A SPIRITED CONTEST

Irregularities of the Primary Election Make Uncertain the People's Choice For Constable—Judge Farley Has No Opposition

The following table will show the result of the primary election in the Campbell and the Hamilton precincts for the offices of Justice of the Peace and Constable. The totals seem to indicate that the choice of the people for the position of constable is Mr. Sharp but some irregularities that occurred at the polls in both precincts place the results in a questionable position, and to leave them as they stand do not satisfy the friends of Mr. Sawyer. In the first place, it is said that two men were registered in the Campbell precinct who do not belong here and should not have been voted here. Then again quite a number of men voted by writing the cross in with a lead pencil instead of using the stamp as required by the law, and in the Campbell precinct these votes were allowed to pass while in Hamilton they were thrown out. It is further stated by Mr. Sawyer that he received 57 votes on the republican ticket in Hamilton instead of 51 as indicated by the list posted of the Hamilton school house,—57 being the count on the list sent the board of supervisors. Since each candidate received a tie vote on both the democratic and the prohibition tickets, they will need to decide between them who shall be the candidate to represent those parties. It is suggested that the best way to settle the question fairly in the interests of both candidates would be for Mr. Sharp to concede in Mr. Sawyer the right to run as the candidate on the democratic ticket and let the general election in November decide who the people's choice is in the matter.

F. W. RICHARDSON
For Superintendent of State Printing

Rev. Smart, Professor of Mathematics in the Soochow, China, University, delivered an excellent address on China Sunday evening at the Union meeting in the Methodist church. The attendance was large and the address very interesting and instructive, as he knew whereof he spoke. Prof. Smart also spoke in the morning to the Methodist congregation of the evangelist work in China.

They Have a Definite Purpose

Foley Kidney Pills give quick relief in cases of kidney and bladder ailments. Mrs. Rose Glaser Terre Haute, Ind., tells the result in her case. "After suffering for many years from a serious case of kidney trouble and spending much money for so called cures, I found Foley Kidney Pills the only medicine that gave me a permanent cure. I am again able to be up and attend to my work. I shall never hesitate to recommend them." For sale by Mrs. F. W. Brundage.

Johnson for Governor Hayes for Congress

The following table shows the vote cast in the Campbell precinct for the various state and county offices. The names preceded by a ¶ mark represent leading candidate in the contest throughout the state, so far as the returns have been received.

HIRAM JOHNSON

POSE AS A CAPITALIST

For ONE DOLLAR we will send you three handsomely lithographed, but worthless, stock certificates, which you can fill out yourself for any amount, and have lots of fun showing to your friends as proof that you are wealthy. These certificates appear to represent railway, gold mining and insurance enterprises and look just like the "real thing," but must not be used to realize money on.

ONE SAMPLE FOR FIFTY CENTS.
(send two cent stamp for illustrated circular)

INDEPENDENT PRINTING COMPANIES, Washington, D. C.

CAMPBELL YOUNG PEOPLE WED

Peppard-Oliver

Wednesday evening at the home of the bride, Rev. Atkinson performed the ceremony that united Miss Lela Oliver of this vicinity so Matthew Peppard of San Luis Obispo County. The bride's sister, Miss Jessie, was bridesmaid, and her brother, Will, groomsmen. The ceremony was a quiet one, with relatives only present. The happy couple will spend a few weeks in Seattle and British Columbia before returning to San Luis Obispo Co., where Mr. Peppard has a large cattle ranch.

Mrs. Peppard is a graduate of the local High School, as well as the San Jose Normal, and it was while teaching there that the romance began.

Young-Sherman

Wednesday, at the Centella Church, San Jose, Miss Flora Idell Sherman of South Bend, Ind., was united to Mr. Charles W. Young of Campbell. Mr. Young is well-known in and around Campbell, where his home has been, while his business has been in San Jose. The happy couple will spend their honeymoon in Santa Cruz before going to their new home in Portland, Oregon.

HON. E. A. HAYES
Who Receives Heavy Vote for Congress of the 5th District

W. R. WILLIAMS
For State Treasurer

Fine Apples

The window of the Press office contains a fine display of Skinner Seedling apples from the orchard of Jos. Bohnett. Twelve of them weigh nearly nine pounds, and the largest 16 1/4 ounces. Many have pronounced them the finest they have seen.

Trouble! Trouble!

Trouble all day and every day with two pairs of glasses.

