SUBJECT: Operational Responsibility for Civil Affairs Matters in I Corps Zone of Responsibility

TO: Commanding General
Eighth Army
APO 343

1. The close-out of prefectural Civil Affairs Teams and the reorganization of regional teams is progressing rapidly. This headquarters is issuing instructions that all operational functions of the Civil Affairs prefectural teams be assumed by regions as of midnight 9-10 November 1949. All military and other personnel in the prefectural teams less administration sections have been reassigned and will have joined their new units by 15 November 1949. There will remain to be accomplished only the final phase of the close-out of the prefectural teams on 30 November 1949.

2. In order to expedite Civil Affairs business and to remove what is becoming an unnecessary link in the Civil Affairs command channel, will it be agreeable for the Commanding General, I Corps, to be relieved of all operational responsibility for Civil Affairs matters and these be assumed by Headquarters, Eighth Army, effective midnight 14-15 November?

3. This headquarters will retain responsibility for the close-out of prefectural teams and the legistic support of regional teams in accordance with current instructions.

SUBJECT: Plan for Continued Logistic Support Following Discontinuance of Prefectural Civil Affairs Teams

TO: Commanding General
Eighth Army
APO 343

1. Reference letter from Supreme Commander for the Allied Powers to Commanding General, Eighth Army, AG 320 (25 Jul 49) SGS, subject: "Reorganization of Civil Affairs Activities," 25 July 1949.

2. After 30 November 1949, the date on which Prefectural Civil Affairs Teams are to be discontinued, the logistic support of visitors on Civil Affairs matters and other logistic support which has been provided by those teams must be continued.

3. The following assumptions and factors should be taken into consideration in continuation of this logistic support:

a. Civil Affairs Regional Teams will continue to provide for visitors in their immediate localities.

b. Troop units in areas where their locations are suitable for the purpose will be able to quarter, subsist, and transport visitors formerly handled by Prefectural Teams.

c. In localities where neither Regional Teams nor troop units will be able to continue the logistic support of visitors theretofore furnished by Prefectural Teams, the responsibility for such support will devolve upon CIC Detachments.

d. With the discontinuance of Prefectural Teams, CIC Detachments will be deprived of certain necessary logistic support furnished by those teams. Measures to restore such support are required.

e. In cases where CIC Detachment facilities are inadequate, these detachments should be permitted to take over only the essential Procurement Demand real estate and equipment to be given up by Prefectural Teams. In the interest of economy unnecessary exchange and/or acquisitions of property will be avoided.

f. CIC Detachments which become responsible for providing facilities for visitors on Civil Affairs matters will, to the extent necessary, be augmented by attachment of personnel and equipment from the appropriate Regional Civil Affairs Teams.

g. In localities where the logistic support of visitors becomes the responsibility of troop units or CIC Detachments, the number of visitors on Civil Affairs matters will normally not exceed ten at one time.

h. The figure of ten visitors will require the provision of the following for their support:

(1) Two non-commissioned officers.

(2) Three trucks, 1/4 ton.

(3) Three driver-mechanics (Japanese).

(4) Requisite mess and billeting facilities, including indigenous personnel, if necessary.

4. In a conference held on 21 September 1949, between General Headquarters and Eighth Army representatives, it was indicated that considerable planning at Prefectural level between Civil Affairs Teams and CIC Detachments has taken place as a result of the letter referred to in paragraph 1. A representative of the Assistant Chief of Staff, G-2, this headquarters, will be available to participate in any conferences incident to formulation of the final plan.

2. Your headquarters will take necessary action to coordinate and supervise the support described in basic letter. In cases where the escort of visitors cannot be provided by the Regional Civil Affairs Team nor the local troop units then the responsible CIC team will submit requests for justifiable space and equipment requirements directly to the nearest Prefectural Civil Affairs Team. In such cases, the Prefectural teams will take the necessary action to effect the transfer of such facilities and equipment on a date mutually agreeable to the CIC Detachment Commander and the Prefectural Team Chief. Every effort will be made to complete such transfers prior to the departure of the Prefectural Civil Affairs Teams. Future requests from these CIC teams for space, equipment and personnel necessary to comply with the provisions of the basic letter, will be forwarded through the Regional Civil Affairs Teams for consolidation, comment and further justification if deemed necessary.

