AUTHORITY: §§ 419.1 to 419.44, inclusive, issued under secs. 506 (e), 507 (c), 508, 509, and 516 (b) of the Federal Crop Insurance Act, as amended; 52 Stat. 73, 52 Stat. 835, 58 Stat. 918, 7 U. S. C. 1506 (e), 1507 (c), 1508, 1509, 1516 (b).

MANNER OF OBTAINING INSURANCE

§ 419.1 *Availability of cotton crop insurance.* (a) Cotton crop insurance against loss in yields will be offered on American Upland cotton crops grown for harvest in the 1947 and succeeding crop years in accordance with this part. The amount of insurance per acre of cotton crop insurance shall not exceed 75 percent of the average yield of lint cotton for the farm. The insurance shall cover the loss of cottonseed production only if the producer applies for such insurance.

(b) Insurance will not be provided in any county unless written applications for insurance on crops authorized to be insured are filed, which, together with the contracts in force, cover at least fifty farms or one-third of the farms normally producing these crops, except that insurance may be provided for producers on farms situated in a local producing area bordering on a county with a crop insurance program.

§ 419.2 *Application for insurance.* Application for insurance on a form entitled "Application for Cotton Crop Insurance" may be made by any person to cover his interest as landlord, owner-operator, tenant, or sharecropper, in a cotton crop. An application shall cover the applicant's interest in the cotton crop on all insurance units considered for crop insurance purposes to be located in the county or, where applicable, on all insurance units in the local producing area, in which the applicant has an interest at the time of the planting of the cotton crop to be harvested in the 1947 and any succeeding crop year while the contract remains in force: *Provided, however,* That an application executed by any person as an individual shall not cover his interest as a partner in a crop produced by a partnership. Applications shall be submitted to the office of the county association on or before the applicable closing date shown in § 419.42.

§ 419.3 *Acceptance of applications by the Corporation.* (a) Upon acceptance of an application by a duly authorized representative of the Corporation, the insurance contract shall be in effect commencing with the first crop year beginning after submission of the application, provided such application is submitted in accordance with this part. The applicant's copy of the accepted application shall be mailed to him.

(b) The Corporation reserves the right to reject any application for insurance in its entirety or with respect to any one or more of the insurance units covered by the application or to limit, in any year, the insurance on the applicant's interest in any insurance unit covered by the application to any

available level of insurance lower than the one applied for.

(c) Insurance contracts covering farms situated in a local producing area shall be handled in the office of the county association of the designated adjoining county with a crop insurance program.

§ 419.4 *Termination of insurance contract.* (a) Subject to the provisions of paragraph (b) of this section, the insurance contract shall be in effect for the first full crop year following submission of the application and shall continue for each succeeding crop year until either party gives to the other party, on or before January 31 of any year or the applicable calendar closing date for filing applications for the year in question, whichever is later, written notice of termination effective at the beginning of the succeeding crop year. Failure to terminate the contract, as herein provided, shall constitute acceptance of changes, if any, in the premium rate(s), amounts of insurance, insurance coverages, or this part. Any notice given by the insured to the Corporation pursuant to this paragraph shall be submitted in writing to the office of the county association.

(b) If the minimum participation requirement set forth in § 419.1 (b) is not set for any year, contracts then in force shall continue in force only to the end of the crop year for which such requirement is not met: *Provided, however,* That if such contracts, together with any other crop insurance contracts and new applications for crop insurance filed on or before the next succeeding applicable calendar closing date, are sufficient to meet the minimum participation requirement, such contracts shall continue to be in force.

(c) If for two consecutive years no cotton in which the insured has an insurable interest is planted in the county, the contract shall terminate.

INSURANCE COVERAGE

§ 419.5 *Insurable and non-insurable farms.* Any farm or part thereof which is designated on the crop-insurance listing sheet as "non-insurable," because of the insurance risk involved, shall not be considered in any manner whatsoever under the insurance contract, except as provided in § 419.17 (b) and § 419.37. The Corporation may determine that a farm or part thereof is non-insurable for any crop year, and so designate it on the listing sheet at any time before the applicable calendar closing date for the filing of applications for insurance for such year. Any farm or part thereof not so designated is insurable.

§ 419.6 *Determination of insured acreage and interest.* (a) Promptly after planting a cotton crop each year, the insured shall submit to the Corporation, on a form entitled "Cotton Crop Insurance Acreage Report," a report over his signature of the acreage planted to cotton on each insurance unit in which he has an interest at the time of planting and his interest at the time of planting in the cotton crop planted. This report submitted by the insured shall be considered

final and not subject to change by the insured.

(b) The insured acreage with respect to each insurance unit shall be the acreage of cotton planted as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect: *Provided, however,* That the Corporation reserves the right to limit the acreage to be insured in any year: *Provided, further,* That insurance shall not attach with respect to any acreage planted to cotton which is destroyed or substantially destroyed (as defined in § 419.14) and which can be replanted before it is too late to plant cotton, as determined by the Corporation, and such acreage is not replanted to cotton.

(c) The insured interest with respect to each insurance unit shall be the insured's interest in the crop at the time of planting as reported by the insured or the interest which the Corporation determines as the insured's actual interest at the time of planting, whichever the Corporation shall elect: *Provided, however,* That for the purpose of determining loss, the insured interest shall not exceed the insured's actual interest at the time of loss, or the beginning of harvest, whichever occurs first.

§ 419.7 *Insurance period.* Insurance with respect to any insured acreage shall attach at the time the cotton is planted. Insurance shall cease with respect to any portion of the cotton crop covered by the insurance contract upon weighing in at the gin, or disposal of the harvested crop, or transfer of interest in unharvested cotton after harvest has commenced, but in no event shall the insurance remain in effect later than March 31 of each year in Arizona, California, and New Mexico, or January 31 of each year in all other states, unless such time is extended in writing by the Corporation.

§ 419.8 *Amount of lint cotton insurance.* (a) The amount of lint cotton insurance per acre depends upon (1) the level of insurance, (2) the coverage group for the farm or part thereof, and (3) the stage of production reached by the cotton crop, as determined by the corporation.

The level of insurance shall be the one specified in the contract.

The coverage group for the farm or part thereof shall be the one established on the crop insurance listing sheet, and is to be used in conjunction with the schedule below.

The stages of production are as follows:

First stage: After it is too late to plant cotton but before the first cultivation;

Second stage: After the first cultivation but before laying by;

Third stage: After laying by but before harvest; and

Fourth stage: After harvest and to the end of the insurance period.

The amount of lint cotton insurance per acre for each stage of production shall be the number of pounds of lint cotton shown in the following schedule for the applicable level of insurance and coverage group:

(b) The amount of lint cotton insurance for each insurance unit for each year under the contract shall be the number of pounds of lint cotton determined by multiplying (1) the insured acreage by (2) the amount of lint cotton insurance per acre and by (3) the insured interest in the crop at the time of planting. If parts of the insurance unit fall in different coverage groups or different stages of production, the amount of insurance shall be computed separately, using the applicable acreage for each amount of insurance per acre, and the total of such computed amounts shall be the amount of lint cotton insurance for the insurance unit.

(c) Any person who has a cotton crop insurance contract covering the 1946 and succeeding crop years may, on or before the applicable closing date, submit an application for insurance covering the 1947 and succeeding crop years, which, when accepted by the Corporation, will be substituted for the contract covering the 1946 and succeeding crop years. Any such person who fails to submit such application shall be deemed to have consented to insurance with respect to the 1947 and succeeding crop years in accordance with the provisions of this part. In such case, if the existing contract provides for insurance of 50 percent of the average yield of lint cotton for the farm, the amount of insurance per acre shall be that available under level A; or, if the existing contract provides for insurance of 75 percent of the average yield of lint cotton for the farm, the amount of insurance per acre shall be that available under level B. In such case also, if the existing contract

covers loss of cottonseed production, insurance against loss of cottonseed production shall continue in accordance with this part.

