NOTE.—*In reading the following notices of possible openings for United Kingdom goods abroad, regard should be had to the list of articles, the exportation of which from the United Kingdom is prohibited under various Proclamations and Orders-in-Council—see the Supplement to the "Board of Trade Journal" of 17th February; also pp. 535-6 of the "Board of Trade Journal" of 24th February; and pp. 850-2 of the "Journal" of 23rd March.*

Regard should also be had to the Royal Proclamation (see p. 952 of the "Board of Trade Journal" of 30th September) prohibiting exports to China and Siam unless consigned to authorised persons or bodies of persons—see notice on p. 938 of this issue; and also to the notice on p. 21 of the "Journal" of 6th January regarding enquiries as to consignees in Persia, Morocco, Liberia, or Portuguese East Africa.*

The attention of exporters is drawn to the notices appearing on pp. 454-5 of the "Board of Trade Journal" of 17th February—(1) pointing out that the grant of a licence to export does not relieve the owner or other person of responsibility for any breach of law; and (2) setting forth the arrangements made as regards re-exports to British ports oversea.

Attention is also drawn to the notices published from time to time in the "Board of Trade Journal" relative to the issue of licences to export certain goods, viz. :—

Coal and coke, pp. 445-6, 13th May; pp. 666-7, 3rd June; pp. 363-4 and p. 366, 5th August; p. 430, 12th August; p. 595, 26th August;

According to telegraphic information received at the office of the High Commissioner in London for Canada, from the Minister of the Interior at Ottawa, the contractors for the Quebec Government are preparing to proceed with the construction of a dam on the St. Maurice River in Quebec Province, preliminary work having been started last summer. The St. Maurice River is 440 miles in length and has a watershed of 2,700 square miles. The dam is to be constructed 225 miles from the confluence of this stream with the St. Lawrence River at Three Rivers, and will create a reservoir of approximately 300 square miles. The manufacturing towns of La Tuque, Grand Mère, Shawinigan Falls and Three Rivers, have been built up largely through the utilisation of the water powers of the St. Maurice River for paper mills, &c. AUSTRALIA—continued.

The Sydney Office of H.M. Trade Commissioner for Australia has forwarded a specification and tender form in connection with a call for tenders by the New South Wales Government Railways and Tramways as follows:—

Sealed tenders, on the proper forms, will be received up to noon on 24th May* by the Chief Commissioner for Railways and Tramways, Phillip Street, Sydney, N.S.W., for the supply, delivery, erection and maintenance, of 16 (600 volt) *direct current motors, with field rheostats complete, and accessories*, at the Tramway Stores, Randwick. (Specification No. 477.) Alternative tenders are required for *motors fitted with interpole windings*.

Tenders must be accompanied by a deposit or marked cheque† on the following scale:—£5 for tenders not exceeding £200; £10 for tenders over £200 but not exceeding £500; £15 for tenders over £500 but not exceeding £1,000; £20 for tenders over £1,000 but not exceeding £2,000; and 1 per cent of the value of the offer if above £2,000. *Local representation is necessary.*

Copies of the specification, conditions and form of tender may be obtained from the office of the Electrical Engineer, New South Wales Government Railways and Tramways, 61, Hunter Street, Sydney, N.S.W., on payment of 2s. 6d. for each copy.

The above-mentioned copy of the specification and form of tender may be consulted by United Kingdom makers of direct current motors at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. (C.I.B. 11,751.)

The Sydney Office of H.M. Trade Commissioner for Australia also reports that the New South Wales Minister of Agriculture has recently entered into an agreement with a firm of engineers for the supply of plans and specifications for elevators for the bulk handling of grain in the State. It is anticipated that the preparation of these plans will take some months, and that the first building to be erected, namely, the Sydney terminal elevator, will be undertaken about next August. New South Wales will thus be the first State in the Commonwealth to adopt the system of handling grain in bulk by elevators.

Eventually all the States will, no doubt, adopt the bulk handling system on the lines of that followed in Canada. Victoria and South Australia are also moving in this direction, and it is probable that definite plans will be formulated in both States in the course of the next few months. (C.I.B. 11,317.)

* It will be observed that the time for the receipt of tenders is limited and, owing to firms having to be obtained from Australia, this intimation will be of use only to firms having agents, in the Commonwealth who can be instructed by cable.

† A marked cheque is one whose payment has been provided for by the bank on which it is drawn having transferred the amount from the account of the drawer and marked the cheque either "Accepted" or "Certified."

NEW ZEALAND.

With reference to the notice on p. 868 of the "Board of Trade Journal" of 30th December last, relative to the raising of a loan of £115,000 for the purpose of carrying out certain public works at Auckland, the following particulars regarding the progress of the undertakings are taken from a newspaper extract forwarded by the Office of H.M. Trade Commissioner for New Zealand:—

**Building
Material; Plant
and Material for
Water and
Drainage Works.**

The Mayor of Auckland stated on 31st December last that the Council's market scheme had matured and tenders for the buildings would probably be invited in February. Over £50,000 will be spent on this undertaking.

The water reticulation scheme of Grey Lynn, a suburb of Auckland, to cost £10,000, was expected to be put in hand about the end of January. A considerable amount of drainage work was done throughout the city in 1915, and a commencement has already been made on the new drainage works in the Remuera district, another suburb; the latter undertaking involves an expenditure of £30,000.

The Mayor added that the City Engineer was preparing a comprehensive report in regard to city improvement schemes and other desirable works which should claim the attention of the Council during the next few years. (C.I.B. 10,853.)

Metals and Hardware. See article on p. 948.

SOUTH AFRICA.

H.M. Acting Trade Commissioner in South Africa (Mr. H. E. Gauntlett) reports that a Johannesburg agent wishes to get into communication with United Kingdom manufacturers of *black lead pencils*, with a view to securing an agency as soon as manufacturing conditions return to the normal. The enquirer states that supplies of pencils for South Africa have hitherto been obtained from Austria and the United States, and that American makers are at present capturing this trade.

United Kingdom manufacturers of black lead pencils, desirous of appointing an agent in Johannesburg, may obtain the name and address of the enquirer on application to the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street London, E.C. In making application the reference number (108) should be quoted. (C.I.B. 12,213.)

H.M. Acting Trade Commissioner in South Africa has forwarded specifications, &c. in connection with calls for tenders by the South African Railways Administration, as follows:—

(1) Up to noon on 10th April*, for the supply and delivery of 130 pairs of *steel wheels and axles, with bearings complete, for platelayers' trolleys*, together with an additional 15 *wheels only*. (Tender No. 695.)

* It will be observed that the time for the receipt of tenders is limited and this intimation will therefore be of use only to firms having agents in South Africa who can be instructed by cable.

SOUTH AFRICA—*continued.*

(2) Up to noon on 17th April,* for the supply of about 318 tons of *mild steel plates*, in eight different sizes.
Mild Steel Plates. (Tender No. 699.)

Copies of the specifications and forms of tender may be *obtained* from the Secretary to the Tender Board, South African Railways Headquarters Offices, Johannesburg, at which address also sealed tenders will be received up to the dates mentioned. A drawing in connection with the contract for wheels and axles may be obtained from the Railway Stores, Cape Town, Port Elizabeth, East London, Durban, Bloemfontein and Germiston, at a cost of 10s. 6d., which amount will be refunded on receipt of a *bonâ fide* tender and the return of the drawing.

A copy of each of the specifications and forms of tender may be *consulted* by United Kingdom manufacturers of the goods mentioned at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. (C.I.B. 12,211.)

* * * * *

The Imperial Trade Correspondent at Johannesburg (Lieut.-Col. C. A. C. Tremeer, D.S.O.) has forwarded specifications, &c. in connection with calls for tenders by the Johannesburg Municipal Council, as follows:—

(1) Sealed tenders, on the proper forms, will be received by the Town Clerk, Municipal Offices, Johannesburg, up to noon on 16th May* for the supply and delivery of 200 *steel pinion wheels* (cast steel or tool steel) required for tramcar motors. (Contract No. 103) (C.I.B. 11,379.)

(2) Sealed tenders, on the proper forms, will be received by the Town Clerk up to noon on 6th June, for the supply and delivery of two special *manganese steel crossings for tramway track*. (Contract No. 111.) (C.I.B. 12,236.)

Copies of the specifications, conditions of contract, and tender forms, together with blue prints, may be *obtained* from the Municipal Offices, Johannesburg.

A copy of each of the specifications, together with copies of the conditions of tender and tender forms, and a blue print of the pinion wheels, may be *consulted* by United Kingdom manufacturers of the goods mentioned at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.

H.M. Acting Trade Commissioner in South Africa, writing with reference to the use of *woodworking machinery* of foreign manufacture in the Union, suggests that United Kingdom manufacturers of such,

* It will be observed that the time for the receipt of tenders is limited and this intimation will therefore be of use only to firms having agents in South Africa who can be instructed by cable.

machinery might profitably forward their catalogues to firms in the Union who use, or deal in, woodworking machinery, at the same time stating their desire to receive specifications of machinery which it is proposed to instal hereafter, in order that they may be in a position to quote for such requirements.

The names of possible purchasers of and dealers in woodworking machinery may be obtained by United Kingdom manufacturers on application to the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. In making application the reference number (109) should be quoted. (C.I.B. 11,342.)

H.M. Acting Trade Commissioner has forwarded a copy of the **Railway and Harbour Estimates for 1916-17.** Estimates of Expenditure of the South African Railways and Harbours for the year ending 31st March, 1917:—

Railways.—The total estimated expenditure on railways is put at £12,561,101. The following expenses are assigned under the heading "Maintenance of Permanent Way":—*Sleepers*, £86,782; *rails*, £50,101; *other material*, £22,494; *bridges*, £24,005; *crossings, overhead bridges, fences, &c.*, £14,137; *signals*, £27,568; *telegraphs and telephones*, £53,370; and *water supply*, £23,283. As regards material for the maintenance of rolling stock, £297,742 is allotted in connection with locomotives, £96,598 for coaching stock, and £218,590 for goods stock. £39,777 is assigned for expenditure on *lubricating supplies*, £20,562 for *running stores* for locomotives and vehicles, £14,300 for *maintenance of tarpaulins*, and £8,000 for *creosote required by sleeper factories*.