Wear **KRYPTOKS**. One pair of glasses will then do the work of two. No trouble at all. Just put them on and see, see everything near and far, your friend across the room or across the street as well as the book or paper in your hand. Don't be talked into buying a substitute. Get the genuine. Ask for Kryptokks.

SUMMARY OF PAST WEEK'S COAST NEWS

Interesting Events Among Our Neighbors in the Far West Reviewed.

What Has Transpired on the Border of the Broad Pacific From Alaska to Mexico.

Berkeley.—The population of Berkeley ten years ago was 13,214. The present population is 40,448.

Oakland.—While attempting to jump on a fire engine Charles Harrington, a fireman, was hurled to the ground and sustained a broken hip.

Port Costa.—Carl Nowlan, a switchman in the Southern Pacific yards here, slipped and fell under a car while attempting to couple two cars together and was instantly killed.

Stockton.—The Grand Council of the Young Men's Institute, in session here last week adopted a resolution providing for the erection of an Institute building in San Francisco to cost \$100,000.

Oakland.—The will of Henry Deacon, the late Hawaiian sugar planter, filed in the Superior Court here for probate, provides that, should his wife, Catherine W. W. Deacon, at any time remarry, she shall receive only one-half of the property which the will otherwise bequeaths her.

Porterville.—Development of an artesian well throwing more than 60 inches of water has opened up to future cultivation a large tract of land in the western Delano section. Until this well was brought in, it was believed that the land in question would never be anything but a desert.

Stockton.—The second installment of bonds issued for the purpose of constructing roads in San Joaquin county have been sold for \$522,800, the \$22,800 being the premium on the allotment. The money received from the bonds will be put in circulation at once, as the work of constructing good roads is steadily going forward in the county.

Tucson, Ariz.—After driving with one hand a team of bronchos for 40 miles on a stormy night, Alfred Villa delivered the body of his dead brother to his parents near this city. While driving through the storm the buckboard in which the two boys were riding was struck by lightning, killing the younger boy instantly and paralyzing the other.

Tacoma.—Born in Tacoma in 1884, 1885 or 1886, and turned over to an orphan asylum at Wittenberg, Wis., in 1889, a young soldier named William Straeck, in Fort William McKinley, Philippine Islands, has written Assistant Postmaster Stocking, hoping to find some one to identify him. The young soldier is now with Company M, Seventh Infantry.

Sacramento.—The Western Pacific will build a new steel bridge across the American river leading out of Sacramento on the north. The present bridge, part of which was washed away in the floods of a year ago last winter, has eight piers of spans 80 feet long, whereas the new structure will rest upon four piers with spans 160 feet in length. This will give the water a cleaner sweep in times of floods.

San Francisco.—Following the success of the convention league in securing the 1911 conventions of the National Educational Association and the International Sunday School session, a determined effort will be made by the league to secure the Grand Aerie of the Fraternal Order of Eagles for the next year. A committee of the league will go to St. Louis in the special train of the local aeries, and at the Grand Aerie in that city will present the reasons why San Francisco should be the next Grand Aerie location.

Berkeley.—The College of Agriculture of the University of California will be well represented at the State fair in Sacramento in September, according to the University staff. The floor space will be 18 by 100, or six times as much as was occupied by the college exhibit last year. One half of the space will be given over to Professor G. W. Shaw of the cereal department and used to illustrate the advantages of new varieties of grains that are considered suited for profitable cultivation in California. The remainder of the space will be divided among the other departments of the college.

BARLEY AND HAY CROPS ECLIPSE ALL RECORDS

Farmers Express Anxiety Over Lack of Transportation Facilities.

San Francisco.—In all the history of the settlements along the Sacramento and San Joaquin rivers, it is reported, never was such a crop of barley as this season has produced. Hay is also a tremendous crop. The farmers find it difficult, however, to secure transportation for their products, and in view of the early rains and the consequent rise of the rivers and sloughs in the island neighborhoods, are becoming exceedingly anxious over the prospect of losing the benefit of their crops.

Every barge and lighter, every big launch and steamboat, and every vessel capable of being navigated in the shallow river depths is at present employed in transporting the barley and hay to the city markets and to points of rail shipment, but the producers have set up a cry for more boats and barges. The regular river craft, it is said, are inadequate to the demand. Barge owners along the water front are unable to assist in the hauling, profitable as it would be, for the reason that all their bottoms are in constant use.

There is at present no danger from floods, and judging by past seasons, it will be at least a month before the early rains set in, but the fact that such great quantities of barley and hay are out in the open awaiting transportation, with poor prospects of being shipped for weeks to come, causes anxiety.