§ 419.9 Causes of loss insured against. The insurance contract shall cover loss in yield of lint cotton (and cottonseed production, if insured) due to unavoidable causes, including drought, flood, hail, wind, frost, winter-kill, lightning, fire, excessive rain, snow, wildlife, hurricane, tornado, insect infestation, plant disease, and such other unavoidable causes as may be determined by the Board of Directors of the Corporation: *Provided, however,* That the Board of Directors may determine that for any county or area the insurance contract shall provide that loss in yield of lint cotton (and cottonseed production, if insured) due to any of the foregoing causes is not insured.

Where insurance is written on an irrigated basis, the insurance contract shall also cover loss in yield due to failure of the water supply from natural causes that could not be prevented by the insured, including (a) lowering of the water level in pump wells adequate at the beginning of the growing season to the extent that either deepening the well or drilling a new well would be necessary to obtain an adequate supply of water, (b) failure of public power used for pumping or failure of an irrigation district or water company to deliver water where such failure is not within the control of the insured, and (c) the collapse of casing in wells where such collapse could not have been foreseen and prevented by the insured.

§ 419.10 Causes of loss not insured against. The contract shall not cover damage to quality in any case, or loss in yield caused by:

(a) Neglect or malfeasance of the insured or of any person in his household or employment or connected with the farm as tenant, sharecropper, or wage hand;

(b) Theft;

(c) Domestic animals;

(d) Failure to follow recognized good farming practices;

(e) Poor farming practices, including but not limited to the use of defective or unadapted seed, failure to plant a sufficient quantity of seed, failure properly to prepare the land for planting, or properly to plant, care for or harvest (including unreasonable delay thereof) the insured crop;

(f) Following different fertilizer or farming practices than those considered in establishing the average yield, or planting cotton on land where the average productivity or farming hazards differ materially from the average productivity or farming hazards for the acreage considered in establishing the average yield and premium rate for such farm or part thereof;

(g) Failure to replant the cotton under circumstances where the Corporation determines it is practicable to replant;

(h) Planting cotton under conditions of immediate hazard;

(i) Planting excessive acreage under abnormal conditions;

(j) Planting another crop in the growing cotton crop (except winter legumes);

(k) Planting a variety of cotton which differs materially in yield from the vari-

ety considered in establishing the average yield for the farm or part thereof;

(l) Inability to obtain labor, seed, fertilizer, machinery, repairs or inspect poison;

(m) Breakdown of machinery or failure of equipment due to mechanical defects;

(n) Failure properly to apply irrigation water to cotton in proportion to the amount of water available for all irrigated crops; or

(o) Failure to provide adequate casing or properly to adjust the pumping equipment in the event of a lowering of the water level in pump wells where such adjustment can be made without deepening the well.

PREMIUM FOR INSURANCE CONTRACT

§ 419.11 *Amount of annual premium.* Each annual premium for lint cotton insurance for each insurance unit under the contract shall be the number of pounds of lint cotton determined by multiplying (a) the insured acreage of cotton for the insurance unit by (b) the premium rate and by (c) the insured interest in the crop at the time of planting: *Provided, however,* That, subject to the minimum premium provision of this section, the amount of premium so determined shall not exceed 50 percent of the amount of insurance for such insurance unit. If more than one premium rate is applicable to the insurance unit, a premium shall be computed separately using the applicable acreage for each rate, and the total of the amounts so computed shall be the premium for lint cotton insurance for the insurance unit. The annual premium for lint cotton insurance for the insurance contract shall be the total of the premiums computed for the insured for all insurance units covered by the contract. The annual premium with respect to any insured acreage shall be regarded as earned when the cotton crop on such acreage is planted. If the insurance contract covers loss of cottonseed production, the annual premium for lint cotton insurance shall be increased by 20 percent. The minimum annual premium payable by the insured with respect to any insurance contract shall be fifteen pounds of lint cotton.

§ 419.12 *Manner of payment of premium.* (a) By executing a form entitled "Application for Cotton Crop Insurance," the applicant executes a premium note. This note represents a promise to pay to the Corporation annually, during the life of the insurance contract, on or before the applicable maturity date specified in § 419.43, the premium for all insurance units covered by the contract. Each annual premium or unpaid portion thereof shall bear interest after maturity at the rate of one-half of one percent for each full calendar month or fraction thereof, except that no interest shall be charged on any amount paid within two calendar months after maturity.

(b) Payment of any annual premium made before maturity may be made in cotton or cash, or both. In connection with any such payment, there shall be credited on the premium the number of

pounds of lint cotton computed by dividing the payment made (the proceeds of the sale of cotton, if cotton is paid) by the cash equivalent price per pound in effect for the date of payment. Later payments may be made only in cash. The cash equivalent of any annual premium or portion thereof which is not paid before maturity shall be established on the basis of the cash equivalent price in effect for the maturity date. Payments in cash shall be made by means of cash or by check, money order, postal note, or bank draft payable to the order of the Treasurer of the United States. All checks and drafts will be accepted subject to collection, and payments tendered shall not be regarded as paid unless collection is made. When a payment is made in cotton, it shall be by means of a negotiable warehouse receipt or other instrument acceptable to the Corporation representing salable cotton.

(c) Any unpaid amount of any annual premium (either before or after the date of maturity) may be deducted from any indemnity payable by the Corporation, from the proceeds of any commodity loan to the insured, and from any payment made to the insured under the Soil Conservation and Domestic Allotment Act, as amended, or any other act of Congress or program administered by the United States Department of Agriculture. Where any such deduction is made before maturity, the cash equivalent of the deduction will be based on the cash equivalent price used in computing the indemnity payment or the cash equivalent price determined by the Corporation to be in effect on the day the county committee approves such loan or other payment, whichever is applicable. Such price shall also be used in determining the number of pounds of lint cotton to be credited on the annual premium.

LOSS

§ 419.13 *Notice of loss or damage of cotton crop.* Unless otherwise provided by the Corporation, if a loss is probable, notice in writing shall be given the Corporation at the office of the county association immediately after any material damage to the insured crop and before the crop is harvested, removed, or any other use is made of it. Any such notice shall be given in time to allow the Corporation to make appropriate inspection.

§ 419.14 *Released acreage.* Any insured acreage on which the cotton crop has been destroyed or substantially destroyed may be released by the Corporation to be put to another use. The cotton crop shall be deemed to have been substantially destroyed if the Corporation determines that it has been so badly damaged that farmers generally in the area where the farm is located and on whose farms similar damage occurred would not further care for the crop or harvest any portion thereof.

Before any acreage is released, it shall be inspected, and, except for any acreage destroyed before the first cultivation, an appraisal made of the yield that would be realized if the crop on such acreage remained for harvest.

On any acreage where the cotton has been partially destroyed but not released by the Corporation, proper measures shall be taken to protect the crop from further damage. There shall be no abandonment of any crop or portion thereof to the Corporation.

§ 419.15 *Time of loss.* Loss, if any, shall be deemed to have occurred at the end of the insurance period as set forth in § 419.7, unless the Corporation determines that the cotton crop was destroyed or substantially destroyed earlier, in which event the loss shall be deemed to have occurred on the date so determined by the Corporation.