Harbours.—The total estimated expenditure on harbours is put at £1,175,926. The following sums appear under the heading "Maintenance":—*Dredging*, £43,864; *jetties, wharves, and quays*, £14,721; *breakwaters and sea walls*, £5,540; *buildings, &c.*, £19,893.

The copy of the Estimates above referred to may be consulted by United Kingdom firms interested at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.

(C.I.B. 11,375.)

According to information received at the Office of H.M. Trade Commissioner in South Africa, from the Commissioner of Customs and Excise at Pretoria it has been decided by the Administration of the South African Railways to provide a new erecting shop at Salt River near to Cape Town at a cost of, approximately, £23,000. This will enable the heavier type of locomotive now in use to be handled with greater expedition. (C.I.B. 11,341.)

FRANCE.

H.M. Consul at Lyons (Mr. E. R. E. Vicars) reports the receipt of the following enquiries:—

A local business man, who has hitherto represented German firms, wishes to obtain agencies of United Kingdom manufacturers of *glass wares for electric lighting*, such as *shades and reflectors*, plain and ornamented. (Reference No. 110.) *See Note† following.*

(C.I.B. 11,294.)

A local agent wishes to get into touch with United Kingdom manufacturers and exporters of *groceries and hams* with a view to taking up agencies for Lyons and neighbourhood, or even of buying outright. This enquirer formerly represented German firms in the same line of business and is now seeking to make arrangements for the replacing of German by British goods. (Reference No. 111.) *See Note† following, and also Note on p. 912.*

(C.I.B. 11,734.)

Note†.—United Kingdom manufacturers of the goods mentioned and exporters of U.K. goods, desirous of appointing agents in Lyons, may obtain the names and addresses of the respective enquirers on application to the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. In making application the relative reference number should be quoted.

SPAIN.

H.M. Consul at Madrid (Mr. A. Jackson) reports that in his Consular district there is a scarcity of *metal fasteners* ("sillas") for attaching buttons to boots. The names of two firms in Madrid dealing in these articles may be obtained by United Kingdom manufacturers on application to the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. In making application the reference number (112) should be quoted.

(C.I.B. 9,038.)

H.M. Consul at Seville (Mr. A. Keyser) reports the publication of a Royal Decree approving the general plans for the construction of a bridge over the Guadiaro River, in the district of La Línea, near Gibraltar. The length of the bridge will be approximately 300 metres and the estimated cost of its construction about £22,000. Tenders for the execution of the works will be called for shortly.

(C.I.B. 12,263.)

The "Gaceta de Madrid" of 17th March notifies that sealed tenders will be received by the "Junta de Obras de Riego del Valle Inferior del Guadalquivir, Plaza de la Contratación, No. 3," Seville, up to 2 p.m. on 10th April, for the supply and delivery of 2,000 metric tons of *cement* required in connection with the Guadalquivir Canal works. *A deposit*

of 1,500 pesetas (about £60) is required to qualify any tender. Local representation is necessary.

Further particulars (in Spanish) may be consulted by United Kingdom cement manufacturers at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C., where in addition there may be seen the general specifications and conditions of tender issued by the "Ministerio de Fomento" for the supply of cement required for public works in Spain. (X G.)

The "Gaceta" of 13th March notifies that tenders will be opened, at 11 a.m. on 15th April, by the Municipal Authorities of Mota del Marqués (Province of Valladolid), for the construction of a new school at that town, at an estimated cost of 81,531 pesetas (about £3,260).

The issue of the "Gaceta" referred to, containing particulars (in Spanish) regarding the works to be executed and the materials to be employed, may be consulted by United Kingdom manufacturers interested at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. *See Note† following.*

The "Gaceta" of 13th March also notifies that tenders will be received, within a period of 30 days from that date, by the Municipal Authorities of San Felu de Guixols (Province of Gerona), for a concession for the public lighting of that town, either by gas or electricity.

The "Gaceta," containing the text (in Spanish) of the conditions under which the concession will be granted, may be inspected by United Kingdom contractors at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. *See Note† following.*

The "Gaceta" of 18th March notifies that tenders will be opened at noon on 19th May at the "Dirección General de Obras Publicas, Ministerio de Fomento," Madrid, for the construction and working, for a period of 60 years, of an electric tramway in Bilbao, connecting the existing system with the Irala-Barri district. The minimum rolling stock required to commence the working of the line is one motor and one trailer coach for passengers, and one motor goods coach and two trailer goods wagons. Construction work must be commenced within three months and completed within eighteen months from the date of the award of the concession. An option on the concession is held by the "Sociedad Tranvia Urbano de Bilbao." *See Note† following.*

The "Gaceta" of 19th March notifies that tenders will be opened, on 29th April, at the "Casa Consistorial, Plaza de la Villa, No. 4," Madrid, for the construction and maintenance of basalt pavements in the streets of the capital. The period allowed under the

contract for the construction of new pavements will be from the date of the adjudication until 31st December, 1920, and the period for keeping the pavements in good repair will terminate at the end of 1924.

The "Gaceta," containing particulars (in Spanish) regarding the works to be carried out and the materials to be employed, may be consulted by United Kingdom manufacturers of paving plant and material at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. See Note† following.

Note †.—Although the four foregoing contracts will probably be awarded to Spanish firms, nevertheless the carrying out of the works may involve the purchase of some material outside Spain.

ITALY.

The Acting British Vice-Consul at Venice (Mr. H. C. Swan) reports that an agent and importer there wishes to obtain agencies of United Kingdom manufacturers and exporters of *firebricks, sand, chemical products for making glass, soda, and arsenic.* See Note on p. 912. This enquirer states that he has hitherto obtained most of his supplies from Germany. He buys as agent and also on his own account, usually paying cash against documents at a Venetian bank.

United Kingdom manufacturers and exporters of U.K. goods, desirous of appointing an agent in Venice, may obtain the name and address of the enquirer on application to the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. In making application the reference number (113) should be quoted. (C.I.B. 12,060.)

ABYSSINIA.

In a report to his Government, published in "Commerce Reports" (Washington) of 1st March, the United States Vice-Consul at Aden writes that the railway from Djibouti to Adis Abeba is rapidly nearing completion, and when it is opened for traffic there should be a larger market for foreign goods. Some of the articles for which there should be a demand are the following:—*Soap, safety matches, hardware, cutlery, cooking utensils, carpenters' tools, simple agricultural implements, sewing machines, stationery, ink, and cotton prints.* All goods should be such as could be retailed cheaply to the natives, price being of greater consideration than quality. Business is largely done through Aden. See Note on p. 912.

UNITED STATES OF AMERICA (PHILIPPINE ISLANDS).

The Acting British Consul-General at Manila (Mr. T. Harrington) reports that a British firm established at Manila has recently opened a branch in Zamboanga in the Department (Island) of Mindanao. The following goods are amongst those imported by this firm:—*Textiles, haberdashery, leather goods, building materials, furniture, hardware, corrugated iron sheets, iron and steel, engineering supplies, machinery, motor cars and motor cycles, bicycles, wall papers, paints, oils, disinfectants, groceries and provisions, and filters.* See Note on p. 912.

United Kingdom manufacturers of the goods mentioned, and exporters of U.K. goods, desirous of business in the Philippine Islands, may obtain the name and address in this country of the firm referred to on application to the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. In making application the reference number (114) should be quoted. (C.I.B. 81,792.)

HONDURAS.

The Acting British Consul at Tegucigalpa (Mr. J. Walter) reports that a local firm is in a position to export *hides and skins* to the United Kingdom, f.o.b. either *Market sought.* Amapala or New York.

United Kingdom importers of hides and skins may obtain the name and address of the firm referred to on application to the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. In making application the reference number (115) should be quoted. (C.I.B. 11,728.)

BRAZIL.

H.M. Consul at Porto Alegre (Dr. T. C. Dillon) reports that the Public Works Department (Directorate of Land Ways) of the State of Rio Grande do Sul has issued a call for tenders for the construction of a section of the railway from Carlos Barbosa to Bento Gonçalves, a distance of 5,080 metres, estimated to cost £17,500. Tenders were to be received by 4th March. The work to be carried out includes the clearing of the forest and undergrowth, &c., the laying of the permanent way, the erection of a telephone line, buildings, &c.

The State Government will supply the rails, fishplates, switches, &c., in fact all that is necessary, including the metal superstructure for a bridge over the "Marrecão" stream. The State will also hire to the contractor the rolling stock necessary for the carrying out of the contract.

Dr. Dillon suggests that this information may be of interest to United Kingdom manufacturers who might possibly be able to supply *plant and materials for railway construction, &c.*, to the State Government. (C.I.B. 11,302.)

BOLIVIA.

With reference to the notice on p. 870 of the "Board of Trade Journal" of 30th December relative to a Decree authorising the Bolivian Executive to call for tenders for the construction of a railway from Potosi to Sucre, H.M. Legation at La Paz reports that a Decree, dated 5th January, has now been issued calling for tenders, up to 30th June, for the construction and working of the proposed railway. Article 8 of the Decree provides for the admission into Bolivia, free of Customs duties, of the *material, machinery, and tools* required for the projected railway. See Note on p. 912.

H.M. Legation has forwarded a translation of the above-mentioned Decree which may be consulted by United Kingdom manufacturers of railway material, &c., at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. (C. 9,511.)

ARGENTINA.

The "Boletin Oficial" (Buenos Aires) of 10th February publishes a Decree approving a project prepared by the "Ministerio de Relaciones Exteriores y Culto" relative to the construction of a hospital in Posadas (Misiones) at an estimated cost of 346,681 pesos currency (about £30,300).

