The Civil Aeronautics Board, acting pursuant to the Civil Aeronautics Act of 1938, particularly sections 205 (a), 406 and 1001 thereof, and deeming its action necessary to carry out the provisions of said Act and to exercise its powers and perform its duties thereunder, hereby makes and promulgates the following regulation:

Effective January 8, 1942, Part 285 of the Economic Regulations¹ is amended by adding thereto § 285.11 [Rule 11] to read as follows:

§ 285.11 *Procedure in mail rate proceedings.* (a) Proceedings for the determination of rates of compensation for the transportation of mail may be commenced by the filing of a petition by an air carrier or the Postmaster General, or upon the issuance of an order by the Board.

(b) (1) Proceedings commenced by the Board will normally be instituted by the issuance of an order directing the parties to show cause why a specified rate or rates set out in such order should not be fixed and determined by the Board.

(2) In proceedings instituted upon petition of a carrier or the Postmaster General the Board, before proceeding further with the disposition of the petition, will normally issue an order in the proceeding directing the parties to show cause why a specified rate or rates set out in such order should not be fixed and determined by the Board.

(3) The rate or rates specified in any order provided for in paragraphs (b) (1) and (b) (2) of this Rule will represent a tentative rate or rates which appear to the Board to be fair and reasonable on the basis of the monthly and annual reports made by the carrier to the Board, and other information available to the Board. Such order will be

accompanied by an exhibit or exhibits setting forth the basis upon which the tentative rate or rates have been formulated, and such exhibits shall be a part of such order.

(4) Orders issued hereunder will be served upon the carrier concerned, and any other parties to the proceeding, and public notice thereof will be given. Copies of such orders will be transmitted to the Postmaster General.

(c) (1) After the issuance of an order of the Board pursuant to paragraph (b) of this Rule, any party having objections to the tentative rate or rates specified in such order or to the admissibility in evidence of the exhibits accompanying such order and information specified therein shall file with the Board, within such periods of time as may be prescribed in such order:

(i) Notice of the fact that such objections exist; and

(ii) After the notice provided for in subdivision (i) of this paragraph has been filed, a written answer setting out the objections of the party to the tentative rate or rates.

(2) The objections stated in the answer shall be specific, and the answer shall be accompanied by exhibits in support of the objections and by a statement of the effect of such objections upon the tentative rate or rates.

(d) (1) If no notice, or if after notice no answer, is filed as provided in paragraph (c) of this Rule within the periods of time prescribed in the order, the proceeding will be assigned for public hearing. The statutory public hearing thus assigned will be expected to require nothing more than the introduction in evidence of the exhibits provided for in paragraph (b) (3) of this Rule and the information specified therein.

(2) The Board, upon the close of such hearing, will make the tentative rate or rates specified in its order pursuant to paragraph (b) of this Rule final by the issuance of its further order.

(e) (1) If an answer is filed as provided in paragraph (c) of this Rule a conference will be held. The conference will be attended by representatives of the Board assigned to the particular case and representatives of the parties, and will be presided over by an examiner of the Board.

(2) If a party desires to introduce evidence in the proceeding, he shall file written notice with the examiner at the time of such conference; if a party desires an opportunity to file briefs with, or present oral argument to, the Board, he shall file a written request therefor with the examiner not later than the close of the hearing hereinafter provided for.

(3) The examiner, at the close of the conference, will prepare and serve upon the parties a report stating the issues raised by the objections of the parties with respect to the tentative rate or rates. Any party may file exceptions to such report.

(4) After service of the report provided for in paragraph (e) (3) of this Rule, the proceeding will be assigned for

¹ 4 F.R. 1998, 5 F.R. 2480, 4660, 4892.

public hearing before an examiner of the Board.

(5) The exhibits provided for in paragraph (b) (3) of this Rule and the information specified therein, and any exhibits filed by any party in support of any objections filed pursuant to paragraph (c) of this Rule, shall constitute evidence of record in the proceeding, subject to the right of any party to object to the admissibility of such exhibits and information. Additional evidence may be presented by the parties at such hearing only if the notice provided for in paragraph (e) (2) has been filed, and such evidence shall be limited to evidence relating to the issues as defined in the conference report issued by the examiner and exceptions filed thereto pursuant to paragraph (e) (3). A member (or members) of the Board's staff will be available at the hearing for examination by the parties on the evidence with respect to such issues.

(6) The proceeding will be deemed submitted to the Board for final decision, without the issuance of an examiner's report, upon the close of the hearing, the filing of briefs, or the presentation of oral argument, or may be in order pursuant to requests made in accordance with the provisions of paragraph (e) (2) of this Rule. [Rule 11]

By the Board.

Secretary.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act

of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals, for shipment by rail, produced at the Jonesville No. 3 and No. 4 Mines of the Jonesville Coal Company, a code member in District No. 23; and

TITLE 32—NATIONAL DEFENSE

CHAPTER IX—OFFICE OF PRODUCTION MANAGEMENT

SUBCHAPTER B—PRIORITIES DIVISION

PART 955—MATERIAL ENTERING INTO THE CONSTRUCTION OF DEFENSE PROJECTS

Preference Rating Order No. P-55¹ Amended—Material Entering Into the Construction of Defense Housing Projects

§ 955.4 Preference Rating Order P-55. For the purpose of facilitating the acquisition of Material for the construction of the Defense Housing Project hereinafter described, a preference rating is hereby assigned to deliveries to the above named Builder and to deliveries to his Suppliers upon the following terms:

(a) *Definitions.* (1) "Builder" means the specific person to whom this Order is addressed above.

(2) "Defense housing project" means the housing project described in the Builder's Application on Form PD-105, No. -----, dated -----, comprising ----- units, as finally approved.

(3) "Supplier" means any person (i) Who supplies Defense Housing Material which he has not in whole or in part manufactured, processed, assembled or otherwise physically changed, and

(ii) With whom a contract or purchase order has been placed for delivery, to the Builder or to another Supplier, of Defense Housing Material which will enter into the construction of the Defense Housing Project.

(4) "Defense housing material" means any material included in the Defense Housing Critical List, and only such Material.

(b) *Assignment of preference rating.* Preference Rating ----- is hereby assigned (1) to deliveries to the Builder of those quantities and kinds of Defense Housing Material which may be specifically authorized for such rating by the Director of Priorities on the copy of Form PD-105, No. -----, dated -----, returned to the Builder.

(2) to deliveries to a Supplier of Defense Housing Material the delivery of which to the Builder has been authorized by the Director of Priorities on said Form or which will be used within the limitations of paragraph (d) (2) hereof to replace in such Supplier's inventory Defense Housing Material so delivered.

