Oriental Empyrean | افق خاور (OEAG) is a newly established Online Art Gallery in Pakistan. We are headquartered in Islamabad, the capital. Pakistan is one of the key center-point of the Great Indus, Mohenjo-Daro, and Harappa civilizations; therefore, unmatched history and diversity of culture, art, traditions and knowledge may be observed in this land.

The idea behind the launching of OEAG project is to introduce the art culture of one continent to other. We are inspired by the world around us and we believe that every human on the earth has full right over nature, beauty, and its different disciplines and shades; and we want to disseminate and broadcast these disciplines to every humankind on the earth from Islamabad to Washington DC to Celtic Tribes of Europe to Nok, Bambuti, Berbers of Africa to Oceania and to igloos of Antarctica. OEAG doesn't believe to restrict the art within the boundaries. Like nature, there are no boundaries of art. As it is said, art is a universal language. In retrospect, it speaks to all people and can evoke emotions, ideas, and thoughts.
