In such event there shall be transmitted by the Board agent to the National Board within 7 days after the action by the Board agent, the following documents: (1) The proposed majority ruling or the particular portion thereof to be reviewed, (2) the request for review by the dissenting members, and (3) an opinion by the dissenting members supporting their pre-review request. The issuance of the ruling or the specified portion thereof may then be stayed until the National Board has acted on the case. If it is requested that issuance of only a specified portion of a ruling be stayed, the Board agent may, in its discretion, issue any other portion of the ruling pending action by the National Board. The National Board after acting upon the case, may, at its discretion, either issue the ruling itself or communicate its action to the Board agent which will then issue the ruling. The ruling, if issued by the National Board, will be subject to reconsideration as in the case of any ruling issued by the Board in the first instance. If the ruling is issued by the Board agent, after notification by the National Board of its action, the ruling will be subject to review as in the case of any other ruling issued by a Board agent.

(b) The Board agent also shall send a copy of such request for review, and the opinion supporting the request, to any party to the case within 7 days after Board agent action on the case, together with notice that such party may file an original and four copies of any comments with the National Board. If these documents are not transmitted to the parties by the Board agent, the action of the Board agent majority shall become final. Such comments, if any, shall be filed with the National Board within seven days after mailing to such party of the notice and request for review, and if filed within such period will be considered by the National Board.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-959]

SAN FERNANDO VALLEY SPORTS CENTER

San Fernando Valley Sports Center, a partnership consisting of Victor J. Nelson, E. Mancuso, and G. Schroeder, are engaged in the erection of temporary steel tubing grandstands at 3200 Van Owen Street, Burbank, California, for use in connection with various sports events to be held at that address. On May 4, 1946, without authorization from the Civilian Production Administration, the partners began construction work in the nature of pouring into the ground cement piers onto which were attached and to be attached steel tubing designed to form the support for grandstands fabricated of steel tubing, which said construction work exceeded the \$200.00 limit permitted by Veterans Housing Program Order 1, and was in violation thereof.

This violation has diverted scarce materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.959 *Suspension Order No. S-959.* (a) Neither Victor J. Nelson, E. Mancuso, or G. Schroeder, doing business as San Fernando Valley Sports, their successors or assigns, nor any other person shall do any further construction on the premises at 3200 Van Owen Street, Burbank, California, which contemplates the use of cement piers or other permanent attachment of the structure or structures thereon to the land.

(b) The restriction contained herein shall not apply to or preclude the erection of stands upon the aforementioned premises, which were begun before July 2, 1946 and which were not attached to the land.

(c) San Fernando Valley Sports Center shall refer to this order in any application or appeal which it may file with the Civilian Production Administration relating to the above-mentioned premises.

(d) Nothing contained in this order shall be deemed to relieve Victor J. Nelson, E. Mancuso, or G. Schroeder, doing business as San Fernando Valley Sports

Center, or under any other name, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-960]

WILLARD G. DANIELS

Willard G. Daniels of 12258 Greenwood Avenue, Seattle, Washington, filed on June 28, 1946 an application on form CPA-4386, for authorization to carry on the construction of a family residence to be located at 1005 West 132d Street in Seattle, Washington. In support of such application, Willard G. Daniels also filed an accompanying affidavit dated May 6, 1946, in which he represented that he owned or had already acquired all the materials necessary for the construction of the project. On the basis of such representations, the foregoing application was approved on July 10, 1946 and the project was assigned the serial number 66-127-10065. It appears that the representations made by Willard G. Daniels were false and misleading in that he did not have all the materials on hand necessary to complete the construction job at the time of the filing of the application and that actually he had on hand only a small amount of shiplap. The furnishing of this false and misleading information subjected Willard G. Daniels to the administrative action provided for under the provisions of § 944.18 of Priorities Regulation No. 3. These actions have diverted critical materials not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.960 *Suspension Order No. S-960.* (a) The authorization granted to Willard G. Daniels on form CPA-4386, Serial No. 66-127-10065, dated July 10, 1946 is hereby revoked.

(b) Neither Willard G. Daniels, his successors or assigns, nor any other person shall do any further construction on the premises located at 1005 132d Street, West, Seattle, Washington, including putting up, altering or completing any of the structures located thereon, unless hereafter specifically authorized in writing by the Civilian Production Administration or the National Housing Agency.