(c) *Persons entitled to apply preference rating.* The preference rating hereby assigned may be applied by:

(1) The Builder;

(2) Any Supplier of Defense Housing Material to the delivery of which a preference rating has been applied as provided in paragraph (e), *Provided, however, That such Supplier may only apply*

said preference rating to deliveries of Defense Housing Material which he will resell without change in form to fill a specific purchase order or contract rated hereunder or which he will use within the limitations of paragraph (d) (2) hereof, to replace in his inventory Defense Housing Material so resold.

(d) *Restrictions on use of preference rating—*(1) *Restrictions on the builder.* (i) The Builder may apply said preference rating only to those quantities and kinds of Defense Housing Material specifically authorized for such rating by the Director of Priorities as indicated on the copy of Form PD-105, No. -----, dated -----, returned to the Builder. This Order will be cancelled immediately if the Builder is found to have applied the rating to deliveries in excess of his specific authorization.

(ii) The Builder may not apply said preference rating to obtain delivery of Defense Housing Material in greater quantities or on earlier dates than required to enable him to maintain his construction schedule on the Defense Housing Project.

(2) *Restrictions on supplier.* (i) No Supplier may apply said preference rating to obtain Defense Housing Material in greater quantities or on earlier dates than required to enable him to make on schedule a delivery rated hereunder or, within the limitations of (ii) below, to replace in his inventory Defense Housing Material so delivered. He shall not be deemed to require such Defense Housing Material if he can make his rated delivery and still retain a practicable working minimum inventory thereof; and if, in making such delivery, he reduces his inventory below such minimum, he may apply the rating only to the extent necessary to restore his inventory to such minimum.

(ii) A Supplier may defer applications of a rating hereunder to purchase orders or contracts to be placed by him for Defense Housing Material until he can place a purchase order or contract for the minimum quantity procurable on his customary terms: *Provided, That he shall not defer the application of any rating for more than three months after he becomes entitled to apply it.*

(e) *Application of preference rating.* (1) The Builder or any Supplier in order to apply said preference rating to deliveries of Defense Housing Material to him must endorse on each purchase order or contract which is covered by a rating assigned thereunder a statement in the following form manually signed by an official duly authorized for such purpose and must submit each such purchase order or contract in duplicate to be countersigned by an authorized agent of the Federal Housing Administrator:

Preference Rating ----- is applied hereto under Preference Rating Order No. P-55 Amended, Serial No. (s) -----, with the terms of which Order the undersigned Builder (Supplier) is familiar. This rating may be extended only upon the terms of said Order, copies of which may be obtained from

the undersigned Builder (Supplier), from the Division of Priorities or from any Priorities Field Service Office of the Office of Production Management.

(Name of builder or supplier)

(Duly Authorized Official)

(Name of Authorized Agent of Federal Housing Administrator)

(Title)

(Location of Office of Federal Housing Administration)

Such endorsement shall constitute a representation to the Office of Production Management and the person with whom the purchase order or contract is placed that such purchase order or contract is duly rated in accordance herewith. Such person shall be entitled to rely on such representation, unless he knows or has reason to believe it to be false. Any such purchase order or contract shall be restricted to Defense Housing Material the delivery of which is rated in accordance herewith.

(2) A Supplier who has received from two or more Builders or Suppliers endorsed purchase orders or contracts for Defense Housing Material to the delivery of which the same rating has been applied in accordance with this Order may (within the limitations of paragraph (d) hereof) include in a single purchase order or contract any or all of the Defense Housing Material to which he is entitled to apply the rating assigned by this Order but must specify in the endorsement on such single purchase order or contract all of the Serial Numbers contained in the purchase orders or contracts which have been so received by him and to fill which he is applying said preference rating.

(3) In addition to the foregoing requirements a Supplier (but not a Builder) before he first applies a preference rating assigned by this Order to deliveries to him must accept Preference Rating Order P-55, Amended, by executing an acceptance in the form attached at the end hereof and file it with the Office of Production Management. No additional acceptance need be filed for any subsequent application of the Order regardless of the Serial Number under which and of the name of the Builder to whom it is issued.

(f) *Records.* In addition to the records required to be kept under Priorities Regulation No. 1, as amended from time to time, the Builder and each Supplier placing or receiving any purchase order or contract rated hereunder, shall each retain, for a period of two years, for inspection by representatives of the Office of Production Management, endorsed copies of all such purchase orders or contracts, whether accepted or rejected, segregated from all other purchase orders or contracts or filed in such a manner that they can be readily segregated for such inspection.

(g) *Communication to Office of Production Management.* Acceptances of this Order, all reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to:

OFFICE OF PRODUCTION MANAGEMENT
Washington, D. C.
Ref: P-55

(h) *Violations.* Any Person who willfully violates any provisions of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further delivery of any Material subject to allocation, and such further action may be taken as is deemed appropriate including a recommendation for prosecution under section 35A of the Criminal Code (18 U.S.C. 80).

(i) *Revocation or amendment.* This Order may be revoked or amended at any time as to the Builder or any Supplier. In the event of revocation, or upon expiration of this Order, deliveries already rated pursuant to this Order shall be completed in accordance with said rating, unless the rating has been specifically revoked with respect thereto. No additional applications of the rating to any other deliveries shall thereafter be made by the Builder or Supplier affected by such revocation or expiration.

(j) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Effective date.* This Order shall take effect when countersigned by the District Manager, Priorities Field Service, Office of Production Management, and unless sooner revoked shall expire on the _____ day of _____ 1942.¹ (P.D. PART 984—LEAD

Conservation Order No. M-38-c Curtailing the Use of Lead in Certain Items

Whereas, national defense requirements have created a shortage of lead for the combined needs of defense, private account, and export; and the supply now is and will be insufficient for defense and essential civilian requirements unless its use in the manufacture of many products where such use is not absolutely necessary for the defense or essential civilian requirements is curtailed or prohibited as hereinafter provided;

Now, therefore, it is hereby ordered that:

§ 984.4 *Conservation Order No. M-38-c—(a) Prohibition on use of lead in articles appearing on List "A".* (1) Any person using lead or lead base alloy in any item on List "A" shall reduce his use of lead or lead base alloy for such product between January 1 and March 31, 1942 to 50% of his use in the base period.

(2) Effective April 1, 1942, no lead or lead base alloy shall be used in the production of any item on List "A."

(b) *Limitation on all other uses of lead.* Effective January 1, 1942, any person using lead or lead base alloy in any article not covered by paragraph (a) or (c) of this section shall reduce his use of lead for such products during each calendar quarter to 90% of his use in the base period.

(c) *General exception.* Where and to the extent the use of any less scarce material is impracticable, the prohibitions, limitations and restrictions contained in paragraphs (a) and (b) of this section shall not apply to the use of lead or lead base alloy in the manufacture of any item on, or for any of the uses set forth on, List B attached, nor in the manufacture of any item which is being produced.