3. Your headquarters will require Regional Civil Affairs Teams to forward proposed transfer plans, within the provisions of basic letter, to your headquarters for screening of requirements, recommendations, and justification. Reasonable requests will be approved by your headquarters.

4. Excessive demands that do not appear to be reasonably justified within the provisions of the normal Army-wide conservation program for facilities and money will be forwarded to Headquarters Eighth Army for consideration and, where required, reference to Supreme Commander for the Allied Powers.

1. Effective as of 30 September 1949, a survey of approximately five (5) percent of Army personnel under your strength accountability (excluding all general officers, personnel in process of separation, personnel assigned to Detachments of Patients, pipeline personnel assigned to reassignment centers and at continental ports of embarkation, and personnel en route to or from an oversea command) will be made in accordance with these instructions. The survey will include only Department of the Army commissioned officers, warrant officers, and enlisted personnel assigned to Department of the Army organizations who have serial numbers ending in 23, 41 59, 77, and 95.

2. Inclosure 1, DA AGO Form R-5506 (Personnel Survey of the Army Interview Form) will be reproduced locally, and will be utilized to obtain the required data for the individuals involved. Each reproduced copy of the form will contain the title, number, date, and reports control symbol. The forms will be completed to show all available information. Because personnel records do not include current information necessary to complete items 20, 23, 24, 25, 26a, 26b, 27, 28, 29, 30, 31, and 32 of this survey, it will be necessary to obtain these date by interview with the individuals concerned. 1. In keeping with the changing aspects of the Occupation, there will be a gradual reduction in strength of the Prefectural Civil Affairs Teams, culminating in complete discontinuance by 30 November 1949, thus leaving in the field only the Regional and the Hokkaido District Civil Affairs Team. To this end it is desired that the Commanding General, Eighth Army:

a. Effective at once, commence the reduction in strength of the prefectural teams.

b. Maintain the regional and district teams at approximately their present authorized strengths and utilize DACs to the maximum extent possible. In the usual case, military personnel assigned to a regional or district team will be limited to the Chief of the team, his deputy, and a minimum number of enlisted men for administrative purposes (see Paragraph 3, below). The authorized strength of these teams may be varied, at your discretion, to conform to their respective tasks.

c. By 31 December 1949, discontinue the Civil Affairs Section of Headquarters, Eighth Army and I and IX Corps.

d. Select from the Civil Affairs Section, Eighth Army, the military and civilian personnel to staff the Civil Affairs Section, General Headquarters, Supreme Commander for the Allied Powers, which is to be organized prior to 31 December 1949. The specific personnel requirements for this section will be transmitted later.

2. Effective 31 December 1949, the Commanding General, Eighth Army, will be relieved of responsibility for Civil Affairs operations, at which time the Supreme Commander for the Allied Powers will assume command of the Regional Civil Affairs Teams. The regional teams will be attached to the Eighth Army for logistic support, administration, discipline, and court-martial jurisdiction.

3. In the past, the Civil Affairs Teams have provided local transportation for, and have generally facilitated the movement of, SCAP staff personnel on official business in their respective prefectures. With the

discontinuance of the prefectural teams, the only remaining U. S. Army agencies in certain prefectures will be the CIC detachments, which normally are not in a position to assume the task. A survey is now being made to determine specific requirements in the various prefectures. It is contemplated that a minimum number of enlisted men (not to exceed four in any prefecture) will be made available for this duty. These men will be assigned to the regional teams but will be attached to the CIC teams at their respective stations for administration and discipline. Further details respecting their selection, assignments and functions will be issued later.

