirring tales of the bravery of the British and Australians. The troops, they say, invariably start their rushes by singing "It's a long, long way to Constantinople," to the tune of "Tipperary."

Athens, May 1.—Forced to withdraw from the north, south and east, the main Turkish force on Gallipoli peninsula now being concentrated on the Dardanelles littoral, between Gallipoli and Maidos, is in grave danger of being bottled up by the British, according to advices received here to-day.

Dispatches from Tenedos say that the peninsula gradually is being cut from the mainland of Thrace, and that it is now impossible for the Turks to cross the Dardanelles from the European or the Asiatic side, because of the long range of the guns of the Anglo-French fleet.

The Turkish positions at Nagara and Nechori are being subjected to a terrific bombardment.

The French have occupied Yenit Shehr, on the Asiatic side of the Dardanelles. Fierce night attacks are reported everywhere.

DEFEATED AT POINT EAST OF SUEZ CANAL

London, May 1.—Another defeat of Turkish troops at a point east of the Suez canal was reported in advices received here to-day by the war office. The battle occurred at a point 12 miles from the canal on April 23. The dispatch said that the Turks were in full retreat.

GERMAN AIRSHIP DID NOT REACH DOVER

Deal, Eng., May 1.—A German airship which attempted to reach Dover to-day was put to flight by a squadron of British aeroplanes. Thousands of persons watched the machines until they were lost in the distance.

EFFORTS OF ENEMY ON EAST FRONT FAILED AT ALL POINTS THE TURKS WERE DEFEATED

Work of Troops at Dardanelles Calls Forth the Admiration of the Fleet

Petrograd, May 1.—The following official communication was issued by the war office last evening:
"On the whole front to the west of the Niemen yesterday we closely pressed the German advance guards. During the evening of the 28th, near Ossowetz, the enemy attacked our positions in the region of the village of Sosnka, but was repulsed with heavy losses."
"Enemy attacks, which were barren of results, took place between the rivers Plesna and Skwa, north of Vakhla, and on the right bank of the Omulew, and continued all the day of the 28th. The enemy yesterday, covered by the fire of their heavy artillery in the sector between the Plesna and the Skwa, fell back toward their old trenches."
"Near the village of Jednorozet, on the evening of the 28th, the Germans suffered great loss as the result of four attacks. Near Starobil, German forces which took the offensive were driven back."
"On the left bank of the Vistula, small parties of the enemy made fruitless attempts to advance."
"In Galicia, in the region of Gorlice, on the night of the 28th, we repulsed new German offensive movements."
"In the Carpathians, near Polen, on the evening of the 28th, the Austrians again attacked unsuccessfully north of the Usok pass. In the Kozolova forest the Austrians during the night of the 28th and 29th delivered an attack. We allowed them to approach our wire entanglements before firing a shot. Then we scattered them by a sudden heavy fire."

There were four tenders, the highest being from a syndicate composed of N. W. Harris & Co., and C. Merdith & Co., of Montreal, and W. J. Gundy & Co., of Toronto, which secured the issue at 98.53.

London, May 1.—The British War office made public an official communication last night, concerning the operations of the Allies against the Dardanelles. It was as follows:
"The disembarkation of the army at the Dardanelles began before sunrise on April 25. Six different beaches were used, and the operation was covered by the whole fleet."
"The landing was immediately successful on five beaches, although it was opposed with vigor by a strongly entrenched enemy in successive lines, which were protected by barbed wire entanglements, in some places fifty yards wide and supported by artillery."
"On the sixth beach, near Seddul Bahr, the troops could not advance until evening, when a fierce attack by the British infantry from the direction of Cape Tekeli, relieved the pressure on the front. The arrangements for landing had been concerted in the utmost detail between the fleet and the army."
"The result of the first day's operations was the establishment of strong British, Australian and French troops at three points, namely, the Australian and New Zealand troops on the lower slopes of Sari Bair, to the north of Kaba Tekeh, British troops at Cape Tekeli, at Cape Helles and near the Asiatic shore at Kum Kale, after a gallant attack toward Yenik-Shehr."
"During the afternoon of the 25th, strong counter-attacks by the enemy began and hard fighting occurred. Meanwhile, the disembarkation of the army proceeded and was favored by good weather."
"At daybreak on the 26th, the enemy still was occupying the village and positions at Seddul Bahr, which was a labyrinth of caves, ruins, trenches and entanglements. Added by the fire from the fleet, this position was stormed by a British frontal attack through undamaged wire entanglements. Seddul Bahr was taken about 2 p.m., four pompoms being captured. The situation at this end of the peninsula thus was secured definitely, and the disembarkation of French and British forces proceeded."
"On the morning of the 27th, after repulsing a Turkish attack upon their left toward Cape Helles, the Allied forces advanced, and at 8 p. m. were established in an entrenched line running from a point about two miles north of Cape Tekeli to a small plateau above De Totis battery. From this line an advance since has been made to the neighborhood of Krithia."
"Meanwhile, the Australian and New Zealand troops at Sari Bair, who pushed on with the utmost boldness after the landing on the 25th, had been engaged almost constantly with the enemy, who made strong repeated counter-attacks, which invariably were repulsed. The Australian and New Zealand troops fought with a fine spirit of determination."
"On the morning of the 27th a fresh Turkish division was launched against Sari Bair, preceded by a heavy artillery fire. A hot engagement followed. The enemy came on boldly, time after time, but the Australian and New Zealand troops defeated their every attempt, and by 3 p. m. had resumed the offensive."
"The French troops at Kum Kale also were strongly counter-attacked four times on the 26th, but retained all their positions. Five hundred Turks, who, in the course of one of these counter-attacks, were cut off by the fire of the fleet, were made prisoners."
"The operation of landing the army, in the face of modern weapons, under sea as well as on the land, and in spite of wire entanglements, and of land and deep pits with spikes at their bottoms, thus has been accomplished."
"The admirals reports that the men of the fleet are filled with intense admiration over the achievements of their military comrades."
"The casualties in the army necessarily have been heavy. The casualties in the fleet were not numerous. They appear to have been confined to torpedo boat destroyers and to boats' crews engaged in landing expeditions, in which merchant captains and officers and crews of transports also have taken part."
"During the operations Turkish warships from Niagara (in the straits) several times have attempted to intervene, but have always made off directly the Queen Elizabeth was at hand."
"At noon on the 27th, however, a transport of about 8,000 tons was reported off Maldoz, and before she could escape the Queen Elizabeth opened fire. The third shot hit and destroyed her. She sank rapidly, but whether she contained troops or not could not be seen."
"On the 28th and 29th, the Allied forces rested and improved and consolidated their positions and continued the disembarkation of stores and artillery. All counter-attacks by the enemy, which were incessant on the 27th, but weaker on the 28th, were repulsed."
"The fleet, as well as the supporting army, has begun to engage the batteries. The Triumph bombarded Maldoz, which was in flames last night, the 28th."