(1) under a specific contract or sub-contract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development or for any foreign country pursuant to the Act of

March 11, 1941, entitled "An Act to Promote the Defense of the United States," (Lend-Lease Act) if in any such case the use of Lead or Lead Base Alloy to the extent employed is required by the specifications of the prime contract; or

(2) to comply with underwriters regulations, or safety regulations issued under Governmental authority, provided the pertinent provisions of such regulations were, in either case, in effect both on December 1, 1941, and on the date of such use, and specifically and exclusively require the use of lead or lead base alloy to the extent employed; or

(3) with the assistance of a preference rating of A-1-j or higher; or

(4) for use in equipment in manufacturing plants to the extent that corrosive action makes necessary the use of lead; or

(5) for use in scientific and industrial laboratories and hospitals where and to the extent that the physical and chemical properties of lead make its use necessary.

(d) *Prohibitions against sales or deliveries.* No person shall hereafter sell or deliver lead or lead base alloy to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this section.

(e) *Limitation of inventories.* No manufacturer shall receive delivery of lead or lead base alloy (including scrap) or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies, nor shall he put into process any raw materials in quantities, which in any case shall result in an inventory of such raw, semi-processed or finished material in excess of a minimum practicable working inventory.

(f) *Miscellaneous provisions—(1) Applicability of Priorities Regulation No. 1.* This section and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this section shall govern.

(2) *Appeal.* Any person affected by this section who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of lead or lead base alloy conserved, or that compliance with this section would disrupt or impair a program of conversion from non-defense work to defense work, may appeal to the Office of Production Management, Ref.: M-38 c, on such forms as may be prescribed, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Priorities may thereupon take such action as he deems appropriate.

(3) *Applicability of section.* The prohibitions and restrictions contained in this section shall apply to the use of material in all articles hereafter manufactured irrespective of whether such articles are manufactured pursuant to a

contract made prior or subsequent to the effective date hereof, or pursuant to a contract supported by a preference rating. Insofar as any other order of the Director of Priorities may have the effect of limiting or curtailing to a greater extent than herein provided, the use of lead or lead base alloy in the production of any article, the limitations of such other order shall be observed.

(4) *Violations.* Any person who fully violates any provision of this section, or who by any Act or omission falsifies records to be kept or information to be furnished pursuant to this section may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(5) *Definitions.* For the purposes of this section:

(i) "Lead" means and includes lead metal whether produced from domestic or foreign ores, which has been refined by any recognized method, in all forms and shapes current in the trade; antimonial lead, and lead metal produced from scrap and drosses.

(ii) "Lead base alloy" means any alloy containing 50 percent or more of lead metal by weight.

(iii) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control or under common control with or available for the use of such person.

(iv) "Manufacture" means to fabricate, assemble, melt, cast, extrude, roll, turn, spin, produce, coat or process in any other way, but does not include installation of a finished product for the ultimate consumer.

(v) "Item" means any article or any component part thereof.

(vi) "Use" means both the act of putting lead or lead base alloy into process in the manufacture of any item and the act of completing the manufacture of any such item. (Where a person is limited to a percentage of the material used in a base period this limitation applies respectively to (a) the amount of material put into process during the base period and (b) the total amount of material contained in a completed item or article multiplied by the number of such items or articles completed during the base period. Each restriction must be applied separately.)

(vii) "Base period" means either (a) the 3rd quarter of 1941, or (b) the 4th quarter of 1941, at the election of the manufacturer: *Provided*, That a single method of computation shall be used throughout the calendar year.

(viii) "Put into process" means the first change by a Manufacturer in the form of material from that form in which it is received by him.

(6) *Effective date.* This section shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Priorities. (P.D. Reg.

1 Amended, Dec. 23, 1941, 6 F.R. 6680; O.P.M. Reg. 3 Amended, Sept. 2, 1941, 6 F.R. 4865; E.O. 8629, Jan. 7, 1941, 6 F.R. 191; E.O. 8875; Aug. 28, 1941, 6 F.R. 4483; sec. 2 (a), Public No. 671, 76th Congress, Third Session, as amended by Public No. 89, 77th Congress, First Session)

Whereas on July 7, 1941, the Director of Priorities issued Supplementary Order No. 1 to General Preference Order E-1,² to direct the distribution of Machine tools, and

Whereas Supplementary Order No. 1 contained a Master Preference Numerical List (Exhibit A thereto) for the use of manufacturers of such Machine Tools, in scheduling their deliveries of critical Machine Tools required for the Defense Contracts specified on such List, and

Whereas the state of War now existing makes revision of such Master Preference Numerical List necessary, in order to insure the delivery of Machine Tools to the most important needs, and

Whereas General Preference Order No. E-1-a was issued January 6, 1942 but the operation thereof has been temporarily suspended,

(3) No provision of this Order shall affect the terms of any Special Allocation Order No. 1, now or hereafter issued to any Producer, nor the production schedules relating thereto.

(d) Production and delivery of machine tools, gages and chucks. After the periods specified in paragraph (c) (1) above every Producer shall schedule his production and delivery of Machine Tools, Gages and Chucks according to the following instructions:

(1) Operation of preference ratings. (i) Preference Ratings, in order of precedence are: AA, A-1-a, A-1-b, etc * * * A-1-j; A-2, A-3, etc * * * A-10; BB, B-1, B-2, etc. * * * B-8, AA being the highest rating presently assigned.

(ii) Subject to paragraph (d) (3) hereof, every delivery under a rated contract or order shall be made in preference to deliveries under all other contracts or purchase orders, whenever, but only to the extent necessary to meet the required

delivery date or dates specified in the preference rating certificate covering such delivery.

(iii) Subject to paragraph (d) (3) hereof, deliveries bearing no preference rating or lower preference ratings shall be deferred to the extent necessary, and only to that extent, to assure meeting the required delivery date or dates specified in certificates bearing higher preference ratings, even though such deferment may cause defaults under other contracts or purchase orders.

(iv) After the effective date of this Order no delivery shall be given priority standing in production and delivery schedules except upon receipt by the Producer of the preference rating certificate covering such delivery.

(2) Operation of numerical master preference list, Revision No. 1. (i) Deliveries bearing a preference rating of A-1-a under purchase orders for Machine Tools, Gages and Chucks placed by another producer thereof, or by producers of Cranes, Cutting Tools, or Micrometers, shall be preferred to, and take precedence over all other deliveries bearing an A-1-a preference rating, including deliveries to any purchaser appearing on the Numerical Master Preference List, Revision No. 1, hereinafter referred to.

