TO: Vice Minister, First Demobilization Ministry

FROM: Central Demobilization Office Chief of General Affairs (HIROSHIMA)

While this office and the district government office were investigating the establishing of a possible location for the office to aid debarkation, the 10th Army C.O. requested the governor (Hiroshima Ken) that Port Ujima be used as a port of embarkation for Korean and Chinese people, and requested that Port Otake (30 kilometer S.W. of Hiroshima City) be used as a debarkation point for returnees. The governor (on 1 Dec.) agreed to this request. Judging from the present circumstances, this office cannot help but give up this location. We are preparing to move the main part of our branch offices (Office to Aid Debarkation) to Otake by 10 December. Details will be submitted later.

DRAFT OF PROGRAM OF JAPANESE NAVAL DEMOBILIZATION

1. Personnel Demobilization.

Generally speaking, demobilization is proceeding according to schedule. By 20 Sep approximately 90% or 1,020,000 of the naval personnel in Japan Proper (including 6,000 officers and 16,000 reserve officers) were demobilized. The numbers remaining in service on 29 Sep were 99,000. And it is expected that so far as Japan Proper is concerned, demobilization will be completed by the middle of October.

As regards the repatriation of our forces overseas, it is expected that with the use of only those naval vessels which have already been approved by your authorities, it will take until January of 1950 to complete repatriation from the various Pacific Islands, New Guinea, Go-hoku (islands north of Australia and west of New Guinea), Kainan-to (Hainan) and Okinawa alone.

2. Cooperation with occupation forces.

Should the initial stage of the occupation be completed by the end of October, most of the work necessitating our cooperation will also be completed by that time. But with regard to such part of the work as remains thereafter, we shall continue to offer our cooperation.

3. Surrender of arms and military stores.

The prospects are that we shall be able to complete the surrender to you or the transfer to the Home Ministry by the end of October.

4. Inquiries regarding prisoners.

While we expect to complete the irquiries by the end of November anything remaining to be done will be continued by the organ responsible for winding up the business.

5. Transport of personnel to be repatriated by naval vessels and disposition of abandoned naval vessels.

Although both of the above activities will require considerable time, the necessary plans and arrangements therefore will probably be finished by the end of November.

6. Minesweeping.

This will probably have to be continued until around June 1946.

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

7. The work connected with the termination of the war, and winding up of remaining business.

(a) Fleet headquarters and naval forces (not including those overseas):

Will be disbanded 10 Oct.

(b) Naval General Staff:

Will be abolished 15 Oct.

(c) Local naval offices:

Will be abolished by middle of October.

(d) Naval stations and minor stations:

They will be transformed into District offices on 1 Dec in order to serve as organs for continuing cooperation with the Allied Forces and for winding up remaining business.

(e) Navy Department:

Will be disbanded on 1 Dec, to become the 2nd Demobilization Dept. to continue cooperation with Allied Forces and to wind up remaining business. Its organization will be gradually reduced, and by April of 1946 it is expected to become the Demobilization Bureau.

(f) Court Martial:

Since it has connection with the investigation of war prisoners and civilian internees and the disposition of relevant questions, we desire to retain it until about March, 1946.

(g) Naval plants, including dock yards, arsenals, etc.:

Expected to complete their surrender to you or their transfer to other ministries by the end of October.

(h) Hospitals:

Will be transferred to the Welfare Ministry by 1 Dec.

Total	199,635	35,614	164,021

(Note) The above chart deals only with military men and excludes civilian service men and other workers.

2. Concerning the foregoing demobilization, the corps remaining in the homeland at present are only those Headquarters which are higher class than Air Division Headquarters and Air Corps H.Q. Those lower class than Flight Division H.Q. have kept remaining most of their officers and each corps have kept remaining personnels for material supervision etc.

The Telegraph, Meteorological and Power Maintenance Corps have arranged so that urgent flights can be carried out with out difficulty.

3. The demobilization of the Northeastern district will began from the 10th of September and the greater part is planned to be completed by the 15th of same.

4. The general condition is as above, and the hereafter demobilization situation concerning the air corps will be limited to the corps name.

PROPOSED SCHEDULE OF DEMOBILIZATION AND DISARMAMENT, JAPANESE FORCES
AND
REORGANIZATION OF MINISTRIES OF WAR AND NAVY

1. The Japanese Chiefs of the Military and Naval Affairs Bureau have submitted to the Chief of Staff, SCAP, certain proposals which are set forth in attached graphs and accompanying text, substantially as follows.