(c) Willard G. Daniels shall refer to this order in any application or appeal which they may file with the Civilian Production Administration or the Federal Housing Administration for priorities assistance.

(d) Nothing contained in this order shall be deemed to relieve Willard G. Daniels from any restriction, prohibition, or provision contained in any other order

or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

CARL SCHROEDER

Carl Schroeder of 420 Madison Avenue, Grosse Pointe Farms, Michigan, began on May 28, 1946 without authorization the construction of a summer home on Lot No. 7 of Eden Shores Subdivision, Eastport, Michigan, the estimated cost of which was in excess of \$400, in violation of Veterans Housing Program Order 1. This violation has diverted scarce materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.961 *Suspension Order No. S-961.* (a) Neither Carl Schroeder, his successors or assigns, nor any other person, shall do any further construction on the summer home located on Lot No. 7 of Eden Shores Subdivision, Eastport, Michigan, including putting up, completing or altering the structure unless hereafter authorized in writing by the Civilian Production Administration.

(b) Carl Schroeder shall refer to this order in any application or appeal which they may file with the Civilian Production Administration or the Federal Housing Administration for priorities assistance.

(c) Nothing contained in this order shall be deemed to relieve Carl Schroeder, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration except insofar as the same may be inconsistent with the provisions hereof.

SERVICE SCREW PRODUCTS CO.

Joseph A. Stasak and Louis F. Stasak, doing business as Service Screw Products Company of 7711 West Warren Avenue, Detroit, Michigan, on June 11, 1946, began without authorization from the Civilian Production Administration construction of a building to be used as a screw machine shop at 15115 Diversey, Detroit, Michigan. The beginning and carrying on of this construction at an

estimated cost in excess of \$15,000 constituted a violation of Veterans Housing Program Order No. 1. This violation has diverted scarce materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.962 *Suspension Order No. S-962.* (a) Neither Joseph A. Stasak nor Louis F. Stasak, doing business as Service Screw Products Company, their successors or assigns, nor any other person shall do any further construction on the screw machine shop building located at 15115 Diversey, Detroit, Michigan, including putting up, completing or altering the structure, unless hereafter authorized in writing by the Civilian Production Administration.

PART 944—REGULATIONS APPLICABLE TO THE  
OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Regulation 33, Direction 8, as  
Amended Aug. 22, 1946]

PREFABRICATED HOUSING UNDER THE VETERANS'  
EMERGENCY HOUSING PROGRAM

Priorities Regulation 33, Direction 8 is amended to read as follows:

(a) *What this direction does.* This direction explains how prefabricators may get priorities assistance (HH ratings) and the right to place certified orders for certain materials to be used in the production of prefabricated houses, sections, panels or packages under the Veterans' Emergency Housing Program. It also explains restrictions on prefabricators' and dealers' sales of such items.

*Definitions*

(b) *Definitions.* For the purpose of this direction:

(1) "Prefabricator" means a person engaged in the business of manufacturing prefabricated houses, sections, or panels.

(2) "Prefabricated house" means a house of which all, or substantially all, the walls and partitions are assembled from prefabricated sections or panels as defined below. The term "prefabricated house" does not include house trailers.

(3) "Prefabricated section" means a house section which is manufactured in a factory, is transported without being taken apart, and is designed to be used in combination with one or more prefabricated sections, prefabricated panels, or conventionally constructed

elements to produce housing accommodations.

(4) "Prefabricated panel" means a floor, wall, partition, ceiling, roof, or truss panel which is manufactured in a factory and is designed to be used in combination with one or more prefabricated sections, prefabricated panels, or conventionally constructed elements to produce housing accommodations. Prefabricated panels may, but need not, incorporate such items as window and door frames, sash, doors, builders' hardware, wiring, piping, etc.

(5) "Prefabricated package" means the aggregation of prefabricated sections or panels and building materials and equipment shipped, in a lot, by a prefabricator. (See paragraph (1) below for restrictions on materials for packages.)