FRESH CALIFORNIA RANCH EGGS SHIPPED FROM CHINA

Label Seized Advertises Hen Product as Packed in San Francisco.

San Francisco.—Through a label sent from Shanghai, China, to the Federal Government at Washington and forwarded to the California State Board of Health, it has been discovered that a San Francisco importer has been importing eggs from China and selling them as the fresh California product. The label was seized by Dr. P. H. Hanson of the United States Health and Marine Hospital Service in Shanghai from a cartoon inclosing eggs packed in a paraffine wax solution and read as follows:

"Choice California fresh ranch eggs from the 'Eggers,' 1219 Scott street, San Francisco; positively no cold storage or eastern eggs packed under this brand."

Inspectors detailed to investigate failed to find the eggs which had been shipped on the steamer Asia, but found that in the meantime the San Francisco firm, named as the consignee had changed hands and that the present owner knew nothing of the Chinese eggs.

India Bankers Corner Silver

Calcutta.—A native newspaper is authority for the statement that a group of Indian bankers from Bombay and Calcutta for some time has been trying to corner the world's stock of silver. It is known that the financiers referred to have bought enormously in the open market since July 26th, at which time it was estimated that they held one-ninth of the world's supply.

Lynchers Indicted

Newark, O.—The special Grand Jury called to consider the lynching of the "dry" detective, Carl Etherington, on July 8th, reported indictments against 15 members of the mob for first-degree murder. The State, through the Attorney-General's office, has taken up the prosecution of these men.

The Orange County Vote

Santa Ana.—The total registration for the State primary shows 7431 eligible to vote in Orange county, divided as follows: Republicans, 5140; Democrats, 1536; Prohibitionists, 251; Socialists, 205; Independence League, 18; declining to state party affiliation, 281.

Laborer Loses Hand

Modesto.—John Erickson, a laborer, aged 45, was thrown under the wheels of a freight train switching in the yards here and his left hand cut off. Erickson said he had come from San Francisco to work in the valley during the fruit season.

Burke Case Postponed

Santa Rosa.—On a motion of District Attorney Clarence F. Lea, the cases against Dr. William P. Burke, charged with dynamiting, malpractice and other serious offenses, will be postponed until the latter part of November.

Forest Fires Under Control

Billings, Mont.—Dispatches from Yellowstone Park say that the forest fires are completely under control. Deer, elk, antelope and bear are fleeing from the fires and seeking safety in the lowlands.

Hindu Horde Expect Positions as Peace Guardians

Calcutta.—A remarkable immigration of Punjabs, Mohammedans and Sikhs, who are leaving for Hongkong with the avowed intention of proceeding to California, is engaging the official attention of William H. Michael, the American Consul-General here.

Some of those who are turning their faces toward the New World are taking their families with them, but the greater number belong to the fight castes and are under the impression that they can get on the American police force. They are confident that they can at least get posts as watchmen. The emigrants explain that they have relatives in California who have written them saying that they have found a good land and urging those addressed to join them.

Fifteen hundred natives sailed for the East on five ships last month and many more are preparing to follow. Mr. Michael said that none of the emigrants had visited the American consulate, and that probably they would not be permitted to land in the United States. He expects Washington will make representations on the subject.

Washington.—Assistant Secretary Benjamin S. Cable, speaking for the Department of Commerce and Labor, announced a policy of increased restrictions as regards the immigration of Hindus, and so emphatic was his attitude that he seemed to regret that he had no power to enact an absolute exclusion law forthwith. The report from Calcutta of an influx to the Pacific Coast, occasioned by widespread rumors that America was a "good land" and that there every husky hand had a chance to get on the police force, prompted the Assistant Secretary to declare that it was about time the country awakened to the importance of such a threatened invasion.

San Francisco.—Hindu laborers continue to arrive at this port in every trans-Pacific liner. The undesirables are coming here at the rate of at least 300 a month, and immigration officials express the opinion that the stream will grow and spread until the coast is swamped unless restrictive measures are taken by the United States Government through its immigration representatives at this port.

Panic Reigned as Fire Swept Brussels Exposition

Brussels.—The White City of the World's Fair, as the Belgians have called their 1910 exposition, is a mass of ruins. A spark falling into inflammable material in the telegraph building burst up in flames which, driven by a high wind, swept rapidly in all directions.