AG 320.2 (16 Nov 48) AG-OA 16 June 1949

SUBJECT: Personnel Survey of the Army (Reports Control Symbol CSGPA-35)

TO : Commanding Officers, All Organizations Assigned and Attached, Eighth Army.
Commanding Officers, All Organizations Assigned and Attached, Korea Military Advisory Group
Commanding Officers, All Organizations Assigned and Attached, Philippines Command.
Commanding Officers, All Organizations Assigned and Attached, Marianas-Bonins Command.
Commanding Officers, All Organizations Assigned and Attached, Ryukyus Command.
Commanding Officers, All Organizations Assigned and Attached, Headquarters and Service Group, General Headquarters, Far East Command.

1. Effective as of 30 June 1949, a survey of approximately 5 percent of Army personnel (excluding personnel in process of separation, personnel assigned to Detachments of Patients, pipeline personnel at replacement depots and personnel enroute to the United States or other oversea commands) will be made in accordance with these instructions. This survey will include only Department of the Army commissioned officers, warrant officers and enlisted personnel assigned to Department of the Army organizations who have serial numbers ending in 22, 40, 58, 76 and 94. These instructions do not apply to Department of the Air Force personnel assigned for duty with the Department of the Army.

2. Inclosed are sufficient Personnel Survey of the Army Interview Forms (DA AGO Form R-5506) which will insure rendition of required data for those individuals of your organization assigned as of 30 June 1949 to be included in this survey. In completing the inclosed forms reference will be made to each individual's service or qualification record and in those cases where data necessary to complete an item can more readily be obtained from the Officer's Personnel Data Card (FEC AGO Form 116), or Enlisted Personnel Data Card (FEC AGO Form 117) these local forms will be utilized viz., information necessary to complete item 9, Personnel Survey of the Army Interview Form will be taken from item 15, Enlisted Personnel Data Card. Because personnel records do not include current information to complete items 20, 23, 24, 25, 26, 27, 28, 29, 30, 31 and 32 of this survey, it will be necessary to obtain these data by interview with the individuals concerned. In addition to completing all data required by the Department of the Army, it is desired that the organization of assignment of the individual be shown in item 1, under the individual's name.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDB No.

AG 320.2 (16 Nov 48) AG-OA, 16 June 1949
Subj: Personnel Survey of the Army (Reports Control Symbol CSGPA-35)

3. Results of survey completed for period ending 31 March 1949, are indicative of the lack of attention given by units to the preparation and rendition of this essential report. The need for statistics relating to the individual officer and soldier within the Department of the Army for planning purposes is emphasized. The personnel survey of the Army as conducted quarterly is one of the primary sources for obtaining planning statistics. Attention commensurate with the importance of this report will be given by all unit commanders. In order to maintain a more accurate control of personnel included in this survey, in those cases where organizations have individuals whose serial numbers end in one of those shown in paragraph 1 above, a listing has been prepared to indicate all such personnel as of 15 June 1949. In those cases where an individual whose serial number ends in one of the above mentioned numbers is assigned to your units but fails to appear on the inclosed listing, unit concerned will add the names of such personnel at the end of the listing. When completing inclosed Personnel Survey of the Army Interview Forms for individuals of your organizations units will indicate the status, viz., detached service, temporary duty, transferred etc. of those individuals for whom it is necessary to return an incomplete interview form.

4. It is desired that completed and incomplete forms for personnel of your organization involved in this survey be forwarded accompanied with a copy of the attached listing to Commander-in-Chief, Far East, APO 500, ATTENTION: Strength Accounting Branch to arrive not later than 10 July 1949 to allow ample time for preparation of necessary punch cards and consolidation with cards prepared for other major commands prior to submission to the Department of the Army.

5. Negative reply is desired, where applicable.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDB No.

PERSONNEL SURVEY OF THE ARMY INTERVIEW FORM NOTES

NOTE 1: The serial number prefix established by JAAFAR 1-1-1, as amended, will be indicated for each individual represented in the survey. The prefix is a permanent part of the assigned serial number. This is necessary in order to identify properly individuals as to their assignment as Army or Air Force personnel.

NOTE 2: a. Months in present grade for officer personnel will be total months in grade in which serving from "date of rank" through 30 June 1949.
b. Months in present grade for enlisted personnel will be total months in grade from "date of current grade" through 30 June 1949. Less than a month in present grade will be computed as 1 month.