§ 419.16 *Proof of loss.* If a loss is claimed, the insured shall submit to the Corporation a form entitled, "Statement in Proof of Loss," containing such information regarding the manner and extent of the loss as may be required by the Corporation. The statement in proof of loss shall be submitted not later than sixty days after the time of loss, unless the time for submitting the claim is extended in writing by the Corporation. It shall be a condition precedent to any liability under the insurance contract that the insured establish that any loss for which claim is made has been directly caused by one or more hazards insured against by the insurance contract during the insurance period for the crop year for which the loss is claimed, and that the insured further establish that the loss has not arisen from or been caused by, either directly or indirectly, any of the hazards not insured against by the insurance contract. The cotton stalks on any cotton acreage, with respect to which a loss is claimed, shall not be destroyed until the Corporation makes an inspection.

§ 419.17 *Amount of loss.* (a) The amount of loss for which an indemnity will be payable with respect to any insurance unit will be the amount of lint cotton insurance for such insurance unit, less the product of the insured interest and the total lint cotton production for such unit: *Provided, however,* That if the planted acreage on the insurance unit exceeds the insured acreage on such unit, as determined by the Corporation, the amount of loss for the insured acreage shall be determined by first determining the loss for the planted acreage and apportioning such loss to the insured acreage. Such apportionment may be based on the ratio of the insured acreage to the planted acreage or the ratio of the premium computed for the insured acreage to the premium computed for the planted acreage, whichever the Corporation shall elect. The total lint cotton production shall include:

(1) Cotton produced on any acreage which was harvested and not subsequently destroyed by a cause insured against before the end of the insurance period;

(2) The appraised production for any acreage which is released by the Corporation because of damage occurring in the second stage of production, as determined by the Corporation;

(3) The appraised production for any acreage which is released by the Corpo-

ration because of damage occurring in the third stage of production, as determined by the Corporation;

(4) The appraised production for unharvested cotton, except the production covered by subparagraphs (2) and (3) of this paragraph.

(5) The appraised production for any portion of the insured cotton acreage that is put to another use without the consent of the Corporation, but not less than the product of (i) such acreage and (ii) the amount of lint cotton insurance per acre applicable to such acreage in the fourth stage of production (rounded in accordance with § 419.41);

(6) The appraised number of pounds of lint cotton by which production on any acreage has been reduced solely because of any cause not insured against, but not less than the product of (i) such acreage and (ii) the amount of lint cotton insurance per acre applicable to such acreage in the fourth stage of production (rounded in accordance with § 419.41) minus any quantity of cotton harvested from such acreage and any quantity of cotton not harvested from such acreage and remaining in the field; and

(7) The appraised number of pounds of lint cotton by which production on any acreage has been reduced because of any cause not insured against, where damage on such acreage has resulted from a cause insured against and a cause not insured against.

If the insurance contract covers loss of cottonseed production, the amount of loss determined as set forth above for each insurance unit covered by the contract shall be increased by 20 percent.

(b) Where the insured fails to establish and maintain separate records, satisfactory to the Corporation, of acreage or production for the component parts of two or more insurance units or portions thereof, the insurance with respect to such units may be voided by the Corporation for the year in question and the premium forfeited by the insured; *Provided, however,* That, if all the component parts of the combination are insured, the total amount of insurance for the component parts shall be considered as the amount of insurance for the combination, and any loss for such combination shall be determined as outlined in paragraph (a) of this section. Where the insured fails to establish and maintain separate records, satisfactory to the Corporation, of acreage or production for noninsurable acreage and for one or more insurance units or portions thereof, any production from the noninsurable acreage which is commingled with the production from the insured acreage shall be considered to have been produced on the insured acreage, or the insurance with respect to such unit(s) under the contract may be voided by the Corporation for the year in question and the premium forfeited by the insured.

PAYMENT OF INDEMNITY

§ 419.18 *When indemnity payable.* The amount of loss for which the Corporation may be liable with respect to any insurance unit covered by the insurance contract shall be payable within thirty days after satisfactory proof of loss is approved by the Corporation.

However, if payment of any indemnity is delayed for any reason beyond the time specified, the Corporation shall not be liable for interest or damages on account of such delay.

§ 419.19 *Indemnity payment.* (a) Any indemnity due under the insurance contract will be paid either by the insurance of a certificate of indemnity, which shall bear an expiration date, or by cash whichever the Corporation elects. When paid by the issuance of a certificate of indemnity, settlement under such certificate will be made in cash or cotton, as determined by the Corporation, in accordance with this part. Such certificate may also be used to obtain a loan from the Commodity Credit Corporation, if loans on certificates of indemnity are available.

(b) When an indemnity is paid in cash, the amount to be paid shall be determined by multiplying the number of pounds of lint cotton approved as an indemnity by the cash equivalent price per pound for the day the indemnity is approved by the Corporation.

(c) In case of a cash settlement under a certificate of indemnity, the cash equivalent of the indemnity shall be the number of pounds of lint cotton specified in the certificate of indemnity multiplied by the cash equivalent price per pound for the day the certificate of indemnity or other request of the insured for cash settlement or for determining the cash equivalent is received in the branch office of the Corporation, or the expiration date of the certificate, whichever occurs first. If the insured has not returned the certificate (or other request) for cash settlement before the expiration date, the cash equivalent shall be established on the basis of the price in effect on the expiration date of the certificate and a check shall be issued in settlement of the indemnity claim, except where the certificate is used to secure a Commodity Credit Corporation loan. A cash settlement under a certificate of indemnity made more than 14 days after the issuance of the certificate shall be subject to a deduction for a reasonable charge for storage and handling and the schedule of such charges shall be shown on the certificate of indemnity.

(d) Any indemnity payable under an insurance contract shall be paid to, and settlement under the certificate of indemnity made with, the insured or such other person as may be entitled to the benefits of the insurance contract under the provisions of this part, notwithstanding any attachment, garnishment, receivership, trustee process, judgment, levy, equity, or bankruptcy directed against the insured or such other person, or against any indemnity alleged to be due to such person; nor shall the Corporation or any officer, employee, or representative thereof be a proper party to any suit or action with reference to such indemnity or the proceeds thereof, nor be bound by any judgment, order or decree rendered or entered therein. No officer, agent, or employee of the Corporation shall, because of any such process, order, or decree, pay or cause to be paid, to any person other than the insured or other person entitled to the

benefits of the insurance contract, any indemnity payable, or any amount due in settlement of any certificate of indemnity in accordance with the provisions of the insurance contract. Nothing herein contained shall excuse any person entitled to the benefits of the insurance contract from full compliance with, or performance of, any lawful judgment, order, or decree with respect to the disposition of any sums paid thereunder as an indemnity.

(e) If a check or certificate of indemnity issued in payment of an indemnity is returned undeliverable at the last known address of the payee, and if such payee or other person entitled to the indemnity makes no claim for payment within two years after the issuance of the check or certificate, such claim shall not thereafter be payable, except with the consent of the Corporation.

(f) The Corporation shall provide for the posting annually in each county at the county courthouse of a list of indemnities paid for losses on farms in such county.

§ 419.20 *Adjustment in connection with indemnity payment.* Where an adjustment is made in the amount of an indemnity, settlement for such adjustment may be made on the basis of a cash equivalent price per pound other than that originally used in making settlement of the indemnity.

§ 419.21 *Other insurance.* If the insured has or acquires any other insurance against substantially all the risks that are insured against by the Corporation under the insurance contract on the crop or portion thereof covered in whole or in part by such insurance contract, regardless of whether such other insurance is valid or collectible, the liability of the Corporation shall not be greater than its share would be if the amount of its obligations were divided equally between the Corporation and such other insurer. In any case where an indemnity is paid to the insured by another Government agency because of damage to the cotton crop, the Corporation reserves the right to determine its liability under the insurance contract, taking into consideration the amount paid by such other agency.