A further Decree, published in the "Boletin" of 17th February, authorises the "Comisión Asesora de Asilos y Hospitales Regionales" to call for public tenders for the execution of the above-mentioned works.

The "Boletin" of 11th February contains a Decree approving a project drawn up by the Government of the Province of Santiago del Estero relative to an irrigation canal from the Río Salado to the town of Añatuya.

The same issue of the "Boletin" publishes a further Decree authorising the "Dirección de las Obras Sanitarias" to carry out the necessary works for the supply of drinking water in certain quarters of the town of Córdoba, at an estimated cost of 52,783 pesos currency (about £4,600).

OPENINGS IN ALL COUNTRIES.

Confidential Information.

Firms in the United Kingdom desirous of receiving confidential information as to opportunities for the extension abroad of those branches of trade in which they are specially interested, and as to other connected matters, may, upon application, have their names placed on a Special Register at the Commercial Intelligence Branch of the Board of Trade.

The confidential information communicated to firms so registered relates mainly to openings for British trade abroad, and is received from His Majesty's Consular Officers in Foreign Countries, from His Majesty's Trade Commissioners and the Imperial Trade Correspondents in the British Dominions, and from the Board of Trade Correspondents in the Crown Colonies, supplemented by information from other sources available to the Commercial Intelligence Branch.

Firms inscribed on the Register may indicate the particular lines of trade to which the information to be sent to them should relate, and a classified list of subjects is sent to all applicants for registration with this object. During 1915, 849 separate circulars were issued (to the number of 383,888 copies) to firms on the Special Register interested in the particular branches of trade to which the circulars related.

The great volume of information distributed under this system has rendered it necessary to make a small charge for the service *which includes the regular supply of the weekly "Board of Trade Journal,"* and accordingly firms whose names are inscribed on the Register are required to pay an annual fee of One Guinea to the Accountant-General of the Board of Trade, Whitehall Gardens, London, S.W.

The "Journal" itself contains a large amount of information as to openings for British trade abroad and as to other matters of interest to British traders generally. Information published in it is not repeated by circular to firms whose names are on the Special Register; the confidential information communicated to the latter is confined to matters which, at the time, have not been published in the "Journal," or are not intended to be published at all.

Firms in the United Kingdom who wish to have their names inscribed on the Special Register should apply in writing to the Director of the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C., for the necessary form of application.

N.B.—Admission to the Register, and retention upon it, are at the discretion of the Board of Trade.

BOARD OF TRADE EXHIBITIONS.

FORTHCOMING EXHIBITION AT SHEFFIELD OF SAMPLES OF GERMAN AND AUSTRIAN GOODS FROM ABROAD.

Arrangements have been made for the exhibition at Sheffield of the samples of goods of German and Austrian manufacture sold in British markets abroad and in certain foreign markets, which have been collected by the Commercial Intelligence Branch of the Board of Trade, and which have previously been exhibited at Leicester, Nottingham, Leeds and Glasgow. The Sheffield Exhibition will be held, through the courtesy of the Master Cutler, in the Cutlers' Hall, Church Street, from 7th to 13th April, both days inclusive, and will be open from 10 a.m. until 6 p.m.

Invitations to the Exhibition will be issued by the Board of Trade working in conjunction with the Sheffield Chamber of Commerce, and manufacturers and exporters who do not receive invitations by 13th April should make application to the Chamber.

Further announcements as to the exhibition of the samples in other industrial centres will be made as soon as arrangements are completed.

Russia, Spain (Corunna), Italy, Corfu, Algiers, Morocco, Madeira, Lourenço Marques, Loanda, United States of America (Philadelphia), Guatemala, Brazil, China, Manchuria, Chinese Turkestan, Siam, New Caledonia, &c.

EXHIBITION OF GERMAN CATALOGUES IN LONDON.

In order that British manufacturers may have an opportunity of familiarising themselves with German methods of publicity, the Board of Trade have collected over 3,000 specimen catalogues of German origin, and these may be inspected at the Foreign Samples Section of the Commercial Intelligence Branch, 32, Cheapside, London, E.C.

A complete index has been prepared, in which the catalogues are classified both as regards articles of manufacture and names of manufacturers, thus rendering identification of any particular catalogue a simple matter.

Copies of the index may be obtained by United Kingdom manufacturers on application to: The Director, Commercial Intelligence Branch of the Board of Trade (Foreign Samples Section), 32, Cheapside, London, E.C.

Arrangements have been made whereby catalogues may be lent for a few days to United Kingdom firms established in the Provinces.

ENEMY FIRMS IN NEUTRAL COUNTRIES.

Additions to Statutory List* of Firms in Neutral Countries with whom Trading is prohibited—Argentina and Uruguay, Brazil, Ecuador, Peru, all Countries in Central and South America, Netherlands, Netherlands East Indies, Philippine Islands, Portugal, and Spain.

At the Council Chamber, Whitehall, the 24th day of March, 1916.

By the Lords of His Majesty's Most Honourable
Privy Council.

WHEREAS His Majesty was pleased, in exercise of the power in that behalf conferred on Him by Section 1, Sub-section 1, of the Trading with the Enemy (Extension of Powers) Act, 1915, by a Proclamation dated the 29th day of February, 1916,† to prohibit all persons or bodies of persons, incorporated or unincorporated, resident, carrying on business, or being in the United Kingdom from trading with any of the persons or bodies of persons mentioned in the List contained in the said Proclamation:

And whereas by Section 1, Sub-section 2, of the said Act, it is provided that any List of persons and bodies of persons, incorporated or unincorporated, with whom such trading is prohibited by a Proclamation under the said Act may be varied or added to by an Order made by the Lords of the Council on the recommendation of a Secretary of State, such List as so varied or added to, being in the said Proclamation referred to as the "Statutory List":

And whereas the List contained in the said Proclamation was amended by an Order of Council dated the 16th day of March, 1916:

And whereas there was this day read at the Board a recommendation from the Secretary of State for Foreign Affairs to the following effect:—

That the List of persons and bodies of persons, incorporated or unincorporated, with whom trading is prohibited by the Proclamation dated the 29th day of February, 1916, as amended by the Order of Council of the 16th day of March, 1916, should be further amended by the addition of the names set forth in the Schedule hereto.

Now, therefore, Their Lordships, having taken the said recommendation into consideration, are pleased to order, and it is hereby ordered, that the same be approved.

*NOTE.—The list for each country is sent by telegraph to His Majesty's Representative in that country, who will notify British Consular Officers, to whom persons abroad may apply for information as to names on the list.

ENEMY FIRMS ON STATUTORY LIST.**Instructions as to Licences.**

The Controller of the Foreign Trade Department desires to call the attention of firms engaged in foreign trade to the Royal Proclamation containing a Statutory List of firms of enemy nationality or association with whom all dealings by persons carrying on business in this country are prohibited.

This List will be supplemented and revised from time to time. Transactions with persons on the Statutory List are prohibited subject to the same penalties as transactions with firms in enemy countries, except in cases where a general or special licence has been granted, permitting the transaction.

Any application for a licence should be addressed to the Controller, Foreign Trade Department, Lancaster House, St. James, S.W.

In making application for licences it is requested that the following particulars may be given in each case:—

1. The name and address of the applicant.
2. The name and address of the buyer.
3. The date of the order of the goods.
4. The nature of the goods in question.
5. The prospective date and port of shipment; if ready for shipment marks and numbers should be given, and the name of the actual consignee.

Government Notices affecting Trade.

6. Whether the goods are season goods, and if so when the season for them commences.
7. All other current orders from the same buyer.

The envelope should be marked "Application for licence."

[N.B.—The text of the "Trading with the Enemy (Neutral Countries) Proclamation, 1916," appeared on pp. 607-617 of the issue of the "Board of Trade Journal" of 2nd March. Certain additions and alterations in the Statutory List were published on pp. 848-50 of the "Journal" of 23rd March, and further additions are announced in the immediately preceding notice. Any further additions or alterations which may be made will be duly notified in the "Board of Trade Journal."]

**CONSIGNMENT OF GOODS TO H.M. CONSULS
ABROAD.**

The attention of the Board of Trade has been called to a practice on the part of shippers of consigning their goods to His Majesty's Consular Officers stationed in different parts of the world, and sending to them bills of lading and invoices, for delivery to third parties. As it is impossible for His Majesty's Consular Officers to undertake work of this character, goods should in no circumstances be consigned to them unless the senders are expressly so authorised or directed by His Majesty's Government.

EXPORTS TO DENMARK.**Notice to Exporters and others.**

The following announcement has been issued by the Board of Customs and Excise:—

The Board of Customs and Excise hereby give notice that on and after the 3rd April, 1916, shipment of goods for Denmark (other than goods entered for shipment under the authority of a Privy Council Licence) will not be allowed unless the exporter or his agent produces to the proper Officer of Customs and Excise, at the time of making entry before shipment, a guarantee given in the prescribed form on behalf of the prospective consignee in Denmark by the Merchants' Guild of Copenhagen or by the Danish Chamber of Manufacturers.

The Board of Customs and Excise further give notice that a guarantee so given and produced will not be accepted by the Customs Authorities as covering shipment by instalments of the goods referred to in such guarantee, and that, if only a part of the goods covered by such guarantee be entered for shipment, a fresh guarantee must be obtained and produced before shipment of the balance of the goods can be allowed.

By order of the Board,
J. P. BYRNE.
E. C. CUNNINGHAM.

*Government Notices affecting Trade.***TRADE WITH CHINA AND SIAM.**

The "London Gazette" of 24th March publishes further names of firms in *China* additional to the lists of approved consignees in *China* and *Siam* which were published in the Third Supplement to the "Gazette" of 22nd February.

The issue of the "Gazette" referred to may be obtained, price 1s. 0½d., post free, from Messrs. Wyman & Sons, Ltd., Fetter Lane, London, E.C.

The revised lists of approved consignees in *China* and *Siam* may be consulted by British firms at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.