(ii) The Numerical Master Preference List, Revision No. 1 (Exhibit A attached to this Order, hereinafter called the "List") shall, after the respective dates specified in paragraph (c) (1) above, control the sequence of deliveries of Machine Tools, Gages and Chucks as follows:

(a) As between conflicting deliveries bearing the same preference rating, deliveries to purchasers who are on the List shall be preferred to, and shall take precedence over deliveries to purchasers not on the List.

(b) As between conflicting deliveries bearing the same preference rating, to be made to two or more purchasers both on the list, deliveries shall be made according to the Urgency Standing of the respective purchasers, specified in such List. The highest Urgency Standing in each preference rating classification is No. 1. In those instances where the List assigns to a purchaser more than one Urgency Standing for the same defense contract, a Producer, in scheduling purchase orders which are on hand at the effective date of this Order, shall use the highest of such Urgency Standings, unless a Preference Rating Certificate shall have been issued to him requiring him to use one of the lower Urgency Standings so assigned; and in scheduling purchase orders received after the effective date of this Order, shall use the particular one of such Urgency Standings specified in a Preference Rating Certificate which will be issued with respect to each such Purchase order.

(c) As between conflicting deliveries, a delivery to a purchaser not on the List, bearing a higher preference rating, shall be preferred to and shall take precedence over a delivery to a purchaser who is on the List, bearing a lower preference rating.

¹ 7 F. R. 148.

² 6 F. R. 1676.

(d) A delivery to a subcontractor who is not specifically named on the List does not take the Urgency Standing of his prime contractor; provided that if the Priorities Committee, of the Army and Navy Munitions Board has endorsed in writing a subcontractor's preference rating certificate with the Urgency Standing of the prime contractor when the particular machine or machine specified in such certificate shall be scheduled for delivery in accordance therewith. The Director of Priorities, or other official duly authorized by him, may hereafter also designate an Urgency Standing for any subcontractor whose prime contractor does not appear on the List.

(iii) Where two or more purchasers do not appear on the List, and their contracts or purchase orders for Machine Tools, Gages or Chucks have required delivery dates which conflict, and which bear the same preference rating, the sequence of deliveries shall be determined by the dates of the machine tool producer's receipt of the preference rating certificates, deliveries under certificates received earlier to have preference.

(iv) Additions to, withdrawals from, and other changes may be made in the Numerical Master Preference List from time to time by the Director of Priorities or other duly authorized official.

(3) *Suspension of new preference rated orders.* Unless the Director of Priorities specifically orders otherwise, and notwithstanding any other provision of this Order, a higher preference rating or Urgency Standing shall not operate to postpone or in any way affect any delivery under a purchase order already scheduled where such delivery, in the case of Tools or Chucks in Group I, is to be made within 30 days of receipt of such higher preference rating or Urgency Standing or, in the case of Machine Tools or Gages in Group II, is to be made within 60 days of receipt of such higher preference rating or Urgency Standing.

(e) *Specific modifications of schedules.* Notwithstanding any other provision of this Order the Director of Priorities, or other official duly authorized by him, may specifically allocate to another purchaser, or otherwise divert, any machine tool, gage or chuck scheduled for production and delivery pursuant to this Order.

(f) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(g) *Reports and other communications.* All reports which may be required to be filed, and all other communications concerning this Order should be addressed to the Tools Branch, Office of Production Management, Washington, D. C., Ref: E-1-a.

(h) This Order shall take effect January 15, 1942, and shall continue in effect until revoked by the Director of Priorities. (P.D. Reg. 1 Amended, Dec. 23, 1941, 6 F.R. 6680; O.P.M. Reg. 3 Amended, Sept.

PART 1050—DISTILLED SPIRITS

General Preference Order No. M-69 To Conserve the Supply and Direct the Distribution of Distilled Spirits

Whereas, the national defense requirements have created a shortage of Distilled Spirits, as hereinafter defined, for defense, for private account, and for export, and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution thereof;

Now, therefore, it is hereby ordered, that:

§ 1050.1 General Preference Order M-69—(a) Definitions. For the purposes of this section:

(1) "Distilled spirits" means ethyl alcohol of 190 proof or higher produced from corn or grain.

(2) "Producer" means any person engaged in the operation of a distillery.

(3) "Distillery" means any distillery which has equipment and facilities to convert corn or grain into spirits for the manufacture of, or for blending with, whiskey, gin or other alcoholic beverages.

(b) Applicability of Priorities Regulation No. 1. This section and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this section shall govern.

(c) Restrictions on operations of distilleries. Except as may be otherwise directed by the Director of Priorities, on and after January 15, 1942, no producer whose distillery has equipment and facilities for the production of distilled spirits shall use such equipment and facilities except in the production of distilled spirits.

(d) Restrictions on deliveries of distilled spirits. On or before the 15th day of each calendar month, commencing with the month of January, 1942, the Director of Priorities will direct each producer to deliver specified quantities of distilled spirits, either denatured or in bond, to certain designated persons; and no distilled spirits shall, after January 15, 1942, be delivered to any person by a producer until all deliveries required to be made by the Director of Priorities have been provided for by such producer. No person shall accept delivery of distilled spirits if the said delivery is made in violation of the foregoing.

(e) Intra-company transactions. The prohibitions or restrictions contained in this section with respect to deliveries, shall, in the absence of a contrary direction, apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise owned or controlled by the same person.

(f) Alterations of existing equipment and facilities. After the effective date of this section, no producer whose distillery has equipment and facilities for the production of distilled spirits shall alter such equipment and facilities in any way so as to impair the capacity of such distillery to produce distilled spirits without giving 15 days advance notice to the Director of Priorities of his intention so to do.

(g) Reports. Each producer shall forthwith report to the Chemicals Branch of the Office of Production Management the quantity of distilled spirits which his distillery is capable of producing. Additional reports shall be made at such times, on such forms and with respect to such matters as shall be prescribed by the said Chemicals Branch.

(h) Violations or false statements. Any person who violates this section, or who wilfully falsifies any records which he is required to keep by the terms of this section, or by the Director of Priorities, or otherwise wilfully furnishes false information to the Director of Priorities or to the Office of Production Management may be deprived of priorities assistance or may be prohibited by the Director of Priorities from obtaining further deliveries of materials subject to allocation. The Director of Priorities may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(i) Appeals. Any person affected by this section who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of distilled spirits conserved, or that compliance with this section would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the Office of Production Management, Reference: M-69, attention Chemicals Branch, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Priorities may thereupon take such action as he deems appropriate.