Soon the Belgian, English and French sections were destroyed. The firemen and detachments of soldiers called to the scene found themselves baffled by the gale which carried the burning embers to all parts of the grounds. The loss is estimated at \$100,000,000.

To the left of the main building arose the picturesque roofs and spires of "Bruxelles Kermesz," a Belgian Coney Island with water chutes, toboggan slides and scores of sideshows. This place was alive with Sunday crowds, and before they could be got out with any semblance of order, the kermesz was afire. The crowds became panic stricken and men, women and children fought madly to escape. The exits became choked with the struggling masses and men used their fists to clear the pathway. Many were trampled under foot and badly injured.

An engine corps from Antwerp attempted to dynamite the buildings in the French section in the hope of checking the fire, but the flames leaped across and engulfed the Italian, Russian, Japanese, Chinese and Norwegian buildings. Forty houses on the avenue Solboch, adjoining the exposition, were destroyed.

At the time of the outbreak not less than 100,000 persons were circulating in the grounds and kermesz. Troops were ordered out and came at double-quick to aid the police in clearing the great grounds. This was accomplished in fair order, except within the limits of the kermesz, where the vast crowds became entangled in an almost inextricable mass, fighting desperately to find an escape from the flames, which swept viciously through the tinder-like structure.

Producers of Dried Fruits Urged to Standardize Product

Sacramento.—State Horticulcultural Commissioner Jeffrey has sent out letters to dried fruit producers of California calling their attention to a communication he has received from importers of Amsterdam and Rotterdam, stating that unless the California shippers can standardize their exportations they will be refused further business, with Argentine and Brazil given the preference. The California fruit is preferable, but the shippers do not make any distinction between high and low grades. The Netherlands importers, who also distribute the dried fruits among the colonies, want to be able to tell from samples whether the fruits they will get are worth advance prices or low figures. Jeffrey suggests that the dried fruit interests hold a conference at which a plan of standardization can be formulated.

Death of Mule Precipitates Run On a Southern Bank

Louisville, Ky.—A mule's death was responsible for a run on a South Louisville bank. A depositor on Monday purchased the animal, giving in payment a check for \$75.

That night the animal died. Suspecting that he had been "stung" the purchaser stopped payment. The payee presented the check just before the bank closed and payment was refused. He left, spreading a report that the bank had ceased payments.

ANGRY GREEKS ATTEMPT TO KILL RAILROAD ENGINEER

Blame Him for Wreck Which Caused Death of W. P. Track Laborers.

Three men were killed, one other fatally hurt and 14 more sustained minor injuries as the result of the wrecking of a work train of the Western Pacific on the trestle near the estuary seawall, at the foot of Peralta street, Oakland.

After the wreck Engineer F. Walters, in charge of the locomotive, was compelled to flee with his engine to escape death at the hands of the mob of angry laborers, and it was not until he was given protection by a squad of police that he returned to haul the dead and injured into the Western Pacific yards at the foot of Adeline street.

The dead are: Gus Manales, Eustratos Kapsaredes and George Papadakes. The fatally injured is George Jugaras, who sustained a fracture of his skull. He was taken to Providence Hospital.

Manales and Kapsaredes were killed outright, their heads being crushed when they were thrown over the trestle. Papadakes died at the Providence Hospital.

The injured are: Charles O'Hare of 1880 Seventh street, foreman of the construction gang, left clavicle fractured; John Carroll, 1817 Bush street, badly bruised; Henry Peterson, 2108 Vicksburg street, Melrose, bruised and cut; John Busch, residing on lower Pacific street, upper teeth knocked out, minor injuries; James Mahan, 931 Adeline street, scalp wounds; Charles Wyman, ribs broken; Pete Adams, ribs broken; Speris Skermos, Chris Skermos, Nick Yakus, Sam Kross, Tom Madarelas, Con Silva and Nick Semko, minor injuries.

Foreman O'Hare states that the wreck was caused by some one of the men wrenching open a coupler while the train was in motion. There were two flat cars, hauled by a heavy engine in charge of Engineer Walters and Fireman Kalfee. When the air pipes between the two cars parted the locomotive came to a sudden stop, and the rear car crashed into the forward flat. They came together with great force, sending the men, who were seated and standing on the rear flat, over the trestle and into the shallow water. There were 40 laborers on both cars, and those who were not needed in aiding the injured turned upon the engineer. Seeing that he was in danger of his life, Walters ran his engine down the track, were he summoned Inspector of Police Lynch, who induced him to return under protection of a police squad.