TOKO TWO LINES OF TRENCHES IN BELGIUM
French Official Report Tells of Gains to North of Ypres
London, May 1.—The semi-weekly report from the headquarters in the field of the British commander-in-chief, Sir John French, dated April 30, was given out here last night. It was as follows:
"The situation on our front has remained unchanged during the last 48 hours. The area in the neighborhood of Ypres has been the scene of the greatest artillery activity throughout this period, but there have been no other operations so far as the British army is concerned."
"On our immediate left the French made counter-attacks to-day, supported by our artillery fire, which made sensible progress."
"Yesterday a German aeroplane was attacked in the air, fired at by our guns, and was brought down at our lines east of Ypres."
"Successful mining operations have been carried out southwest of Wyt-schaete and in the neighborhood of Givenech."
Paris, May 1.—The war office made public the official communication last night:
"In Belgium, to the north Ypres, our attacks have progressed on the whole front on a depth varying from 500 metres (about 1,600 feet) to one kilometre (two-thirds of a mile)."
"We have taken two successive lines of trenches and captured a great many prisoners."
"The correspondent of the Associated Press to-day visited the summit of Hartmanns Wellerkopf, which the enemy has not attacked for the last two days."
"One of our airships has bombarded the railroads and sheds in the region of Valenciennes."
"One of our aeroplanes, which was destroyed by an explosion, fell inside the enemy's lines."
London, May 1.—The official statement from the German headquarters as received here from Berlin yesterday contains the statement that in the recent fighting in the Champagne district the Germans have captured French positions extending over more than half a mile. This part of the statement is as follows:
"In the Champagne district, north of Le Mesnil, the French attempt to win back their former position resulted in failure. A whole group of fortifications 1,000 yards wide and 300 yards deep, has been reversed in its entirety, and is being maintained."

SERVICE WAS ATTENDED BY THE PRIME MINISTER
London, May 1.—A sincere tribute to Canada's brave dead was paid in St. Peter's church, Eaton Square, yesterday, when a memorial service was held for Guy M. Drummond, captain in the 11th Battalion (Royal Highlanders of Canada), and those of his men who fell with him during the fighting near Ypres. The body of the church was filled with Canadians now here and Old Country sympathizers. Prime Minister Asquith attended and the colonial office and the war office were represented officially.
The service opened with the hymn, "Art Thou Weary?" Then followed part of the burial bludge, sung by the choir of St. Peter's, and the 23rd Psalm. A portion of the Book of Wisdom was selected as the lesson. Very beautiful was the anthem, "The Souls of the Righteous." Two more hymns, "The Son of God Goes Forth to War," and "For All the Saints, a Noble Throng," were included. Finally there was sung the verse of the National Anthem, followed by the Dead March in Saul.
Mrs. Guy Drummond and Lady Drummond were present.

WOUNDED HIMSELF, HE SAVED ANOTHER
San Francisco, May 1.—Letters telling of the bravery of their son-in-law, Lieut. Charles Raoul Duval, a French officer, in rescuing a captain of his regiment from certain death in a hail of German shells after both had fallen severely wounded, are to-day in the hands of Mrs. Mary A. Tobin, a prominent San Francisco society matron.

French Official Report Tells of Gains to North of Ypres

London, May 1.—The semi-weekly report from the headquarters in the field of the British commander-in-chief, Sir John French, dated April 30, was given out here last night. It was as follows:
"The situation on our front has remained unchanged during the last 48 hours. The area in the neighborhood of Ypres has been the scene of the greatest artillery activity throughout this period, but there have been no other operations so far as the British army is concerned."
"On our immediate left the French made counter-attacks to-day, supported by our artillery fire, which made sensible progress."
"Yesterday a German aeroplane was attacked in the air, fired at by our guns, and was brought down at our lines east of Ypres."
"Successful mining operations have been carried out southwest of Wyt-schaete and in the neighborhood of Givenech."
Paris, May 1.—The war office made public the official communication last night:
"In Belgium, to the north Ypres, our attacks have progressed on the whole front on a depth varying from 500 metres (about 1,600 feet) to one kilometre (two-thirds of a mile)."
"We have taken two successive lines of trenches and captured a great many prisoners."
"The correspondent of the Associated Press to-day visited the summit of Hartmanns Wellerkopf, which the enemy has not attacked for the last two days."
"One of our airships has bombarded the railroads and sheds in the region of Valenciennes."
"One of our aeroplanes, which was destroyed by an explosion, fell inside the enemy's lines."

SERVICE WAS ATTENDED BY THE PRIME MINISTER
London, May 1.—A sincere tribute to Canada's brave dead was paid in St. Peter's church, Eaton Square, yesterday, when a memorial service was held for Guy M. Drummond, captain in the 11th Battalion (Royal Highlanders of Canada), and those of his men who fell with him during the fighting near Ypres. The body of the church was filled with Canadians now here and Old Country sympathizers. Prime Minister Asquith attended and the colonial office and the war office were represented officially.
The service opened with the hymn, "Art Thou Weary?" Then followed part of the burial bludge, sung by the choir of St. Peter's, and the 23rd Psalm. A portion of the Book of Wisdom was selected as the lesson. Very beautiful was the anthem, "The Souls of the Righteous." Two more hymns, "The Son of God Goes Forth to War," and "For All the Saints, a Noble Throng," were included. Finally there was sung the verse of the National Anthem, followed by the Dead March in Saul.
Mrs. Guy Drummond and Lady Drummond were present.

OUR HEROIC DEAD

Bord Kitchener knew what he was talking about when he said the war would begin about the first of May. This is Mayday, and the fact that the war has begun in earnest has brought home with terrible force to the minds and hearts of all Canadians...

MYSTERIES.

Observers now are occupying themselves with efforts to solve two mysteries. One has to do with the bombardment of Dunkirk. This great French fortified town near the Belgian coast was believed to be some twenty miles distant from the nearest German battery...

DOING THEIR PART.

When the Canadians covered themselves with glory before Ypres ten days ago, Canada was warmly felicitated by her sister dominions, Australia and New Zealand, whose praise was accompanied by expressions of genuine sympathy with us in our lamentable losses.

The British dominions are sharing the glory and the sacrifice entailed in the fight for human liberty, for national honor, for the right of the weak and helpless to exist. They are giving of their most precious assets willingly, and even had they the choice of an alternative they would not be anywhere else than in the embattled line that seeks the downfall of ruthless Prussianism.

Canada will maintain at least fifty thousand soldiers in Europe. This means that a hundred thousand must be kept constantly under arms. Australia has at least forty thousand men at the Dardanelles, New Zealand perhaps half of that number in the same region. South Africa is engaged in the important task of bringing under the flag a territory of approximately two hundred thousand square miles.

IN THE DARDANELLES.

Several interesting points stand out in the official review of the operations at the Dardanelles. The British forces are established across the toe of the Gallipoli peninsula from the region of Karathia on the Aegean Sea to De Tott's Battery on the strait. Seddul Bahr fort, just inside the entrance, has been occupied by the invading forces.

This review covered the operations up to the end of Thursday. Yesterday it was unofficially stated that the British had fought their way across the neck of Gallipoli and had captured the city of that name. The Berlin bulletin admitted that fighting for the possession of that vitally important point had been in progress when it referred to the "heroic fighting" of the Turks there.

are available for transportation across to the Gallipoli shore. Some time ago we pointed out that the strength of the Dardanelles and the natural position of the adjoining territory was the measure of its weakness in the event of a successful land application.

