## LISTING OF STATE AND COUNTY MENTAL HOSPITALS, AND PUBLIC INSTITUTIONS FOR THE MENTALLY RETARDED

The purpose of this publication is to provide, by state and type of facility, a listing of state and county mental hospitals and public institutions for the mentally retarded. These facilities have been classified according to their function rather than by the authority under which they operate. This listing contains only those facilities from which the National Institute of Mental Health requested data for the fiscal year 1963.

The 1963 data obtained from these facilities may be found in the following publications:

Patients in Mental Institutions, 1963 Part I (Public Institutions for the Mentally Retarded) and Part II (State and County Mental Hospitals) U. S. Department of Health, Education, and Welfare, Public Health Service, National Institutes of Health, PHS No. 1222. In these publications, basic census data are provided on the movement of the patient population, the numbers and characteristics of first admissions (for the public institutions for the mentally retarded) and admissions with no prior psychiatric inpatient experience (for the state and county mental hospitals); the number and characteristics of the resident patients; personnel by occupation; and maintenance expenditures.

Mental Health Statistics - Current Reports "Provisional Patient Movement and Administrative Data, State and County Mental Hospitals, U.S. 1963" Series MHB-H-8 and Mental Health Statistics - Current Reports "Provisional Patient Movement and Administrative Data, Public Institutions for the Mentally Retarded, U.S. 1963" Series MHB-I-1. U.S. Department of Health, Education, and Welfare, Public Health Service, NIH. These reports, published six to eight months prior to the publication of Patients in Mental Institutions, provide provisional summary statistics, numbers and rates, on a more current basis, for certain patient movement and administrative categories, by state. In addition, these reports contain certain trend data as well as a brief analytical text.