The police had been summoned to aid in taking the injured to the Receiving Hospital. Inspector Lynch was compelled to disarm one of the Greeks, who had run to his quarters in the yard and procured a revolver.

Paris.—Paris witnessed a demonstration of "lynch law" in the heart of the capital recently. A policeman was about to arrest an Apache in the Boulevard Sebastopol, when the man fired at him with a revolver. The bullet wounded the policeman and killed a man passing in the street. A crowd speedily gathered, seized the Apache and hanged him to a lamp post.

WIFE WALLOPS HUSBAND WHEN SHE FINDS HIM IN JAIL

Thought Husband Murdered When He Was Only On Long Spree.

Sacramento.—Going to the police station to report that her husband had mysteriously disappeared and had not been heard of for several days, Mrs. L. L. Hendricks walked into that individual as he was being lined up in the corridor about to be discharged after serving two days for drunkenness.

As she saw him standing sheepishly with a dozen other victims, she rushed past the police guard and scratched Hendrick's face, pulled his hair, ripped his clothing and threatened to kill him. She said that she had not slept for several nights worrying because she thought he had been murdered, and all the time he had been out on a spree.

Will Help Wounded Orphan

Denver.—Although they have never seen the lad, Miss Charlotta B. Beymer of Rocky Ford, Col., and James Lawrence of Denver have volunteered to furnish some of their own skin to nine-year-old Willie Heinkie, an inmate of an orphan asylum here, who was severely burned in an explosion of fireworks July 4th. Perry L. Clark, principal of the school which the boy attended, has already given 24 inches of his skin to replace that destroyed on the boy, and was prevented by physicians from contributing more.

Searching for Spanish Gold

Glasgow.—Ceylon pearl divers are now busy in the unfamiliar waters of Tobermory bay, Scotland. Their search is for the buried wealth of the Florida, a treasure galleon of the Spanish Armada, lost in that rocky quarter in 1588. Fabulous wealth went down with her.

Actor Flies Across Irish Sea

London.—Robert Lorraine, the actor, qualified as a star aviator by making a splendid flight across the Irish sea, a distance of more than 50 miles, from Blackpool, England, to Landudno, on the coast of North Wales.

WEEK'S DOINGS OF THE WORLD BRIEFLY TOLD

News From All Points of the Compass by Wire and by Wireless.

Important Events From Oyster Bay to Mombasa Presented in Pithy Paragraphs.

Boise, Idaho.—The Supreme Court held the direct primary law enacted by the last Legislature to be constitutional.

Berlin.—The health authorities are taking precautions against cholera invasion by emigrants and agricultural laborers from Russian Poland who are coming to assist in the harvest.

Washington.—Great decreases are shown in the exports from this country during July last, as compared with the previous July, of wheat, meat and dairy products, cotton, cattle, hogs and sheep and mineral oil.

London.—Frank E. Beaurepaire of Victoria, Australia, in a continuous swim, broke the world's record for 200 meters, 300 yards and 800 meters at the Exeter baths. The time of the respective distances was 2:30, 3:30 and 3:50 1-5.

Washington.—Sentenced to pay a fine of \$1000 and to spend 60 days in jail John H. Hall, former United States District Attorney of Oregon, has filed in the Supreme Court of the United States an appeal from his conviction of conspiracy in connection with the Oregon land frauds.

Seoul, Korea.—Lieutenant-General Viscount Terauchi, Japanese resident general for Korea, is actively instituting reforms preparatory to a change in the administration of the Government. A rigid censorship of the newspapers in this city has been established. One English paper has been suspended.

Nancy, France.—Interesting tests were made here last week of military aeroplanes pitted against bicycles and automobile scouts. The aeroplane had the worst of the match. The soldier cyclists and automobilists figuratively shot at a range of about 300 feet all of the aeroplanists who attempted to reconnoiter in a given direction.

Paris.—Paris witnessed a demonstration of "lynch law" in the heart of the capital recently. A policeman was about to arrest an Apache in the Boulevard Sebastopol, when the man fired at him with a revolver. The bullet wounded the policeman and killed a man passing in the street. A crowd speedily gathered, seized the Apache and hanged him to a lamp post.

New York.—Whether man or woman lawyer, it is hats off in Supreme Court Justice Goff's presence. "Why do you wear your hat in the courtroom? Are you different from any other attorney?" asked the Justice in court of Mrs. Sarah M. Meyer, a woman lawyer who appeared before him. Mrs. Meyer was not prepared to argue the point at the moment, and she hastily removed a large black picture hat. The case then proceeded.