NOTE 3: Officers on duty with, but who are not members of the Philippine Scouts will be reported in proper component; i.e., Army of the United States, Organized Reserve Corps, National Guard, or Regular Army.

NOTE 4: Indicate the actual number of years of school completed. Graduates from grammar school will be credited with 8 years; high school, 12 years, college, 16 years; post graduate, the number of years of post graduate work completed plus 16 years for grammar school, high school, and college. When an individual has completed only 2 years of high school, number of years of education credited will be 10.

NOTE 5: "Military service" is defined as service in the Army of the United States Air Force, Navy, Marine Corps, and Coast Guard, or any component thereof. For the purpose of this survey partial month's service will be computed as 1 month.

NOTE 6: Active service in State National Guard not included in items 15 or 16, but is included in item 18.

NOTE 7: Service to be included is inactive Federal and other inactive service applicable in determining longevity pay; other service includes non-federalized National Guard (other than National Guard of the United States in Federal service) National Guard Reserve and inactive National Guard if counted for longevity pay.

NOTE 8: In computing the total number of months of oversea service it is important the computation be made so as to provide the information desired. For example, for this survey (number 23), which is as of 30 June 1949, the maximum number of months that could possible be indicated is 91 (the 24-day period in December 1941 is computed as 1 month). For the purpose of this survey, partial month's service will be computed as 1 month.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG No.

NOTE 9: In computing leave as of 30 June 1949, for the purpose of this survey, accrued leave computed at more than 60 days for any individual will be reported as 60 days only.

NOTE 10: All officers are in receipt of rental and/or subsistence; consequently this item requires a positive answer by each officer interviewed in accordance with current survey.

NOTE 11: a. Only enlisted men of the combat ground forces who have been awarded the expert infantryman badge or combat infantryman badge are entitled to additional pay therefor, except as explained in "b" below. Any enlisted men who have been awarded the medical badge are entitled to additional pay therefor, except as explained by "b" below.

b. Personnel in "a" above are ineligible to receive additional pay for the medals indicated when--

(1) They are in a nonpay status.

(2) Their award has been revoked.

(3) They are receiving additional pay for--

(a) Expert infantryman badge, medical badge, flying or diving duty (applicable to holders of combat infantryman badge).

(b) Combat infantryman badge, medical badge, flying or diving duty (applicable to holders of combat infantryman badge).

(c) Expert or combat infantryman badge, flying or diving duty (applicable to holders of medical badge).

1. References:

a. T/D 301-1225, dated 30 June 1948, as changed 30 September 1948.
b. GO 95, Eighth Army, dated 17 November 1948.
c. Letter Order 1-8, Eighth Army, dated 23 January 1948, subject: "Reorganization of Military Government in Japan".

2. In accordance with references a and b above, this headquarters and all Military Government Teams within this Region were reorganized, effective 25 November 1948.

3. Reference c above was not specifically rescinded in its entirety when T/D 301-1225 was placed in effect. However, it is assumed by this headquarters that such a reorganization as outlined and promulgated by T/D 301-1225 automatically rescinded the former authority of Letter Order 1-8, (reference c above).

4. In connection with the above, certain problems, misunderstandings and difficulties have arisen as follows:

a. The "Roster of Military Government Personnel Report", (RCS: MG-03(R-1) is based on Letter Order 1-8, Eighth Army, dated 23 January 1948, and does not accurately reflect the personnel as presently assigned under authority of T/D 301-1225. This has caused confusion and has resulted in erroneous reports.

b. T/D 301-1225 does not authorize personnel for port control work (customs, immunization, quarantine, etc.) for the four ports under the control of Fukuoka Military Government Team and the two ports under control of Nagasaki Military Government Team. Additional personnel were authorized by the old Letter Order 1-8 arrangement. Despite the fact that additional personnel are not now authorized, shipping and trade have steadily increased. An average of 61 American and allied vessels, and an average of 941 SCAJAP cargo vessels arrive and depart from