DOCTORS FOR THE FRONT.

The militia department has received a request from the Imperial authorities for one hundred Canadian doctors and the call for volunteers will be issued at once. Two hundred and fifty Canadians already are serving at base and other hospitals and the number of nurses soon will reach four hundred and fifty.

In providing facilities for the treatment of the wounded and sick, effective sanitation and the prevention of disease, Great Britain and France have done wonders since the war began. A well known writer in a widely-read magazine who had visited the British base hospitals declared that this department of the service was the finest in the world.

But this is a work which, like the fighting in the field and on the seas, entails a drain upon the resources of the whole empire. We have mobilized our soldiers and sailors, our food and ammunition supply facilities and the mobilization of our life-saving resources is now in progress.

We have a duty to discharge, also, towards those of our allies not so well equipped as we are. Gallant little Serbia is struggling with pestilence within while she is keeping her boundaries inviolate to the foe without, and although the appeal from her authorities for assistance has met with a generous response in Great Britain and France, as well as in the United States, there is much to be done.

When the statistics of this war are collected and analyzed it will be found that in proportion to the number of men engaged the total of those who were killed, died of wounds and from sickness will be considerably less than in former struggles. In the Napoleonic wars hundreds of thousands of men died from lack of proper medical attention and nursing. Epidemics in the armies were common.

Stretching their necks in an effort to see how things are shaping up at the Dardanelles, Italy, Greece, Roumania and Bulgaria are in danger of falling off the fence. No game was witnessed by such intensely interested spectators.

Our morning contemporary pleads for higher ideals in politics. We hope it will keep that article in type and peruse it on the eve of election campaigns and at other times when it is engaged in defending some particularly rank transaction of the McBride government.

The Berlin bulletin to-day speaks of German successes at Kalvarja. Yesterday the Germans were successful southeast of Kalvarja. On Thursday they were making progress east of Kalvarja. Now they are at Kalvarja.

The King may restrict himself to barley water as a beverage, but Lloyd George realizes that the average Briton prefers something with more tang

In it. A good deal of water must find its way to the sea before Great Britain will be quite ready for prohibition.

It has just occurred to us that Sir Richard McBride is an honorary colonel, and it is possible that Kitchener, taking advantage of his presence in London, has placed him in command of a battalion of the home guard.

HOW THE CANADIANS FOUGHT IN BELGIUM

Sir Max Aitken Describes Operations in Which Dominion Soldiers Won Fame

London, May 1.—Sir Max Aitken, Canadian official eyewitness, writes in part as follows:

"The story of the second battle of Ypres is the story of how the Canadian division—enormously outnumbered, for they had in front of them at least four divisions, supported by immensely heavy artillery, with a gap still existing, though reduced, in their lines, and with dispositions made hurriedly under the stimulus of critical danger—fought through the day and through the night, and then through another day and night, fought under their officers until, as happened to many, they perished so gloriously, and they fought from the impulse of sheer valor.

"The enemy, of course, was aware, whether fully or not perhaps may be doubted, of the advantage his breach in the line had made, and immediately began to push a formidable series of attacks upon the front.

"If it be possible to distinguish, when the attack was everywhere so fierce, this moment upon the apex of the newly formed line running in the direction of St. Julien. It already has been stated that four British guns were taken in a wood comparatively early in the evening of the 22nd. In the course of that night, and under the heaviest machine gun fire, this wood was assaulted by the Canadian Scouts, the 16th Battalion of the Third Brigade, and the Tenth Battalion of the Second Brigade, which was intercepted for this purpose on its way to a reserve trench.

"The fighting continued without intermission all through the night, and to the eye who observed the indications of the attack was being pushed with ever-growing strength; it hardly seemed possible that the Canadians, fighting in positions so difficult to defend, and so little the subject of deliberate choice, could maintain their position for any length of time.

"It was decided, therefore, formidable as the attempt undoubtedly was, to try and give relief by a counter-attack upon the first line of the German trenches, now far, far advanced from those originally held by the French. This was carried out by the Ontario First and Fourth Battalions, of the First Brigade, under Brigadier-General Mercer, acting in combination with a British brigade.

"It did not seem that any human being could live in the shower of shot and shell which began to play upon the advancing troops. They suffered terrible casualties. For a time every other man seemed to fall, but the attack was pressed ever closer and closer. The Fourth Canadian Battalion at one moment came under a particularly withering fire. For a moment, not more, it wavered. Its most gallant commanding officer, Lieut. Colonel Birchall, carrying an old fashioned, light cane, coolly and cheerfully rallied his men, and at the very moment when his example had infected

instantly we and preemptory orders were for withdrawal, but he, knowing may be, better than they, the claims which still lay in front of the unwilling to inflict upon them disabilities of a maimed man, very plutely refused, and asked of these thing only, that there should be in him as he lay alone in the trenches loaded Colt revolvers to add to his own, which lay in his right hand as he made his last request. And so, with three revolvers ready to his hand for use, a very brave officer waited to sell his life dearly, wounded in an abandoned trench."

Dominion Theatre To-morrow Night.—The Rev. J. B. Warnicker will take as his subject "Can the Theatre Be Elevated? Does It Need Elevating?" Mrs. Baird, the talented contralto, will sing.

Memorial Service.—On Sunday forenoon the service in St. Andrew's church will be a memorial to the soldiers who have fallen at the front. In the evening the minister, Dr. Clay, will discuss "some fundamental differences between Christian Science and Christianity."

Oiling Roadways at Willows.—The question of whether the roadways at the Willows park should be oiled, as requested by the health authorities, brought up the issue as to the future of the park there at the streets committee yesterday. The expenditure, as estimated by the city engineer, is \$315, and it was decided to obtain additional information before authorizing the same. Several of the aldermen had information that the troops would be moved to the interior shortly.

Fusiliers Band Concert.—A feature of the concluding concert to be given at Pantages theatre by the Fusiliers band will be an impersonation of the well known bandmaster, John Phillip Sousa, by W. Davidson. Also assisting will be Mrs. Hargreaves, cellist; Ernest Petch, baritone, and Walter Charles, pianist. Bandmaster Rowland has selected a very popular list of instrumental pieces which includes the descriptive fantasia of British airs where a battle scene is brought in. Another popular selection will be "Gems From the Operas" and different solos from such operas as "Faust," "Il trovatore," "Carmen," "Martha," "Regioletto," etc., will be heard.

Stadacona Park Greenhouses.—The greenhouses at Stadacona park are particularly attractive at the present time, with a magnificent display of calceolarias in one of the houses.

The Supreme Test.—At the First Unitarian church, Fernwood and Figgard, the pastor, Rev. H. E. R. Spolight, M. A., will preach to-morrow on the subject: "They Did Their Duty: What is Ours?"

April Bank Clearings.—The bank clearings for the month ending yesterday were \$6,814,069, as compared with \$10,987,272 in April 1914, and \$15,294,112 in the corresponding month of 1913.

Gorge Park Bath-house.—Owing to the early season this year, a responsible man will be placed in charge of the bath-house at the Gorge park immediately. Complaints have been made of the damage to the premises on the last few Sundays by boys.