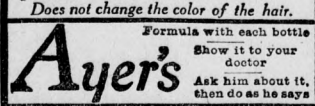

Cincinnati.—"Thou shalt not steal," in bold, black type, confronted Detectives Schnacks and Wimsey when they opened the trunk of John A. Harvey, who is charged with systematically robbing his employers, a jewelry company. On the top of everything lay a piece of paper bearing this commandment. Under it lay religious papers, books and tracts, and under all of this some of the loot. Harvey has been a leader in the Ninth Street Baptist Church here.

Niagara Falls, N. Y.—A 150-pound sturgeon nearly sent party of three in a motor-boat over the falls late last night. Opposite La Salle, two miles above the falls, the fish leaped for the searchlight in the boat, but missed and struck and seriously injured Miss Nellie Johnson of this city and then, thrashing about in the boat, disabled the engine. The sturgeon, which measured six feet, eight inches, was finally subdued with oars wielded by the men in the boat. Meanwhile the boat was being swept rapidly toward the cataract.

Paris.—The Paris courts have divorced a young French woman from her husband, a Chinaman. The marriage of Oh Kay to a pretty Parisienne made quite a sensation in Paris about a year ago. Oh Kay studied French law, became to all intents and purposes an European and was rumored to be immensely rich. He married Mlle. Breteuil, and the two went to China. Mme. Oh Kay, in court, declared that she was so ill treated that she had, with the help of the French Consul, escaped and ran away from her husband. In Europe he was very European. In China, he was just a little too Chinese.

Does Not Color Hair

Ayer's Hair Vigor, as now made from our new improved formula, does not stain or color the hair even to the slightest degree. Gray hair, white hair, blonde hair is not made a shade darker. But it certainly does stop falling hair. No question about that.

Indeed, we believe it will stop every case of falling hair unless there is some very unusual complication, something greatly affecting the general health. Then you should consult your physician. Also ask him about the new Ayer's Hair Vigor.

LAZY LIVER

"I find Cascarets so good that I would not be without them. I was troubled a great deal with torpid liver and headache. Now since taking Cascarets Candy Cathartic I feel very much better. I shall certainly recommend them to my friends as the best medicine I have ever seen."

Anna Bazinet, Osborn Mill No. 2, Fall River, Mass.

BOSS OF THE ROAD. OVERALLS. DEMAND THE BRAND. Neustadter Bros. SAN FRANCISCO NEW YORK PORTLAND

AUTO GOSSIP

Miss Annette Kellerman, featured as the leading attraction on the Orpheum circuit, beside being the champion woman swimmer of the world, is also an expert autoist. When she came west to fill her engagements in this section of the country Miss Kellerman brought her Buick "40" with her and will use it in covering the vaudeville circuit in this Western territory.

Don. L. McKay, Seattle manager for the Diamond Rubber Company, is in San Francisco as a guest of C. E. Mathewson, manager for the local Diamond branch.

The Bosch Magneto company is thoroughly interested in motorcycles and it is surprising the number of the popular and record breaking machines that have this equipment.

In order to cope with increased business, S. G. Chapman, local agent for the Oakland and Hupmobile cars, has secured the storeroom next to his present quarters in Van Ness avenue, San Francisco, which will give him in all a 60-foot frontage in the avenue.

"In order to maintain the reputation for reliability and durability for which this company's cars have become known, few mechanical changes have been made on the types of car produced for 1910, with the exception of certain refinements, which tend to increase the efficiency of these cars."

C. K. Jamison, a prominent merchant and business man of Ukiah, recently passed through town on return from an extensive trip in his Chalmers "40." Mr. Jamison made the trip via Sacramento and Placerville to Carson City and thence to Reno.

A 10,582 miles service given by a tire that came as part of the original equipment of a big seven passenger car is a record of which any tire manufacturer could well be proud.

San Francisco.—Grahame-White, the English aeronaut, in his air ship race against Paulhan, from London to Manchester, last month, had a 40 h. p. White Steamer follow him carrying his mechanics and reserve machinery.

Soldiers in Russia's Army are to be supplied with compasses with luminous needles.

PROMINENT PEOPLE

NURSE OF KING GEORGE NOW LIVES IN VERMONT

TO HAVE nursed a king is the claim to distinction of Mrs. Ann Roberts, who is living in the little village of Poultney, Vermont.

Right away Mrs. Roberts became a person of interest in all New England and many curious persons have called to see her.