§ 419.22 *Subrogation.* The Corporation may require from the insured an assignment of all rights of recovery against any person(s) for loss or damage to the extent that payment therefor is made by the Corporation, and the insured shall execute all papers required and shall do everything that may be necessary to secure such rights.

§ 419.23 *Creditors.* An interest existing by virtue of a debt, lien, mortgage, garnishment, levy, execution, bankruptcy, or any other process shall not be considered an interest in an insured crop within the meaning of this part.

PAYMENT OF INDEMNITY TO PERSONS OTHER THAN ORIGINAL INSURED

§ 419.24 *Indemnities subject to all provisions of insurance contract.* Indemnities payable to any person shall be subject to all provisions of the insurance contract, including the right of the Corpora-

tion to deduct from any such indemnity the unpaid amount of any earned annual premium or any other obligation of the insured to the Corporation: *Provided, however,* That in case of a transfer of an interest in an insured crop, such deduction to be made from an indemnity payable to the transferee shall not exceed the annual premium due on the insurance unit or units involved in the transfer for the crop year in which the transfer is made, plus the unpaid amount of any other obligation of the transferee to the Corporation. Any indemnity payable to any person other than the original insured as a result of a transfer, or otherwise, shall be subject to any collateral assignment of the insurance contract by the original insured.

§ 419.25 *Collateral assignment of right under insurance contract.* The right to an indemnity under an insurance contract may be assigned by the original insured as collateral security for a loan or other obligation of such insured. Such assignment shall be made by the execution of a form entitled "Collateral Assignment," and, upon approval thereof by the Corporation, the interests of the assignee will be recognized, if an indemnity is payable under the insurance contract, to the extent of the amount determined to be the unpaid balance of the amount (including interest and other charges) for which such assignment was made as collateral security: *Provided, however,* That (a) payment of any indemnity will be subject to all conditions and provisions of the insurance contract and to any deductions authorized under § 419.24 and (b) payment of the indemnity may be made by check payable jointly to all persons entitled thereto and such payment shall constitute a complete discharge of the Corporation's obligation with respect to any loss under the insurance contract. The Corporation's approval of an assignment shall not create in the assignee any right other than that derived from the assignor: *Provided, however,* That the assignee may submit a "Statement in Proof of Loss," if the insured refuses to submit, or disappears without having submitted, such statement. The Corporation shall in no case be bound to accept notice of any assignment of the insurance contract, and nothing contained in any assignment shall give any right against the Corporation to any person other than the insured, except to an assignee approved by the Corporation. Only one such assignment will be recognized in connection with the insurance contract, but, if an assignment is released, a new assignment may be made.

§ 419.26 *Payment to transferee.* In the event of a transfer of all or a part of the insured interest in a cotton crop before the beginning of harvest or the time of loss, whichever occurs first, the transferor shall immediately notify the Corporation thereof in writing at the office of the county association. The transferee under such a transfer shall be entitled to the benefits of the insurance contract with respect to the interest so transferred, subject to any as-

ignment made by the original insured in accordance with § 419.25: *Provided, however,* That an involuntary transfer of an insured interest in a cotton crop solely because of the existence of a debt, lien, mortgage, garnishment, levy, execution, bankruptcy, or other processes shall not entitle any holder of any such interest to any benefits under the insurance contract: *Provided, further,* That the Corporation shall not be liable for a greater amount of indemnity in connection with the insured crop than would have been paid if the transfer had not taken place: *Provided, further,* That the insurance contract of the transferor shall cover the interest so transferred only to the end of the insurance period for the crop year during which the transfer is made. If, as a result of any such transfer, diverse interests appear with respect to any insurance unit, the indemnity, if any, payable with respect to such unit may be paid jointly to all persons having the insured interest in the crop at the time harvest is commenced or the time of loss, whichever occurs first, or to one of such persons on behalf of all such persons, and payment in any such manner shall constitute a complete discharge of the Corporation's liability with respect to such unit under the insurance contract.

§ 419.27 *Death, incompetence, or disappearance of insured.* (a) If the insured dies, is judicially declared incompetent, or disappears after the planting of the cotton crop in any year, but before the time of loss or the time harvest is commenced, whichever occurs first, and his insured interest in the cotton crop is a part of his estate at such time, or if the insured dies, is judicially declared incompetent, or disappears subsequent to such time, the indemnity, if any, shall be paid to the legal representative of his estate, if one is appointed or is duly qualified. If no such representative is or will be so qualified, the indemnity shall be paid to the persons beneficially entitled to share in the insured's interest in the crop or to any one or more of such persons on behalf of all such persons; *Provided, however,* That, if the indemnity represents a number of pounds of cotton, the cash equivalent of which exceeds \$500, the Corporation may withhold the payment of the indemnity until a legal representative of the insured's estate is duly qualified to receive such payment.

(b) If the insured dies, is judicially declared incompetent, or disappears after the planting of the cotton crop in any year, but before the time of loss or the time harvest is commenced, whichever occurs first, and his interest in the crop is not a part of his estate at such time, the indemnity, if any, shall be paid to the person(s) who succeeded to his interest in the crop in the manner provided for in § 419.26.

(c) If an applicant for insurance or the insured, as the case may be, dies, is judicially declared incompetent, or disappears less than fifteen days before the applicable calendar closing date for the filing of applications for insurance in any year, but before any cotton crop intended to be covered by insurance is planted, whoever succeeds him on the

farm with the right to plant the cotton crop as his heir or heirs, administrator, executor, guardian, committee, or conservator shall be substituted for the original applicant or the insured upon filing with the office of the county association, within fifteen days (unless such period is extended by the Corporation) after the date of such death, judicial declaration, or termination of the period which establishes disappearance within the meaning of this part, or before the date of the beginning of planting, whichever is earlier, a statement in writing, in the form and manner prescribed by the Corporation, requesting such substitution and agreeing to assume the obligations of the original applicant or the insured arising out of such application or the insurance contract: *Provided, however,* That any substitution made pursuant to this paragraph shall be effective only with respect to the cotton crop to be planted in the ensuing crop year, and the insurance contract shall terminate at the end of such year. If no such statement is filed, as required by this paragraph, the original application or insurance contract shall be void.

(d) Subject to the provisions of paragraph (c) of this section, the insurance contract shall terminate upon death, judicial declaration of incompetence, or disappearance, of the insured, except that, if such death, judicial declaration of incompetence, or disappearance occurs after the planting of the cotton crop in any year but before the end of the insurance period for such year, the insurance contract shall terminate at the end of such insurance period.

(e) The insured shall be deemed to have disappeared within the meaning of this part if he fails to file with the county committee written notice of his new mailing address within 180 calendar days after any communication by or on behalf of the Corporation is returned undeliverable at the last known address of the insured.

§ 419.28 *Fiduciaries.* Any indemnity payable under an insurance contract entered into in the name of a fiduciary who is no longer acting in such capacity at the time for the payment of indemnity and settlement under the certificate of indemnity will be made to the succeeding fiduciary upon appropriate application and proof satisfactory to the Corporation of his incumbency. If there is no succeeding fiduciary, payment of the indemnity shall be made to, and settlement under the certificate of indemnity shall be made with, the persons beneficially entitled under this part to the insured interest in the crop, to the extent of their respective interests, upon proper application and proof of the facts: *Provided, however,* That the settlement may be made with any one or more of the persons so entitled, and payment may be made to such person or persons in behalf of all the persons so entitled, whether or not the person to whom payment is made has been authorized by the other interested persons to receive such payment.