(6) The terms "prefabricated panel" and "prefabricated section" do not include: (i) fabricated structural steel such as columns or beams, (ii) millwork as defined in Direction 1 to Priorities Regulation 33, (iii) items of furniture and equipment not to be permanently attached to and made a part of a house, or (iv) building materials cut to size and shape for assembly at the building site (unless shipped by the prefabricator as part of the prefabricated package he supplies—see paragraph (1) below for restrictions on materials for packages).

(7) "Authorized materials" means the materials now or hereafter listed in Schedule A to Priorities Regulation 33 (limited, in the case of softwood plywood, to construction grades only). These are the materials for which priorities assistance may be given under this direction to prefabricators.

#### Prefabricators' Applications for Priorities Assistance

(c) *Filing of applications.* A prefabricator may make quarterly applications for priorities assistance in getting "authorized materials" for his approved production requirements. Applications are to be made on Form CPA-4415 for the third quarter of 1946 and on Form NHA 14-53 for subsequent quarters. Such applications should be filed with the National Housing Agency, Washington 25, D. C., at least 45 days before the beginning of the quarter for which they are filed. Copies of the application form may be obtained from the National Housing Agency. Additional requirements arising after an application for a particular quarter has been approved may be applied for on a supplementary ("interim") application. Interim applications are to be made on Form CPA-4415 for the third quarter of 1946 and on Form NHA 14-53 for subsequent quarters. Such an application should be clearly marked as an "Interim Application" for the quarter.

(d) *NHA consideration of applications.* Applications will be considered for approval by the National Housing Agency on the basis of the following standards:

(1) *VEHP use.* Priorities assistance will be given only for quantities of "authorized materials" which are likely to be used fully in prefabricated housing authorized under the Veterans' Emergency Housing Program.

(2) *Technical standards.* Priorities assistance will be given only for the following purposes: (i) The manufacture of prefabricated houses or sections found by the National Housing Agency to be designed to meet standards of space, arrangement, and construction known as "HH Minimum Property Requirements," (ii) the manufacture of prefabricated panels designed to be incorporated in such houses, or (iii) the making up of prefabricated packages containing such sections or panels. The finding by the National Housing Agency will be based upon information submitted by the prefabricator on Form NHA 14-54 or in such other manner as may be required by the National Housing Agency. Copies of the HH Minimum Property Requirements are available at the National Housing

Agency, Washington 25, D. C., and at all State and District Offices of the Federal Housing Administration.

(3) *Production standards.* Priorities assistance will be given only after the National Housing Agency has taken into consideration the following factors: the prefabricator's use of scarce materials; the suitability of his product for low and moderate cost housing under the Veterans' Emergency Housing Program; and the prefabricator's apparent ability to produce, based upon plant facilities, general experience, financial status, distribution facilities, and other relevant considerations.

(e) *Granting of authorizations.* Priorities assistance will be in the form of authority to place HH-rated or certified orders for approved quantities of "authorized materials" (see paragraph (b) (7) above). The authorization will cover quantities to be so ordered for a particular quarter. It may also include an advance authorization enabling the prefabricator to place such orders for a percentage of his requirements for the next quarter, pending receipt of his regular authorization for that quarter, subject to the inventory restrictions of paragraph (h) below.

(1) *Authorizations on Form NHA 14-53.* Authorizations on Form NHA 14-53 will be for numerically expressed quantities of some "authorized materials" and for the minimum quantities of the other "authorized materials" needed to meet the prefabricator's approved production requirements.

(2) *Authorizations on Form CPA-4415.* Form CPA-4415 authorizations issued before August 22, 1946 related to the materials on the now obsolete List 1 to this Direction and covered specific quantities of those materials. Those authorizations shall be considered automatically amended on August 22, 1946 to the following extent:

(i) A prefabricator who has received an authorization on Form CPA-4415 may, without further application, use it to get permitted quantities of "authorized materials" for the remainder of his approved third-quarter requirements and for his advance fourth-quarter requirements. "Authorized materials" as defined in paragraph (b) (7) above include a number of materials which were not included on List 1 to this Direction.

(ii) For the following materials, the permitted quantities are the quantities numerically expressed in the authorization: lumber, millwork, hardwood flooring, construction grades of softwood plywood.