Gold Medal Contest.—The West End Union of the W. C. T. U. will hold a gold medal contest on Wednesday next, May 5, in Wesley church, Victoria West, commencing at 8 p. m., when five silver medalists will compete for the gold medal. Much interest is taken in these medal contests which are proving both instructive and entertaining. A good musical programme will be rendered and a big audience is expected. A collection will be taken in aid of W. C. T. U. work.

Fire Loss.—The fire loss within the city limits was very small last month, being \$252.50 only on buildings. One box alarm, and 12 telephone alarms were received. The following are the departmental statistics: Number of feet of 2 1/2-inch fire hose laid, 4,409; gallons of chemicals used, 252; feet of ladders raised, 225; miles traveled by department, 69 miles 960 yards; hours worked, 18 hours 3 minutes; rubbish burning permits granted, 232; gasoline tanks inspected, 2; buildings inspected, 21, and notices served, 17.

Allen Players.—The Allen Players' attraction at the Princess theatre next week will be "The Blindness of Virtue." This is the brilliant play which has suddenly stabled all thinking people into wakefulness to one of the most insidious and least acknowledged of domestic vices—a vice which walks, disguised as a virtue, into the heart of the most sheltered homes. In the drama, Mr. Hamilton teaches with laughter. His lesson is no less grave because he smiles. It is a play which deals with possible tragedy, yet is a comedy. Seats may be reserved for any performance by telephone or at the box office.

Australian Boys Coming.—Members of the Young Australia League who are now in California will visit Victoria in June on their way across the continent. The party went from Sydney to New Zealand, and thence across the Pacific to see the fair. Following a tour of the golden state they are coming north. When the B. C. High School boys went to Australia they were entertained and taken care of by this organization. It was arranged that the Australians should have free transportation over Canada, but owing to the war the plan was cancelled. It is proposed now to approach the Dominion government again on the subject to obtain the concession.

Gorge Club Dance.—All arrangements have now been completed for the Gorge club dance on Monday evening next in the Connaught hall. Dancing will start promptly at 9 o'clock to the music of Miss Thain's special orchestra, for which an up-to-date programme of dance music has been prepared. Mr. Campbell will again have charge of the supper arrangements, which have proved so faultless in the past. Moonlight dances and other electrical effects will be featured, and these, with other details which the committee have perfected, all indicate that this, their closing dance, will be the most enjoyable one of the season. Dress will either be informal, or flannels and shirtwaist. The floor committee will be Messrs. E. Ware, G. Minty, W. Lawrie, T. Fellow, S. Ware, W. Bracken, and S. Griffith, while Messrs. H. Campbell, H. Brennen, B. Griffith, E. N. Hasenfratz, E. Rom-bough and B. O'Neill will look after the refreshments. A few invitations can still be obtained by communicating with the secretary at phone 383.

Soldiers.—All "Jitneys" and Willows cars stop at the Skene Lowe Studio, corner Yates and Douglas. Headquarters for Seplars.

A communication was received by the board of aldermen last evening from the claimants for damages arising out of the use of the Colquitz stream, and asking that the committee meet the claimants with a view to arriving at some settlement in the matter.

W. L. Cusack, of Victoria, was killed at New Westminster to-day in attempting to board a moving train on Front street. He leaves a widow, daughter of Alderman Kelly, and two small children. He was 32 years of age, and was traveler for S. J. Pitts.

The wedding took place to-day at the residence of Mr. Richard Caselton, of Miss Edith Caselton and Mr. John L. Smith.

Building Permits.—The building permits for the month of April were \$21,100, an advance on last month. There were 22 permits.

Young Child Drowned.—The two-year-old child of Mr. and Mrs. Hocking, of North Saanich, was drowned in Deep Bay on Tuesday. How the accident took place is not known, but it is likely that the little one stumbled into the water while toddling along the shore and was unable to help itself. The body was interred on Thursday.

Musical Examination.—The written examination in connection with the Associated Board of the Royal Academy of Music and the Royal College of Music will take place on Wednesday next, May 5, at 9.30 a. m. Through the kindness of the schoolboard the examination will be held in classroom No. 9, in the new high school.

All who feel a sympathetic interest in the object of the meeting, and would be prepared to pledge financial support in such an undertaking, are invited to be present. The proceedings will begin at 8 o'clock.

This financial house has a direct wire service with the New York, Montreal and Chicago markets, and quotations are received continuously. F. A. Sorden, who will be the local manager, is a financial man of long standing, having held many important positions in eastern financial houses. N. E. Noble, manager for western Canada, was in the city to-day, completing arrangements for the opening of the Victoria office. McDougal & Cowans are members of the Montreal stock exchange, and are the Canadian correspondents of E. & C. Randolph, one of the largest brokers and investment companies in the United States.

NOTE—The management wishes to lay particular stress on the announcement of Mr. Drew's coming engagement, since it marks one of his few appearances in this territory in the famous revival of "Rosemary," brought about by Charles Frohman in response to innumerable requests, received continuously during the past few years, that Mr. Drew again be seen as Sir Jasper Thorndyke, one of his most notable roles. The opportunity of witnessing Mr. Drew's splendid performance in this delightful comedy is a rare and very welcome one.

"MOTORING"

Funnist Sketch in the World at Pantages All Next Week; Harry Tate's Company.

The funniest playlet that was ever staged—"Motoring"—will be seen on the boards of Pantages theatre all next week. It will be put on by Harry Tate's famous company of star comic actors, who have made their reputation all over the world in this hilarious sketch. No one can afford to miss this boom-killer. It is probably the biggest thing in the vaudeville line ever seen here.

After a long career of success at the principal London music halls and the vaudeville theatres of the United States it is still as fresh as ever. It is funny because it is suggestive of comedy from the moment it appears on the scene until the property automobile is wheeled off. You must enjoy the troubles of the motorist whether you are an owner of a car or a "jitney" rider.

Ethel Arnold is the special added attraction. She is, worthy the place of honor assigned her on the bill. Her singing and patter prove her to be an artist of ability. Earl Taylor at the piano is worthy of his claims. Nolan and Nolan are seen in a new conception in juggling acts. They are especially popular with the children. The "Three Dusty Roads" is the designation of an act in which Johnson, Howard and Lisette give a mingling of acrobatics and fun which proves most refreshing, original and effective. The Personality Girls, a number of clever damsels, Misses Curtiss and Hebard, put over a number of sprightly and original dances and sing some of the latest songs hits. Tom Kitchin and Gibson in "Odd Bits of Vaudeville," are bound to be popular here.

The excellent bill which has proved so popular this week, will give its last presentation to-night at the usual performance.

Shattered NERVES The Nervous Strain of Recent Months Has Ruined the Health of Many a Business Man. Sleeplessness, Headache, Nervous Indigestion, Irritability and Depression Toll of Exhausted Nerve Force. Never before has the strain on the nerves of the business man been so great as since the beginning of the war. With some it has been a question of lessened profits, while others have been thrown out of employment or seen their business go down with a crash. Worry and anxiety are the most frequent causes of nervous disorders. It is, therefore, not to be wondered at that in many cases the depression in business has resulted in shattered nerves and ruined health. Dr. Chase's Nerve Food has proven itself the greatest of nerve restoratives. It is no miracle-worker, but supplies to the human body, in condensed and easily assimilated form, the ingredients from which Nature forms new, rich blood and new nerve force. When the nervous system is greatly exhausted it requires patient treatment to revitalize the wasted and depleted nerve cells. Since cure is brought about by the building-up process, you can be sure that each dose of this great food cure is at least doing you some good, and that the results are bound to be beneficial. By the use of Dr. Chase's Nerve Food the vital organs of the body are quickened into action. Digestion improves, the heart's action is strengthened, the liver, kidneys and bowels resume their natural functions, and the system is benefited in every way. Gloom and discouragement give place to new hope and courage, and you are helped on the way to health and success.