§ 419.29 *Determination of person to whom indemnity shall be paid.* In any case where the insured has transferred his interest in all or a portion of the

cotton crop on any insurance unit, or has ceased to act as a fiduciary, or has died, has been judicially declared incompetent or has disappeared, payment in accordance with the provisions of this part will be made only after the facts have been established to the satisfaction of the Corporation. The determination of the Corporation as to the existence or non-existence of a circumstance in the event of which payment may be made and of the person(s) to whom such payment will be made shall be final and conclusive. Payment of any indemnity under this section shall constitute a complete discharge of the Corporation's obligation with respect to the loss for which such indemnity is paid and settled and shall be a bar to recovery by any other person.

REFUNDS OF EXCESS NOTE PAYMENTS

§ 419.30 *Refunds of excess note payments.* Before termination of the insurance contract, the Corporation shall not be required to make a refund of any excess payment made on any annual premium and any such excess payment may be credited on future annual premiums. However, the Corporation may elect to make such refund at any time before the termination of the insurance contract. If a refund is to be made of any excess payment received before maturity, the cash equivalent of such refund shall be determined on the basis of the number of pounds of lint cotton to be refunded and the cash equivalent price for the appropriate grade and staple of such lint cotton effective for the date such payment was submitted to the Corporation. If more than one payment is made on any annual premium, the payments shall be applied in the order of submittal to the Corporation. In computing the amount of any refund, the payments shall be considered in their inverse order and each such payment or portion thereof shall be regarded as a separate payment in determining the cash equivalent of the refund. Refunds of excess payments received on or after the date the annual premium matures shall be refunded in the actual amount of money paid to the Corporation in excess of that determined to be necessary to pay such annual premium.

There shall be no refund of an amount less than \$1.00, with respect to payments made either before or after the maturity of any annual premium, unless written request for such refund is received by the Corporation within one year after the termination of the contract.

§ 419.31 *Assignment or transfer of claims for refunds not permitted.* No claim for a refund, or any part or share thereof, or any interest therein, shall be assignable or transferable, notwithstanding any assignment of the insurance contract or any transfer of interest in any cotton crop covered by the insurance contract. Refund of any excess note payment will be made only to the person who made such payment, except as provided in § 419.32.

§ 419.32 *Refund in case of death, incompetence, or disappearance.* In any case where a person who is entitled to a refund of a payment has died, has been judicially declared incompetent, or has

disappeared, the provisions of § 419.27 with reference to the payment of indemnities in any such case shall be applicable with respect to the making of any such refund.

ESTABLISHMENT OF AVERAGE YIELDS AND PREMIUM RATES

§ 419.33 *Establishment of farm average yields of lint cotton per acre.* The Corporation shall establish average yields of lint cotton for farms or parts of farms on the basis of the recorded or appraised yields for a representative period of years and shall, where necessary, adjust such yields so that the average yields for farms or parts of farms in the same area which are subject to the same conditions shall be fair and just. Average yields so established may be revised from time to time as the Corporation may elect.

§ 419.34 *Establishment of farm premium rates.* The Corporation shall establish premium rates for all farms or parts of farms (except those which are designated on the crop insurance listing sheet as non-insurable) for which average yields are established and such rates shall be those deemed adequate to cover claims for cotton crop losses and to provide a reasonable reserve against unforeseen losses. Premium rates so established may be revised from time to time as the Corporation may elect.

GENERAL

§ 419.35 *Meaning of terms.* For the purpose of the Cotton Crop Insurance Program, the term:

(a) "Average yield" means the average yield of lint cotton per acre established by the Corporation for each farm or part thereof as shown on the approved crop insurance listing sheet applicable to the year of insurance.

(b) "Cash equivalent price per pound" means the net price per pound of cotton established by the Corporation, for the area in which the insurance unit is located, on the basis of the price of cotton at the spot market designated by the Corporation for the area, with differentials, where applicable, for the location of the area in which the insurance is situated.

(c) "Corporation" means the Federal Crop Insurance Corporation.

(d) "Cotton crop" means only American Upland cotton and does not include cotton planted primarily for experimental purposes.

(e) "County" means the area commonly designated as such, and includes a parish in Louisiana.

(f) "County association" means the County Agricultural Conservation Association in the county.

(g) "County committee" means the County Agricultural Conservation Committee for the county.

(h) "Crop insurance listing sheet" means the form prescribed by the Corporation for the purpose of maintaining a record of farms or parts thereof, average yields, premium rates, and any other information with respect to such farms or parts thereof. The crop insurance listing sheet when approved by the Corporation shall be on file in the office of the county association and may be in-

spected by any producer whose farm is listed thereon.

(i) "Crop year" means the period beginning with the day following the applicable closing date for the filing of applications for insurance for any year and within which the cotton crop is planted and normally harvested, and shall be designated by reference to the calendar year in which the crop is planted.

(j) "Farm" means all adjacent or nearby farm land under the same ownership which is operated by one person, including also: (1) any other adjacent or nearby farm land which the county committee determines is operated by the same person as part of the same unit with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and (2) any field rented tract (whether operated by the same or another person) which, together with any other land included in the farm constitutes a unit with respect to the rotation of crops: *Provided, however,* That for the purpose of determining the minimum participation for a crop insurance program in any county the term "farm" means that acreage of land which constitutes an insurance unit, except that where a landlord and all of his tenants are sharecroppers file applications for insurance or have insurance and all of the landlord's cotton acreage is worked by tenants or sharecroppers, the number of farms to be counted shall be one less than the number of insurance units.

A farm shall be regarded as located in the county if it is listed on the crop insurance listing sheet for such county. However, if a farm is not listed on the crop insurance listing sheet for a county before the applicable closing date for filing applications in the county, the farm shall be regarded as located in the county in which the principal dwelling is situated, or, if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

(k) "First cultivation" means the first tillage of the cotton after it is up which must be performed with an implement, other than a harrow, rotary hoe, or stalk cutter, designed for use on individual cotton rows for the purpose of working the ground close to the plants in the drill.

(l) "Harvest" means the removal of seed cotton from the open cotton boll or the severance of the open cotton boll from the stalk by either manual or mechanical means. For the purpose of determining the stages of production, any acreage which has been harvested one time, as determined by the Corporation, shall be considered as harvested.

(m) "Insurance contract" means the contract of insurance entered into between the applicant and the Corporation by virtue of the application for insurance and these regulations in this part and any amendments thereto.

(n) "Insurance unit" means all or that portion, as the case may be, of the farm (considered for the purpose of establishing the average yield(s) and premium rate(s)) in which the insured has

an interest as a cotton producer at the time of planting, except that (1) any irrigable land on the farm to which irrigation water can be delivered from existing irrigation facilities and any other contiguous small tracts shall constitute one insurance unit and the remainder shall constitute another insurance unit if so designated on the crop insurance listing sheet, and (2) when separate yields and rates have been established for widely separated parts of a farm, such parts of the farm shall constitute separate insurance units: *Provided, however,* That all or any part of such land which is designated on the crop insurance listing sheet as "non-insurable" shall not constitute an insurance unit or any part thereof and shall not be considered in any manner whatsoever under the insurance contract, except as provided in § 419.17 (b) and § 419.37.

(o) "Laying by" means the completion of the final cultivation, consistent with good farming practices, that would be necessary to carry the crop to harvest.

(p) "Local producing area" means any area approved by the Corporation for the purposes of § 419.1 (b).

(q) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity and, wherever applicable, a State, a political subdivision of a State, or any agency thereof.