[N.B.—The white list of approved consignees in *China* does not apply to firms in *Hong Kong*—see notice on p. 310 of the "Board of Trade Journal" of 3rd February, and also the issue of the "Journal" of 18th March, 1915, p. 777, regarding the winding-up of the trade affairs of enemy firms in *Hong Kong*.]

FURTHER RESTRICTIONS ON IMPORTATION.

The Board of Trade give notice that a Proclamation will shortly be issued prohibiting as from 30th March the importation of the under-mentioned goods into the United Kingdom except under licence.

Licences will in general be granted in respect only of goods *en route* for the United Kingdom or goods actually purchased (*see below*) at the date of issue of this notice (24th March). All applications for licences and all enquiries on the subject of these prohibitions should be addressed to the Controller, Department of Import Restrictions, 64, Victoria Street, Westminster, London, S.W.

List of Goods referred to:—

- Baskets and basket ware (except baskets and basket ware of bamboo);
- Cement;
- Chinaware, earthenware and pottery, not including cloisonné wares;
- Cotton yarn, cotton piece goods and cotton manufactures of all kinds, except hosiery and lace;
- Cutlery;
- Fatty acids;
- Furniture, manufactured joinery, and other wood manufactures, except lacquered wares;
- Hardware and hollow-ware;
- Oilecloth;
- Soap;
- Toys, games and playing cards;
- Wood and timber of the following kinds, viz.:—beech, birch, elm and oak;
- Woollen and worsted manufactures of all kinds except yarns.

The Board of Trade desire to make it clear that the expression "goods actually purchased" in the above notice refers solely to goods the purchase of which had been completed by payment.

PROHIBITION OF THE PURCHASE AND SALE OF RUSSIAN FLAX.

In pursuance of the powers conferred on them by Regulation 30A of the Defence of the Realm (Consolidation) Regulations, 1914, the Army Council give notice that the Order published in the London Gazette on the 28th January, 1916, prohibiting the purchase and sale of Russian flax or tow in stock in the United Kingdom is hereby extended to the purchase and sale of Russian flax or tow wherever situate.

The Order as amended is therefore as follows:—

"No person shall from the date of this Order until further notice buy, sell or deal in dressed or undressed Russian flax or tow except under Licence from the War Department."

Correspondence relating to this Order should be addressed to the Director of Army Contracts, Raw Material Section, Imperial House, Tothill Street, S.W.

GOVERNMENT WAR RISKS INSURANCE.

The Board of Trade announce that as from Monday next (3rd April) the Government Office for the insurance of ships' cargoes against War Risks will adopt a new method of dealing with these insurances, which will effect a considerable saving of clerical work and at the same time be of advantage to merchants and brokers in the expedition of their business. At present a policy covering War Risks is issued for each insurance. Under the new system separate policies will no longer be issued, but a "floating policy" for a very large amount will be effected and kept at the Government Office, and the "Slips," *i.e.*, the detailed applications for insurance, will be themselves validated as certificates entitling the holders to the benefit of the floating policy. Printed explanations may be obtained at the War Risks Insurance Office, 33-36, King William Street, E.C.

LOSS OF MAILS ON SS. SUSSEX.

The Postmaster-General announces that the mails which were on board the "Sussex" were as follows:—

Mails for France containing letters, newspapers, &c. which reached the General Post Office, London, between 6 p.m. on 23rd March and 6.30 a.m. on 24th March.

Mails for Malta containing letters, newspapers, &c. which reached the General Post Office, London, between 6 p.m. on 22nd March and 6.30 a.m. on 24th March.

Mails for Cyprus, Egypt, Aden, British Somaliland, British East Africa, Zanzibar, Seychelles, Mauritius, India, Persian Gulf Ports, Malay States, Straits Settlements, North Borneo, Sarawak, Siam, Manila, Netherlands East Indies, Ceylon, Australia and New Zealand containing all registered letters which reached London between the morning of Monday, 20th March, and the morning of Friday, 24th March, and all ordinary letters for those destinations which reached London between Wednesday morning, the 22nd, and Friday morning, the 24th March, also a few newspapers.

Mails for the Indian Expeditionary Forces elsewhere than in France containing letters, newspapers, &c. which reached London between Tuesday night, the 21st, and Thursday night, the 23rd March, and a few bags of mails for the Headquarters Establishments of the Mediterranean Expeditionary Force (General Headquarters, Headquarters of Brigades, Divisions, &c.) containing correspondence which reached London after Saturday evening, 18th March, and up to Thursday night.

There were no parcel mails on board.

So far as is known at present about one-half of the mails has been lost, but no definite information has yet been received as to which bags have been recovered.

Registration or insurance with the Post Office does not cover losses due to the acts of the King's enemies, and the Postmaster-General is accordingly unable to entertain any claims arising out of the loss of mails on the "Sussex."

*Government Notices affecting Trade.***CIRCULATION OF INDIAN RUPEES IN EGYPT.**

A Supplement to the Egyptian "Journal Officiel" of 6th March publishes a Decree of the same date, under which, owing to the shortage of silver currency, the Indian rupee is provisionally made legal currency in Egypt. The Decree fixes the value of the rupee at 65 millièmes of the Egyptian pound (1,000 millièmes = £ E. = £1 0s. 6½d.).

**ENEMY BUSINESSES IN RUSSIA UNDER
LIQUIDATION.**
Notice to Creditors.

With reference to the notice on p. 864 of the "Board of Trade Journal" of 23rd March, and to previous notices, relative to enemy businesses in Russia under compulsory liquidation, H.M. Commercial Attaché at Petrograd (Mr. H. Cooke) has forwarded a further list of enemy businesses in respect of which Boards of Liquidation are inviting claims from creditors.

The list referred to, together with the five previous lists, which contain the dates of the separate official notifications concerning claims, and the address of the Board of Liquidation appointed in respect of each business, may be consulted by British firms interested at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.

H.M. Commercial Attaché further reports that an official notice has been published in the "Novoe Vremya" (Petrograd) announcing that the property and capital of the "Russian Possell Works Company in Petrograd" has been confiscated and transferred to the Crown, and will henceforth be styled "The Petrograd Military Horseshoe Works."

**NEW INDUSTRIES IN ITALY EXEMPTED FROM
CERTAIN TAXES.**

With reference to the notice on p. 805 of the "Board of Trade Journal" of 16th March, relative to an Italian Royal Decree granting exemption from customs and octroi duties of machinery and building materials for new industries in Italy, it is to be noted that Article 2 of the Decree, a translation of which has been received by the Board of Trade from H.M. Embassy at Rome, provides that during the first

five years of their effective working, the receipts of the new industrial establishments set up to manufacture goods not previously produced in Italy, or devoted to new industrial undertakings, are not to be subject to income tax. During the same period the manufactures wholly turned out by such industrial plants, or on which they are permanently engaged, will also be exempt from any tax or supertax.

ENEMY FIRMS SEQUESTERED IN COCHIN-CHINA.

The "Journal Officiel" (Paris) of 21st March publishes the names of eight German, Austrian or Hungarian firms in Saigon, Cochin-China, whose goods have been sequestered under the provisions of the Decree of 27th September, 1914, together with the names of the administrator appointed.

The issue of the "Journal" referred to may be consulted by United Kingdom firms interested at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.

REAL ESTATE DUTY IN URUGUAY.**Increased Duty payable by Owners not domiciled in the Republic.**

The "Diario Oficial" (Montevideo) of 31st January publishes a Decree providing that owners of real estate who are not domiciled in the Republic shall pay in respect of their property double the amount of duty to which they would be liable were they domiciled in the country. This increase will also have to be paid by owners domiciled in the Republic who have been absent for more than a year.

Foreign industrial or commercial enterprises established under concession by the State, however, will not be required to pay the additional duty in respect of property in connection with the industry or commercial object of the concession. As regards enterprises not established under State concession, these will be considered as domiciled abroad when their principal seat of business is abroad.

EXTENSION OF MORATORIUM IN PARAGUAY.

With reference to the notice on p. 748 of the "Board of Trade Journal" of 16th December relative to the Moratorium in Paraguay, H.M. Chargé d'Affaires at Asunción reports the promulgation of a new Law, which will remain in force until 31st December, 1917, providing for the payment of interest and for the gradual amortisation of debts. It is understood that some of the terms employed in the Law will be explained in other financial measures which have not yet received the sanction of the Paraguayan Congress.

H.M. Chargé d'Affaires has forwarded a translation of the Law above referred to, which may be consulted by United Kingdom firms interested at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.

(C. 10,643.)

UNITED KINGDOM TRADE WITH AUSTRALIA.

Visit of H.M. Trade Commissioner.

In accordance with the practice that has been established for H.M. Trade Commissioners in the British Self-Governing Dominions to visit the United Kingdom officially from time to time, so that manufacturers and merchants may have the opportunity of consulting them on any matters connected with their business, or of obtaining information as to the possibilities of extending their trade, H.M. Trade Commissioner for Australia (Mr. G. T. Milne) is now in this country, and is interviewing (*by appointment*) representatives of firms who have expressed a desire to see him in London at the offices of the Commercial Intelligence Branch of the Board of Trade. Mr. Milne will attend at the offices of the London Chamber of Commerce on 17th, 18th and 19th April, and after Easter will visit those trade and industrial centres in the provinces which have been decided upon as most advantageous to visit in view of the applications that have been received from firms in or near those centres, and from Chambers of Commerce.

In order that appointments may be satisfactorily arranged, firms who may desire to have an interview with Mr. Milne are requested to make their applications as soon as possible. Such applications should be addressed to the Director, Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. The reference number (C.I.B. 4266/16) should be quoted.

H.M. Trade Commissioner's visit is particularly opportune at the present time, when United Kingdom manufacturers are attempting to capture trade hitherto done by enemy firms in Australia, and it is anticipated that a very large number of firms will wish to take advantage of this opportunity to consult him. Among the matters in Australia in regard to which he is prepared to give information and advice are the appointment of agents, methods of marketing and distribution, terms of payment, names of probable buyers of British goods, statistics of imports, and rates of Customs duties.