BA 1306

DECLASSIFIED E.O. 12065 SECTION 3

Ltr Kyushu Mil Govt Reg, APO 24-5, 9 May 49, subj: "Request for Clarification of T/D 301-1225"

these ports in addition to the arrivals and departures from other ports within and under the control of these prefectures. Port control and surveillance must be exercised over all ports and shipping. Under the present arrangement, port control work requires that the personnel used be drawn from the Economics Sections of the teams concerned, thus drawing them away from other work of importance, overburdening the remaining personnel and reducing the overall efficiency of the sections. This results in and reflects a loss to Military Government, the Occupation, the United States Government and the Japanese. It is believed that this present arrangement was not originally intended to shape up in this way.

c. T/D 301-1225 does not specifically authorize civilian personnel, nor does it specify which T/D vacancies may or may not be filled by DAC personnel.

(1) Under the old Letter Order 1-8 authorization, military grades and number were shown by Incl. #1 to Letter Order 1-8, but DAC personnel were not shown.

(2) Letter, Eighth Army, AG 300.1 (MG-X) dated 28 January 48, subj: "Letter of Instructions - Military Government Units in Japan", gave the aggregate total of all authorized personnel.

(3) By subtracting the list of authorized military personnel (Inclosure to Letter Order 1-8) from the Inclosures to Letter, Eighth Army, AG 300.1 (MG-X), dated 28 January 48, subj: "Letter of Instructions - Military Government Units in Japan", the appropriate number of officer type and EM type of DAC personnel could be found. This proved to be a cumbersom, but the only effective arrangement available for finding the number of DAC personnel authorized.

(4) Under the new T/D 301-1225 arrangement, DAC personnel are not shown. This headquarters has been (of necessity), and still is, going under the assumption that the DAC personnel authorized for this Region is the amount shown as obtained from the method listed in paragraph 4c(3) above. No clarification on this has ever been received. The amount of personnel reported has been figured from and by the above mentioned method.

d. T/D 301-1225 does not provide specifically for a labor relations officer (MOS 2330). This position is considered absolutely necessary due to the high percentage of industry, mining and commerce concentrated on Kyushu together with the ever present problem of dealing with the labor unions and management of all of the above enterprises. The labor officer (Occupation Force labor), of necessity, is bogged down with a huge volume of paperwork concerning

DECLASSIFIED E.O. 12065 SECTION 3

indigenous personnel, their screening, examination and pay. In addition, the collecting of funds for the payment of indigenous category II personnel and the resultant paperwork keep this labor officer constantly occupied.

e. MOS assignment for the Public Information Officer (5503) does not accurately reflect the status or duties of this officer. (Reference TM 12-406, dated February 1946). This MOS as described by referenced TM is for a Public Education Officer re: administration and operation of educational institutions in occupied territories. This is not only confusing but it is misleading and may, in the future, work to the disadvantage of the personnel presently involved.

f. The Coal Board of this headquarters is authorized by Letter, Eighth Army, AGMGX 463.3, dated 18 August 48, subj: "Coal Production in the Kyushu Field", on a bulk overhead arrangement. The assignment of the Coal Board as bulk overhead personnel and not assigned T/D personnel causes confusion in submitting personnel reports. Further, high headquarters consistently counts these officers and DAC's as assigned T/D personnel instead of bulk overhead personnel and seems to be under the impression that this headquarters is continually overstrength, when in effect, this headquarters is understrength in officers, and only has nine EM of which two are in the Z/I oh leave and will not return for another two months or more.

g. The Tax Officer of this headquarters, (DAC, CAF-12), was sent to this headquarters on a verbal arrangement of Eighth Army and I Corps and is counted against the assigned officer and officer-type strength of this headquarters. It is realized that a tax officer is necessary owing to the importance of the tax program in implementing the "Economic Stabilization Nine Point Program," but it is believed that this position should be reflected from an assigned T/D position and not bulk overhead, nor should it be subtracted from the present authorized strength. Further, reports would not reflect a ghost population of assigned personnel that do not exist.

h. The Public Health nurse (DAC P-4) of this headquarters is not an assigned T/D position and is here at this headquarters under the same type of arrangement as listed in paragraph 4g above. The provisions of paragraph 4g above, as outlined, likewise apply in this case also.