KAYLOR TO STICK WITH LEAFS

COLTRIN SLATED FOR SPOKANE

Prexy Kingham Says Protest Will Not Stand; Leafs Show Speed on Sacks.

Before President Joshua Kingham left for Seattle yesterday to attend the special meeting of the Northwestern league, he stated to the Times that there was absolutely no truth in the reports circulated that Ted Kaylor would be recalled by the Oakland Coast League club. The Victoria magazine said that Kaylor was here for the year and under no circumstances would the Victoria part with him.

WHITE SOX STAR TOPS THE MAJORS

Ty Cobb Leads Base-Stealers; Averages to Date of the Big Leagues

Chicago, May 1.—Jacques Fournier, the White Sox slugger, with an average of .483, leads the batters of the American league, according to averages published here to-day. The league's veterans are well to the front with Cobb, Detroit, hitting .429 and closely preceding Veach, his teammate, with .428 for second place. Others among the leaders are Lapp, Philadelphia, .417; Jacobson, Detroit, .409; Crawford, Detroit, .388; Strunk, Philadelphia, .378; MacInnes, Philadelphia, .378; Turner, Cleveland, .348; Jackson, Cleveland; Harzel, New York; Thompson, Philadelphia; Williams, Washington; and Thomas, Boston, .333 each. With nine thefts to his credit, Cobb leads the base-stealers.

shortly, however, and he is a much better hitter than the diminutive Bobbie. Coltrin will probably hook up with Aberdeen, as that club is in real need of strengthening to keep pace with the other Northwestern League clubs.

That meeting of the Northwestern magnates at Seattle to-day, will bring out a few interesting items. The question of carrying fifteen men per club will be discussed, while the suit of Harry Watkins against the league will also be taken up. Spokane's chances of winning the protested ball game on Thursday, are very small. Prexy Kingham is fully aware of the conditions at Victoria and protests as to the local grounds, will not hold much water. Twenty-eight stolen bases to date is the record of the Victoria club, and in this respect they are leading the other Northwestern leaguers. It might be also mentioned that Willis Butler has stolen sacks to his credit, while Hunkey and Ted Kaylor are also well up. Victoria's base runners are also working against the best pitching catchers in the league in Cheek and Brenegan.

Only two weeks remain until the opening of the amateur season, and with West- Victoria here on Victoria Day, the locals must get down to real work, if they are to get off to a flying start this season.

FIFTEEN HITS AND THEN LOSE A GAME

Woods Gave Indians a Big Lead Yesterday; Locals' Rally Fell One Run Short

Marty Nye booted one yesterday when he sent Lefty Woods to the mound against the Indians, and the latter club emerged with their second win of the week after a hurricane finish, the final count being 9 to 8. Victoria came from behind in wonderful fashion and almost tied up the score, having two runners left stranded in the ninth, when a hit of any kind would have tied the score. It was a contest that kept the fans on edge all the way through, the gameness of the Leafs in pulling down Spokane's seven-run lead making a big hit with the fans and fanettes.

Hefty clouting featured the clash, Victoria outbitting the Redskins, only to lose out because of the absence of bunched hits. Victoria had half a dozen chances to win after Wayne Barham took up the hurling argument, but only in the eighth did they get to Arlett with any success. Extra base clouts and passes proved the winning factor for the visitors, they counting seven of their runs off Woods in the first three innings, on eight hits and three franks to first. A sensational catch by Neighbors was the fielding feature, while Sheely with four hits and two stolen bases, topped the individual performers.

There were two plays in the first and third innings that would have entirely changed the complexion of affairs. In the first, on Brenegan's tap in front of the plate, Williams scored from second, while Brenegan was retired at first. Kelly's return to Haworth was wide and the latter fell when he had plenty of time to tag the runner. Again in the third, after two were down, Haworth pegged over second base and a runner scored from third, on what should have been an easy out. This pair of runs, had they been eliminated, would have cut down Spokane's lead considerably.

Woods had little when he went into the box, appearing to feel the effects of the chilly breeze that blew across the diamond. At any rate he was touched up for five hits that netted three runs in the first. In the second, two hits and a sacrifice counted another, while the third witnessed his downfall. With the bases filled he walked Arlett, forcing in a run. Barham then went in and stopped the frolic. A double and three singles off Brenegan in the eighth added a brace of counters to the Spokane total.

Butler's single and Kelly's double gave Victoria a run in the third. Shaw's single, a hit batsman, a walk and two infield outs, made number two for the Leafs, while in the sixth another pair were collected. Singles by Haworth and Barham, Lewis' error and Butler's infield tap, furnished one run, Shaw's infield out counting the other. In the eighth, with one down, Kaylor, Kelly singled, scoring Shaw, fanned, Kelly singled, scoring Kaylor, Tobin singled, scoring Butler, Nye and Menges followed with safe bases, sending in runners ahead of them, but with the bases filled, Haworth forced Menges at second. In the ninth Arlett struck out Pinch Hitter Otto Nye and Kaylor, on called third strikes. Butler singled and stole second. Shaw walked, but Kelly could not come through, popping out to Altman.

It was a heart-breaking finish, and demonstrated to the fans that the Leafs can never be considered beaten until the last batter is down. Fifteen hits and eight runs should win any ball game, but the Leafs were handicapped at the start when Woods spotted Spokane seven runs, so that their remarkable finish was a real thriller.

Portland, Ore., May 1.—George Kirchner, outfielder, has been released by the Portland Coast league club, it was announced. Patrick Callahan, who recently was sold to the Spokane Northwestern league club, has refused to report at Spokane and will return to his home at Chehalis.

Los Angeles, May 1.—Charles Chech, veteran pitcher who came to Los Angeles from the major leagues 13 years ago, was unconditionally released yesterday. With Horstman sent to the Northwestern league, Emil Meusel sent back to Elmira, N. Y., and McDonald suspended pending his recovery from an injury, this brings the Los Angeles club down to the player limit.

"Extra Service" Facts About FEDERAL Double-Cable-Base Tires

Heavy endless double steel cables in the base of the tire positively eliminate rim-cutting, tube pinching, blowouts just above the rim and the danger of a tire blowing from the rim.

Seventeen years of experience puts extra endurance into the Federal process of combining fabric and rubber.

Eighth of an inch extra thickness in the sidewall of Federal Tires is extra protection against rut and curbstone wear.

Federal Treads—The "Rugged Tread" is genuinely scientific protection against skidding. The "wrapped tread" process adds hundreds of miles to the life of every Federal plain casing.

In their mileage and safety Federal are truly "Extra Service" Tires.