It may be stated that one of the principal duties of H.M. Trade Commissioners is to report to the Board of Trade promptly, and if possible in advance, any opportunities which may arise in the Dominions in the form of contracts open to tender, or in any other way for the development of British trade. The Commissioners also report to the Board periodically on the nature and extent of foreign competition and other matters of commercial interest, including changes in Customs duties and regulations, financial and trade conditions, changes in regard to means of transport, and legislation affecting trade and commerce; and they furnish periodically classified lists of importers and buyers in the Dominions. A good deal of the information so furnished is published by the Commercial Intelligence Branch in the "Board of Trade Journal," some is communicated to Chambers of Commerce likely to be specially interested and to those United

United Kingdom Trade with Australia.

Kingdom firms whose names are inscribed in the Special Register of the Commercial Intelligence Branch (see notice on p. 926) and some—*e.g.*, lists of names of traders at particular places, detailed Customs regulations affecting particular matters, and similar information—is filed at the Commercial Intelligence Branch for the information of firms and persons interested who may apply, either personally or by letter.

The Trade Commissioners also reply to all enquiries which may be addressed to them by British manufacturers and merchants, but it is generally desirable that enquiries should be made first of the Commercial Intelligence Branch, which is often in possession of the information sought, and is thus in a position to save enquirers much delay.

(C.I.B. 4,266.)

TRADE ENQUIRIES REGARDING MARKETS ABROAD.

The Commercial Intelligence Branch of the Board of Trade invites applications from manufacturers and exporters of United Kingdom goods who are desirous of extending their trade in markets abroad. Such applications should specify the countries for which information is desired, and indicate—

- (a) The precise kind of goods about which the enquirer desires information, and
- (b) The particular points in regard to which he especially wants to be informed.

Attention is directed to this matter because, if applicants would make their enquiries *more precise*, they would benefit by receiving more precise information. It would also be in their interest to state whether they have already succeeded in obtaining any trade in the countries in question, whether they are represented by agents there, and if so by whom, and whether they are satisfied with their representation.

Applicants for information may apply direct to H.M. Trade Commissioners and the Imperial Trade Correspondents in the Dominions, the correspondents of the Commercial Intelligence Branch of the Board of Trade in other parts of the Empire, and to H.M. Consular Officers in foreign countries, but it is generally desirable that they should apply, *in the first instance*, to the Commercial Intelligence Branch, 73, Basinghall Street, London, E.C., because by the adoption of this course much delay may be avoided in those cases in which the Branch is already in possession of the required information.

TRADE OF FOREIGN COUNTRIES AND BRITISH POSSESSIONS.

The following summary table has been prepared at the Board of Trade showing the total imports and exports of merchandise of the principal countries for which the particulars can be given up to December, 1915, inclusive, and referring in all cases to the same period, viz., twelve months ended December. ‡ Figures not available.

Note.—The foregoing figures are exclusive of bullion and specie, except where otherwise stated.

The values stated for the latest year shown are provisional and subject to rectification. In some cases all the values are those declared by importers or exporters, as in the United Kingdom; in others they are based on an official schedule of values which is subjected to revision after the close of each year, the values used in the current returns being those fixed in the latest completed revision. In general, the values so fixed represent the level of prices in the preceding year. The countries adopting the system of official values annually revised

are :—France, Italy, Spain and (for imports) Switzerland. Exports from Switzerland are returned at “declared” values. *The figures in italics are based, wholly or mainly, on the prices of some earlier year than that under which they are shown.*

In the case of Russia, France, Switzerland, Italy, Egypt, Argentina, Japan, Canada, and the United Kingdom, the import figures given in the above summaries represent imports for home consumption. In all cases the export figures are intended to represent exports of domestic produce. In most cases, however, they include a certain amount of “nationalised” goods, *i.e.*, goods originally imported for consumption, and which, if dutiable, have been charged with duty, but which are subsequently re-exported.

CROP ESTIMATES IN ROUMANIA AND ARGENTINA.

The Board of Agriculture and Fisheries have received the following information from the International Institute of Agriculture at Rome :—

The area sown with winter wheat in Roumania is estimated at 4,862,000 acres, or 1·2 per cent. more than the corresponding area sown last season.

Revised estimates of the production of wheat, oats and linseed in Argentina in 1915-16 give the production of wheat at 92,493,000 cwts., of oats at 21,509,000 cwts., and of linseed at 19,633,000 cwts., or increases of 2·5 and 31·5 per cent. in the case of wheat and oats respectively, and a decrease of 11·4 per cent. in the case of linseed, as compared with the production last season.

METALS AND HARDWARE TRADE OF NEW ZEALAND IN 1914.

Mr. W. G. Wickham, lately H.M. Trade Commissioner for New Zealand, now H.M. Trade Commissioner for South Africa, has furnished the following particulars relative to imports of metals and hardware into New Zealand in 1914* :—

A feature of this large and important group of imports is the extent to which tariff assistance is given to United Kingdom goods, as compared particularly with the textile group. Of the total imports of all classes of goods into New Zealand in 1914, metals and hardware accounted for about one-eighth, but of the total imports *under the preferential tariff only*, metals and hardware accounted for nearly one-third.

The following table shows the value of imports of metals and hardware into New Zealand in 1914 under the new classification,* imports from the United Kingdom being especially distinguished :—

	From United Kingdom.	From all Countries.
Under the Preferential Tariff.		
Iron and steel—	£	£
Bar, rod, and angle	222,035	228,944

Rails	105,582	110,784
Hoop, nails, and n.o.c.	47,956	78,935
Wire and manufactures thereof	96,561	103,495
Hardware, tinware, and hollow-ware	399,724	569,677
Cutlery and plate	120,348	132,551
Sundry hardware	109,075	170,661

Under the General Tariff.		
Tools and implements	67,772	151,717
Sheet lead, brass, copper and tinplate	122,660	165,276
Wire and manufactures thereof	131,914	260,898
Bolts, nuts and rivets	54,233	59,216
Rail and tram tyres, &c.	54,949	40,357
Meters, gas, water, &c.	37,970	44,932
Sundry hardware	23,594	44,762
Total	473,092	767,258
Grand Total	2,139,922	2,768,312

From the above table it will be seen that the proportion of the imports supplied by the United Kingdom was over 77 per cent. It may be considered, therefore, that but little comment is necessary. It is worth noting, however, that if the large item of semi-manufactured iron and steel is considered apart, the proportion of imports supplied

* The New Zealand Government have recently remodelled their system of collecting and presenting trade statistics, and the figures upon which Mr. Wickham's report is based have only lately become available. Mr. Wickham writes that these figures for 1914 are of special interest and importance, inasmuch as they are the first to be compiled on the new system under which articles are classified in groups and the country of origin is shown. The figures are therefore the first trade statistics for New Zealand which are sufficiently detailed to be of real value as an index of foreign competition.

Metals and Hardware Trade of New Zealand in 1914.

by the United Kingdom is only 70 per cent. This hardly appears to be an adequate proportion in a trade of £1,750,000 when on more than half of it the United Kingdom has tariff preference. As regards semi-manufactured iron and steel, the United Kingdom supplied 94 per cent. of the total imports, and another 3 per cent. was supplied by Canada, but on a large proportion of the items included, such as girders, rails, bar iron, &c., there is an *ad valorem* duty of 20 per cent. against all foreign makes, so that it is remarkable that *all* the semi-manufactured iron and steel imported was not supplied by the British Empire.

By far the most unsatisfactory individual item is wire and wire manufactures of which only £228,000 worth out of £364,000 worth was imported from the United Kingdom in 1914. In wire rope and wire netting there was little or no competition with United Kingdom goods. Steel, copper and aluminium wire for electrical purposes, of which the Government are the chief buyers, were also bought almost entirely from the United Kingdom.

In cutlery and plate foreign competition has not attained very serious proportions. Such as it is it has hitherto been mostly German.

In sundry hardware and hollow-ware the trade was shared in as follows:—United Kingdom, £300,000; British Empire, £16,000; and foreign countries £154,000. The whole of this £154,000 worth of goods from foreign countries paid a surtax of 10 per cent. above the duty paid on British goods. The value of imports of German goods under this heading was £27,000, and the United States contributed no less than £115,000 worth. An important item, almost entirely supplied by the United States, was lawn mowers. United Kingdom manufacturers should realise that a man who has only 50 square yards of lawn will not buy an expensive mower, and that customers for cheaper mowers number hundreds for every one who possesses a tennis court or a bowling green which require a more expensive machine.

The heading tools covers a very large variety of goods, including artificers' tools, butcher's cleavers, picks, bee keepers' appliances, &c. The United States supplied just half of the total of imports under this heading in 1914. The American axe is still the most popular, but the American shovel has been virtually displaced. Germany's contribution in 1914 was only 4 per cent. of the total.

Among small items the following are worthy of notice:—In 1914 brass tubes were supplied by Germany, and brass sheet by France, Belgium, and the United States. Practically the whole of the imports of miners' safety lamps, including those purchased by the Government, came from Sweden. Imports of gold leaf and tin foil were very small, and Germany had a good proportion of the trade. Electric meters were also to some extent procured from Germany. The United States was the principal supplier of spraying pumps. Metallic capsules were largely of German manufacture, and fire hose also appears to have been supplied by that country. (C. 724).

GLASS BEAD INDUSTRY OF VENICE.

The Acting British Vice-Consul at Venice (Mr. H. C. Swan) has furnished the following particulars regarding the manufacture of glass beads, &c. at Venice:—

The glass bead industry may be divided into four branches, *viz.*: the manufacture of (1) ordinary beads or "conterie;" (2) lamp beads; (3) block glass for mosaics; and (4) goldstone. The ordinary glass beads are made from pierced blocks of glass, heated in a furnace and drawn out to great lengths in long, specially constructed corridors. The rods thus produced are cut into small pieces, of requisite length, and rounded by a process similar to that employed for the curving of pen nibs. Mosaic beads are manufactured in the same manner from gatherings of glass of different colours. The finished beads are threaded into bunches by skilled workwomen who usually do this work in their own homes.

