1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—CONNECTICUT—SUPPLEMENT (1)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin 101—Connecticut¹ is hereby amended by the addition of the following provisions.

The practice numbers given in this supplement correspond to the numbers of the soil-building practices set out in Bulletin No. 101—Connecticut, and the matter appearing below under the heading "Description of Practice" is in addition to that prescribed under such heading in Bulletin No. 101—Connecticut.

Practice Number and Description of Practice

LIME

1. Ground limestone is limestone which will analyze at least 80 percent carbonates, 90 percent of which will pass through a 20-mesh sieve and 50 percent of which will pass through a 100-mesh sieve.

Part VI, "Definitions", is amended by adding at the end thereof the following:

As used herein as an adjective the term "approved" means, unless the context otherwise requires, found by the county committee to be recognized, in instructions issued by the State committee, as conforming to good farming practice under the circumstances, based upon (a) recommendations contained in the most recent official reports or bulletins issued by the United States Department of Agriculture, the State Department of Agriculture, the State agricultural experiment station, or the State agricultural college, or (b) finding of facts made by the State committee after a study of the material pertinent to the subject matter.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 19th day of February, 1937.

NER—B-101—Maine—Supplement (1) Issued February 19, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—MAINE—SUPPLEMENT (1)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101—Maine¹ is hereby amended by the addition of the following provisions.

The practice numbers given in this supplement correspond to the numbers of the soil-building practices set out in Bulletin No. 101—Maine, and the matter appearing below under the heading "Description of Practice" is in addition to that prescribed under such heading in Bulletin No. 101—Maine.

Practice Number and Description of Practice

LIMING

1. Ground limestone is limestone which will analyze at least 80 percent carbonates, 90 percent of which will pass through a 20-mesh sieve and 50 percent of which will pass through a 100-mesh sieve.

The equivalent of 100 pounds of ground limestone is 75 pounds of agricultural hydrated lime (land lime) or other approved material.

FERTILIZING CONSERVING CROPS

The limits on the number of pounds of plant food per acre for which payment is allowed are as follows:

	Smallest amount (pounds)	Largest amount (pounds)
When fertilizer is applied as top-dressing on hay land, pasture, or orchard sods:		
Complete fertilizer.....	57	192
Nitrogen on pasture and orchard sods.....	16	32
Nitrogen on hay land sods.....	16	24
Phosphoric acid, with or without manure.....	40	80
Potash with or without manure.....	50	86
When fertilizer is applied to land in preparation for new seedings of soil-conserving crops:		
Potash.....	20	40
Phosphoric acid, when there is no nurse crop, or the nurse crop is not harvested for grain.....	40	80
Phosphoric acid, when nurse crop is harvested for grain (no payment for first 32 pounds).....	40	80
When fertilizer is applied to land in preparation for green-manure crops:		
Phosphoric acid.....	40	80
Potash.....	20	40
Complete fertilizer (with nonleguminous crops only).....	57	100
When superphosphate is applied to animal manure as reinforcement and preservative.....	(1)	(1)

¹ Not less than 15 pounds or more than 35 pounds of 20% superphosphate (or its equivalent) per ton of manure.

The manure so treated must be applied so that the application of phosphoric acid in the manure will conform to the requirements outlined under the heading "Fertilizing Conserving Crops."

Part VIII, "Definitions", is amended by adding at the end thereof the following:

As used herein as an adjective the term "approved" means, unless the context otherwise requires, found by the county committee to be recognized, in instructions issued by the State committee, as conforming to good farming practice under the circumstances, based upon (a) recommendations contained in the most recent official reports or bulletins issued by the United States Department of Agriculture, the State Department of Agriculture, the State agricultural experiment station, or the State agricultural college, or (b) finding of facts made by the State committee after a study of the material pertinent to the subject matter.

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin 101—New Hampshire¹ is hereby amended by the addition of the following provisions.

The practice numbers given in this supplement correspond to the numbers of the soil-building practices set out in Bulletin No. 101—New Hampshire, and the matter appearing below, under the heading "Description of Practice", is in addition to that prescribed under such heading in Bulletin No. 101—New Hampshire.

Practice Number and Description of Practice

LIMING

1. 2,000 pounds of ground limestone is the equivalent of 1,500 pounds of hydrated lime, or of other approved material.

Ground limestone is limestone which analyzes 80 percent carbonates, 90 percent of which will pass through a 20-mesh sieve and 50 percent of which will pass through a 100-mesh sieve.

FERTILIZING CONSERVING CROPS

The maximum application of available phosphoric acid or potash for which payment will be made is 100 pounds per acre.

Part V, "Definitions", is amended by adding at the end thereof the following:

As used herein as an adjective the term "approved" means, unless the context otherwise requires, found by the county committee to be recognized, in instructions issued by the State committee, as conforming to good farming practice under the circumstances, based upon (a) recommendations contained in the most recent official reports or bulletins issued by the United States Department of Agriculture, the State Department of Agriculture, the State agricultural experiment station, or the State agricultural college, or (b) finding of facts made by the State committee after a study of the material pertinent to the subject matter.

An application having been duly filed with this Commission, by Laclede Power & Light Company, a subsidiary company of Utilities Power & Light Corporation, a registered holding company, pursuant to Section 10 (a) (2) of the Public Utility Holding Company Act of 1935, for approval of the acquisition by applicant of a leasehold interest in certain utility assets, to-wit: the electric generating plant and properties pertaining thereto located at Granite City, Illinois, now held by George B. Evans as Trustee of St. Louis Gas & Coke Corporation, and presently to be transferred to Granite City Generating Company, a corporation to be organized, and by such corporation leased to applicant;

It is ordered that a hearing on such matter be held on March 4, 1937, at 2:30 o'clock in the afternoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers." It is

requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before February 27, 1937.

It is further ordered that Charles S. Lobingier, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

United States of America—Before the Securities and Exchange Commission

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 18th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF AN OVER-RIDING ROYALTY INTEREST IN THE TEXAS-CALIFORNIA-WILSON CREEK DOME, FILED ON FEBRUARY 12, 1937, BY WILLIAM C. RUSSELL, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that Item 11, Division II, omits exact location of proposed well;

(2) In that Item 13, Division II, omits the date the first well is to be commenced;

(3) In that Exhibit A fails to comply with the requirements of the regulations in that it does not show a legend of symbols; is not dated; the scale is not given, and the location of the proposed well is not shown;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 13th day of March, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 4th day of March, 1937, at 2:00 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE GULF-GOLDSMITH FARM, FILED ON FEBRUARY 11, 1937, BY ARTHUR SORY, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that in Division III, Item 3, it is not fully explained how the estimate of approximately 8,960 productive acres was determined;

(2) In that in Division III, Item 3, it is not fully explained how the "established water table" was determined;

(3) In that in Division III, Item 3, the "data available at this time", on which there is based a maximum of 145 feet from the highest pay datum to the water estimated at minus 1066 are not fully explained;

(4) In that in Division III, Item 3, it has not been fully shown that the use of an average yield per acre of 20,000 barrels for Hobbs is proper;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the