(iii) For the other "authorized materials" (lumber, millwork, hardwood flooring, and softwood plywood not included), the permitted quantities are the minimum quantities needed for approved production requirements. This applies even where the Form CPA-4415 authorization specified numerically expressed quantities of any of these materials. "Approved production requirements" means requirements based on the number of units produced with the materials to which numerically expressed limits apply (see paragraph (e) (2) (ii) above).

(iv) Any limitations formerly imposed by this direction on third-quarter authorizations, or on the use of materials obtained under it, are to be considered amended to conform with the limitations of this direction as now amended.

#### Prefabricators' Use of Priorities Assistance

(f) *Extending customers' HH ratings.* A prefabricator must not extend an HH rating which he receives from a customer.

(g) *Placing orders.* A prefabricator who has been granted priorities assistance on Form CPA-4415 or Form NHA 14-53 may place orders for the approved quantities of "authorized materials" as follows:

(1) *Certified orders for some "authorized materials."* For lumber, millwork, hardwood

flooring, and softwood plywood (construction grades only), he may place certified orders as explained in the applicable direction (1 or 1A) to PR 33 covering the particular material.

(2) *HH rated orders for other "authorized materials."* For the other "authorized materials" (lumber, millwork, hardwood flooring, and softwood plywood not included), he may use an HH rating on his purchase orders. The HH rating may be applied to a purchase order only by placing on the order the following certificate (the certificates in Priorities Regulations 3 and 7 may not be substituted for this certificate):

Veterans' Emergency Housing Program  
Prefabricated Housing:  
Serial # \_\_\_\_\_  
Ratings: HH

I certify to the Civilian Production Administration and the National Housing Agency that the materials covered by this order will be used only in accordance with applicable regulations of those agencies, including Direction 8 to PR 33.

#### Prefabricator

A prefabricator may not place any such HH rated order with a producer unless that is specifically provided for in an applicable PR 33 direction or otherwise.

Where HH rated orders have already been placed with the certificate specified in Direction 8 to PR 33, as amended May 8, 1946, the certificate need not be changed to correspond with the certificate set out above. In addition, even though the former certificate stated that completed units made from the materials ordered would be sold only on orders rated HH, the prefabricator may sell them in accordance with paragraphs (k) and (n) below.

(h) *Delivery-date restrictions.* In placing an HH-rated or certified purchase order under this direction, a prefabricator must not specify a delivery date which is (1) more than 30 days before the time the materials are to be used by him or (2) later than the end of the third calendar month after the month in which the order is placed. "Delivery date" means the date of delivery at the prefabricator's plant or warehouse.

(i) *Use of materials.* In accordance with Priorities Regulation 1, materials obtained by a prefabricator under this direction may be used by him for the following purposes only: (1) for incorporation at the factory into prefabricated houses, sections, or panels conforming with the technical standards of paragraph (d) (2) above, or (2) for shipment as a minor part of a prefabricated package, if needed for installation at the building site or for assembly of the rest of the package at the building site.

(j) *Disposal of materials.* If a prefabricator is unable to use materials obtained under this direction for the purposes for which they were authorized, he may use or dispose of them only as follows:

(1) By such other use as may be authorized in writing by the National Housing Agency; or

(2) By "special sale" under Priorities Regulation 13, if he is not regularly engaged in the business of selling such materials; or

(3) By sale as authorized by the National Housing Agency if, in addition to being a prefabricator, he is also regularly engaged in the business of selling such materials.

#### Sales and purchase restrictions

(k) *Prefabricators' sales.* A prefabricator may not sell a prefabricated house, section, panel or package containing materials obtained under this direction except on an order bearing either an HH rating or a dealer's certification as set out in paragraph (1) below. This does not apply to a prefabri-

cator's sale of a prefabricated house, section, or panel erected by him, as a builder, under PR 33 authorization (see paragraph (n) below).

(l) *Dealers' purchases.* A wholesale or retail dealer may get a prefabricated house, section, panel, or package either by extending an HH rating served on him or by placing a purchase order bearing the following certification:

I certify to the Civilian Production Administration and the National Housing Agency that the prefabricated houses, sections, panels, and packages covered by this order will be sold by me only in accordance with applicable regulations of those agencies, including Direction 8 to PR 33.