(j) Effective date. This section shall take effect immediately and shall continue in effect until revoked by the Director of Priorities. (P.D. Reg. 1, Aug. 27, 1941, 6 F.R. 4489; O.P.M. CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1302—ALUMINUM

AMENDMENT NO. 6 TO PRICE SCHEDULE NO. 2¹—ALUMINUM SCRAP AND SECONDARY ALUMINUM INGOT

Section 1302.3 is hereby deleted and §§ 1302.10 and 1302.11 are hereby amended to read as follows:

§ 1302.10 Appendix A; maximum prices for aluminum scrap.

[F. o. b. point of shipment]

Plant scrap:			
Segregated 2S:			
Clips or other 2S solids	10	11	11½
Mixed clips or other mixed solids	8½	9½	10
Segregated borings and turnings	7½	8½	9
Mixed borings and turnings	6½	7½	8
Obsolete scrap:			
Pure cable	10	11	11½
Old sheet and utensils	9½	10½	11
Old castings and forgings	10	10½	11
Pistons free of struts	10	10½	11
Pistons with struts	8	8½	9

NOTE 1. Segregated solid plant scrap other than 2S. Maximum prices are not established for solid plant scrap other than 2S which is segregated, identified, handled, sold, and delivered in accordance with Supplementary Order M-1-d (7 F.R. 160) or other instructions and regulations issued by the Director of Priorities, Office of Production Management; scrap of this description is therefore not subject to the Price Schedule. "Plant Scrap" means scrap which is generated in the course of fabrication or manufacture and includes new material or parts rejected or discarded because defective, damaged in processing, or otherwise unfit for use. The terms "Solids" and "Solid Plant Scrap" mean plant scrap generated by shearing, clipping, cutting, blanking, or similar process, also defective or rejected wrought aluminum parts, defective or rejected castings and gates, sprues, risers or similar foundry scrap. Scrap shall not be deemed "Segregated", whether in the form of solids or in the form of borings, turnings or other machinings, unless it consists of one alloy only and is so identified and handled as to be acceptable for reprocessing into aluminum of the original alloy specifications without the necessity for other than routine examination by the processor.

NOTE 2. Low-grade or contaminated scrap. Maximum prices may be charged and paid only for scrap of the respective grades which meets generally accepted maximum standards

16 F.R. 5568.

of the trade. Low-grade scrap, scrap which is not clean and dry or which is otherwise contaminated, and scrap which for any other reason fails to meet such maximum standards, must be sold at prices proportionately below the established maximum prices. It is particularly important that proper deduction be made for oil, water and other forms of contamination contained in borings, turnings and similar machinings.

NOTE 3. Quantity differentials. The requisite quantities for which premiums are provided in Columns II and III, above, may consist of various grades of aluminum scrap, but other metals may not be included for the purpose of making up such quantities. It will be considered that the requisite quantity has been sold and shipped, in case delivery is made by truck, if such quantity is sold in one lot and delivery is made within a period of seventy-two consecutive hours. A minimum carload is the minimum quantity required to obtain the railroad carload rate from the point of shipment to the destination.

NOTE 4. Aluminum foil. Aluminum foil and light gauge aluminum sheet which does not exceed 0.006 of an inch in thickness is not considered within this Price Schedule.

§ 1302.11 Appendix B; maximum prices for secondary aluminum ingot.

Deoxidizing aluminum, notch-bar, granulated, or shot.....	18½
(2¢ extra for Special Shapes)	

Quantity Differentials

The following premiums may be charged, in addition to the maximum prices set forth above, where sales are in the quantities specified:

Administrator.

(ii) The maximum price for turbinado, washed-white, or similar sugar for direct consumption delivered to the continental United States from offshore areas shall be \$5.20 per one hundred pounds duty-paid basis f. o. b. United States seaboard cane sugar refinery nearest freightwise to point of delivery.

(4) The maximum basis price for direct-consumption sugars other than those sugars provided for in subparagraphs (a) (1), (a) (2), (a) (3), and (b) (1) of this section, processed from United States mainland sugar cane, including but not limited to turbinado, plantation white and high-washed sugars, shall be \$5.35 per one hundred pounds f. o. b. United States seaboard cane sugar refinery nearest freightwise to point of delivery.

(5) The respective maximum basis prices established in subparagraphs (a) (1), (a) (2), (a) (3) (i), and (a) (4), of this section shall each be adjusted for grade and package differentials in accordance with the seller's differentials therefor published or in effect on December 1, 1941.

(6) The maximum delivered price for each of the sugars provided for in subparagraphs (a) (1), (a) (2), (a) (3), and (a) (4) of this section, respectively, shall be determined by adding to the respective maximum basis f. o. b. prices, as adjusted for grades and packages, the transportation charges per one hundred pounds on a shipment of identical quantity from the refinery from which the lowest established transportation rate applies to the point of delivery. Such transportation rate shall be based on the mode of transportation and routing employed by the basing point refinery on December 1, 1941, in calculating the "freight application" or "selling prepay" to the point of delivery; provided, for deliveries in a refinery city metropolitan area, the maximum delivered price shall be determined by adding to the respective maximum basis f. o. b. prices, as adjusted for grades and packages, the delivery charge per one hundred pounds on an identical shipment based on the cartage rates employed by the seller on December 1, 1941.

(b) (1) The maximum price for direct-consumption raw cane sugar of 96 degrees, polarization, of domestic or foreign origin, shall be \$4.60 per one hundred pounds United States mainland shipping point, including all taxes and duty.

(2) The maximum prices specified in subparagraph (b) (1) of this section, shall be adjusted by making allowances per pound for each degree of polarization above or below 96 degrees (fractions of a degree in proportion) in accordance with the method customarily used prior to the effective date of this Schedule.

§ 1334.52 Maximum prices for sales of direct consumption sugars at wholesale by persons other than primary distributors. On and after January 9, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer direct-consumption sugars at wholesale, and no person shall buy, offer to buy, or accept delivery of direct-consumption sugars at wholesale at prices higher than the maximum prices established by this section. These maximum prices are gross prices and include prevailing commissions, discounts, and all other charges.

(a) The basic maximum price shall be the highest price at which the seller sold such sugars of similar grade, package, and amount to a similar purchaser during either the period October 6, 1941 to October 11, 1941, inclusive, or the period December 1, 1941, to December 6, 1941, inclusive. The seller may select either period at his option. However, once having selected a period, the seller must use the period selected for all purposes of this section. The maximum price for sugars acquired subsequently at a higher net purchase cost shall be determined by adding to the basic maximum price the amount, if any, by which the said higher net purchase cost exceeds the net purchase cost of the sugars upon which the basic maximum price was based, provided the seller has first sold his entire inventory of lower cost sugars, and provided further, in calculating said maximum prices, the amount by which any net purchase cost exceeds the maximum prices established by § 1334.51 shall not be included.