A. On 1 Dec, the Army and Navy Ministries will be reorganized into "Ministries of Demobilization," which are to have the same characteristics as other civil offices of the Japanese Government.

B. The above "Ministries of Demobilization" are subsequently to be reorganized into smaller organs (Bureau) on or about 1 April next year.

2. The basis for the above recommendations are found in the following three points.

A. The main intent is to dissolve the Army and Navy as promptly as possible.

B. To charge the new Ministries with such functions as are necessary to carry out speedily and rapidly the various requirements of the Allied Powers.

C. To permit the Army and Navy to carry out as smoothly and accurately as possible the various necessary readjustments.

3. Since contradictions are apparent between paras A and B and C above, the Japanese have recommended certain time periods to meet the situation.

A. They assume that the delivery of arms, ammunition, etc., the presentation of certain investigational reports and other requirements of the Allied Powers on various subjects, will, on the whole, be nearly completed during the period: end of October to middle of November.

B. The reduction to a minimum personnel, as far as the Army and Navy are concerned, to carry out the expected program of adjusting administrative affairs and other business.

4. As regards the official dissolution of the General Staffs of the Army and Navy and the Department of Military Training, the Japanese believe

B. The reduction to a minimum personnel, as far as the Army and Navy are concerned, to carry out the expected program of adjusting administrative affairs and other business.

4. As regards the official dissolution of the General Staffs of the Army and Navy and the Department of Military Training, the Japanese believe it practicable to officially abolish the Army General Staff, the Navy General Staff, and the Department of Military Training by 15 Oct, with the following minor exceptions:

A. The Army desires to keep some of its personnel for carrying on remaining business, for liaison and information for the Occupation Forces: To accomplish this, some of the sections and technical personnel will be transferred to the War Ministry.

B. The Navy likewise desires to transfer certain personnel to the Navy Ministry for parallel liaison and information for the Occupation Forces.

5. Note the explanatory charts: The draft plan illustrates the sections and offices that are to remain after demobilization of the Army field units and Naval units is completed, on 15 Oct. Also illustrated are the proposed Offices and Bureau necessary to wind up remaining affairs.

6. The charts are still subject to certain minor changes after further careful studies are made.

Demobilization

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

7. Since the present large-scale demobilization was begun so suddenly and was to be executed in the shortest possible time, the Japanese state that they were not able to prepare the nation to wholly accept the situations created by the demobilization. Moreover, they believe it may possibly take several years to return the troops now overseas to Japan.

8. There were about 2,200,000 officers and men under arms in the home islands and more than 3,300,000 overseas. The Japanese consider it a matter of great social importance to find jobs or to provide professional education for those men who are returned as well as to adopt measures to take care of the ill and wounded, the families of the bereaved and missing, with a view to preventing possible cases of discontent.

Summary of Mr Arisue conference with Col Snyder.

Mr Arisue came in to explain the 1st Demobilization Ministry's plan for the Demobilization Bureau's function after 1 April. The 1st Dem. Min. will become the Dem. Bureau as of 1st April & will no longer have the status of a ministry. The political purge of certain individuals as per SCAP directive will cut down the personnel of the Demob. Bureau remaining to such a point where the remaining personnel would be satisfactory. This purge will be undertaken by the Japanese & a list of the remaining personnel will be submitted for approval.

A list of persons engaged in historical research & other research

limited by this Ldgrs will be retained regardless of their classification as those to be removed. The Dir. Mint will submit a list of those who they want for carrying out this objective. Many of these men would be removed under the initiation & have been included in this list submitted to Col. Bethune.

According to Dr. Louis, the size of the demobilization Bureau will not decrease as originally estimated. The reasons are as follows

1. Repatriation will be finished by the end of 1946. The work in connection will be much greater for a shorter period of time.

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

2. Historical & technical research which was estimated to end in March of 1946 will continue for some time.

3. Disposition of military supplies will continue for several months.

The net result of the foregoing changes will be a shortening of the extension of the demobilization period & a decrease in volume of work as compared to the original estimate.

In light of the abolition of the military giving this new estimate may seem superfluous, so some of the actual separation function may be assumed by

the Stone Ministry in the outlying
areas.

A similar plan of action by
the Mod Dem. Ministry will also
be submitted.