5. DAC personnel from time to time have been drawn away from this Region and placed on TDY elsewhere for extended periods. During these periods of extended TDY, subject personnel were always charged as being assigned. From personnel and strength accounts, it appeared as if this Region was up to strength and/or overstrength, and higher headquarters seemed to be under that impression. The situation existed off and on for a period of several years.

DECLASSIFIED E.O. 12065 SECTION 3 NARA

6. This headquarters has always attempted in every way possible to assist higher headquarters in anything they desire and promulgate. It is becoming increasingly difficult to carry out factual and statistically correct reporting due to the aforementioned conditions. In addition, the mission of this headquarters (and higher headquarters) has been and is being retarded by the lack of enough personnel to carry out the assigned mission. The loss in dollar value to the United States Government and the Japanese cannot be estimated. However, it is becoming increasingly apparent that the figure is a considerable amount.

7. In view of the above, it is strongly recommended that favorable consideration be given to the following recommendations:

(a) That T/D 301-1225 be clarified so that the correct legal status be reflected pertaining to:

(1) Authorize port control personnel for Fukuoka Military Government Team (4 ports) and Nagasaki Military Government Team (2 ports).

(2) Correct the forms used for "Roster of Military Government Personnel" (RCS: MG-03(R-1) to reflect the authorized Military Occupational Specialties indicated in T/D 301-1225.

(3) Correct the MOS for Civil Information Officer from 5503 to 5403 to accurately reflect the duties being performed by Civil Information personnel.

(4) Add one Labor Relations Officer, MOS 2330 to the present officer authorization to handle this all-important job especially on Kyushu.

(5) Indicate the number of T/D position which may be filled by DAC personnel and the rating for each.

(6) Indicate the Kyushu Coal Board as T/D personnel instead of bulk overhead personnel.

(7) Indicate the Region Tax Officer as T/D instead of bulk overhead.

(8) Indicate the Region Public Health Nurse as T/D instead of bulk overhead.

(b) That this Region be considered in the light of the special problems confronting it:

DECLASSIFIED E.O. 12065 SECTION 3 NND/NARS

(1) 1888 miles of coast line.

(2) 2228 small islands off the mainland of Kyushu.

(3) The bulk of the illegal entry and smuggling falls on Kyushu. This headquarters has little or no means available to combat this continual menace. Further, adequate vessels to check the many miles of coastline and the many small islands off the mainland are non-existant. This Region does not even have a PD for ferry boat service between the mainland and these islands and as a result, illegal entry continues unabated. (See Letter, this headquarters, dated 26 April 49, subj: "Studies of Mil Govt Programs - Illegal Entry"

(4) The lack of adequate water transportation continues to seriously hamper Military Government operations on the many islands adjacent to Kyushu. It is pointed out that the adjacent islands have a total population of approximately 500,000 persons. This considerable land area and its population produces large amounts of agriculture, marine, coal, lumber, charcoal and items of light manufactury. These isolated island people of necessity must be self-sufficient.

(5) Over 50% of Japan's coal is mined on Kyushu.

(6) Over 30% of Japan's steel is manufactured on Kyushu.

(7) Over 35% of Japan's pig iron is manufactured on Kyushu.

(8) Over 40% of Japan's chemicals and chemical products are manufactured on Kyushu.

(9) Over 20% of Japan's rubber products are manufactured on Kyushu.

(10) Kyushu is a heavy producer of food.

(11) Kyushu is a heavy producer of marine products.

(12) Kyushu produces a sizeable amount of heavy industry equipment.

(13) Kyushu has large ship building facilities and is engaged in extensive ship construction and repair.

(14) Kyushu produces a sizeable amount of Japan's lumber and lumber products.

DECLASSIFIED E.O. 12065 SECTION 3 NARS

(15) Kyushu is mountainous and has poorly maintained roads thus creating an additional transportation problem.

(16) Four teams within this Region are "Isolated Teams".