(b) These maximum prices shall include at least the same absorption of transportation costs, and other charges, and at least the same rendition of services, as were or would have been absorbed or rendered by the seller on comparable shipments to the same place of destination during the period selected by the seller as provided for in paragraph (a) of this section.

(c) In cases where a person makes sales of such sugars through more than one selling unit, other than salesmen making sales at uniform prices, each such unit shall be deemed to be a separate entity for the purpose of determining the maximum prices established by this section.

§ 1334.55 Evasion. The price limitations established by this Schedule shall not be evaded whether by direct or indirect methods in connection with a pur-

TITLE 49—TRANSPORTATION AND
RAILROADS

CHAPTER I—INTERSTATE COMMERCE COMMISSION

PART 120—ANNUAL, SPECIAL OR PERIODICAL REPORTS

ORDER IN THE MATTERS OF ANNUAL REPORTS FROM STEAM RAILWAY COMPANIES AND THE CORRESPONDING SECTION OF THE CODE OF FEDERAL REGULATIONS

At a Session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 18th day of December A. D. 1941.

§ 120.11a *Supplement to form prescribed for large and medium steam roads.* (a) That in addition to and separately from annual reports of individual operating companies, those steam railway companies which had railway operating revenues of \$10,000,000.00 or

more for the year 1941 (except such steam railway companies as are subsidiaries of other steam railway companies) shall file consolidated statistical statements for the year ended December 31, 1942, and annually thereafter in the form of a balance sheet, income statement, and profit and loss account, in accordance with Schedules A to C, inclusive, attached hereto, which are hereby approved and made a part of this order,¹ and shall as early as practicable after January 1, 1942, maintain their books of account and other records in such manner as may be necessary for the elimination of intercompany transactions and the preparation of the aforesaid consolidated statistical statements.

(b) The first column of each of these schedules shall show the book figures of the respondent before eliminations followed by (a) columns showing the same data for each subsidiary company as defined in paragraph (c) of this section, except that the accounts of all companies proprietary to the respondent may be combined in a single column, (b) a column showing the group totals before eliminations, (c) a column showing eliminations, and (d) a column showing net consolidated totals after eliminations.

(c) Such consolidated statistical statements shall be a summation portraying the combined accounts of respondent and all subsidiary companies before and after eliminating intercompany transactions. For this purpose the term "subsidiary companies" shall be construed as including (1) all lesser transportation companies, regardless of the extent of stock ownership, the properties of which are operated by either the respondent or other controlled companies within the group consolidated, and (2) all other corporations more than 50 percent of the voting securities of which is directly or indirectly controlled within the group, except that switching and terminal companies which are operated as joint facilities with companies outside the group shall be excluded from such consolidated statistical statements.

(d) The consolidated statistical statements shall be accompanied by (1) a list of subsidiary companies, as defined in paragraph (c) of this section, which are included within the group consolidated, and (2) a list of subsidiary companies, as so defined, which are excluded from such group. These statements shall be in the form shown by Schedules D and E attached hereto, which are hereby approved and made a part of this order.

(e) If in the judgment of the respondent, it appears that the application of the definition of the term "subsidiary companies", as defined in paragraph (c) of this section, will result in including in the consolidated statistical statements any subsidiary which should be omitted from, or in excluding therefrom any subsidiary which should be included in, such statements under sound accounting principles governing the preparation of consolidated statements, respondent shall apply to the Commission for a ruling as to their inclusion or exclusion, stating

² 6 F.R. 6854.

¹ Filed with the original document.

the relevant facts² and the accounting principles regarding consolidated statements which it believes applicable thereto.

(f) In preparing the consolidated statistical balance sheet statement the following procedure shall be observed:

(1) The assets and liabilities as stated on the books of account of the respondent and its subsidiary companies shall be used in making the consolidated statistical balance sheet statement except as provided in paragraph (f) (2).

(2) All intercompany items within the consolidated group shall be eliminated from the net assets and liabilities as stated on the books of account. The amounts of such eliminations shall be entered in the eliminations column on Schedule A, and the net totals after eliminations entered in the column provided therefor on that schedule. Differences arising from such eliminations shall be variously disposed of as follows:

(i) Differences between intercompany investments in capital stock and the book equity (par value of capital stock, or recorded value of no par stock, plus the proportion, based on equity accruing to respondent both direct and indirect, of surplus and unreleased premium, or minus the proportion of deficit and unextinguished discount applicable thereto as stated in the subsidiary's accounts) shall be entered opposite "(a) Investments in capital stock" under the item of "Consolidation excess" or "Consolidation surplus" dependent upon whether the cost was in excess of or less than, respectively, the book equity. The offset to the amounts of surplus or deficit considered as "Consolidation excess" or "Consolidation surplus" shall be shown as an elimination opposite the item "Appropriated Surplus—Equity of—A. Stockholders of respondent" or "Profit and Loss Balance—Equity of—A. Stockholders of respondent", as appropriate. This computation shall be made as of the first date that control by respondent became effective. For this purpose the balance reflected in the surplus accounts of the issuing company at date of acquisition of control, without regard to items audited in the current period which have not been cleared to those accounts, may be used.

(ii) Differences arising from additional purchases of capital stock in the open market after the initial acquisition of control shall be computed in a manner

² The following situations are intended for illustration only and are not a part of this order: Facts relevant to such exclusion, for example, might be: Operations are unrelated to those of respondent or any subsidiary; subsidiary is about to be disposed of; subsidiary, because of receivership, etc., is not controlled; and a foreign subsidiary involving conditions which would preclude the practicability of including in the consolidated group. Facts relevant to inclusion might be: Ability to obtain proxies from other stockholders; inactivity of other stockholders who take no part in meetings; ownership of voting stock by persons having subordinated interests; contractual relationship as a creditor or otherwise substantially limiting control through stock ownership.

similar to that prescribed in paragraph (f) (2) (i), the amount of surplus or deficit to be considered as "Consolidation excess" or "Consolidation surplus" being the percentage proportion of the additional stock purchased to the total stock outstanding.

(iii) Differences arising from additional purchases of capital stock direct from a subsidiary shall be predicated on the difference between the cost and the par value of the stock (plus unreleased premium or minus unextinguished discount applicable thereto) acquired and the difference between the respondent's equity in the surplus or deficit immediately prior and subsequent to such additional purchases, these differences being treated in the manner prescribed in paragraphs (f) (2) (i) and (ii).

(iv) In the event of issuance by a subsidiary company of additional capital stock to outsiders, the respondent's equity in the surplus or deficit immediately prior and subsequent to such additional issuance shall be computed and the difference treated as an adjustment of "Consolidation excess" or "Consolidation surplus", the offset being shown as an elimination opposite "Appropriated Surplus—Equity of—A. Stockholders of respondent" or "Profit and Loss Balance—Equity of—A. Stockholders of respondent", as appropriate.