SPEEDY COASTING LINER IS DISABLED OFF POINT ARENA

S. S. NORTHERN PACIFIC.

The fastest liner under the American flag is in difficulties off the coast, according to dispatches received to-day. She left Flavel, Ore., yesterday, bound for San Francisco, and her steering gear was disabled by the heavy sea which is still running as a result of the northwest storm which sprang up on Wednesday.

The Northern Pacific is a sister ship of the Great Northern, and is operated by the Great Northern Pacific Steamship Company. At the present time the Great Northern is undergoing extensive repairs to her machinery at San Francisco. The two ships are

each 624 feet in length, have a 63-foot beam and a draft of 30 feet. They have six decks and are elegantly furnished and fitted throughout. On their trial trips they succeeded in attaining a speed of 24.5 knots an hour and have smashed every record in existence on this coast.

RUNS THROUGH HEAVY STORM COMING NORTH

For twenty-four hours the Maple Leaf liner Buenaventura, Capt. Fitzsimmons, battled with the terrific northwest gale which has been sweeping the Pacific coast of late, and was delayed twelve hours in reaching port. Off the mouth of the Columbia river she encountered the hurricane in all its fury, and although her engines were turning over at full speed she progressed less than six miles an hour.

The Cetriana was released when the state department filed a protest with the Mexican authorities.

PUTS UP BONDS AND PROCEEDS TO ORIENT

After putting up bonds to satisfy the libel which was plastered against her yesterday afternoon, the Osaka Shosen Kaisha liner of Chicago, Maru, Capt. Surega, proceeded on her voyage to the Orient this morning at 11 o'clock. Duncan, Creedan & Avery, of Vancouver, are the plaintiffs, and they claim \$1,800 as damages to cargo which was brought to this coast on the Chicago consigned to them. The case will be heard in the courts shortly.

Buenaventura Had Hard Battle Off Columbia; Ran Submarine Blockade

The big freighter left Swansea the day von Terpitz's submarine blockade went into effect. She did not see a periscope nor any other part of an under-water fighter. The Buenaventura had a fair run across the Atlantic and at New York loaded several thousand tons of steel-products and general merchandise there for British Columbia ports.

R. palatial steamer Princesa Alice, which is now laid up at this port before being hauled and outfitted for the northern tourist trade. She will leave on her first voyage on June 4, and will continue in the service until the end of August. The Princesa Alice will maintain a fortnightly schedule between Victoria and Alaska with the steamer Princesa Sophia.

Princesa Alice Will Leave With First Excursion on June 4; May to Lay Up

Last year the Princesa Alice made five trips to Skagway, and business was so profitable that the company decided last fall to place the Princesa Charlotte in the trade this year. But this plan was upset through the requisitioning of the two new Princesas which were built at Dumbarton, Scotland, by the British admiralty. As a consequence the Alice will be the excursion steamer this summer.

DANISH COMPANY PLANS NEW SERVICE TO COAST

Seattle, May 1.—Operating one of the great merchant fleets of Europe, the Union Steamship company of Copenhagen, Denmark, which was formed by the merging of the Danish East India company and the Tingvalla Steamship company, is planning to place a number of its biggest freighters in a new service between Scandinavian and North Pacific ports via the Panama canal, with Seattle as the western terminus. The company owns 47 vessels. Of these seven are motorships. One of the motorships, the O. B. Suhr, ranks as the largest vessel of that type in the world. She operates in the transatlantic passenger service. The Union Steamship Company, of Copenhagen, is owned by the Suhr estate, which bears the same relation to Denmark that the house of J. P. Morgan & Co. bears to New York. Members of the family are scattered all over the world, but all have an equal voice in the affairs of the estate.

FINANCES OF THE PATRIOTIC AID WORK. Statement Presented Showing Expenditure and Income; Many Allowances Made. The accompanying statements, with the auditor's reports, have been presented at a recent meeting of the trustees of the Victoria Patriotic Aid Society. The auditor (A. F. Griffiths) informed the board that he had given his services free of charge. A resolution was passed expressing the appreciation of the trustees, and their thanks for his valuable services. The number of families to whom allowances were paid for the month of March was 298; and in addition, allowances to 32 families, paid at the request of the provincial branch of the Canadian Patriotic fund, which will afterwards be refunded, made a total of 330 cases assisted in March. In April there will probably be 350 local cases, and 40 for the provincial branch, making a total of 390. Cash account from 12th September, 1914, to 31st March, 1915. Receipts: Subscriptions, general, \$85,767.48; for special purposes, designated by subscribers, \$5,594.10; \$30,361.58; bank interest, \$46.83; total, \$90,444.46. Disbursements: By allowances to dependents of soldiers and sailors, disbursed by society, \$18,331.99; disbursed by I. O. D. E. at request of this society under the schedules of Canadian Patriotic fund, during the period of organization, averaging \$14.50 per case, and refunded to them, \$2,204.45; total, \$21,156.44. Allowances per clause 2, \$14,825.00. The cash account of the Victoria branch of the Canadian Patriotic fund from September 12, 1914, to March 31, 1915, regarding subscriptions designated by the subscribers as only for the Canadian Patriotic fund, and deposited direct to a special account of that name in the bank, shows:—To subscriptions received, \$15,237.30; bank interest, \$17.35; to 30th Nov. 1914; \$15,255.15. By balance in hand—Cash: \$15,255.15; at office, \$2,909; total, \$18,164.15.

CONCENTRATION CAMP NOT YET SELECTED. Speculation is rife as to the point in the province which will finally be decided upon for the concentration camp which is to be organized in the near future. It is understood that Lieut. Col. J. D. Taylor, M. P., who has apparently been deputed by the department at Ottawa to make a tour of possible favorable sites throughout the interior, is to-day in the Nicola Valley looking over the thoroughly enjoyed spot yesterday he was in Kamloops, accompanied by several influential gentlemen, during the morning leaving for Schiedam, whither he was attended by Colonel J. R. Vickers and Lieut. Moodie of the military staff at Kamloops. Merritt and Vernon are also coming in for visits of inspection, but up to the present nothing has been announced. The second C. M. R., who went out through the Spanish peninsula for a three-day's route march this week, benefited by the experience he had, and incidentally thoroughly enjoyed the manoeuvres which were held in the field on the Wesley Brethour farm, adjoining the camp ground. Here, on Wednesday afternoon, they went through a number of exercises and manoeuvres, which displayed a very fine development in the efficiency of men and horses alike. An interesting competition was a tent-pegging event in which Lieut. Bennett, of B. Squadron, took first honors, Lieut. Barrie, of C. Squadron, second. The greater part of the programme was by way of a rymikans, the second event being a competition in slicing lemons. Sergt. Major Marshall, of C. Squadron, won first; Sergt. Webb, of C. Squadron, second. Subsequent events of particular interest included tilting-at-the-ring, the winners being Sergt. Major Marshall, first; Capt. Foster, second.