To interviewers, however, she explained how it was that the new king of England became her charge on the day of his birth on June 2, 1865.

"I shall never forget that hour! The cruel news brought me instantly to my knees on the floor of the royal nursery, and it seemed to me that I would never again move from that position, for I felt that I had been transformed into a block of cold and inanimate marble on the instant.

"The loss of my own beautiful child had that effect on me regarding my little charge that I almost grew to believe that he was really and truly my own child.

"This heavy gold brooch that I am now wearing was then presented to me by Princess Alexandra herself, and she then told me that I was privileged at all times to refer to the little prince as 'my boy.'"

KNAPP HAS BIG TASK TO ENFORCE RAIL LAW

MARTIN A. KNAPP, chairman of the Interstate Commerce commission, faces a task that would stagger many men, although he is small of stature his friends say he will go at the work like a giant and carry out the policy of the president and the aims of congress.

It is the new railroad law that gives Mr. Knapp and his associates on the commission much concern these days. As chairman Mr. Knapp naturally will be in the thickest of the fray.

The law, the president pointed out, was not passed for the purpose of lowering rates, or even of holding all rates where they are at the time of the passage of the law, but rather for the purpose of equalizing rates and keeping them so far as possible in tune with business conditions at all times.

Mr. Knapp, whose duty it will be to guide the commission in its work of carrying out the Taft plan, is a native of New York. He was born at Spafford, November 6, 1843. He was first appointed a member of the Interstate

COMMERCIAL COMMISSION IN 1891 BY PRESIDENT HARRISON; REAPPOINTED BY PRESIDENT CLEVELAND IN 1897, AND AGAIN SELECTED FOR THE POSITION BY PRESIDENT ROOSEVELT IN 1902.

Commerce commission in 1891 by President Harrison; reappointed by President Cleveland in 1897, and again selected for the position by President Roosevelt in 1902.

SOLDIER OF FORTUNE MUST GO TO PRISON

Whether drunk or sober some men are natural born nuisances.

DEWEY, STRONG & CO.—Founded 1860; U. S. and foreign patents; inventors' guide, 100 mechanical movements free. 1105 Merchants' Exchange Building, San Francisco.

THE SUBMARINE cables of the world, 2053 in number, would encircle it at the Equator more than ten times if laid end to end.

PLUMBING MATERIAL. Direct to You at Cut Prices.

It costs about \$150,000 to construct an airship of the Zeppelin type, while fuel and oil to operate it costs about \$7 per hour.

RUBBER ROOFING

WE still have left over three carloads new Rubber Roofing which we are selling at the following sacrifice prices:

CINCINNATI WOMAN IN FIGHT AGAINST KISSING

every day which can be cited as coming from kisses, and kissing has come to be not a mere popular salute, but a terrible evil that must be stamped out.

Furthermore, she says her efforts have led hosts to forego osculatory pleasures. "People should remember that kissing is merely the habit of centuries. There was a time when all the world kissed everybody they met," said Mrs. Rechlin.

A special campaign for each month has been mapped out by the Anti-Kissing league.

The custom of kissing a bride on her wedding day is most dangerous," said Mrs. Rechlin severely. "Er—do you mean a bridegroom should not—er—salute his bride?" asked her visitor.

In August fathers and mothers will be urged not to kiss their babies.

October, the less kissing the less hazardous the work of street cleaners and laundresses; so the organization will seek members on the highways and in the laundries.

In November women belonging to church clubs, card clubs and literary clubs will be asked to join and to wear their badges at club meetings.

PREACHER LOSES \$2 OF FEE

Young Man Charged for Marriage License Has Unique Plan of Getting Even With Clerk.

The clerk filled out the marriage license and handed it over. "Thank you," said the young man. "Hold on! That's \$2."

"Yes; did you suppose we gave those things away?" "I certainly did. Chargin' a man \$2 for a sheet of paper that didn't cost the county more than a nickel at the outside is robbery. Have I got to pay it?"

"You'll pay it or you'll hand back the document." "All right," said the young man, taking a bill out of his pocket, tendering it to the clerk and waiting for his change, "but I can tell you right now you ain't robbin' me. You're robbin' the preacher. He'll get just \$2 less than I was goin' to give him!"

POCKETING the change and tilting his hat back on his head, he stalked out of the office with the air of a man who had been imposed upon, but who knew how to get even.

PATENT ATTORNEYS

In November women belonging to church clubs, card clubs and literary clubs will be asked to join and to wear their badges at club meetings.