-----  
Dealer

(m) *Dealers' sales.* A wholesale or retail dealer may not sell a prefabricated house, section, panel, or package obtained under paragraph (l) above except on an order bearing either an HH rating or a dealer's certification as set out in paragraph (l) above. This does not apply to the sale of a prefabricated house, section, or panel erected by him, as a builder, under PR 33 authorization (see paragraph (n) below).

(n) *Application by builder under PR 33.* A veteran of World War II or other builder who wishes to erect a prefabricated house, section, or panel may apply for an authorization to construct and an HH rating under Priorities Regulation 33, and his application will be processed in the usual fashion. If his application is approved, the builder will be subject to all the requirements of PR 33, including the restrictions on sales price, rents, and preference to veterans. When the application is approved, the builder will be assigned an HH rating which he may use to get a prefabricated house, section, panel, or package and the necessary quantities of any other item on Schedule A to Priorities Regulation 33. This rating may be applied in accordance with, and subject to, the limitations of PR 33. A prefabricator or a dealer may also apply under PR 33, if he wishes to erect a prefabricated house, section, or panel manufactured or obtained by him under this direction. A prefabricator acting as an erector will be subject to all the requirements of PR 33.

#### Miscellaneous

(o) *Communications and appeals.* Communications regarding the provisions of this direction, and appeals from these provisions, should be sent to the National Housing Agency, Washington 25, D. C., Ref: Dir. 8 to PR 33. An appeal should be made by letter, in triplicate, stating the particular provision appealed from and the full grounds for the appeal.

(p) *Violations.* Any person who wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(q) *Reporting requirements approved.* The reporting requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

For the purposes of this order, "floor sample" means an article which a retail seller has prior to August 19, 1946, used for display purposes only and which was designated as not being available for purchase by consumers.

PART 1305—ADMINISTRATION

[SO 176]

ALTERNATIVE PRICING BY USE OF MARCH 31,  
1946 MARKUP

A statement of the considerations involved in the issuance of this order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

§ 1305.228 *Alternative pricing method for sales at retail or at wholesale of certain commodities*—(a) *Scope of this order.* The purpose of this order is to assure to distributors pricing under the General Maximum Price Regulation prices reflecting, on the average, mark-ups on current costs of commodities equal to those in effect for those commodities on March 31, 1946. Any person selling at retail or at wholesale a commodity which he is required to price pursuant to § 1499.2 or § 1499.3 of the General Maximum Price Regulation (but not pursuant to the provisions of any order or regulation modifying the pricing method provided in those sections), may, subject to the conditions specified in paragraph (d), determine his ceiling price for that commodity pursuant to this order rather than pursuant to those sections.

(b) *Definitions.* (1) "Net cost" means the invoice cost of a commodity less all discounts the seller could have taken, or

<sup>1</sup> SO 132—10 F.R. 14954, 15170; 11 F.R. 296, 297, 881, 1102, 1467, 2378, 2640, 2989, 2927, 3247, 3396, 4021, 4090, 4861, 5066, 5353, 5598, 5599, 5539, 5650, 5740, 5868, 5781, 6232, 6606, 6883, 7185, 8446, 8534, 8647, 8643.

his supplier's maximum price for the commodity, whichever is lower.

(2) "March 31, 1946 markup" is calculated by the seller by subtracting from his March 31, 1946 ceiling price of the commodity to the same class of purchaser used for the determination of that markup, the net cost thereof as determined from the last invoice which he received therefor prior to March 31, 1946 from the same class of supplier as the supplier from whom he purchased the commodity he is pricing, and dividing the difference by that net cost.

(c) *Determination of prices.* A seller shall determine his ceiling price for the commodity he is pricing under this section by adding to the net cost of that commodity an amount found by multiplying that "net cost" by the appropriate markup in (1) or (2) below:

(1) The "March 31, 1946 markup" which resulted in the highest price which the seller charged or could have charged on March 31, 1946:

(i) For the same commodity; or

(ii) If no charge was made or could have been made for the same commodity for the similar commodity most nearly like it. (The term "similar commodity" is defined in § 1499.2 of the General Maximum Price Regulation.); or

(iii) If no charge was made or could have been made for the same commodity or for the similar commodity most nearly like it, for the most comparable commodity. (The term "most comparable commodity" is the one which meets these tests: (a) It belongs to the narrowest trade category which includes the article being priced; (b) Both it and the article being priced were purchased from the same class of supplier; (c) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied; (d) Its net replacement cost is nearest to the net cost of the article being priced.)