Sportsmen are requested to note that the trap shooting will recommence Sunday May 8, when it is hoped that a good muster will be present to start the season well. Good Cook Book.—The second of that admirable household compendium, "The King's Daughters' Cook Book," has already brought into the coffers of that organization the sum of \$500. The cook book is most attractively got up, the cover design being rather more pleasing than is usual with the encasement of this particular type of information. This is the work of Mrs. McKicking, leader of the Ministering Circle of the order, who has worked so assiduously to make the publication "go" well. She and other members have been entirely successful, and it is worth noting that on the day of the annual flower show of the King's

A corps of Boy Scouts and schoolboys helped in the work of collecting in the various districts of the city, and a large number of members of the Red Cross society and the I. O. D. E. were at the rooms sorting and arranging the linen as it arrived in high consignments. THIRD RESIDENCE DESTROYED THIS WEEK. Home of Mr. and Mrs. E. H. Cotterell Guttered in Early Hours of Morning. Much sympathy will be felt for Mr. and Mrs. E. H. Cotterell, because of the destruction of their residence by fire this morning. The house is situated on the Cedar Hill road, near the junction of the main Saanich road and North Quadra street, and is well known for its large orchard adjacent to the road named. Mr. Cotterell, it is stated, was awakened by the smell of fire, apparently proceeding from the kitchen, and the family were obliged to make a hurried escape by the windows. Only about \$200 worth of furniture was saved out of the valuable contents. The loss is estimated at about \$8,000, of which \$2,000 is protected by insurance. The cause of the fire is unknown, on account of the absence of houses in the vicinity. It was difficult to secure any assistance. This is the third serious fire in Saanich this week, in all of which cases the houses have been destroyed. In this last case, as in the destruction of Mr. McVior's place on the West road, the family had narrow escapes, while the Woodward residence was gutted on account of the lack of a water supply, although the firemen were on the spot in plenty of time. MAY COUNTY COURT. Trials to Be Listed and Naturalization Applications Heard on Monday. May county court will begin on Monday with the hearing of naturalization applications, of which there are about one dozen, with four left over from last month. There are three unheard trials of this month to be taken after the calling of the county court list for arrangements of dates. These are: Howard against Casree, Balgoin against Wilson, and Lasman against Bowden. Following the hearing of judgment summons cases, his honor will take cases in which the litigants are not represented by counsel, and then will proceed with the list. Judge Lampman to-day was hearing an application in chambers at Nanaimo. OBITUARY RECORD. The remains of the late Mrs. Sol. Oppenheimer, whose death occurred early this week in San Francisco, arrived in the city this morning from the north, accompanied by the deceased's sister, Miss Leiser. The funeral will take place to-morrow afternoon at 2.30 from the residence of Mr. and Mrs. Simon Leiser, 1065 St. Charles street, to the Jewish cemetery. The funeral service for the late Mrs. W. P. S. Porter took place yesterday. Venerable Archdeacon Scriven officiating. Immediately afterwards the remains were shipped south, accompanied by the deceased lady's husband, Capt. W. P. S. Porter, to be interred beside their daughter in the Mountain View cemetery, Oakland, Cal. The late Mrs. Porter will be greatly missed by many friends here, in whose affections she held high place. During her residence in the city she devoted much of her time to good deeds and the alleviation of distress.

FOUND WITH SILVERWARE. Chinese is Picked Up on Street With Quantity of Loot in His Possession. About three o'clock this afternoon Constable Allen, of the motor-cycle patrol, noticed a Chinese walking along Vancouver street carrying a gunnysack. His suspicions were aroused and he investigated. The result was the calling out of the patrol wagon and the transport of the man to the station, where he gave the name of Wong. Stuffed in his pockets were a variety of small articles and the sack was more than half filled. There was a quantity of silverware, of assorted descriptions, evidently taken from some residence of well-to-do people. Judging from its quality and the character of some of the pieces. There were also articles of clothing, old and new. Wong seemed to have undeveloped taste in that way, although his taste in silver is good. None of the articles were marked in any way that would lead to the identity of the owners being discovered, and the police desire that anyone who has lost anything in this line would notify them and have a look at the stuff. Wong will be arraigned on Monday. ORDAINED TO-DAY. Rev. F. Comley Advanced to Priesthood; R. B. Frampton Ordained Deacon; Service at Cathedral. An ordination was held this morning at Christ Church cathedral, when Rev. F. Comley was advanced to the priesthood. Mr. Comley has been engaged in Columbia coast mission work at Van And, and is now leaving for Alert Bay, where he will fill Mr. Corker's charge during the latter's absence on furlough in England for the next year. This morning also at Christ Church cathedral K. B. Frampton, of Latimer hall, was ordained deacon, and will be sent to Van And to take Mr. Comley's place. The Rt. Rev. Bishop Roper officiated, Rev. W. Baugh Allen, the rural dean, saying the Litany, and assisting in the celebration being Rev. C. Sweet, of St. James'; Rev. Robt. Connell, of St. Saviour's church; the Venerable Archdeacon Scriven, and Rev. the Hon. T. R. Hensago. There were also present the following clergy: Rev. Mr. Keeling, Rev. C. R. Litterer and Rev. F. H. Fatt.

Continuing Campaign. Y. M. C. A. Will Solicit Subscriptions Until Wednesday Next Week. At the closing meeting of the campaign workers of the Y. M. C. A. held yesterday afternoon the sections were checked up, and it was discovered that many of the workers had not completed their work. As a result it was decided to carry the campaign over until next Wednesday night, and by that time every part of the city will have been canvassed. Some of the city churches will to-morrow ask for subscriptions for the Y. M. C. A., but the general appeal from the sacred institutions will be withheld for a short time, when it is planned to have a "Dollar Day" campaign, and every person in the city will be asked to contribute in the dollar to assist in clearing away the deficit which the association is now suffering under. The churches at that time will probably make a joint appeal for support for the Y. M. C. A. The Y. M. C. BEAR ELEMENT TOOK ALARM AND COVERED

Chicago, May 1.—Developments in the Chicago wheat trade to-day were somewhat surprising as the deliveries reported before the opening were much larger than expected, showing that considerable wheat had been transferred quickly and quietly from private to public elevators during the week. The trade took the selling side at the outset because of this. Offerings seem to dry up very quickly, and when good buying orders came into the market there was a strong natural uptick from bottom quotations, and as the advance of the first hour held well, the short interests took alarm, and in covering gave prices a further uptick during the last hour. Stocks of wheat are decreasing fast in northwest markets.

SOME OF DEMANDS REJECTED BY CHINA

Provisions of Reconstructed Group Are Held to Be Menacing

Peking, May 1.—The Chinese government definitely has refused some of the most important demands made by Japan.

On learning of China's decision, the Japanese minister, Eki Hoki, said to the Chinese foreign minister, Lu Cheng Hsiang: "I am sorry. I believe my government will be disappointed."

The Chinese foreign minister, at a meeting to-day of representatives of the two governments, presented China's reply in the shape of a formal note. This note announced China's rejection of group 4 of the Japanese demands in its entirety. This group was originally submitted to China contains what are perhaps the most important demands made by Japan. It provided, among other things, for employment by the Chinese government of "forceful Japanese" as political, financial and military advisers; participation by the Japanese in the police administration of various important places; Japanese supervision over the manufacture or purchase by China of munitions of war; and for the granting to Japan of concessions for railway construction and mining and harbor operations.

The new draft of the Japanese demands which were presented on Tuesday reconstructed Group 4 in a manner which the Chinese representative declared was more menacing.