(v) In computing the elimination of surplus incident to the acquisition of initial control or to additional acquisitions consideration shall be given to any preference therein inherent in any preferred stock which might be involved.

(vi) Differences between the accumulated funded indebtedness (face amount plus the proportion of any unreleased premium or less the proportion of any unamortized discount stated in the accounts applicable thereto at date of acquisition) on the books of a debtor subsidiary company and the costs thereof stated in the accounts of the creditor company shall be treated as "Consolidation excess" or "Consolidation surplus", as appropriate, and shown opposite "(b) Investments in funded indebtedness," under those items on the consolidated statistical balance sheet statement.

(vii) Differences resulting from instances where securities or other assets of respondent or subsidiary companies within the group consolidated have been acquired by other companies in the group, or advances have been made by one company within the group to another company therein and the amounts originally stated in the accounts of the creditor company have later been written down without a like reduction having been made in the accounts of the debtor company the amounts of such write-downs shall be shown on the consolidated statistical balance sheet statement opposite the item "Adjustments for write-downs of assets." Amounts of liabilities such as interest and rents payable, etc., recorded in the accounts of a debtor subsidiary but not recorded in the accounts of the creditor company for the reason that payment was not reasonably assured shall also be

shown opposite that item, or treated as an elimination from profit and loss as may be desired.

(viii) Differences resulting from the elimination of intercompany items (other than capital stock and funded debt specifically dealt with in paragraphs (f) (2) (i) to (vi), inclusive, and items of the class referred to in paragraph (f) (2) (vii)) occasioned by amounts being stated in the accounts of one company within the consolidated group without contra accounting being stated in the accounts of another company therein, such as bills collectible of one company not vouchered or otherwise taken into account by the other company; items vouchered and accounted for by the debtor company in advance of contra accounting by the creditor company, etc., shall be shown on the consolidated statistical balance sheet statement opposite the item "Adjustments of group assets (Delayed accounting)" or "Adjustments of group liabilities (Delayed accounting)", as appropriate, preceding "Consolidation excess" and "Adjustments for write-downs of assets", respectively.

(3) All shares of respondent's capital stock owned by a subsidiary company included in the consolidated group, other than such stock owned by a noncontrolled lessor company, shall be treated in the consolidated statistical balance sheet statement as treasury stock in the same manner as though reacquired by the respondent.

(4) (i) The appropriated surplus and profit and loss balance on the consolidated statistical balance sheet statement shall be subdivided to show (a) equity of stockholders of respondent and (b) equity of stockholders of subsidiaries other than respondent. The equity of stockholders of respondent shall be confined to the accumulated balance in the respondent's surplus account from date of its inception plus their interest in the surplus of subsidiaries arising since the dates of acquisition of control. The equity of stockholders of subsidiaries other than respondent shall be their interest in the accumulated surplus of the subsidiaries from the dates of their inception.

(ii) The equity of the stockholders of respondent in the appropriated surplus and profit and loss balances of subsidiaries subsequent to acquisition of control shall be the percentage of their direct ownership interest in the stock of such subsidiaries plus the percentage of their indirect interest through any other subsidiary, appropriate consideration being given to its equity inherent in any preferred stock which might be involved. The equity of stockholders of subsidiaries other than respondent in the appropriated surplus and profit and loss balances of the subsidiaries from the dates of their inception shall be computed in a similar manner. The equities so computed shall be shown opposite the items provided therefor on the consolidated statistical balance sheet statement.

(iii) A statement showing a detail of the interest of stockholders of respondent

ent and of stockholders of subsidiaries other than respondent in the voting capital stock and in the total surplus of subsidiary companies, in the form of Schedule F, which is hereby approved and made a part of this order, shall accompany the consolidated statistical statements.

(5) In the event that the accounts of noncontrolled lessor transportation companies contain assets and liabilities, such as cash, security investments, etc., which are not subject to the direct control of or use by the respondent, appropriate footnotes shall be inserted on the consolidated statistical balance sheet statement to show the extent to which the amounts thereon include such assets and liabilities. Related income and profit and loss items shall be accorded similar treatment on the consolidated statistical income and profit and loss statements.

The amount of funded debt of noncontrolled lessor companies not guaranteed as to principal by the respondent or by a subsidiary company controlled directly or indirectly by the respondent shall be shown as a separate item opposite the captions provided therefor on the consolidated statistical balance sheet statement.

(g) In preparing the consolidated statistical income and profit and loss statements the income and profit and loss accounts of the respondent and of its subsidiaries for the year shall be combined and all intercompany transactions within the consolidated group relating to accounts not included in determining net railway operating income, except accounts relating to miscellaneous rent income and miscellaneous rents, shall be eliminated. The amounts of such eliminations shall be shown in the eliminations column on the consolidated statistical income and profit and loss statements, and the net totals after eliminations entered in the column provided therefor on those statements. The net elimination differences shall be shown on those statements opposite the item "Equity of—Stockholders of respondent", except that the elimination of profit and loss items for the year incident to the acquisition during the year by the respondent or by a subsidiary company within the group of capital stock of another subsidiary, shall be shown opposite the item "Consolidation excess" or "Consolidation surplus", as appropriate, on the consolidated statistical profit and loss statement, the contra being shown as an elimination opposite "Equity of—Stockholders of respondent."

(h) The consolidated statistical statements for the year ended December 31, 1942, shall be filed in triplicate in the Bureau of Statistics, Interstate Commerce Commission, Washington, D. C., on or before March 31, 1943, and all requests for the inclusion or exclusion of companies under the terms of paragraph (e) of this section shall be addressed to the said Bureau. (Sec. 20, 24 Stat. 386, sec. 7, 34 Stat. 593, 35 Stat. 649, sec. 14, 36 Stat. 555, sec. 1, 38 Stat. 1196, 39 Stat.

441, secs. 434-438, 41 Stat. 493, 494; 49 U.S.C. 20 (1)-(10)).

EXPLANATORY NOTE: Copies of this supplement to Annual Report Form A are supplied to carriers specified in paragraph (a) of this section.

The following are the statistical and/or accounting schedules contained in the report form: Schedule A, Consolidated Statistical Statement of Balance Sheet; Schedule B, Consolidated Statistical Statement of Income Account; Schedule C, Consolidated Statistical Statement of Profit and Loss Account; Schedule D, List of Subsidiary Companies Included in Consolidated Statistical Statements; Schedule E, List of Subsidiary Companies Excluded from Consolidated Statistical Statements; and Schedule F, Detail of interest of Stockholders of Respondent and of Minority Stockholders of Subsidiaries in the Voting Capital Stock and in the Total Surplus of Subsidiary Companies.