§ 419.36 *Restriction on purchase and sale of cotton by the Corporation.* The restriction on the purchase and sale of cotton, as provided in section 508 (d) of the Federal Crop Insurance Act, as amended, reads in part as follows:

Insofar as practicable, the Corporation shall purchase the agricultural commodity only at the rate and to a total amount equal to the payment of premiums in cash by farmers or to replace promptly the agricultural commodity sold to prevent deterioration; and shall sell the agricultural commodity only to the extent necessary to cover payments of indemnities and to prevent deterioration: *Provided, however,* That nothing in this sec-

Nothing in this section shall prevent the Corporation from accepting, for the payment of premiums, notes payable in the commodity insured, or the cash equivalent, upon such security as may be determined pursuant to subsection (b) of this section, and from purchasing the quantity of the commodity represented by any of such notes not paid at maturity.

§ 419.37 *Records and access to farm.* For the purpose of enabling the Corporation to determine the loss, if any, that may have occurred under the insurance contract, the insured shall keep, or cause to be kept, for one year after the time of loss, records of the harvesting, ginning, storage, shipment, sale, or other disposition of all cotton produced on each insurance unit covered by the insurance contract and on the non-insurable acreage on each farm in the county in which he has an interest. Such records shall be made available for examination by the Corporation, and as often as may be reasonably required, any person or persons designated by the Corporation shall have access to the farm(s).

The insurance contract may be voided and the premium forfeited to the Corporation without the Corporation's waiving any right or remedy, including its right to collect the amount of the note executed by the insured, whether before or after maturity, if at any time the insured has concealed any material fact or made any false or fraudulent statements relating to the insurance contract, the subject thereof, or his interest in the cotton crop covered thereby, or if the insured shall neglect to use all reasonable means to produce, care for or save the cotton crop covered thereby, whether before or after damage has occurred, or if the insured fails to give any notice, or otherwise fails to comply with the terms of the contract, including the note, at the time and in the manner prescribed.

§ 419.40 *Modification of insurance contract.* No notice to any county committee or representative of the Corporation or knowledge possessed by any such county committee or representative or by any other person shall be held to effect a waiver of or change in any part of the insurance contract or to estop the Corporation from asserting any right or power under such contract; nor shall the terms of such contract be waived or changed except as authorized in writing by a duly authorized officer or representative of the Corporation; nor shall any provision or condition of the insurance contract or any forfeiture be held to be waived by any delay or omis-

Fractions of acres representing total acres of cotton shall be rounded to the nearest tenth of an acre. Computations shall be carried to one digit beyond the digit that is to be rounded. If the extra digit computed is 1, 2, 3, or 4, the rounding shall be downward. If the extra digit computed is 6, 7, 8, or 9, the rounding shall be upward. If the extra digit computed is 5, the computation shall be carried to another digit. PART 1335—OXALIC ACID

[RPS 78, Amdt. 3]

OXALIC ACID

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Price Schedule No. 78 is amended by adding 2 new sections, §§ 1335.557a and 1335.557b to read as follows:

§ 1335.557a *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order.

§ 1335.557b *Applications for adjustment.* Any manufacturer may apply for an adjustment of maximum prices established under this regulation if it can be shown that there is a general shortage of supply of oxalic acid subject to this regulation and that the costs involved in applicant's production thereof have increased so substantially that a price adjustment is necessary to enable him to produce said commodity. Applications shall be made on Office of Price Administration Form No. 692-992 and shall contain the information specified therein. Copies of this form may be obtained from the Rubber, Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C.

(a) *Amount of adjustment.* Any adjustment granted under this section shall be ordinarily limited to:

(1) An amount sufficient to make the adjusted price per unit equal to factory cost per unit where applicant's current over-all profits on an annual basis are favorable as judged by his own or the industry's historical experience.

(2) An amount sufficient to make the adjusted price per unit equal to factory costs per unit, plus general administra-

tive and selling expenses per unit, where applicant's current over all profits on an annual basis are normal as judged by his own or the industry's historical experience. However, the increase shall not ordinarily exceed an amount which will cause his current over all profits on an annual basis to be more than normal as judged by his own or the industry's historical experience.

(3) An amount sufficient to make the adjusted price per unit equal to total cost per unit, plus an adequate margin of profit per unit, where applicant's current over all profits on an annual basis are unfavorable as judged by his own or the industry's historical experience. However, the increase shall not ordinarily exceed an amount which will cause his current over all profits on an annual basis to be more than normal as judged by his own or the industry's historical experience.

(b) *Orders issued under this section.* The Price Administrator may authorize or deny by order the maximum prices requested or any modification thereof and also may adjust the maximum prices of resellers. He may require, in appropriate cases, a compensatory decrease in the maximum prices for another product or products manufactured by applicant.

Any order issued hereunder may be amended or revoked at any time.

(c) *Definitions.* When used in this section, the term: "Over all profits" means over all aggregate dollar profit, adjusted for changes in investment and before deduction of income and excess profit taxes of applicant, or, in the event applicant is a parent, subsidiary, or affiliate of other corporations or business units, of the entire investment enterprise.

"Factory cost" means and includes raw materials less by-product credits, direct labor, and indirect manufacturing cost.

NOTE: Approval by the Bureau of the Budget has been waived.

This amendment shall become effective August 19, 1946.

Issued this 13th day of August 1946.

PAUL A. PORTER,
Administrator.

(1) To insure that all competitors comply with range and match regulations.

(2) To supervise scoring.

INSTRUCTIONS TO COMPETITORS

8. **Squadding.** a. Squadding will be done separately for rifle and pistol matches. No attempt will be made to cross-squad competitors, desiring to participate in both rifle and pistol matches, when such action interferes with normal operations. Any competitor who desires to participate in both rifle and pistol events must select matches scheduled to be fired at times that do not conflict.

b. **Mass-squadding.** When any range is available for practice firing, competitors reporting to that range will be mass-squadded on the range by the chief range officer or an assistant.

9. **Competitors present punctually.** Competitors will be present at the firing points punctually at the target and relay stated on their squadding tickets. No application on the part of a competitor for an alteration of his squadding assignment will be entertained.

10. **Competitors called in advance.** In slow fire stages of individual matches the competitor next to fire may be called to the ready line when the competitor firing has five remaining shots to fire and called to the firing point when the competitor firing has completed his score. Any competitor will forfeit his right to fire if he appears at the proper target after the time shown on his score card for him to appear unless he presents satisfactory evidence that he is late through no fault of his own. If he does not appear when called, any competitor present and assigned to the target, taken in order, may be called to the firing point.

11. **Time limit.** In individual slow fire, competitors may fire with the deliberation they deem necessary: *Provided*, The firing time at that particular range is not exceeded. Competitors will take their places promptly on the firing line.

12. **Extension of time.** If an accident to the target, difficulty in operating it, or any other reason over which the com-

petitor or team has no control causes delay, such time credit as the range officer may decide will be allowed and immediately entered on the score card, the effect of which will be to extend the time limit by that amount.

13. *Challenges.* Challenges will be handled in accordance with the latest issue of official National Rifle Association Rules for the conduct of matches. The challenge fee will be \$1 and will be charged to all competitors making challenges. All challenge money will be delivered to the range director at the end of each day's firing, who in turn will deliver it to the executive officer.

14. *Competitors to sign score cards.* The competitor, or in the case of team matches, the team captain, will check the recorded score and sign score form at conclusion of firing.

15. *Safety precautions.* No arms will be loaded except on command at the firing point. During and after loading the pistol, and after loading, the revolver, will be kept at raised pistol until unloaded, except when aimed at the target for firing. Except when the competitor is at the firing point in the act of firing or ready to fire, pistols exposed to view will have their magazines withdrawn and slides pulled back, and revolvers exposed to view will have their cylinder swung open. Rifles will be carried at all times with bolts open except when the competitors are at the firing point in the act of firing or ready to fire. During and after loading, the muzzle of weapons will be kept pointed in the direction of target until unloaded.