The Chinese refusal was modified to some extent by an offer to meet the revised wishes of Japan in regard to the province of Fukien, providing that China shall give Japan a pledge that no foreign power shall be employed without Japan's consent in that province.

THE DAY'S TRADING ON WINNIPEG MARKET

Winnipeg, May 1.—Wheat futures opened 1/2c lower for May and July and 1/2c higher for October. Cash opened 1/2c higher, and flax 1/2c lower to 1/2c higher.

Following the opening there was a reaction and values advanced, May touching 104 1/2, July 104, and Oct. 124 at about 10:30 a. m., closing off again later. This advance was attributed to shorts covering over the week-end and unfavorable weather in Argentina. Talk of dry weather in Saskatchewan also was a factor in hardening the prices, although light rains have occurred at Moonbeam. Prince Albert delivered through the clearing house to-day were: Wheat, 52,000 bushels; oats, 96,500 bushels; flax, 42,000 bushels; and barley, 146,000 bushels.

Wheat futures closed 1/2c to 1/2c higher. Cash closed 1/2c to 1/2c higher. Flax closed 1/2c to 1/2c higher.

Berlin, May 1.—German military headquarters under date of to-day gave out a report on the progress of hostilities reading: "All attacks of the enemy on the west bank of the canal northwest of Ypres, and on the east bank of the canal north of Ypres, resulted in failure."

"The fortress of Dunkirk was shelled yesterday by German artillery."

One thousand Russians were taken prisoners and ten machine guns, a great amount of baggage and ammunition carts and a large quantity of ammunition were captured."

LEADER PRAISES THE SOLDIERS OF CANADA

Ottawa, May 1.—Sir John French, commander-in-chief of the British forces, replying through the war office to Sir Robert Borden's message of congratulations to the commander and the Canadian troops, called as follows: "I thank you heartily for your telegrams, which I have communicated to the Canadian troops. Canada has indeed reason to be proud of her sons, and their devoted bravery has done more than anything else could have done to weld together the British Empire."

LIBERAL MEETINGS WILL BE POSTPONED

In View of Saddening News From Front No More Will Be Held for Present

It has been decided by the Liberal organizations of the city, in view of the heavy casualty lists coming in from the front, where Victorians have been doing such splendid work in defence of the empire, to postpone all meetings indefinitely.

It is generally felt by the leaders and in the ranks of the party, that while so many are mourning the loss of relatives, and while the city as a whole has to lament the death of such numbers of its best citizens, it would not be seemly to conduct any meetings where controversial matters would be discussed.

This resolution was taken and put in force immediately in connection with the meetings of the mock parliament, a session of which was held in the Knights of Pythias hall last evening. Although the meetings have been very largely attended, and the parliament is proving a most useful and popular institution, it was unanimously agreed by the members that it should cease its activities for the present under the circumstances.

Before the news came in which led to this action being taken a debate was initiated and carried through on the subject of the establishment of a department of public health under the charge of a responsible minister of the crown. This was led by Dr. Melbourne Raynor, and the discussion was participated in by Duncan Ross, J. B. Clearhue, Fred M. McGregor, Dr. M. W. Thomas, Williams Hughes, Arthur Brakes, Robert Morrison, E. H. Cotterell and others.

The need for more watchful care of health matters was pointed out by the several speakers, and this was elaborated along the lines of attention to tuberculosis, child health, and welfare, use of alcohol, production and sale of milk, sanitation in factories, camps and all places where people are employed, and greater government aid to hospitals. It was emphasized that while milk coming into the city can quite easily pass inspection as up to the standard in butter-fat it may be full of disease germs; and that there is no power on the part of a municipality to exercise control over dairy stables outside its boundaries.

Some photographs were shown of stables in the vicinity of Victoria from which milk is being brought into the city for sale, or was until within a few days, displaying filthy and unsanitary conditions in which milk could not possibly be kept pure and sweet. Many of these places are run by Hindus, men of which race have been getting a hold of the milk business of late.

In the matter of tuberculosis it was urged that the state ought to take hold of the treatment of this most widespread and menacing disease, that it should be made reportable, and that every effort ought to be made to stamp it out.

At the close of the discussion H. C. Brewster, leader of the Liberal party in B. C., said a few words, expressing his appreciation of the educational work being done by the parliament but recommending that this ought to be dropped for the present in view of the conflict in which the empire is engaged, the results of which in dead and wounded were now coming so closely home to Victorians.

C. H. I. C. JUDGMENT IS REVERSED ON APPEAL

Chief Justice Hunter Said to Have Exceeded His Authority in Liquidation Case

Two recent judgments of Chief Justice Hunter in the Canadian Home Investment liquidation have been reversed by the court of appeal sitting at Vancouver. The court finds that the Chief Justice exceeded his authority when he overruled decisions of Mr. Justice Murphy.

The successful appeals were brought by J. A. MacInnes, acting on behalf of contract holders of the C. H. I. C. These contract holders had taken action against the company last October before the company went into liquidation, and obtained from Mr. Justice Murphy the appointment of J. Y. Griffin as receiver of a loan reserve fund, with instructions for Mr. Griffin to take accounts and report to the court.

Shortly afterwards the liquidation proceedings were brought before the chief justice, Joseph Martin, K. C., appearing for the petitioner. The chief justice appointed a liquidator in the person of J. G. Forrester. A conflict of authority in regard to the loan reserve fund ensued between the two officials, which ended by Chief Justice Hunter discharging Mr. Griffin from his receivership and appointing Mr. Forrester in charge of the fund. From this decision the appeal was taken, J. A. MacInnes arguing the case for the contract holders and Mr. Martin for the liquidator.

In referring to Chief Justice Hunter's order Chief Justice Macdonald said that it was a case of "intermeddling," if he might coin a word. Mr. Justice Martin said that it was a clear case where the lower court had exceeded its jurisdiction and disposed of a matter improperly, while Mr. Justice McPhillips referred to the orders as "extra judicial and unnecessary." In a second appeal in which the same grounds were

APPOINT MEMBERS TO CO-OPERATE HEARTILY

After Hearing Deputation Aldermen Support Idea of Cleaning Up City

Aldermen McCandless and Dilworth were appointed by the streets committee of the council to co-operate with

the committee of citizens who are promoting a cleaning up day, after hearing a deputation yesterday afternoon. F. Westley Newton, for the B. C. Manufacturers' association advocated the cleaning up of vacant stores and lots, and particularly the burnt area on Government street.

Frank Higgins, president of the Rotary club; R. W. Douglas, for the Real Estate exchange; S. R. Newton, Robert Dinsdale, Builders' exchange; and T. Walker, Affiliated Friendly society, all joined in the appeal for civic cleanliness. Mr. Walker particularly advocated that men should be sent round with gasoline torches to destroy the caterpillars before they reach a more advanced stage, and this latter suggestion will have the attention of the parks committee.

Mr. Dinsdale strongly supported immediate attention to the thistles on vacant lots.

Alderman Porter alluded to the futility of endeavoring to secure a change on the burnt area.

Others attending the meeting included Jess M. Warren, J. Edwards, J. C. Penderay, W. A. Jameson, and C. J. Wright.