And in December, with its Christmas weddings, we shall turn our attention to lovers," said the president. "My life for just one kiss," sounds thrilling in romance and poetry. But disillusion is found in the hospitals, whence lovers follow each other to the grave in a few short months."

If You Overload the Stomach

you can expect to suffer because the other organs are also affected and the whole system of digestion and assimilation is blocked. You can eat heartily and without fear of distress if you will begin your meals with a dose of Hostetter's Stomach Bitters. It regulates the appetite, aids digestion and prevents Gas on Stomach, Heartburn, Belching, Indigestion, Cramps, Diarrhoea and Malaria, Fever and Ague. Try it today.

The Handy Box of Paradise Sodas

UNCLE SAM'S JOB
By J. W. LEWIS

To live, associate, consult, labor and co-operate with one's neighbors; to intelligently, wisely, kindly, unselfishly, suggest, advise, urge, insist and even demand the recognition and practice of the principles of righteousness, justice and humanity; to personally act, not only unselfishly, but humanely, kindly and helpfully; appeals to the best there is in us, and helps us to follow in the foot steps of Him who went about doing good and who said, "The Son of man came not to be ministered unto, but to minister."

Now what is true of a man is also true, and perhaps in a larger sense, of a nation. I think we may flatter ourselves that this American Nation, the United States of America, is rising to the dignity of her position as the greatest republic in the world, and is setting a good example in some good degree at least in that she stands for peace, fair play, humanity, and helpfulness.

The Philippines have been and will continue to be a source of expense to us and if we can do them no good the sooner we leave them the better. But we know, and the world knows that we are protecting them, educating and elevating their people and that the Islands are far better off than they would have been had we left them to Spain.

We promised Cuba has liberty and independence. The old world had slight faith in our sincerity, but we are keeping our promise. And when she seemed about to fail in managing her own affairs, we stepped in, set her on her feet, had her profit by her experience and try again. We cleaned up her cities, drove out the Yellow fever, gave her some needed lessons and sent her on her way rejoicing.

It is believed by many who ought to know, that there was at one time a plan to divide up China. But a note from John Hay called a halt. We have returned to China the indemnity money she paid to us for the Boxer fracas. The only nation so far as I know that did so—and China is duly appreciative, considering America her true friend.

366 DAYS IN PRISON

A Series of Articles on Experiences in Andersonville Prison by I. Preston, Who Was a Prisoner of War for Over a Year

Campbell, California, Aug. 11, 1910. In trying to give to the readers of the Press my experience and suffering while a prisoner of war in Andersonville prison, I shall have to depend on memory but will try to give it as one who saw all that took place there for a whole year.

First our old brigade was stationed at Plymouth, N. C., to fortify and hold that point on the Roanoke river. The object was to keep the enemy from transporting supplies to their troops up the river. We had fortified our position very strongly and had, in the winter of '63-'64, re-entrenched and had prepared to go home on our veteran furlough but we were very badly disappointed, for in April, 1864, General Hooker with his whole division came down upon us and we had to fight with our 2900 men against his 30,000.

He attacked us Sunday afternoon and we fought him hard night and day until Wednesday night, when we for the first time in all our service had to lay down our arms and surrender and were all taken prisoners. But not until the enemy had been severely punished, for in their general report of the battle they had lost 3,800 of their best men, while our loss was less than fifty. It was because we were protected by our strong works. Thursday morning, the 20th day of April, we took up our sad march under a new and strange commander for Andersonville, Georgia.

We marched 80 miles up to Tarboro, N. C., where for the first time we had to travel in old filthy cattle and hog cars, but we could stand that much better than we could the rations they gave us, and yet that was first-class beside what we had later on. I was very much interested in the ways and habits of the people along through the country that we traveled—every one and every thing was very strange to us from what we had been accustomed to in our homes in the north but let it be what it would we must endure it.

At Charleston, N. C., they held us back outside the city until after dark so we could not see the city and the sad conditions it was in at that time. The next place of importance was Savannah, Georgia; a beautiful town, and with the appearance of being well kept. We knew we were near the beautiful Savannah harbor where our gun boats were laying but could not then render us, any assistance. From there our next run was to Macon, sixty miles from our destination and to many of our number death. Soon we heard the whistle sound for the station at Andersonville where we unloaded and marched a half mile under command of the tyrant Captain Wirtz, and here we stand at the gate, soon to enter.

(To be continued next week.)