16. *Ammunition, unauthorized.* Any competitor having any ammunition in his belt or about his person when he takes his place at the firing line, other than that authorized, will be immediately disqualified.

17. *Firing, unauthorized.* No firing except at the targets in prescribed competition or authorized practice will be allowed. Any violation of this rule will disqualify the offending competitor for the period of the matches.

18. *Arms.* No weapons will be available for issue to competitors.

19. *Competitors may be required to score, mark targets, or act as range officers.* Any competitor who is detailed to perform any of these duties and fails to do so in a manner satisfactory to the range director will forfeit his right to compete in that match and, in the discretion of the executive officer, may be disqualified during the remainder of the matches from further participation in any match or any practice.

20. *Protests.* Protests and appeals may not be submitted directly to the executive officer, but will be submitted to the range officer of the firing point concerned. In case a competitor considers the decision of latter unwarranted by the facts presented, he may appeal orally to the range director through the chief range officer of that range and then to the executive officer in writing before 9 p. m. of the day of the occurrence. In case the competitor desires to appeal from executive officer's decision such appeal will be submitted in writing within 12 hours. On National Rifle Association

matches, the appeal will be addressed and delivered to the Secretary of the National Rifle Association. Appeal from decision on National Individual Pistol Match will be addressed and delivered to the Executive Officer, National Board for the Promotion of Rifle Practice.

21. *Penalties.* a. Any person interfering with a competitor on the firing point or annoying him in any way will be warned to desist, and if he repeats the offense, he will be ordered off the range at once.

b. Any competitor who shall:

(1) Fire under a name other than that under which he entered, or who shall fire twice for the same price, or

(2) Be guilty of any conduct considered by the executive officer to be discreditable, or

(3) Be guilty of falsifying his score or being accessory thereto, or

(4) Offer a bribe of any kind to any official or other person, or

(5) Be detected in an evasion of the conditions prescribed for the conducting of any match, or

(6) Refuse to obey any instructions of the executive officer or a range officer, or

(7) Be guilty of disorderly conduct may, upon the offense being proved to the satisfaction of the executive officer, be disqualified from competing further in the matches and may be denied any prize won by him during the current matches. He may be barred from Camp Perry.

22. *Awards by the National Board for the Promotion of Rifle Practice.* Distribution of medals and trophies won in the National Trophy Match will be made at the office of the National Board for the Promotion of Rifle Practice in Washington, D. C. All correspondence concerning such medals and other badges will be conducted with the Washington office. Qualification insignia will be issued from the Washington office of the National Board after the close of the matches.

SEC. VIII. *Rules governing pistol matches.* 1. *Same pistol used.* Two or more competitors may use the same pistol in any competition. However, the application of this rule will not be permitted to interfere with the routine squadding of pistol matches; and no squadding changes will be made to adjust conflicts caused by this practice.

2. *Changing of arms.* No competitor will change his gun during the firing of any match (except aggregate matches), unless it has become disabled and has been so designated by the chief range officer.

3. *Pistol range procedure.* a. The procedure for pistol and revolver firing will follow generally that laid down in Rules for Pistol and Revolver Matches published by the National Rifle Association, latest revision or if not covered therein by the provisions of FM 23-35. Such modification of these rules as may be necessary to provide for the special conditions existing at Camp Perry may be authorized by the executive officer.

b. In order to conform to the scoring in the National Rifle Association

matches, all hits in the four ring on the Standard American 25- and 50-yard targets in the National Trophy match shall be scored as misses.

4. *National Trophy Match.* For the National Trophy match only, the following provisions will apply:

a. *Malfunction.* When a competitor claims inability to complete his score at timed or rapid fire within the time limit because of a defective cartridge or disabled piece, the range officer, if satisfied that conditions are as claimed by the competitor, will permit him to re-fire a complete score as soon as may be practicable. No competitor will re-fire any record score more than once because of a defective cartridge or disabled piece. Such shots as may have been fired in the original score will not be marked or scored.

b. *Defective cartridge.* A defective cartridge is defined as one which clearly shows the imprint of the firing pin on the primer. The imprint of the firing pin on the primer will clearly constitute a misfire without further test.

c. *Disabled piece.* An unserviceable or disabled piece is a pistol which is pronounced, by a range officer, as unsuitable for match competition.

d. *Procedure in case of malfunction.* In case of malfunction for any reason whatsoever, the competitor will immediately assume and hold the position of "raise pistol" and call a range officer, whose duty it will be to draw back the slide and investigate the malfunction. The competitor will not clear the malfunction or draw the slide to the rear.

5. *National Rifle Association rules to govern.* The decision of ties, and other matters not specifically covered herein, will be governed by the provisions of the latest revision of the National Rifle Association Rules for the conduct of Pistol and Revolver Matches.

SEC. IX. *Description of arms and ammunition—1. Pistols and revolvers—a. National Trophy Match.* Arm.—Pistol, U. S. caliber .45, M1911 or M1911A1, having not less than 4-pound trigger pull, issued by the Army Ordnance Department, or the same type and caliber of commercially manufactured pistol, privately owned, which must be equipped with fixed sights, the front sight, blade type (not undercut), and the rear sight an open U or rectangular notch, and issue or factory standard stocks. Except as indicated above, the parts of the pistol may be specially fitted and include alterations which will improve the functioning and accuracy of the arm, provided such alterations do not interfere with the functioning of the safety devices as manufactured.

b. *National Rifle Association matches.* As prescribed in the conditions of each match.

2. *Pistol ammunition.* a. Pistol ammunition furnished at the national matches will be issued by the range personnel to competitors at the firing points for practice and for match firing.

b. In the National Trophy Match no pistol ammunition other than that issued on the firing point will be used.

c. In those revolver or pistol matches of the National Rifle Association in

which any ammunition may be used, the program will definitely so state.

[MPR 188, Order 5128]

FELT CARPET LININGS AND RUG CUSHIONS
ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

SECTION 1. Purposes of this order. This order specifies an adjustment charge to be used by manufacturers of felt carpet linings and rug cushions; and it sets forth the specific pricing provisions which all sellers are to follow in calculating their maximum prices for sales of these products.

SEC. 2. Articles covered by this order. The articles covered by this order are felt carpet linings and rug cushions.

SEC. 3. Manufacturers' adjusted maximum prices—(a) Determination of maximum prices. The maximum price for sales of any of the articles covered by this order by a manufacturer to each class of purchaser shall be the higher of the applicable of the following:

(1) His maximum price properly established under Maximum Price Regulation No. 188 (exclusive of any permitted increase or adjustment) for sales to each class of purchaser increased by no more than 8.5 percent.

(2) His maximum price as adjusted or established by an order under Supplementary Order No. 133; or any other order.

SEC. 4. Resellers' maximum prices. (a) The maximum price for a sale by a purchaser for resale who determines his maximum resale price under the General

Maximum Price Regulation of any of the articles covered by this order shall be his invoice cost plus the same percentage markup on that amount which he has on the "most comparable article" for which he has a properly established maximum price (exclusive of any permitted adjustments). For this purpose, the "most comparable article" is the one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a maximum price in this way need not be reported to the Office of Price Administration, however, each seller must keep complete records, showing all the information called for by OPA Form 620-759 with regard to how he determined his maximum price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(b) If the maximum resale price cannot be determined under the above method, the seller shall apply to the Office of Price Administration for the establishment of a maximum price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

SEC. 5. Maximum prices of retailers whose sales are covered by Maximum Price Regulation No. 580. If a retailer determines his maximum price under Maximum Price Regulation No. 580, he shall compute his maximum price in accordance with the rules set forth in that regulation by using a "net cost" based on his invoice cost.