Lamp beads are not usually made by the larger firms, who limit themselves to producing the necessary glass rods, unpierced, which are sold to the workers in metre lengths for making up at home. These independent workpeople usually have gas jets, on the principle of the Bunsen burner, over which the rods are heated and moulded into beads of any required size and pattern, the finished article being invariably decorated by hand.

Block glass for mosaics is worked in the same furnaces as glass for beads and rods, and is made up into round discs, varying in diameter from about three to six inches, with a thickness of approximately half an inch. These discs are sold to the mosaic workers, who cut them into small cubes and make them up into the designs and pictures well known all the world over.

Goldstone is made by the fusion of reddish-brown glass paste and oxide of copper. The process consists in melting the glass mass and, at a given state of liquefaction, pouring in the oxide. All holes and entrances in the furnace are then hermetically closed and the crucible is left inside for about ten days or a fortnight. When it is judged to be thoroughly cooled the furnace is opened and the product extracted. The Venetian denomination of "Avventurina" is given to goldstone because it is never certain that the process will be successful, although of late years the uncertainty has been very much reduced.

During the last twenty years the average annual production of beads of all kinds, mosaic glass, and goldstone may be estimated at 4,750 metric tons. In 1915, however, owing to the excessive price of coal and the difficulty of obtaining raw materials, the production was very small, all orders and contracts being met from the large reserve stocks held by local manufacturers.

In normal times large quantities of ordinary and lamp beads are sold to local tradesmen for conversion into all kinds of bead fringes, trinkets and other Venetian specialities, and for decorative purposes, as well as to makers of fancy goods all over Italy.

The ordinary glass and pound beads are exported to all countries of the world, but especially to France, Africa and India. The main demand in France is for small beads suitable for making funeral wreaths, imitation flowers, and for the decoration of cloth goods. There is an average annual exportation to France of 750 metric tons.

Glass Bead Industry of Venice.

A noteworthy export to the United Kingdom is that of ordinary and fancy beads, made up into bead fringing.

Ornamental lamp beads are marketable everywhere and, in addition to the quantities exported loose, numbers of the finished articles, such as necklets, chains and other trinkets, are despatched from Venice every year. The Government of the Belgian Congo order from Venice considerable quantities of a special large-sized lamp bead for use in the Congo as currency.

Block glass for mosaics, in addition to the ready sale at Venice and in Italy generally, is exported to some extent to the United Kingdom, Egypt, India, the United States and elsewhere.

Goldstone, much used for decorating vases and other ornaments, as well as being ground into beads, studs, cuff links, buttons, &c., is mainly exported to India, China and Japan.

The following table shows the principal destinations of the exports of glass beads from Venice during the years 1913 and 1914:—

Before the war Austrian bead manufacturers were steadily gaining the ascendancy, not only by reason of the patent methods and special machinery evolved and used at Gablonz, Reichenberg and elsewhere, which permitted the manufacture of a more perfect and better coloured bead, but also because of the Austro-German control of the markets, established by means of an elaborate network of astute agent-traders and branch offices of the manufacturers at all the more important centres. These concerns did not limit themselves only to pushing Austrian wares, but in some cases were the principal selling agents for Venetian beads and they generally brought forward Venetian goods only when the Austrian manufacturers did not produce a similar article. Very recently, however, the Venice makers have been able to shake off these trammels. (C. 8,040.)

RUSSIA.

The Board of Trade are in receipt, through the Foreign Office, of information from H.M. Commercial Attaché in Russia to the effect that, according to the official "Trade Gazette" of Petrograd for the 18th February/2nd March, the Minister of Finance, supplementing the existing prohibition of the exportation of platinum, manufactures of platinum, and platinum ore, has prohibited the exportation from Russia, by all frontiers of the Empire, of all preparations containing platinum and of all precious metals of the platinum group. Exceptions from these prohibitions may, however, be accorded in favour of Allied and friendly countries.

The Board of Trade are also in receipt, through the same channel, of information to the effect that a Decree of the Minister of Finance, dated the 12th/25th February, was published in the official "Bulletin of Laws" of Petrograd for the 19th February/3rd March, which, by way of modification of the regulations previously in force (*see* the third section of the notice at pages 765-766 of the "Board of Trade Journal" for the 16th December, 1915) provides that karakul and skunk furs may only be exported to Allied countries, and then only when consigned to competent Government Institutions or official persons.

Tariff Changes and Customs Regulations.

NORWAY.

The Board of Trade are in receipt, through the Foreign Office, of telegraphic information from H.M. Minister at Christiania to the effect that the exportation from Norway of *whale oil, bones, tallow and fat of domestic animals* (with the exception of bonafat produced in factories in Norway and accompanied by a certificate of origin), of *spices*, and of *cast iron scrap* has been prohibited.

The Board of Trade have also received, through the Foreign Office, copy of a Norwegian Customs Circular of the 17th February (No. 9/1916) which states that the prohibition of the exportation of zinc applies also to (1) zinc ashes; (2) zinc scoriae; (3) zinc powder; (4) "*sinkgrødt*"; and (5) hard zinc. (C. 10,962.)

DENMARK.

The Board of Trade are in receipt, through the Foreign Office, of telegraphic information from His Majesty's Minister at Copenhagen to the effect that the exportation of the following articles from Denmark has been prohibited, viz.:—Pregnant cows' and heifers' meat and butcher's waste; slaughtered cows and heifers which are shown by veterinary examination to contain a foetus eighteen weeks old; preserves and sausages made of such meat. (C. 11,055.)

NETHERLANDS.

The Board of Trade are in receipt, through the Foreign Office, of telegraphic information from His Majesty's Minister at The Hague to the effect that the exportation from the Netherlands of all goods prepared with sugar has been prohibited since the 24th March. No sugar or goods containing sugar will be allowed to be exported from the Netherlands pending investigation as to the quantities of these articles which are required for home (Dutch) consumption.

FRANCE.

The French "*Journal Officiel*" for the 15th March contains a Decree of the French Minister of Finance, dated the 14th March, which provides that the following articles (which were prohibited to be exported from France by a Presidential Decree of the 23rd February) may, by way of exception, be exported or re-exported from France, without special authorisation, when consigned to the United Kingdom, the British Dominions, Colonies and Protectorates, and certain other countries:—

FRENCH COLONIES.

The Board of Trade are in receipt, through the Foreign Office, of copy of a French Presidential Decree, dated the 14th March and published in the "Journal Officiel" for the 17th March, which prohibits the exportation and re-exportation from French Colonies and Protectorates (other than Tunis and Morocco) of the articles (capsicum and certain silk wares) which were prohibited to be exported or re-exported from France by the Decree of the 23rd February (*see* the notice at page 738 of the "Board of Trade Journal" for the 9th March).

Exemptions from this prohibition may, however, be accorded under conditions to be laid down by the Minister for the Colonies.

(C. 10,868.)

The Board of Trade are also in receipt, through the same channel, of copy of a Decree of the French Minister for the Colonies, dated the 16th March, and published in the "Journal Officiel" for the 17th, which provides that the following articles (which were prohibited to be exported from French Colonies and Protectorates—other than Tunis and Morocco—by a Presidential Decree of the 2nd March) may, by way of exception, be exported and re-exported from French Colonies and Protectorates, without special authorisation, when consigned to the United Kingdom, the British Dominions, Colonies and Protectorates, and certain other countries:—

SPAIN.

The "Gaceta de Madrid" for the 19th March contains a Royal Decree of the 18th March which authorises the Government to permit the establishment, by Spanish companies constituted in conformity with the Commercial Code, and at such ports as may be convenient, of bonded commercial warehouses (*depósitos comerciales*).

All goods may be admitted into such warehouses except (1) those of which the importation into Spain is prohibited or restricted; (2) Spanish goods of which the exportation is prohibited; and (3) live-stock, fresh and frozen meat, cereals and flour thereof, rice, wines, pulse, and vegetable preserves of all kinds. Goods may not remain within these warehouses longer than four years, after which period they must be exported abroad or entered for consumption in Spain.

Tariff Changes and Customs Regulations.

SPAIN *continued.*

Certain operations may be performed within these warehouses (under supervision), such as changing the receptacles of goods, the shearing of hides, the washing of wool, the extraction of oil from copra and oilseeds, and all operations which increase the value of the warehoused goods without essentially altering their nature. The operations of mixing olive oil with seed oils, and of adding foreign sugar or saccharine to alimentary substances in such warehouses are, however, expressly prohibited.

Goods which enter these warehouses are to be exempted from transport duties, port dues, &c., as also are foreign goods re-exported from warehouse. Spanish goods which are exported to foreign countries through these warehouses shall be liable to transport duties and port dues, and also to export duties if such duties are leviable on the class of merchandise concerned. Goods from these warehouses which are passed into Spain are to pay import, transport and other duties as if they had been imported direct from abroad.

The full text (in Spanish) of the Royal Decree may be seen by persons interested on application at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.

The Board of Trade are in receipt, through the Foreign Office, of telegraphic information from H.M. Ambassador at Madrid to the effect that, in virtue of Royal Orders published in the "Gaceta de Madrid" for the 22nd March, the export duties on barley and oats have been raised to 2 pesetas 50 centimos per 100 kilogs.

[*Note.*—The export duty on *barley* was formerly 1 peseta 90 centimos per 100 kilogs., and that on *oats* 1 peseta 80 centimos per 100 kilogs.]

The Board of Trade are also in receipt, through the same channel, of telegraphic information to the effect that a Spanish Royal Order of the 23rd March has been issued which imposes an export duty of 18 pesetas per 100 kilogrammes on paper weighing from 41 to 50 grammes per square metre and containing mechanical pulp.

mentioned except such as originate in the Mexican States mentioned above, and except also such importations as are ordered by, or intended for, and addressed to the "Office of Foreign Seed and Plant Introduction, United States Department of Agriculture, Washington, D.C.," which are allowed to go forward in the regular course.