[Docket No. A-1193]

PETITION OF DISTRICT BOARD NO. 11 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 11 FOR ALL SHIPMENTS EXCEPT TRUCK

MEMORANDUM OPINION AND ORDER GRANTING TEMPORARY RELIEF AND NOTICE OF AND ORDER FOR HEARING

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, duly filed with the Division by the above-named party on December 5, 1941, requests the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 11 for all shipments except truck.

The petition requests the establishment of both Brazil and Staunton, Indiana as shipping points for the coals of Mine Index No. 189 of J. F. Durkin and the establishment of Catlin, Indiana as a shipping point for the coals of the Catlin Mine of the Catlin Coal Company.

Sufficient facts have not been set forth in the petition to warrant the establishment of two shipping points for the coals of Mine Index No. 189 and the matter of an additional shipping point should be set down for a hearing. No freight rates have been published for Catlin, Indiana and therefore no price classifications and minimum prices should be established for the coals of the Catlin Mine of the Catlin Coal Company for rail shipments originating at Catlin, Indiana without a hearing.

It appears, however, that a reasonable showing of necessity has been made for the granting of temporary relief for Mine Index No. 189 in the manner hereinafter set forth.

No petitions of intervention have been filed with the Division in the above-entitled matter and the following action is deemed necessary in order to effectuate the purposes of the Act:

Now, therefore, it is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith the Schedule of Effective Minimum Prices for District No. 11 for All Shipments Except Truck is supplemented to include price classifications and minimum prices set forth in the Schedule marked "Supplement" annexed hereto and hereby made a part hereof.¹

It is further ordered, That a hearing in Docket No. A-1193 under the applicable provisions of said Act and the rules of the Division be held on February 17, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day, the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Floyd McGown or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to

¹ Not filed with the original document.

preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before February 12, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 11 for the establishment of price classifications and minimum prices for the coals of the Catlin Mine of the Catlin Coal Company in District No. 11 for rail shipments originating in Catlin, Indiana and for the establishment of Brazil, Indiana as an additional shipping point for the coals of Mine Index No. 189 in District No. 11.

[Docket No. A-1180]

PETITION OF DISTRICT BOARD NO. 22 FOR REVISION OF CERTAIN PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE MILLS MINE (MINE INDEX NO. 202) IN DISTRICT NO. 22 AND FOR THE ESTABLISHMENT OF A MINIMUM PRICE OF 95 CENTS PER TON FOR 3/4" SLACK COAL OF THE A. C. M. #4 MINE (MINE INDEX NO. 1) IN THAT DISTRICT FOR SALE IN CARLOAD LOTS TO THE GREAT NORTHERN RAILWAY COMPANY

ORDER DENYING TEMPORARY RELIEF

The original petition in the above-entitled matter, filed with this Division by District Board No. 22, pursuant to sec-

tion 4 II (d) of the Bituminous Coal Act of 1937, requests revision of the effective price classifications and minimum prices for the coals, in certain size groups, produced from the Mills Mine (Mine Index No. 202) for shipment by truck; and a reduction from \$1.00 per ton to 95 cents per ton in the effective minimum price for the 3/4" slack coals produced from Mine Index No. 1 of the Gerber Coal Company where such coals are sold in carload lots to the Great Northern Railway Company for railway use.

The petitioner, in an amendment to its petition filed on December 26, 1941, reiterates its prayer that an order be immediately entered granting the temporary relief requested for the coals of Mine Index No. 1 of the Gerber Coal Company. It alleges that the need for such relief is urgent and that if the relief be not granted, the Gerber Coal Company will be unable to sell the 3/4" slack coal produced from its Mine Index No. 1 to the Great Northern Railway Company.

An answer to the original petition in this matter was filed by the Bituminous Coal Consumers' Council on December 11, 1941, (1) denying the allegations of fact set forth in paragraph 3 (B) of the original petition, (2) alleging that such allegations of fact do not support the request for a special minimum price of 95 cents per ton for shipment from the Gerber Coal Company, Mine Index No. 1, to the Great Northern Railway Company for railway use; and (3) praying that any price established for 3/4" x 0 slack coal produced in Subdistrict 1 of District No. 22 be made applicable to shipments of such sizes from all mines in that subdistrict and to shipments to all market areas for all uses, with no greater price adjustments among areas than necessary to be consistent with those for comparable size groups.

Petitioner's request for immediate temporary relief, together with the reasons relied upon by petitioner for the granting thereof, have been given careful consideration and it appears that the granting of such relief would unduly prejudice other interested persons in advance of the hearing, and further, that no sufficiently clear showing has been made that petitioner is entitled to the relief sought. The hearing in this matter is scheduled to be held on January 12, 1942 at Washington, D. C. at which time the question of granting temporary relief pending final determination can be thoroughly explored.

Now, therefore, it is ordered, That the prayer of the petitioner in this matter for the granting of immediate temporary relief for the coals of the Mills Mine (Mine Index No. 202) and for the 3/4" slack coals of the Gerber Coal Company, Mine Index No. 1, in District No. 22, be and the same hereby is denied.

Nothing herein contained shall be construed as an expression of the Division in regard to the final disposition of the issues presented by the original petition as amended.

HEAT AND POWER COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its offices in the City of Washington, D. C., on the 10th day of January, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named party; and

Notice is further given that any interested person may, not later than January 26, 1942 at 4:30 P. M., E. S. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to

said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Cupples Station Light, Heat and Power Company, the Applicant, is a wholly owned subsidiary company of Union Electric Company of Missouri, which is a registered holding company under the Public Utility Holding Company Act of 1935. The Applicant proposes, after the completion of the sale of its distribution system to Union Electric Company of Missouri and the reduction in par value of its 10,000 shares of capital stock from \$100 per share to 50¢ per share, to declare a partial liquidating dividend to Union Electric Company of Missouri in the amount of \$565,599.07, which is equal to the sum of (a) \$90,996.66, the price to be

received from the sale of the distribution system, (b) \$435,054.76, the amount which the Applicant now has as an account receivable from Union Electric Company of Missouri (repayment of which will be made just prior to the payment of such dividend), and (c) \$42,547.65, the amount of cash which the Applicant has on hand and in bank exclusive of \$3,000, which is estimated to be required by it for taxes and other expenses incident to its final disposition.

The Applicant states that after the consummation of the proposed transaction, its remaining assets will consist of a small amount of cash and a parcel of real estate in St. Louis County, Missouri, suitable for residential purposes and that its corporate name and its purposes will be changed so that it will then be merely a real estate company which could be disposed of when a suitable opportunity occurs.

By the Commission.