SEC. 6. Terms of sale. Every seller of an article covered by this order must maintain all of his terms, discounts, allowances, and other price differentials in effect during March 1942, or which have been subsequently properly established under Office of Price Administration regulations or orders.

A reseller who did not sell felt carpet linings and rug cushions during March 1942, or whose discounts, allowances, terms and other conditions of sale have not been thereafter established under OPA regulations, shall allow the same cash discounts, delivery terms, allowances, and other price differentials which his closest competitor, who was distributing felt carpet linings and rug cushions during March 1942, is required to allow in accordance with the provisions of this order.

A reseller who cannot ascertain the cash discounts, delivery terms, etc., which his nearest competitor is required to allow, shall apply to the nearest District Office of the Office of Price Administration for an order under this section, establishing the conditions to which his

ceiling prices are subject. Such application may be by letter and shall state the type of business he is operating (wholesaler, retailer), when he started to sell felt carpet linings and rug cushions, and the class of purchasers to whom he sells. An order will be issued under this section establishing the terms, allowances and other price differentials and conditions of sale in line with the conditions of sale generally fixed by this order.

If a reseller who did not sell felt carpet linings and rug cushions during March 1942 does not allow the same discounts, delivery terms and other price differentials allowed by his nearest competitor who did sell felt carpet linings and rug cushions during March 1942, or does not file an application in accordance with the provisions of this section, or if he fails to provide any of the information required by this section, the Price Administrator may, on his own motion, issue orders under this section fixing discounts, allowances and other price differentials in line with such conditions of sale fixed by this order. Conditions of sale so established will apply to all sales and deliveries made on and after the effective date of this order.

Sec. 7. Notification. At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the methods established in section 4 of this order for determining adjusted maximum prices for resales of the articles. This notice may be given in any convenient form.

Sec. 8. Compliance with this order—
 (a) *No buying or selling at over ceiling prices.* Prices established by this order are ceiling prices. Prices lower than ceiling prices may be charged and collected at any time. However, regardless of any contract or other obligation, no person shall sell, offer to sell, or deliver, and in the course of trade or business, no person shall purchase or accept delivery of any felt carpet linings and rug cushions at a price higher than the ceiling price fixed by this order or before the manufacturer has properly determined his ceiling price under this offer.

If, in violation of this provision, a sale, offer to sell, or delivery of any felt carpet lining and rug cushions is made before its ceiling price has been properly established in accordance with this order, the ceiling price applicable to the sale, offer to sell, or delivery shall be the correct ceiling price for such felt carpet lining and rug cushions properly determined in accordance with this order.

(b) *Certain practices forbidden.* It shall be a violation of this order to charge a price above the applicable ceiling price in connection with any sale, of felt carpet lining and rug cushions, either alone or in conjunction with any other consideration, even though the price increase appears only indirectly.

The following is illustrative of the things a seller is not permitted to do. A seller is not permitted to require the purchaser, as a condition of the sale or transfer of felt carpet linings and rug

cushions to make payment over a period of time; to require him to finance the purchaser through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts or services so as to increase the total compensation above the article's ceiling price; to require him to purchase any other commodity or service; or to require him to make payment in whole or in part by exchanging, transferring, or trading in any other felt carpet lining and rug cushion or other commodity. Where there is an exchange, transfer or trade-in in connection with a sale, it is a violation for the seller to give the purchaser an allowance for the commodity exchanged, transferred or traded in, which is less than its reasonable value.

Sec. 9. Credit charges on dealers sales. Charges for the extension of credit may be added to the retail ceiling prices established by this order or by any order issued under this order unless otherwise provided. No such credit charge may exceed that permitted by this section.

(a) Dealers who in March 1942 collected a separately stated additional charge for the extension of credit on sales of felt carpet linings and rug cushions may collect a charge for the extension of credit on sales under this order, not exceeding such charge in March 1942 on a similar sale on similar terms to the same class of purchaser. Dealers who did not then so state and collect an additional charge, may collect a charge for the extension of credit only on installment plan sales; and the charge shall not exceed the separately stated additional charge collected for the extension of credit on a similar sale on similar terms to the same class of purchaser in March 1942 by dealer's closest competitor who made such a separately stated charge.

An installment plan sale as used in the above paragraph means a sale where the unpaid balance is to be paid in installments over a period of either (1) six weeks or more from the date of sale in the case of weekly installments, or (2) eight weeks or more in the case of other than weekly installments.

(b) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately or which otherwise does not conform to this section shall for the purpose of this order, be considered to be part of the price charged for the article sold.

(c) No dealer may require as a condition of sale that the purchaser must buy on credit.

(d) "Dealer" refers to a person making sales at retail as defined in the General Maximum Price Regulation.

ORDER SUMMARILY SUSPENDING TRADING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 9th day of August, A. D. 1946.

The Commission, by order adopted on August 2, 1946, pursuant to section 19 (a) (4), having summarily suspended trading in the Common Stock, \$1 Par Value, of Kresge Department Stores, Inc. on the New York Stock Exchange for a period of ten days in order to prevent fraudulent, deceptive, or manipulative acts or practices;

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on such exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion further that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the Securities Exchange Act of 1934 and the Commission's Rule X-15C2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19 (a) (4) of the Securities Exchange Act

of 1934, that trading in such security be summarily suspended on the New York Stock Exchange in order to prevent fraudulent, deceptive or manipulative acts or practices, this order to be effective for a period of ten (10) days from the opening of the trading session on August 12, 1946.

The United Corporation ("United"), a registered holding company, has filed an amendment to a declaration pursuant to the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder. The declaration, as amended, proposes the following:

United proposes to expend an aggregate of \$5,000,000 from time to time, over a period of six months from the date of the Commission's order herein, to purchase shares of its outstanding \$3 Cumulative Preference Stock. Shares thus acquired will be cancelled and retired. All purchases will be effected on the New York Stock Exchange or the Philadelphia Stock Exchange at current market prices, provided such current market prices do not exceed \$50 per share and are not less than \$47.50 per share. At least seven days prior to the initial purchases under this proposal United proposes to mail to each preference stockholder of record a notice advising such holder of the company's intention to make such purchases in accordance with this Commission's order.

United represents that it will not solicit or cause to be solicited the sale to it of any shares of the preference stock either on or off such exchanges, and that no fees or commissions are to be paid in connection with such purchases except the usual brokerage fees. United further represents that it will furnish to the Commission weekly reports indicating the number of shares of preference stock purchased on each day during the week, the prices at which such shares were purchased, and the name of the broker through whom such shares were purchased, and that it will make public at the end of each three months' period during which purchases are made information showing the total number of shares of preference stock purchased and the aggregate purchase price.

United has presently outstanding 1,214,699 shares of \$3 Cumulative Preference Stock. On July 24, 1946, the Board of Directors of the company declared a dividend of \$7.50 per share on such stock payable August 14, 1946 to the holders of record as of August 5,

1946 (Holding Company Act Release No. 6787). Upon payment of this amount, all dividend arrears will be eliminated. The company has indicated that it proposes to apply to this Commission for permission to pay as of October 1, 1946, the quarterly dividend of 75¢ per share which will then be due on the preference stock.

Said amendment to the declaration having been filed on July 25, 1946 and notice of filing having been given in the manner and form prescribed by Rule U-23 under said act and the Commission not having received a request for hearing with respect to said declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission deeming it appropriate in the public interest and in the interests of investors and consumers to permit said declaration, as amended, to become effective and finding with respect to said declaration, as amended, that the requirements of the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the terms and conditions prescribed in Rule U-24, that said declaration, as amended, be, and the same hereby is, permitted to become effective forthwith.