(2) If no charge was made or could have been made for the same, similar, or most comparable commodity, the seller's markup shall be the markup authorized by the District Office of the Office of Price Administration in which the seller is located. This markup shall be authorized upon application made by the seller in accordance with paragraph (e).

(d) *Limitations on use of this section.* Before a seller may price any commodity under this section he must have "retailed" the invoice for the commodity he is pricing by noting thereon that he priced it pursuant to this order. In addition, he must comply with either (1) or (2) below, whichever is applicable, and must retain all records required under this paragraph for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(1) If he determines his markup pursuant to paragraph (c) (1), he must make a record showing:

(i) The commodity being priced;

(ii) The commodity used to ascertain the markup;

(iii) A reference to the invoice used to determine the "March 31, 1946" markup; and

(iv) The ceiling price on March 31, 1946 of the commodity used for the purpose of determining the "March 31, 1946" markup.

(2) If he determines his markup pursuant to paragraph (c) (2), he must have received from his District Office an order in writing authorizing the markup, which order he must retain in his files.

(e) *Application for markup.* A seller who is required by paragraph (c) (2) to apply for a markup shall file an application with his District Office which shall authorize a markup in line with the level of markups for that commodity under the General Maximum Price Regulation on March 31, 1946. The application shall be in writing and shall set forth:

(1) His name and address;

(2) Type of business and whether he is selling at wholesale or at retail;

(3) The name and address of his most closely competitive seller of the same class;

(4) A full description of the commodity for which the markup is desired, the "net cost" to him of the commodity, his source of supply, and, if available, the supplier's net price for the commodity on March 31, 1946.

This supplementary order shall become effective August 23, 1946.

NOTE: The reporting and record-keeping provisions of this supplementary order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 21st day of August 1946.

**PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT**

[MPR 220,<sup>1</sup> Amdt. 29]

**CERTAIN RUBBER COMMODITIES<sup>2</sup>**

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Regulation 220 is amended in the following respects:

A new section, § 1315.1560d, is added to read as follows:

§ 1315.1560d *Adjustments for certain commodities priced under § 1315.1555 and § 1315.1556*—(a) *What this section provides.* This section provides a method whereby manufacturers may add certain specified direct labor cost increases to the maximum prices determined under § 1315.1555 (first pricing method) or § 1315.1556 (second pricing method) for certain commodities.

(b) *What commodities are covered.* This section applies only to the following commodities:

Brassieres (including bandeaux)  
Corsets (including one-piece foundations)  
Girdles  
Elastic Girdle Blanks

(c) *What sales are covered.* This section applies to all manufacturers' sales of the commodities listed in paragraph (b) for which maximum prices have been determined under § 1315.1555 or § 1315.1556.

(d) *How the adjustment may be determined.* On and after August 27, 1946, the maximum price of a commodity listed in paragraph (b) which has been properly determined under § 1315.1555 (first pricing method) or § 1315.1556 (second pricing method) may be adjusted in the following manner:

*Step 1.* Determine the maximum price of the commodity under § 1315.1555 or § 1315.1556 (whichever is applicable).

*Step 2.* Determine the cost of direct labor used in manufacturing the commodity based on wage rates in effect during March, 1942.

*Step 3.* Determine the cost of direct labor used in manufacturing the commodity based on "approved" wage rates in effect June 30, 1946. "Approved" wage rates are those ap-

proved within the requirements of Subpart O of the Wage and Salary Regulations issued by the Office of Economic Stabilization on March 8, 1946.

*Step 4.* Subtract the amount found in Step 2 from the amount found in Step 3. The difference found in this step is the amount of the adjustment.

*Step 5.* Add the amount of adjustment calculated in Step 4 to the maximum price for the commodity found in Step 1.

This is your adjusted maximum price for the commodity.

(e) *Report of adjustment.* No person may deliver any commodity at a maximum price adjusted under this section until he has received approval of the adjustment made for the commodity under this section from the Office of Price Administration, but the adjustment reported to the Office of Price Administration by the seller shall be deemed approved on the twentieth day after he has mailed to the Apparel Price Branch, Office of Price Administration, Washington, D. C., the report required by this paragraph (and all additional information which may be requested by the OPA) unless within that time, the Office of Price Administration notifies the seller that his reported adjustment has been disapproved. Under this paragraph, the seller must submit a sample of each style number of each commodity whose maximum price is adjusted under this section and must file two copies of a report signed by an owner, officer or principal containing the following information:

(1) Date of report.

(2) Seller's business name and address.

(3) For each commodity whose maximum price is being adjusted: the style number of such commodity, the maximum price for such style determined under Step 1 of paragraph (d), the pricing method used, and a description of each such style number.

(4) A description of each type of direct labor required in the manufacture of both the current style number and the applicable base period style number, setting forth for each the following information:

(i) March 1942 wage rates for each type of direct labor.

(ii) "Approved" wage rates in effect June 30, 1946, for each type of labor ("approved" wage rates are defined in Step 3 of paragraph (d)).

(iii) The number of hours of each type of labor required.

NOTE: Wage rates are the hourly rate of pay for time workers; and for piece workers, the hourly rate of pay used as the base in calculating piece work rates (note that this is not necessarily the same as the piece worker's average hourly earnings).

(5) The cost of direct labor used in manufacturing each style number based on wage rates in effect during March, 1942, as calculated under Step 2 of paragraph (d).

(6) The cost of direct labor used in manufacturing each style number based on "approved" wage rates in effect June 30, 1946, as calculated under Step 3 of paragraph (d).

(7) The amount of the adjustment for each style number, as calculated under Step 4 of paragraph (d).

(8) The adjusted maximum price of each style number as calculated under Step 5 of paragraph (d).

(9) A list of all wage increases granted between March, 1942, and June 30, 1946, for each type of direct labor as set forth in (4) above, the date each such increase was granted, and the authority under which it was made (i. e., order of the National or Regional War Labor Board, Wage Stabilization Board, Arbitration Award, etc.).

NOTE: The report required under section 1315.1556 (second pricing method) must be filed together with the report required by this paragraph, unless the report under that section has previously been filed and approved. The seller must keep a copy of the report required by this section.

(f) *Approval or modification of reported adjustment.* The adjustment reported under this section may be expressly approved in writing by the Office of Price Administration, or, if no order disapproving or modifying such adjustment has been issued within 20 days after the mailing of the report required by paragraph (e) above, (and all additional information which may be requested by the OPA), the adjustments reported are deemed to have been approved until issuance of an order disapproving or modifying them.

This amendment shall become effective August 27, 1946.

NOTE: The reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 22d day of August 1946.

[Rev. EO 119, Order 325]

## GENERAL MOTORS CORP.

## ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* New Departure Division, General Motors Corporation, Bristol, Connecticut, may compute its adjusted ceiling prices for the bicycle brakes which it manufactures, as follows:

(1) For an article which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 12%.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188, and prices so fixed may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' ceiling prices.* Distributors and dealers who sell the article in the same form in which the manufacturer has sold it at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who determines his maximum resale price under the General Maximum Price Regulation shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the

reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) The provisions of Supplementary Order No. 153 are not applicable to any sales covered by this order.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 22d day of August 1946.

Issued this 21st day of August 1946.

Administrator.

## WEST BRANCH NOVELTY CO.

## ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 133, it is ordered:

(a) *Manufacturer's maximum prices.* West Branch Novelty Company, 201 Arch Street, Milton, Pennsylvania, may increase its maximum prices properly established under Maximum Price Regulation No. 188 (exclusive of any adjustment charges) for cedar chests, which it manufactures, by 43 percent of each such maximum prices.

(b) *Resellers' ceiling prices.* Resellers of articles which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580 and a wholesaler who must determine his ceiling price under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General

Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling price under that regulation as modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price", the reseller shall calculate his ceiling prices by adding to his invoice cost the same percentage mark-up which he had on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under Office of Price Administration regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) The manufacturer shall file the report described in section 5 of Supplementary Order No. 183 with the Office of Price Administration, Washington 25, D. C., and shall comply with the invoicing and reporting provisions of Order No. 4800 under Maximum Price Regulation No. 188.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 22d day of August 1946.

Issued this 21st day of August 1946.