(17) The labor problems, transportation problems, surveillance problems, etc. that are incident to the aforementioned items constitute a constant and terrific problem when it is considered that Kyushu has nearly half of the coal, steel and chemical industries etc. plus a good share of the others and not the appropriate share of personnel with which to carry out the necessary surveillance and guidance necessitated by the Military Government mission.

SUBJECT: Request for Clarification of T/D 301-1225

THRU : Commanding General, I Corps, APO 301
(Attn: G-1 Section)

TO : Commanding General, Eighth Army, APO 343
(Attn: Military Government Section)

1. References:

a. T/D 301-1225, dated 30 June 1948, as changed 30 September 1948.

b. GO 95, Eighth Army, dated 17 November 1948.

c. Letter Order 1-8, Eighth Army, dated 23 January 1948, subject: "Reorganization of Military Government in Japan".

2. In accordance with references a and b above, this headquarters and all Military Government Teams within this Region were reorganized, effective 25 November 1948.

3. Reference c above was not specifically rescinded in its entirety when T/D 301-1225 was placed in effect. However, it is assumed by this headquarters that such a reorganization as outlined and promulgated by T/D 301-1225 automatically rescinded the former authority of Letter Order 1-8, (reference c above).

4. In connection with the above, certain problems, misunderstandings and difficulties have arisen as follows:

a. The "Roster of Military Government Personnel Report", (RCS: MG-03(R-1) is based on Letter Order 1-8, Eighth Army, dated 23 January 1948, and does not accurately reflect the personnel as presently assigned under authority of T/D 301-1225. This has caused confusion and has resulted in erroneous reports.

b. T/D 301-1225 does not authorize personnel for port control work (customs, immunization, quarantine, etc.) for the four ports under the control of Fukuoka Military Government Team and the two ports under control of Nagasaki Military Government Team. Additional personnel were authorized by the old Letter Order 1-8 arrangement. Despite the fact that additional personnel are not now authorized, shipping and trade have steadily increased. An average of 61 American and allied vessels, and an average of 941 SCAJAP cargo vessels arrive and depart from

DECLASSIFIED E.O. 12065 SECTION 3-402/NNSC

these ports in addition to the arrivals and departures from other ports within and under the control of these prefectures. Port control and surveillance must be exercised over all ports and shipping. Under the present arrangement, port control work requires that the personnel used be drawn from the Economics Sections of the teams concerned, thus drawing them away from other work of importance, overburdening the remaining personnel and reducing the overall efficiency of the sections. This results in and reflects a loss to Military Government, the Occupation, the United States Government and the Japanese. It is believed that this present arrangement was not originally intended to shape up in this way.

c. T/D 301-1225 does not specifically authorize civilian personnel, nor does it specify which T/D vacancies may or may not be filled by DAC personnel.

(1) Under the old Letter Order 1-8 authorization, military grades and number were shown by Incl. #1 to Letter Order 1-8, but DAC personnel were not shown.

(2) Letter, Eighth Army, AG 300.1 (MG-X) dated 28 January 48, subj: "Letter of Instructions - Military Government Units in Japan", gave the aggregate total of all authorized personnel.

(3) By subtracting the list of authorized military personnel (Inclosure to Letter Order 1-8) from the Inclosures to Letter, Eighth Army, AG 300.1 (MG-X), dated 28 January 48, subj: "Letter of Instructions - Military Government Units in Japan", the appropriate number of officer type and EM type of DAC personnel could be found. This proved to be a cumbersom, but the only effective arrangement available for finding the number of DAC personnel authorized.