An Order was issued by the United States Post Office on the 7th February, 1916, which provided that for the purpose of the regulations referred to above the term "cotton" is to be construed to mean raw or unmanufactured cotton lint, either baled or unbaled, including all cotton which has not been woven or spun or otherwise manufactured, such as all forms of *cotton waste*, including thread waste, card strips, willowed fly, willowed picker, picker or blowings, and chum and cotton waste in any other form or under any other trade designation.

H.M. Consul-General adds that, under the United States Customs Regulations, Collectors of Customs are required to deliver to the Post Office of receipt, for return to the country of origin, any parcel containing articles of which the importation is prohibited under the Plant Quarantine Act.

SHIPPING AND TRANSPORT.

BRITISH CARGO STEAMSHIP SERVICES.

Information regarding British cargo steamship services, trading between the United Kingdom and all ports of the world, may be obtained on application to the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C. Firms making written application for information are requested to state their requirements clearly, particularly indicating the ports or districts between which cargo is to be carried.

DETENTION OF CARGOES AND VESSELS BY H.M. ARMED FORCES.

The "London Gazette" of 24th March publishes the following further list of ships whose cargoes, or part of them, have been detained by H.M. Armed Forces:—

Name of Vessel.	Nationality.	Cargo detained at
Frisia	Netherland	London
Garonne	Danish	North Shields
Grotius... ..	Netherland	London
Noordam	Netherland	London
Rotterdam	Netherland	London
Veendyk	Netherland	London

The same issue of the "Gazette" also notifies that the Greek vessel "Chalkis" (514 tons) has been detained at Malta, and the United States vessel "Dirigo" (823 tons) has been detained at Lerwick.

Committee of Enquiry into Methods adopted.

With reference to the detention of cargoes and vessels by H.M. Armed Forces, it is announced by the Foreign Office that H.M. Government have appointed a Committee, under the Chairmanship of Viscount Peel, to enquire whether any avoidable delay is caused by the methods hitherto adopted for dealing with ships and cargoes brought into British ports under the Order-in-Council of 11th March, 1915 (see p. 744 of the "Board of Trade Journal" of 18th March, 1915), and to make such general recommendations as they may think fit for improving such methods.

The members of the Committee are as follows:—

Viscount Peel (Chairman); Sir Kenneth S. Anderson, K.C.M.G.; B. A. Cohen, Esq., K.C.; and K. Wallace Elmslie, Esq.

The Offices of the Committee are at 1, Abbey Gardens, Westminster, London, S.W.

REPUBLIC OF COLOMBIA.

The "Diario Oficial" (Bogotá) of 14th January contains a Decree (No. 2151) regulating the coasting trade in the Republic of Colombia, which is limited to national vessels.

Article 2 of the Decree provides that shippers sending from one seaport in Colombia merchandise of foreign origin nationalised therein to another Colombian port must present, to the Customs authorities, manifests (in triplicate) of the goods despatched. These documents must contain the following particulars:—Mark and number of each package, and its weight; the designation of the goods contained therein, their quantity and quality, their value, and the name of the consignee. Documentary evidence of the payment of import duty on the said merchandise must also be submitted to the Customs authorities.

The full text of the coasting trade regulations (in Spanish) referred to may be consulted by United Kingdom shippers at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.

URUGUAY.

The "Diario Oficial" (Montevideo) of 21st February publishes a Resolution of the Uruguayan Ministry of Finance approving the Port of Montevideo Administration's regulations for the berthing of vessels.

Ocean-going steamers arriving at the port are allowed to use free of charge the moles and quaysides of the docks for direct loading and unloading of cargo, embarkation or disembarkation of passengers, and the delivery or receipt of mails and provisions. When vessels, for their own convenience and without justified cause, unload in the ante-port, the costs of lighterage must be paid by the charterers or agents.

The tariff for discharging on the moles or quay-sides provides for charges to be paid by the owners of the merchandise as follows:—

1 peso per ton for all merchandise discharged directly on the quay-

sides from tugs or lighters bringing cargo from vessels which have preferred to enter the ante-port and pay lighterage.

50 cents per ton for merchandise from ocean-going sailing vessels which have not obtained permission for berthing and are exempt from lighterage.

50 cents per ton for all cargo which does not come from ports of the Republic, brought by river steamers or sailing vessels, berthing or not at the quays. Exception will be made in the case of charcoal, fruit and firewood, for which unloading fees will not be charged.

10 cents per ton for merchandise of all kinds from steamers which, for lack of quay space, hangars, *depôt* or other reasons of *force majeure* have not obtained a berthing permit and are therefore exempt from lighterage dues.

A double tariff will be charged on packages weighing more than 2 metric tons.

UNITED STATES OF AMERICA.

H.M. Consul-General at Chicago (Mr. H. D. Nugent) reports that, according to the local press, the number of motor vehicles registered in the United States on 1st January, 1916, was 2,423,788, of which 71,026 were commercial vehicles. There is one car for every 42 people in the United States. The largest registration is in New York, namely, 212,844, and the next largest in Illinois, namely, 182,290. In Iowa there is one car for every 16 persons, and in Illinois one for every 33. Of all the States, Iowa has the largest number of motor vehicles in proportion to population. (C. 10,464.)

The "Iron Age" (New York) of 2nd March states that, according to statistics recently issued by the American Iron and Steel Institute, the production of pig-iron in the United States in 1915 was as follows, the figures for the previous year being added for purposes of comparison:—

Grade.	1914.	1915.
	Tons.	Tons.
Basic	9,670,687	13,093,214

With reference to the notice on p. 575 of the "Board of Trade Journal" of 24th February relative to the establishment of a tin-smelting and refining industry in the United States, it appears from the issue of the "Engineering and Mining Journal" (New York) of 11th March that the reverberatory tin-smelting plant at Perth-Amboy, New Jersey, has been blown in and the first crude tin was tapped on 7th March. The electrolytic refinery was to be started as soon as a sufficient supply of crude tin had accumulated.

At present, operations are based on the importation from Bolivia of 750 tons of tin concentrates per month. Some delay was experienced in starting the tin-smelting plant owing to the non-arrival of materials. Gradually, as shipping conditions improve, the plant will be brought up to its capacity of 1,200 tons per month. Ultimately the plant may be much extended.

JAPAN.

H.M. Vice-Consul at Osaka (Mr. O. White) reports that the stoppage of transactions in copper, which was caused by the outbreak of war, led to a serious piling up of stocks in Japan. At the end of 1914 stocks had reached an amount estimated as high as 10,000 tons, but when the London Copper Exchange was re-opened stocks were soon disposed of. Shipments of copper to London were heavy, 1,500 tons leaving Kobe in March, 1915, alone, and the total shipments from that port during the first half of 1915 reached some 5,500 tons. Nearly 2,000 tons were shipped to France before the end of April, 1915, and smaller shipments had gone to the United

States. These transactions were concluded at prices which gave excellent profits to the sellers. Meanwhile, however, Russia had come forward as an eager buyer and, under the artificial conditions caused by the war, it became far more profitable to sell to her. Freight to Vladivostok was cheap compared with that to Europe, or with that from the United States to Vladivostok, and most of the other sources of supply were closed or hampered. From the spring of 1915 many transactions were diverted to Russia, which proceeded to take the lion's share of the copper exported and had by the end of the year taken considerably more than half of the total exports. As sales to Russia increased, those to other countries slackened, and during the second half of the year shipments to the United Kingdom, France and the United States were very small. China has in former years purchased large quantities of copper from Japan, but exports to that country in 1915 dropped to some 1,430 tons.

The following table shows the quantity, value and country of destination of exports of copper from Japan in 1915, the figures for 1914 being added for purposes of comparison:—

	1914.		1915.	
	Tons.	£	Tons.	£
China	13,850	942,000	1,430	106,000

British India	2,440	168,000	1,220	89,000
United Kingdom	6,790	414,000	12,200	944,000
France	3,479	227,000	3,940	299,000
Germany	2,100	125,000	—	—
United States	4,680	296,000	7,800	561,000
Asiatic Russia*	5,000	300,000	29,000	2,590,000
Other Countries	2,110	139,000	320	15,000
Total	43,000	2,776,000	56,000	4,611,000

* The figures for Russia are approximate.

Allowing for stocks at the end of 1914, the output of copper in Japan during 1915 may be estimated, at a rough guess—no statistics are available—at anything between 70,000 and 75,000 tons, representing an increase of 15 per cent. over the 1914 output.

CANADA—*continued.*

Canada: that the flax and linen industries should, both as to culture and manufacture, receive that encouragement and consideration from the Government, which would enable it to assume the importance the natural resources of our country assure it. And to this end serious encouragement should be given to farmers by such means as the Government, after full investigation, deem best to increase the production of flax throughout the Dominion."

In a later report Mr. Field writes that the Dominion Government has appointed a flax and fibre expert to carry out experiments in different parts of Canada, with a view to discovering the localities best suited for flax growing, to inspect the various methods in use, and also to study the types of machines used in Canada in the flax industry. United Kingdom firms interested should address Mr. G. G. Bramhill, Flax Expert, Department of Agriculture, Ottawa, Canada.

AUSTRALIA.

The Sydney Office of H.M. Trade Commissioner in Australia has forwarded an extract from the Sydney "Daily Telegraph" of 4th February relative to the prospects of the Sydney wool market. According to this paper, the most optimistic expectations formed regarding the prospects of the Sydney wool market were justified by the auctions held during the first week in February. The prices obtained may or may not have been due to the present position of supplies, but the fact remains that further records were established. There have been remarkable factors at work: Italy has acquired three hundred and fifty times the quantity of wool taken in the previous season, and the United States over one hundred and fifty times the quantity. Wool is being readily absorbed and soon the stores will be cleared.

The business done does not represent the work of disposing of the 1915-16 clip alone. There was a very large carry-forward of last season's wool into this season, and at the present rate of selling there is very little likelihood of even a small carry-forward of this season's wool into the 1916-17 season. An accurate estimate of the position cannot be arrived at for some time, but it is certain that *next year there must be a heavy falling-off in available supplies of wool.*

AGRICULTURAL & FOREST PRODUCTS.

UNITED KINGDOM.

The prices of British corn per quarter of 8 bushels, as received from the Inspectors of Corn Returns in the week ended 25th March, 1916, were as follows:—

Corn Prices.

Wheat	55s. 11d.
Barley	54s. 6d.
Oats	31s. 4d.

For further particulars see p. 983.

A statement is published on p. 984 showing the quantities of the various descriptions of agricultural produce imported into the United Kingdom during the week ended 25th March, 1916, as compared with the imports during the corresponding weeks of the two previous years.

SOUTH AFRICA.

The Imperial Trade Correspondent at Johannesburg (Lieut.-Col. C. A. C. Tremeer, D.S.O.) has forwarded a copy of "Crop Report No. 5" for January, issued by the Union Department of Agriculture, which states that the maize crop over the whole of the Transvaal, despite the increased area sown (about 9 per cent.) is expected to show a decrease in production of over 5 per cent. (about 165,000 bags) as compared with last year.

The Orange Free State production is estimated on present indications at 20 per cent. more than last year. This corresponds with the increase in the area sown. The condition of the crop in the Province, taken as a whole, may, therefore, be said to be normal. The production, it is estimated, will exceed that of last year by 350,000 bags.

In Natal nearly 5 per cent. more was sown this season, but an increase of production of under 4 per cent. (or 70,000 bags) on the previous season's yield is estimated, showing that for the whole of the Province the condition of the crop is somewhat below normal.

In the Cape Province the anticipated reduction in the yield in the Transkeian Territories is 60,000 bags, and in the remainder of the maize-producing districts 133,000 bags.

It will be seen, therefore, that for the whole of South Africa an increase over the previous season's yield of about 62,000 bags is estimated. This is of course a negligible quantity. (C.I.B. 11,386.)

JAPAN.

With reference to the notice on p. 715 of the "Board of Trade Journal" of 9th December, relative to the loofah crop and market in Japan, H.M. Commercial Attaché at Yokohama (Mr. E. F. Crowe, C.M.G.) reports, under date 8th February, that he is informed that damage due to a parasite has probably reduced the 1915 crop by 15 to 20 per cent. The amount of stock at present on hand is estimated at 2,000,000 pieces, including 12 per cent. of last year's production. Prices are said to be 5.7 sen for extra, 4.7 sen for first, 3.7 sen for seconds, and 2.7 sen for thirds, the standard size. The rise in the market is stated to have been due to the large purchases made in consequence of the shortage of crop, but exports are limited owing to the lack of freight space available. Though the prices were falling somewhat at the time of writing, on the whole dealers were holding on to their stocks in view of the ultimate demand becoming heavy in proportion to the supply.

The yield for 1915, as given by the Hamamatsu Chamber of Commerce, was "A" goods (12 inches and over, good quality) 2,200,000 pieces, as compared with 4,200,000 pieces in 1914, and "B" goods (10 inches or less, inferior quality) 1,300,000 pieces, as compared with 800,000 pieces in 1914.

100 sen = 1 yen = 2s. 0½d.

CEYLON.

According to the "Straits Budget" (Singapore) of 18th February, experiments are now in progress in Ceylon with a view to the exploitation of forest reserves in order to determine to what extent various chemical and other products made from wood, which have hitherto been imported into the Island, could be manufactured locally. These will include the

manufacture of acetic acid and by-products, such as acetone, creosote, &c.; also charcoal obtained from the distillation of wood spirit and wood pulp. Experiments have been initiated by the Government and preparations are in an advanced state. Experiments are also being carried out in connection with the manufacture of wood pulp, alcohol, &c. This is only preliminary to the establishment of mills with distillation and other plant in a central spot in the north central provinces, where enormous resources of wood can be tapped.

GOVERNMENT PUBLICATIONS.*

TRADE RETURNS OF THE UNITED KINGDOM.

The Monthly Accounts relating to the Trade and Navigation of the United Kingdom for the month of February, 1916, have been published. The accounts, which are issued on the 7th or 8th of each month, may be purchased* at a cost, in the present instance, of 1s. 5d. per copy (post free 1s. 10d.).

Attention is further called to the fact that the "Annual Statement of the Trade of the United Kingdom with Foreign Countries and British Possessions" for the year 1914 has been issued in two volumes, and may be purchased* at a cost of 5s. 9d. (post free 6s. 4d.) for the first volume and 4s. 2d. (post free 4s. 9d.) for the second. This publication, which contains much more detailed and exhaustive information than can be given in the Monthly Accounts, gives in the first volume abstract tables for the years 1909-1913, and detailed statements of imports and exports of each article consigned from and to each country; and in the second volume details as to Customs revenue, transshipments and articles in bond, with particulars of the trade of the United Kingdom with each foreign country and British Possession, and of the trade at each port of the United Kingdom.

BOARD OF TRADE LABOUR GAZETTE.

The "Board of Trade Labour Gazette"* is published (price 1d., post free 2½d.) by the Board of Trade about the 16th of each month. The following are among the more important contents of the March issue:—State of the Labour Market in the United Kingdom in February; Employment in Germany in January; Retail Food Prices in the United Kingdom, Australia, and Berlin; Labour in the British Dominions Oversea and in Foreign Countries; and Reports on Employment in the Principal Industries of the United Kingdom during February.

COMMERCIAL INTELLIGENCE BRANCH of the BOARD OF TRADE.

The Intelligence Branch of the Commercial Department of the Board of Trade (73, Basinghall Street, London, E.C.) is a centre at which information on all subjects of commercial interest is collected and classified in a form convenient for reference, and at which, so far as the interests of British trade permit, replies are given to enquiries by traders on commercial matters. As far as is possible, the Branch supplies, on personal or written application, information with regard to the following subjects: Foreign and Colonial Contracts open to Tender and other openings for British trade; Lists of manufacturers at home and lists of firms abroad engaged in particular lines of business in different localities; Foreign and Colonial Tariffs and Customs Regulations; Commercial Statistics; Forms of Certificates of Origin; Regulations concerning Commercial Travellers; Sources of Supply, Prices, &c. of Trade Products; Shipping and Transport; &c., &c.

Samples of foreign competitive goods and commercial products which are received from abroad from time to time are exhibited at the offices of the Branch.

The samples collected since the war began of goods of German and Austrian manufacture, which have been sold in British markets abroad and certain foreign markets, will shortly be exhibited at Sheffield and other industrial centres. See Notice on p. 927.

The British Industries Fair, 1916, was held at the Victoria and Albert Museum, London, from 21st February to 3rd March; it is the present intention of the Board of Trade to hold a Fair in the early spring of each year. The office dealing with Fair matters is at 32, Cheapside, London, E.C.

The "Board of Trade Journal" is published weekly and is the principal medium through which intelligence collected by the Commercial Intelligence Branch and intended for general information, is conveyed to the public. The "Journal" may be obtained, either directly or through any bookseller, from Messrs. Wyman & Sons, Ltd., 29, Bream's Buildings, Fetter Lane, London, E.C., and 54, St. Mary Street, Cardiff; from H.M. Stationery Office (Scottish Branch), 23, Forth Street, Edinburgh; from Messrs. E. Ponsonby, Ltd., 116, Grafton Street, Dublin; or from the Agencies in the British Colonies and Dependencies, the United States of America, the Continent of Europe and Abroad of T. Fisher Unwin, Ltd., 1, Adelphi Terrace, London, W.C. The price is 3d. per copy or 15s. 2d. per annum, post free in the United Kingdom, the rate for places abroad, inclusive of postage, being 19s. 6d. All applications regarding advertisement rates, &c., should be sent direct to the sole contractors for advertisements, Messrs. Laughton & Co., Ltd., 3, Wellington Street, Strand, London, W.C.

Particulars relating to the supply of confidential information to firms in the United Kingdom are given on p. 926.

All communications intended for the Commercial Intelligence Branch of the Board of Trade should be addressed to: **The Director, Commercial Intelligence Branch, Board of Trade, 73, Basinghall Street, London, E.C.; or 32, Cheapside, E.C.**—*if the communication relate to matters connected with the British Industries Fair or with Samples of German and Austrian goods.*

NATIONAL INSURANCE ACTS, 1911 TO 1915.**Part II.—Unemployment.****Applications to the Umpire.**

In pursuance of Regulations made by the Board of Trade and dated 26th day of March, 1912, Notice is hereby given that the Umpire (Unemployment Insurance) has received applications for a decision as to whether contributions are payable or not in respect of the following classes of persons:—

358. Workmen engaged in manufacture of Steel Helmets.

Any representations with reference to the above applications may be made in writing to the Umpire by, or on behalf of, any workman or employer appearing to him to be interested, or on behalf of the Board of Trade, and forwarded to the Registrar, Office of the Umpire, 47, Victoria Street, London, S.W., on or before 13th April, 1916.

Notice is further given that the Umpire proposes to give his decision on the above applications on or after 17th April, 1916.

EXTRACT FROM REGULATIONS.

3. If before the date specified in the notice any representations with reference to the application are made in writing to the Umpire by or on behalf of any workman or employer appearing to him to be interested, or the Board of Trade, the Umpire shall take those representations into his consideration, and the Umpire may at any time before the said date require any persons to supply to him such information in writing as he thinks necessary for the purpose of enabling him to give a decision.

All such representations and information shall be open to inspection by any employer or workman appearing to the Umpire to be interested or any persons authorised in that behalf by any such employer or workman or the Board of Trade.

4. Any persons claiming to be interested may apply to the Umpire to be heard by him orally in reference to any application under these Regulations, and the Umpire may, in any case in which he thinks it desirable, require the attendance of any person before him to give oral information on the subject of any application.

The decisions of the Umpire upon the foregoing will be announced in the "Board of Trade Journal" in due course.