(4) Under the new T/D 301-1225 arrangement, DAC personnel are not shown. This headquarters has been (of necessity), and still is, going under the assumption that the DAC personnel authorized for this Region is the amount shown as obtained from the method listed in paragraph 4c(3) above. No clarification on this has ever been received. The amount of personnel reported has been figured from and by the above mentioned method.

d. T/D 301-1225 does not provide specifically for a labor relations officer (MOS 2330). This position is considered absolutely necessary due to the high percentage of industry, mining and commerce concentrated on Kyushu together with the ever present problem of dealing with the labor unions and management of all of the above enterprises. The labor officer (Occupation Force labor), of necessity, is bogged down with a huge volume of paperwork concerning

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDB NO.

indigenous personnel, their screening, examination and pay. In addition, the collecting of funds for the payment of indigenous category II personnel and the resultant paperwork keep this laber officer constantly occupied.

e. MOS assignment for the Public Information Officer (5503) does not accurately reflect the status or duties of this officer. (Reference TM 12-406, dated February 1946). This MOS as described by referenced TM is for a Public Education Officer re: administration and operation of educational institutions in occupied territories. This is not only confusing but it is misleading and may, in the future, work to the disadvantage of the personnel presently involved.

f. The Coal Board of this headquarters is authorized by Letter, Eighth Army, AGMGX 463.3, dated 18 August 48, subj: "Coal Production in the Kyushu Field", on a bulk overhead arrangement. The assignment of the Coal Board as bulk overhead personnel and not assigned T/D personnel causes confusion in submitting personnel reports. Further, high headquarters consistently counts these officers and DAC's as assigned T/D personnel instead of bulk overhead personnel and seems to be under the impression that this headquarters is continually overstrength, when in effect, this headquarters is understrength in officers, and only has nine EM of which two are in the T/I oh leave and will not return for another two months or more.

g. The Tax Officer of this headquarters, (DAC, CAF-12), was sent to this headquarters on a verbal arrangement of Eighth Army and I Corps and is counted against the assigned officer and officer-type strength of this headquarters. It is realized that a tax officer is necessary owing to the importance of the tax program in implementing the "Economic Stabilization Nine Point Program," but it is believed that this position should be reflected from an assigned T/D position and not bulk overhead, nor should it be subtracted from the present authorized strength. Further, reports would not reflect a ghost population of assigned personnel that do not exist.

h. The Public Health nurse (DAC P-4) of this headquarters is not an assigned T/D position and is here at this headquarters under the same type of arrangement as listed in paragraph 4g above. The provisions of paragraph 4g above, as outlined, likewise apply in this case also.

5. DAC personnel from time to time have been drawn away from this Region and placed on TDY elsewhere for extended periods. During these periods of extended TDY, subject personnel were always charged as being assigned. From personnel and strength accounts, it appeared as if this Region was up to strength and/or overstrength, and higher headquarters seemed to be under that impression. The situation existed off and on for a period of several years.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNBS NO.

6. This headquarters has always attempted in every way possible to assist higher headquarters in anything they desire and promulgate. It is becoming increasingly difficult to carry out factual and statistically correct reporting due to the aforementioned conditions. In addition, the mission of this headquarters (and higher headquarters) has been and is being retarded by the lack of enough personnel to carry out the assigned mission. The loss in dollar value to the United States Government and the Japanese cannot be estimated. However, it is becoming increasingly apparent that the figure is a considerable amount.

7. In view of the above, it is strongly recommended that favorable consideration be given to the following recommendations:

(a) That T/D 301-1225 be clarified so that the correct legal status be reflected pertaining to:

(1) Authorize port control personnel for Fukuoka Military Government Team (4 ports) and Nagasaki Military Government Team (2 ports).

(2) Correct the forms used for "Roster of Military Government Personnel" (RCS: MG-03(R-1) to reflect the authorized Military Occupational Specialties indicated in T/D 301-1225.

(3) Correct the MOS for Civil Information Officer from 5503 to 5403 to accurately reflect the duties being performed by Civil Information personnel.

(4) Add one Labor Relations Officer, MOS 2330 to the present officer authorization to handle this all-important job especially on Kyushu.

(5) Indicate the number of T/D position which may be filled by DAC personnel and the rating for each.

(6) Indicate the Kyushu Coal Board as T/D personnel instead of bulk overhead personnel.

(7) Indicate the Region Tax Officer as T/D instead of bulk overhead.

(8) Indicate the Region Public Health Nurse as T/D instead of bulk overhead.

(b) That this Region be considered in the light of the special problems confronting it:
